A minor in business administration is available to students not receiving the Bachelor of Science in Business Administration degree. ACCT 201, ACCT 202, ECON 202S, and either BNAL 206 or STAT 130M must be completed as prerequisites for the minor and are not included in the calculation of the grade point average for the minor. Requirements for the minor are:

FIN 323	Introductory Financial Management	3
MGMT 325	Contemporary Organizations and Management	3
MKTG 311	Marketing Principles and Problems	3
IT 360T	Principles of Information Technology	3
OPMT 303	Operations Management	3
Total Credit Hours		15

To receive a minor, the student must achieve a minimum overall cumulative grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of 200-level courses and prerequisite courses and complete a minimum of six hours in upper-level courses in the minor requirement through courses offered by Old Dominion University.

Minor Public Service Minor

The minor in public service is offered by the School of Public Service. The purpose of the minor is to provide students with a solid theoretical foundation in the study and practice of public service, preparing students for citizenship, leadership, and careers in governmental and non-profit agencies. Students will achieve this goal by completing a series of courses from different disciplines across the University designed to provide a solid foundation in public administration and non-profit management, including an appreciation of both internal process and external environment of public and non-profit organizations. This minor will help prepare students for careers in public service and for graduate education in public administration, public affairs, and related fields.

Requirements

Program Structure

The minor in public service consists of 12 hours of coursework. Students take six hours of core classes and six hours of elective courses. At least three hours of elective courses must be chosen from PAS 408, PAS 409, PAS 410, PAS 411, PAS 412, PAS 413 or PAS 395. The other three elective hours may be selected from the approved list of elective classes, taken upon the recommendation of the department and/or academic advisor. Students should seek the recommendation of their department and/or academic advisor as to the precise mix of elective courses taken.

Designated courses for the minor in public service are as follows:

Required Core

PAS 300	Foundations of Public Service	3
PAS 301	Ethics, Governance and Accountability in Public Service	3

Electives

Select at least one of the following: 3-6

PAS 395	Selected Topics in Public Administration
PAS 408	Public Service Films
PAS 409	Leadership and Cultural Competence
PAS 410	Public and Non-profit Organization
PAS 411	Multi-Sector Partnerships for Public Service
PAS 412	Public Service Practice
PAS 413	Public Service Entrepreneurship

Select one of the following (if needed) 0-3

CRJS 444	Community Justice
HMSV 494	Entrepreneurship in Human Services and Non-Profit Fundraising
PAS 368	Internship in Public Service
PAS 497	Independent Study in Public Service
PHIL 410	Social and Political Philosophy
POLS 300	Introduction to Public Policy
POLS 309	Race, Culture and Public Policy

SOC 300	Social Problems	
SOC 325	Social Welfare	
Total Credit Hours		12

For completion of the minor, a student must have a minimum grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of 200-level courses and prerequisite courses and complete a minimum of six hours in upper-level courses in the minor requirement through courses offered by Old Dominion University.

Minor Urban Community Minor

Christopher B. Colburn, Department of Economics, Coordinator

The interdisciplinary minor in the Urban Community encourages an interdisciplinary approach to the problems and crucial issues that emerge from urban environments. Students gain an understanding of the issues associated with the convergence of diverse populations in urban locations and acquire an appreciation of the complexities of the interlocking and contingent nature of urban problems. This will be accomplished through an examination of the topical areas of common space, diversity, urban services, disorder, and work.

Requirements

Course options are as follows:

ARTH 435W	Modern Architecture	3
CRJS 323	Police in American Society	3
CRJS 325	Women and Crime	3
CRJS 355	Crime and the Community	3
CRJS 441	Drugs and Society	3
ECON 402	Transportation Economics	3
ECON 445W	Urban Economics	3
GEOG 310	Geography of the City	3
GEOG 411	Urban and Regional Planning	3
GEOG 412	Cities of the World	3
PRTS 433	Camp Administration	3
CRJS/SOC 444	Community Justice	3

The interdisciplinary minor in the Urban Community requires 12 credit hours of 300/400-level courses selected from at least two different disciplines with a maximum of six credits from any one discipline. For completion of the interdisciplinary minor, students must have a minimum overall cumulative grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of lower-level courses and prerequisite courses. At least six hours of upper-level courses must be taken through courses offered by Old Dominion University. Three credit hours may be in the major, if a major course is listed as an option for the interdisciplinary minor. As such, it will be credited toward both the major and the interdisciplinary minor.

Accountancy

Programs

Bachelor of Science in Business Administration Program

- Accounting (BSBA) (p. 371)

Minor Program

- Accounting Minor (p. 377)

Linked BSBA/MS in Accounting

Undergraduate students pursuing a BSBA in accounting at Old Dominion University may complete up to nine hours toward a Master

of Science, Accounting (MS) degree by choosing from ACCT 623, ACCT 626, ACCT 627, ACCT 630, and ACCT 662 while enrolled as an undergraduate BSBA student. Students in the linked BSBA/MS program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

A student may apply to the linked BSBA/MS program after completing ACCT 305 and 12 hours from ACCT 306, ACCT 307, ACCT 311, ACCT 425, or ACCT 426 with a C or better. Students must have an overall grade point average of 3.00 in all course work taken at Old Dominion University to be admitted to the linked program. Students must apply for admission to the MS program after completion of the undergraduate degree. Students should note that being in the undergraduate accounting major does not guarantee acceptance to the MS program.

Once admitted to the linked program, a student will take 600-level core graduate accounting courses, and these courses will be applied to the MS course requirements as long as the student already has 120 discrete credit hours for the undergraduate degree. By completing these nine hours, students will only have 21 hours to complete in the MS program during an additional year of study after graduating from the undergraduate program as long as the student earns 120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree for a total of 150 credit hours.

Bachelor of Science in Business Administration Accounting (BSBA)

Hong (Kim) Duong, Ph.D., Chair
To be named, Chief Academic Advisor

Accounting, as the world's oldest information system, provides information for most government, non-profit, and business decisions. Accounting graduates pursue successful careers in the public or private sectors. The undergraduate program in accounting at Old Dominion University is one of a select group in the country with separate accreditation from AACSB-International. The program provides a broad-based education with a variety of career objectives. The Bachelor of Science in Business Administration (BSBA) in accounting provides students with technical accounting knowledge, the ability to analyze problems, communicate solutions, interact with colleagues, and successfully handle ethical issues appropriate for staff-level positions. The program provides, at a minimum, 24 hours of accounting, which is sufficient for a graduate to sit for most accounting professional licensure and certification exams.

A student who seeks a Bachelor of Science in Business Administration degree in accounting from Old Dominion University must, in addition to meeting other requirements of the University, earn a minimum of 25 percent of the total number of credits required for the degree (for example, 30 credits in a 120-credit degree program) through on- or off-campus instruction.

Strome College of Business (SCB) Center for Undergraduate Advising and Student Success

The mission of this office is to challenge and support students in self-exploration and, through advising, provide resources for them to develop an achievable plan for success. Our vision is for students to be aware of their academic, personal, and professional goals; empowered to pursue them; and confident in their ability to accomplish them.

Our professional advisors work with all Strome College of Business students regarding degree planning, changing majors, admissions, continuance, graduation requirements and required curricula for the majors and minors offered by the College.

Degree Requirements

Students in all of the Bachelor of Science in Business Administration degree programs must fulfill the University General Education requirements (including foreign language) as well as the Strome College of Business's

core, major, and elective requirements. Students must choose at least one major area to meet requirements towards the degree.

To stay in compliance with AACSB accreditation standards, students receiving a Bachelor of Science in Business Administration from Old Dominion University must complete at least half of their business course work in residence with a minimum of four courses in their declared major. This equates to 10 business classes, thus meeting the University's residency requirement as well.

Majors in the college may not take business and public administration courses for pass/fail credit except those courses in which pass/fail is the only grading option (i.e., internships and practica).

Admission to the Undergraduate Program in Business Administration

General Requirements

Applicants for admission to the undergraduate degree program in business administration (the Bachelor of Science in Business Administration) should apply initially to the Office of Admissions of Old Dominion University. Students cannot be accepted into business administration without first being admitted to the University. Admission to the University does not guarantee admission to the Bachelor of Science in Business Administration (BSBA) program. Candidates for admission to the BSBA program should indicate on the application to the University their intention to enter the undergraduate business administration degree program.

Admission to the Bachelor's Degree Program in Business Administration:

Before Admission to the bachelor's degree program in business administration can be granted, a student must have earned a grade of C or higher in each of the business Admission courses:

BUSN 110	Introduction to Contemporary Business	1
ENGL 110C	English Composition	3
MATH 162M	Precalculus I	3
ACCT 201	Principles of Financial Accounting	3
ECON 202S	Principles of Microeconomics	3

- BUSN 110 is not required for students pursuing majors under the BSBA in Information Systems and Technology (excluding Business Analytics) or for any student with an associate's degree in business administration or with a prior bachelor's degree in business administration.
- Students may utilize the Grade Forgiveness Policy for the business Admission courses.
- Transfer students may complete business Admission courses (BUSN 110, ENGL 110C, MATH 162M, ACCT 201, and ECON 202S) at another accredited college or university, but are responsible for having Transfer Evaluation Services determine that the courses are acceptable to the University.

Eligibility to Enroll in Upper-Level (300/400-level) Business Courses

Only students who have officially completed Admission courses to the BSBA program will be eligible to enroll in upper-level (300/400) business courses (refer to exceptions for non-business majors). However, students who are in progress with the business Admission courses may enroll in upper-level (300/400) business courses. Note: These students will need a Program Restriction Waiver (PRW) to enroll in these courses, with the exception of FIN 323, MGMT 325, MKTG 311, and OPMT 303. These courses require a junior class standing for registration.

Enrollment in 300/400-level Business Courses by Non-Business Majors

Enrollment in 300/400-level business courses will be granted without the Admission courses for the following exceptions:

1. Students pursuing a declared minor in the Strome College of Business may enroll in 300/400-level business courses appropriate to the minor.
2. Students pursuing Upper-Division General Education Requirement Option B: Interdisciplinary Minor or Option D: Six hours of elective upper-division courses outside the student's major discipline or college.
3. Students wishing to satisfy the Impact of Technology requirement may enroll in IT 360T.
4. Students pursuing a degree program other than the Bachelor of Science in Business Administration (BSBA) that requires or accepts specific 300/400-level business courses to complete the degree may enroll in the courses appropriate to the major.
5. Non-degree-seeking students may enroll in 300/400-level business courses if they have satisfied the prerequisites for these courses.

Students in categories 1 - 5 above who do not have a declared major will need a Program Restriction Waiver (PRW) in order to enroll in any 300/400-level Strome College of Business course (including Economics courses). Forms to request a PRW are available at the Strome College of Business website.

Regulations for Continuance in the Bachelor of Science in Business Administration

In addition to the Old Dominion University continuance policies, the following policies are specific to all declared Bachelor of Science in Business Administration (BSBA) students. The Strome College of Business makes a reasonable effort to notify undergraduate students who are not in good academic standing in the BSBA program of their academic status. Each undergraduate student who is placed on BSBA Academic Alarm or BSBA Termination (explained below) will be sent an e-mail message to that effect at the student's Old Dominion University e-mail address, in accordance with the Electronic Communication Policy for Official University Business. Non-receipt of the e-mail messages by a student will not be considered grounds for granting exceptions or delays in enforcement of the BSBA continuance regulations.

BSBA Continuance Regulations

If a student's Grade Point Average (GPA) in their BSBA Core courses falls below a 2.0, then they will be on Academic Alarm within the Strome College of Business (SCB). This policy is very similar to the University's academic continuance policy, the main difference being that it is based on the core Business courses and impacts acceptance and continuance within the SCB.

Academic Alarm

The first semester in which a student's BSBA Core GPA drops to below a 2.0, they will be on Academic Alarm. Once considered on academic alarm within the college, taking courses within the BSBA Core is the only way to bring that GPA back up.

- If the student raises the BSBA Core GPA to above a 2.0, then they will no longer be on academic alarm.
- If the BSBA Core GPA does not reach a 2.0 but the semester average in the BSBA Core courses is a 2.0 or higher, then the student will remain on academic alarm and be able to continue within the SCB.

SCB Termination

While on academic alarm within the Strome College of Business, if the semester BSBA Core GPA falls below a 2.0, the student will be terminated from the SCB and their major coding will be changed from Business to Undecided. (Terminations will not be processed in summer semesters.)

Appeals

If you have been terminated, you may appeal the decision if you have extenuating circumstances and documentation to support your claim. To appeal, write a letter and include documentation of your circumstances to the Associate Dean of the Strome College of Business (Constant Hall, Suite 2004). There are specific details that need to be included with your appeal -

for more information, please see the appeals process as described in the most recently issued catalog.

Guidelines for Filing a BSBA Termination Appeal

1. All students have the right to appeal their BSBA termination if they believe that extraordinary circumstances were the main reason for their poor academic performance. Notifications of pending BSBA termination are sent to the student's ODU email address and include information on the appeal process and deadlines. All BSBA termination appeals must be submitted electronically using the link provided in the email and will be reviewed by the SCB Termination Appeal Committee. Students are responsible for submitting their appeal by the stated deadline; late appeals will not be reviewed. Decisions of the Termination Appeal Committee may be appealed to the Associate Dean for Academic Programs in the Strome College of Business whose decision is final.

2. Appeals must be based on circumstances pertinent to the semesters in which the academic difficulty occurred that were beyond the control of the student and for which official withdrawal from the course(s) was not an option. Appeal letters must be legible and authored by the terminated student. The appeal letter must provide sufficient detail and explanation regarding the following points because there is no face-to-face meeting with the Associate Dean for Academic Programs in the Strome College of Business. The decision of the Associate Dean is final. Students without documentation will not be allowed to appeal their termination. In order to be reviewed, an appeal letter must:

- a. Document the extraordinary circumstances such as a death in the family, medical complications or chronic conditions, personal or family emergency, overwhelming work schedules, dorm-mate conflict, or a personal relationship conflict that have adversely affected performance: i.e., a statement or letter from a physician, employer, family members, faculty, academic advisor, Counseling Services, or Educational Accessibility.
- b. Explain how the extraordinary circumstances caused each semester of poor academic performance.
- c. State the reasons why an official withdrawal was not requested.
- d. Explain how the extraordinary circumstance(s) has been resolved.
- e. Provide a plan of action to return to good BSBA academic standing.

3. Students who do not file a BSBA termination appeal or whose appeals are denied, are no longer eligible to pursue a bachelor's degree in Business Administration. Upon BSBA termination, the student's major in the Strome College of Business will be removed. (This does not affect a declared second major outside of the BSBA.) These students are advised to work with an advisor in the SCB Center for Undergraduate Advising to explore other major options, and for referrals to other advising departments for a new major declaration.

4. BSBA-terminated students who had pre-registered for a subsequent semester lose eligibility for continued enrollment in upper-level business courses.

Applying for Readmission to the BSBA Program

After a minimum of five years has passed since a student was terminated from the BSBA program, the student may apply for readmission to the program. There must be a high probability the student will successfully complete the degree program, and approval will be at the discretion of the Strome College of Business Associate Dean.

Requirements

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6
Oral Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#oral)	3

Mathematics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#math)	3
Language and Culture (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#language)	0-6
Information Literacy and Research (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#information)	3
Human Behavior (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#behavior)	3
Human Creativity (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#creativity)	3
Interpreting the Past (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#interpret)	3
Literature (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#literature)	3
Philosophy and Ethics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#philosophy)	3
The Nature of Science (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#nature)	8
Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

Oral Communication: COMM 101R or MKTG 200R required. Additionally, all students majoring in business administration can expect to complete several courses in which individual and/or group oral presentations will be required.

Mathematics: MATH 162M and MATH 200 required.

Information Literacy and Research: IT 150G (recommended) or any "G" course from the approved general education information literacy and research course list.

Human Behavior: Met in the Business Administration core for all majors except Economics.

Philosophy and Ethics must be satisfied by completion of either PHIL 230E or an upper-level "E" course from the approved general education ethics course list. A philosophy course designated with a P will not meet this requirement for business administration students with the exception of a "P" course taken prior to fall 2010.

Impact of Technology requirement is satisfied within each BSBA degree major except Information Systems and Technology by IT 360T. In the Information Systems and Technology majors (excluding Business Analytics), the Impact of Technology requirement is satisfied by the coursework required for the major.

Transfer students with an applicable associate's degree from a Virginia Community College or another community college that has a seamless transfer agreement with ODU, and students with a prior bachelor's degree from another university, must nevertheless have a grade of C or better in the following to be able to transfer them:

COMM 101R	Public Speaking	3
or MKTG 200R	Professional Interactions and Negotiations	
PHIL 230E	Introduction to Ethics (Or an upper-level ethics course)	3
ENGL 211C	Writing, Rhetoric, and Research	3
or ENGL 231C	Writing, Rhetoric, and Research: Special Topics	
MATH 162M	Precalculus I	3
MATH 200	Calculus for Business and Economics	3

Upper-Division General Education

- Option A. Any University-approved minor, second degree, or second major.
- Option B. An interdisciplinary minor consisting of 12 credits, three of which can be in the major. Interdisciplinary minors are described in the University Catalog section labeled Requirements for Undergraduate Degrees, Upper-Division Requirements.

- Option C. An approved certification program, such as teaching licensure.
- Option D. Two Upper-Division Courses from outside the Strome College of Business and not required by the major (6 credits).

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Business Administration Core

ACCT 201	Principles of Financial Accounting *	3
ACCT 202	Principles of Managerial Accounting *	3
BNAL 206	Business Analytics I *	3
BNAL 306	Business Analytics II	3
ECON 201S	Principles of Macroeconomics *	3
ECON 202S	Principles of Microeconomics *	3
ECON 301	Managerial Economics	3
FIN 323	Introductory Financial Management	3
FIN 331	Legal Environment of Business	3
IT 360T	Principles of Information Technology **	3
MGMT 325	Contemporary Organizations and Management	3
MGMT 485W	Business Policy and Strategy (C or better) ***	3
MKTG 311	Marketing Principles and Problems	3
OPMT 303	Operations Management	3
Total Credit Hours		42

* Not automatically waived for transfer students with an applicable associate's degree from a Virginia Community College or another acceptable community college, or for students with a prior bachelor's degree from another university. A grade of C or better must be earned to transfer these courses to Old Dominion University.

** Students completing a major or minor in Information Systems and Technology (excluding the Business Analytics major) do not take this course.

*** Students majoring in Economics must complete MGMT 485W, but meet the writing intensive requirement by earning a grade of C or better either in MGMT 485W or in one of the ECON Writing Intensive courses.

Accounting Major

General Education

Complete lower-division requirements		35-41
Complete upper-division requirements (minimum of 6 credit hours)		6
BUSN 110	Introduction to Contemporary Business ⁺	1
MATH 200	Calculus for Business and Economics	3

Business Administration Core

Complete business administration core requirements	42

Accounting

ACCT 305	Essentials of Financial Accounting I (grade of C or better required)	3
ACCT 306	Essentials of Financial Accounting II *	3
ACCT 307	Essentials of Financial Accounting III *	3
ACCT 311	Managerial Accounting *	3
ACCT 411	Financial Auditing *	3
ACCT 425	Taxation of Individuals *	3
ACCT 426	Taxation of Business Entities *	3
ACCT 460	Accounting Information Systems *	3
International Business Requirement		
Select one of the following:		3
ACCT 450	International and Advanced Accounting *	
ECON 450	International Economics	
FIN 435	International Financial Management	
IT 425	Information Systems for International Business	
MGMT 361	International Business Operations	
MGMT 462	Comparative International Management	
MGMT 463	Management Seminar Abroad	
MKTG 411	Multi-National Marketing	
MSCM 370	International Shipping	
Free Elective		3
300-400 Level Free Elective		3
Total Credit Hours		120-126

+ Not required for students pursuing the IT major or for any student with an associate's degree in business administration or with a prior bachelor's degree in business administration.

* Grade of C- or higher required.

ECON 200S cannot be used for credit by students pursuing a degree in the Strome College of Business. ECON 200S cannot be used as a free elective.

Courses included in the calculation of the 2.00 overall grade point average for major course work for graduation are: all 300- and/or 400-level ACCT courses. In addition to an overall and major grade point average of 2.0, students must complete ACCT 305, Essentials of Financial Accounting I, with a grade of C or better and all other upper-division accounting courses with a grade of C- or better in order to graduate.

Non-Required Electives

All accounting students may take one of these electives, and use the course as a free elective or 300-400 level free elective, if they have completed ACCT 305, Essentials of Financial Accounting I, with a C or better and ACCT 306, Essentials of Financial Accounting II, with a C- or better:

ACCT 367	Cooperative Education	1-3
ACCT 368	Student Internship	1-3
ACCT 369	Practicum	1-3
ACCT 405	Accounting and Auditing in the Public/Nonprofit Sector	3
ACCT 422	Tax Research	3
ACCT 450	International and Advanced Accounting	3
ACCT 495	Selected Topics in Accounting	1-3

Additional Requirements and Information

Advanced Placement

The college accepts advanced placement credit in accordance with the rules and regulations outlined in the Academic Information section of this catalog. Students may take College-Level Examination Program (CLEP) tests to receive credit for:

ACCT 201	Principles of Financial Accounting	3
ACCT 202	Principles of Managerial Accounting	3
ECON 201S	Principles of Macroeconomics	3
ECON 202S	Principles of Microeconomics	3
FIN 331	Legal Environment of Business	3
MGMT 325	Contemporary Organizations and Management	3
MKTG 311	Marketing Principles and Problems	3

Students are advised to contact the Office of Prior Learning Assessment for more information regarding CLEP and other prior learning assessment credit options. For advanced placement credit in any other business or public administration course, students are advised to contact the chair of the department offering the course. Additional information about credit awarded for qualifying scores on AP and IB subject examinations can be found on the ODU website: <https://www.odu.edu/academics/academic-records/score-analysis/ap-ib> (<https://www.odu.edu/academics/academic-records/score-analysis/ap-ib/>).

Practical Work Experience for Business Administration Majors

Students may complement their major studies with a practical work experience, which may take the form of an internship, cooperative education experience or a class containing a real-world, hands-on project. Students must apply for internship or co-op participation through the Strome College of Business Career & Leadership Development Satellite Office. All work experiences must be approved by the faculty sponsor in the appropriate department prior to registering for credit. Students may not earn credit for previous or current work experiences. (However, academic credit for work experience may be approved in accordance with the policies for granting prior learning credit as defined in the section on Prior Learning Assessment Credit Options at the Undergraduate Level in this catalog.) For details see the Center for Career & Leadership Development section of this catalog.

Use of Internship and Similar Hours Toward Business Administration Majors

A student may apply no more than six hours of cooperative education, student internship or practicum courses to satisfy degree requirements. Students may not use more than three hours of cooperative education, student internship or practicum courses to satisfy major elective requirements in each of the students' majors. These courses are numbered 367, 368 or 369. Additional hours of cooperative education, student internship or practicum courses, however, can be used to satisfy other requirements such as free electives or general business electives. Additional internships must each involve substantially different kinds of work experiences. Internships must be approved by the Chief Departmental Advisor of the student's major and the CAP Coordinator of the internship.

Transfer of the Associate of Science in Business Administration Towards Degree Requirements

Students transferring to the college must complete a minimum of 10 business courses offered by the college to earn the degree from Old Dominion University, in accordance with AACSB regulations. Those transfer students holding the Associate of Science in Business Administration degree from a Virginia Community College must earn the grade of "C" or better in the following courses in order to satisfy requirements found in the first two years of the BSBA degree:

COMM 101R	Public Speaking	3
ENGL 211C	Writing, Rhetoric, and Research	3
or ENGL 231C	Writing, Rhetoric, and Research: Special Topics	
MATH 162M	Precalculus I	3
MATH 200	Calculus for Business and Economics	3
ACCT 201	Principles of Financial Accounting	3
ACCT 202	Principles of Managerial Accounting	3
ECON 201S	Principles of Macroeconomics	3
ECON 202S	Principles of Microeconomics	3
BNAL 206	Business Analytics I	3

Select one of the following:	3
PHIL 230E Introduction to Ethics	
Upper-level ethics course	

With the exception of the courses listed above, the University's lower-division General Education requirements are deemed satisfied by the accepted AS degrees. These typically include all AS degrees from the Virginia Community College System except the applied science degrees. For more information about accepted AS degrees contact the Office of Admissions. Associate degree holders, although meeting lower-level General Education requirements, must ensure that 120 credits are completed to earn the BSBA degree. A minimum of 25% of the required credit hours must be completed through Old Dominion University, at least 12 of which are upper-level courses in the major program.

The Strome College of Business does not accept courses completed at the freshman and sophomore levels at other institutions for required courses at the junior and senior level at Old Dominion University. Please see the section on CLEP credits (Prior Learning Assessment Credit Options at the Undergraduate Level) for additional information.

Grade Average Requirements for Graduation

To graduate with a Bachelor of Science in Business Administration degree, students must present a minimum of 120 hours with a minimum overall grade point average of 2.00 in all courses taken at Old Dominion University. Students must also attain a minimum overall grade point average of 2.00 in courses taken toward the major (courses included in the major grade point average calculation are listed following the description of each major's course work).

Additionally, students must attain a minimum overall grade point average of 2.00 in the BSBA Core listed below. Only courses completed at Old Dominion University will be used to compute the BSBA Core average. Students with an Information Systems and Technology major (excluding Business Analytics) are not required to take IT 360T, so the BSBA Core grade point average is computed using the remaining courses. If the BSBA Core average is below the required 2.00 minimum, students are advised to utilize the Grade Forgiveness Policy or Adjusted Resident Credit option when appropriate to improve the grade point average.

Requirements for Completing a Bachelor of Science in Business Administration

The following sections show the courses that are requirements for all business students, regardless of the chosen major: Lower-Division General Education, BSBA Core Courses, and Upper-Division General Education. Credit hours are listed after the course title. The student must also choose a major and complete the requirements listed for that major on the following pages.

Foundation Courses for Admission to the Strome College of Business

ENGL 110C	English Composition (C or better)	3
MATH 162M	Precalculus I (C or better)	3
ACCT 201	Principles of Financial Accounting (C or better)	3
ECON 202S	Principles of Microeconomics (C or better)	3
BUSN 110	Introduction to Contemporary Business *	1

* Not required for students pursuing an Information Systems and Technology major (excluding Business Analytics) or for students with an associate's degree in business administration or with a prior bachelor's degree in business administration.

See the section on Admission to the Undergraduate Program in Business Administration, General Requirements.

Business Elective

A business elective is a course that is offered by an accredited college of business, including the Strome College of Business at Old Dominion

University. Public Affairs and Service (PAS) courses offered by the Strome College of Business are not considered as business courses. However, because some business courses cannot be used to satisfy the requirements of certain majors, students must refer to their specific degree program requirements to make sure that they complete appropriate business elective courses. For example, ECON 200S cannot be used to satisfy an elective requirement for students majoring in business administration. Also, IT 360T cannot be used as an elective by students majoring in Information Systems and Technology. Refer to the course description section of this Catalog for full details of courses and their prerequisites.

Free Elective

In the majority of cases a free elective is any course offered by an accredited community college or university, including Old Dominion University. However, because some courses cannot be used to satisfy the requirements of certain majors, students must refer to their specific degree program requirements to make sure that they complete appropriate elective courses. For example, ECON 200S cannot be used to satisfy an elective requirement for students majoring in business administration. Also, IT 360T cannot be used as an elective by students majoring in Information Systems and Technology. Refer to the course description section of this Catalog for full details of courses and their prerequisites.

Degree Program Guide

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

Linked BSBA/MS in Accounting

Undergraduate students pursuing a BSBA in accounting at Old Dominion University may complete up to nine hours toward a Master of Science, Accounting (MS) degree by choosing from ACCT 623, ACCT 626, ACCT 627, ACCT 630, and ACCT 662 while enrolled as an undergraduate BSBA student. Students in the linked BSBA/MS program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

A student may apply to the linked BSBA/MS program after completing ACCT 305 and 12 hours from ACCT 306, ACCT 307, ACCT 311, ACCT 425, or ACCT 426 with a C or better. Students must have an overall grade point average of 3.00 in all course work taken at Old Dominion University to be admitted to the linked program. Students must apply for admission to the MS program after completion of the undergraduate degree. Students should note that being in the undergraduate accounting major does not guarantee acceptance to the MS program.

Once admitted to the linked program, a student will take 600-level core graduate accounting courses, and these courses will be applied to the MS course requirements as long as the student already has 120 discrete credit hours for the undergraduate degree. By completing these nine hours, students will only have 21 hours to complete in the MS program during an additional year of study after graduating from the undergraduate program as long as the student earns 120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree for a total of 150 credit hours.

BSBA to MBA (Master of Business Administration) Linked Program

Students interested in the program should contact the MBA Program Office as early as possible to discuss their plans for early entry. Once admitted to the program, the MBA program manager will act as the student's co-advisor, along with the chief departmental advisor or chief discipline advisor in the student's undergraduate major. The MBA Program Office is located in 1026 Constant Hall. The phone number is 757-683-3585 and email is mbainfo@odu.edu.

BSBA to MPA (Master of Public Administration) Linked Program

The linked BSBA to MPA program provides qualified Old Dominion University undergraduate students with the opportunity to earn a master's degree in public administration while taking 12 credits of the MPA program as an undergraduate student. The program is designed for highly motivated students with the desire to immediately continue their education after the bachelor's degree. The program is especially relevant to individuals seeking to work (or currently working) in the public or non-profit sectors, but is suitable for students from any undergraduate major. Graduate courses may be taken during the fall and spring semester of the student's senior undergraduate year. After receiving the undergraduate degree, a student will continue with the MPA program, taking MPA courses until completing the required 39 credit hours. Students in the linked program

must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Admission Requirements

A potential candidate will have:

1. Completed all lower level general education requirements
2. Achieved a cumulative GPA of at least 3.0 at the end of the junior year

Requirements for admission to the graduate program can be found in the School of Public Service section of the Graduate Catalog. For additional information, please contact the School of Public Service in the Strome College of Business.

Minor Accounting Minor Requirements

A minor in accounting requires the completion of ACCT 305 with a grade of C or better, ACCT 306 with a C- or better, and 6 hours of 300- and/or 400-level accounting courses. All accounting courses at the 300 and 400 levels must be preceded by listed prerequisites with:

ACCT 201 & ACCT 202	Principles of Financial Accounting and Principles of Managerial Accounting	6
or		
ACCT 226 & ACCT 227	Honors: Principles of Financial Accounting and Honors: Principles of Managerial Accounting	6
As prerequisites to:		
ACCT 305	Essentials of Financial Accounting I	3

Students cannot use ACCT 367, ACCT 368 or ACCT 369 to satisfy the minor elective. To receive a minor, the student must achieve a minimum overall cumulative grade point average of 2.00 in all 300- and/or 400-level accounting courses specified as a requirement for the minor exclusive of 200-level courses and prerequisite courses. In addition, a grade of C or better is required in ACCT 305, and a grade of C- or better is required in all other 300-and/or 400-level accounting courses counted toward the minor. A minimum of 6 hours in upper-level courses in the minor must be taken through courses offered by Old Dominion University.

Economics

Programs

Bachelor of Science in Business Administration Program

- Economics (BSBA) (p. 377)

Minor Program

- Economics Minor (p. 383)

Bachelor of Science in Business Administration Economics (BSBA)

Robert McNab, Chair
Mohamed Rahoui, Chief Departmental Advisor

Economics is the study of how societies use their limited resources to produce wealth and how the distribution of the wealth among their members is determined. Knowledge of economics helps businesses and households understand how economic events will affect them, how they can best react to those events, and how to assess government economic policies.

Majoring in economics is a springboard to a wide variety of careers in business, government agencies, and not-for-profit organizations. A major in economics is also excellent preparation for law school and graduate study towards master's and doctoral programs in economics, business administration, public administration, urban studies, international studies, marine affairs, and other fields. A student who seeks a Bachelor of Science in Business Administration degree with a major in Economics from Old Dominion University must, in addition to meeting other requirements of the University, earn a minimum of 25 percent of the total number of credits required for the degree (for example, 30 credits in a 120-credit degree program) through on- or off-campus instruction. This must include a minimum of 12 credit hours of upper-level ECON courses.

Strome College of Business (SCB) Center for Undergraduate Advising and Student Success

The mission of this office is to challenge and support students in self-exploration and, through advising, provide resources for them to develop an achievable plan for success. Our vision is for students to be aware of their academic, personal, and professional goals; empowered to pursue them; and confident in their ability to accomplish them.

Our professional advisors work with all Strome College of Business students regarding degree planning, changing majors, admissions, continuance, graduation requirements and required curricula for the majors and minors offered by the College.

Degree Requirements

Students in all of the Bachelor of Science in Business Administration degree programs must fulfill the University General Education requirements (including foreign language) as well as the Strome College of Business's core, major, and elective requirements. Students must choose at least one major area to meet requirements towards the degree.

To stay in compliance with AACSB accreditation standards, students receiving a Bachelor of Science in Business Administration from Old Dominion University must complete at least half of their business course work in residence with a minimum of four courses in their declared major. This equates to 10 business classes, thus meeting the University's residency requirement as well.

Majors in the college may not take business and public administration courses for pass/fail credit except those courses in which pass/fail is the only grading option (i.e., internships and practica).

Admission to the Undergraduate Program in Business Administration

General Requirements

Applicants for admission to the undergraduate degree program in business administration (the Bachelor of Science in Business Administration) should apply initially to the Office of Admissions of Old Dominion University. Students cannot be accepted into business administration without first being admitted to the University. Admission to the University does not guarantee admission to the Bachelor of Science in Business Administration (BSBA) program. Candidates for admission to the BSBA program should indicate on the application to the University their intention to enter the undergraduate business administration degree program.

Admission to the Bachelor's Degree Program in Business Administration:

Before Admission to the bachelor's degree program in business administration can be granted, a student must have earned a grade of C or higher in each of the business Admission courses:

BUSN 110	Introduction to Contemporary Business	1
ENGL 110C	English Composition	3
MATH 162M	Precalculus I	3
ACCT 201	Principles of Financial Accounting	3
ECON 202S	Principles of Microeconomics	3

- BUSN 110 is not required for students pursuing majors under the BSBA in Information Systems and Technology (excluding Business Analytics) or for any student with an associate's degree in business administration or with a prior bachelor's degree in business administration.
- Students may utilize the Grade Forgiveness Policy for the business Admission courses.
- Transfer students may complete business Admission courses (BUSN 110, ENGL 110C, MATH 162M, ACCT 201, and ECON 202S) at another accredited college or university, but are responsible for having Transfer Evaluation Services determine that the courses are acceptable to the University.

Eligibility to Enroll in Upper-Level (300/400-level) Business Courses

Only students who have officially completed Admission courses to the BSBA program will be eligible to enroll in upper-level (300/400) business courses (refer to exceptions for non-business majors). However, students who are in progress with the business Admission courses may enroll in upper-level (300/400) business courses. Note: These students will need a Program Restriction Waiver (PRW) to enroll in these courses, with the exception of FIN 323, MGMT 325, MKTG 311, and OPMT 303. These courses require a junior class standing for registration.

Enrollment in 300/400-level Business Courses by Non-Business Majors

Enrollment in 300/400-level business courses will be granted without the Admission courses for the following exceptions:

1. Students pursuing a declared minor in the Strome College of Business may enroll in 300/400-level business courses appropriate to the minor.
2. Students pursuing Upper-Division General Education Requirement Option B: Interdisciplinary Minor or Option D: Six hours of elective upper-division courses outside the student's major discipline or college.
3. Students wishing to satisfy the Impact of Technology requirement may enroll in IT 360T.
4. Students pursuing a degree program other than the Bachelor of Science in Business Administration (BSBA) that requires or accepts specific 300/400-level business courses to complete the degree may enroll in the courses appropriate to the major.
5. Non-degree-seeking students may enroll in 300/400-level business courses if they have satisfied the prerequisites for these courses.

Students in categories 1 - 5 above who do not have a declared major will need a Program Restriction Waiver (PRW) in order to enroll in any 300/400-level Strome College of Business course (including Economics courses). Forms to request a PRW are available at the Strome College of Business website.

Regulations for Continuance in the Bachelor of Science in Business Administration

In addition to the Old Dominion University continuance policies, the following policies are specific to all declared Bachelor of Science in Business Administration (BSBA) students. The Strome College of Business makes a reasonable effort to notify undergraduate students who are not in good academic standing in the BSBA program of their academic status. Each undergraduate student who is placed on BSBA Academic Alarm or BSBA Termination (explained below) will be sent an e-mail message to that effect at the student's Old Dominion University e-mail address, in accordance with the Electronic Communication Policy for Official University Business. Non-receipt of the e-mail messages by a student will not be considered grounds for granting exceptions or delays in enforcement of the BSBA continuance regulations.

BSBA Continuance Regulations

If a student's Grade Point Average (GPA) in their BSBA Core courses falls below a 2.0, then they will be on Academic Alarm within the Strome

College of Business (SCB). This policy is very similar to the University's academic continuance policy, the main difference being that it is based on the core Business courses and impacts acceptance and continuance within the SCB.

Academic Alarm

The first semester in which a student's BSBA Core GPA drops to below a 2.0, they will be on Academic Alarm. Once considered on academic alarm within the college, taking courses within the BSBA Core is the only way to bring that GPA back up.

- If the student raises the BSBA Core GPA to above a 2.0, then they will no longer be on academic alarm.
- If the BSBA Core GPA does not reach a 2.0 but the semester average in the BSBA Core courses is a 2.0 or higher, then the student will remain on academic alarm and be able to continue within the SCB.

SCB Termination

While on academic alarm within the Strome College of Business, if the semester BSBA Core GPA falls below a 2.0, the student will be terminated from the SCB and their major coding will be changed from Business to Undecided. (Terminations will not be processed in summer semesters.)

Appeals

If you have been terminated, you may appeal the decision if you have extenuating circumstances and documentation to support your claim. To appeal, write a letter and include documentation of your circumstances to the Associate Dean of the Strome College of Business (Constant Hall, Suite 2004). There are specific details that need to be included with your appeal - for more information, please see the appeals process as described in the most recently issued catalog.

Guidelines for Filing a BSBA Termination Appeal

1. All students have the right to appeal their BSBA termination if they believe that extraordinary circumstances were the main reason for their poor academic performance. Notifications of pending BSBA termination are sent to the student's ODU email address and include information on the appeal process and deadlines. All BSBA termination appeals must be submitted electronically using the link provided in the email and will be reviewed by the SCB Termination Appeal Committee. Students are responsible for submitting their appeal by the stated deadline; late appeals will not be reviewed. Decisions of the Termination Appeal Committee may be appealed to the Associate Dean for Academic Programs in the Strome College of Business whose decision is final.
2. Appeals must be based on circumstances pertinent to the semesters in which the academic difficulty occurred that were beyond the control of the student and for which official withdrawal from the course(s) was not an option. Appeal letters must be legible and authored by the terminated student. The appeal letter must provide sufficient detail and explanation regarding the following points because there is no face-to-face meeting with the Associate Dean for Academic Programs in the Strome College of Business. The decision of the Associate Dean is final. Students without documentation will not be allowed to appeal their termination. In order to be reviewed, an appeal letter must:
 - a. Document the extraordinary circumstances such as a death in the family, medical complications or chronic conditions, personal or family emergency, overwhelming work schedules, dorm-mate conflict, or a personal relationship conflict that have adversely affected performance: i.e., a statement or letter from a physician, employer, family members, faculty, academic advisor, Counseling Services, or Educational Accessibility.
 - b. Explain how the extraordinary circumstances caused each semester of poor academic performance.
 - c. State the reasons why an official withdrawal was not requested.
 - d. Explain how the extraordinary circumstance(s) has been resolved.
 - e. Provide a plan of action to return to good BSBA academic standing.

3. Students who do not file a BSBA termination appeal or whose appeals are denied, are no longer eligible to pursue a bachelor's degree in Business Administration. Upon BSBA termination, the student's major in the Strome College of Business will be removed. (This does not affect a declared second major outside of the BSBA.) These students are advised to work with an advisor in the SCB Center for Undergraduate Advising to explore other major options, and for referrals to other advising departments for a new major declaration.

4. BSBA-terminated students who had pre-registered for a subsequent semester lose eligibility for continued enrollment in upper-level business courses.

Applying for Readmission to the BSBA Program

After a minimum of five years has passed since a student was terminated from the BSBA program, the student may apply for readmission to the program. There must be a high probability the student will successfully complete the degree program, and approval will be at the discretion of the Strome College of Business Associate Dean.

Requirements

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6
Oral Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#oral)	3
Mathematics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#math)	3
Language and Culture (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#language)	0-6
Information Literacy and Research (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#information)	3
Human Behavior (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#behavior)	3
Human Creativity (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#creativity)	3
Interpreting the Past (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#interpret)	3
Literature (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#literature)	3
Philosophy and Ethics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#philosophy)	3
The Nature of Science (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#nature)	8
Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

Oral Communication: COMM 101R or MKTG 200R required. Additionally, all students majoring in business administration can expect to complete several courses in which individual and/or group oral presentations will be required.

Mathematics: MATH 162M and MATH 200 required.

Information Literacy and Research: IT 150G (recommended) or any "G" course from the approved general education information literacy and research course list.

Human Behavior: Met in the Business Administration core for all majors except Economics.

Philosophy and Ethics must be satisfied by completion of either PHIL 230E or an upper-level "E" course from the approved general education ethics course list. A philosophy course designated with a P will not meet this requirement for business administration students with the exception of a "P" course taken prior to fall 2010.

Impact of Technology requirement is satisfied within each BSBA degree major except Information Systems and Technology by IT 360T. In the Information Systems and Technology majors (excluding Business Analytics), the Impact of Technology requirement is satisfied by the coursework required for the major.

Transfer students with an applicable associate's degree from a Virginia Community College or another community college that has a seamless transfer agreement with ODU, and students with a prior bachelor's degree from another university, must nevertheless have a grade of C or better in the following to be able to transfer them:

COMM 101R	Public Speaking	3
or MKTG 200R	Professional Interactions and Negotiations	
PHIL 230E	Introduction to Ethics (Or an upper-level ethics course)	3
ENGL 211C	Writing, Rhetoric, and Research	3
or ENGL 231C	Writing, Rhetoric, and Research: Special Topics	
MATH 162M	Precalculus I	3
MATH 200	Calculus for Business and Economics	3

Upper-Division General Education

- Option A. Any University-approved minor, second degree, or second major.
- Option B. An interdisciplinary minor consisting of 12 credits, three of which can be in the major. Interdisciplinary minors are described in the University Catalog section labeled Requirements for Undergraduate Degrees, Upper-Division Requirements.
- Option C. An approved certification program, such as teaching licensure.
- Option D. Two Upper-Division Courses from outside the Strome College of Business and not required by the major (6 credits).

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Business Administration Core

ACCT 201	Principles of Financial Accounting *	3
ACCT 202	Principles of Managerial Accounting *	3
BNAL 206	Business Analytics I *	3
BNAL 306	Business Analytics II	3

Free Elective ***	3
200-400 Level Free Elective ***	3
300-400 Level Business Elective ****	6

Total Credit Hours	120-126

*	Grade of C- or higher required.
**	No more than three credits of ECON 368 and/or ECON 369.
***	Excluding ECON 200S.

****	Can be any 300-400 level course offered by the Strome College of Business or transfer courses of a business or economics nature.
+	Not required for students pursuing the IT major or for any student with an associate's degree in business administration or with a prior bachelor's degree in business administration.

All upper-level economics courses taken are included in the grade point average in the major except ECON 301 and ECON 436 (ECON 436 does not count toward the major in economics).

Minimum Grade Requirements for Completion of the Major

For completion of a major in economics, a student must have a minimum overall cumulative grade point average of 2.00 in all 300-400 level economics courses taken except ECON 301 and ECON 436. Students must also earn a grade of C or better in ECON 201S, ECON 202S and one of the ECON writing intensive (W) courses and must earn a grade of C- or better in ECON 304, ECON 305, ECON 311, ECON 400, and two 300-400 level ECON electives, not including ECON 436, which does not count toward the major in economics.

Additional Requirements and Information

Advanced Placement

The college accepts advanced placement credit in accordance with the rules and regulations outlined in the Academic Information section of this catalog. Students may take College-Level Examination Program (CLEP) tests to receive credit for:

ACCT 201	Principles of Financial Accounting	3
ACCT 202	Principles of Managerial Accounting	3
ECON 201S	Principles of Macroeconomics	3
ECON 202S	Principles of Microeconomics	3
FIN 331	Legal Environment of Business	3
MGMT 325	Contemporary Organizations and Management	3
MKTG 311	Marketing Principles and Problems	3

Students are advised to contact the Office of Prior Learning Assessment for more information regarding CLEP and other prior learning assessment credit options. For advanced placement credit in any other business or public administration course, students are advised to contact the chair of the department offering the course. Additional information about credit awarded for qualifying scores on AP and IB subject examinations can be found on the ODU website: <https://www.odu.edu/academics/academic-records/score-analysis/ap-ib> (<https://www.odu.edu/academics/academic-records/score-analysis/ap-ib/>).

Practical Work Experience for Business Administration Majors

Students may complement their major studies with a practical work experience, which may take the form of an internship, cooperative education experience or a class containing a real-world, hands-on project. Students must apply for internship or co-op participation through the Strome College of Business Career & Leadership Development Satellite Office. All work experiences must be approved by the faculty sponsor in the appropriate department prior to registering for credit. Students may not earn credit for previous or current work experiences. (However, academic credit for work experience may be approved in accordance with the policies for granting prior learning credit as defined in the section on Prior Learning Assessment Credit Options at the Undergraduate Level in this catalog.) For details see the Center for Career & Leadership Development section of this catalog.

Use of Internship and Similar Hours Toward Business Administration Majors

A student may apply no more than six hours of cooperative education, student internship or practicum courses to satisfy degree requirements. Students may not use more than three hours of cooperative education,

student internship or practicum courses to satisfy major elective requirements in each of the students' majors. These courses are numbered 367, 368 or 369. Additional hours of cooperative education, student internship or practicum courses, however, can be used to satisfy other requirements such as free electives or general business electives. Additional internships must each involve substantially different kinds of work experiences. Internships must be approved by the Chief Departmental Advisor of the student's major and the CAP Coordinator of the internship.

Transfer of the Associate of Science in Business Administration Towards Degree Requirements

Students transferring to the college must complete a minimum of 10 business courses offered by the college to earn the degree from Old Dominion University, in accordance with AACSB regulations. Those transfer students holding the Associate of Science in Business Administration degree from a Virginia Community College must earn the grade of "C" or better in the following courses in order to satisfy requirements found in the first two years of the BSBA degree:

COMM 101R	Public Speaking	3
ENGL 211C	Writing, Rhetoric, and Research	3
or ENGL 231C	Writing, Rhetoric, and Research: Special Topics	
MATH 162M	Precalculus I	3
MATH 200	Calculus for Business and Economics	3
ACCT 201	Principles of Financial Accounting	3
ACCT 202	Principles of Managerial Accounting	3
ECON 201S	Principles of Macroeconomics	3
ECON 202S	Principles of Microeconomics	3
BNAL 206	Business Analytics I	3
Select one of the following:		3
PHIL 230E	Introduction to Ethics	
Upper-level ethics course		

With the exception of the courses listed above, the University's lower-division General Education requirements are deemed satisfied by the accepted AS degrees. These typically include all AS degrees from the Virginia Community College System except the applied science degrees. For more information about accepted AS degrees contact the Office of Admissions. Associate degree holders, although meeting lower-level General Education requirements, must ensure that 120 credits are completed to earn the BSBA degree. A minimum of 25% of the required credit hours must be completed through Old Dominion University, at least 12 of which are upper-level courses in the major program.

The Strome College of Business does not accept courses completed at the freshman and sophomore levels at other institutions for required courses at the junior and senior level at Old Dominion University. Please see the section on CLEP credits (Prior Learning Assessment Credit Options at the Undergraduate Level) for additional information.

Grade Average Requirements for Graduation

To graduate with a Bachelor of Science in Business Administration degree, students must present a minimum of 120 hours with a minimum overall grade point average of 2.00 in all courses taken at Old Dominion University. Students must also attain a minimum overall grade point average of 2.00 in courses taken toward the major (courses included in the major grade point average calculation are listed following the description of each major's course work).

Additionally, students must attain a minimum overall grade point average of 2.00 in the BSBA Core listed below. Only courses completed at Old Dominion University will be used to compute the BSBA Core average. Students with an Information Systems and Technology major (excluding Business Analytics) are not required to take IT 360T, so the BSBA Core grade point average is computed using the remaining courses. If the BSBA Core average is below the required 2.00 minimum, students are advised to utilize the Grade Forgiveness Policy or Adjusted Resident Credit option when appropriate to improve the grade point average.

Requirements for Completing a Bachelor of Science in Business Administration

The following sections show the courses that are requirements for all business students, regardless of the chosen major: Lower-Division General Education, BSBA Core Courses, and Upper-Division General Education. Credit hours are listed after the course title. The student must also choose a major and complete the requirements listed for that major on the following pages.

Foundation Courses for Admission to the Strome College of Business

ENGL 110C	English Composition (C or better)	3
MATH 162M	Precalculus I (C or better)	3
ACCT 201	Principles of Financial Accounting (C or better)	3
ECON 202S	Principles of Microeconomics (C or better)	3
BUSN 110	Introduction to Contemporary Business *	1

* Not required for students pursuing an Information Systems and Technology major (excluding Business Analytics) or for students with an associate's degree in business administration or with a prior bachelor's degree in business administration.

See the section on Admission to the Undergraduate Program in Business Administration, General Requirements.

Business Elective

A business elective is a course that is offered by an accredited college of business, including the Strome College of Business at Old Dominion University. Public Affairs and Service (PAS) courses offered by the Strome College of Business are not considered as business courses. However, because some business courses cannot be used to satisfy the requirements of certain majors, students must refer to their specific degree program requirements to make sure that they complete appropriate business elective courses. For example, ECON 200S cannot be used to satisfy an elective requirement for students majoring in business administration. Also, IT 360T cannot be used as an elective by students majoring in Information Systems and Technology. Refer to the course description section of this Catalog for full details of courses and their prerequisites.

Free Elective

In the majority of cases a free elective is any course offered by an accredited community college or university, including Old Dominion University. However, because some courses cannot be used to satisfy the requirements of certain majors, students must refer to their specific degree program requirements to make sure that they complete appropriate elective courses. For example, ECON 200S cannot be used to satisfy an elective requirement for students majoring in business administration. Also, IT 360T cannot be used as an elective by students majoring in Information Systems and Technology. Refer to the course description section of this Catalog for full details of courses and their prerequisites.

Degree Program Guide

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

Course	Title	Credit Hours
Freshman

BSBA to MBA (Master of Business Administration) Linked Program

Students interested in the program should contact the MBA Program Office as early as possible to discuss their plans for early entry. Once admitted to the program, the MBA program manager will act as the student's co-advisor, along with the chief departmental advisor or chief discipline advisor in the student's undergraduate major. The MBA Program Office is located in 1026 Constant Hall. The phone number is 757-683-3585 and email is mbainfo@odu.edu.

BSBA to MPA (Master of Public Administration) Linked Program

The linked BSBA to MPA program provides qualified Old Dominion University undergraduate students with the opportunity to earn a master's degree in public administration while taking 12 credits of the MPA program as an undergraduate student. The program is designed for highly motivated students with the desire to immediately continue their education after the bachelor's degree. The program is especially relevant to individuals seeking to work (or currently working) in the public or non-profit sectors, but is suitable for students from any undergraduate major. Graduate courses may be taken during the fall and spring semester of the student's senior undergraduate year. After receiving the undergraduate degree, a student will continue with the MPA program, taking MPA courses until completing the required 39 credit hours. Students in the linked program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Admission Requirements

- A potential candidate will have:
- 1. Completed all lower level general education requirements
 - 2. Achieved a cumulative GPA of at least 3.0 at the end of the junior year

Requirements for admission to the graduate program can be found in the School of Public Service section of the Graduate Catalog. For additional information, please contact the School of Public Service in the Strome College of Business.

Minor
Economics Minor
Requirements

A minor in economics requires the completion of 12 hours of 300- and/or 400-level economics courses. The 12 hours must include either ECON 304 or ECON 305, and may include both. The 12 hours may not include ECON 368, ECON 369 or ECON 436. All courses at the 300 and 400 levels must be preceded by listed prerequisites.

For completion of the minor, a student must have a minimum overall cumulative grade point average of 2.00 in all economics courses exclusive of 100/200-level courses. A minimum of 6 hours in upper-level courses in the minor must be taken through courses offered by Old Dominion University. In addition, students must earn a grade of C or better in ECON 202S and a grade of C- or better in either ECON 304 or ECON 305, and in three other 300-400 level ECON courses. Students must also earn a grade of C or better in ECON 201S if they wish to take ECON 305.

A minor in economics will fulfill the Upper-Division General Education requirements for all BSBA majors.

Financial Management
Programs

Bachelor of Science in Business Administration
Programs

- Financial Management with a Major in Finance (BSBA) (p. 383)
- Financial Management with a Major in Personal Financial Planning (BSBA) (p. 389)
- Financial Management with a Major in Real Estate (BSBA) (p. 394)
- Financial Management with a Major in Risk Management and Insurance (BSBA) (p. 400)

Minor Programs

- Financial Management Minor (p. 406)
- Real Estate Minor (p. 406)
- Risk Management and Insurance Minor (p. 406)

Bachelor of Science in Business
Administration
Financial Management with a
Major in Finance (BSBA)

Bruce Rubin, Chair
Sara Russell-Riggs, Chief Departmental Advisor

Financial management comprises four majors: finance, personal financial planning, real estate, and risk management and insurance. Finance graduates are qualified for corporate financial management positions such as financial analysts, capital budgeting managers, credit managers, or cash control and risk managers; portfolio management positions like securities analysts, account executives, or portfolio manager/analysts; bank management

positions include lending officers, marketing officers, or loan analysts; or entrepreneurs running their own businesses.

A student who seeks a Bachelor of Science in Business Administration degree in financial management with a major in finance from Old Dominion University must, in addition to meeting other requirements of the University, earn a minimum of 25 percent of the total number of credits required for the degree (for example, 30 credits in a 120-credit degree program) through on- or off-campus instruction. This must include a minimum of 12 credit hours of upper-level FIN courses or other upper-level courses specifically listed as requirements or electives on the course lists below.

Strome College of Business (SCB) Center for Undergraduate Advising
and Student Success

The mission of this office is to challenge and support students in self-exploration and, through advising, provide resources for them to develop an achievable plan for success. Our vision is for students to be aware of their academic, personal, and professional goals; empowered to pursue them; and confident in their ability to accomplish them.

Our professional advisors work with all Strome College of Business students regarding degree planning, changing majors, admissions, continuance, graduation requirements and required curricula for the majors and minors offered by the College.

Degree Requirements

Students in all of the Bachelor of Science in Business Administration degree programs must fulfill the University General Education requirements (including foreign language) as well as the Strome College of Business's core, major, and elective requirements. Students must choose at least one major area to meet requirements towards the degree.

To stay in compliance with AACSB accreditation standards, students receiving a Bachelor of Science in Business Administration from Old Dominion University must complete at least half of their business course work in residence with a minimum of four courses in their declared major. This equates to 10 business classes, thus meeting the University's residency requirement as well.

Majors in the college may not take business and public administration courses for pass/fail credit except those courses in which pass/fail is the only grading option (i.e., internships and practica).

Admission to the Undergraduate Program
in Business Administration

General Requirements

Applicants for admission to the undergraduate degree program in business administration (the Bachelor of Science in Business Administration) should apply initially to the Office of Admissions of Old Dominion University. Students cannot be accepted into business administration without first being admitted to the University. Admission to the University does not guarantee admission to the Bachelor of Science in Business Administration (BSBA) program. Candidates for admission to the BSBA program should indicate on the application to the University their intention to enter the undergraduate business administration degree program.

Admission to the Bachelor's Degree Program in
Business Administration:

Before Admission to the bachelor's degree program in business administration can be granted, a student must have earned a grade of C or higher in each of the business Admission courses:

BUSN 110	Introduction to Contemporary Business	1
ENGL 110C	English Composition	3
MATH 162M	Precalculus I	3
ACCT 201	Principles of Financial Accounting	3
ECON 202S	Principles of Microeconomics	3

- BUSN 110 is not required for students pursuing majors under the BSBA in Information Systems and Technology (excluding Business Analytics) or for any student with an associate's degree in business administration or with a prior bachelor's degree in business administration.
- Students may utilize the Grade Forgiveness Policy for the business Admission courses.
- Transfer students may complete business Admission courses (BUSN 110, ENGL 110C, MATH 162M, ACCT 201, and ECON 202S) at another accredited college or university, but are responsible for having Transfer Evaluation Services determine that the courses are acceptable to the University.

Eligibility to Enroll in Upper-Level (300/400-level) Business Courses

Only students who have officially completed Admission courses to the BSBA program will be eligible to enroll in upper-level (300/400) business courses (refer to exceptions for non-business majors). However, students who are in progress with the business Admission courses may enroll in upper-level (300/400) business courses. Note: These students will need a Program Restriction Waiver (PRW) to enroll in these courses, with the exception of FIN 323, MGMT 325, MKTG 311, and OPMT 303. These courses require a junior class standing for registration.

Enrollment in 300/400-level Business Courses by Non-Business Majors

Enrollment in 300/400-level business courses will be granted without the Admission courses for the following exceptions:

1. Students pursuing a declared minor in the Strome College of Business may enroll in 300/400-level business courses appropriate to the minor.
2. Students pursuing Upper-Division General Education Requirement Option B: Interdisciplinary Minor or Option D: Six hours of elective upper-division courses outside the student's major discipline or college.
3. Students wishing to satisfy the Impact of Technology requirement may enroll in IT 360T.
4. Students pursuing a degree program other than the Bachelor of Science in Business Administration (BSBA) that requires or accepts specific 300/400-level business courses to complete the degree may enroll in the courses appropriate to the major.
5. Non-degree-seeking students may enroll in 300/400-level business courses if they have satisfied the prerequisites for these courses.

Students in categories 1 - 5 above who do not have a declared major will need a Program Restriction Waiver (PRW) in order to enroll in any 300/400-level Strome College of Business course (including Economics courses). Forms to request a PRW are available at the Strome College of Business website.

Regulations for Continuance in the Bachelor of Science in Business Administration

In addition to the Old Dominion University continuance policies, the following policies are specific to all declared Bachelor of Science in Business Administration (BSBA) students. The Strome College of Business makes a reasonable effort to notify undergraduate students who are not in good academic standing in the BSBA program of their academic status. Each undergraduate student who is placed on BSBA Academic Alarm or BSBA Termination (explained below) will be sent an e-mail message to that effect at the student's Old Dominion University e-mail address, in accordance with the Electronic Communication Policy for Official University Business. Non-receipt of the e-mail messages by a student will not be considered grounds for granting exceptions or delays in enforcement of the BSBA continuance regulations.

BSBA Continuance Regulations

If a student's Grade Point Average (GPA) in their BSBA Core courses falls below a 2.0, then they will be on Academic Alarm within the Strome

College of Business (SCB). This policy is very similar to the University's academic continuance policy, the main difference being that it is based on the core Business courses and impacts acceptance and continuance within the SCB.

Academic Alarm

The first semester in which a student's BSBA Core GPA drops to below a 2.0, they will be on Academic Alarm. Once considered on academic alarm within the college, taking courses within the BSBA Core is the only way to bring that GPA back up.

- If the student raises the BSBA Core GPA to above a 2.0, then they will no longer be on academic alarm.
- If the BSBA Core GPA does not reach a 2.0 but the semester average in the BSBA Core courses is a 2.0 or higher, then the student will remain on academic alarm and be able to continue within the SCB.

SCB Termination

While on academic alarm within the Strome College of Business, if the semester BSBA Core GPA falls below a 2.0, the student will be terminated from the SCB and their major coding will be changed from Business to Undecided. (Terminations will not be processed in summer semesters.)

Appeals

If you have been terminated, you may appeal the decision if you have extenuating circumstances and documentation to support your claim. To appeal, write a letter and include documentation of your circumstances to the Associate Dean of the Strome College of Business (Constant Hall, Suite 2004). There are specific details that need to be included with your appeal - for more information, please see the appeals process as described in the most recently issued catalog.

Guidelines for Filing a BSBA Termination Appeal

1. All students have the right to appeal their BSBA termination if they believe that extraordinary circumstances were the main reason for their poor academic performance. Notifications of pending BSBA termination are sent to the student's ODU email address and include information on the appeal process and deadlines. All BSBA termination appeals must be submitted electronically using the link provided in the email and will be reviewed by the SCB Termination Appeal Committee. Students are responsible for submitting their appeal by the stated deadline; late appeals will not be reviewed. Decisions of the Termination Appeal Committee may be appealed to the Associate Dean for Academic Programs in the Strome College of Business whose decision is final.
2. Appeals must be based on circumstances pertinent to the semesters in which the academic difficulty occurred that were beyond the control of the student and for which official withdrawal from the course(s) was not an option. Appeal letters must be legible and authored by the terminated student. The appeal letter must provide sufficient detail and explanation regarding the following points because there is no face-to-face meeting with the Associate Dean for Academic Programs in the Strome College of Business. The decision of the Associate Dean is final. Students without documentation will not be allowed to appeal their termination. In order to be reviewed, an appeal letter must:
 - a. Document the extraordinary circumstances such as a death in the family, medical complications or chronic conditions, personal or family emergency, overwhelming work schedules, dorm-mate conflict, or a personal relationship conflict that have adversely affected performance: i.e., a statement or letter from a physician, employer, family members, faculty, academic advisor, Counseling Services, or Educational Accessibility.
 - b. Explain how the extraordinary circumstances caused each semester of poor academic performance.
 - c. State the reasons why an official withdrawal was not requested.
 - d. Explain how the extraordinary circumstance(s) has been resolved.
 - e. Provide a plan of action to return to good BSBA academic standing.

3. Students who do not file a BSBA termination appeal or whose appeals are denied, are no longer eligible to pursue a bachelor's degree in Business Administration. Upon BSBA termination, the student's major in the Strome College of Business will be removed. (This does not affect a declared second major outside of the BSBA.) These students are advised to work with an advisor in the SCB Center for Undergraduate Advising to explore other major options, and for referrals to other advising departments for a new major declaration.

4. BSBA-terminated students who had pre-registered for a subsequent semester lose eligibility for continued enrollment in upper-level business courses.

Applying for Readmission to the BSBA Program

After a minimum of five years has passed since a student was terminated from the BSBA program, the student may apply for readmission to the program. There must be a high probability the student will successfully complete the degree program, and approval will be at the discretion of the Strome College of Business Associate Dean.

Requirements

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6
Oral Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#oral)	3
Mathematics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#math)	3
Language and Culture (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#language)	0-6
Information Literacy and Research (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#information)	3
Human Behavior (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#behavior)	3
Human Creativity (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#creativity)	3
Interpreting the Past (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#interpret)	3
Literature (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#literature)	3
Philosophy and Ethics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#philosophy)	3
The Nature of Science (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#nature)	8
Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

Oral Communication: COMM 101R or MKTG 200R required. Additionally, all students majoring in business administration can expect to complete several courses in which individual and/or group oral presentations will be required.

Mathematics: MATH 162M and MATH 200 required.

Information Literacy and Research: IT 150G (recommended) or any "G" course from the approved general education information literacy and research course list.

Human Behavior: Met in the Business Administration core for all majors except Economics.

Philosophy and Ethics must be satisfied by completion of either PHIL 230E or an upper-level "E" course from the approved general education ethics course list. A philosophy course designated with a P will not meet this requirement for business administration students with the exception of a "P" course taken prior to fall 2010.

Impact of Technology requirement is satisfied within each BSBA degree major except Information Systems and Technology by IT 360T. In the Information Systems and Technology majors (excluding Business Analytics), the Impact of Technology requirement is satisfied by the coursework required for the major.

Transfer students with an applicable associate's degree from a Virginia Community College or another community college that has a seamless transfer agreement with ODU, and students with a prior bachelor's degree from another university, must nevertheless have a grade of C or better in the following to be able to transfer them:

COMM 101R	Public Speaking	3
or MKTG 200R	Professional Interactions and Negotiations	
PHIL 230E	Introduction to Ethics (Or an upper-level ethics course)	3
ENGL 211C	Writing, Rhetoric, and Research	3
or ENGL 231C	Writing, Rhetoric, and Research: Special Topics	
MATH 162M	Precalculus I	3
MATH 200	Calculus for Business and Economics	3

Upper-Division General Education

- Option A. Any University-approved minor, second degree, or second major.
- Option B. An interdisciplinary minor consisting of 12 credits, three of which can be in the major. Interdisciplinary minors are described in the University Catalog section labeled Requirements for Undergraduate Degrees, Upper-Division Requirements.
- Option C. An approved certification program, such as teaching licensure.
- Option D. Two Upper-Division Courses from outside the Strome College of Business and not required by the major (6 credits).

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Business Administration Core

ACCT 201	Principles of Financial Accounting *	3

Additional Requirements and Information

Advanced Placement

The college accepts advanced placement credit in accordance with the rules and regulations outlined in the Academic Information section of this catalog. Students may take College-Level Examination Program (CLEP) tests to receive credit for:

ACCT 201	Principles of Financial Accounting	3
ACCT 202	Principles of Managerial Accounting	3
ECON 201S	Principles of Macroeconomics	3
ECON 202S	Principles of Microeconomics	3
FIN 331	Legal Environment of Business	3
MGMT 325	Contemporary Organizations and Management	3
MKTG 311	Marketing Principles and Problems	3

Students are advised to contact the Office of Prior Learning Assessment for more information regarding CLEP and other prior learning assessment credit options. For advanced placement credit in any other business or public administration course, students are advised to contact the chair of the department offering the course. Additional information about credit awarded for qualifying scores on AP and IB subject examinations can be found on the ODU website: <https://www.odu.edu/academics/academic-records/score-analysis/ap-ib> (<https://www.odu.edu/academics/academic-records/score-analysis/ap-ib/>).

Practical Work Experience for Business Administration Majors

Students may complement their major studies with a practical work experience, which may take the form of an internship, cooperative education experience or a class containing a real-world, hands-on project. Students

must apply for internship or co-op participation through the Strome College of Business Career & Leadership Development Satellite Office. All work experiences must be approved by the faculty sponsor in the appropriate department prior to registering for credit. Students may not earn credit for previous or current work experiences. (However, academic credit for work experience may be approved in accordance with the policies for granting prior learning credit as defined in the section on Prior Learning Assessment Credit Options at the Undergraduate Level in this catalog.) For details see the Center for Career & Leadership Development section of this catalog.

Use of Internship and Similar Hours Toward Business Administration Majors

A student may apply no more than six hours of cooperative education, student internship or practicum courses to satisfy degree requirements. Students may not use more than three hours of cooperative education, student internship or practicum courses to satisfy major elective requirements in each of the students' majors. These courses are numbered 367, 368 or 369. Additional hours of cooperative education, student internship or practicum courses, however, can be used to satisfy other requirements such as free electives or general business electives. Additional internships must each involve substantially different kinds of work experiences. Internships must be approved by the Chief Departmental Advisor of the student's major and the CAP Coordinator of the internship.

Transfer of the Associate of Science in Business Administration Towards Degree Requirements

Students transferring to the college must complete a minimum of 10 business courses offered by the college to earn the degree from Old Dominion University, in accordance with AACSB regulations. Those transfer students holding the Associate of Science in Business Administration degree from a Virginia Community College must earn the grade of "C" or better in the following courses in order to satisfy requirements found in the first two years of the BSBA degree:

COMM 101R	Public Speaking	3
ENGL 211C	Writing, Rhetoric, and Research	3
or ENGL 231C	Writing, Rhetoric, and Research: Special Topics	
MATH 162M	Precalculus I	3
MATH 200	Calculus for Business and Economics	3
ACCT 201	Principles of Financial Accounting	3
ACCT 202	Principles of Managerial Accounting	3
ECON 201S	Principles of Macroeconomics	3
ECON 202S	Principles of Microeconomics	3
BNAL 206	Business Analytics I	3
Select one of the following:		3
PHIL 230E	Introduction to Ethics	
Upper-level ethics course		

With the exception of the courses listed above, the University's lower-division General Education requirements are deemed satisfied by the accepted AS degrees. These typically include all AS degrees from the Virginia Community College System except the applied science degrees. For more information about accepted AS degrees contact the Office of Admissions. Associate degree holders, although meeting lower-level General Education requirements, must ensure that 120 credits are completed to earn the BSBA degree. A minimum of 25% of the required credit hours must be completed through Old Dominion University, at least 12 of which are upper-level courses in the major program.

The Strome College of Business does not accept courses completed at the freshman and sophomore levels at other institutions for required courses at the junior and senior level at Old Dominion University. Please see the section on CLEP credits (Prior Learning Assessment Credit Options at the Undergraduate Level) for additional information.

Grade Average Requirements for Graduation

To graduate with a Bachelor of Science in Business Administration degree, students must present a minimum of 120 hours with a minimum overall grade point average of 2.00 in all courses taken at Old Dominion University.

Students must also attain a minimum overall grade point average of 2.00 in courses taken toward the major (courses included in the major grade point average calculation are listed following the description of each major's course work).

Additionally, students must attain a minimum overall grade point average of 2.00 in the BSBA Core listed below. Only courses completed at Old Dominion University will be used to compute the BSBA Core average. Students with an Information Systems and Technology major (excluding Business Analytics) are not required to take IT 360T, so the BSBA Core grade point average is computed using the remaining courses. If the BSBA Core average is below the required 2.00 minimum, students are advised to utilize the Grade Forgiveness Policy or Adjusted Resident Credit option when appropriate to improve the grade point average.

Requirements for Completing a Bachelor of Science in Business Administration

The following sections show the courses that are requirements for all business students, regardless of the chosen major: Lower-Division General Education, BSBA Core Courses, and Upper-Division General Education. Credit hours are listed after the course title. The student must also choose a major and complete the requirements listed for that major on the following pages.

Foundation Courses for Admission to the Strome College of Business		
ENGL 110C	English Composition (C or better)	3
MATH 162M	Precalculus I (C or better)	3
ACCT 201	Principles of Financial Accounting (C or better)	3
ECON 202S	Principles of Microeconomics (C or better)	3
BUSN 110	Introduction to Contemporary Business *	1

* Not required for students pursuing an Information Systems and Technology major (excluding Business Analytics) or for students with an associate's degree in business administration or with a prior bachelor's degree in business administration.

See the section on Admission to the Undergraduate Program in Business Administration, General Requirements.

Business Elective

A business elective is a course that is offered by an accredited college of business, including the Strome College of Business at Old Dominion University. Public Affairs and Service (PAS) courses offered by the Strome College of Business are not considered as business courses. However, because some business courses cannot be used to satisfy the requirements of certain majors, students must refer to their specific degree program requirements to make sure that they complete appropriate business elective courses. For example, ECON 200S cannot be used to satisfy an elective requirement for students majoring in business administration. Also, IT 360T cannot be used as an elective by students majoring in Information Systems and Technology. Refer to the course description section of this Catalog for full details of courses and their prerequisites.

Free Elective

In the majority of cases a free elective is any course offered by an accredited community college or university, including Old Dominion University. However, because some courses cannot be used to satisfy the requirements of certain majors, students must refer to their specific degree program requirements to make sure that they complete appropriate elective courses. For example, ECON 200S cannot be used to satisfy an elective requirement for students majoring in business administration. Also, IT 360T cannot be used as an elective by students majoring in Information Systems and Technology. Refer to the course description section of this Catalog for full details of courses and their prerequisites.

Degree Program Guide

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

BSBA to MBA (Master of Business Administration) Linked Program

Students interested in the program should contact the MBA Program Office as early as possible to discuss their plans for early entry. Once admitted to the program, the MBA program manager will act as the student’s co-advisor, along with the chief departmental advisor or chief discipline advisor in the student's undergraduate major. The MBA Program Office is located in 1026 Constant Hall. The phone number is 757-683-3585 and email is mbainfo@odu.edu.

BSBA to MPA (Master of Public Administration) Linked Program

The linked BSBA to MPA program provides qualified Old Dominion University undergraduate students with the opportunity to earn a master's degree in public administration while taking 12 credits of the MPA program as an undergraduate student. The program is designed for highly motivated students with the desire to immediately continue their education after the bachelor's degree. The program is especially relevant to individuals seeking to work (or currently working) in the public or non-profit sectors, but is suitable for students from any undergraduate major. Graduate courses may be taken during the fall and spring semester of the student's senior undergraduate year. After receiving the undergraduate degree, a student will continue with the MPA program, taking MPA courses until completing the required 39 credit hours. Students in the linked program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Admission Requirements

A potential candidate will have:

1. Completed all lower level general education requirements
2. Achieved a cumulative GPA of at least 3.0 at the end of the junior year

Requirements for admission to the graduate program can be found in the School of Public Service section of the Graduate Catalog. For additional information, please contact the School of Public Service in the Strome College of Business.

Bachelor of Science in Business Administration Financial Management with a Major in Personal Financial Planning (BSBA)

Bruce Rubin, Chair
Sara Russell-Riggs, Chief Departmental Advisor

Financial management comprises four majors: finance, personal financial planning, real estate, and risk management and insurance. There are many opportunities for financial planning graduates due to the shift in business and government away from company provided pension plans to plans individuals have to fund and manage. Opportunities exist as independent planners, in human resource departments, as well as in the investments and insurance brokerage industries.

A student who seeks a Bachelor of Science in Business Administration degree in financial management with a major in personal financial planning from Old Dominion University must, in addition to meeting other requirements of the University, earn a minimum of 25 percent of the total number of credits required for the degree (for example, 30 credits in a 120-credit degree program) through on- or off-campus instruction. This must include a minimum of 12 credit hours of upper-level FIN or RMI courses or other upper-level courses specifically listed as a requirement or elective on the course lists below.

Strome College of Business (SCB) Center for Undergraduate Advising and Student Success

The mission of this office is to challenge and support students in self-exploration and, through advising, provide resources for them to develop an achievable plan for success. Our vision is for students to be aware of their academic, personal, and professional goals; empowered to pursue them; and confident in their ability to accomplish them.

Our professional advisors work with all Strome College of Business students regarding degree planning, changing majors, admissions, continuance, graduation requirements and required curricula for the majors and minors offered by the College.

Degree Requirements

Students in all of the Bachelor of Science in Business Administration degree programs must fulfill the University General Education requirements (including foreign language) as well as the Strome College of Business's core, major, and elective requirements. Students must choose at least one major area to meet requirements towards the degree.

To stay in compliance with AACSB accreditation standards, students receiving a Bachelor of Science in Business Administration from Old Dominion University must complete at least half of their business course work in residence with a minimum of four courses in their declared major. This equates to 10 business classes, thus meeting the University's residency requirement as well.

Majors in the college may not take business and public administration courses for pass/fail credit except those courses in which pass/fail is the only grading option (i.e., internships and practica).

Admission to the Undergraduate Program in Business Administration

General Requirements

Applicants for admission to the undergraduate degree program in business administration (the Bachelor of Science in Business Administration) should apply initially to the Office of Admissions of Old Dominion University. Students cannot be accepted into business administration without first being admitted to the University. Admission to the University does not guarantee admission to the Bachelor of Science in Business Administration (BSBA) program. Candidates for admission to the BSBA program should indicate on the application to the University their intention to enter the undergraduate business administration degree program.

Admission to the Bachelor's Degree Program in Business Administration:

Before Admission to the bachelor's degree program in business administration can be granted, a student must have earned a grade of C or higher in each of the business Admission courses:

BUSN 110	Introduction to Contemporary Business	1
ENGL 110C	English Composition	3
MATH 162M	Precalculus I	3
ACCT 201	Principles of Financial Accounting	3
ECON 202S	Principles of Microeconomics	3

- BUSN 110 is not required for students pursuing majors under the BSBA in Information Systems and Technology (excluding Business Analytics) or for any student with an associate's degree in business administration or with a prior bachelor's degree in business administration.
- Students may utilize the Grade Forgiveness Policy for the business Admission courses.
- Transfer students may complete business Admission courses (BUSN 110, ENGL 110C, MATH 162M, ACCT 201, and ECON 202S) at another accredited college or university, but are responsible for having Transfer Evaluation Services determine that the courses are acceptable to the University.

Eligibility to Enroll in Upper-Level (300/400-level) Business Courses

Only students who have officially completed Admission courses to the BSBA program will be eligible to enroll in upper-level (300/400) business courses (refer to exceptions for non-business majors). However, students who are in progress with the business Admission courses may enroll in upper-level (300/400) business courses. Note: These students will need a Program Restriction Waiver (PRW) to enroll in these courses, with the exception of FIN 323, MGMT 325, MKTG 311, and OPMT 303. These courses require a junior class standing for registration.

Enrollment in 300/400-level Business Courses by Non-Business Majors

Enrollment in 300/400-level business courses will be granted without the Admission courses for the following exceptions:

1. Students pursuing a declared minor in the Strome College of Business may enroll in 300/400-level business courses appropriate to the minor.
2. Students pursuing Upper-Division General Education Requirement Option B: Interdisciplinary Minor or Option D: Six hours of elective upper-division courses outside the student's major discipline or college.
3. Students wishing to satisfy the Impact of Technology requirement may enroll in IT 360T.
4. Students pursuing a degree program other than the Bachelor of Science in Business Administration (BSBA) that requires or accepts specific 300/400-level business courses to complete the degree may enroll in the courses appropriate to the major.
5. Non-degree-seeking students may enroll in 300/400-level business courses if they have satisfied the prerequisites for these courses.

Students in categories 1 - 5 above who do not have a declared major will need a Program Restriction Waiver (PRW) in order to enroll in any 300/400-level Strome College of Business course (including Economics courses). Forms to request a PRW are available at the Strome College of Business website.

Regulations for Continuance in the Bachelor of Science in Business Administration

In addition to the Old Dominion University continuance policies, the following policies are specific to all declared Bachelor of Science in Business Administration (BSBA) students. The Strome College of Business makes a reasonable effort to notify undergraduate students who are not in good academic standing in the BSBA program of their academic status. Each undergraduate student who is placed on BSBA Academic Alarm or BSBA Termination (explained below) will be sent an e-mail message to that effect at the student's Old Dominion University e-mail address, in accordance with the Electronic Communication Policy for Official University Business. Non-receipt of the e-mail messages by a student will not be considered grounds for granting exceptions or delays in enforcement of the BSBA continuance regulations.

BSBA Continuance Regulations

If a student's Grade Point Average (GPA) in their BSBA Core courses falls below a 2.0, then they will be on Academic Alarm within the Strome College of Business (SCB). This policy is very similar to the University's academic continuance policy, the main difference being that it is based on the core Business courses and impacts acceptance and continuance within the SCB.

Academic Alarm

The first semester in which a student's BSBA Core GPA drops to below a 2.0, they will be on Academic Alarm. Once considered on academic alarm within the college, taking courses within the BSBA Core is the only way to bring that GPA back up.

- If the student raises the BSBA Core GPA to above a 2.0, then they will no longer be on academic alarm.
- If the BSBA Core GPA does not reach a 2.0 but the semester average in the BSBA Core courses is a 2.0 or higher, then the student will remain on academic alarm and be able to continue within the SCB.

SCB Termination

While on academic alarm within the Strome College of Business, if the semester BSBA Core GPA falls below a 2.0, the student will be terminated from the SCB and their major coding will be changed from Business to Undecided. (Terminations will not be processed in summer semesters.)

Appeals

If you have been terminated, you may appeal the decision if you have extenuating circumstances and documentation to support your claim. To appeal, write a letter and include documentation of your circumstances to the Associate Dean of the Strome College of Business (Constant Hall, Suite 2004). There are specific details that need to be included with your appeal - for more information, please see the appeals process as described in the most recently issued catalog.

Guidelines for Filing a BSBA Termination Appeal

1. All students have the right to appeal their BSBA termination if they believe that extraordinary circumstances were the main reason for their poor academic performance. Notifications of pending BSBA termination are sent to the student's ODU email address and include information on the appeal process and deadlines. All BSBA termination appeals must be submitted electronically using the link provided in the email and will be reviewed by the SCB Termination Appeal Committee. Students are responsible for submitting their appeal by the stated deadline; late appeals will not be reviewed. Decisions of the Termination Appeal Committee may be appealed to the Associate Dean for Academic Programs in the Strome College of Business whose decision is final.

2. Appeals must be based on circumstances pertinent to the semesters in which the academic difficulty occurred that were beyond the control of the student and for which official withdrawal from the course(s) was not an option. Appeal letters must be legible and authored by the terminated student. The appeal letter must provide sufficient detail and explanation regarding the following points because there is no face-to-face meeting with the Associate Dean for Academic Programs in the Strome College of Business. The decision of the Associate Dean is final. Students without documentation will not be allowed to appeal their termination. In order to be reviewed, an appeal letter must:

- a. Document the extraordinary circumstances such as a death in the family, medical complications or chronic conditions, personal or family emergency, overwhelming work schedules, dorm-mate conflict, or a personal relationship conflict that have adversely affected performance: i.e., a statement or letter from a physician, employer, family members, faculty, academic advisor, Counseling Services, or Educational Accessibility.
 - b. Explain how the extraordinary circumstances caused each semester of poor academic performance.
 - c. State the reasons why an official withdrawal was not requested.
 - d. Explain how the extraordinary circumstance(s) has been resolved.
 - e. Provide a plan of action to return to good BSBA academic standing.
3. Students who do not file a BSBA termination appeal or whose appeals are denied, are no longer eligible to pursue a bachelor's degree in Business Administration. Upon BSBA termination, the student's major in the Strome College of Business will be removed. (This does not affect a declared second major outside of the BSBA.) These students are advised to work with an advisor in the SCB Center for Undergraduate Advising to explore other major options, and for referrals to other advising departments for a new major declaration.
4. BSBA-terminated students who had pre-registered for a subsequent semester lose eligibility for continued enrollment in upper-level business courses.

Applying for Readmission to the BSBA Program

After a minimum of five years has passed since a student was terminated from the BSBA program, the student may apply for readmission to the program. There must be a high probability the student will successfully complete the degree program, and approval will be at the discretion of the Strome College of Business Associate Dean.

Requirements

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6
Oral Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#oral)	3
Mathematics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#math)	3
Language and Culture (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#language)	0-6
Information Literacy and Research (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#information)	3
Human Behavior (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#behavior)	3
Human Creativity (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#creativity)	3
Interpreting the Past (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#interpret)	3
Literature (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#literature)	3
Philosophy and Ethics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#philosophy)	3
The Nature of Science (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#nature)	8
Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

Oral Communication: COMM 101R or MKTG 200R required. Additionally, all students majoring in business administration can expect to complete several courses in which individual and/or group oral presentations will be required.

Mathematics: MATH 162M and MATH 200 required.

Information Literacy and Research: IT 150G (recommended) or any "G" course from the approved general education information literacy and research course list.

Human Behavior: Met in the Business Administration core for all majors except Economics.

Philosophy and Ethics must be satisfied by completion of either PHIL 230E or an upper-level "E" course from the approved general education ethics course list. A philosophy course designated with a P will not meet this requirement for business administration students with the exception of a "P" course taken prior to fall 2010.

Impact of Technology requirement is satisfied within each BSBA degree major except Information Systems and Technology by IT 360T. In the Information Systems and Technology majors (excluding Business Analytics), the Impact of Technology requirement is satisfied by the coursework required for the major.

Transfer students with an applicable associate's degree from a Virginia Community College or another community college that has a seamless transfer agreement with ODU, and students with a prior bachelor's degree from another university, must nevertheless have a grade of C or better in the following to be able to transfer them:

COMM 101R	Public Speaking	3
or MKTG 200R	Professional Interactions and Negotiations	
PHIL 230E	Introduction to Ethics (Or an upper-level ethics course)	3
ENGL 211C	Writing, Rhetoric, and Research	3
or ENGL 231C	Writing, Rhetoric, and Research: Special Topics	
MATH 162M	Precalculus I	3
MATH 200	Calculus for Business and Economics	3

Upper-Division General Education

- Option A. Any University-approved minor, second degree, or second major.
- Option B. An interdisciplinary minor consisting of 12 credits, three of which can be in the major. Interdisciplinary minors are described in the University Catalog section labeled Requirements for Undergraduate Degrees, Upper-Division Requirements.
- Option C. An approved certification program, such as teaching licensure.
- Option D. Two Upper-Division Courses from outside the Strome College of Business and not required by the major (6 credits).

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Business Administration Core

ACCT 201	Principles of Financial Accounting *	3
ACCT 202	Principles of Managerial Accounting *	3
BNAL 206	Business Analytics I *	3
BNAL 306	Business Analytics II	3
ECON 201S	Principles of Macroeconomics *	3
ECON 202S	Principles of Microeconomics *	3
ECON 301	Managerial Economics	3
FIN 323	Introductory Financial Management	3
FIN 331	Legal Environment of Business	3
IT 360T	Principles of Information Technology **	3
MGMT 325	Contemporary Organizations and Management	3
MGMT 485W	Business Policy and Strategy (C or better) ***	3
MKTG 311	Marketing Principles and Problems	3
OPMT 303	Operations Management	3
Total Credit Hours		42

- * Not automatically waived for transfer students with an applicable associate's degree from a Virginia Community College or another acceptable community college, or for students with a prior bachelor's degree from another university. A grade of C or better must be earned to transfer these courses to Old Dominion University.
- ** Students completing a major or minor in Information Systems and Technology (excluding the Business Analytics major) do not take this course.
- *** Students majoring in Economics must complete MGMT 485W, but meet the writing intensive requirement by earning a grade of C or better either in MGMT 485W or in one of the ECON Writing Intensive courses.

Personal Financial Planning Major

General Education

Complete lower-division requirements	35-41
Complete upper-division requirements (minimum of 6 credit hours)	6
BUSN 110 Introduction to Contemporary Business *	1
MATH 200 Calculus for Business and Economics	3

ACCT 422 Tax Research	
Free Elective	3

Total Credit Hours	120-126

* Not required for students pursuing the IT major or for any student with an associate's degree in business administration or with a prior bachelor's degree in business administration.

Courses included in the calculation of the 2.00 overall grade point average for major course work for graduation are:

FIN 210S Personal Financial Literacy	3
FIN 414 Estate Planning	3
FIN 415 Capstone in Financial Plan Development	3
FIN 431 Investments	3
FIN 435 International Financial Management	3
RMI 317 Principles of Risk Management and Insurance	3
RMI 411 Employee Benefit Planning	3
ACCT 425 Taxation of Individuals	3
Major Electives	6

Additional Requirements and Information

Advanced Placement

The college accepts advanced placement credit in accordance with the rules and regulations outlined in the Academic Information section of this catalog. Students may take College-Level Examination Program (CLEP) tests to receive credit for:

ACCT 201 Principles of Financial Accounting	3
ACCT 202 Principles of Managerial Accounting	3
ECON 201S Principles of Macroeconomics	3

ECON 202S Principles of Microeconomics	3
FIN 331 Legal Environment of Business	3
MGMT 325 Contemporary Organizations and Management	3
MKTG 311 Marketing Principles and Problems	3

Students are advised to contact the Office of Prior Learning Assessment for more information regarding CLEP and other prior learning assessment credit options. For advanced placement credit in any other business or public administration course, students are advised to contact the chair of the department offering the course. Additional information about credit awarded for qualifying scores on AP and IB subject examinations can be found on the ODU website: <https://www.odu.edu/academics/academic-records/score-analysis/ap-ib> (<https://www.odu.edu/academics/academic-records/score-analysis/ap-ib/>).

Practical Work Experience for Business Administration Majors

Students may complement their major studies with a practical work experience, which may take the form of an internship, cooperative education experience or a class containing a real-world, hands-on project. Students must apply for internship or co-op participation through the Strome College of Business Career & Leadership Development Satellite Office. All work experiences must be approved by the faculty sponsor in the appropriate department prior to registering for credit. Students may not earn credit for previous or current work experiences. (However, academic credit for work experience may be approved in accordance with the policies for granting prior learning credit as defined in the section on Prior Learning Assessment Credit Options at the Undergraduate Level in this catalog.) For details see the Center for Career & Leadership Development section of this catalog.

Use of Internship and Similar Hours Toward Business Administration Majors

A student may apply no more than six hours of cooperative education, student internship or practicum courses to satisfy degree requirements. Students may not use more than three hours of cooperative education, student internship or practicum courses to satisfy major elective requirements in each of the students' majors. These courses are numbered 367, 368 or 369. Additional hours of cooperative education, student internship or practicum courses, however, can be used to satisfy other requirements such as free electives or general business electives. Additional internships must each involve substantially different kinds of work experiences. Internships must be approved by the Chief Departmental Advisor of the student's major and the CAP Coordinator of the internship.

Transfer of the Associate of Science in Business Administration Towards Degree Requirements

Students transferring to the college must complete a minimum of 10 business courses offered by the college to earn the degree from Old Dominion University, in accordance with AACSB regulations. Those transfer students holding the Associate of Science in Business Administration degree from a Virginia Community College must earn the grade of "C" or better in the following courses in order to satisfy requirements found in the first two years of the BSBA degree:

COMM 101R Public Speaking	3
ENGL 211C Writing, Rhetoric, and Research	3
or ENGL 231C Writing, Rhetoric, and Research: Special Topics	
MATH 162M Precalculus I	3
MATH 200 Calculus for Business and Economics	3
ACCT 201 Principles of Financial Accounting	3
ACCT 202 Principles of Managerial Accounting	3
ECON 201S Principles of Macroeconomics	3
ECON 202S Principles of Microeconomics	3
BNAL 206 Business Analytics I	3
Select one of the following:	3
PHIL 230E Introduction to Ethics	
Upper-level ethics course	

With the exception of the courses listed above, the University's lower-division General Education requirements are deemed satisfied by the accepted AS degrees. These typically include all AS degrees from the Virginia Community College System except the applied science degrees. For more information about accepted AS degrees contact the Office of Admissions. Associate degree holders, although meeting lower-level General Education requirements, must ensure that 120 credits are completed to earn the BSBA degree. A minimum of 25% of the required credit hours must be completed through Old Dominion University, at least 12 of which are upper-level courses in the major program.

The Strome College of Business does not accept courses completed at the freshman and sophomore levels at other institutions for required courses at the junior and senior level at Old Dominion University. Please see the section on CLEP credits (Prior Learning Assessment Credit Options at the Undergraduate Level) for additional information.

Grade Average Requirements for Graduation

To graduate with a Bachelor of Science in Business Administration degree, students must present a minimum of 120 hours with a minimum overall grade point average of 2.00 in all courses taken at Old Dominion University. Students must also attain a minimum overall grade point average of 2.00 in courses taken toward the major (courses included in the major grade point average calculation are listed following the description of each major's course work).

Additionally, students must attain a minimum overall grade point average of 2.00 in the BSBA Core listed below. Only courses completed at Old Dominion University will be used to compute the BSBA Core average. Students with an Information Systems and Technology major (excluding Business Analytics) are not required to take IT 360T, so the BSBA Core grade point average is computed using the remaining courses. If the BSBA Core average is below the required 2.00 minimum, students are advised to utilize the Grade Forgiveness Policy or Adjusted Resident Credit option when appropriate to improve the grade point average.

Requirements for Completing a Bachelor of Science in Business Administration

The following sections show the courses that are requirements for all business students, regardless of the chosen major: Lower-Division General Education, BSBA Core Courses, and Upper-Division General Education. Credit hours are listed after the course title. The student must also choose a major and complete the requirements listed for that major on the following pages.

Foundation Courses for Admission to the Strome College of Business

ENGL 110C	English Composition (C or better)	3
MATH 162M	Precalculus I (C or better)	3
ACCT 201	Principles of Financial Accounting (C or better)	3
ECON 202S	Principles of Microeconomics (C or better)	3
BUSN 110	Introduction to Contemporary Business *	1

* Not required for students pursuing an Information Systems and Technology major (excluding Business Analytics) or for students with an associate's degree in business administration or with a prior bachelor's degree in business administration.

See the section on Admission to the Undergraduate Program in Business Administration, General Requirements.

Business Elective

A business elective is a course that is offered by an accredited college of business, including the Strome College of Business at Old Dominion University. Public Affairs and Service (PAS) courses offered by the Strome College of Business are not considered as business courses. However, because some business courses cannot be used to satisfy the requirements of certain majors, students must refer to their specific degree program requirements to make sure that they complete appropriate business elective

393 Financial Management with a Major in Personal Financial Planning (BSBA)

courses. For example, ECON 200S cannot be used to satisfy an elective requirement for students majoring in business administration. Also, IT 360T cannot be used as an elective by students majoring in Information Systems and Technology. Refer to the course description section of this Catalog for full details of courses and their prerequisites.

Free Elective

In the majority of cases a free elective is any course offered by an accredited community college or university, including Old Dominion University. However, because some courses cannot be used to satisfy the requirements of certain majors, students must refer to their specific degree program requirements to make sure that they complete appropriate elective courses. For example, ECON 200S cannot be used to satisfy an elective requirement for students majoring in business administration. Also, IT 360T cannot be used as an elective by students majoring in Information Systems and Technology. Refer to the course description section of this Catalog for full details of courses and their prerequisites.

Degree Program Guide

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

Course	Title	Credit Hours
Freshman		
Fall

BSBA to MBA (Master of Business Administration) Linked Program

Students interested in the program should contact the MBA Program Office as early as possible to discuss their plans for early entry. Once admitted to the program, the MBA program manager will act as the student's co-advisor, along with the chief departmental advisor or chief discipline advisor in the student's undergraduate major. The MBA Program Office is located in 1026 Constant Hall. The phone number is 757-683-3585 and email is mbainfo@odu.edu.

BSBA to MPA (Master of Public Administration) Linked Program

The linked BSBA to MPA program provides qualified Old Dominion University undergraduate students with the opportunity to earn a master's degree in public administration while taking 12 credits of the MPA program as an undergraduate student. The program is designed for highly motivated students with the desire to immediately continue their education after the bachelor's degree. The program is especially relevant to individuals seeking to work (or currently working) in the public or non-profit sectors, but is suitable for students from any undergraduate major. Graduate courses may be taken during the fall and spring semester of the student's senior undergraduate year. After receiving the undergraduate degree, a student will continue with the MPA program, taking MPA courses until completing the required 39 credit hours. Students in the linked program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Admission Requirements

A potential candidate will have:

1. Completed all lower level general education requirements
2. Achieved a cumulative GPA of at least 3.0 at the end of the junior year

Requirements for admission to the graduate program can be found in the School of Public Service section of the Graduate Catalog. For additional information, please contact the School of Public Service in the Strome College of Business.

Bachelor of Science in Business Administration Financial Management with a Major in Real Estate (BSBA)

Bruce Rubin, Chair
Sara Russell-Riggs, Chief Departmental Advisor

Financial management comprises four majors: finance, personal financial planning, real estate, and risk management and insurance. Real estate graduates are employed as appraisers, sales and leasing agents, property managers, developers, and lending officers.

A student who seeks a Bachelor of Science in Business Administration degree in financial management with a major in real estate from Old Dominion University must, in addition to meeting other requirements of the University, earn a minimum of 25 percent of the total number of credits required for the degree (for example, 30 credits in a 120-credit degree program) through on- or off-campus instruction. This must include a minimum of 12 credit hours of upper-level FIN or REST courses or other upper-level courses specifically listed as electives on the course lists below.

Strome College of Business (SCB) Center for Undergraduate Advising and Student Success

The mission of this office is to challenge and support students in self-exploration and, through advising, provide resources for them to develop an achievable plan for success. Our vision is for students to be aware of their academic, personal, and professional goals; empowered to pursue them; and confident in their ability to accomplish them.

Our professional advisors work with all Strome College of Business students regarding degree planning, changing majors, admissions, continuance, graduation requirements and required curricula for the majors and minors offered by the College.

Degree Requirements

Students in all of the Bachelor of Science in Business Administration degree programs must fulfill the University General Education requirements (including foreign language) as well as the Strome College of Business's core, major, and elective requirements. Students must choose at least one major area to meet requirements towards the degree.

To stay in compliance with AACSB accreditation standards, students receiving a Bachelor of Science in Business Administration from Old Dominion University must complete at least half of their business course work in residence with a minimum of four courses in their declared major. This equates to 10 business classes, thus meeting the University's residency requirement as well.

Majors in the college may not take business and public administration courses for pass/fail credit except those courses in which pass/fail is the only grading option (i.e., internships and practica).

Admission to the Undergraduate Program in Business Administration

General Requirements

Applicants for admission to the undergraduate degree program in business administration (the Bachelor of Science in Business Administration) should apply initially to the Office of Admissions of Old Dominion University. Students cannot be accepted into business administration without first being admitted to the University. Admission to the University does not guarantee admission to the Bachelor of Science in Business Administration (BSBA) program. Candidates for admission to the BSBA program should indicate on the application to the University their intention to enter the undergraduate business administration degree program.

Admission to the Bachelor's Degree Program in Business Administration:

Before Admission to the bachelor's degree program in business administration can be granted, a student must have earned a grade of C or higher in each of the business Admission courses:

BUSN 110	Introduction to Contemporary Business	1
ENGL 110C	English Composition	3
MATH 162M	Precalculus I	3
ACCT 201	Principles of Financial Accounting	3
ECON 202S	Principles of Microeconomics	3

- BUSN 110 is not required for students pursuing majors under the BSBA in Information Systems and Technology (excluding Business Analytics) or for any student with an associate's degree in business administration or with a prior bachelor's degree in business administration.
- Students may utilize the Grade Forgiveness Policy for the business Admission courses.
- Transfer students may complete business Admission courses (BUSN 110, ENGL 110C, MATH 162M, ACCT 201, and ECON 202S) at another accredited college or university, but are responsible for having Transfer Evaluation Services determine that the courses are acceptable to the University.

Eligibility to Enroll in Upper-Level (300/400-level) Business Courses

Only students who have officially completed Admission courses to the BSBA program will be eligible to enroll in upper-level (300/400) business courses (refer to exceptions for non-business majors). However, students who are in progress with the business Admission courses may enroll in upper-level (300/400) business courses. Note: These students will need a Program Restriction Waiver (PRW) to enroll in these courses, with the exception of FIN 323, MGMT 325, MKTG 311, and OPMT 303. These courses require a junior class standing for registration.

Enrollment in 300/400-level Business Courses by Non-Business Majors

Enrollment in 300/400-level business courses will be granted without the Admission courses for the following exceptions:

1. Students pursuing a declared minor in the Strome College of Business may enroll in 300/400-level business courses appropriate to the minor.
2. Students pursuing Upper-Division General Education Requirement Option B: Interdisciplinary Minor or Option D: Six hours of elective upper-division courses outside the student's major discipline or college.
3. Students wishing to satisfy the Impact of Technology requirement may enroll in IT 360T.
4. Students pursuing a degree program other than the Bachelor of Science in Business Administration (BSBA) that requires or accepts specific 300/400-level business courses to complete the degree may enroll in the courses appropriate to the major.
5. Non-degree-seeking students may enroll in 300/400-level business courses if they have satisfied the prerequisites for these courses.

Students in categories 1 - 5 above who do not have a declared major will need a Program Restriction Waiver (PRW) in order to enroll in any 300/400-level Strome College of Business course (including Economics courses). Forms to request a PRW are available at the Strome College of Business website.

Regulations for Continuance in the Bachelor of Science in Business Administration

In addition to the Old Dominion University continuance policies, the following policies are specific to all declared Bachelor of Science in Business Administration (BSBA) students. The Strome College of Business makes a reasonable effort to notify undergraduate students who are not in good academic standing in the BSBA program of their academic status. Each undergraduate student who is placed on BSBA Academic Alarm or BSBA Termination (explained below) will be sent an e-mail message to that effect at the student's Old Dominion University e-mail address, in accordance with the Electronic Communication Policy for Official University Business. Non-receipt of the e-mail messages by a student will not be considered grounds for granting exceptions or delays in enforcement of the BSBA continuance regulations.

BSBA Continuance Regulations

If a student's Grade Point Average (GPA) in their BSBA Core courses falls below a 2.0, then they will be on Academic Alarm within the Strome College of Business (SCB). This policy is very similar to the University's academic continuance policy, the main difference being that it is based on the core Business courses and impacts acceptance and continuance within the SCB.

Academic Alarm

The first semester in which a student's BSBA Core GPA drops to below a 2.0, they will be on Academic Alarm. Once considered on academic alarm within the college, taking courses within the BSBA Core is the only way to bring that GPA back up.

- If the student raises the BSBA Core GPA to above a 2.0, then they will no longer be on academic alarm.
- If the BSBA Core GPA does not reach a 2.0 but the semester average in the BSBA Core courses is a 2.0 or higher, then the student will remain on academic alarm and be able to continue within the SCB.

SCB Termination

While on academic alarm within the Strome College of Business, if the semester BSBA Core GPA falls below a 2.0, the student will be terminated from the SCB and their major coding will be changed from Business to Undecided. (Terminations will not be processed in summer semesters.)

Appeals

If you have been terminated, you may appeal the decision if you have extenuating circumstances and documentation to support your claim. To appeal, write a letter and include documentation of your circumstances to the Associate Dean of the Strome College of Business (Constant Hall, Suite 2004). There are specific details that need to be included with your appeal - for more information, please see the appeals process as described in the most recently issued catalog.

Guidelines for Filing a BSBA Termination Appeal

1. All students have the right to appeal their BSBA termination if they believe that extraordinary circumstances were the main reason for their poor academic performance. Notifications of pending BSBA termination are sent to the student's ODU email address and include information on the appeal process and deadlines. All BSBA termination appeals must be submitted electronically using the link provided in the email and will be reviewed by the SCB Termination Appeal Committee. Students are responsible for submitting their appeal by the stated deadline; late appeals will not be reviewed. Decisions of the Termination Appeal Committee may be appealed to the Associate Dean for Academic Programs in the Strome College of Business whose decision is final.

2. Appeals must be based on circumstances pertinent to the semesters in which the academic difficulty occurred that were beyond the control of the student and for which official withdrawal from the course(s) was not an option. Appeal letters must be legible and authored by the terminated student. The appeal letter must provide sufficient detail and explanation regarding the following points because there is no face-to-face meeting with the Associate Dean for Academic Programs in the Strome College of Business. The decision of the Associate Dean is final. Students without documentation will not be allowed to appeal their termination. In order to be reviewed, an appeal letter must:

- Document the extraordinary circumstances such as a death in the family, medical complications or chronic conditions, personal or family emergency, overwhelming work schedules, dorm-mate conflict, or a personal relationship conflict that have adversely affected performance: i.e., a statement or letter from a physician, employer, family members, faculty, academic advisor, Counseling Services, or Educational Accessibility.
- Explain how the extraordinary circumstances caused each semester of poor academic performance.
- State the reasons why an official withdrawal was not requested.
- Explain how the extraordinary circumstance(s) has been resolved.
- Provide a plan of action to return to good BSBA academic standing.

3. Students who do not file a BSBA termination appeal or whose appeals are denied, are no longer eligible to pursue a bachelor's degree in Business Administration. Upon BSBA termination, the student's major in the Strome College of Business will be removed. (This does not affect a declared second major outside of the BSBA.) These students are advised to work with an advisor in the SCB Center for Undergraduate Advising to explore other major options, and for referrals to other advising departments for a new major declaration.

4. BSBA-terminated students who had pre-registered for a subsequent semester lose eligibility for continued enrollment in upper-level business courses.

Applying for Readmission to the BSBA Program

After a minimum of five years has passed since a student was terminated from the BSBA program, the student may apply for readmission to the program. There must be a high probability the student will successfully complete the degree program, and approval will be at the discretion of the Strome College of Business Associate Dean.

Requirements

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6
Oral Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#oral)	3
Mathematics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#math)	3
Language and Culture (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#language)	0-6
Information Literacy and Research (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#information)	3
Human Behavior (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#behavior)	3
Human Creativity (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#creativity)	3
Interpreting the Past (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#interpret)	3
Literature (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#literature)	3
Philosophy and Ethics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#philosophy)	3
The Nature of Science (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#nature)	8
Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

Oral Communication: COMM 101R or MKTG 200R required. Additionally, all students majoring in business administration can expect to complete several courses in which individual and/or group oral presentations will be required.

Mathematics: MATH 162M and MATH 200 required.

Information Literacy and Research: IT 150G (recommended) or any "G" course from the approved general education information literacy and research course list.

Human Behavior: Met in the Business Administration core for all majors except Economics.

Philosophy and Ethics must be satisfied by completion of either PHIL 230E or an upper-level "E" course from the approved general education ethics course list. A philosophy course designated with a P will not meet this requirement for business administration students with the exception of a "P" course taken prior to fall 2010.

Impact of Technology requirement is satisfied within each BSBA degree major except Information Systems and Technology by IT 360T. In the Information Systems and Technology majors (excluding Business Analytics), the Impact of Technology requirement is satisfied by the coursework required for the major.

Transfer students with an applicable associate's degree from a Virginia Community College or another community college that has a seamless transfer agreement with ODU, and students with a prior bachelor's degree

from another university, must nevertheless have a grade of C or better in the following to be able to transfer them:

COMM 101R	Public Speaking	3
or MKTG 200R	Professional Interactions and Negotiations	
PHIL 230E	Introduction to Ethics (Or an upper-level ethics course)	3
ENGL 211C	Writing, Rhetoric, and Research	3
or ENGL 231C	Writing, Rhetoric, and Research: Special Topics	
MATH 162M	Precalculus I	3
MATH 200	Calculus for Business and Economics	3

Upper-Division General Education

- Option A. Any University-approved minor, second degree, or second major.
- Option B. An interdisciplinary minor consisting of 12 credits, three of which can be in the major. Interdisciplinary minors are described in the University Catalog section labeled Requirements for Undergraduate Degrees, Upper-Division Requirements.
- Option C. An approved certification program, such as teaching licensure.
- Option D. Two Upper-Division Courses from outside the Strome College of Business and not required by the major (6 credits).

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Business Administration Core

ACCT 201	Principles of Financial Accounting *	3

Additional Requirements and Information

Advanced Placement

The college accepts advanced placement credit in accordance with the rules and regulations outlined in the Academic Information section of this catalog. Students may take College-Level Examination Program (CLEP) tests to receive credit for:

ACCT 201	Principles of Financial Accounting	3
ACCT 202	Principles of Managerial Accounting	3
ECON 201S	Principles of Macroeconomics	3
ECON 202S	Principles of Microeconomics	3
FIN 331	Legal Environment of Business	3
MGMT 325	Contemporary Organizations and Management	3
MKTG 311	Marketing Principles and Problems	3

Students are advised to contact the Office of Prior Learning Assessment for more information regarding CLEP and other prior learning assessment credit options. For advanced placement credit in any other business or public administration course, students are advised to contact the chair of the department offering the course. Additional information about credit awarded for qualifying scores on AP and IB subject examinations can be found on the ODU website: <https://www.odu.edu/academics/academic-records/score-analysis/ap-ib> (<https://www.odu.edu/academics/academic-records/score-analysis/ap-ib/>).

Practical Work Experience for Business Administration Majors

Students may complement their major studies with a practical work experience, which may take the form of an internship, cooperative education experience or a class containing a real-world, hands-on project. Students must apply for internship or co-op participation through the Strome College of Business Career & Leadership Development Satellite Office. All work experiences must be approved by the faculty sponsor in the appropriate department prior to registering for credit. Students may not earn credit for previous or current work experiences. (However, academic credit for work experience may be approved in accordance with the policies for granting prior learning credit as defined in the section on Prior Learning Assessment Credit Options at the Undergraduate Level in this catalog.) For details see the Center for Career & Leadership Development section of this catalog.

Use of Internship and Similar Hours Toward Business Administration Majors

A student may apply no more than six hours of cooperative education, student internship or practicum courses to satisfy degree requirements. Students may not use more than three hours of cooperative education, student internship or practicum courses to satisfy major elective requirements in each of the students' majors. These courses are numbered 367, 368 or 369. Additional hours of cooperative education, student internship or practicum courses, however, can be used to satisfy other requirements such as free electives or general business electives. Additional internships must each involve substantially different kinds of work experiences. Internships must be approved by the Chief Departmental Advisor of the student's major and the CAP Coordinator of the internship.

Transfer of the Associate of Science in Business Administration Towards Degree Requirements

Students transferring to the college must complete a minimum of 10 business courses offered by the college to earn the degree from Old Dominion University, in accordance with AACSB regulations. Those transfer students holding the Associate of Science in Business Administration degree from a Virginia Community College must earn the grade of "C" or better in the following courses in order to satisfy requirements found in the first two years of the BSBA degree:

COMM 101R	Public Speaking	3
ENGL 211C	Writing, Rhetoric, and Research	3
or ENGL 231C	Writing, Rhetoric, and Research: Special Topics	
MATH 162M	Precalculus I	3
MATH 200	Calculus for Business and Economics	3
ACCT 201	Principles of Financial Accounting	3
ACCT 202	Principles of Managerial Accounting	3
ECON 201S	Principles of Macroeconomics	3
ECON 202S	Principles of Microeconomics	3
BNAL 206	Business Analytics I	3
Select one of the following:		3
PHIL 230E	Introduction to Ethics	
Upper-level ethics course		

With the exception of the courses listed above, the University's lower-division General Education requirements are deemed satisfied by the accepted AS degrees. These typically include all AS degrees from the Virginia Community College System except the applied science degrees. For more information about accepted AS degrees contact the Office of Admissions. Associate degree holders, although meeting lower-level General Education requirements, must ensure that 120 credits are completed to earn the BSBA degree. A minimum of 25% of the required credit hours must be completed through Old Dominion University, at least 12 of which are upper-level courses in the major program.

The Strome College of Business does not accept courses completed at the freshman and sophomore levels at other institutions for required courses at the junior and senior level at Old Dominion University. Please see the section on CLEP credits (Prior Learning Assessment Credit Options at the Undergraduate Level) for additional information.

Grade Average Requirements for Graduation

To graduate with a Bachelor of Science in Business Administration degree, students must present a minimum of 120 hours with a minimum overall grade point average of 2.00 in all courses taken at Old Dominion University. Students must also attain a minimum overall grade point average of 2.00 in courses taken toward the major (courses included in the major grade point average calculation are listed following the description of each major's course work).

Additionally, students must attain a minimum overall grade point average of 2.00 in the BSBA Core listed below. Only courses completed at Old Dominion University will be used to compute the BSBA Core average. Students with an Information Systems and Technology major (excluding Business Analytics) are not required to take IT 360T, so the BSBA Core grade point average is computed using the remaining courses. If the BSBA Core average is below the required 2.00 minimum, students are advised to utilize the Grade Forgiveness Policy or Adjusted Resident Credit option when appropriate to improve the grade point average.

Requirements for Completing a Bachelor of Science in Business Administration

The following sections show the courses that are requirements for all business students, regardless of the chosen major: Lower-Division General Education, BSBA Core Courses, and Upper-Division General Education. Credit hours are listed after the course title. The student must also choose a major and complete the requirements listed for that major on the following pages.

Foundation Courses for Admission to the Strome College of Business

ENGL 110C	English Composition (C or better)	3
MATH 162M	Precalculus I (C or better)	3
ACCT 201	Principles of Financial Accounting (C or better)	3
ECON 202S	Principles of Microeconomics (C or better)	3
BUSN 110	Introduction to Contemporary Business *	1

* Not required for students pursuing an Information Systems and Technology major (excluding Business Analytics) or for students with an associate's degree in business administration or with a prior bachelor's degree in business administration.

See the section on Admission to the Undergraduate Program in Business Administration, General Requirements.

Business Elective

A business elective is a course that is offered by an accredited college of business, including the Strome College of Business at Old Dominion University. Public Affairs and Service (PAS) courses offered by the Strome College of Business are not considered as business courses. However, because some business courses cannot be used to satisfy the requirements of certain majors, students must refer to their specific degree program requirements to make sure that they complete appropriate business elective courses. For example, ECON 200S cannot be used to satisfy an elective requirement for students majoring in business administration. Also, IT 360T cannot be used as an elective by students majoring in Information Systems and Technology. Refer to the course description section of this Catalog for full details of courses and their prerequisites.

Free Elective

In the majority of cases a free elective is any course offered by an accredited community college or university, including Old Dominion University. However, because some courses cannot be used to satisfy the requirements of certain majors, students must refer to their specific degree program requirements to make sure that they complete appropriate elective courses. For example, ECON 200S cannot be used to satisfy an elective requirement for students majoring in business administration. Also, IT 360T cannot be used as an elective by students majoring in Information Systems and Technology. Refer to the course description section of this Catalog for full details of courses and their prerequisites.

Degree Program Guide

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

BSBA to MBA (Master of Business Administration) Linked Program

Students interested in the program should contact the MBA Program Office as early as possible to discuss their plans for early entry. Once admitted to the program, the MBA program manager will act as the student's co-advisor, along with the chief departmental advisor or chief discipline advisor in the student's undergraduate major. The MBA Program Office is located in 1026 Constant Hall. The phone number is 757-683-3585 and email is mbainfo@odu.edu.

BSBA to MPA (Master of Public Administration) Linked Program

The linked BSBA to MPA program provides qualified Old Dominion University undergraduate students with the opportunity to earn a master's degree in public administration while taking 12 credits of the MPA program as an undergraduate student. The program is designed for highly motivated students with the desire to immediately continue their education after the bachelor's degree. The program is especially relevant to individuals seeking to work (or currently working) in the public or non-profit sectors, but is suitable for students from any undergraduate major. Graduate courses may be taken during the fall and spring semester of the student's senior undergraduate year. After receiving the undergraduate degree, a student will continue with the MPA program, taking MPA courses until completing the required 39 credit hours. Students in the linked program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Admission Requirements

A potential candidate will have:

1. Completed all lower level general education requirements
2. Achieved a cumulative GPA of at least 3.0 at the end of the junior year

Requirements for admission to the graduate program can be found in the School of Public Service section of the Graduate Catalog. For additional information, please contact the School of Public Service in the Strome College of Business.

Bachelor of Science in Business Administration Financial Management with a Major in Risk Management and Insurance (BSBA)

Bruce Rubin, Chair

Sara Russell-Riggs, Chief Departmental Advisor

Financial management comprises four majors: finance, personal financial planning, real estate, and risk management and insurance. Risk management and insurance graduates become corporate risk managers; employee benefits specialists; business continuity professionals; loss control specialists; and underwriters, claims adjusters, actuaries, field reps, and producers (both agents and brokers) for personal and commercial lines property-casualty and life-health insurers.

A student who seeks a Bachelor of Science in Business Administration degree in financial management with a major in risk management and insurance from Old Dominion University must, in addition to meeting other requirements of the University, earn a minimum of 25 percent of the total number of credits required for the degree (for example, 30 credits in a 120-credit degree program) through on- or off-campus instruction. This must include a minimum of 12 credit hours of upper-level RMI or FIN courses or other upper-level courses specifically listed as electives on the course lists below.

Strome College of Business (SCB) Center for Undergraduate Advising and Student Success

The mission of this office is to challenge and support students in self-exploration and, through advising, provide resources for them to develop an achievable plan for success. Our vision is for students to be aware of their academic, personal, and professional goals; empowered to pursue them; and confident in their ability to accomplish them.

Our professional advisors work with all Strome College of Business students regarding degree planning, changing majors, admissions, continuance, graduation requirements and required curricula for the majors and minors offered by the College.

Degree Requirements

Students in all of the Bachelor of Science in Business Administration degree programs must fulfill the University General Education requirements (including foreign language) as well as the Strome College of Business's core, major, and elective requirements. Students must choose at least one major area to meet requirements towards the degree.

To stay in compliance with AACSB accreditation standards, students receiving a Bachelor of Science in Business Administration from Old Dominion University must complete at least half of their business course work in residence with a minimum of four courses in their declared major. This equates to 10 business classes, thus meeting the University's residency requirement as well.

Majors in the college may not take business and public administration courses for pass/fail credit except those courses in which pass/fail is the only grading option (i.e., internships and practica).

Admission to the Undergraduate Program in Business Administration

General Requirements

Applicants for admission to the undergraduate degree program in business administration (the Bachelor of Science in Business Administration) should apply initially to the Office of Admissions of Old Dominion University. Students cannot be accepted into business administration without first being admitted to the University. Admission to the University does not guarantee admission to the Bachelor of Science in Business Administration (BSBA)

program. Candidates for admission to the BSBA program should indicate on the application to the University their intention to enter the undergraduate business administration degree program.

Admission to the Bachelor's Degree Program in Business Administration:

Before Admission to the bachelor's degree program in business administration can be granted, a student must have earned a grade of C or higher in each of the business Admission courses:

BUSN 110	Introduction to Contemporary Business	1
ENGL 110C	English Composition	3
MATH 162M	Precalculus I	3
ACCT 201	Principles of Financial Accounting	3
ECON 202S	Principles of Microeconomics	3

- BUSN 110 is not required for students pursuing majors under the BSBA in Information Systems and Technology (excluding Business Analytics) or for any student with an associate's degree in business administration or with a prior bachelor's degree in business administration.
- Students may utilize the Grade Forgiveness Policy for the business Admission courses.
- Transfer students may complete business Admission courses (BUSN 110, ENGL 110C, MATH 162M, ACCT 201, and ECON 202S) at another accredited college or university, but are responsible for having Transfer Evaluation Services determine that the courses are acceptable to the University.

Eligibility to Enroll in Upper-Level (300/400-level) Business Courses

Only students who have officially completed Admission courses to the BSBA program will be eligible to enroll in upper-level (300/400) business courses (refer to exceptions for non-business majors). However, students who are in progress with the business Admission courses may enroll in upper-level (300/400) business courses. Note: These students will need a Program Restriction Waiver (PRW) to enroll in these courses, with the exception of FIN 323, MGMT 325, MKTG 311, and OPMT 303. These courses require a junior class standing for registration.

Enrollment in 300/400-level Business Courses by Non-Business Majors

Enrollment in 300/400-level business courses will be granted without the Admission courses for the following exceptions:

1. Students pursuing a declared minor in the Strome College of Business may enroll in 300/400-level business courses appropriate to the minor.
2. Students pursuing Upper-Division General Education Requirement Option B: Interdisciplinary Minor or Option D: Six hours of elective upper-division courses outside the student's major discipline or college.
3. Students wishing to satisfy the Impact of Technology requirement may enroll in IT 360T.
4. Students pursuing a degree program other than the Bachelor of Science in Business Administration (BSBA) that requires or accepts specific 300/400-level business courses to complete the degree may enroll in the courses appropriate to the major.
5. Non-degree-seeking students may enroll in 300/400-level business courses if they have satisfied the prerequisites for these courses.

Students in categories 1 - 5 above who do not have a declared major will need a Program Restriction Waiver (PRW) in order to enroll in any 300/400-level Strome College of Business course (including Economics courses). Forms to request a PRW are available at the Strome College of Business website.

Regulations for Continuance in the Bachelor of Science in Business Administration

In addition to the Old Dominion University continuance policies, the following policies are specific to all declared Bachelor of Science in Business Administration (BSBA) students. The Strome College of Business makes a reasonable effort to notify undergraduate students who are not in good academic standing in the BSBA program of their academic status. Each undergraduate student who is placed on BSBA Academic Alarm or BSBA Termination (explained below) will be sent an e-mail message to that effect at the student's Old Dominion University e-mail address, in accordance with the Electronic Communication Policy for Official University Business. Non-receipt of the e-mail messages by a student will not be considered grounds for granting exceptions or delays in enforcement of the BSBA continuance regulations.

BSBA Continuance Regulations

If a student's Grade Point Average (GPA) in their BSBA Core courses falls below a 2.0, then they will be on Academic Alarm within the Strome College of Business (SCB). This policy is very similar to the University's academic continuance policy, the main difference being that it is based on the core Business courses and impacts acceptance and continuance within the SCB.

Academic Alarm

The first semester in which a student's BSBA Core GPA drops to below a 2.0, they will be on Academic Alarm. Once considered on academic alarm within the college, taking courses within the BSBA Core is the only way to bring that GPA back up.

- If the student raises the BSBA Core GPA to above a 2.0, then they will no longer be on academic alarm.
- If the BSBA Core GPA does not reach a 2.0 but the semester average in the BSBA Core courses is a 2.0 or higher, then the student will remain on academic alarm and be able to continue within the SCB.

SCB Termination

While on academic alarm within the Strome College of Business, if the semester BSBA Core GPA falls below a 2.0, the student will be terminated from the SCB and their major coding will be changed from Business to Undecided. (Terminations will not be processed in summer semesters.)

Appeals

If you have been terminated, you may appeal the decision if you have extenuating circumstances and documentation to support your claim. To appeal, write a letter and include documentation of your circumstances to the Associate Dean of the Strome College of Business (Constant Hall, Suite 2004). There are specific details that need to be included with your appeal - for more information, please see the appeals process as described in the most recently issued catalog.

Guidelines for Filing a BSBA Termination Appeal

1. All students have the right to appeal their BSBA termination if they believe that extraordinary circumstances were the main reason for their poor academic performance. Notifications of pending BSBA termination are sent to the student's ODU email address and include information on the appeal process and deadlines. All BSBA termination appeals must be submitted electronically using the link provided in the email and will be reviewed by the SCB Termination Appeal Committee. Students are responsible for submitting their appeal by the stated deadline; late appeals will not be reviewed. Decisions of the Termination Appeal Committee may be appealed to the Associate Dean for Academic Programs in the Strome College of Business whose decision is final.
2. Appeals must be based on circumstances pertinent to the semesters in which the academic difficulty occurred that were beyond the control of the student and for which official withdrawal from the course(s) was not an option. Appeal letters must be legible and authored by the terminated student. The appeal letter must provide sufficient detail and explanation regarding the following points because there is no face-to-face meeting

with the Associate Dean for Academic Programs in the Strome College of Business. The decision of the Associate Dean is final. Students without documentation will not be allowed to appeal their termination. In order to be reviewed, an appeal letter must:

- Document the extraordinary circumstances such as a death in the family, medical complications or chronic conditions, personal or family emergency, overwhelming work schedules, dorm-mate conflict, or a personal relationship conflict that have adversely affected performance: i.e., a statement or letter from a physician, employer, family members, faculty, academic advisor, Counseling Services, or Educational Accessibility.
 - Explain how the extraordinary circumstances caused each semester of poor academic performance.
 - State the reasons why an official withdrawal was not requested.
 - Explain how the extraordinary circumstance(s) has been resolved.
 - Provide a plan of action to return to good BSBA academic standing.
3. Students who do not file a BSBA termination appeal or whose appeals are denied, are no longer eligible to pursue a bachelor's degree in Business Administration. Upon BSBA termination, the student's major in the Strome College of Business will be removed. (This does not affect a declared second major outside of the BSBA.) These students are advised to work with an advisor in the SCB Center for Undergraduate Advising to explore other major options, and for referrals to other advising departments for a new major declaration.
4. BSBA-terminated students who had pre-registered for a subsequent semester lose eligibility for continued enrollment in upper-level business courses.

Applying for Readmission to the BSBA Program

After a minimum of five years has passed since a student was terminated from the BSBA program, the student may apply for readmission to the program. There must be a high probability the student will successfully complete the degree program, and approval will be at the discretion of the Strome College of Business Associate Dean.

Requirements

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6
Oral Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#oral)	3
Mathematics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#math)	3
Language and Culture (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#language)	0-6
Information Literacy and Research (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#information)	3
Human Behavior (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#behavior)	3
Human Creativity (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#creativity)	3
Interpreting the Past (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#interpret)	3
Literature (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#literature)	3
Philosophy and Ethics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#philosophy)	3
The Nature of Science (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#nature)	8
Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

Oral Communication: COMM 101R or MKTG 200R required. Additionally, all students majoring in business administration can expect to complete several courses in which individual and/or group oral presentations will be required.

Mathematics: MATH 162M and MATH 200 required.

Information Literacy and Research: IT 150G (recommended) or any "G" course from the approved general education information literacy and research course list.

Human Behavior: Met in the Business Administration core for all majors except Economics.

Philosophy and Ethics must be satisfied by completion of either PHIL 230E or an upper-level "E" course from the approved general education ethics course list. A philosophy course designated with a P will not meet this requirement for business administration students with the exception of a "P" course taken prior to fall 2010.

Impact of Technology requirement is satisfied within each BSBA degree major except Information Systems and Technology by IT 360T. In the Information Systems and Technology majors (excluding Business Analytics), the Impact of Technology requirement is satisfied by the coursework required for the major.

Transfer students with an applicable associate's degree from a Virginia Community College or another community college that has a seamless transfer agreement with ODU, and students with a prior bachelor's degree from another university, must nevertheless have a grade of C or better in the following to be able to transfer them:

COMM 101R	Public Speaking	3
or MKTG 200R	Professional Interactions and Negotiations	
PHIL 230E	Introduction to Ethics (Or an upper-level ethics course)	3
ENGL 211C	Writing, Rhetoric, and Research	3
or ENGL 231C	Writing, Rhetoric, and Research: Special Topics	
MATH 162M	Precalculus I	3
MATH 200	Calculus for Business and Economics	3

Upper-Division General Education

- Option A. Any University-approved minor, second degree, or second major.
- Option B. An interdisciplinary minor consisting of 12 credits, three of which can be in the major. Interdisciplinary minors are described in the University Catalog section labeled Requirements for Undergraduate Degrees, Upper-Division Requirements.
- Option C. An approved certification program, such as teaching licensure.
- Option D. Two Upper-Division Courses from outside the Strome College of Business and not required by the major (6 credits).

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Business Administration Core

ACCT 201	Principles of Financial Accounting *	3

Additional Requirements and Information

Advanced Placement

The college accepts advanced placement credit in accordance with the rules and regulations outlined in the Academic Information section of this catalog. Students may take College-Level Examination Program (CLEP) tests to receive credit for:

ACCT 201	Principles of Financial Accounting	3
ACCT 202	Principles of Managerial Accounting	3
ECON 201S	Principles of Macroeconomics	3
ECON 202S	Principles of Microeconomics	3
FIN 331	Legal Environment of Business	3
MGMT 325	Contemporary Organizations and Management	3
MKTG 311	Marketing Principles and Problems	3

Students are advised to contact the Office of Prior Learning Assessment for more information regarding CLEP and other prior learning assessment credit options. For advanced placement credit in any other business or public administration course, students are advised to contact the chair of the department offering the course. Additional information about credit awarded for qualifying scores on AP and IB subject examinations can be found on the ODU website: <https://www.odu.edu/academics/academic-records/score-analysis/ap-ib> (<https://www.odu.edu/academics/academic-records/score-analysis/ap-ib/>).

Practical Work Experience for Business Administration Majors

Students may complement their major studies with a practical work experience, which may take the form of an internship, cooperative education experience or a class containing a real-world, hands-on project. Students must apply for internship or co-op participation through the Strome College of Business Career & Leadership Development Satellite Office. All work experiences must be approved by the faculty sponsor in the appropriate department prior to registering for credit. Students may not earn credit for previous or current work experiences. (However, academic credit for work experience may be approved in accordance with the policies for granting prior learning credit as defined in the section on Prior Learning Assessment Credit Options at the Undergraduate Level in this catalog.) For details see the Center for Career & Leadership Development section of this catalog.

Use of Internship and Similar Hours Toward Business Administration Majors

A student may apply no more than six hours of cooperative education, student internship or practicum courses to satisfy degree requirements. Students may not use more than three hours of cooperative education, student internship or practicum courses to satisfy major elective requirements in each of the students' majors. These courses are numbered 367, 368 or 369. Additional hours of cooperative education, student internship or practicum courses, however, can be used to satisfy other requirements such as free electives or general business electives. Additional internships must each involve substantially different kinds of work experiences. Internships must be approved by the Chief Departmental Advisor of the student's major and the CAP Coordinator of the internship.

Transfer of the Associate of Science in Business Administration Towards Degree Requirements

Students transferring to the college must complete a minimum of 10 business courses offered by the college to earn the degree from Old Dominion University, in accordance with AACSB regulations. Those transfer students holding the Associate of Science in Business Administration degree from a Virginia Community College must earn the grade of "C" or better in the following courses in order to satisfy requirements found in the first two years of the BSBA degree:

COMM 101R	Public Speaking	3
ENGL 211C or ENGL 231C	Writing, Rhetoric, and Research: Writing, Rhetoric, and Research: Special Topics	3
MATH 162M	Precalculus I	3

MATH 200	Calculus for Business and Economics	3
ACCT 201	Principles of Financial Accounting	3
ACCT 202	Principles of Managerial Accounting	3
ECON 201S	Principles of Macroeconomics	3
ECON 202S	Principles of Microeconomics	3
BNAL 206	Business Analytics I	3
Select one of the following:		3
PHIL 230E	Introduction to Ethics	
Upper-level ethics course		

With the exception of the courses listed above, the University's lower-division General Education requirements are deemed satisfied by the accepted AS degrees. These typically include all AS degrees from the Virginia Community College System except the applied science degrees. For more information about accepted AS degrees contact the Office of Admissions. Associate degree holders, although meeting lower-level General Education requirements, must ensure that 120 credits are completed to earn the BSBA degree. A minimum of 25% of the required credit hours must be completed through Old Dominion University, at least 12 of which are upper-level courses in the major program.

The Strome College of Business does not accept courses completed at the freshman and sophomore levels at other institutions for required courses at the junior and senior level at Old Dominion University. Please see the section on CLEP credits (Prior Learning Assessment Credit Options at the Undergraduate Level) for additional information.

Grade Average Requirements for Graduation

To graduate with a Bachelor of Science in Business Administration degree, students must present a minimum of 120 hours with a minimum overall grade point average of 2.00 in all courses taken at Old Dominion University. Students must also attain a minimum overall grade point average of 2.00 in courses taken toward the major (courses included in the major grade point average calculation are listed following the description of each major's course work).

Additionally, students must attain a minimum overall grade point average of 2.00 in the BSBA Core listed below. Only courses completed at Old Dominion University will be used to compute the BSBA Core average. Students with an Information Systems and Technology major (excluding Business Analytics) are not required to take IT 360T, so the BSBA Core grade point average is computed using the remaining courses. If the BSBA Core average is below the required 2.00 minimum, students are advised to utilize the Grade Forgiveness Policy or Adjusted Resident Credit option when appropriate to improve the grade point average.

Requirements for Completing a Bachelor of Science in Business Administration

The following sections show the courses that are requirements for all business students, regardless of the chosen major: Lower-Division General Education, BSBA Core Courses, and Upper-Division General Education. Credit hours are listed after the course title. The student must also choose a major and complete the requirements listed for that major on the following pages.

Foundation Courses for Admission to the Strome College of Business

ENGL 110C	English Composition (C or better)	3
MATH 162M	Precalculus I (C or better)	3
ACCT 201	Principles of Financial Accounting (C or better)	3
ECON 202S	Principles of Microeconomics (C or better)	3
BUSN 110	Introduction to Contemporary Business *	1

* Not required for students pursuing an Information Systems and Technology major (excluding Business Analytics) or for students with an associate's degree in business

administration or with a prior bachelor's degree in business administration.

See the section on Admission to the Undergraduate Program in Business Administration, General Requirements.

Business Elective

A business elective is a course that is offered by an accredited college of business, including the Strome College of Business at Old Dominion University. Public Affairs and Service (PAS) courses offered by the Strome College of Business are not considered as business courses. However, because some business courses cannot be used to satisfy the requirements of certain majors, students must refer to their specific degree program requirements to make sure that they complete appropriate business elective courses. For example, ECON 200S cannot be used to satisfy an elective requirement for students majoring in business administration. Also, IT 360T cannot be used as an elective by students majoring in Information Systems and Technology. Refer to the course description section of this Catalog for full details of courses and their prerequisites.

Free Elective

In the majority of cases a free elective is any course offered by an accredited community college or university, including Old Dominion University. However, because some courses cannot be used to satisfy the requirements of certain majors, students must refer to their specific degree program requirements to make sure that they complete appropriate elective courses. For example, ECON 200S cannot be used to satisfy an elective requirement for students majoring in business administration. Also, IT 360T cannot be used as an elective by students majoring in Information Systems and Technology. Refer to the course description section of this Catalog for full details of courses and their prerequisites.

Degree Program Guide

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

Course	Title	Credit Hours

BSBA to MBA (Master of Business Administration) Linked Program

Students interested in the program should contact the MBA Program Office as early as possible to discuss their plans for early entry. Once admitted to the program, the MBA program manager will act as the student's co-advisor, along with the chief departmental advisor or chief discipline advisor in the student's undergraduate major. The MBA Program Office is located in 1026 Constant Hall. The phone number is 757-683-3585 and email is mbainfo@odu.edu.

BSBA to MPA (Master of Public Administration) Linked Program

The linked BSBA to MPA program provides qualified Old Dominion University undergraduate students with the opportunity to earn a master's degree in public administration while taking 12 credits of the MPA program as an undergraduate student. The program is designed for highly motivated students with the desire to immediately continue their education after the bachelor's degree. The program is especially relevant to individuals seeking to work (or currently working) in the public or non-profit sectors, but is suitable for students from any undergraduate major. Graduate courses may be taken during the fall and spring semester of the student's senior undergraduate year. After receiving the undergraduate degree, a student will continue with the MPA program, taking MPA courses until completing the required 39 credit hours. Students in the linked program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Admission Requirements

A potential candidate will have:

1. Completed all lower level general education requirements
2. Achieved a cumulative GPA of at least 3.0 at the end of the junior year

Requirements for admission to the graduate program can be found in the School of Public Service section of the Graduate Catalog. For additional information, please contact the School of Public Service in the Strome College of Business.

Minor Financial Management Minor Requirements

A minor in financial management requires the completion of:

FIN 323	Introductory Financial Management	3
FIN 431	Investments	3
FIN 432	Intermediate Financial Management	3
Select two of the following:		6
FIN 433	Introduction to Futures and Options	

FIN 434	Management of Financial Institutions	
FIN 435	International Financial Management	
FIN 439	Financial Decision Making	
FIN 441	Student Managed Investment Fund	
Total Credit Hours		15

For completion of a minor, the student must achieve a minimum overall cumulative grade point average of 2.00 in all courses specified as a requirement for the minor or allowed toward the minor exclusive of prerequisite courses and complete a minimum of six hours in upper-level courses in the minor requirement through courses offered by Old Dominion University.

The financial management minor is not available to finance majors or personal financial planning majors. Real estate majors and risk management and insurance majors may complete the minor. No more than six credits from the minor may "share" with other areas of the student's curriculum.

Minor Real Estate Minor Requirements

A minor in real estate requires the completion of:

REST 319	Principles of Real Estate	3
REST 450	Real Estate Finance	3
REST 454	Real Estate Investment Analysis	3
Select two of the following:		6
CET 325	Introduction to Land Development	
CET 460	Construction Cost Estimating	
FIN 431	Investments	
FIN 441	Student Managed Investment Fund	
FIN 497	Selected Topics in Finance	
REST 451	Real Estate Appraisal	
REST 452	Real Estate Property Management	
REST 495	Selected Topics in Real Estate	
Total Credit Hours		15

For completion of a minor, the student must achieve a minimum overall cumulative grade point average of 2.00 in all courses specified as a requirement for the minor or allowed toward the minor exclusive of prerequisite courses and complete a minimum of six hours in upper-level courses in the minor requirement through courses offered by Old Dominion University.

The real estate minor is not available to real estate majors. Finance majors, personal financial planning majors, and risk management and Insurance majors may complete the minor, provided they complete a minimum of nine credits in REST coursework toward the minor. No more than six credits from the minor may "share" with other areas of the student's curriculum.

Minor Risk Management and Insurance Minor Requirements

A minor in risk management and insurance requires the completion of:

RMI 317	Principles of Risk Management and Insurance	3
RMI 412	Property & Liability Insurance Company Operations	3
or RMI 413	Risk Analysis and Control	
RMI 443	Enterprise Risk Management	3

Select two of the following:		6
RMI 410	Life and Health Insurance	
RMI 411	Employee Benefit Planning	
RMI 413	Risk Analysis and Control	
or RMI 412	Property & Liability Insurance Company Operations	
FIN 431	Investments	
FIN 433	Introduction to Futures and Options	
FIN 434	Management of Financial Institutions	
FIN 435	International Financial Management	
FIN 441	Student Managed Investment Fund	
REST 450	Real Estate Finance	
REST 454	Real Estate Investment Analysis	
ACCT 411	Financial Auditing	
ACCT 460	Accounting Information Systems	
BNAL 405	Spreadsheet-Based Data Analysis for Decision Making	
BNAL 407	Prescriptive Analytics of Management Science	
CS 462	Cybersecurity Fundamentals	
CYSE/CRJS 406	Cyber Law	
CYSE 425W	Cybersecurity Strategy and Policy	
ECON 304	Intermediate Microeconomic Theory	
ECON 400	From Correlation to Causation: Applied Causal Inference	
ENMA 401	Project Management	
ENMA 424	Risk Analysis in Engineering Management	
IT 410	Business Intelligence	
IT 418	Enterprise Information Assurance	
IT 419	Enterprise Cyber Defense	
MGMT 426	Entrepreneurship: New Ventures Creation	
MGMT 452	Negotiations and Change Management	
MKTG 407	Marketing Research	
MKTG 490	Marketing Policy and Strategy	
MSCM 415	Maritime Security and Risk Analysis	
MSCM 441	Supply Chain Management and Logistics	
MSIM/ECE 416	Cyber Defense Fundamentals	
SMGT 421	Legal Aspects in Recreation and Sport Management	
STAT 405	Introduction to Data Handling	
STAT 437	Applied Regression and Time Series Analysis	
Total Credit Hours		15

For completion of a minor, the student must achieve a minimum overall cumulative grade point average of 2.00 in all courses specified as a requirement for the minor or allowed toward the minor exclusive of prerequisite courses and complete a minimum of six hours in upper-level courses in the minor requirement through courses offered by Old Dominion University.

The risk management and insurance minor is not available to risk management and insurance majors. Finance majors, personal financial planning majors, and real estate majors may complete the minor, provided they complete a minimum of nine credits in RMI coursework toward the minor. No more than six credits from the minor may “share” with other areas of the student’s curriculum.

Information Systems and Technology

Programs

Bachelor of Science in Business Administration Programs

- Information Systems and Technology (BSBA) (p. 407)
- Information Systems and Technology with a Major in Business Analytics (BSBA) (p. 413)
- Information Systems and Technology with a Major in Business Analytics and Intelligence (BSBA) (p. 419)
- Information Systems and Technology-Database Major (BSBA) (p. 425)
- Information Systems and Technology-Network Engineering Major (BSBA) (p. 431)

Minor Program

- Business Analytics Minor (p. 436)
- Information Systems and Technology Minor (p. 436)
- Maritime and Supply Chain Management Minor (p. 437)

Bachelor of Science in Business Administration Information Systems and Technology (BSBA)

Weiyong Zhang, Chair
Roya Ardalan, Chief Discipline Advisor

The information systems and technology program is designed to provide students with a technical background in information technology as well as a broad perspective of the business environment in which information technology plays a strategic role. The program emphasizes the development of business analysis and system implementation skills; these skills can provide a basis for job entry, career development and flexibility amid the rapid changes in information technology.

A student who seeks a Bachelor of Science in Business Administration degree in Information Systems and Technology from Old Dominion University must, in addition to meeting other requirements of the University, earn a minimum of 25 percent of the total number of credits required for the degree (for example, 30 credits in a 120-credit degree program) through on- or off-campus instruction. This must include a minimum of 12 credit hours of upper-level IT courses or upper-level BNAL courses specifically listed as electives on the course lists below.

Strome College of Business (SCB) Center for Undergraduate Advising and Student Success

The mission of this office is to challenge and support students in self-exploration and, through advising, provide resources for them to develop an achievable plan for success. Our vision is for students to be aware of their academic, personal, and professional goals; empowered to pursue them; and confident in their ability to accomplish them.

Our professional advisors work with all Strome College of Business students regarding degree planning, changing majors, admissions, continuance, graduation requirements and required curricula for the majors and minors offered by the College.

Degree Requirements

Students in all of the Bachelor of Science in Business Administration degree programs must fulfill the University General Education requirements (including foreign language) as well as the Strome College of Business’s

core, major, and elective requirements. Students must choose at least one major area to meet requirements towards the degree.

To stay in compliance with AACSB accreditation standards, students receiving a Bachelor of Science in Business Administration from Old Dominion University must complete at least half of their business course work in residence with a minimum of four courses in their declared major. This equates to 10 business classes, thus meeting the University's residency requirement as well.

Majors in the college may not take business and public administration courses for pass/fail credit except those courses in which pass/fail is the only grading option (i.e., internships and practica).

Admission to the Undergraduate Program in Business Administration

General Requirements

Applicants for admission to the undergraduate degree program in business administration (the Bachelor of Science in Business Administration) should apply initially to the Office of Admissions of Old Dominion University. Students cannot be accepted into business administration without first being admitted to the University. Admission to the University does not guarantee admission to the Bachelor of Science in Business Administration (BSBA) program. Candidates for admission to the BSBA program should indicate on the application to the University their intention to enter the undergraduate business administration degree program.

Admission to the Bachelor's Degree Program in Business Administration:

Before Admission to the bachelor's degree program in business administration can be granted, a student must have earned a grade of C or higher in each of the business Admission courses:

BUSN 110	Introduction to Contemporary Business	1
ENGL 110C	English Composition	3
MATH 162M	Precalculus I	3
ACCT 201	Principles of Financial Accounting	3
ECON 202S	Principles of Microeconomics	3

- BUSN 110 is not required for students pursuing majors under the BSBA in Information Systems and Technology (excluding Business Analytics) or for any student with an associate's degree in business administration or with a prior bachelor's degree in business administration.
- Students may utilize the Grade Forgiveness Policy for the business Admission courses.
- Transfer students may complete business Admission courses (BUSN 110, ENGL 110C, MATH 162M, ACCT 201, and ECON 202S) at another accredited college or university, but are responsible for having Transfer Evaluation Services determine that the courses are acceptable to the University.

Eligibility to Enroll in Upper-Level (300/400-level) Business Courses

Only students who have officially completed Admission courses to the BSBA program will be eligible to enroll in upper-level (300/400) business courses (refer to exceptions for non-business majors).

However, students who are in progress with the business Admission courses may enroll in upper-level (300/400) business courses. Note: These students will need a Program Restriction Waiver (PRW) to enroll in these courses, with the exception of FIN 323, MGMT 325, MKTG 311, and OPMT 303. These courses require a junior class standing for registration.

Enrollment in 300/400-level Business Courses by Non-Business Majors

Enrollment in 300/400-level business courses will be granted without the Admission courses for the following exceptions:

1. Students pursuing a declared minor in the Strome College of Business may enroll in 300/400-level business courses appropriate to the minor.
2. Students pursuing Upper-Division General Education Requirement Option B: Interdisciplinary Minor or Option D: Six hours of elective upper-division courses outside the student's major discipline or college.
3. Students wishing to satisfy the Impact of Technology requirement may enroll in IT 360T.
4. Students pursuing a degree program other than the Bachelor of Science in Business Administration (BSBA) that requires or accepts specific 300/400-level business courses to complete the degree may enroll in the courses appropriate to the major.
5. Non-degree-seeking students may enroll in 300/400-level business courses if they have satisfied the prerequisites for these courses.

Students in categories 1 - 5 above who do not have a declared major will need a Program Restriction Waiver (PRW) in order to enroll in any 300/400-level Strome College of Business course (including Economics courses). Forms to request a PRW are available at the Strome College of Business website.

Regulations for Continuance in the Bachelor of Science in Business Administration

In addition to the Old Dominion University continuance policies, the following policies are specific to all declared Bachelor of Science in Business Administration (BSBA) students. The Strome College of Business makes a reasonable effort to notify undergraduate students who are not in good academic standing in the BSBA program of their academic status. Each undergraduate student who is placed on BSBA Academic Alarm or BSBA Termination (explained below) will be sent an e-mail message to that effect at the student's Old Dominion University e-mail address, in accordance with the Electronic Communication Policy for Official University Business. Non-receipt of the e-mail messages by a student will not be considered grounds for granting exceptions or delays in enforcement of the BSBA continuance regulations.

BSBA Continuance Regulations

If a student's Grade Point Average (GPA) in their BSBA Core courses falls below a 2.0, then they will be on Academic Alarm within the Strome College of Business (SCB). This policy is very similar to the University's academic continuance policy, the main difference being that it is based on the core Business courses and impacts acceptance and continuance within the SCB.

Academic Alarm

The first semester in which a student's BSBA Core GPA drops to below a 2.0, they will be on Academic Alarm. Once considered on academic alarm within the college, taking courses within the BSBA Core is the only way to bring that GPA back up.

- If the student raises the BSBA Core GPA to above a 2.0, then they will no longer be on academic alarm.
- If the BSBA Core GPA does not reach a 2.0 but the semester average in the BSBA Core courses is a 2.0 or higher, then the student will remain on academic alarm and be able to continue within the SCB.

SCB Termination

While on academic alarm within the Strome College of Business, if the semester BSBA Core GPA falls below a 2.0, the student will be terminated from the SCB and their major coding will be changed from Business to Undecided. (Terminations will not be processed in summer semesters.)

Appeals

If you have been terminated, you may appeal the decision if you have extenuating circumstances and documentation to support your claim. To appeal, write a letter and include documentation of your circumstances to the Associate Dean of the Strome College of Business (Constant Hall, Suite 2004). There are specific details that need to be included with your appeal -

for more information, please see the appeals process as described in the most recently issued catalog.

Guidelines for Filing a BSBA Termination Appeal

1. All students have the right to appeal their BSBA termination if they believe that extraordinary circumstances were the main reason for their poor academic performance. Notifications of pending BSBA termination are sent to the student's ODU email address and include information on the appeal process and deadlines. All BSBA termination appeals must be submitted electronically using the link provided in the email and will be reviewed by the SCB Termination Appeal Committee. Students are responsible for submitting their appeal by the stated deadline; late appeals will not be reviewed. Decisions of the Termination Appeal Committee may be appealed to the Associate Dean for Academic Programs in the Strome College of Business whose decision is final.

2. Appeals must be based on circumstances pertinent to the semesters in which the academic difficulty occurred that were beyond the control of the student and for which official withdrawal from the course(s) was not an option. Appeal letters must be legible and authored by the terminated student. The appeal letter must provide sufficient detail and explanation regarding the following points because there is no face-to-face meeting with the Associate Dean for Academic Programs in the Strome College of Business. The decision of the Associate Dean is final. Students without documentation will not be allowed to appeal their termination. In order to be reviewed, an appeal letter must:

- Document the extraordinary circumstances such as a death in the family, medical complications or chronic conditions, personal or family emergency, overwhelming work schedules, dorm-mate conflict, or a personal relationship conflict that have adversely affected performance: i.e., a statement or letter from a physician, employer, family members, faculty, academic advisor, Counseling Services, or Educational Accessibility.
- Explain how the extraordinary circumstances caused each semester of poor academic performance.
- State the reasons why an official withdrawal was not requested.
- Explain how the extraordinary circumstance(s) has been resolved.
- Provide a plan of action to return to good BSBA academic standing.

3. Students who do not file a BSBA termination appeal or whose appeals are denied, are no longer eligible to pursue a bachelor's degree in Business Administration. Upon BSBA termination, the student's major in the Strome College of Business will be removed. (This does not affect a declared second major outside of the BSBA.) These students are advised to work with an advisor in the SCB Center for Undergraduate Advising to explore other major options, and for referrals to other advising departments for a new major declaration.

4. BSBA-terminated students who had pre-registered for a subsequent semester lose eligibility for continued enrollment in upper-level business courses.

Applying for Readmission to the BSBA Program

After a minimum of five years has passed since a student was terminated from the BSBA program, the student may apply for readmission to the program. There must be a high probability the student will successfully complete the degree program, and approval will be at the discretion of the Strome College of Business Associate Dean.

Requirements

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6
Oral Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#oral)	3

Mathematics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#math)	3
Language and Culture (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#language)	0-6
Information Literacy and Research (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#information)	3
Human Behavior (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#behavior)	3
Human Creativity (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#creativity)	3
Interpreting the Past (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#interpret)	3
Literature (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#literature)	3
Philosophy and Ethics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#philosophy)	3
The Nature of Science (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#nature)	8
Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

Oral Communication: COMM 101R or MKTG 200R required. Additionally, all students majoring in business administration can expect to complete several courses in which individual and/or group oral presentations will be required.

Mathematics: MATH 162M and MATH 200 required.

Information Literacy and Research: IT 150G (recommended) or any "G" course from the approved general education information literacy and research course list.

Human Behavior: Met in the Business Administration core for all majors except Economics.

Philosophy and Ethics must be satisfied by completion of either PHIL 230E or an upper-level "E" course from the approved general education ethics course list. A philosophy course designated with a P will not meet this requirement for business administration students with the exception of a "P" course taken prior to fall 2010.

Impact of Technology requirement is satisfied within each BSBA degree major except Information Systems and Technology by IT 360T. In the Information Systems and Technology majors (excluding Business Analytics), the Impact of Technology requirement is satisfied by the coursework required for the major.

Transfer students with an applicable associate's degree from a Virginia Community College or another community college that has a seamless transfer agreement with ODU, and students with a prior bachelor's degree from another university, must nevertheless have a grade of C or better in the following to be able to transfer them:

COMM 101R or MKTG 200R	Public Speaking Professional Interactions and Negotiations	3
PHIL 230E	Introduction to Ethics (Or an upper-level ethics course)	3
ENGL 211C or ENGL 231C	Writing, Rhetoric, and Research Writing, Rhetoric, and Research: Special Topics	3
MATH 162M	Precalculus I	3
MATH 200	Calculus for Business and Economics	3

Upper-Division General Education

- Option A. Any University-approved minor, second degree, or second major.
- Option B. An interdisciplinary minor consisting of 12 credits, three of which can be in the major. Interdisciplinary minors are described in the University Catalog section labeled Requirements for Undergraduate Degrees, Upper-Division Requirements.

- Option C. An approved certification program, such as teaching licensure.
- Option D. Two Upper-Division Courses from outside the Strome College of Business and not required by the major (6 credits).

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Business Administration Core

ACCT 201	Principles of Financial Accounting *	3
ACCT 202	Principles of Managerial Accounting *	3
BNAL 206	Business Analytics I *	3
BNAL 306	Business Analytics II	3
ECON 201S	Principles of Macroeconomics *	3
ECON 202S	Principles of Microeconomics *	3
ECON 301	Managerial Economics	3
FIN 323	Introductory Financial Management	3
FIN 331	Legal Environment of Business	3
IT 360T	Principles of Information Technology **	3
MGMT 325	Contemporary Organizations and Management	3
MGMT 485W	Business Policy and Strategy (C or better) ***	3
MKTG 311	Marketing Principles and Problems	3
OPMT 303	Operations Management	3
Total Credit Hours		42

- * Not automatically waived for transfer students with an applicable associate's degree from a Virginia Community College or another acceptable community college, or for students with a prior bachelor's degree from another university. A grade of C or better must be earned to transfer these courses to Old Dominion University.
- ** Students completing a major or minor in Information Systems and Technology (excluding the Business Analytics major) do not take this course.
- *** Students majoring in Economics must complete MGMT 485W, but meet the writing intensive requirement by earning a grade of C or better either in MGMT 485W or in one of the ECON Writing Intensive courses.

Information Systems and Technology Core

Required Core Courses

IT 201	Introduction to Information Systems (grade of C or better required as a prerequisite for upper-level IT courses)	3
IT 205	Introduction to Object-Oriented Programming	3
IT 315	Introduction to Networking and Security	3

IT 317	Enterprise Information Architecture (grade of C or better required as prerequisite for IT 464)	3
IT 363	Systems Analysis and Design	3
IT 450	Database Concepts	3
IT 464	Essentials of Project Management	3
IT 474	Strategic IT Administration	3
Total Credit Hours		24

All courses listed above except the International Business Elective and Business Elective are included in the calculation of the 2.00 overall grade point average required for major course work.

Information Systems and Technology Major

General Education

Complete lower-division requirements	35-41	
Complete upper-division requirements (minimum of 6 credit hours)	6	
MATH 200	Calculus for Business and Economics	3

Business Administration Core

Complete business administration core requirements	39

Information Systems and Technology Core

Complete information systems and technology core requirements	24

Information Systems and Technology Major

Select two of the following IT Electives:	6
IT 310	Object-Oriented Programming with C++
IT 325	Web Site and Web Page Design
IT 367	Cooperative Education
IT 368	Student Internship
IT 369	Practicum

IT 494	Entrepreneurship in Information Technology
IT 495	Selected Topics in Information Systems
IT 497	Independent Study in Information Systems
Select one of the following International Business Electives:	3
IT 425	Information Systems for International Business *
ACCT 450	International and Advanced Accounting
ECON 450	International Economics
FIN 435	International Financial Management
MGMT 361	International Business Operations

MGMT 462	Comparative International Management	
MGMT 463	Management Seminar Abroad	
MKTG 411	Multi-National Marketing	
MSCM 370	International Shipping	
One Business Elective at 300-400 Level **		3
Total Credit Hours		119-125

* IT 425 cannot be used as both the IT major elective and as the International Business elective.

** Can be any 300-400 level course offered by the Strome College of Business, providing that the student has the appropriate prerequisites, except IT 360T.

All courses listed above except the International Business Elective and Business Elective are included in the calculation of the 2.00 overall grade point average required for major course work.

Additional Requirements and Information

Advanced Placement

The college accepts advanced placement credit in accordance with the rules and regulations outlined in the Academic Information section of this catalog. Students may take College-Level Examination Program (CLEP) tests to receive credit for:

ACCT 201	Principles of Financial Accounting	3
ACCT 202	Principles of Managerial Accounting	3
ECON 201S	Principles of Macroeconomics	3
ECON 202S	Principles of Microeconomics	3
FIN 331	Legal Environment of Business	3
MGMT 325	Contemporary Organizations and Management	3
MKTG 311	Marketing Principles and Problems	3

Students are advised to contact the Office of Prior Learning Assessment for more information regarding CLEP and other prior learning assessment credit options. For advanced placement credit in any other business or public administration course, students are advised to contact the chair of the department offering the course. Additional information about credit awarded for qualifying scores on AP and IB subject examinations can be found on the ODU website: <https://www.odu.edu/academics/academic-records/score-analysis/ap-ib> (<https://www.odu.edu/academics/academic-records/score-analysis/ap-ib>).

Practical Work Experience for Business Administration Majors

Students may complement their major studies with a practical work experience, which may take the form of an internship, cooperative education experience or a class containing a real-world, hands-on project. Students must apply for internship or co-op participation through the Strome College of Business Career & Leadership Development Satellite Office. All work experiences must be approved by the faculty sponsor in the appropriate department prior to registering for credit. Students may not earn credit for previous or current work experiences. (However, academic credit for work experience may be approved in accordance with the policies for granting prior learning credit as defined in the section on Prior Learning Assessment Credit Options at the Undergraduate Level in this catalog.) For details see the Center for Career & Leadership Development section of this catalog.

Use of Internship and Similar Hours Toward Business Administration Majors

A student may apply no more than six hours of cooperative education, student internship or practicum courses to satisfy degree requirements. Students may not use more than three hours of cooperative education, student internship or practicum courses to satisfy major elective requirements in each of the students' majors. These courses are numbered 367, 368 or 369. Additional hours of cooperative education, student internship or practicum courses, however, can be used to satisfy other requirements such as free electives or general business electives. Additional

internships must each involve substantially different kinds of work experiences. Internships must be approved by the Chief Departmental Advisor of the student's major and the CAP Coordinator of the internship.

Transfer of the Associate of Science in Business Administration Towards Degree Requirements

Students transferring to the college must complete a minimum of 10 business courses offered by the college to earn the degree from Old Dominion University, in accordance with AACSB regulations. Those transfer students holding the Associate of Science in Business Administration degree from a Virginia Community College must earn the grade of "C" or better in the following courses in order to satisfy requirements found in the first two years of the BSBA degree:

COMM 101R	Public Speaking	3
ENGL 211C	Writing, Rhetoric, and Research	3
or ENGL 231C	Writing, Rhetoric, and Research: Special Topics	
MATH 162M	Precalculus I	3
MATH 200	Calculus for Business and Economics	3
ACCT 201	Principles of Financial Accounting	3
ACCT 202	Principles of Managerial Accounting	3
ECON 201S	Principles of Macroeconomics	3
ECON 202S	Principles of Microeconomics	3
BNAL 206	Business Analytics I	3
Select one of the following:		3
PHIL 230E	Introduction to Ethics	
Upper-level ethics course		

With the exception of the courses listed above, the University's lower-division General Education requirements are deemed satisfied by the accepted AS degrees. These typically include all AS degrees from the Virginia Community College System except the applied science degrees. For more information about accepted AS degrees contact the Office of Admissions. Associate degree holders, although meeting lower-level General Education requirements, must ensure that 120 credits are completed to earn the BSBA degree. A minimum of 25% of the required credit hours must be completed through Old Dominion University, at least 12 of which are upper-level courses in the major program.

The Strome College of Business does not accept courses completed at the freshman and sophomore levels at other institutions for required courses at the junior and senior level at Old Dominion University. Please see the section on CLEP credits (Prior Learning Assessment Credit Options at the Undergraduate Level) for additional information.

Grade Average Requirements for Graduation

To graduate with a Bachelor of Science in Business Administration degree, students must present a minimum of 120 hours with a minimum overall grade point average of 2.00 in all courses taken at Old Dominion University. Students must also attain a minimum overall grade point average of 2.00 in courses taken toward the major (courses included in the major grade point average calculation are listed following the description of each major's course work).

Additionally, students must attain a minimum overall grade point average of 2.00 in the BSBA Core listed below. Only courses completed at Old Dominion University will be used to compute the BSBA Core average. Students with an Information Systems and Technology major (excluding Business Analytics) are not required to take IT 360T, so the BSBA Core grade point average is computed using the remaining courses. If the BSBA Core average is below the required 2.00 minimum, students are advised to utilize the Grade Forgiveness Policy or Adjusted Resident Credit option when appropriate to improve the grade point average.

Requirements for Completing a Bachelor of Science in Business Administration

The following sections show the courses that are requirements for all business students, regardless of the chosen major: Lower-Division General Education, BSBA Core Courses, and Upper-Division General Education.

Credit hours are listed after the course title. The student must also choose a major and complete the requirements listed for that major on the following pages.

Foundation Courses for Admission to the Strome College of Business

ENGL 110C	English Composition (C or better)	3
MATH 162M	Precalculus I (C or better)	3
ACCT 201	Principles of Financial Accounting (C or better)	3
ECON 202S	Principles of Microeconomics (C or better)	3
BUSN 110	Introduction to Contemporary Business *	1

* Not required for students pursuing an Information Systems and Technology major (excluding Business Analytics) or for students with an associate's degree in business administration or with a prior bachelor's degree in business administration.

See the section on Admission to the Undergraduate Program in Business Administration, General Requirements.

Business Elective

A business elective is a course that is offered by an accredited college of business, including the Strome College of Business at Old Dominion University. Public Affairs and Service (PAS) courses offered by the Strome College of Business are not considered as business courses. However, because some business courses cannot be used to satisfy the requirements of certain majors, students must refer to their specific degree program requirements to make sure that they complete appropriate business elective courses. For example, ECON 200S cannot be used to satisfy an elective requirement for students majoring in business administration. Also, IT 360T cannot be used as an elective by students majoring in Information Systems and Technology. Refer to the course description section of this Catalog for full details of courses and their prerequisites.

Free Elective

In the majority of cases a free elective is any course offered by an accredited community college or university, including Old Dominion University. However, because some courses cannot be used to satisfy the requirements of certain majors, students must refer to their specific degree program requirements to make sure that they complete appropriate elective courses. For example, ECON 200S cannot be used to satisfy an elective requirement for students majoring in business administration. Also, IT 360T cannot be used as an elective by students majoring in Information Systems and Technology. Refer to the course description section of this Catalog for full details of courses and their prerequisites.

Degree Program Guide

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

Course	Title	Credit Hours

BSBA to MBA (Master of Business Administration) Linked Program

Students interested in the program should contact the MBA Program Office as early as possible to discuss their plans for early entry. Once admitted to the program, the MBA program manager will act as the student's co-advisor, along with the chief departmental advisor or chief discipline advisor in the student's undergraduate major. The MBA Program Office is located in 1026 Constant Hall. The phone number is 757-683-3585 and email is mbainfo@odu.edu.

BSBA to MPA (Master of Public Administration) Linked Program

The linked BSBA to MPA program provides qualified Old Dominion University undergraduate students with the opportunity to earn a master's degree in public administration while taking 12 credits of the MPA program as an undergraduate student. The program is designed for highly motivated students with the desire to immediately continue their education after the bachelor's degree. The program is especially relevant to individuals seeking to work (or currently working) in the public or non-profit sectors, but is suitable for students from any undergraduate major. Graduate courses may be taken during the fall and spring semester of the student's senior undergraduate year. After receiving the undergraduate degree, a student will continue with the MPA program, taking MPA courses until completing the required 39 credit hours. Students in the linked program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Admission Requirements

A potential candidate will have:

1. Completed all lower level general education requirements
2. Achieved a cumulative GPA of at least 3.0 at the end of the junior year

Requirements for admission to the graduate program can be found in the School of Public Service section of the Graduate Catalog. For additional information, please contact the School of Public Service in the Strome College of Business.

Bachelor of Science in Business Administration Information Systems and Technology with a Major in Business Analytics (BSBA)

Weiyong Zhang, Chair

Ali Ardalani, Chief Discipline Advisor (Business Analytics)

The Information Systems and Technology program with a major in Business Analytics enables students to properly develop decision models and use computers to manipulate and analyze data in order to enhance decision making in a business environment. Students with a major in Business Analytics are typically employed in Business Analytics departments or as analysts.

A student who seeks a Bachelor of Science in Business Administration degree in Information Systems and Technology from Old Dominion University must, in addition to meeting other requirements of the University, earn a minimum of 25 percent of the total number of credits required for the degree (for example, 30 credits in a 120-credit degree program) through on- or off-campus instruction. This must include a minimum of 12 credit hours of upper-level courses specifically required for the major as shown on the course lists below.

Strome College of Business (SCB) Center for Undergraduate Advising and Student Success

The mission of this office is to challenge and support students in self-exploration and, through advising, provide resources for them to develop an achievable plan for success. Our vision is for students to be aware of their academic, personal, and professional goals; empowered to pursue them; and confident in their ability to accomplish them.

Our professional advisors work with all Strome College of Business students regarding degree planning, changing majors, admissions, continuance, graduation requirements and required curricula for the majors and minors offered by the College.

Degree Requirements

Students in all of the Bachelor of Science in Business Administration degree programs must fulfill the University General Education requirements (including foreign language) as well as the Strome College of Business's core, major, and elective requirements. Students must choose at least one major area to meet requirements towards the degree.

To stay in compliance with AACSB accreditation standards, students receiving a Bachelor of Science in Business Administration from Old Dominion University must complete at least half of their business course work in residence with a minimum of four courses in their declared major. This equates to 10 business classes, thus meeting the University's residency requirement as well.

Majors in the college may not take business and public administration courses for pass/fail credit except those courses in which pass/fail is the only grading option (i.e., internships and practica).

Admission to the Undergraduate Program in Business Administration

General Requirements

Applicants for admission to the undergraduate degree program in business administration (the Bachelor of Science in Business Administration) should apply initially to the Office of Admissions of Old Dominion University. Students cannot be accepted into business administration without first being admitted to the University. Admission to the University does not guarantee admission to the Bachelor of Science in Business Administration (BSBA) program. Candidates for admission to the BSBA program should indicate on the application to the University their intention to enter the undergraduate business administration degree program.

Admission to the Bachelor's Degree Program in Business Administration:

Before Admission to the bachelor's degree program in business administration can be granted, a student must have earned a grade of C or higher in each of the business Admission courses:

BUSN 110	Introduction to Contemporary Business	1
ENGL 110C	English Composition	3
MATH 162M	Precalculus I	3
ACCT 201	Principles of Financial Accounting	3
ECON 202S	Principles of Microeconomics	3

- BUSN 110 is not required for students pursuing majors under the BSBA in Information Systems and Technology (excluding Business Analytics) or for any student with an associate's degree in business administration or with a prior bachelor's degree in business administration.
- Students may utilize the Grade Forgiveness Policy for the business Admission courses.
- Transfer students may complete business Admission courses (BUSN 110, ENGL 110C, MATH 162M, ACCT 201, and ECON 202S) at another accredited college or university, but are responsible for having Transfer Evaluation Services determine that the courses are acceptable to the University.

Eligibility to Enroll in Upper-Level (300/400-level) Business Courses

Only students who have officially completed Admission courses to the BSBA program will be eligible to enroll in upper-level (300/400) business courses (refer to exceptions for non-business majors).

However, students who are in progress with the business Admission courses may enroll in upper-level (300/400) business courses. Note: These students will need a Program Restriction Waiver (PRW) to enroll in these courses, with the exception of FIN 323, MGMT 325, MKTG 311, and OPMT 303. These courses require a junior class standing for registration.

Enrollment in 300/400-level Business Courses by Non-Business Majors

Enrollment in 300/400-level business courses will be granted without the Admission courses for the following exceptions:

1. Students pursuing a declared minor in the Strome College of Business may enroll in 300/400-level business courses appropriate to the minor.
2. Students pursuing Upper-Division General Education Requirement Option B: Interdisciplinary Minor or Option D: Six hours of elective upper-division courses outside the student's major discipline or college.
3. Students wishing to satisfy the Impact of Technology requirement may enroll in IT 360T.
4. Students pursuing a degree program other than the Bachelor of Science in Business Administration (BSBA) that requires or accepts specific 300/400-level business courses to complete the degree may enroll in the courses appropriate to the major.

5. Non-degree-seeking students may enroll in 300/400-level business courses if they have satisfied the prerequisites for these courses.

Students in categories 1 - 5 above who do not have a declared major will need a Program Restriction Waiver (PRW) in order to enroll in any 300/400-level Strome College of Business course (including Economics courses). Forms to request a PRW are available at the Strome College of Business website.

Regulations for Continuance in the Bachelor of Science in Business Administration

In addition to the Old Dominion University continuance policies, the following policies are specific to all declared Bachelor of Science in Business Administration (BSBA) students. The Strome College of Business makes a reasonable effort to notify undergraduate students who are not in good academic standing in the BSBA program of their academic status. Each undergraduate student who is placed on BSBA Academic Alarm or BSBA Termination (explained below) will be sent an e-mail message to that effect at the student's Old Dominion University e-mail address, in accordance with the Electronic Communication Policy for Official University Business. Non-receipt of the e-mail messages by a student will not be considered grounds for granting exceptions or delays in enforcement of the BSBA continuance regulations.

BSBA Continuance Regulations

If a student's Grade Point Average (GPA) in their BSBA Core courses falls below a 2.0, then they will be on Academic Alarm within the Strome College of Business (SCB). This policy is very similar to the University's academic continuance policy, the main difference being that it is based on the core Business courses and impacts acceptance and continuance within the SCB.

Academic Alarm

The first semester in which a student's BSBA Core GPA drops to below a 2.0, they will be on Academic Alarm. Once considered on academic alarm within the college, taking courses within the BSBA Core is the only way to bring that GPA back up.

- If the student raises the BSBA Core GPA to above a 2.0, then they will no longer be on academic alarm.
- If the BSBA Core GPA does not reach a 2.0 but the semester average in the BSBA Core courses is a 2.0 or higher, then the student will remain on academic alarm and be able to continue within the SCB.

SCB Termination

While on academic alarm within the Strome College of Business, if the semester BSBA Core GPA falls below a 2.0, the student will be terminated from the SCB and their major coding will be changed from Business to Undecided. (Terminations will not be processed in summer semesters.)

Appeals

If you have been terminated, you may appeal the decision if you have extenuating circumstances and documentation to support your claim. To appeal, write a letter and include documentation of your circumstances to the Associate Dean of the Strome College of Business (Constant Hall, Suite 2004). There are specific details that need to be included with your appeal - for more information, please see the appeals process as described in the most recently issued catalog.

Guidelines for Filing a BSBA Termination Appeal

1. All students have the right to appeal their BSBA termination if they believe that extraordinary circumstances were the main reason for their poor academic performance. Notifications of pending BSBA termination are sent to the student's ODU email address and include information on the appeal process and deadlines. All BSBA termination appeals must be submitted electronically using the link provided in the email and will be reviewed by the SCB Termination Appeal Committee. Students are responsible for submitting their appeal by the stated deadline; late appeals will not be reviewed. Decisions of the Termination Appeal Committee may be appealed

to the Associate Dean for Academic Programs in the Strome College of Business whose decision is final.

2. Appeals must be based on circumstances pertinent to the semesters in which the academic difficulty occurred that were beyond the control of the student and for which official withdrawal from the course(s) was not an option. Appeal letters must be legible and authored by the terminated student. The appeal letter must provide sufficient detail and explanation regarding the following points because there is no face-to-face meeting with the Associate Dean for Academic Programs in the Strome College of Business. The decision of the Associate Dean is final. Students without documentation will not be allowed to appeal their termination. In order to be reviewed, an appeal letter must:

- Document the extraordinary circumstances such as a death in the family, medical complications or chronic conditions, personal or family emergency, overwhelming work schedules, dorm-mate conflict, or a personal relationship conflict that have adversely affected performance: i.e., a statement or letter from a physician, employer, family members, faculty, academic advisor, Counseling Services, or Educational Accessibility.
- Explain how the extraordinary circumstances caused each semester of poor academic performance.
- State the reasons why an official withdrawal was not requested.
- Explain how the extraordinary circumstance(s) has been resolved.
- Provide a plan of action to return to good BSBA academic standing.

3. Students who do not file a BSBA termination appeal or whose appeals are denied, are no longer eligible to pursue a bachelor's degree in Business Administration. Upon BSBA termination, the student's major in the Strome College of Business will be removed. (This does not affect a declared second major outside of the BSBA.) These students are advised to work with an advisor in the SCB Center for Undergraduate Advising to explore other major options, and for referrals to other advising departments for a new major declaration.

4. BSBA-terminated students who had pre-registered for a subsequent semester lose eligibility for continued enrollment in upper-level business courses.

Applying for Readmission to the BSBA Program

After a minimum of five years has passed since a student was terminated from the BSBA program, the student may apply for readmission to the program. There must be a high probability the student will successfully complete the degree program, and approval will be at the discretion of the Strome College of Business Associate Dean.

Requirements

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6
Oral Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#oral)	3
Mathematics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#math)	3
Language and Culture (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#language)	0-6
Information Literacy and Research (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#information)	3
Human Behavior (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#behavior)	3
Human Creativity (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#creativity)	3
Interpreting the Past (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#interpret)	3

Literature (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#literature)	3
Philosophy and Ethics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#philosophy)	3
The Nature of Science (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#nature)	8
Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

Oral Communication: COMM 101R or MKTG 200R required. Additionally, all students majoring in business administration can expect to complete several courses in which individual and/or group oral presentations will be required.

Mathematics: MATH 162M and MATH 200 required.

Information Literacy and Research: IT 150G (recommended) or any "G" course from the approved general education information literacy and research course list.

Human Behavior: Met in the Business Administration core for all majors except Economics.

Philosophy and Ethics must be satisfied by completion of either PHIL 230E or an upper-level "E" course from the approved general education ethics course list. A philosophy course designated with a P will not meet this requirement for business administration students with the exception of a "P" course taken prior to fall 2010.

Impact of Technology requirement is satisfied within each BSBA degree major except Information Systems and Technology by IT 360T. In the Information Systems and Technology majors (excluding Business Analytics), the Impact of Technology requirement is satisfied by the coursework required for the major.

Transfer students with an applicable associate's degree from a Virginia Community College or another community college that has a seamless transfer agreement with ODU, and students with a prior bachelor's degree from another university, must nevertheless have a grade of C or better in the following to be able to transfer them:

COMM 101R or MKTG 200R	Public Speaking Professional Interactions and Negotiations	3
PHIL 230E	Introduction to Ethics (Or an upper-level ethics course)	3
ENGL 211C or ENGL 231C	Writing, Rhetoric, and Research Writing, Rhetoric, and Research: Special Topics	3
MATH 162M	Precalculus I	3
MATH 200	Calculus for Business and Economics	3

Upper-Division General Education

- Option A. Any University-approved minor, second degree, or second major.
- Option B. An interdisciplinary minor consisting of 12 credits, three of which can be in the major. Interdisciplinary minors are described in the University Catalog section labeled Requirements for Undergraduate Degrees, Upper-Division Requirements.
- Option C. An approved certification program, such as teaching licensure.
- Option D. Two Upper-Division Courses from outside the Strome College of Business and not required by the major (6 credits).

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.

- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Business Administration Core

ACCT 201	Principles of Financial Accounting *	3
ACCT 202	Principles of Managerial Accounting *	3
BNAL 206	Business Analytics I *	3
BNAL 306	Business Analytics II	3
ECON 201S	Principles of Macroeconomics *	3
ECON 202S	Principles of Microeconomics *	3
ECON 301	Managerial Economics	3
FIN 323	Introductory Financial Management	3
FIN 331	Legal Environment of Business	3
IT 360T	Principles of Information Technology **	3
MGMT 325	Contemporary Organizations and Management	3
MGMT 485W	Business Policy and Strategy (C or better) ***	3
MKTG 311	Marketing Principles and Problems	3
OPMT 303	Operations Management	3
Total Credit Hours		42

- * Not automatically waived for transfer students with an applicable associate's degree from a Virginia Community College or another acceptable community college, or for students with a prior bachelor's degree from another university. A grade of C or better must be earned to transfer these courses to Old Dominion University.
- ** Students completing a major or minor in Information Systems and Technology (excluding the Business Analytics major) do not take this course.
- *** Students majoring in Economics must complete MGMT 485W, but meet the writing intensive requirement by earning a grade of C or better either in MGMT 485W or in one of the ECON Writing Intensive courses.

Information Systems and Technology-Business Analytics Major

General Education

Complete lower-division requirements		35-41
Complete upper-division requirements (minimum of 6 credit hours)		6
BUSN 110	Introduction to Contemporary Business	1
MATH 200	Calculus for Business and Economics	3

Business Administration Core

Complete business administration core requirements	42

Business Analytics Required Courses

BNAL 407	Prescriptive Analytics of Management Science	3
BNAL 415	Advanced Business Analytics/Big Data Applications	3
BNAL 476	Simulation Modeling and Analysis for Business Systems	3

Major Electives

Category I-Select two of the following:	6
BNAL 403	Data Visualization and Exploration

BNAL 405 Spreadsheet-Based Data Analysis for Decision Making

BNAL 432 Predictive Analytics for Business

BNAL 495 Topics in Business Analytics

ACCT 311 Managerial Accounting

Category II-Select one of the following (may not use the same course from both lists): 3

BNAL 368 Internship

BNAL 403 Data Visualization and Exploration

BNAL 405 Spreadsheet-Based Data Analysis for Decision Making

BNAL 432 Predictive Analytics for Business

BNAL 495 Topics in Business Analytics

ECON 400 From Correlation to Causation: Applied Causal Inference

ECON 425 Introduction to Mathematical Economics

FIN 431 Investments

INBU 450 Global Business

IT 363 Systems Analysis and Design

MGMT 430 Compensation Management

MKTG 475 Marketing Analytics

MSCM 430 Strategic Sourcing and Purchasing Management

MSCM 441 Supply Chain Management and Logistics

RMI 413 Risk Analysis and Control

Electives

Application Area Electives	9
200-400 Level Business Elective *	3
300-400 Level Business Elective *	3

Total Credit Hours 120-126

- * Can be any 200-400 or 300-400 level course offered by the Strome College of Business except ECON 200S, provided that the student has the appropriate prerequisites.

Courses included in the calculation of the 2.00 grade point average for the major are: BNAL 407, BNAL 415, BNAL 476, and all courses taken from the major and application area elective listings, excluding international business courses.

Application Areas

Business analytics is an inherently applied field of study. As such, business analytics majors will complete a group of courses in an application area. Select electives from one of the following application areas to complete (9 credits):

Accounting

Two approved 300-400 level ACCT courses	6
Approved International Business Requirement (select one of the following):	3

ACCT 450 International and Advanced Accounting

ECON 450 International Economics

FIN 435 International Financial Management

IT 425 Information Systems for International Business

MGMT 361 International Business Operations

MGMT 462 Comparative International Management

MGMT 463 Management Seminar Abroad

MKTG 411 Multi-National Marketing

MSCM 370 International Shipping

Total Credit Hours 9

Economics

Two approved 300-400 level ECON courses	6
ECON 450 International Economics	3
Total Credit Hours	9

Finance

Two approved 300-400 level FIN courses	6
FIN 435 International Financial Management	3
Total Credit Hours	9

Information Technology

Two approved 400-level IT courses	6
IT 425 Information Systems for International Business	3
Total Credit Hours	9

International Business

ECON 450 International Economics	3
FIN 435 International Financial Management	3
MKTG 411 Multi-National Marketing	3
Total Credit Hours	9

Management

Two approved 300-400 level MGMT courses	6
MGMT 361 International Business Operations	3
or MGMT 462 Comparative International Management	
Total Credit Hours	9

Maritime and Supply Chain Management

Two approved 300-400 level MSCM courses	6
MSCM 370 International Shipping	3
Total Credit Hours	9

Marketing

One approved 300-400 level MKTG course	3
MKTG 411 Multi-National Marketing	3
MKTG 475 Marketing Analytics	3
Total Credit Hours	9

Additional Requirements and Information

Advanced Placement

The college accepts advanced placement credit in accordance with the rules and regulations outlined in the Academic Information section of this catalog. Students may take College-Level Examination Program (CLEP) tests to receive credit for:

ACCT 201 Principles of Financial Accounting	3
ACCT 202 Principles of Managerial Accounting	3
ECON 201S Principles of Macroeconomics	3
ECON 202S Principles of Microeconomics	3
FIN 331 Legal Environment of Business	3
MGMT 325 Contemporary Organizations and Management	3
MKTG 311 Marketing Principles and Problems	3

Students are advised to contact the Office of Prior Learning Assessment for more information regarding CLEP and other prior learning assessment credit options. For advanced placement credit in any other business or public administration course, students are advised to contact the chair of the department offering the course. Additional information about credit awarded for qualifying scores on AP and IB subject examinations can be

found on the ODU website: <https://www.odu.edu/academics/academic-records/score-analysis/ap-ib> (<https://www.odu.edu/academics/academic-records/score-analysis/ap-ib/>).

Practical Work Experience for Business Administration Majors

Students may complement their major studies with a practical work experience, which may take the form of an internship, cooperative education experience or a class containing a real-world, hands-on project. Students must apply for internship or co-op participation through the Strome College of Business Career & Leadership Development Satellite Office. All work experiences must be approved by the faculty sponsor in the appropriate department prior to registering for credit. Students may not earn credit for previous or current work experiences. (However, academic credit for work experience may be approved in accordance with the policies for granting prior learning credit as defined in the section on Prior Learning Assessment Credit Options at the Undergraduate Level in this catalog.) For details see the Center for Career & Leadership Development section of this catalog.

Use of Internship and Similar Hours Toward Business Administration Majors

A student may apply no more than six hours of cooperative education, student internship or practicum courses to satisfy degree requirements. Students may not use more than three hours of cooperative education, student internship or practicum courses to satisfy major elective requirements in each of the students' majors. These courses are numbered 367, 368 or 369. Additional hours of cooperative education, student internship or practicum courses, however, can be used to satisfy other requirements such as free electives or general business electives. Additional internships must each involve substantially different kinds of work experiences. Internships must be approved by the Chief Departmental Advisor of the student's major and the CAP Coordinator of the internship.

Transfer of the Associate of Science in Business Administration Towards Degree Requirements

Students transferring to the college must complete a minimum of 10 business courses offered by the college to earn the degree from Old Dominion University, in accordance with AACSB regulations. Those transfer students holding the Associate of Science in Business Administration degree from a Virginia Community College must earn the grade of "C" or better in the following courses in order to satisfy requirements found in the first two years of the BSBA degree:

COMM 101R Public Speaking	3
ENGL 211C Writing, Rhetoric, and Research	3
or ENGL 231C Writing, Rhetoric, and Research: Special Topics	
MATH 162M Precalculus I	3
MATH 200 Calculus for Business and Economics	3
ACCT 201 Principles of Financial Accounting	3
ACCT 202 Principles of Managerial Accounting	3
ECON 201S Principles of Macroeconomics	3
ECON 202S Principles of Microeconomics	3
BNAL 206 Business Analytics I	3
Select one of the following:	3
PHIL 230E Introduction to Ethics	
Upper-level ethics course	

With the exception of the courses listed above, the University's lower-division General Education requirements are deemed satisfied by the accepted AS degrees. These typically include all AS degrees from the Virginia Community College System except the applied science degrees. For more information about accepted AS degrees contact the Office of Admissions. Associate degree holders, although meeting lower-level General Education requirements, must ensure that 120 credits are completed to earn the BSBA degree. A minimum of 25% of the required credit hours must be completed through Old Dominion University, at least 12 of which are upper-level courses in the major program.

The Strome College of Business does not accept courses completed at the freshman and sophomore levels at other institutions for required courses

at the junior and senior level at Old Dominion University. Please see the section on CLEP credits (Prior Learning Assessment Credit Options at the Undergraduate Level) for additional information.

Grade Average Requirements for Graduation

To graduate with a Bachelor of Science in Business Administration degree, students must present a minimum of 120 hours with a minimum overall grade point average of 2.00 in all courses taken at Old Dominion University. Students must also attain a minimum overall grade point average of 2.00 in courses taken toward the major (courses included in the major grade point average calculation are listed following the description of each major's course work).

Additionally, students must attain a minimum overall grade point average of 2.00 in the BSBA Core listed below. Only courses completed at Old Dominion University will be used to compute the BSBA Core average. Students with an Information Systems and Technology major (excluding Business Analytics) are not required to take IT 360T, so the BSBA Core grade point average is computed using the remaining courses. If the BSBA Core average is below the required 2.00 minimum, students are advised to utilize the Grade Forgiveness Policy or Adjusted Resident Credit option when appropriate to improve the grade point average.

Requirements for Completing a Bachelor of Science in Business Administration

The following sections show the courses that are requirements for all business students, regardless of the chosen major: Lower-Division General Education, BSBA Core Courses, and Upper-Division General Education. Credit hours are listed after the course title. The student must also choose a major and complete the requirements listed for that major on the following pages.

Foundation Courses for Admission to the Strome College of Business

ENGL 110C	English Composition (C or better)	3
MATH 162M	Precalculus I (C or better)	3
ACCT 201	Principles of Financial Accounting (C or better)	3
ECON 202S	Principles of Microeconomics (C or better)	3
BUSN 110	Introduction to Contemporary Business *	1

* Not required for students pursuing an Information Systems and Technology major (excluding Business Analytics) or for students with an associate's degree in business administration or with a prior bachelor's degree in business administration.

See the section on Admission to the Undergraduate Program in Business Administration, General Requirements.

Business Elective

A business elective is a course that is offered by an accredited college of business, including the Strome College of Business at Old Dominion University. Public Affairs and Service (PAS) courses offered by the Strome College of Business are not considered as business courses. However, because some business courses cannot be used to satisfy the requirements of certain majors, students must refer to their specific degree program requirements to make sure that they complete appropriate business elective courses. For example, ECON 200S cannot be used to satisfy an elective requirement for students majoring in business administration. Also, IT 360T cannot be used as an elective by students majoring in Information Systems and Technology. Refer to the course description section of this Catalog for full details of courses and their prerequisites.

Free Elective

In the majority of cases a free elective is any course offered by an accredited community college or university, including Old Dominion University. However, because some courses cannot be used to satisfy the requirements of certain majors, students must refer to their specific degree program requirements to make sure that they complete appropriate elective courses.

For example, ECON 200S cannot be used to satisfy an elective requirement for students majoring in business administration. Also, IT 360T cannot be used as an elective by students majoring in Information Systems and Technology. Refer to the course description section of this Catalog for full details of courses and their prerequisites.

Degree Program Guide

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

Course	Title	Credit Hours

BSBA to MBA (Master of Business Administration) Linked Program

Students interested in the program should contact the MBA Program Office as early as possible to discuss their plans for early entry. Once admitted to the program, the MBA program manager will act as the student's co-advisor, along with the chief departmental advisor or chief discipline advisor in the student's undergraduate major. The MBA Program Office is located in 1026 Constant Hall. The phone number is 757-683-3585 and email is mbainfo@odu.edu.

BSBA to MPA (Master of Public Administration) Linked Program

The linked BSBA to MPA program provides qualified Old Dominion University undergraduate students with the opportunity to earn a master's degree in public administration while taking 12 credits of the MPA program as an undergraduate student. The program is designed for highly motivated students with the desire to immediately continue their education after the bachelor's degree. The program is especially relevant to individuals seeking to work (or currently working) in the public or non-profit sectors, but is suitable for students from any undergraduate major. Graduate courses may be taken during the fall and spring semester of the student's senior undergraduate year. After receiving the undergraduate degree, a student will continue with the MPA program, taking MPA courses until completing the required 39 credit hours. Students in the linked program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Admission Requirements

A potential candidate will have:

1. Completed all lower level general education requirements
2. Achieved a cumulative GPA of at least 3.0 at the end of the junior year

Requirements for admission to the graduate program can be found in the School of Public Service section of the Graduate Catalog. For additional information, please contact the School of Public Service in the Strome College of Business.

Bachelor of Science in Business Administration Information Systems and Technology with a Major in Business Analytics and Intelligence (BSBA)

Weiyong Zhang, Chair
Ali Ardalan, Chief Discipline Advisor (Business Analytics)

The Information Systems and Technology program with a major in Business Analytics and Intelligence enables students to properly develop decision models and use computers to manipulate and analyze data in order to enhance decision making in a business environment. Students with a major in Business Analytics are typically employed in Business Analytics departments or as analysts.

A student who seeks a Bachelor of Science in Business Administration degree in Information Systems and Technology from Old Dominion University must, in addition to meeting other requirements of the University, earn a minimum of 25 percent of the total number of credits required for the degree (for example, 30 credits in a 120-credit degree program) through on- or off-campus instruction. This must include a minimum of 12 credit hours of upper-level courses specifically required for the major as shown on the course lists below.

Strome College of Business (SCB) Center for Undergraduate Advising and Student Success

The mission of this office is to challenge and support students in self-exploration and, through advising, provide resources for them to develop an achievable plan for success. Our vision is for students to be aware of their academic, personal, and professional goals; empowered to pursue them; and confident in their ability to accomplish them.

Our professional advisors work with all Strome College of Business students regarding degree planning, changing majors, admissions, continuance, graduation requirements and required curricula for the majors and minors offered by the College.

Degree Requirements

Students in all of the Bachelor of Science in Business Administration degree programs must fulfill the University General Education requirements (including foreign language) as well as the Strome College of Business's core, major, and elective requirements. Students must choose at least one major area to meet requirements towards the degree.

To stay in compliance with AACSB accreditation standards, students receiving a Bachelor of Science in Business Administration from Old Dominion University must complete at least half of their business course work in residence with a minimum of four courses in their declared major. This equates to 10 business classes, thus meeting the University's residency requirement as well.

Majors in the college may not take business and public administration courses for pass/fail credit except those courses in which pass/fail is the only grading option (i.e., internships and practica).

Admission to the Undergraduate Program in Business Administration

General Requirements

Applicants for admission to the undergraduate degree program in business administration (the Bachelor of Science in Business Administration) should apply initially to the Office of Admissions of Old Dominion University. Students cannot be accepted into business administration without first being admitted to the University. Admission to the University does not guarantee admission to the Bachelor of Science in Business Administration (BSBA) program. Candidates for admission to the BSBA program should indicate on the application to the University their intention to enter the undergraduate business administration degree program.

Admission to the Bachelor's Degree Program in Business Administration:

Before Admission to the bachelor's degree program in business administration can be granted, a student must have earned a grade of C or higher in each of the business Admission courses:

BUSN 110	Introduction to Contemporary Business	1
ENGL 110C	English Composition	3
MATH 162M	Precalculus I	3
ACCT 201	Principles of Financial Accounting	3
ECON 202S	Principles of Microeconomics	3

- BUSN 110 is not required for students pursuing majors under the BSBA in Information Systems and Technology (excluding Business Analytics) or for any student with an associate's degree in business administration or with a prior bachelor's degree in business administration.
- Students may utilize the Grade Forgiveness Policy for the business Admission courses.
- Transfer students may complete business Admission courses (BUSN 110, ENGL 110C, MATH 162M, ACCT 201, and ECON 202S) at another accredited college or university, but are responsible for having Transfer Evaluation Services determine that the courses are acceptable to the University.

Eligibility to Enroll in Upper-Level (300/400-level) Business Courses

Only students who have officially completed Admission courses to the BSBA program will be eligible to enroll in upper-level (300/400) business courses (refer to exceptions for non-business majors). However, students who are in progress with the business Admission courses may enroll in upper-level (300/400) business courses. Note: These students will need a Program Restriction Waiver (PRW) to enroll in these courses, with the exception of FIN 323, MGMT 325, MKTG 311, and OPMT 303. These courses require a junior class standing for registration.

Enrollment in 300/400-level Business Courses by Non-Business Majors

Enrollment in 300/400-level business courses will be granted without the Admission courses for the following exceptions:

1. Students pursuing a declared minor in the Strome College of Business may enroll in 300/400-level business courses appropriate to the minor.
2. Students pursuing Upper-Division General Education Requirement Option B: Interdisciplinary Minor or Option D: Six hours of elective upper-division courses outside the student's major discipline or college.
3. Students wishing to satisfy the Impact of Technology requirement may enroll in IT 360T.
4. Students pursuing a degree program other than the Bachelor of Science in Business Administration (BSBA) that requires or accepts specific 300/400-level business courses to complete the degree may enroll in the courses appropriate to the major.
5. Non-degree-seeking students may enroll in 300/400-level business courses if they have satisfied the prerequisites for these courses.

Students in categories 1 - 5 above who do not have a declared major will need a Program Restriction Waiver (PRW) in order to enroll in any 300/400-level Strome College of Business course (including Economics courses). Forms to request a PRW are available at the Strome College of Business website.

Regulations for Continuance in the Bachelor of Science in Business Administration

In addition to the Old Dominion University continuance policies, the following policies are specific to all declared Bachelor of Science in Business Administration (BSBA) students. The Strome College of Business makes a reasonable effort to notify undergraduate students who are not in good academic standing in the BSBA program of their academic status. Each undergraduate student who is placed on BSBA Academic Alarm or BSBA Termination (explained below) will be sent an e-mail message to that effect at the student's Old Dominion University e-mail address, in accordance with the Electronic Communication Policy for Official University Business. Non-receipt of the e-mail messages by a student will not be considered grounds for granting exceptions or delays in enforcement of the BSBA continuance regulations.

BSBA Continuance Regulations

If a student's Grade Point Average (GPA) in their BSBA Core courses falls below a 2.0, then they will be on Academic Alarm within the Strome College of Business (SCB). This policy is very similar to the University's academic continuance policy, the main difference being that it is based on the core Business courses and impacts acceptance and continuance within the SCB.

Academic Alarm

The first semester in which a student's BSBA Core GPA drops to below a 2.0, they will be on Academic Alarm. Once considered on academic alarm within the college, taking courses within the BSBA Core is the only way to bring that GPA back up.

- If the student raises the BSBA Core GPA to above a 2.0, then they will no longer be on academic alarm.
- If the BSBA Core GPA does not reach a 2.0 but the semester average in the BSBA Core courses is a 2.0 or higher, then the student will remain on academic alarm and be able to continue within the SCB.

SCB Termination

While on academic alarm within the Strome College of Business, if the semester BSBA Core GPA falls below a 2.0, the student will be terminated from the SCB and their major coding will be changed from Business to Undecided. (Terminations will not be processed in summer semesters.)

Appeals

If you have been terminated, you may appeal the decision if you have extenuating circumstances and documentation to support your claim. To appeal, write a letter and include documentation of your circumstances to the Associate Dean of the Strome College of Business (Constant Hall, Suite 2004). There are specific details that need to be included with your appeal - for more information, please see the appeals process as described in the most recently issued catalog.

Guidelines for Filing a BSBA Termination Appeal

1. All students have the right to appeal their BSBA termination if they believe that extraordinary circumstances were the main reason for their poor academic performance. Notifications of pending BSBA termination are sent to the student's ODU email address and include information on the appeal process and deadlines. All BSBA termination appeals must be submitted electronically using the link provided in the email and will be reviewed by the SCB Termination Appeal Committee. Students are responsible for submitting their appeal by the stated deadline; late appeals will not be reviewed. Decisions of the Termination Appeal Committee may be appealed to the Associate Dean for Academic Programs in the Strome College of Business whose decision is final.

2. Appeals must be based on circumstances pertinent to the semesters in which the academic difficulty occurred that were beyond the control of the student and for which official withdrawal from the course(s) was not an option. Appeal letters must be legible and authored by the terminated student. The appeal letter must provide sufficient detail and explanation regarding the following points because there is no face-to-face meeting with the Associate Dean for Academic Programs in the Strome College of Business. The decision of the Associate Dean is final. Students without documentation will not be allowed to appeal their termination. In order to be reviewed, an appeal letter must:

- Document the extraordinary circumstances such as a death in the family, medical complications or chronic conditions, personal or family emergency, overwhelming work schedules, dorm-mate conflict, or a personal relationship conflict that have adversely affected performance: i.e., a statement or letter from a physician, employer, family members, faculty, academic advisor, Counseling Services, or Educational Accessibility.
- Explain how the extraordinary circumstances caused each semester of poor academic performance.
- State the reasons why an official withdrawal was not requested.
- Explain how the extraordinary circumstance(s) has been resolved.
- Provide a plan of action to return to good BSBA academic standing.

3. Students who do not file a BSBA termination appeal or whose appeals are denied, are no longer eligible to pursue a bachelor's degree in Business Administration. Upon BSBA termination, the student's major in the Strome College of Business will be removed. (This does not affect a declared second major outside of the BSBA.) These students are advised to work with an advisor in the SCB Center for Undergraduate Advising to explore other major options, and for referrals to other advising departments for a new major declaration.

4. BSBA-terminated students who had pre-registered for a subsequent semester lose eligibility for continued enrollment in upper-level business courses.

Applying for Readmission to the BSBA Program

After a minimum of five years has passed since a student was terminated from the BSBA program, the student may apply for readmission to the program. There must be a high probability the student will successfully complete the degree program, and approval will be at the discretion of the Strome College of Business Associate Dean.

Requirements

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6
Oral Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#oral)	3
Mathematics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#math)	3
Language and Culture (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#language)	0-6
Information Literacy and Research (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#information)	3
Human Behavior (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#behavior)	3
Human Creativity (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#creativity)	3
Interpreting the Past (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#interpret)	3
Literature (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#literature)	3
Philosophy and Ethics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#philosophy)	3
The Nature of Science (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#nature)	8
Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

Oral Communication: COMM 101R or MKTG 200R required. Additionally, all students majoring in business administration can expect to complete several courses in which individual and/or group oral presentations will be required.

Mathematics: MATH 162M and MATH 200 required.

Information Literacy and Research: IT 150G (recommended) or any "G" course from the approved general education information literacy and research course list.

Human Behavior: Met in the Business Administration core for all majors except Economics.

Philosophy and Ethics must be satisfied by completion of either PHIL 230E or an upper-level "E" course from the approved general education ethics course list. A philosophy course designated with a P will not meet this requirement for business administration students with the exception of a "P" course taken prior to fall 2010.

Impact of Technology requirement is satisfied within each BSBA degree major except Information Systems and Technology by IT 360T. In the Information Systems and Technology majors (excluding Business Analytics), the Impact of Technology requirement is satisfied by the coursework required for the major.

Transfer students with an applicable associate's degree from a Virginia Community College or another community college that has a seamless transfer agreement with ODU, and students with a prior bachelor's degree

from another university, must nevertheless have a grade of C or better in the following to be able to transfer them:

COMM 101R	Public Speaking	3
or MKTG 200R	Professional Interactions and Negotiations	
PHIL 230E	Introduction to Ethics (Or an upper-level ethics course)	3
ENGL 211C	Writing, Rhetoric, and Research	3
or ENGL 231C	Writing, Rhetoric, and Research: Special Topics	
MATH 162M	Precalculus I	3
MATH 200	Calculus for Business and Economics	3

Upper-Division General Education

- Option A. Any University-approved minor, second degree, or second major.
- Option B. An interdisciplinary minor consisting of 12 credits, three of which can be in the major. Interdisciplinary minors are described in the University Catalog section labeled Requirements for Undergraduate Degrees, Upper-Division Requirements.
- Option C. An approved certification program, such as teaching licensure.
- Option D. Two Upper-Division Courses from outside the Strome College of Business and not required by the major (6 credits).

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Business Administration Core

ACCT 201	Principles of Financial Accounting *	3
ACCT 202	Principles of Managerial Accounting *	3
BNAL 206	Business Analytics I *	3
BNAL 306	Business Analytics II	3
ECON 201S	Principles of Macroeconomics *	3
ECON 202S	Principles of Microeconomics *	3
ECON 301	Managerial Economics	3
FIN 323	Introductory Financial Management	3
FIN 331	Legal Environment of Business	3
IT 360T	Principles of Information Technology **	3
MGMT 325	Contemporary Organizations and Management	3
MGMT 485W	Business Policy and Strategy (C or better) ***	3
MKTG 311	Marketing Principles and Problems	3
OPMT 303	Operations Management	3
Total Credit Hours		42

* Not automatically waived for transfer students with an applicable associate's degree from a Virginia Community College or another acceptable community college, or for students with a prior bachelor's degree from another

university. A grade of C or better must be earned to transfer these courses to Old Dominion University. Students completing a major or minor in Information Systems and Technology (excluding the Business Analytics major) do not take this course. Students majoring in Economics must complete MGMT 485W, but meet the writing intensive requirement by earning a grade of C or better either in MGMT 485W or in one of the ECON Writing Intensive courses.

Information Systems and Technology-Business Analytics and Intelligence Major

General Education

Complete lower-division requirements		35-41
Complete upper-division requirements		6
BUSN 110	Introduction to Contemporary Business +	1
MATH 200	Calculus for Business and Economics	3

Business Administration Core

Complete business administration core requirements		39

Business Analytics and Intelligence

IT 201	Introduction to Information Systems	3
IT 205	Introduction to Object-Oriented Programming	3
IT 363	Systems Analysis and Design *	3
IT 410	Business Intelligence	3
IT 450	Database Concepts	3

BNAL 415	Advanced Business Analytics/Big Data Applications	3
BNAL 476	Simulation Modeling and Analysis for Business Systems	3

Category I-Select two of the following:		6

BNAL 403	Data Visualization and Exploration	
BNAL 432	Predictive Analytics for Business	
BNAL 495	Topics in Business Analytics	

Category II-Select one of the following:		3

ACCT 450	International and Advanced Accounting	
ECON 450	International Economics	
FIN 435	International Financial Management	
IT 425	Information Systems for International Business	
MGMT 361	International Business Operations	
MGMT 462	Comparative International Management	
MGMT 463	Management Seminar Abroad	
MKTG 411	Multi-National Marketing	
MSCM 370	International Shipping	

Total Credit Hours		120-126

+ Not required for students pursuing the IT major or for any student with an associate's degree in business administration or with a prior bachelor's degree in business administration.

* Business Analytics and Intelligence majors who take IT 363 are exempt from taking IT 360T in the core.

All major courses except the international course are included when calculating the student's grade point average in the major.

Additional Requirements and Information

Advanced Placement

The college accepts advanced placement credit in accordance with the rules and regulations outlined in the Academic Information section of this catalog. Students may take College-Level Examination Program (CLEP) tests to receive credit for:

ACCT 201	Principles of Financial Accounting	3
ACCT 202	Principles of Managerial Accounting	3
ECON 201S	Principles of Macroeconomics	3
ECON 202S	Principles of Microeconomics	3
FIN 331	Legal Environment of Business	3
MGMT 325	Contemporary Organizations and Management	3
MKTG 311	Marketing Principles and Problems	3

Students are advised to contact the Office of Prior Learning Assessment for more information regarding CLEP and other prior learning assessment credit options. For advanced placement credit in any other business or public administration course, students are advised to contact the chair of the department offering the course. Additional information about credit awarded for qualifying scores on AP and IB subject examinations can be found on the ODU website: <https://www.odu.edu/academics/academic-records/score-analysis/ap-ib> (<https://www.odu.edu/academics/academic-records/score-analysis/ap-ib/>).

Practical Work Experience for Business Administration Majors

Students may complement their major studies with a practical work experience, which may take the form of an internship, cooperative education experience or a class containing a real-world, hands-on project. Students must apply for internship or co-op participation through the Strome College of Business Career & Leadership Development Satellite Office. All work experiences must be approved by the faculty sponsor in the appropriate department prior to registering for credit. Students may not earn credit for previous or current work experiences. (However, academic credit for work experience may be approved in accordance with the policies for granting prior learning credit as defined in the section on Prior Learning Assessment Credit Options at the Undergraduate Level in this catalog.) For details see the Center for Career & Leadership Development section of this catalog.

Use of Internship and Similar Hours Toward Business Administration Majors

A student may apply no more than six hours of cooperative education, student internship or practicum courses to satisfy degree requirements. Students may not use more than three hours of cooperative education, student internship or practicum courses to satisfy major elective requirements in each of the students' majors. These courses are numbered 367, 368 or 369. Additional hours of cooperative education, student internship or practicum courses, however, can be used to satisfy other requirements such as free electives or general business electives. Additional internships must each involve substantially different kinds of work experiences. Internships must be approved by the Chief Departmental Advisor of the student's major and the CAP Coordinator of the internship.

Transfer of the Associate of Science in Business Administration Towards Degree Requirements

Students transferring to the college must complete a minimum of 10 business courses offered by the college to earn the degree from Old Dominion University, in accordance with AACSB regulations. Those transfer students holding the Associate of Science in Business Administration degree from a Virginia Community College must earn the grade of "C" or better in the following courses in order to satisfy requirements found in the first two years of the BSBA degree:

COMM 101R	Public Speaking	3
ENGL 211C or ENGL 231C	Writing, Rhetoric, and Research: Writing, Rhetoric, and Research: Special Topics	3
MATH 162M	Precalculus I	3

MATH 200	Calculus for Business and Economics	3
ACCT 201	Principles of Financial Accounting	3
ACCT 202	Principles of Managerial Accounting	3
ECON 201S	Principles of Macroeconomics	3
ECON 202S	Principles of Microeconomics	3
BNAL 206	Business Analytics I	3
Select one of the following:		3
PHIL 230E	Introduction to Ethics	
Upper-level ethics course		

With the exception of the courses listed above, the University's lower-division General Education requirements are deemed satisfied by the accepted AS degrees. These typically include all AS degrees from the Virginia Community College System except the applied science degrees. For more information about accepted AS degrees contact the Office of Admissions. Associate degree holders, although meeting lower-level General Education requirements, must ensure that 120 credits are completed to earn the BSBA degree. A minimum of 25% of the required credit hours must be completed through Old Dominion University, at least 12 of which are upper-level courses in the major program.

The Strome College of Business does not accept courses completed at the freshman and sophomore levels at other institutions for required courses at the junior and senior level at Old Dominion University. Please see the section on CLEP credits (Prior Learning Assessment Credit Options at the Undergraduate Level) for additional information.

Grade Average Requirements for Graduation

To graduate with a Bachelor of Science in Business Administration degree, students must present a minimum of 120 hours with a minimum overall grade point average of 2.00 in all courses taken at Old Dominion University. Students must also attain a minimum overall grade point average of 2.00 in courses taken toward the major (courses included in the major grade point average calculation are listed following the description of each major's course work).

Additionally, students must attain a minimum overall grade point average of 2.00 in the BSBA Core listed below. Only courses completed at Old Dominion University will be used to compute the BSBA Core average. Students with an Information Systems and Technology major (excluding Business Analytics) are not required to take IT 360T, so the BSBA Core grade point average is computed using the remaining courses. If the BSBA Core average is below the required 2.00 minimum, students are advised to utilize the Grade Forgiveness Policy or Adjusted Resident Credit option when appropriate to improve the grade point average.

Requirements for Completing a Bachelor of Science in Business Administration

The following sections show the courses that are requirements for all business students, regardless of the chosen major: Lower-Division General Education, BSBA Core Courses, and Upper-Division General Education. Credit hours are listed after the course title. The student must also choose a major and complete the requirements listed for that major on the following pages.

Foundation Courses for Admission to the Strome College of Business

ENGL 110C	English Composition (C or better)	3
MATH 162M	Precalculus I (C or better)	3
ACCT 201	Principles of Financial Accounting (C or better)	3
ECON 202S	Principles of Microeconomics (C or better)	3
BUSN 110	Introduction to Contemporary Business *	1

* Not required for students pursuing an Information Systems and Technology major (excluding Business Analytics) or for students with an associate's degree in business

administration or with a prior bachelor's degree in business administration.

See the section on Admission to the Undergraduate Program in Business Administration, General Requirements.

Business Elective

A business elective is a course that is offered by an accredited college of business, including the Strome College of Business at Old Dominion University. Public Affairs and Service (PAS) courses offered by the Strome College of Business are not considered as business courses. However, because some business courses cannot be used to satisfy the requirements of certain majors, students must refer to their specific degree program requirements to make sure that they complete appropriate business elective courses. For example, ECON 200S cannot be used to satisfy an elective requirement for students majoring in business administration. Also, IT 360T cannot be used as an elective by students majoring in Information Systems and Technology. Refer to the course description section of this Catalog for full details of courses and their prerequisites.

Free Elective

In the majority of cases a free elective is any course offered by an accredited community college or university, including Old Dominion University. However, because some courses cannot be used to satisfy the requirements of certain majors, students must refer to their specific degree program requirements to make sure that they complete appropriate elective courses. For example, ECON 200S cannot be used to satisfy an elective requirement for students majoring in business administration. Also, IT 360T cannot be used as an elective by students majoring in Information Systems and Technology. Refer to the course description section of this Catalog for full details of courses and their prerequisites.

Degree Program Guide

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

Course	Title	Credit Hours

BSBA to MBA (Master of Business Administration) Linked Program

Students interested in the program should contact the MBA Program Office as early as possible to discuss their plans for early entry. Once admitted to the program, the MBA program manager will act as the student's co-advisor, along with the chief departmental advisor or chief discipline advisor in the student's undergraduate major. The MBA Program Office is located in 1026 Constant Hall. The phone number is 757-683-3585 and email is mbainfo@odu.edu.

BSBA to MPA (Master of Public Administration) Linked Program

The linked BSBA to MPA program provides qualified Old Dominion University undergraduate students with the opportunity to earn a master's degree in public administration while taking 12 credits of the MPA program as an undergraduate student. The program is designed for highly motivated students with the desire to immediately continue their education after the bachelor's degree. The program is especially relevant to individuals seeking to work (or currently working) in the public or non-profit sectors, but is suitable for students from any undergraduate major. Graduate courses may be taken during the fall and spring semester of the student's senior undergraduate year. After receiving the undergraduate degree, a student will continue with the MPA program, taking MPA courses until completing the required 39 credit hours. Students in the linked program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Admission Requirements

A potential candidate will have:

1. Completed all lower level general education requirements
2. Achieved a cumulative GPA of at least 3.0 at the end of the junior year

Requirements for admission to the graduate program can be found in the School of Public Service section of the Graduate Catalog. For additional information, please contact the School of Public Service in the Strome College of Business.

Bachelor of Science in Business Administration Information Systems and Technology-Database Major (BSBA)

Weiyong Zhang, Chair

Roya Ardalan, Chief Discipline Advisor

The information systems and technology program is designed to provide students with a technical background in information technology as well as a broad perspective of the business environment in which information technology plays a strategic role. The program emphasizes the development of business analysis and system implementation skills; these skills can provide a basis for job entry, career development and flexibility amid the rapid changes in information technology.

A student who seeks a Bachelor of Science in Business Administration degree in Information Systems and Technology from Old Dominion University must, in addition to meeting other requirements of the University, earn a minimum of 25 percent of the total number of credits required for the degree (for example, 30 credits in a 120-credit degree program) through on- or off-campus instruction. This must include a minimum of 12 credit hours of upper-level IT courses or upper-level BNAL courses specifically listed as electives on the course lists below.

Strome College of Business (SCB) Center for Undergraduate Advising and Student Success

The mission of this office is to challenge and support students in self-exploration and, through advising, provide resources for them to develop an achievable plan for success. Our vision is for students to be aware of their academic, personal, and professional goals; empowered to pursue them; and confident in their ability to accomplish them.

Our professional advisors work with all Strome College of Business students regarding degree planning, changing majors, admissions, continuance, graduation requirements and required curricula for the majors and minors offered by the College.

Degree Requirements

Students in all of the Bachelor of Science in Business Administration degree programs must fulfill the University General Education requirements (including foreign language) as well as the Strome College of Business's core, major, and elective requirements. Students must choose at least one major area to meet requirements towards the degree.

To stay in compliance with AACSB accreditation standards, students receiving a Bachelor of Science in Business Administration from Old Dominion University must complete at least half of their business course work in residence with a minimum of four courses in their declared major. This equates to 10 business classes, thus meeting the University's residency requirement as well.

Majors in the college may not take business and public administration courses for pass/fail credit except those courses in which pass/fail is the only grading option (i.e., internships and practica).

Admission to the Undergraduate Program in Business Administration

General Requirements

Applicants for admission to the undergraduate degree program in business administration (the Bachelor of Science in Business Administration) should apply initially to the Office of Admissions of Old Dominion University. Students cannot be accepted into business administration without first being admitted to the University. Admission to the University does not guarantee admission to the Bachelor of Science in Business Administration (BSBA) program. Candidates for admission to the BSBA program should indicate on

the application to the University their intention to enter the undergraduate business administration degree program.

Admission to the Bachelor's Degree Program in Business Administration:

Before Admission to the bachelor's degree program in business administration can be granted, a student must have earned a grade of C or higher in each of the business Admission courses:

BUSN 110	Introduction to Contemporary Business	1
ENGL 110C	English Composition	3
MATH 162M	Precalculus I	3
ACCT 201	Principles of Financial Accounting	3
ECON 202S	Principles of Microeconomics	3

- BUSN 110 is not required for students pursuing majors under the BSBA in Information Systems and Technology (excluding Business Analytics) or for any student with an associate's degree in business administration or with a prior bachelor's degree in business administration.
- Students may utilize the Grade Forgiveness Policy for the business Admission courses.
- Transfer students may complete business Admission courses (BUSN 110, ENGL 110C, MATH 162M, ACCT 201, and ECON 202S) at another accredited college or university, but are responsible for having Transfer Evaluation Services determine that the courses are acceptable to the University.

Eligibility to Enroll in Upper-Level (300/400-level) Business Courses

Only students who have officially completed Admission courses to the BSBA program will be eligible to enroll in upper-level (300/400) business courses (refer to exceptions for non-business majors). However, students who are in progress with the business Admission courses may enroll in upper-level (300/400) business courses. Note: These students will need a Program Restriction Waiver (PRW) to enroll in these courses, with the exception of FIN 323, MGMT 325, MKTG 311, and OPMT 303. These courses require a junior class standing for registration.

Enrollment in 300/400-level Business Courses by Non-Business Majors

Enrollment in 300/400-level business courses will be granted without the Admission courses for the following exceptions:

1. Students pursuing a declared minor in the Strome College of Business may enroll in 300/400-level business courses appropriate to the minor.
2. Students pursuing Upper-Division General Education Requirement Option B: Interdisciplinary Minor or Option D: Six hours of elective upper-division courses outside the student's major discipline or college.
3. Students wishing to satisfy the Impact of Technology requirement may enroll in IT 360T.
4. Students pursuing a degree program other than the Bachelor of Science in Business Administration (BSBA) that requires or accepts specific 300/400-level business courses to complete the degree may enroll in the courses appropriate to the major.
5. Non-degree-seeking students may enroll in 300/400-level business courses if they have satisfied the prerequisites for these courses.

Students in categories 1 - 5 above who do not have a declared major will need a Program Restriction Waiver (PRW) in order to enroll in any 300/400-level Strome College of Business course (including Economics courses). Forms to request a PRW are available at the Strome College of Business website.

Regulations for Continuance in the Bachelor of Science in Business Administration

In addition to the Old Dominion University continuance policies, the following policies are specific to all declared Bachelor of Science in Business Administration (BSBA) students. The Strome College of Business makes a reasonable effort to notify undergraduate students who are not in good academic standing in the BSBA program of their academic status. Each undergraduate student who is placed on BSBA Academic Alarm or BSBA Termination (explained below) will be sent an e-mail message to that effect at the student's Old Dominion University e-mail address, in accordance with the Electronic Communication Policy for Official University Business. Non-receipt of the e-mail messages by a student will not be considered grounds for granting exceptions or delays in enforcement of the BSBA continuance regulations.

BSBA Continuance Regulations

If a student's Grade Point Average (GPA) in their BSBA Core courses falls below a 2.0, then they will be on Academic Alarm within the Strome College of Business (SCB). This policy is very similar to the University's academic continuance policy, the main difference being that it is based on the core Business courses and impacts acceptance and continuance within the SCB.

Academic Alarm

The first semester in which a student's BSBA Core GPA drops to below a 2.0, they will be on Academic Alarm. Once considered on academic alarm within the college, taking courses within the BSBA Core is the only way to bring that GPA back up.

- If the student raises the BSBA Core GPA to above a 2.0, then they will no longer be on academic alarm.
- If the BSBA Core GPA does not reach a 2.0 but the semester average in the BSBA Core courses is a 2.0 or higher, then the student will remain on academic alarm and be able to continue within the SCB.

SCB Termination

While on academic alarm within the Strome College of Business, if the semester BSBA Core GPA falls below a 2.0, the student will be terminated from the SCB and their major coding will be changed from Business to Undecided. (Terminations will not be processed in summer semesters.)

Appeals

If you have been terminated, you may appeal the decision if you have extenuating circumstances and documentation to support your claim. To appeal, write a letter and include documentation of your circumstances to the Associate Dean of the Strome College of Business (Constant Hall, Suite 2004). There are specific details that need to be included with your appeal - for more information, please see the appeals process as described in the most recently issued catalog.

Guidelines for Filing a BSBA Termination Appeal

1. All students have the right to appeal their BSBA termination if they believe that extraordinary circumstances were the main reason for their poor academic performance. Notifications of pending BSBA termination are sent to the student's ODU email address and include information on the appeal process and deadlines. All BSBA termination appeals must be submitted electronically using the link provided in the email and will be reviewed by the SCB Termination Appeal Committee. Students are responsible for submitting their appeal by the stated deadline; late appeals will not be reviewed. Decisions of the Termination Appeal Committee may be appealed to the Associate Dean for Academic Programs in the Strome College of Business whose decision is final.
2. Appeals must be based on circumstances pertinent to the semesters in which the academic difficulty occurred that were beyond the control of the student and for which official withdrawal from the course(s) was not an option. Appeal letters must be legible and authored by the terminated student. The appeal letter must provide sufficient detail and explanation regarding the following points because there is no face-to-face meeting

with the Associate Dean for Academic Programs in the Strome College of Business. The decision of the Associate Dean is final. Students without documentation will not be allowed to appeal their termination. In order to be reviewed, an appeal letter must:

- Document the extraordinary circumstances such as a death in the family, medical complications or chronic conditions, personal or family emergency, overwhelming work schedules, dorm-mate conflict, or a personal relationship conflict that have adversely affected performance: i.e., a statement or letter from a physician, employer, family members, faculty, academic advisor, Counseling Services, or Educational Accessibility.
 - Explain how the extraordinary circumstances caused each semester of poor academic performance.
 - State the reasons why an official withdrawal was not requested.
 - Explain how the extraordinary circumstance(s) has been resolved.
 - Provide a plan of action to return to good BSBA academic standing.
3. Students who do not file a BSBA termination appeal or whose appeals are denied, are no longer eligible to pursue a bachelor's degree in Business Administration. Upon BSBA termination, the student's major in the Strome College of Business will be removed. (This does not affect a declared second major outside of the BSBA.) These students are advised to work with an advisor in the SCB Center for Undergraduate Advising to explore other major options, and for referrals to other advising departments for a new major declaration.
4. BSBA-terminated students who had pre-registered for a subsequent semester lose eligibility for continued enrollment in upper-level business courses.

Applying for Readmission to the BSBA Program

After a minimum of five years has passed since a student was terminated from the BSBA program, the student may apply for readmission to the program. There must be a high probability the student will successfully complete the degree program, and approval will be at the discretion of the Strome College of Business Associate Dean.

Requirements

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6
Oral Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#oral)	3
Mathematics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#math)	3
Language and Culture (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#language)	0-6
Information Literacy and Research (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#information)	3
Human Behavior (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#behavior)	3
Human Creativity (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#creativity)	3
Interpreting the Past (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#interpret)	3
Literature (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#literature)	3
Philosophy and Ethics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#philosophy)	3
The Nature of Science (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#nature)	8
Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

Oral Communication: COMM 101R or MKTG 200R required. Additionally, all students majoring in business administration can expect to complete several courses in which individual and/or group oral presentations will be required.

Mathematics: MATH 162M and MATH 200 required.

Information Literacy and Research: IT 150G (recommended) or any "G" course from the approved general education information literacy and research course list.

Human Behavior: Met in the Business Administration core for all majors except Economics.

Philosophy and Ethics must be satisfied by completion of either PHIL 230E or an upper-level "E" course from the approved general education ethics course list. A philosophy course designated with a P will not meet this requirement for business administration students with the exception of a "P" course taken prior to fall 2010.

Impact of Technology requirement is satisfied within each BSBA degree major except Information Systems and Technology by IT 360T. In the Information Systems and Technology majors (excluding Business Analytics), the Impact of Technology requirement is satisfied by the coursework required for the major.

Transfer students with an applicable associate's degree from a Virginia Community College or another community college that has a seamless transfer agreement with ODU, and students with a prior bachelor's degree from another university, must nevertheless have a grade of C or better in the following to be able to transfer them:

COMM 101R	Public Speaking	3
or MKTG 200R	Professional Interactions and Negotiations	
PHIL 230E	Introduction to Ethics (Or an upper-level ethics course)	3
ENGL 211C	Writing, Rhetoric, and Research	3
or ENGL 231C	Writing, Rhetoric, and Research: Special Topics	
MATH 162M	Precalculus I	3
MATH 200	Calculus for Business and Economics	3

Upper-Division General Education

- Option A. Any University-approved minor, second degree, or second major.
- Option B. An interdisciplinary minor consisting of 12 credits, three of which can be in the major. Interdisciplinary minors are described in the University Catalog section labeled Requirements for Undergraduate Degrees, Upper-Division Requirements.
- Option C. An approved certification program, such as teaching licensure.
- Option D. Two Upper-Division Courses from outside the Strome College of Business and not required by the major (6 credits).

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Business Administration Core

ACCT 201	Principles of Financial Accounting *	3
ACCT 202	Principles of Managerial Accounting *	3
BNAL 206	Business Analytics I *	3
BNAL 306	Business Analytics II	3
ECON 201S	Principles of Macroeconomics *	3
ECON 202S	Principles of Microeconomics *	3
ECON 301	Managerial Economics	3
FIN 323	Introductory Financial Management	3
FIN 331	Legal Environment of Business	3
IT 360T	Principles of Information Technology **	3
MGMT 325	Contemporary Organizations and Management	3
MGMT 485W	Business Policy and Strategy (C or better) ***	3
MKTG 311	Marketing Principles and Problems	3
OPMT 303	Operations Management	3
Total Credit Hours		42

*	Not automatically waived for transfer students with an applicable associate's degree from a Virginia Community College or another acceptable community college, or for students with a prior bachelor's degree from another university. A grade of C or better must be earned to transfer these courses to Old Dominion University.
**	Students completing a major or minor in Information Systems and Technology (excluding the Business Analytics major) do not take this course.
***	Students majoring in Economics must complete MGMT 485W, but meet the writing intensive requirement by earning a grade of C or better either in MGMT 485W or in one of the ECON Writing Intensive courses.

Information Systems and Technology Core

Required Core Courses

IT 201	Introduction to Information Systems (grade of C or better required as a prerequisite for upper-level IT courses)	3
IT 205	Introduction to Object-Oriented Programming	3
IT 315	Introduction to Networking and Security	3
IT 317	Enterprise Information Architecture (grade of C or better required as prerequisite for IT 464)	3
IT 363	Systems Analysis and Design	3
IT 450	Database Concepts	3
IT 464	Essentials of Project Management	3
IT 474	Strategic IT Administration	3
Total Credit Hours		24

All courses listed above except the International Business Elective and Business Elective are included in the calculation of the 2.00 overall grade point average required for major course work.

Information Systems and Technology-Database Major

General Education

Complete lower-division requirements	35-41	
Complete upper-division requirements (minimum of 6 credit hours)	6	
MATH 200	Calculus for Business and Economics	3

Business Administration Core

Complete business administration core requirements	39

Information Systems and Technology Core

Complete information systems and technology core requirements		24
Database		
Required Courses:		
Select two IT electives from the following:		6
IT 451	Database Administration	
IT 452	Cloud Database	
IT 453	Advanced Database Concepts	
IT 454	Web-based Database Administration	
Select one additional IT elective		3
International Business Elective: select one of the following.		3
IT 425	Information Systems for International Business	
MSCM 370	International Shipping	
Total Credit Hours		119-125

Additional Requirements and Information

Advanced Placement

The college accepts advanced placement credit in accordance with the rules and regulations outlined in the Academic Information section of this catalog. Students may take College-Level Examination Program (CLEP) tests to receive credit for:

ACCT 201	Principles of Financial Accounting	3
ACCT 202	Principles of Managerial Accounting	3
ECON 201S	Principles of Macroeconomics	3
ECON 202S	Principles of Microeconomics	3
FIN 331	Legal Environment of Business	3
MGMT 325	Contemporary Organizations and Management	3
MKTG 311	Marketing Principles and Problems	3

Students are advised to contact the Office of Prior Learning Assessment for more information regarding CLEP and other prior learning assessment credit options. For advanced placement credit in any other business or public administration course, students are advised to contact the chair of the department offering the course. Additional information about credit awarded for qualifying scores on AP and IB subject examinations can be found on the ODU website: <https://www.odu.edu/academics/academic-records/score-analysis/ap-ib> (<https://www.odu.edu/academics/academic-records/score-analysis/ap-ib/>).

Practical Work Experience for Business Administration Majors

Students may complement their major studies with a practical work experience, which may take the form of an internship, cooperative education experience or a class containing a real-world, hands-on project. Students must apply for internship or co-op participation through the Strome College of Business Career & Leadership Development Satellite Office. All work experiences must be approved by the faculty sponsor in the appropriate department prior to registering for credit. Students may not earn credit for previous or current work experiences. (However, academic credit for work experience may be approved in accordance with the policies for granting prior learning credit as defined in the section on Prior Learning Assessment Credit Options at the Undergraduate Level in this catalog.) For details see the Center for Career & Leadership Development section of this catalog.

Use of Internship and Similar Hours Toward Business Administration Majors

A student may apply no more than six hours of cooperative education, student internship or practicum courses to satisfy degree requirements. Students may not use more than three hours of cooperative education, student internship or practicum courses to satisfy major elective requirements in each of the students' majors. These courses are numbered 367, 368 or 369. Additional hours of cooperative education, student internship or practicum courses, however, can be used to satisfy other requirements such as free electives or general business electives. Additional

internships must each involve substantially different kinds of work experiences. Internships must be approved by the Chief Departmental Advisor of the student's major and the CAP Coordinator of the internship.

Transfer of the Associate of Science in Business Administration Towards Degree Requirements

Students transferring to the college must complete a minimum of 10 business courses offered by the college to earn the degree from Old Dominion University, in accordance with AACSB regulations. Those transfer students holding the Associate of Science in Business Administration degree from a Virginia Community College must earn the grade of "C" or better in the following courses in order to satisfy requirements found in the first two years of the BSBA degree:

COMM 101R	Public Speaking	3
ENGL 211C	Writing, Rhetoric, and Research	3
or ENGL 231C	Writing, Rhetoric, and Research: Special Topics	
MATH 162M	Precalculus I	3
MATH 200	Calculus for Business and Economics	3
ACCT 201	Principles of Financial Accounting	3
ACCT 202	Principles of Managerial Accounting	3
ECON 201S	Principles of Macroeconomics	3
ECON 202S	Principles of Microeconomics	3
BNAL 206	Business Analytics I	3
Select one of the following:		3
PHIL 230E	Introduction to Ethics	
Upper-level ethics course		

With the exception of the courses listed above, the University's lower-division General Education requirements are deemed satisfied by the accepted AS degrees. These typically include all AS degrees from the Virginia Community College System except the applied science degrees. For more information about accepted AS degrees contact the Office of Admissions. Associate degree holders, although meeting lower-level General Education requirements, must ensure that 120 credits are completed to earn the BSBA degree. A minimum of 25% of the required credit hours must be completed through Old Dominion University, at least 12 of which are upper-level courses in the major program.

The Strome College of Business does not accept courses completed at the freshman and sophomore levels at other institutions for required courses at the junior and senior level at Old Dominion University. Please see the section on CLEP credits (Prior Learning Assessment Credit Options at the Undergraduate Level) for additional information.

Grade Average Requirements for Graduation

To graduate with a Bachelor of Science in Business Administration degree, students must present a minimum of 120 hours with a minimum overall grade point average of 2.00 in all courses taken at Old Dominion University. Students must also attain a minimum overall grade point average of 2.00 in courses taken toward the major (courses included in the major grade point average calculation are listed following the description of each major's course work).

Additionally, students must attain a minimum overall grade point average of 2.00 in the BSBA Core listed below. Only courses completed at Old Dominion University will be used to compute the BSBA Core average. Students with an Information Systems and Technology major (excluding Business Analytics) are not required to take IT 360T, so the BSBA Core grade point average is computed using the remaining courses. If the BSBA Core average is below the required 2.00 minimum, students are advised to utilize the Grade Forgiveness Policy or Adjusted Resident Credit option when appropriate to improve the grade point average.

Requirements for Completing a Bachelor of Science in Business Administration

The following sections show the courses that are requirements for all business students, regardless of the chosen major: Lower-Division General Education, BSBA Core Courses, and Upper-Division General Education.

Credit hours are listed after the course title. The student must also choose a major and complete the requirements listed for that major on the following pages.

Foundation Courses for Admission to the Strome College of Business

ENGL 110C	English Composition (C or better)	3
MATH 162M	Precalculus I (C or better)	3
ACCT 201	Principles of Financial Accounting (C or better)	3
ECON 202S	Principles of Microeconomics (C or better)	3
BUSN 110	Introduction to Contemporary Business *	1

* Not required for students pursuing an Information Systems and Technology major (excluding Business Analytics) or for students with an associate's degree in business administration or with a prior bachelor's degree in business administration.

See the section on Admission to the Undergraduate Program in Business Administration, General Requirements.

Business Elective

A business elective is a course that is offered by an accredited college of business, including the Strome College of Business at Old Dominion University. Public Affairs and Service (PAS) courses offered by the Strome College of Business are not considered as business courses. However, because some business courses cannot be used to satisfy the requirements of certain majors, students must refer to their specific degree program requirements to make sure that they complete appropriate business elective courses. For example, ECON 200S cannot be used to satisfy an elective requirement for students majoring in business administration. Also, IT 360T cannot be used as an elective by students majoring in Information Systems and Technology. Refer to the course description section of this Catalog for full details of courses and their prerequisites.

Free Elective

In the majority of cases a free elective is any course offered by an accredited community college or university, including Old Dominion University. However, because some courses cannot be used to satisfy the requirements of certain majors, students must refer to their specific degree program requirements to make sure that they complete appropriate elective courses. For example, ECON 200S cannot be used to satisfy an elective requirement for students majoring in business administration. Also, IT 360T cannot be used as an elective by students majoring in Information Systems and Technology. Refer to the course description section of this Catalog for full details of courses and their prerequisites.

Degree Program Guide

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

Course	Title	Credit Hours
Freshman		
Fall		
ENGL 110C	English Composition (Grade of C or better required)	3

BSBA to MBA (Master of Business Administration) Linked Program

Students interested in the program should contact the MBA Program Office as early as possible to discuss their plans for early entry. Once admitted to the program, the MBA program manager will act as the student's co-advisor, along with the chief departmental advisor or chief discipline advisor in the student's undergraduate major. The MBA Program Office is located in 1026 Constant Hall. The phone number is 757-683-3585 and email is mbainfo@odu.edu.

BSBA to MPA (Master of Public Administration) Linked Program

The linked BSBA to MPA program provides qualified Old Dominion University undergraduate students with the opportunity to earn a master's degree in public administration while taking 12 credits of the MPA program as an undergraduate student. The program is designed for highly motivated students with the desire to immediately continue their education after the bachelor's degree. The program is especially relevant to individuals seeking to work (or currently working) in the public or non-profit sectors, but is suitable for students from any undergraduate major. Graduate courses may be taken during the fall and spring semester of the student's senior undergraduate year. After receiving the undergraduate degree, a student will continue with the MPA program, taking MPA courses until completing the required 39 credit hours. Students in the linked program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Admission Requirements

A potential candidate will have:

1. Completed all lower level general education requirements
2. Achieved a cumulative GPA of at least 3.0 at the end of the junior year

Requirements for admission to the graduate program can be found in the School of Public Service section of the Graduate Catalog. For additional information, please contact the School of Public Service in the Strome College of Business.

Bachelor of Science in Business Administration Information Systems and Technology-Network Engineering Major (BSBA)

Weiyong Zhang, Chair
Roya Ardalan, Chief Discipline Advisor

The information systems and technology program is designed to provide students with a technical background in information technology as well as a broad perspective of the business environment in which information technology plays a strategic role. The program emphasizes the development of business analysis and system implementation skills; these skills can provide a basis for job entry, career development and flexibility amid the rapid changes in information technology.

A student who seeks a Bachelor of Science in Business Administration degree in Information Systems and Technology from Old Dominion University must, in addition to meeting other requirements of the University, earn a minimum of 25 percent of the total number of credits required for the degree (for example, 30 credits in a 120-credit degree program) through on- or off-campus instruction. This must include a minimum of 12 credit hours of upper-level IT courses or upper-level BNAL courses specifically listed as electives on the course lists below.

Strome College of Business (SCB) Center for Undergraduate Advising and Student Success

The mission of this office is to challenge and support students in self-exploration and, through advising, provide resources for them to develop an achievable plan for success. Our vision is for students to be aware of their academic, personal, and professional goals; empowered to pursue them; and confident in their ability to accomplish them.

Our professional advisors work with all Strome College of Business students regarding degree planning, changing majors, admissions, continuance, graduation requirements and required curricula for the majors and minors offered by the College.

Degree Requirements

Students in all of the Bachelor of Science in Business Administration degree programs must fulfill the University General Education requirements (including foreign language) as well as the Strome College of Business's core, major, and elective requirements. Students must choose at least one major area to meet requirements towards the degree.

To stay in compliance with AACSB accreditation standards, students receiving a Bachelor of Science in Business Administration from Old Dominion University must complete at least half of their business course work in residence with a minimum of four courses in their declared major. This equates to 10 business classes, thus meeting the University's residency requirement as well.

Majors in the college may not take business and public administration courses for pass/fail credit except those courses in which pass/fail is the only grading option (i.e., internships and practica).

Admission to the Undergraduate Program in Business Administration

General Requirements

Applicants for admission to the undergraduate degree program in business administration (the Bachelor of Science in Business Administration) should apply initially to the Office of Admissions of Old Dominion University. Students cannot be accepted into business administration without first being admitted to the University. Admission to the University does not guarantee admission to the Bachelor of Science in Business Administration (BSBA) program. Candidates for admission to the BSBA program should indicate on the application to the University their intention to enter the undergraduate business administration degree program.

Admission to the Bachelor's Degree Program in Business Administration:

Before Admission to the bachelor's degree program in business administration can be granted, a student must have earned a grade of C or higher in each of the business Admission courses:

BUSN 110	Introduction to Contemporary Business	1
ENGL 110C	English Composition	3
MATH 162M	Precalculus I	3
ACCT 201	Principles of Financial Accounting	3
ECON 202S	Principles of Microeconomics	3

- BUSN 110 is not required for students pursuing majors under the BSBA in Information Systems and Technology (excluding Business Analytics) or for any student with an associate's degree in business administration or with a prior bachelor's degree in business administration.
- Students may utilize the Grade Forgiveness Policy for the business Admission courses.
- Transfer students may complete business Admission courses (BUSN 110, ENGL 110C, MATH 162M, ACCT 201, and ECON 202S) at another accredited college or university, but are responsible for having Transfer Evaluation Services determine that the courses are acceptable to the University.

Eligibility to Enroll in Upper-Level (300/400-level) Business Courses

Only students who have officially completed Admission courses to the BSBA program will be eligible to enroll in upper-level (300/400) business courses (refer to exceptions for non-business majors). However, students who are in progress with the business Admission courses may enroll in upper-level (300/400) business courses. Note: These students will need a Program Restriction Waiver (PRW) to enroll in these courses, with the exception of FIN 323, MGMT 325, MKTG 311, and OPMT 303. These courses require a junior class standing for registration.

Enrollment in 300/400-level Business Courses by Non-Business Majors

Enrollment in 300/400-level business courses will be granted without the Admission courses for the following exceptions:

1. Students pursuing a declared minor in the Strome College of Business may enroll in 300/400-level business courses appropriate to the minor.
2. Students pursuing Upper-Division General Education Requirement Option B: Interdisciplinary Minor or Option D: Six hours of elective upper-division courses outside the student's major discipline or college.
3. Students wishing to satisfy the Impact of Technology requirement may enroll in IT 360T.
4. Students pursuing a degree program other than the Bachelor of Science in Business Administration (BSBA) that requires or accepts specific 300/400-level business courses to complete the degree may enroll in the courses appropriate to the major.

5. Non-degree-seeking students may enroll in 300/400-level business courses if they have satisfied the prerequisites for these courses.

Students in categories 1 - 5 above who do not have a declared major will need a Program Restriction Waiver (PRW) in order to enroll in any 300/400-level Strome College of Business course (including Economics courses). Forms to request a PRW are available at the Strome College of Business website.

Regulations for Continuance in the Bachelor of Science in Business Administration

In addition to the Old Dominion University continuance policies, the following policies are specific to all declared Bachelor of Science in Business Administration (BSBA) students. The Strome College of Business makes a reasonable effort to notify undergraduate students who are not in good academic standing in the BSBA program of their academic status. Each undergraduate student who is placed on BSBA Academic Alarm or BSBA Termination (explained below) will be sent an e-mail message to that effect at the student's Old Dominion University e-mail address, in accordance with the Electronic Communication Policy for Official University Business. Non-receipt of the e-mail messages by a student will not be considered grounds for granting exceptions or delays in enforcement of the BSBA continuance regulations.

BSBA Continuance Regulations

If a student's Grade Point Average (GPA) in their BSBA Core courses falls below a 2.0, then they will be on Academic Alarm within the Strome College of Business (SCB). This policy is very similar to the University's academic continuance policy, the main difference being that it is based on the core Business courses and impacts acceptance and continuance within the SCB.

Academic Alarm

The first semester in which a student's BSBA Core GPA drops to below a 2.0, they will be on Academic Alarm. Once considered on academic alarm within the college, taking courses within the BSBA Core is the only way to bring that GPA back up.

- If the student raises the BSBA Core GPA to above a 2.0, then they will no longer be on academic alarm.
- If the BSBA Core GPA does not reach a 2.0 but the semester average in the BSBA Core courses is a 2.0 or higher, then the student will remain on academic alarm and be able to continue within the SCB.

SCB Termination

While on academic alarm within the Strome College of Business, if the semester BSBA Core GPA falls below a 2.0, the student will be terminated from the SCB and their major coding will be changed from Business to Undecided. (Terminations will not be processed in summer semesters.)

Appeals

If you have been terminated, you may appeal the decision if you have extenuating circumstances and documentation to support your claim. To appeal, write a letter and include documentation of your circumstances to the Associate Dean of the Strome College of Business (Constant Hall, Suite 2004). There are specific details that need to be included with your appeal - for more information, please see the appeals process as described in the most recently issued catalog.

Guidelines for Filing a BSBA Termination Appeal

1. All students have the right to appeal their BSBA termination if they believe that extraordinary circumstances were the main reason for their poor academic performance. Notifications of pending BSBA termination are sent to the student's ODU email address and include information on the appeal process and deadlines. All BSBA termination appeals must be submitted electronically using the link provided in the email and will be reviewed by the SCB Termination Appeal Committee. Students are responsible for submitting their appeal by the stated deadline; late appeals will not be reviewed. Decisions of the Termination Appeal Committee may be appealed

to the Associate Dean for Academic Programs in the Strome College of Business whose decision is final.

2. Appeals must be based on circumstances pertinent to the semesters in which the academic difficulty occurred that were beyond the control of the student and for which official withdrawal from the course(s) was not an option. Appeal letters must be legible and authored by the terminated student. The appeal letter must provide sufficient detail and explanation regarding the following points because there is no face-to-face meeting with the Associate Dean for Academic Programs in the Strome College of Business. The decision of the Associate Dean is final. Students without documentation will not be allowed to appeal their termination. In order to be reviewed, an appeal letter must:

- a. Document the extraordinary circumstances such as a death in the family, medical complications or chronic conditions, personal or family emergency, overwhelming work schedules, dorm-mate conflict, or a personal relationship conflict that have adversely affected performance: i.e., a statement or letter from a physician, employer, family members, faculty, academic advisor, Counseling Services, or Educational Accessibility.
- b. Explain how the extraordinary circumstances caused each semester of poor academic performance.
- c. State the reasons why an official withdrawal was not requested.
- d. Explain how the extraordinary circumstance(s) has been resolved.
- e. Provide a plan of action to return to good BSBA academic standing.

3. Students who do not file a BSBA termination appeal or whose appeals are denied, are no longer eligible to pursue a bachelor's degree in Business Administration. Upon BSBA termination, the student's major in the Strome College of Business will be removed. (This does not affect a declared second major outside of the BSBA.) These students are advised to work with an advisor in the SCB Center for Undergraduate Advising to explore other major options, and for referrals to other advising departments for a new major declaration.

4. BSBA-terminated students who had pre-registered for a subsequent semester lose eligibility for continued enrollment in upper-level business courses.

Applying for Readmission to the BSBA Program

After a minimum of five years has passed since a student was terminated from the BSBA program, the student may apply for readmission to the program. There must be a high probability the student will successfully complete the degree program, and approval will be at the discretion of the Strome College of Business Associate Dean.

Requirements

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6
Oral Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#oral)	3
Mathematics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#math)	3
Language and Culture (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#language)	0-6
Information Literacy and Research (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#information)	3
Human Behavior (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#behavior)	3
Human Creativity (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#creativity)	3
Interpreting the Past (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#interpret)	3

Literature (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#literature)	3
Philosophy and Ethics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#philosophy)	3
The Nature of Science (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#nature)	8
Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

Oral Communication: COMM 101R or MKTG 200R required. Additionally, all students majoring in business administration can expect to complete several courses in which individual and/or group oral presentations will be required.

Mathematics: MATH 162M and MATH 200 required.

Information Literacy and Research: IT 150G (recommended) or any "G" course from the approved general education information literacy and research course list.

Human Behavior: Met in the Business Administration core for all majors except Economics.

Philosophy and Ethics must be satisfied by completion of either PHIL 230E or an upper-level "E" course from the approved general education ethics course list. A philosophy course designated with a P will not meet this requirement for business administration students with the exception of a "P" course taken prior to fall 2010.

Impact of Technology requirement is satisfied within each BSBA degree major except Information Systems and Technology by IT 360T. In the Information Systems and Technology majors (excluding Business Analytics), the Impact of Technology requirement is satisfied by the coursework required for the major.

Transfer students with an applicable associate's degree from a Virginia Community College or another community college that has a seamless transfer agreement with ODU, and students with a prior bachelor's degree from another university, must nevertheless have a grade of C or better in the following to be able to transfer them:

COMM 101R	Public Speaking	3
or MKTG 200R	Professional Interactions and Negotiations	
PHIL 230E	Introduction to Ethics (Or an upper-level ethics course)	3
ENGL 211C	Writing, Rhetoric, and Research	3
or ENGL 231C	Writing, Rhetoric, and Research: Special Topics	
MATH 162M	Precalculus I	3
MATH 200	Calculus for Business and Economics	3

Upper-Division General Education

- Option A. Any University-approved minor, second degree, or second major.
- Option B. An interdisciplinary minor consisting of 12 credits, three of which can be in the major. Interdisciplinary minors are described in the University Catalog section labeled Requirements for Undergraduate Degrees, Upper-Division Requirements.
- Option C. An approved certification program, such as teaching licensure.
- Option D. Two Upper-Division Courses from outside the Strome College of Business and not required by the major (6 credits).

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.

- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

OPMT 303	Operations Management	3
Total Credit Hours		42

- * Not automatically waived for transfer students with an applicable associate's degree from a Virginia Community College or another acceptable community college, or for students with a prior bachelor's degree from another university. A grade of C or better must be earned to transfer these courses to Old Dominion University.
- ** Students completing a major or minor in Information Systems and Technology (excluding the Business Analytics major) do not take this course.
- *** Students majoring in Economics must complete MGMT 485W, but meet the writing intensive requirement by earning a grade of C or better either in MGMT 485W or in one of the ECON Writing Intensive courses.

Information Systems and Technology Core

Required Core Courses

IT 201	Introduction to Information Systems (grade of C or better required as a prerequisite for upper-level IT courses)	3
IT 205	Introduction to Object-Oriented Programming	3
IT 315	Introduction to Networking and Security	3
IT 317	Enterprise Information Architecture (grade of C or better required as prerequisite for IT 464)	3
IT 363	Systems Analysis and Design	3
IT 450	Database Concepts	3
IT 464	Essentials of Project Management	3
IT 474	Strategic IT Administration	3
Total Credit Hours		24

All courses listed above except the International Business Elective and Business Elective are included in the calculation of the 2.00 overall grade point average required for major course work.

Information Systems and Technology- Network Engineering Major

General Education

Complete lower-division requirements	35-41
Complete upper-division requirements (minimum of 6 credit hours)	6
MATH 200 Calculus for Business and Economics	3

Business Administration Core

Complete business administration core requirements	39

Information Systems and Technology Core

Complete information systems and technology core requirements	24

Network Engineering

Required Courses:		
Select two IT electives from the list below:		6
IT 416	Network Server Configuration and Administration	
IT 417	Management of Information Security	
IT 419	Enterprise Cyber Defense	
Select one additional IT elective (any IT 300-400 course)		3
Select one of the following International Business Electives:		3
ACCT 450	International and Advanced Accounting	
ECON 450	International Economics	
FIN 435	International Financial Management	
IT 425	Information Systems for International Business	
MGMT 361	International Business Operations	
MGMT 462	Comparative International Management	
MGMT 463	Management Seminar Abroad	
MKTG 411	Multi-National Marketing	
MSCM 370	International Shipping	

Total Credit Hours	119-125

Additional Requirements and Information

Advanced Placement

The college accepts advanced placement credit in accordance with the rules and regulations outlined in the Academic Information section of this catalog. Students may take College-Level Examination Program (CLEP) tests to receive credit for:

ACCT 201	Principles of Financial Accounting	3
ACCT 202	Principles of Managerial Accounting	3
ECON 201S	Principles of Macroeconomics	3
ECON 202S	Principles of Microeconomics	3
FIN 331	Legal Environment of Business	3
MGMT 325	Contemporary Organizations and Management	3
MKTG 311	Marketing Principles and Problems	3

Students are advised to contact the Office of Prior Learning Assessment for more information regarding CLEP and other prior learning assessment credit options. For advanced placement credit in any other business or public administration course, students are advised to contact the chair of the department offering the course. Additional information about credit awarded for qualifying scores on AP and IB subject examinations can be found on the ODU website: <https://www.odu.edu/academics/academic-records/score-analysis/ap-ib> (<https://www.odu.edu/academics/academic-records/score-analysis/ap-ib/>).

Practical Work Experience for Business Administration Majors

Students may complement their major studies with a practical work experience, which may take the form of an internship, cooperative education experience or a class containing a real-world, hands-on project. Students must apply for internship or co-op participation through the Strome College

of Business Career & Leadership Development Satellite Office. All work experiences must be approved by the faculty sponsor in the appropriate department prior to registering for credit. Students may not earn credit for previous or current work experiences. (However, academic credit for work experience may be approved in accordance with the policies for granting prior learning credit as defined in the section on Prior Learning Assessment Credit Options at the Undergraduate Level in this catalog.) For details see the Center for Career & Leadership Development section of this catalog.

Use of Internship and Similar Hours Toward Business Administration Majors

A student may apply no more than six hours of cooperative education, student internship or practicum courses to satisfy degree requirements. Students may not use more than three hours of cooperative education, student internship or practicum courses to satisfy major elective requirements in each of the students' majors. These courses are numbered 367, 368 or 369. Additional hours of cooperative education, student internship or practicum courses, however, can be used to satisfy other requirements such as free electives or general business electives. Additional internships must each involve substantially different kinds of work experiences. Internships must be approved by the Chief Departmental Advisor of the student's major and the CAP Coordinator of the internship.

Transfer of the Associate of Science in Business Administration Towards Degree Requirements

Students transferring to the college must complete a minimum of 10 business courses offered by the college to earn the degree from Old Dominion University, in accordance with AACSB regulations. Those transfer students holding the Associate of Science in Business Administration degree from a Virginia Community College must earn the grade of "C" or better in the following courses in order to satisfy requirements found in the first two years of the BSBA degree:

COMM 101R	Public Speaking	3
ENGL 211C	Writing, Rhetoric, and Research	3
or ENGL 231C	Writing, Rhetoric, and Research: Special Topics	
MATH 162M	Precalculus I	3
MATH 200	Calculus for Business and Economics	3
ACCT 201	Principles of Financial Accounting	3
ACCT 202	Principles of Managerial Accounting	3
ECON 201S	Principles of Macroeconomics	3
ECON 202S	Principles of Microeconomics	3
BNAL 206	Business Analytics I	3
Select one of the following:		3
PHIL 230E	Introduction to Ethics	
Upper-level ethics course		

With the exception of the courses listed above, the University's lower-division General Education requirements are deemed satisfied by the accepted AS degrees. These typically include all AS degrees from the Virginia Community College System except the applied science degrees. For more information about accepted AS degrees contact the Office of Admissions. Associate degree holders, although meeting lower-level General Education requirements, must ensure that 120 credits are completed to earn the BSBA degree. A minimum of 25% of the required credit hours must be completed through Old Dominion University, at least 12 of which are upper-level courses in the major program.

The Strome College of Business does not accept courses completed at the freshman and sophomore levels at other institutions for required courses at the junior and senior level at Old Dominion University. Please see the section on CLEP credits (Prior Learning Assessment Credit Options at the Undergraduate Level) for additional information.

Grade Average Requirements for Graduation

To graduate with a Bachelor of Science in Business Administration degree, students must present a minimum of 120 hours with a minimum overall grade point average of 2.00 in all courses taken at Old Dominion University. Students must also attain a minimum overall grade point average of 2.00

in courses taken toward the major (courses included in the major grade point average calculation are listed following the description of each major's course work).

Additionally, students must attain a minimum overall grade point average of 2.00 in the BSBA Core listed below. Only courses completed at Old Dominion University will be used to compute the BSBA Core average. Students with an Information Systems and Technology major (excluding Business Analytics) are not required to take IT 360T, so the BSBA Core grade point average is computed using the remaining courses. If the BSBA Core average is below the required 2.00 minimum, students are advised to utilize the Grade Forgiveness Policy or Adjusted Resident Credit option when appropriate to improve the grade point average.

Requirements for Completing a Bachelor of Science in Business Administration

The following sections show the courses that are requirements for all business students, regardless of the chosen major: Lower-Division General Education, BSBA Core Courses, and Upper-Division General Education. Credit hours are listed after the course title. The student must also choose a major and complete the requirements listed for that major on the following pages.

Foundation Courses for Admission to the Strome College of Business

ENGL 110C	English Composition (C or better)	3
MATH 162M	Precalculus I (C or better)	3
ACCT 201	Principles of Financial Accounting (C or better)	3
ECON 202S	Principles of Microeconomics (C or better)	3
BUSN 110	Introduction to Contemporary Business *	1

* Not required for students pursuing an Information Systems and Technology major (excluding Business Analytics) or for students with an associate's degree in business administration or with a prior bachelor's degree in business administration.

See the section on Admission to the Undergraduate Program in Business Administration, General Requirements.

Business Elective

A business elective is a course that is offered by an accredited college of business, including the Strome College of Business at Old Dominion University. Public Affairs and Service (PAS) courses offered by the Strome College of Business are not considered as business courses. However, because some business courses cannot be used to satisfy the requirements of certain majors, students must refer to their specific degree program requirements to make sure that they complete appropriate business elective courses. For example, ECON 200S cannot be used to satisfy an elective requirement for students majoring in business administration. Also, IT 360T cannot be used as an elective by students majoring in Information Systems and Technology. Refer to the course description section of this Catalog for full details of courses and their prerequisites.

Free Elective

In the majority of cases a free elective is any course offered by an accredited community college or university, including Old Dominion University. However, because some courses cannot be used to satisfy the requirements of certain majors, students must refer to their specific degree program requirements to make sure that they complete appropriate elective courses. For example, ECON 200S cannot be used to satisfy an elective requirement for students majoring in business administration. Also, IT 360T cannot be used as an elective by students majoring in Information Systems and Technology. Refer to the course description section of this Catalog for full details of courses and their prerequisites.

Degree Program Guide

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work

and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

BSBA to MBA (Master of Business Administration) Linked Program

Students interested in the program should contact the MBA Program Office as early as possible to discuss their plans for early entry. Once admitted to the program, the MBA program manager will act as the student's co-advisor, along with the chief departmental advisor or chief discipline advisor in the student's undergraduate major. The MBA Program Office is located in 1026 Constant Hall. The phone number is 757-683-3585 and email is mbainfo@odu.edu.

BSBA to MPA (Master of Public Administration) Linked Program

The linked BSBA to MPA program provides qualified Old Dominion University undergraduate students with the opportunity to earn a master's degree in public administration while taking 12 credits of the MPA program

as an undergraduate student. The program is designed for highly motivated students with the desire to immediately continue their education after the bachelor's degree. The program is especially relevant to individuals seeking to work (or currently working) in the public or non-profit sectors, but is suitable for students from any undergraduate major. Graduate courses may be taken during the fall and spring semester of the student's senior undergraduate year. After receiving the undergraduate degree, a student will continue with the MPA program, taking MPA courses until completing the required 39 credit hours. Students in the linked program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Admission Requirements

A potential candidate will have:

1. Completed all lower level general education requirements
2. Achieved a cumulative GPA of at least 3.0 at the end of the junior year

Requirements for admission to the graduate program can be found in the School of Public Service section of the Graduate Catalog. For additional information, please contact the School of Public Service in the Strome College of Business.

Minor Business Analytics Minor Requirements

The minor in Business Analytics requires five courses (15 credit hours) comprised of:

BNAL 405	Spreadsheet-Based Data Analysis for Decision Making	3
OPMT 303	Operations Management	3
BNAL 407	Prescriptive Analytics of Management Science	3
or BNAL 476	Simulation Modeling and Analysis for Business Systems	
Select two of the following:		6
BNAL 403	Data Visualization and Exploration	
BNAL 407	Prescriptive Analytics of Management Science	
BNAL 415	Advanced Business Analytics/Big Data Applications	
BNAL 432	Predictive Analytics for Business	
BNAL 476	Simulation Modeling and Analysis for Business Systems	
BNAL 495	Topics in Business Analytics	
Total Credit Hours		15

To receive a minor, the student must achieve a minimum overall cumulative grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of 200-level courses and prerequisite courses. At least two of the five courses must be completed through courses offered by Old Dominion University. Business majors who want to make themselves more marketable may choose a minor in Business Analytics by taking three additional courses.

Minor Information Systems and Technology Minor

The minor in Information Systems and Technology is designed primarily for students completing the Bachelor of Science in Computer Science, the Bachelor of Science in Computer Engineering, or the Bachelor of Science in Engineering Technology (Computer Engineering). The courses in the minor have a number of technical prerequisites that are normally waived for

those students who have completed CS 150, CS 250, and either CS 170 or ECE 241 or equivalent major course work.

Requirements

IT 363	Systems Analysis and Design	3
IT 450	Database Concepts *	3
Select six credit hours from the following:		6
IT 310	Object-Oriented Programming with C++	
IT 315	Introduction to Networking and Security **	
IT 325	Web Site and Web Page Design	
IT 367	Cooperative Education ***	
IT 368	Student Internship ***	
IT 369	Practicum ***	
IT 374	C# and Applications	
IT 376	PHP and Applications	
IT 401	Mobile and Cloud Computing	
IT 408	E-Business Portal Programming	
IT 410	Business Intelligence	
IT 420	Object-Oriented Application Development Using Visual Basic	
IT 425	Information Systems for International Business	
IT 430	Object-Oriented Application Development with JAVA	
IT 451	Database Administration	
IT 452	Cloud Database	
IT 453	Advanced Database Concepts	
IT 461	Implementing Internet Applications	
IT 464	Essentials of Project Management	
IT 474	Strategic IT Administration	
IT 494	Entrepreneurship in Information Technology	
IT 495	Selected Topics in Information Systems	
Total Credit Hours		12

*	Students completing CS 450 must substitute another course for IT 450 from the elective list.
**	Computer Engineering and Computer Engineering Technology students completing CS 454 must substitute another course for IT 315 from the elective list.
***	Students seeking an internship, cooperative education or practicum must obtain permission from both the IT internship coordinator as well as the internship coordinator of the students' major department.

For completion of a minor, a student must have a minimum overall cumulative grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of prerequisite courses. A minimum of six hours in upper-level courses in the minor must be taken through courses offered by Old Dominion University.

Minor

Maritime and Supply Chain Management Minor

Requirements

A minor in maritime and supply chain management requires the completion of 12 hours of 300- and/or 400-level maritime and supply chain management courses. All courses selected must be preceded by listed prerequisites. The minor requires completion of:

OPMT 303	Operations Management	3
MSCM 370	International Shipping	3

437 Maritime and Supply Chain Management Minor

or MSCM 441	Supply Chain Management and Logistics
Select two of the following:	
MSCM 370	International Shipping
MSCM 415	Maritime Security and Risk Analysis
MSCM 430	Strategic Sourcing and Purchasing Management
MSCM 439	Quality Management
MSCM 441	Supply Chain Management and Logistics
MSCM 468	Distribution Center and Material Handling Management
MSCM 471	Shipping Management
MSCM 472	Port Management
MSCM 473	Inland Waterway and Intermodal Transportation
MSCM 495	Topics in Maritime and Supply Chain Management
MSCM 497	Independent Study

Total Credit Hours **12**

For completion of a minor, a student must have a minimum overall cumulative grade point average of 2.00 in all courses required for the minor exclusive of prerequisite courses. A minimum of six hours in upper-level courses in the minor must be completed through courses offered by Old Dominion University.

Management

Programs

SLi@odu.edu

Chief Departmental Advisor and Management Area Coordinator:

Jennifer Klingner
JLKlinge@odu.edu

Faculty Advisor and Entrepreneurship Area Coordinator:

Karen Eagle
KEagle@odu.edu

A major in Management (MGMT) is about understanding how people make things happen in the world. This major provides students with a

broad overview of how to work within and manage companies, non-profits, and other teams. Recognizing that most graduates will face several career changes and job choices, the management major prepares students for success in a global economy by enhancing understanding about human behavior at work (organizational behavior), best practices and policies for managing people (human resource management), cultural differences and economic differences across countries (international business), and how top-level strategic decisions impact organizations (business policy and strategy). A variety of management major elective options give students an opportunity to pursue their interests and focus in areas such as Human Resource Management, General Management, International Business, and/or Entrepreneurship.

For the major in management, all courses must be preceded by listed prerequisites. Students must earn a grade of C- or better in all required Management Major courses and Management Elective courses. To graduate, students will need at least a 2.0 GPA for their Management Major. A student who seeks a Bachelor of Science in Business Administration degree with a major in management from Old Dominion University must, in addition to meeting other requirements of the University, earn a minimum of 25 percent of the total number of credits required for the degree (for example, 30 credits in a 120-credit degree program) through on- or off-campus instruction. This must include a minimum of 12 credit hours of upper-level MGMT and/or ENTR courses.

Strome College of Business (SCB) Center for Undergraduate Advising and Student Success

The mission of this office is to challenge and support students in self-exploration and, through advising, provide resources for them to develop an achievable plan for success. Our vision is for students to be aware of their academic, personal, and professional goals; empowered to pursue them; and confident in their ability to accomplish them.

Our professional advisors work with all Strome College of Business students regarding degree planning, changing majors, admissions, continuance, graduation requirements and required curricula for the majors and minors offered by the College.

Degree Requirements

Students in all of the Bachelor of Science in Business Administration degree programs must fulfill the University General Education requirements (including foreign language) as well as the Strome College of Business's core, major, and elective requirements. Students must choose at least one major area to meet requirements towards the degree.

To stay in compliance with AACSB accreditation standards, students receiving a Bachelor of Science in Business Administration from Old Dominion University must complete at least half of their business course work in residence with a minimum of four courses in their declared major. This equates to 10 business classes, thus meeting the University's residency requirement as well.

Majors in the college may not take business and public administration courses for pass/fail credit except those courses in which pass/fail is the only grading option (i.e., internships and practica).

Admission to the Undergraduate Program in Business Administration

General Requirements

Applicants for admission to the undergraduate degree program in business administration (the Bachelor of Science in Business Administration) should apply initially to the Office of Admissions of Old Dominion University. Students cannot be accepted into business administration without first being admitted to the University. Admission to the University does not guarantee admission to the Bachelor of Science in Business Administration (BSBA) program. Candidates for admission to the BSBA program should indicate on the application to the University their intention to enter the undergraduate business administration degree program.

Admission to the Bachelor's Degree Program in Business Administration:

Before Admission to the bachelor's degree program in business administration can be granted, a student must have earned a grade of C or higher in each of the business Admission courses:

BUSN 110	Introduction to Contemporary Business	1
ENGL 110C	English Composition	3
MATH 162M	Precalculus I	3
ACCT 201	Principles of Financial Accounting	3
ECON 202S	Principles of Microeconomics	3

- BUSN 110 is not required for students pursuing majors under the BSBA in Information Systems and Technology (excluding Business Analytics) or for any student with an associate's degree in business administration or with a prior bachelor's degree in business administration.
- Students may utilize the Grade Forgiveness Policy for the business Admission courses.
- Transfer students may complete business Admission courses (BUSN 110, ENGL 110C, MATH 162M, ACCT 201, and ECON 202S) at another accredited college or university, but are responsible for having Transfer Evaluation Services determine that the courses are acceptable to the University.

Eligibility to Enroll in Upper-Level (300/400-level) Business Courses

Only students who have officially completed Admission courses to the BSBA program will be eligible to enroll in upper-level (300/400) business courses (refer to exceptions for non-business majors). However, students who are in progress with the business Admission courses may enroll in upper-level (300/400) business courses. Note: These students will need a Program Restriction Waiver (PRW) to enroll in these courses, with the exception of FIN 323, MGMT 325, MKTG 311, and OPMT 303. These courses require a junior class standing for registration.

Enrollment in 300/400-level Business Courses by Non-Business Majors

Enrollment in 300/400-level business courses will be granted without the Admission courses for the following exceptions:

1. Students pursuing a declared minor in the Strome College of Business may enroll in 300/400-level business courses appropriate to the minor.
2. Students pursuing Upper-Division General Education Requirement Option B: Interdisciplinary Minor or Option D: Six hours of elective upper-division courses outside the student's major discipline or college.
3. Students wishing to satisfy the Impact of Technology requirement may enroll in IT 360T.
4. Students pursuing a degree program other than the Bachelor of Science in Business Administration (BSBA) that requires or accepts specific 300/400-level business courses to complete the degree may enroll in the courses appropriate to the major.
5. Non-degree-seeking students may enroll in 300/400-level business courses if they have satisfied the prerequisites for these courses.

Students in categories 1 - 5 above who do not have a declared major will need a Program Restriction Waiver (PRW) in order to enroll in any 300/400-level Strome College of Business course (including Economics courses). Forms to request a PRW are available at the Strome College of Business website.

Regulations for Continuance in the Bachelor of Science in Business Administration

In addition to the Old Dominion University continuance policies, the following policies are specific to all declared Bachelor of Science in Business Administration (BSBA) students. The Strome College of Business

makes a reasonable effort to notify undergraduate students who are not in good academic standing in the BSBA program of their academic status. Each undergraduate student who is placed on BSBA Academic Alarm or BSBA Termination (explained below) will be sent an e-mail message to that effect at the student's Old Dominion University e-mail address, in accordance with the Electronic Communication Policy for Official University Business. Non-receipt of the e-mail messages by a student will not be considered grounds for granting exceptions or delays in enforcement of the BSBA continuance regulations.

BSBA Continuance Regulations

If a student's Grade Point Average (GPA) in their BSBA Core courses falls below a 2.0, then they will be on Academic Alarm within the Strome College of Business (SCB). This policy is very similar to the University's academic continuance policy, the main difference being that it is based on the core Business courses and impacts acceptance and continuance within the SCB.

Academic Alarm

The first semester in which a student's BSBA Core GPA drops to below a 2.0, they will be on Academic Alarm. Once considered on academic alarm within the college, taking courses within the BSBA Core is the only way to bring that GPA back up.

- If the student raises the BSBA Core GPA to above a 2.0, then they will no longer be on academic alarm.
- If the BSBA Core GPA does not reach a 2.0 but the semester average in the BSBA Core courses is a 2.0 or higher, then the student will remain on academic alarm and be able to continue within the SCB.

SCB Termination

While on academic alarm within the Strome College of Business, if the semester BSBA Core GPA falls below a 2.0, the student will be terminated from the SCB and their major coding will be changed from Business to Undecided. (Terminations will not be processed in summer semesters.)

Appeals

If you have been terminated, you may appeal the decision if you have extenuating circumstances and documentation to support your claim. To appeal, write a letter and include documentation of your circumstances to the Associate Dean of the Strome College of Business (Constant Hall, Suite 2004). There are specific details that need to be included with your appeal - for more information, please see the appeals process as described in the most recently issued catalog.

Guidelines for Filing a BSBA Termination Appeal

1. All students have the right to appeal their BSBA termination if they believe that extraordinary circumstances were the main reason for their poor academic performance. Notifications of pending BSBA termination are sent to the student's ODU email address and include information on the appeal process and deadlines. All BSBA termination appeals must be submitted electronically using the link provided in the email and will be reviewed by the SCB Termination Appeal Committee. Students are responsible for submitting their appeal by the stated deadline; late appeals will not be reviewed. Decisions of the Termination Appeal Committee may be appealed to the Associate Dean for Academic Programs in the Strome College of Business whose decision is final.
2. Appeals must be based on circumstances pertinent to the semesters in which the academic difficulty occurred that were beyond the control of the student and for which official withdrawal from the course(s) was not an option. Appeal letters must be legible and authored by the terminated student. The appeal letter must provide sufficient detail and explanation regarding the following points because there is no face-to-face meeting with the Associate Dean for Academic Programs in the Strome College of Business. The decision of the Associate Dean is final. Students without documentation will not be allowed to appeal their termination. In order to be reviewed, an appeal letter must:

- a. Document the extraordinary circumstances such as a death in the family, medical complications or chronic conditions, personal or family emergency, overwhelming work schedules, dorm-mate conflict, or a personal relationship conflict that have adversely affected performance: i.e., a statement or letter from a physician, employer, family members, faculty, academic advisor, Counseling Services, or Educational Accessibility.
 - b. Explain how the extraordinary circumstances caused each semester of poor academic performance.
 - c. State the reasons why an official withdrawal was not requested.
 - d. Explain how the extraordinary circumstance(s) has been resolved.
 - e. Provide a plan of action to return to good BSBA academic standing.
3. Students who do not file a BSBA termination appeal or whose appeals are denied, are no longer eligible to pursue a bachelor's degree in Business Administration. Upon BSBA termination, the student's major in the Strome College of Business will be removed. (This does not affect a declared second major outside of the BSBA.) These students are advised to work with an advisor in the SCB Center for Undergraduate Advising to explore other major options, and for referrals to other advising departments for a new major declaration.
 4. BSBA-terminated students who had pre-registered for a subsequent semester lose eligibility for continued enrollment in upper-level business courses.

Applying for Readmission to the BSBA Program

After a minimum of five years has passed since a student was terminated from the BSBA program, the student may apply for readmission to the program. There must be a high probability the student will successfully complete the degree program, and approval will be at the discretion of the Strome College of Business Associate Dean.

Requirements

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6
Oral Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#oral)	3
Mathematics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#math)	3
Language and Culture (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#language)	0-6
Information Literacy and Research (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#information)	3
Human Behavior (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#behavior)	3
Human Creativity (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#creativity)	3
Interpreting the Past (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#interpret)	3
Literature (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#literature)	3
Philosophy and Ethics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#philosophy)	3
The Nature of Science (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#nature)	8
Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

Oral Communication: COMM 101R or MKTG 200R required. Additionally, all students majoring in business administration can expect to complete several courses in which individual and/or group oral presentations will be required.

Mathematics: MATH 162M and MATH 200 required.

Information Literacy and Research: IT 150G (recommended) or any "G" course from the approved general education information literacy and research course list.

Human Behavior: Met in the Business Administration core for all majors except Economics.

Philosophy and Ethics must be satisfied by completion of either PHIL 230E or an upper-level "E" course from the approved general education ethics course list. A philosophy course designated with a P will not meet this requirement for business administration students with the exception of a "P" course taken prior to fall 2010.

Impact of Technology requirement is satisfied within each BSBA degree major except Information Systems and Technology by IT 360T. In the Information Systems and Technology majors (excluding Business Analytics), the Impact of Technology requirement is satisfied by the coursework required for the major.

Transfer students with an applicable associate's degree from a Virginia Community College or another community college that has a seamless transfer agreement with ODU, and students with a prior bachelor's degree from another university, must nevertheless have a grade of C or better in the following to be able to transfer them:

COMM 101R	Public Speaking	3
or MKTG 200R	Professional Interactions and Negotiations	
PHIL 230E	Introduction to Ethics (Or an upper-level ethics course)	3
ENGL 211C	Writing, Rhetoric, and Research	3
or ENGL 231C	Writing, Rhetoric, and Research: Special Topics	
MATH 162M	Precalculus I	3
MATH 200	Calculus for Business and Economics	3

Upper-Division General Education

- Option A. Any University-approved minor, second degree, or second major.
- Option B. An interdisciplinary minor consisting of 12 credits, three of which can be in the major. Interdisciplinary minors are described in the University Catalog section labeled Requirements for Undergraduate Degrees, Upper-Division Requirements.
- Option C. An approved certification program, such as teaching licensure.
- Option D. Two Upper-Division Courses from outside the Strome College of Business and not required by the major (6 credits).

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Business Administration Core

ACCT 201	Principles of Financial Accounting *	3
ACCT 202	Principles of Managerial Accounting *	3

BNAL 206	Business Analytics I *	3
BNAL 306	Business Analytics II	3
ECON 201S	Principles of Macroeconomics *	3
ECON 202S	Principles of Microeconomics *	3
ECON 301	Managerial Economics	3
FIN 323	Introductory Financial Management	3
FIN 331	Legal Environment of Business	3
IT 360T	Principles of Information Technology **	3
MGMT 325	Contemporary Organizations and Management	3
MGMT 485W	Business Policy and Strategy (C or better) ***	3
MKTG 311	Marketing Principles and Problems	3
OPMT 303	Operations Management	3
Total Credit Hours		42

- * Not automatically waived for transfer students with an applicable associate's degree from a Virginia Community College or another acceptable community college, or for students with a prior bachelor's degree from another university. A grade of C or better must be earned to transfer these courses to Old Dominion University.
- ** Students completing a major or minor in Information Systems and Technology (excluding the Business Analytics major) do not take this course.
- *** Students majoring in Economics must complete MGMT 485W, but meet the writing intensive requirement by earning a grade of C or better either in MGMT 485W or in one of the ECON Writing Intensive courses.

Management Major

A grade of C- or better is required in all management courses counted toward the major.

General Education

Complete lower-division requirements		35-41
Complete upper-division requirements (minimum of 6 credit hours)		6
BUSN 110	Introduction to Contemporary Business *	1
MATH 200	Calculus for Business and Economics	3

Business Administration Core

Complete business administration core requirements		42
Management Major		
MGMT 330	Organizational Behavior	3
MGMT 340	Human Resource Management	3
MGMT 361	International Business Operations	3
Select four of the following MGMT or ENTR Electives:		12

MGMT 327	Business Communication
MGMT 336	International Entrepreneurship
MGMT 350	Employee Relations Problems and Practices
MGMT 360	Labor Management Relations
MGMT 368	Management Internship
MGMT 410	Leadership in Organizations
MGMT 417	Employment Law
MGMT 418	Advanced Human Resource Management: Contemporary Issues
MGMT 420	Business Development
MGMT 424	Technology and Innovation Management
MGMT 427	Business and Society
MGMT 430	Compensation Management
MGMT 440	Human Resource Staffing Strategies
MGMT 450	Performance Measurement and Management
MGMT 452	Negotiations and Change Management

MGMT 460	Human Resource Analytics	
MGMT 462	Comparative International Management	
MGMT 463	Management Seminar Abroad	
MGMT 465	SHRM Learning System	
MGMT 490	Management Consulting	
MGMT 495	Selected Topics in Management	
ENTR 301	Fundamentals of Entrepreneurship	
ENTR 410	Small Business Management	
ENTR 440	Digital Entrepreneurship: New Venture Creation	
200-400 Level Free Elective		3
300-400 Level Free Elective		3
Free Electives		6
Total Credit Hours		120-126

* Not required for students pursuing the IT major or for any student with an associate's degree in business administration or with a prior bachelor's degree in business administration.

All 300-400 level MGMT courses, except for MGMT 325 and MGMT 485W, are included in the calculation of the 2.00 overall grade point average for major course work for graduation.

Additional Requirements and Information

Advanced Placement

The college accepts advanced placement credit in accordance with the rules and regulations outlined in the Academic Information section of this catalog. Students may take College-Level Examination Program (CLEP) tests to receive credit for:

ACCT 201	Principles of Financial Accounting	3
ACCT 202	Principles of Managerial Accounting	3
ECON 201S	Principles of Macroeconomics	3
ECON 202S	Principles of Microeconomics	3
FIN 331	Legal Environment of Business	3
MGMT 325	Contemporary Organizations and Management	3
MKTG 311	Marketing Principles and Problems	3

Students are advised to contact the Office of Prior Learning Assessment for more information regarding CLEP and other prior learning assessment credit options. For advanced placement credit in any other business or public administration course, students are advised to contact the chair of the department offering the course. Additional information about credit awarded for qualifying scores on AP and IB subject examinations can be found on the ODU website: <https://www.odu.edu/academics/academic-records/score-analysis/ap-ib> (<https://www.odu.edu/academics/academic-records/score-analysis/ap-ib/>).

Practical Work Experience for Business Administration Majors

Students may complement their major studies with a practical work experience, which may take the form of an internship, cooperative education experience or a class containing a real-world, hands-on project. Students must apply for internship or co-op participation through the Strome College of Business Career & Leadership Development Satellite Office. All work experiences must be approved by the faculty sponsor in the appropriate department prior to registering for credit. Students may not earn credit for previous or current work experiences. (However, academic credit for work experience may be approved in accordance with the policies for granting prior learning credit as defined in the section on Prior Learning Assessment Credit Options at the Undergraduate Level in this catalog.) For details see the Center for Career & Leadership Development section of this catalog.

Use of Internship and Similar Hours Toward Business Administration Majors

A student may apply no more than six hours of cooperative education, student internship or practicum courses to satisfy degree requirements. Students may not use more than three hours of cooperative education, student internship or practicum courses to satisfy major elective requirements in each of the students' majors. These courses are numbered 367, 368 or 369. Additional hours of cooperative education, student internship or practicum courses, however, can be used to satisfy other requirements such as free electives or general business electives. Additional internships must each involve substantially different kinds of work experiences. Internships must be approved by the Chief Departmental Advisor of the student's major and the CAP Coordinator of the internship.

Transfer of the Associate of Science in Business Administration Towards Degree Requirements

Students transferring to the college must complete a minimum of 10 business courses offered by the college to earn the degree from Old Dominion University, in accordance with AACSB regulations. Those transfer students holding the Associate of Science in Business Administration degree from a Virginia Community College must earn the grade of "C" or better in the following courses in order to satisfy requirements found in the first two years of the BSBA degree:

COMM 101R	Public Speaking	3
ENGL 211C	Writing, Rhetoric, and Research	3
or ENGL 231C	Writing, Rhetoric, and Research: Special Topics	
MATH 162M	Precalculus I	3
MATH 200	Calculus for Business and Economics	3
ACCT 201	Principles of Financial Accounting	3
ACCT 202	Principles of Managerial Accounting	3
ECON 201S	Principles of Macroeconomics	3
ECON 202S	Principles of Microeconomics	3
BNAL 206	Business Analytics I	3
Select one of the following:		3
PHIL 230E	Introduction to Ethics	
Upper-level ethics course		

With the exception of the courses listed above, the University's lower-division General Education requirements are deemed satisfied by the accepted AS degrees. These typically include all AS degrees from the Virginia Community College System except the applied science degrees. For more information about accepted AS degrees contact the Office of Admissions. Associate degree holders, although meeting lower-level General Education requirements, must ensure that 120 credits are completed to earn the BSBA degree. A minimum of 25% of the required credit hours must be completed through Old Dominion University, at least 12 of which are upper-level courses in the major program.

The Strome College of Business does not accept courses completed at the freshman and sophomore levels at other institutions for required courses at the junior and senior level at Old Dominion University. Please see the section on CLEP credits (Prior Learning Assessment Credit Options at the Undergraduate Level) for additional information.

Grade Average Requirements for Graduation

To graduate with a Bachelor of Science in Business Administration degree, students must present a minimum of 120 hours with a minimum overall grade point average of 2.00 in all courses taken at Old Dominion University. Students must also attain a minimum overall grade point average of 2.00 in courses taken toward the major (courses included in the major grade point average calculation are listed following the description of each major's course work).

Additionally, students must attain a minimum overall grade point average of 2.00 in the BSBA Core listed below. Only courses completed at Old Dominion University will be used to compute the BSBA Core average. Students with an Information Systems and Technology major (excluding Business Analytics) are not required to take IT 360T, so the BSBA Core

grade point average is computed using the remaining courses. If the BSBA Core average is below the required 2.00 minimum, students are advised to utilize the Grade Forgiveness Policy or Adjusted Resident Credit option when appropriate to improve the grade point average.

Requirements for Completing a Bachelor of Science in Business Administration

The following sections show the courses that are requirements for all business students, regardless of the chosen major: Lower-Division General Education, BSBA Core Courses, and Upper-Division General Education. Credit hours are listed after the course title. The student must also choose a major and complete the requirements listed for that major on the following pages.

Foundation Courses for Admission to the Strome College of Business

ENGL 110C	English Composition (C or better)	3
MATH 162M	Precalculus I (C or better)	3
ACCT 201	Principles of Financial Accounting (C or better)	3
ECON 202S	Principles of Microeconomics (C or better)	3
BUSN 110	Introduction to Contemporary Business *	1

* Not required for students pursuing an Information Systems and Technology major (excluding Business Analytics) or for students with an associate's degree in business administration or with a prior bachelor's degree in business administration.

See the section on Admission to the Undergraduate Program in Business Administration, General Requirements.

Business Elective

A business elective is a course that is offered by an accredited college of business, including the Strome College of Business at Old Dominion University. Public Affairs and Service (PAS) courses offered by the Strome College of Business are not considered as business courses. However, because some business courses cannot be used to satisfy the requirements of certain majors, students must refer to their specific degree program requirements to make sure that they complete appropriate business elective courses. For example, ECON 200S cannot be used to satisfy an elective requirement for students majoring in business administration. Also, IT 360T cannot be used as an elective by students majoring in Information Systems and Technology. Refer to the course description section of this Catalog for full details of courses and their prerequisites.

Free Elective

In the majority of cases a free elective is any course offered by an accredited community college or university, including Old Dominion University. However, because some courses cannot be used to satisfy the requirements of certain majors, students must refer to their specific degree program requirements to make sure that they complete appropriate elective courses. For example, ECON 200S cannot be used to satisfy an elective requirement for students majoring in business administration. Also, IT 360T cannot be used as an elective by students majoring in Information Systems and Technology. Refer to the course description section of this Catalog for full details of courses and their prerequisites.

Degree Program Guide

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

BSBA to MBA (Master of Business Administration) Linked Program

Students interested in the program should contact the MBA Program Office as early as possible to discuss their plans for early entry. Once admitted to the program, the MBA program manager will act as the student's co-advisor, along with the chief departmental advisor or chief discipline advisor in the student's undergraduate major. The MBA Program Office is located in 1026 Constant Hall. The phone number is 757-683-3585 and email is mbainfo@odu.edu.

BSBA to MPA (Master of Public Administration) Linked Program

The linked BSBA to MPA program provides qualified Old Dominion University undergraduate students with the opportunity to earn a master's degree in public administration while taking 12 credits of the MPA program as an undergraduate student. The program is designed for highly motivated students with the desire to immediately continue their education after the bachelor's degree. The program is especially relevant to individuals seeking to work (or currently working) in the public or non-profit sectors,

but is suitable for students from any undergraduate major. Graduate courses may be taken during the fall and spring semester of the student's senior undergraduate year. After receiving the undergraduate degree, a student will continue with the MPA program, taking MPA courses until completing the required 39 credit hours. Students in the linked program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Admission Requirements

A potential candidate will have:

1. Completed all lower level general education requirements
2. Achieved a cumulative GPA of at least 3.0 at the end of the junior year

Requirements for admission to the graduate program can be found in the School of Public Service section of the Graduate Catalog. For additional information, please contact the School of Public Service in the Strome College of Business.

Bachelor of Science in Business Administration Management with a Major in Entrepreneurship (BSBA)

Web Site: <https://www.odu.edu/management-a-major-entrepreneurship-bsba> (<https://www.odu.edu/management-a-major-entrepreneurship-bsba/>)

Chair of Management Department:

Shaomin Li
SLi@odu.edu

Faculty Advisor & Entrepreneurship Area Coordinator:

Karen Eagle
KEagle@odu.edu

A major in entrepreneurship allows students to practice their own creative talents while applying fundamental business concepts. Students learn to embrace uncertainty, overcome challenges, create value, and develop an entrepreneurial mindset to make a difference in the world and in the marketplace. Courses give students the information, abilities, and entrepreneurial spirit necessary to start their own businesses, take on leadership roles in already-existing enterprises, manage small and family-owned firms, and approach difficult problems with new perspectives, making them more equipped to handle the demands of the modern economy, which is fast-paced and unpredictable, and where success is determined by the ability to see opportunities, innovate, and move quickly to market.

Strome College of Business (SCB) Center for Undergraduate Advising and Student Success

The mission of this office is to challenge and support students in self-exploration and, through advising, provide resources for them to develop an achievable plan for success. Our vision is for students to be aware of their academic, personal, and professional goals; empowered to pursue them; and confident in their ability to accomplish them.

Our professional advisors work with all Strome College of Business students regarding degree planning, changing majors, admissions, continuance, graduation requirements and required curricula for the majors and minors offered by the College.

Degree Requirements

Students in all of the Bachelor of Science in Business Administration degree programs must fulfill the University General Education requirements (including foreign language) as well as the Strome College of Business's core, major, and elective requirements. Students must choose at least one major area to meet requirements towards the degree.

To stay in compliance with AACSB accreditation standards, students receiving a Bachelor of Science in Business Administration from Old Dominion University must complete at least half of their business course

work in residence with a minimum of four courses in their declared major. This equates to 10 business classes, thus meeting the University's residency requirement as well.

Majors in the college may not take business and public administration courses for pass/fail credit except those courses in which pass/fail is the only grading option (i.e., internships and practica).

Admission to the Undergraduate Program in Business Administration

General Requirements

Applicants for admission to the undergraduate degree program in business administration (the Bachelor of Science in Business Administration) should apply initially to the Office of Admissions of Old Dominion University. Students cannot be accepted into business administration without first being admitted to the University. Admission to the University does not guarantee admission to the Bachelor of Science in Business Administration (BSBA) program. Candidates for admission to the BSBA program should indicate on the application to the University their intention to enter the undergraduate business administration degree program.

Admission to the Bachelor's Degree Program in Business Administration:

Before Admission to the bachelor's degree program in business administration can be granted, a student must have earned a grade of C or higher in each of the business Admission courses:

BUSN 110	Introduction to Contemporary Business	1
ENGL 110C	English Composition	3
MATH 162M	Precalculus I	3
ACCT 201	Principles of Financial Accounting	3
ECON 202S	Principles of Microeconomics	3

- BUSN 110 is not required for students pursuing majors under the BSBA in Information Systems and Technology (excluding Business Analytics) or for any student with an associate's degree in business administration or with a prior bachelor's degree in business administration.
- Students may utilize the Grade Forgiveness Policy for the business Admission courses.
- Transfer students may complete business Admission courses (BUSN 110, ENGL 110C, MATH 162M, ACCT 201, and ECON 202S) at another accredited college or university, but are responsible for having Transfer Evaluation Services determine that the courses are acceptable to the University.

Eligibility to Enroll in Upper-Level (300/400-level) Business Courses

Only students who have officially completed Admission courses to the BSBA program will be eligible to enroll in upper-level (300/400) business courses (refer to exceptions for non-business majors).

However, students who are in progress with the business Admission courses may enroll in upper-level (300/400) business courses. Note: These students will need a Program Restriction Waiver (PRW) to enroll in these courses, with the exception of FIN 323, MGMT 325, MKTG 311, and OPMT 303. These courses require a junior class standing for registration.

Enrollment in 300/400-level Business Courses by Non-Business Majors

Enrollment in 300/400-level business courses will be granted without the Admission courses for the following exceptions:

1. Students pursuing a declared minor in the Strome College of Business may enroll in 300/400-level business courses appropriate to the minor.
2. Students pursuing Upper-Division General Education Requirement Option B: Interdisciplinary Minor or Option D: Six hours of elective upper-division courses outside the student's major discipline or college.

3. Students wishing to satisfy the Impact of Technology requirement may enroll in IT 360T.

4. Students pursuing a degree program other than the Bachelor of Science in Business Administration (BSBA) that requires or accepts specific 300/400-level business courses to complete the degree may enroll in the courses appropriate to the major.

5. Non-degree-seeking students may enroll in 300/400-level business courses if they have satisfied the prerequisites for these courses.

Students in categories 1 - 5 above who do not have a declared major will need a Program Restriction Waiver (PRW) in order to enroll in any 300/400-level Strome College of Business course (including Economics courses). Forms to request a PRW are available at the Strome College of Business website.

Regulations for Continuance in the Bachelor of Science in Business Administration

In addition to the Old Dominion University continuance policies, the following policies are specific to all declared Bachelor of Science in Business Administration (BSBA) students. The Strome College of Business makes a reasonable effort to notify undergraduate students who are not in good academic standing in the BSBA program of their academic status. Each undergraduate student who is placed on BSBA Academic Alarm or BSBA Termination (explained below) will be sent an e-mail message to that effect at the student's Old Dominion University e-mail address, in accordance with the Electronic Communication Policy for Official University Business. Non-receipt of the e-mail messages by a student will not be considered grounds for granting exceptions or delays in enforcement of the BSBA continuance regulations.

BSBA Continuance Regulations

If a student's Grade Point Average (GPA) in their BSBA Core courses falls below a 2.0, then they will be on Academic Alarm within the Strome College of Business (SCB). This policy is very similar to the University's academic continuance policy, the main difference being that it is based on the core Business courses and impacts acceptance and continuance within the SCB.

Academic Alarm

The first semester in which a student's BSBA Core GPA drops to below a 2.0, they will be on Academic Alarm. Once considered on academic alarm within the college, taking courses within the BSBA Core is the only way to bring that GPA back up.

- If the student raises the BSBA Core GPA to above a 2.0, then they will no longer be on academic alarm.
- If the BSBA Core GPA does not reach a 2.0 but the semester average in the BSBA Core courses is a 2.0 or higher, then the student will remain on academic alarm and be able to continue within the SCB.

SCB Termination

While on academic alarm within the Strome College of Business, if the semester BSBA Core GPA falls below a 2.0, the student will be terminated from the SCB and their major coding will be changed from Business to Undecided. (Terminations will not be processed in summer semesters.)

Appeals

If you have been terminated, you may appeal the decision if you have extenuating circumstances and documentation to support your claim. To appeal, write a letter and include documentation of your circumstances to the Associate Dean of the Strome College of Business (Constant Hall, Suite 2004). There are specific details that need to be included with your appeal - for more information, please see the appeals process as described in the most recently issued catalog.

Guidelines for Filing a BSBA Termination Appeal

1. All students have the right to appeal their BSBA termination if they believe that extraordinary circumstances were the main reason for their poor

academic performance. Notifications of pending BSBA termination are sent to the student's ODU email address and include information on the appeal process and deadlines. All BSBA termination appeals must be submitted electronically using the link provided in the email and will be reviewed by the SCB Termination Appeal Committee. Students are responsible for submitting their appeal by the stated deadline; late appeals will not be reviewed. Decisions of the Termination Appeal Committee may be appealed to the Associate Dean for Academic Programs in the Strome College of Business whose decision is final.

2. Appeals must be based on circumstances pertinent to the semesters in which the academic difficulty occurred that were beyond the control of the student and for which official withdrawal from the course(s) was not an option. Appeal letters must be legible and authored by the terminated student. The appeal letter must provide sufficient detail and explanation regarding the following points because there is no face-to-face meeting with the Associate Dean for Academic Programs in the Strome College of Business. The decision of the Associate Dean is final. Students without documentation will not be allowed to appeal their termination. In order to be reviewed, an appeal letter must:

- Document the extraordinary circumstances such as a death in the family, medical complications or chronic conditions, personal or family emergency, overwhelming work schedules, dorm-mate conflict, or a personal relationship conflict that have adversely affected performance: i.e., a statement or letter from a physician, employer, family members, faculty, academic advisor, Counseling Services, or Educational Accessibility.
- Explain how the extraordinary circumstances caused each semester of poor academic performance.
- State the reasons why an official withdrawal was not requested.
- Explain how the extraordinary circumstance(s) has been resolved.
- Provide a plan of action to return to good BSBA academic standing.

3. Students who do not file a BSBA termination appeal or whose appeals are denied, are no longer eligible to pursue a bachelor's degree in Business Administration. Upon BSBA termination, the student's major in the Strome College of Business will be removed. (This does not affect a declared second major outside of the BSBA.) These students are advised to work with an advisor in the SCB Center for Undergraduate Advising to explore other major options, and for referrals to other advising departments for a new major declaration.

4. BSBA-terminated students who had pre-registered for a subsequent semester lose eligibility for continued enrollment in upper-level business courses.

Applying for Readmission to the BSBA Program

After a minimum of five years has passed since a student was terminated from the BSBA program, the student may apply for readmission to the program. There must be a high probability the student will successfully complete the degree program, and approval will be at the discretion of the Strome College of Business Associate Dean.

Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

Oral Communication: COMM 101R or MKTG 200R required. Additionally, all students majoring in business administration can expect to complete several courses in which individual and/or group oral presentations will be required.

Mathematics: MATH 162M and MATH 200 required.

Information Literacy and Research: IT 150G (recommended) or any "G" course from the approved general education information literacy and research course list.

Human Behavior: Met in the Business Administration core for all majors except Economics.

Philosophy and Ethics must be satisfied by completion of either PHIL 230E or an upper-level "E" course from the approved general education ethics course list. A philosophy course designated with a P will not meet this requirement for business administration students with the exception of a "P" course taken prior to fall 2010.

Impact of Technology requirement is satisfied within each BSBA degree major except Information Systems and Technology by IT 360T. In the Information Systems and Technology majors (excluding Business Analytics), the Impact of Technology requirement is satisfied by the coursework required for the major.

Transfer students with an applicable associate's degree from a Virginia Community College or another community college that has a seamless transfer agreement with ODU, and students with a prior bachelor's degree from another university, must nevertheless have a grade of C or better in the following to be able to transfer them:

COMM 101R	Public Speaking	3
or MKTG 200R	Professional Interactions and Negotiations	
PHIL 230E	Introduction to Ethics (Or an upper-level ethics course)	3
ENGL 211C	Writing, Rhetoric, and Research	3
or ENGL 231C	Writing, Rhetoric, and Research: Special Topics	
MATH 162M	Precalculus I	3
MATH 200	Calculus for Business and Economics	3

Upper-Division General Education

- Option A. Any University-approved minor, second degree, or second major.
- Option B. An interdisciplinary minor consisting of 12 credits, three of which can be in the major. Interdisciplinary minors are described in the University Catalog section labeled Requirements for Undergraduate Degrees, Upper-Division Requirements.
- Option C. An approved certification program, such as teaching licensure.
- Option D. Two Upper-Division Courses from outside the Strome College of Business and not required by the major (6 credits).

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Business Administration Core

ACCT 201	Principles of Financial Accounting *	3
ACCT 202	Principles of Managerial Accounting *	3
BNAL 206	Business Analytics I *	3
BNAL 306	Business Analytics II	3
ECON 201S	Principles of Macroeconomics *	3
ECON 202S	Principles of Microeconomics *	3
ECON 301	Managerial Economics	3
FIN 323	Introductory Financial Management	3
FIN 331	Legal Environment of Business	3
IT 360T	Principles of Information Technology **	3
MGMT 325	Contemporary Organizations and Management	3
MGMT 485W	Business Policy and Strategy (C or better) ***	3
MKTG 311	Marketing Principles and Problems	3
OPMT 303	Operations Management	3
Total Credit Hours		42

- * Not automatically waived for transfer students with an applicable associate's degree from a Virginia Community College or another acceptable community college, or for students with a prior bachelor's degree from another university. A grade of C or better must be earned to transfer these courses to Old Dominion University.
- ** Students completing a major or minor in Information Systems and Technology (excluding the Business Analytics major) do not take this course.
- *** Students majoring in Economics must complete MGMT 485W, but meet the writing intensive requirement by earning a grade of C or better either in MGMT 485W or in one of the ECON Writing Intensive courses.

Entrepreneurship Major

Students must earn a grade of C- or better in all required Entrepreneurship Major core courses and Entrepreneurship Major Elective courses. To graduate, students will need at least a 2.0 GPA for their Entrepreneurship Major. Students in this major will take ENTR 490 - Entrepreneurship Capstone during their senior year at Old Dominion University.

General Education		
Complete lower-division requirements		35-41
Complete upper-division requirements		6
BUSN 110	Introduction to Contemporary Business *	1
MATH 200	Calculus for Business and Economics	3
Business Administration Core		
Complete business administration core requirements		42

Entrepreneurship Major Core Classes		
ENTR 201S	Introduction to Entrepreneurship	3
ENTR 301	Fundamentals of Entrepreneurship	3
ENTR 490	Entrepreneurship Capstone	3
Entrepreneurship Major Electives		
Select three of the following ENTR or MGMT Electives:		9
ENTR 368	Entrepreneurship Internship	
ENTR 410	Small Business Management	
ENTR 440	Digital Entrepreneurship: New Venture Creation	
MGMT 336	International Entrepreneurship	
MGMT 340	Human Resource Management	
MGMT 420	Business Development	
MGMT 424	Technology and Innovation Management	
MGMT 452	Negotiations and Change Management	
Select one of the following MKTG Electives:		3
MKTG 402	Consumer Behavior	
MKTG 455	Social Media Marketing	
MKTG 450	Marketing on the Internet	
200-400 Level Free Elective		3
300-400 Level Free Elective		3
Free Electives		6
Total Credit Hours		120-126

* Not required for students pursuing the IT major or for any student with an associate's degree in business administration or with a prior bachelor's degree in business administration.

Additional Requirements and Information

Advanced Placement

The college accepts advanced placement credit in accordance with the rules and regulations outlined in the Academic Information section of this catalog. Students may take College-Level Examination Program (CLEP) tests to receive credit for:

ACCT 201	Principles of Financial Accounting	3
ACCT 202	Principles of Managerial Accounting	3
ECON 201S	Principles of Macroeconomics	3
ECON 202S	Principles of Microeconomics	3
FIN 331	Legal Environment of Business	3
MGMT 325	Contemporary Organizations and Management	3
MKTG 311	Marketing Principles and Problems	3

Students are advised to contact the Office of Prior Learning Assessment for more information regarding CLEP and other prior learning assessment credit options. For advanced placement credit in any other business or public administration course, students are advised to contact the chair of the department offering the course. Additional information about credit awarded for qualifying scores on AP and IB subject examinations can be found on the ODU website: <https://www.odu.edu/academics/academic-records/score-analysis/ap-ib> (<https://www.odu.edu/academics/academic-records/score-analysis/ap-ib/>).

Practical Work Experience for Business Administration Majors

Students may complement their major studies with a practical work experience, which may take the form of an internship, cooperative education experience or a class containing a real-world, hands-on project. Students must apply for internship or co-op participation through the Strome College of Business Career & Leadership Development Satellite Office. All work experiences must be approved by the faculty sponsor in the appropriate department prior to registering for credit. Students may not earn credit for previous or current work experiences. (However, academic credit for work

experience may be approved in accordance with the policies for granting prior learning credit as defined in the section on Prior Learning Assessment Credit Options at the Undergraduate Level in this catalog.) For details see the Center for Career & Leadership Development section of this catalog.

Use of Internship and Similar Hours Toward Business Administration Majors

A student may apply no more than six hours of cooperative education, student internship or practicum courses to satisfy degree requirements. Students may not use more than three hours of cooperative education, student internship or practicum courses to satisfy major elective requirements in each of the students' majors. These courses are numbered 367, 368 or 369. Additional hours of cooperative education, student internship or practicum courses, however, can be used to satisfy other requirements such as free electives or general business electives. Additional internships must each involve substantially different kinds of work experiences. Internships must be approved by the Chief Departmental Advisor of the student's major and the CAP Coordinator of the internship.

Transfer of the Associate of Science in Business Administration Towards Degree Requirements

Students transferring to the college must complete a minimum of 10 business courses offered by the college to earn the degree from Old Dominion University, in accordance with AACSB regulations. Those transfer students holding the Associate of Science in Business Administration degree from a Virginia Community College must earn the grade of "C" or better in the following courses in order to satisfy requirements found in the first two years of the BSBA degree:

COMM 101R	Public Speaking	3
ENGL 211C	Writing, Rhetoric, and Research	3
or ENGL 231C	Writing, Rhetoric, and Research: Special Topics	
MATH 162M	Precalculus I	3
MATH 200	Calculus for Business and Economics	3
ACCT 201	Principles of Financial Accounting	3
ACCT 202	Principles of Managerial Accounting	3
ECON 201S	Principles of Macroeconomics	3
ECON 202S	Principles of Microeconomics	3
BNAL 206	Business Analytics I	3
Select one of the following:		3
PHIL 230E	Introduction to Ethics	
Upper-level ethics course		

With the exception of the courses listed above, the University's lower-division General Education requirements are deemed satisfied by the accepted AS degrees. These typically include all AS degrees from the Virginia Community College System except the applied science degrees. For more information about accepted AS degrees contact the Office of Admissions. Associate degree holders, although meeting lower-level General Education requirements, must ensure that 120 credits are completed to earn the BSBA degree. A minimum of 25% of the required credit hours must be completed through Old Dominion University, at least 12 of which are upper-level courses in the major program.

The Strome College of Business does not accept courses completed at the freshman and sophomore levels at other institutions for required courses at the junior and senior level at Old Dominion University. Please see the section on CLEP credits (Prior Learning Assessment Credit Options at the Undergraduate Level) for additional information.

Grade Average Requirements for Graduation

To graduate with a Bachelor of Science in Business Administration degree, students must present a minimum of 120 hours with a minimum overall grade point average of 2.00 in all courses taken at Old Dominion University. Students must also attain a minimum overall grade point average of 2.00 in courses taken toward the major (courses included in the major grade point average calculation are listed following the description of each major's course work).

Additionally, students must attain a minimum overall grade point average of 2.00 in the BSBA Core listed below. Only courses completed at Old Dominion University will be used to compute the BSBA Core average. Students with an Information Systems and Technology major (excluding Business Analytics) are not required to take IT 360T, so the BSBA Core grade point average is computed using the remaining courses. If the BSBA Core average is below the required 2.00 minimum, students are advised to utilize the Grade Forgiveness Policy or Adjusted Resident Credit option when appropriate to improve the grade point average.

Requirements for Completing a Bachelor of Science in Business Administration

The following sections show the courses that are requirements for all business students, regardless of the chosen major: Lower-Division General Education, BSBA Core Courses, and Upper-Division General Education. Credit hours are listed after the course title. The student must also choose a major and complete the requirements listed for that major on the following pages.

Foundation Courses for Admission to the Strome College of Business

ENGL 110C	English Composition (C or better)	3
MATH 162M	Precalculus I (C or better)	3
ACCT 201	Principles of Financial Accounting (C or better)	3
ECON 202S	Principles of Microeconomics (C or better)	3
BUSN 110	Introduction to Contemporary Business *	1

* Not required for students pursuing an Information Systems and Technology major (excluding Business Analytics) or for students with an associate's degree in business administration or with a prior bachelor's degree in business administration.

See the section on Admission to the Undergraduate Program in Business Administration, General Requirements.

Business Elective

A business elective is a course that is offered by an accredited college of business, including the Strome College of Business at Old Dominion University. Public Affairs and Service (PAS) courses offered by the Strome College of Business are not considered as business courses. However, because some business courses cannot be used to satisfy the requirements of certain majors, students must refer to their specific degree program requirements to make sure that they complete appropriate business elective courses. For example, ECON 200S cannot be used to satisfy an elective requirement for students majoring in business administration. Also, IT 360T cannot be used as an elective by students majoring in Information Systems and Technology. Refer to the course description section of this Catalog for full details of courses and their prerequisites.

Free Elective

In the majority of cases a free elective is any course offered by an accredited community college or university, including Old Dominion University. However, because some courses cannot be used to satisfy the requirements of certain majors, students must refer to their specific degree program requirements to make sure that they complete appropriate elective courses. For example, ECON 200S cannot be used to satisfy an elective requirement for students majoring in business administration. Also, IT 360T cannot be used as an elective by students majoring in Information Systems and Technology. Refer to the course description section of this Catalog for full details of courses and their prerequisites.

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

BSBA to MBA (Master of Business Administration) Linked Program

Students interested in the program should contact the MBA Program Office as early as possible to discuss their plans for early entry. Once admitted to the program, the MBA program manager will act as the student's co-advisor, along with the chief departmental advisor or chief discipline advisor in the student's undergraduate major. The MBA Program Office is located in 1026 Constant Hall. The phone number is 757-683-3585 and email is mbainfo@odu.edu.

BSBA to MPA (Master of Public Administration) Linked Program

The linked BSBA to MPA program provides qualified Old Dominion University undergraduate students with the opportunity to earn a master's degree in public administration while taking 12 credits of the MPA program as an undergraduate student. The program is designed for highly motivated students with the desire to immediately continue their education after the bachelor's degree. The program is especially relevant to individuals seeking to work (or currently working) in the public or non-profit sectors, but is suitable for students from any undergraduate major. Graduate courses may be taken during the fall and spring semester of the student's

senior undergraduate year. After receiving the undergraduate degree, a student will continue with the MPA program, taking MPA courses until completing the required 39 credit hours. Students in the linked program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Admission Requirements

A potential candidate will have:

1. Completed all lower level general education requirements
2. Achieved a cumulative GPA of at least 3.0 at the end of the junior year

Requirements for admission to the graduate program can be found in the School of Public Service section of the Graduate Catalog. For additional information, please contact the School of Public Service in the Strome College of Business.

Bachelor of Science in Business Administration Management with a Major in Human Resource Management (BSBA)

Web Site: <https://www.odu.edu/management-a-major-human-resource-management-bsba> (<https://www.odu.edu/management-a-major-human-resource-management-bsba/>)

Chair of Management Department:

Shaomin Li
SLi@odu.edu

Chief Departmental Advisor and Management Area Coordinator:

Jennifer Klinger
JLKlinge@odu.edu

Human Resource Management Area Coordinator:

Sheila Keener
SKeener@odu.edu

Director of ADP HCM (Human Capital Management) Academy:

Ryan Klinger
RKlinger@odu.edu

Designing and implementing policies, practices, and systems that optimize employee performance and cultivate positive work environments, **Human Resource Management** is the strategic approach to effectively managing people in organizations.

Why Earn a Degree in Human Resource Management?

A degree in human resource management paves the way for a variety of human resource jobs and specialist roles in analytics, talent acquisition, training and development, performance management, compensation and benefits management, employee relations, and diversity, equity, and inclusion. Whether you intend to pursue a career in human resources or aspire to any organizational leadership position, the knowledge and skills you develop in this program lay a solid foundation for career success.

What Skills and Knowledge Will You Learn?

Students learn best practices for managing, motivating, and supporting employees across all stages of the employment life cycle. Students learn how to create policies, practices, and systems to efficiently organize employee behavior and how to create team processes and workplace cultures to promote both employee well-being and business success. Students develop critical skills in communication, conflict management, and ethical decision making as well as acquire topically relevant knowledge about legal workplace issues, emerging technology, and evolving workplace trends. These skills and knowledge are both highly valued within human resources and transferable across career paths.

Program Highlights

The Department of Management has partnered with ADP, one of the region's largest private-sector employers and an industry-leading provider of Human Capital Management (HCM) solutions to create the ADP HCM Academy @ ODU to provide Human Resource Management majors with real-world skills, technology training, and networking opportunities to supplement traditional classroom learning. Highlights include:

1. **Cutting-Edge Curriculum:** Courses are designed and continuously modernized to reflect the latest trends and challenges in the field, including HR analytics, generative AI in the workplace, and evolving technological, global, and legal workplace trends.
2. **HR Technology Training:** Thanks to the unique partnership with ADP, all students receive free access to, and training on, ADP's award-winning and market-leading human resource management software: ADP Workforce Now. Students enter the workforce with valuable HRIS credentials and experience.
3. **Hands-on Learning:** The program emphasizes practical, hands-on learning through simulation projects, case studies, and real-world community consulting projects.
4. **Professional Certification Prep:** ODU's Human Resource Management curriculum is continuously evaluated by the international human resource accrediting body (the Society for Human Resource Management) to ensure that learning objectives are aligned with the field and students are prepared to earn professional certifications. As part of the program, students can take courses to prepare for the SHRM-CP (certified professional in human resources) exam or other specialized human resource certifications.
5. **Networking Opportunities:** Through partnerships with ADP, our active student SHRM club, and community professional human resource networks, the program offers students opportunities to connect with professional mentors and learn from leaders both within and outside the classroom. Thriving talent pipelines with organizations of all types ensure students have opportunities to complete internships and earn jobs.

Strome College of Business (SCB) Center for Undergraduate Advising and Student Success

The mission of this office is to challenge and support students in self-exploration and, through advising, provide resources for them to develop an achievable plan for success. Our vision is for students to be aware of their academic, personal, and professional goals; empowered to pursue them; and confident in their ability to accomplish them.

Our professional advisors work with all Strome College of Business students regarding degree planning, changing majors, admissions, continuance, graduation requirements and required curricula for the majors and minors offered by the College.

Degree Requirements

Students in all of the Bachelor of Science in Business Administration degree programs must fulfill the University General Education requirements (including foreign language) as well as the Strome College of Business's core, major, and elective requirements. Students must choose at least one major area to meet requirements towards the degree.

To stay in compliance with AACSB accreditation standards, students receiving a Bachelor of Science in Business Administration from Old Dominion University must complete at least half of their business course work in residence with a minimum of four courses in their declared major. This equates to 10 business classes, thus meeting the University's residency requirement as well.

Majors in the college may not take business and public administration courses for pass/fail credit except those courses in which pass/fail is the only grading option (i.e., internships and practica).

Admission to the Undergraduate Program in Business Administration

General Requirements

Applicants for admission to the undergraduate degree program in business administration (the Bachelor of Science in Business Administration) should apply initially to the Office of Admissions of Old Dominion University. Students cannot be accepted into business administration without first being admitted to the University. Admission to the University does not guarantee admission to the Bachelor of Science in Business Administration (BSBA) program. Candidates for admission to the BSBA program should indicate on the application to the University their intention to enter the undergraduate business administration degree program.

Admission to the Bachelor's Degree Program in Business Administration:

Before Admission to the bachelor's degree program in business administration can be granted, a student must have earned a grade of C or higher in each of the business Admission courses:

BUSN 110	Introduction to Contemporary Business	1
ENGL 110C	English Composition	3
MATH 162M	Precalculus I	3
ACCT 201	Principles of Financial Accounting	3
ECON 202S	Principles of Microeconomics	3

- BUSN 110 is not required for students pursuing majors under the BSBA in Information Systems and Technology (excluding Business Analytics) or for any student with an associate's degree in business administration or with a prior bachelor's degree in business administration.
- Students may utilize the Grade Forgiveness Policy for the business Admission courses.
- Transfer students may complete business Admission courses (BUSN 110, ENGL 110C, MATH 162M, ACCT 201, and ECON 202S) at another accredited college or university, but are responsible for having Transfer Evaluation Services determine that the courses are acceptable to the University.

Eligibility to Enroll in Upper-Level (300/400-level) Business Courses

Only students who have officially completed Admission courses to the BSBA program will be eligible to enroll in upper-level (300/400) business courses (refer to exceptions for non-business majors).

However, students who are in progress with the business Admission courses may enroll in upper-level (300/400) business courses. Note: These students will need a Program Restriction Waiver (PRW) to enroll in these courses, with the exception of FIN 323, MGMT 325, MKTG 311, and OPMT 303. These courses require a junior class standing for registration.

Enrollment in 300/400-level Business Courses by Non-Business Majors

Enrollment in 300/400-level business courses will be granted without the Admission courses for the following exceptions:

1. Students pursuing a declared minor in the Strome College of Business may enroll in 300/400-level business courses appropriate to the minor.
2. Students pursuing Upper-Division General Education Requirement Option B: Interdisciplinary Minor or Option D: Six hours of elective upper-division courses outside the student's major discipline or college.
3. Students wishing to satisfy the Impact of Technology requirement may enroll in IT 360T.
4. Students pursuing a degree program other than the Bachelor of Science in Business Administration (BSBA) that requires or accepts specific 300/400-level business courses to complete the degree may enroll in the courses appropriate to the major.

5. Non-degree-seeking students may enroll in 300/400-level business courses if they have satisfied the prerequisites for these courses.

Students in categories 1 - 5 above who do not have a declared major will need a Program Restriction Waiver (PRW) in order to enroll in any 300/400-level Strome College of Business course (including Economics courses). Forms to request a PRW are available at the Strome College of Business website.

Regulations for Continuance in the Bachelor of Science in Business Administration

In addition to the Old Dominion University continuance policies, the following policies are specific to all declared Bachelor of Science in Business Administration (BSBA) students. The Strome College of Business makes a reasonable effort to notify undergraduate students who are not in good academic standing in the BSBA program of their academic status. Each undergraduate student who is placed on BSBA Academic Alarm or BSBA Termination (explained below) will be sent an e-mail message to that effect at the student's Old Dominion University e-mail address, in accordance with the Electronic Communication Policy for Official University Business. Non-receipt of the e-mail messages by a student will not be considered grounds for granting exceptions or delays in enforcement of the BSBA continuance regulations.

BSBA Continuance Regulations

If a student's Grade Point Average (GPA) in their BSBA Core courses falls below a 2.0, then they will be on Academic Alarm within the Strome College of Business (SCB). This policy is very similar to the University's academic continuance policy, the main difference being that it is based on the core Business courses and impacts acceptance and continuance within the SCB.

Academic Alarm

The first semester in which a student's BSBA Core GPA drops to below a 2.0, they will be on Academic Alarm. Once considered on academic alarm within the college, taking courses within the BSBA Core is the only way to bring that GPA back up.

- If the student raises the BSBA Core GPA to above a 2.0, then they will no longer be on academic alarm.
- If the BSBA Core GPA does not reach a 2.0 but the semester average in the BSBA Core courses is a 2.0 or higher, then the student will remain on academic alarm and be able to continue within the SCB.

SCB Termination

While on academic alarm within the Strome College of Business, if the semester BSBA Core GPA falls below a 2.0, the student will be terminated from the SCB and their major coding will be changed from Business to Undecided. (Terminations will not be processed in summer semesters.)

Appeals

If you have been terminated, you may appeal the decision if you have extenuating circumstances and documentation to support your claim. To appeal, write a letter and include documentation of your circumstances to the Associate Dean of the Strome College of Business (Constant Hall, Suite 2004). There are specific details that need to be included with your appeal - for more information, please see the appeals process as described in the most recently issued catalog.

Guidelines for Filing a BSBA Termination Appeal

1. All students have the right to appeal their BSBA termination if they believe that extraordinary circumstances were the main reason for their poor academic performance. Notifications of pending BSBA termination are sent to the student's ODU email address and include information on the appeal process and deadlines. All BSBA termination appeals must be submitted electronically using the link provided in the email and will be reviewed by the SCB Termination Appeal Committee. Students are responsible for submitting their appeal by the stated deadline; late appeals will not be reviewed. Decisions of the Termination Appeal Committee may be appealed

to the Associate Dean for Academic Programs in the Strome College of Business whose decision is final.

2. Appeals must be based on circumstances pertinent to the semesters in which the academic difficulty occurred that were beyond the control of the student and for which official withdrawal from the course(s) was not an option. Appeal letters must be legible and authored by the terminated student. The appeal letter must provide sufficient detail and explanation regarding the following points because there is no face-to-face meeting with the Associate Dean for Academic Programs in the Strome College of Business. The decision of the Associate Dean is final. Students without documentation will not be allowed to appeal their termination. In order to be reviewed, an appeal letter must:

- Document the extraordinary circumstances such as a death in the family, medical complications or chronic conditions, personal or family emergency, overwhelming work schedules, dorm-mate conflict, or a personal relationship conflict that have adversely affected performance: i.e., a statement or letter from a physician, employer, family members, faculty, academic advisor, Counseling Services, or Educational Accessibility.
- Explain how the extraordinary circumstances caused each semester of poor academic performance.
- State the reasons why an official withdrawal was not requested.
- Explain how the extraordinary circumstance(s) has been resolved.
- Provide a plan of action to return to good BSBA academic standing.

3. Students who do not file a BSBA termination appeal or whose appeals are denied, are no longer eligible to pursue a bachelor's degree in Business Administration. Upon BSBA termination, the student's major in the Strome College of Business will be removed. (This does not affect a declared second major outside of the BSBA.) These students are advised to work with an advisor in the SCB Center for Undergraduate Advising to explore other major options, and for referrals to other advising departments for a new major declaration.

4. BSBA-terminated students who had pre-registered for a subsequent semester lose eligibility for continued enrollment in upper-level business courses.

Applying for Readmission to the BSBA Program

After a minimum of five years has passed since a student was terminated from the BSBA program, the student may apply for readmission to the program. There must be a high probability the student will successfully complete the degree program, and approval will be at the discretion of the Strome College of Business Associate Dean.

Requirements

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6
Oral Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#oral)	3
Mathematics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#math)	3
Language and Culture (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#language)	0-6
Information Literacy and Research (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#information)	3
Human Behavior (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#behavior)	3
Human Creativity (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#creativity)	3
Interpreting the Past (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#interpret)	3

Literature (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#literature)	3
Philosophy and Ethics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#philosophy)	3
The Nature of Science (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#nature)	8
Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

Oral Communication: COMM 101R or MKTG 200R required. Additionally, all students majoring in business administration can expect to complete several courses in which individual and/or group oral presentations will be required.

Mathematics: MATH 162M and MATH 200 required.

Information Literacy and Research: IT 150G (recommended) or any "G" course from the approved general education information literacy and research course list.

Human Behavior: Met in the Business Administration core for all majors except Economics.

Philosophy and Ethics must be satisfied by completion of either PHIL 230E or an upper-level "E" course from the approved general education ethics course list. A philosophy course designated with a P will not meet this requirement for business administration students with the exception of a "P" course taken prior to fall 2010.

Impact of Technology requirement is satisfied within each BSBA degree major except Information Systems and Technology by IT 360T. In the Information Systems and Technology majors (excluding Business Analytics), the Impact of Technology requirement is satisfied by the coursework required for the major.

Transfer students with an applicable associate's degree from a Virginia Community College or another community college that has a seamless transfer agreement with ODU, and students with a prior bachelor's degree from another university, must nevertheless have a grade of C or better in the following to be able to transfer them:

COMM 101R or MKTG 200R	Public Speaking Professional Interactions and Negotiations	3
PHIL 230E	Introduction to Ethics (Or an upper-level ethics course)	3
ENGL 211C or ENGL 231C	Writing, Rhetoric, and Research Writing, Rhetoric, and Research: Special Topics	3
MATH 162M	Precalculus I	3
MATH 200	Calculus for Business and Economics	3

Upper-Division General Education

- Option A. Any University-approved minor, second degree, or second major.
- Option B. An interdisciplinary minor consisting of 12 credits, three of which can be in the major. Interdisciplinary minors are described in the University Catalog section labeled Requirements for Undergraduate Degrees, Upper-Division Requirements.
- Option C. An approved certification program, such as teaching licensure.
- Option D. Two Upper-Division Courses from outside the Strome College of Business and not required by the major (6 credits).

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.

- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Business Administration Core

ACCT 201	Principles of Financial Accounting *	3
ACCT 202	Principles of Managerial Accounting *	3
BNAL 206	Business Analytics I *	3
BNAL 306	Business Analytics II	3
ECON 201S	Principles of Macroeconomics *	3
ECON 202S	Principles of Microeconomics *	3
ECON 301	Managerial Economics	3
FIN 323	Introductory Financial Management	3
FIN 331	Legal Environment of Business	3
IT 360T	Principles of Information Technology **	3
MGMT 325	Contemporary Organizations and Management	3
MGMT 485W	Business Policy and Strategy (C or better) ***	3
MKTG 311	Marketing Principles and Problems	3
OPMT 303	Operations Management	3
Total Credit Hours		42

- * Not automatically waived for transfer students with an applicable associate's degree from a Virginia Community College or another acceptable community college, or for students with a prior bachelor's degree from another university. A grade of C or better must be earned to transfer these courses to Old Dominion University.
- ** Students completing a major or minor in Information Systems and Technology (excluding the Business Analytics major) do not take this course.
- *** Students majoring in Economics must complete MGMT 485W, but meet the writing intensive requirement by earning a grade of C or better either in MGMT 485W or in one of the ECON Writing Intensive courses.

Human Resource Management Major

Students must earn a grade of C- or better in all required Human Resource Management Major courses and Human Resource Management Elective courses. To graduate, students will need at least a 2.0 GPA for their Human Resource Management Major. Students in this major will take MGMT 460 Human Resource Analytics during their senior year at Old Dominion University.

General Education

Complete lower-division requirements		35-41
Complete upper-division requirements (minimum of 6 credit hours)		6
BUSN 110	Introduction to Contemporary Business *	1
MATH 200	Calculus for Business and Economics	3

Business Administration Core

Complete business administration core requirements	42

Human Resource Management Major Core Classes

MGMT 330	Organizational Behavior	3
MGMT 340	Human Resource Management	3
MGMT 361	International Business Operations	3
MGMT 460	Human Resource Analytics	3

Human Resource Management Major Electives

Select two of the following HR electives:	6

MGMT 350	Employee Relations Problems and Practices
MGMT 360	Labor Management Relations
MGMT 417	Employment Law
MGMT 418	Advanced Human Resource Management: Contemporary Issues
MGMT 430	Compensation Management
MGMT 440	Human Resource Staffing Strategies
MGMT 450	Performance Measurement and Management
MGMT 465	SHRM Learning System
INBU 437	International Human Resource Management

Select one of the following HR electives:	3

MGMT 327	Business Communication
MGMT 350	Employee Relations Problems and Practices
MGMT 360	Labor Management Relations
MGMT 368	Management Internship (with approval of Program Director)
MGMT 410	Leadership in Organizations
MGMT 417	Employment Law
MGMT 418	Advanced Human Resource Management: Contemporary Issues
MGMT 430	Compensation Management
MGMT 440	Human Resource Staffing Strategies
MGMT 450	Performance Measurement and Management
MGMT 452	Negotiations and Change Management
MGMT 465	SHRM Learning System
MGMT 490	Management Consulting
INBU 437	International Human Resource Management

200-400 Level Free Elective	3

300-400 Level Free Elective	3

Free Electives	6

Total Credit Hours	120-126

- * Not required for students pursuing the IT major or for any student with an associate's degree in business administration or with a prior bachelor's degree in business administration.

All 300-400 level MGMT courses, except for MGMT 325 and MGMT 485W, are included in the calculation of the 2.00 overall grade point average for major course work for graduation.

Additional Requirements and Information

Advanced Placement

The college accepts advanced placement credit in accordance with the rules and regulations outlined in the Academic Information section of this catalog. Students may take College-Level Examination Program (CLEP) tests to receive credit for:

ACCT 201	Principles of Financial Accounting	3
ACCT 202	Principles of Managerial Accounting	3
ECON 201S	Principles of Macroeconomics	3
ECON 202S	Principles of Microeconomics	3
FIN 331	Legal Environment of Business	3
MGMT 325	Contemporary Organizations and Management	3
MKTG 311	Marketing Principles and Problems	3

Students are advised to contact the Office of Prior Learning Assessment for more information regarding CLEP and other prior learning assessment credit options. For advanced placement credit in any other business or public administration course, students are advised to contact the chair of the department offering the course. Additional information about credit

awarded for qualifying scores on AP and IB subject examinations can be found on the ODU website: <https://www.odu.edu/academics/academic-records/score-analysis/ap-ib> (<https://www.odu.edu/academics/academic-records/score-analysis/ap-ib/>).

Practical Work Experience for Business Administration Majors

Students may complement their major studies with a practical work experience, which may take the form of an internship, cooperative education experience or a class containing a real-world, hands-on project. Students must apply for internship or co-op participation through the Strome College of Business Career & Leadership Development Satellite Office. All work experiences must be approved by the faculty sponsor in the appropriate department prior to registering for credit. Students may not earn credit for previous or current work experiences. (However, academic credit for work experience may be approved in accordance with the policies for granting prior learning credit as defined in the section on Prior Learning Assessment Credit Options at the Undergraduate Level in this catalog.) For details see the Center for Career & Leadership Development section of this catalog.

Use of Internship and Similar Hours Toward Business Administration Majors

A student may apply no more than six hours of cooperative education, student internship or practicum courses to satisfy degree requirements. Students may not use more than three hours of cooperative education, student internship or practicum courses to satisfy major elective requirements in each of the students' majors. These courses are numbered 367, 368 or 369. Additional hours of cooperative education, student internship or practicum courses, however, can be used to satisfy other requirements such as free electives or general business electives. Additional internships must each involve substantially different kinds of work experiences. Internships must be approved by the Chief Departmental Advisor of the student's major and the CAP Coordinator of the internship.

Transfer of the Associate of Science in Business Administration Towards Degree Requirements

Students transferring to the college must complete a minimum of 10 business courses offered by the college to earn the degree from Old Dominion University, in accordance with AACSB regulations. Those transfer students holding the Associate of Science in Business Administration degree from a Virginia Community College must earn the grade of "C" or better in the following courses in order to satisfy requirements found in the first two years of the BSBA degree:

COMM 101R	Public Speaking	3
ENGL 211C	Writing, Rhetoric, and Research	3
or ENGL 231C	Writing, Rhetoric, and Research: Special Topics	
MATH 162M	Precalculus I	3
MATH 200	Calculus for Business and Economics	3
ACCT 201	Principles of Financial Accounting	3
ACCT 202	Principles of Managerial Accounting	3
ECON 201S	Principles of Macroeconomics	3
ECON 202S	Principles of Microeconomics	3
BNAL 206	Business Analytics I	3
Select one of the following:		3
PHIL 230E	Introduction to Ethics	
Upper-level ethics course		

With the exception of the courses listed above, the University's lower-division General Education requirements are deemed satisfied by the accepted AS degrees. These typically include all AS degrees from the Virginia Community College System except the applied science degrees. For more information about accepted AS degrees contact the Office of Admissions. Associate degree holders, although meeting lower-level General Education requirements, must ensure that 120 credits are completed to earn the BSBA degree. A minimum of 25% of the required credit hours must be completed through Old Dominion University, at least 12 of which are upper-level courses in the major program.

The Strome College of Business does not accept courses completed at the freshman and sophomore levels at other institutions for required courses at the junior and senior level at Old Dominion University. Please see the section on CLEP credits (Prior Learning Assessment Credit Options at the Undergraduate Level) for additional information.

Grade Average Requirements for Graduation

To graduate with a Bachelor of Science in Business Administration degree, students must present a minimum of 120 hours with a minimum overall grade point average of 2.00 in all courses taken at Old Dominion University. Students must also attain a minimum overall grade point average of 2.00 in courses taken toward the major (courses included in the major grade point average calculation are listed following the description of each major's course work).

Additionally, students must attain a minimum overall grade point average of 2.00 in the BSBA Core listed below. Only courses completed at Old Dominion University will be used to compute the BSBA Core average. Students with an Information Systems and Technology major (excluding Business Analytics) are not required to take IT 360T, so the BSBA Core grade point average is computed using the remaining courses. If the BSBA Core average is below the required 2.00 minimum, students are advised to utilize the Grade Forgiveness Policy or Adjusted Resident Credit option when appropriate to improve the grade point average.

Requirements for Completing a Bachelor of Science in Business Administration

The following sections show the courses that are requirements for all business students, regardless of the chosen major: Lower-Division General Education, BSBA Core Courses, and Upper-Division General Education. Credit hours are listed after the course title. The student must also choose a major and complete the requirements listed for that major on the following pages.

Foundation Courses for Admission to the Strome College of Business

ENGL 110C	English Composition (C or better)	3
MATH 162M	Precalculus I (C or better)	3
ACCT 201	Principles of Financial Accounting (C or better)	3
ECON 202S	Principles of Microeconomics (C or better)	3
BUSN 110	Introduction to Contemporary Business *	1

* Not required for students pursuing an Information Systems and Technology major (excluding Business Analytics) or for students with an associate's degree in business administration or with a prior bachelor's degree in business administration.

See the section on Admission to the Undergraduate Program in Business Administration, General Requirements.

Business Elective

A business elective is a course that is offered by an accredited college of business, including the Strome College of Business at Old Dominion University. Public Affairs and Service (PAS) courses offered by the Strome College of Business are not considered as business courses. However, because some business courses cannot be used to satisfy the requirements of certain majors, students must refer to their specific degree program requirements to make sure that they complete appropriate business elective courses. For example, ECON 200S cannot be used to satisfy an elective requirement for students majoring in business administration. Also, IT 360T cannot be used as an elective by students majoring in Information Systems and Technology. Refer to the course description section of this Catalog for full details of courses and their prerequisites.

Free Elective

In the majority of cases a free elective is any course offered by an accredited community college or university, including Old Dominion University. However, because some courses cannot be used to satisfy the requirements

of certain majors, students must refer to their specific degree program requirements to make sure that they complete appropriate elective courses. For example, ECON 200S cannot be used to satisfy an elective requirement for students majoring in business administration. Also, IT 360T cannot be used as an elective by students majoring in Information Systems and Technology. Refer to the course description section of this Catalog for full details of courses and their prerequisites.

Degree Program Guide

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

BSBA to MBA (Master of Business Administration) Linked Program

Students interested in the program should contact the MBA Program Office as early as possible to discuss their plans for early entry. Once admitted

to the program, the MBA program manager will act as the student's co-advisor, along with the chief departmental advisor or chief discipline advisor in the student's undergraduate major. The MBA Program Office is located in 1026 Constant Hall. The phone number is 757-683-3585 and email is mbainfo@odu.edu.

BSBA to MPA (Master of Public Administration) Linked Program

The linked BSBA to MPA program provides qualified Old Dominion University undergraduate students with the opportunity to earn a master's degree in public administration while taking 12 credits of the MPA program as an undergraduate student. The program is designed for highly motivated students with the desire to immediately continue their education after the bachelor's degree. The program is especially relevant to individuals seeking to work (or currently working) in the public or non-profit sectors, but is suitable for students from any undergraduate major. Graduate courses may be taken during the fall and spring semester of the student's senior undergraduate year. After receiving the undergraduate degree, a student will continue with the MPA program, taking MPA courses until completing the required 39 credit hours. Students in the linked program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Admission Requirements

A potential candidate will have:

1. Completed all lower level general education requirements
2. Achieved a cumulative GPA of at least 3.0 at the end of the junior year

Requirements for admission to the graduate program can be found in the School of Public Service section of the Graduate Catalog. For additional information, please contact the School of Public Service in the Strome College of Business.

Bachelor of Science in Business Administration Management with a Major in International Business (BSBA)

Web Site: <https://www.odu.edu/management-a-major-international-business-bsba> (<https://www.odu.edu/management-a-major-international-business-bsba/>)

Chair of Management Department:

Shaomin Li
SLi@odu.edu

International Business Area Coordinator::

Robert Pidduck
RPidduck@odu.edu

A major in International Business (IB) provides students with the tools to succeed in today's global environment. The business arena in which the College's graduates will be working is no longer local, regional or national in nature. It is international and requires an understanding and sensitivity to different cultures and business environments. The program embraces three different levels of analysis. These three levels of analyses are as follows.

Global Citizen

First, at the individual level, students learn to identify, comprehend, and manage cross-cultural differences between individuals. As global citizens, students learn to build on cultural differences, learn to be proactive on an international level, and generate new business solutions accordingly.

Multinational Enterprise

At the business discipline level, the program builds on the knowledge of business subjects that are taught in the Bachelor of Science in Business Administration (BSBA) core. The IB major will advance students'

understanding by teaching them the intricacies of the global marketplace. The IB major builds on these core business subjects and teaches students how each business subject operates in an international business setting.

International Context

Finally, the international context inherent to international business helps students identify economic trends, rules of law, and policy shifts in the global landscape. Students will be able to understand and respond to the changes of formal and informal institutions of nations and how these changes influence the way multinational enterprises conduct business internationally.

A Problem-Solving Focus

Parallel to this hierarchical focus (individual, firm specific as well as international level), students will also learn how to deal with organization specific and societal challenges. Problem solving is an integral component of the program and is related to the subjects at the heart of business administration, including strategy, marketing, finance, accounting, organization, human resources, logistics, and technology. Students work with existing businesses and help them expand abroad.

All students majoring in international business are required to participate in an approved study abroad program, international-focused project or international internship. International students are exempt from the study abroad requirement. Exemptions need written approval of the discipline coordinator. Students can choose from an extensive list of sites abroad. International business students have recently studied in Denmark, England, Japan, Mexico, the Philippines and Korea.

International business students are encouraged to minor in a business functional area such as accounting, finance, marketing, or management.

Strome College of Business (SCB) Center for Undergraduate Advising and Student Success

The mission of this office is to challenge and support students in self-exploration and, through advising, provide resources for them to develop an achievable plan for success. Our vision is for students to be aware of their academic, personal, and professional goals; empowered to pursue them; and confident in their ability to accomplish them.

Our professional advisors work with all Strome College of Business students regarding degree planning, changing majors, admissions, continuance, graduation requirements and required curricula for the majors and minors offered by the College.

Degree Requirements

Students in all of the Bachelor of Science in Business Administration degree programs must fulfill the University General Education requirements (including foreign language) as well as the Strome College of Business's core, major, and elective requirements. Students must choose at least one major area to meet requirements towards the degree.

To stay in compliance with AACSB accreditation standards, students receiving a Bachelor of Science in Business Administration from Old Dominion University must complete at least half of their business course work in residence with a minimum of four courses in their declared major. This equates to 10 business classes, thus meeting the University's residency requirement as well.

Majors in the college may not take business and public administration courses for pass/fail credit except those courses in which pass/fail is the only grading option (i.e., internships and practica).

Admission to the Undergraduate Program in Business Administration

General Requirements

Applicants for admission to the undergraduate degree program in business administration (the Bachelor of Science in Business Administration) should apply initially to the Office of Admissions of Old Dominion University.

Students cannot be accepted into business administration without first being admitted to the University. Admission to the University does not guarantee admission to the Bachelor of Science in Business Administration (BSBA) program. Candidates for admission to the BSBA program should indicate on the application to the University their intention to enter the undergraduate business administration degree program.

Admission to the Bachelor's Degree Program in Business Administration:

Before Admission to the bachelor's degree program in business administration can be granted, a student must have earned a grade of C or higher in each of the business Admission courses:

BUSN 110	Introduction to Contemporary Business	1
ENGL 110C	English Composition	3
MATH 162M	Precalculus I	3
ACCT 201	Principles of Financial Accounting	3
ECON 202S	Principles of Microeconomics	3

- BUSN 110 is not required for students pursuing majors under the BSBA in Information Systems and Technology (excluding Business Analytics) or for any student with an associate's degree in business administration or with a prior bachelor's degree in business administration.
- Students may utilize the Grade Forgiveness Policy for the business Admission courses.
- Transfer students may complete business Admission courses (BUSN 110, ENGL 110C, MATH 162M, ACCT 201, and ECON 202S) at another accredited college or university, but are responsible for having Transfer Evaluation Services determine that the courses are acceptable to the University.

Eligibility to Enroll in Upper-Level (300/400-level) Business Courses

Only students who have officially completed Admission courses to the BSBA program will be eligible to enroll in upper-level (300/400) business courses (refer to exceptions for non-business majors). However, students who are in progress with the business Admission courses may enroll in upper-level (300/400) business courses. Note: These students will need a Program Restriction Waiver (PRW) to enroll in these courses, with the exception of FIN 323, MGMT 325, MKTG 311, and OPMT 303. These courses require a junior class standing for registration.

Enrollment in 300/400-level Business Courses by Non-Business Majors

Enrollment in 300/400-level business courses will be granted without the Admission courses for the following exceptions:

1. Students pursuing a declared minor in the Strome College of Business may enroll in 300/400-level business courses appropriate to the minor.
2. Students pursuing Upper-Division General Education Requirement Option B: Interdisciplinary Minor or Option D: Six hours of elective upper-division courses outside the student's major discipline or college.
3. Students wishing to satisfy the Impact of Technology requirement may enroll in IT 360T.
4. Students pursuing a degree program other than the Bachelor of Science in Business Administration (BSBA) that requires or accepts specific 300/400-level business courses to complete the degree may enroll in the courses appropriate to the major.
5. Non-degree-seeking students may enroll in 300/400-level business courses if they have satisfied the prerequisites for these courses.

Students in categories 1 - 5 above who do not have a declared major will need a Program Restriction Waiver (PRW) in order to enroll in any 300/400-level Strome College of Business course (including Economics courses). Forms to request a PRW are available at the Strome College of Business website.

Regulations for Continuance in the Bachelor of Science in Business Administration

In addition to the Old Dominion University continuance policies, the following policies are specific to all declared Bachelor of Science in Business Administration (BSBA) students. The Strome College of Business makes a reasonable effort to notify undergraduate students who are not in good academic standing in the BSBA program of their academic status. Each undergraduate student who is placed on BSBA Academic Alarm or BSBA Termination (explained below) will be sent an e-mail message to that effect at the student's Old Dominion University e-mail address, in accordance with the Electronic Communication Policy for Official University Business. Non-receipt of the e-mail messages by a student will not be considered grounds for granting exceptions or delays in enforcement of the BSBA continuance regulations.

BSBA Continuance Regulations

If a student's Grade Point Average (GPA) in their BSBA Core courses falls below a 2.0, then they will be on Academic Alarm within the Strome College of Business (SCB). This policy is very similar to the University's academic continuance policy, the main difference being that it is based on the core Business courses and impacts acceptance and continuance within the SCB.

Academic Alarm

The first semester in which a student's BSBA Core GPA drops to below a 2.0, they will be on Academic Alarm. Once considered on academic alarm within the college, taking courses within the BSBA Core is the only way to bring that GPA back up.

- If the student raises the BSBA Core GPA to above a 2.0, then they will no longer be on academic alarm.
- If the BSBA Core GPA does not reach a 2.0 but the semester average in the BSBA Core courses is a 2.0 or higher, then the student will remain on academic alarm and be able to continue within the SCB.

SCB Termination

While on academic alarm within the Strome College of Business, if the semester BSBA Core GPA falls below a 2.0, the student will be terminated from the SCB and their major coding will be changed from Business to Undecided. (Terminations will not be processed in summer semesters.)

Appeals

If you have been terminated, you may appeal the decision if you have extenuating circumstances and documentation to support your claim. To appeal, write a letter and include documentation of your circumstances to the Associate Dean of the Strome College of Business (Constant Hall, Suite 2004). There are specific details that need to be included with your appeal - for more information, please see the appeals process as described in the most recently issued catalog.

Guidelines for Filing a BSBA Termination Appeal

1. All students have the right to appeal their BSBA termination if they believe that extraordinary circumstances were the main reason for their poor academic performance. Notifications of pending BSBA termination are sent to the student's ODU email address and include information on the appeal process and deadlines. All BSBA termination appeals must be submitted electronically using the link provided in the email and will be reviewed by the SCB Termination Appeal Committee. Students are responsible for submitting their appeal by the stated deadline; late appeals will not be reviewed. Decisions of the Termination Appeal Committee may be appealed to the Associate Dean for Academic Programs in the Strome College of Business whose decision is final.
2. Appeals must be based on circumstances pertinent to the semesters in which the academic difficulty occurred that were beyond the control of the student and for which official withdrawal from the course(s) was not an option. Appeal letters must be legible and authored by the terminated student. The appeal letter must provide sufficient detail and explanation regarding the following points because there is no face-to-face meeting

with the Associate Dean for Academic Programs in the Strome College of Business. The decision of the Associate Dean is final. Students without documentation will not be allowed to appeal their termination. In order to be reviewed, an appeal letter must:

- Document the extraordinary circumstances such as a death in the family, medical complications or chronic conditions, personal or family emergency, overwhelming work schedules, dorm-mate conflict, or a personal relationship conflict that have adversely affected performance: i.e., a statement or letter from a physician, employer, family members, faculty, academic advisor, Counseling Services, or Educational Accessibility.
 - Explain how the extraordinary circumstances caused each semester of poor academic performance.
 - State the reasons why an official withdrawal was not requested.
 - Explain how the extraordinary circumstance(s) has been resolved.
 - Provide a plan of action to return to good BSBA academic standing.
3. Students who do not file a BSBA termination appeal or whose appeals are denied, are no longer eligible to pursue a bachelor's degree in Business Administration. Upon BSBA termination, the student's major in the Strome College of Business will be removed. (This does not affect a declared second major outside of the BSBA.) These students are advised to work with an advisor in the SCB Center for Undergraduate Advising to explore other major options, and for referrals to other advising departments for a new major declaration.
4. BSBA-terminated students who had pre-registered for a subsequent semester lose eligibility for continued enrollment in upper-level business courses.

Applying for Readmission to the BSBA Program

After a minimum of five years has passed since a student was terminated from the BSBA program, the student may apply for readmission to the program. There must be a high probability the student will successfully complete the degree program, and approval will be at the discretion of the Strome College of Business Associate Dean.

Requirements

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6
Oral Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#oral)	3
Mathematics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#math)	3
Language and Culture (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#language)	0-6
Information Literacy and Research (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#information)	3
Human Behavior (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#behavior)	3
Human Creativity (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#creativity)	3
Interpreting the Past (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#interpret)	3
Literature (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#literature)	3
Philosophy and Ethics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#philosophy)	3
The Nature of Science (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#nature)	8
Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

Oral Communication: COMM 101R or MKTG 200R required. Additionally, all students majoring in business administration can expect to complete several courses in which individual and/or group oral presentations will be required.

Mathematics: MATH 162M and MATH 200 required.

Information Literacy and Research: IT 150G (recommended) or any "G" course from the approved general education information literacy and research course list.

Human Behavior: Met in the Business Administration core for all majors except Economics.

Philosophy and Ethics must be satisfied by completion of either PHIL 230E or an upper-level "E" course from the approved general education ethics course list. A philosophy course designated with a P will not meet this requirement for business administration students with the exception of a "P" course taken prior to fall 2010.

Impact of Technology requirement is satisfied within each BSBA degree major except Information Systems and Technology by IT 360T. In the Information Systems and Technology majors (excluding Business Analytics), the Impact of Technology requirement is satisfied by the coursework required for the major.

Transfer students with an applicable associate's degree from a Virginia Community College or another community college that has a seamless transfer agreement with ODU, and students with a prior bachelor's degree from another university, must nevertheless have a grade of C or better in the following to be able to transfer them:

COMM 101R	Public Speaking	3
or MKTG 200R	Professional Interactions and Negotiations	
PHIL 230E	Introduction to Ethics (Or an upper-level ethics course)	3
ENGL 211C	Writing, Rhetoric, and Research	3
or ENGL 231C	Writing, Rhetoric, and Research: Special Topics	
MATH 162M	Precalculus I	3
MATH 200	Calculus for Business and Economics	3

Upper-Division General Education

- Option A. Any University-approved minor, second degree, or second major.
- Option B. An interdisciplinary minor consisting of 12 credits, three of which can be in the major. Interdisciplinary minors are described in the University Catalog section labeled Requirements for Undergraduate Degrees, Upper-Division Requirements.
- Option C. An approved certification program, such as teaching licensure.
- Option D. Two Upper-Division Courses from outside the Strome College of Business and not required by the major (6 credits).

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Business Administration Core

ACCT 201	Principles of Financial Accounting *	3
ACCT 202	Principles of Managerial Accounting *	3
BNAL 206	Business Analytics I *	3
BNAL 306	Business Analytics II	3
ECON 201S	Principles of Macroeconomics *	3
ECON 202S	Principles of Microeconomics *	3
ECON 301	Managerial Economics	3
FIN 323	Introductory Financial Management	3
FIN 331	Legal Environment of Business	3
IT 360T	Principles of Information Technology **	3
MGMT 325	Contemporary Organizations and Management	3
MGMT 485W	Business Policy and Strategy (C or better) ***	3
MKTG 311	Marketing Principles and Problems	3
OPMT 303	Operations Management	3
Total Credit Hours		42

*	Not automatically waived for transfer students with an applicable associate's degree from a Virginia Community College or another acceptable community college, or for students with a prior bachelor's degree from another university. A grade of C or better must be earned to transfer these courses to Old Dominion University.
**	Students completing a major or minor in Information Systems and Technology (excluding the Business Analytics major) do not take this course.
***	Students majoring in Economics must complete MGMT 485W, but meet the writing intensive requirement by earning a grade of C or better either in MGMT 485W or in one of the ECON Writing Intensive courses.

International Business Major

General Education

Complete lower-division requirements		35-41
Complete upper-division requirements (minimum of 6 credit hours)		6

MGMT 463	Management Seminar Abroad	
FIN 435	International Financial Management	
POLS 325W	World Politics	

Total Credit Hours	111-117

Elective Credit

Elective credit may be needed to meet the minimum 120 credit hours required for the degree.

Additional Requirements and Information

Advanced Placement

The college accepts advanced placement credit in accordance with the rules and regulations outlined in the Academic Information section of this catalog. Students may take College-Level Examination Program (CLEP) tests to receive credit for:

ACCT 201	Principles of Financial Accounting	3
ACCT 202	Principles of Managerial Accounting	3
ECON 201S	Principles of Macroeconomics	3
ECON 202S	Principles of Microeconomics	3
FIN 331	Legal Environment of Business	3
MGMT 325	Contemporary Organizations and Management	3
MKTG 311	Marketing Principles and Problems	3

Students are advised to contact the Office of Prior Learning Assessment for more information regarding CLEP and other prior learning assessment credit options. For advanced placement credit in any other business or public administration course, students are advised to contact the chair of the department offering the course. Additional information about credit awarded for qualifying scores on AP and IB subject examinations can be found on the ODU website: <https://www.odu.edu/academics/academic-records/score-analysis/ap-ib> (<https://www.odu.edu/academics/academic-records/score-analysis/ap-ib/>).

Practical Work Experience for Business Administration Majors

Students may complement their major studies with a practical work experience, which may take the form of an internship, cooperative education experience or a class containing a real-world, hands-on project. Students must apply for internship or co-op participation through the Strome College of Business Career & Leadership Development Satellite Office. All work experiences must be approved by the faculty sponsor in the appropriate department prior to registering for credit. Students may not earn credit for previous or current work experiences. (However, academic credit for work experience may be approved in accordance with the policies for granting prior learning credit as defined in the section on Prior Learning Assessment Credit Options at the Undergraduate Level in this catalog.) For details see the Center for Career & Leadership Development section of this catalog.

Use of Internship and Similar Hours Toward Business Administration Majors

A student may apply no more than six hours of cooperative education, student internship or practicum courses to satisfy degree requirements. Students may not use more than three hours of cooperative education, student internship or practicum courses to satisfy major elective requirements in each of the students' majors. These courses are numbered 367, 368 or 369. Additional hours of cooperative education, student internship or practicum courses, however, can be used to satisfy other requirements such as free electives or general business electives. Additional internships must each involve substantially different kinds of work experiences. Internships must be approved by the Chief Departmental Advisor of the student's major and the CAP Coordinator of the internship.

Transfer of the Associate of Science in Business Administration Towards Degree Requirements

Students transferring to the college must complete a minimum of 10 business courses offered by the college to earn the degree from Old Dominion University, in accordance with AACSB regulations. Those transfer students holding the Associate of Science in Business Administration degree from a Virginia Community College must earn the grade of "C" or better in the following courses in order to satisfy requirements found in the first two years of the BSBA degree:

COMM 101R	Public Speaking	3
ENGL 211C	Writing, Rhetoric, and Research	3
or ENGL 231C	Writing, Rhetoric, and Research: Special Topics	
MATH 162M	Precalculus I	3
MATH 200	Calculus for Business and Economics	3
ACCT 201	Principles of Financial Accounting	3
ACCT 202	Principles of Managerial Accounting	3
ECON 201S	Principles of Macroeconomics	3
ECON 202S	Principles of Microeconomics	3
BNAL 206	Business Analytics I	3
Select one of the following:		3
PHIL 230E	Introduction to Ethics	
Upper-level ethics course		

With the exception of the courses listed above, the University's lower-division General Education requirements are deemed satisfied by the accepted AS degrees. These typically include all AS degrees from the Virginia Community College System except the applied science degrees. For more information about accepted AS degrees contact the Office of Admissions. Associate degree holders, although meeting lower-level General Education requirements, must ensure that 120 credits are completed to earn the BSBA degree. A minimum of 25% of the required credit hours must be completed through Old Dominion University, at least 12 of which are upper-level courses in the major program.

The Strome College of Business does not accept courses completed at the freshman and sophomore levels at other institutions for required courses at the junior and senior level at Old Dominion University. Please see the section on CLEP credits (Prior Learning Assessment Credit Options at the Undergraduate Level) for additional information.

Grade Average Requirements for Graduation

To graduate with a Bachelor of Science in Business Administration degree, students must present a minimum of 120 hours with a minimum overall grade point average of 2.00 in all courses taken at Old Dominion University. Students must also attain a minimum overall grade point average of 2.00 in courses taken toward the major (courses included in the major grade point average calculation are listed following the description of each major's course work).

Additionally, students must attain a minimum overall grade point average of 2.00 in the BSBA Core listed below. Only courses completed at Old Dominion University will be used to compute the BSBA Core average. Students with an Information Systems and Technology major (excluding Business Analytics) are not required to take IT 360T, so the BSBA Core grade point average is computed using the remaining courses. If the BSBA Core average is below the required 2.00 minimum, students are advised to utilize the Grade Forgiveness Policy or Adjusted Resident Credit option when appropriate to improve the grade point average.

Requirements for Completing a Bachelor of Science in Business Administration

The following sections show the courses that are requirements for all business students, regardless of the chosen major: Lower-Division General Education, BSBA Core Courses, and Upper-Division General Education. Credit hours are listed after the course title. The student must also choose a major and complete the requirements listed for that major on the following pages.

Foundation Courses for Admission to the Strome College of Business

ENGL 110C	English Composition (C or better)	3
MATH 162M	Precalculus I (C or better)	3
ACCT 201	Principles of Financial Accounting (C or better)	3
ECON 202S	Principles of Microeconomics (C or better)	3
BUSN 110	Introduction to Contemporary Business *	1

* Not required for students pursuing an Information Systems and Technology major (excluding Business Analytics) or for students with an associate's degree in business administration or with a prior bachelor's degree in business administration.

See the section on Admission to the Undergraduate Program in Business Administration, General Requirements.

Business Elective

A business elective is a course that is offered by an accredited college of business, including the Strome College of Business at Old Dominion University. Public Affairs and Service (PAS) courses offered by the Strome College of Business are not considered as business courses. However, because some business courses cannot be used to satisfy the requirements of certain majors, students must refer to their specific degree program requirements to make sure that they complete appropriate business elective courses. For example, ECON 200S cannot be used to satisfy an elective requirement for students majoring in business administration. Also, IT 360T cannot be used as an elective by students majoring in Information Systems and Technology. Refer to the course description section of this Catalog for full details of courses and their prerequisites.

Free Elective

In the majority of cases a free elective is any course offered by an accredited community college or university, including Old Dominion University. However, because some courses cannot be used to satisfy the requirements of certain majors, students must refer to their specific degree program requirements to make sure that they complete appropriate elective courses. For example, ECON 200S cannot be used to satisfy an elective requirement for students majoring in business administration. Also, IT 360T cannot be used as an elective by students majoring in Information Systems and Technology. Refer to the course description section of this Catalog for full details of courses and their prerequisites.

Degree Program Guide

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

BSBA to MBA (Master of Business Administration) Linked Program

Students interested in the program should contact the MBA Program Office as early as possible to discuss their plans for early entry. Once admitted to the program, the MBA program manager will act as the student's co-advisor, along with the chief departmental advisor or chief discipline advisor in the student's undergraduate major. The MBA Program Office is located in 1026 Constant Hall. The phone number is 757-683-3585 and email is mbainfo@odu.edu.

BSBA to MPA (Master of Public Administration) Linked Program

The linked BSBA to MPA program provides qualified Old Dominion University undergraduate students with the opportunity to earn a master's degree in public administration while taking 12 credits of the MPA program as an undergraduate student. The program is designed for highly motivated students with the desire to immediately continue their education after the bachelor's degree. The program is especially relevant to individuals seeking to work (or currently working) in the public or non-profit sectors, but is suitable for students from any undergraduate major. Graduate courses may be taken during the fall and spring semester of the student's senior undergraduate year. After receiving the undergraduate degree, a student will continue with the MPA program, taking MPA courses until completing the required 39 credit hours. Students in the linked program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Admission Requirements

A potential candidate will have:

1. Completed all lower level general education requirements
2. Achieved a cumulative GPA of at least 3.0 at the end of the junior year

Requirements for admission to the graduate program can be found in the School of Public Service section of the Graduate Catalog. For additional information, please contact the School of Public Service in the Strome College of Business.

Minor Entrepreneurship Minor

Chair of Management Department:

Shaomin Li
SLi@odu.edu

Faculty Advisor & Entrepreneurship Area Coordinator:

Karen Eagle
KEagle@odu.edu

The entrepreneurship interdisciplinary minor is intended to prepare students to solve business and social problems by creating new ventures within or outside existing organizations. A minor in entrepreneurship allows students to practice their own creative talents while applying fundamental business concepts. Students learn to embrace uncertainty, overcome challenges,

create value, and develop an entrepreneurial mindset to make a difference in the world and in the marketplace. Courses give students the information, abilities, and entrepreneurial spirit necessary to start their own businesses, take on leadership roles in already-existing enterprises, manage small and family-owned firms, and approach difficult problems with new perspectives, making them more equipped to handle the demands of the modern economy, which is fast-paced and unpredictable, and where success is determined by the ability to see opportunities, innovate, and move quickly to market.

The interdisciplinary minor requires 12 credit hours of 300/400-level courses selected from at least two different disciplines with a maximum of six credits from any one discipline. For completion of the interdisciplinary minor, students must have a minimum overall cumulative grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of lower-level courses and prerequisite courses. At least six hours of upper-level courses must be taken through courses offered by Old Dominion University. Three credit hours may be in the major, if a major course is listed as an option for the interdisciplinary minor. As such, it will be credited toward both the major and the interdisciplinary minor.

Requirements

ENTR 201S is a prerequisite for the minor and is not included in the calculation of the grade point average for the minor. Requirements for the minor are completion of 12 hours from the following,

ENTR 301	Fundamentals of Entrepreneurship	3
Functional Expertise: Select two of the following:		6
ACCT 300	Accounting for Entrepreneurs	
COMM 305	Work-Life Communication	
COMM 351	Interpersonal Communication in Organizations	
ENMA 401	Project Management	
ENMA 421	Decision Techniques in Engineering	
ENTR 410	Small Business Management	
ENTR 440	Digital Entrepreneurship: New Venture Creation	
FIN 323	Introductory Financial Management	
HLSC 440	Finance and Budgeting in Healthcare	
HNRS 401	Social Entrepreneurship	
MGMT 336	International Entrepreneurship	
MGMT 340	Human Resource Management	
MGMT 420	Business Development	
MGMT 424	Technology and Innovation Management	
MGMT 452	Negotiations and Change Management	
MKTG 311	Marketing Principles and Problems	
MKTG 316	Professional Selling	
MKTG 450	Marketing on the Internet	
MKTG 455	Social Media Marketing	
PSYC 344	Human Factors	
PRTS 441	Marketing of Hospitality Services	
SMGT 414	Sport Marketing	
Capstone-Project Course: Select one of the following:		3
ENTR 490	Entrepreneurship Capstone	
ENTR 368	Entrepreneurship Internship	
ENTR 498	Tutorial Work in Special Topics in Entrepreneurship	
ENMA 410	Agile Project Management	
SEPS 480	Senior Project: Merchandise Retailing	
Total Credit Hours		12

Minor International Business Minor

Web Site: <https://www.odu.edu/business/international-business> (<https://www.odu.edu/business/international-business/>)

Chair of Management Department:
Shaomin Li
SLi@odu.edu

International Business Area Coordinator:
Robert Pidduck
RPidduck@odu.edu

A minor in International Business (IB) provides students with the tools to succeed in today’s global environment. The business arena in which the College’s graduates will be working is no longer local, regional or national in nature. It is international and requires an understanding and sensitivity to different cultures and business environments. Students seeking the Bachelor of Science in Business Administration may also minor in International Business.

Requirements

Students seeking the Bachelor of Science in Business Administration may also minor in international business by completing the following courses:

ECON 450	International Economics	3
FIN 435	International Financial Management	3
MKTG 411	Multi-National Marketing	3
Select one of the following:		3
INBU 368	Internship in International Business	
INBU 436	International Business Law	
INBU 437	International Human Resource Management	
INBU 438	Globalization and International Trade	
INBU 450	Global Business	
MGMT 462	Comparative International Management	
MGMT 463	Management Seminar Abroad	
Total Credit Hours		12

For completion of the minor, a student must have a minimum overall cumulative grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of 100/200-level courses and prerequisite courses and complete a minimum of six hours in upper-level courses in the minor through courses offered by Old Dominion University.

Minor Management Minor

Web Site: <https://www.odu.edu/academics/programs/minor/management> (<https://www.odu.edu/academics/programs/minor/management/>)

Chair of Management Department:
Shaomin Li
SLi@odu.edu

Chief Departmental Advisor and Management Area Coordinator:
Jennifer Klingner
JLKlinge@odu.edu

Faculty Advisor and Entrepreneurship Area Coordinator:
Karen Eagle
KEagle@odu.edu

A management minor is suitable for students who want to complement their major with “soft skills.” Surveys of employers have frequently found they prefer to recruit graduates with leadership, communication, entrepreneurial, and strategic thinking skills. A minor in Management (MGMT) is focused on understanding how people make things happen in the world. This minor provides students with a broad overview of how to work within and manage

companies, non-profits, and other teams. A variety of management elective options give students an opportunity to pursue their interests and focus in areas such as Human Resource Management, General Management, International Business, and/or Entrepreneurship.

Requirements

A minor in management requires the completion of MGMT 325 plus 12 hours of 300- or 400-level management or entrepreneurship courses except for MGMT 485W. All courses selected must be preceded by listed prerequisites. For completion of a minor, a student must have a minimum overall cumulative grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of prerequisite courses. In addition, a grade of C- or better is required in all management and entrepreneurship courses counted toward the minor. A minimum of six hours in upper-level courses in the minor must be taken through courses offered by Old Dominion University.

MGMT 325	Contemporary Organizations and Management	3
Select four of the following MGMT or ENTR Electives:		12
MGMT 327	Business Communication	
MGMT 330	Organizational Behavior	
MGMT 336	International Entrepreneurship	
MGMT 340	Human Resource Management	
MGMT 350	Employee Relations Problems and Practices	
MGMT 360	Labor Management Relations	
MGMT 361	International Business Operations	
MGMT 368	Management Internship	
MGMT 410	Leadership in Organizations	
MGMT 417	Employment Law	
MGMT 418	Advanced Human Resource Management: Contemporary Issues	
MGMT 420	Business Development	
MGMT 424	Technology and Innovation Management	
MGMT 427	Business and Society	
MGMT 430	Compensation Management	
MGMT 440	Human Resource Staffing Strategies	
MGMT 450	Performance Measurement and Management	
MGMT 452	Negotiations and Change Management	
MGMT 460	Human Resource Analytics	
MGMT 462	Comparative International Management	
MGMT 463	Management Seminar Abroad	
MGMT 465	SHRM Learning System	
MGMT 490	Management Consulting	
MGMT 495	Selected Topics in Management	
ENTR 301	Fundamentals of Entrepreneurship	
ENTR 410	Small Business Management	
ENTR 440	Digital Entrepreneurship: New Venture Creation	

Certificate

Entrepreneurship Certificate

The certificate in entrepreneurship offers a focus on business creation in a variety of fields. Students will be provided with tools that support the establishment of new ventures, including resource management, analytical processes, and other factors that contribute to the development of new organizations. Students will be required to complete a foundational course that will introduce them to the concepts and practical work required in entrepreneurial ventures. They will also complete a capstone course that covers the creation, structure and management of new organizations. Students will also complete two courses from areas that align with their major or new business interest. Students who complete the certificate will be able to take ideas and mold them into the foundation of a new

business, regardless of career selection. They will also gain a heightened understanding of critical thinking in support of establishing new ventures.

An overall grade point average of 2.0 or above in all courses specified as a requirement for the certificate is required for the award of the certificate. Students must complete a minimum of six hours in upper-level courses required for the certificate through courses offered by Old Dominion University.

Programs

Bachelor of Science in Business Administration Programs

- Marketing Management with a Major in Digital Marketing (BSBA) (p. 468)
- Marketing Management with a Major in Marketing (BSBA) (p. 463)
- Marketing Management with a Major in Marketing Analytics and Research (BSBA) (p. 474)
- Marketing Management with a Major in Professional Sales (BSBA) (p. 480)

Minor Program

- Marketing Minor (p. 468)
- Marketing-Digital Marketing Minor (p. 474)
- Marketing-Marketing Analytics Minor (p. 480)
- Marketing-Professional Sales Minor (p. 486)

Bachelor of Science in Business Administration Marketing Management with a Major in Marketing (BSBA)

Chuanyi Tang, Chair
Michelle Carpenter, Chief Departmental Advisor

From building iconic brands to understanding why people buy what they buy, marketing is the exciting interface between companies and their customers and other stakeholders. It builds valuable relationships for companies and makes them more competitive in the marketplace. The marketing management degree program teaches students marketing, communication, and analytical knowledge and prepares students for high-demand marketing career opportunities in today's and tomorrow's global environment.

The marketing management degree program offers a general marketing major and three distinctive career-oriented majors:

1. Digital marketing major, which equips graduates with the knowledge base and skill set to leverage digital marketing platforms such as social media and search engines;
2. Marketing analytics and research major, which produces graduates for fast-growing career opportunities in the field of deriving deep customer insight and effective marketing strategy from data; also suitable for students interested in pursuing a graduate degree in marketing or related areas;
3. Professional sales major, which prepares graduates for a successful career in business-to-business sales.

For completion of a major under marketing management, a student must have a minimum overall cumulative grade point average of 2.00 in all courses taken toward the major. In addition, a grade of C- or better is required in all marketing courses counted toward the major. A student who seeks a Bachelor of Science in Business Administration degree in one of the marketing management majors from Old Dominion University must, in addition to meeting other requirements of the University, earn a minimum of 25 percent of the total number of credits required for the degree (for example, 30 credits in a 120-credit degree program) through on- or off-campus instruction. This must include a minimum of 12 credit hours of upper-level MKTG courses.

Strome College of Business (SCB) Center for Undergraduate Advising and Student Success

The mission of this office is to challenge and support students in self-exploration and, through advising, provide resources for them to develop an achievable plan for success. Our vision is for students to be aware of their academic, personal, and professional goals; empowered to pursue them; and confident in their ability to accomplish them.

Our professional advisors work with all Strome College of Business students regarding degree planning, changing majors, admissions, continuance, graduation requirements and required curricula for the majors and minors offered by the College.

Degree Requirements

Students in all of the Bachelor of Science in Business Administration degree programs must fulfill the University General Education requirements (including foreign language) as well as the Strome College of Business's

core, major, and elective requirements. Students must choose at least one major area to meet requirements towards the degree.

To stay in compliance with AACSB accreditation standards, students receiving a Bachelor of Science in Business Administration from Old Dominion University must complete at least half of their business course work in residence with a minimum of four courses in their declared major. This equates to 10 business classes, thus meeting the University's residency requirement as well.

Majors in the college may not take business and public administration courses for pass/fail credit except those courses in which pass/fail is the only grading option (i.e., internships and practica).

Admission to the Undergraduate Program in Business Administration

General Requirements

Applicants for admission to the undergraduate degree program in business administration (the Bachelor of Science in Business Administration) should apply initially to the Office of Admissions of Old Dominion University. Students cannot be accepted into business administration without first being admitted to the University. Admission to the University does not guarantee admission to the Bachelor of Science in Business Administration (BSBA) program. Candidates for admission to the BSBA program should indicate on the application to the University their intention to enter the undergraduate business administration degree program.

Admission to the Bachelor's Degree Program in Business Administration:

Before Admission to the bachelor's degree program in business administration can be granted, a student must have earned a grade of C or higher in each of the business Admission courses:

BUSN 110	Introduction to Contemporary Business	1
ENGL 110C	English Composition	3
MATH 162M	Precalculus I	3
ACCT 201	Principles of Financial Accounting	3
ECON 202S	Principles of Microeconomics	3

- BUSN 110 is not required for students pursuing majors under the BSBA in Information Systems and Technology (excluding Business Analytics) or for any student with an associate's degree in business administration or with a prior bachelor's degree in business administration.
- Students may utilize the Grade Forgiveness Policy for the business Admission courses.
- Transfer students may complete business Admission courses (BUSN 110, ENGL 110C, MATH 162M, ACCT 201, and ECON 202S) at another accredited college or university, but are responsible for having Transfer Evaluation Services determine that the courses are acceptable to the University.

Eligibility to Enroll in Upper-Level (300/400-level) Business Courses

Only students who have officially completed Admission courses to the BSBA program will be eligible to enroll in upper-level (300/400) business courses (refer to exceptions for non-business majors). However, students who are in progress with the business Admission courses may enroll in upper-level (300/400) business courses. Note: These students will need a Program Restriction Waiver (PRW) to enroll in these courses, with the exception of FIN 323, MGMT 325, MKTG 311, and OPMT 303. These courses require a junior class standing for registration.

Enrollment in 300/400-level Business Courses by Non-Business Majors

Enrollment in 300/400-level business courses will be granted without the Admission courses for the following exceptions:

1. Students pursuing a declared minor in the Strome College of Business may enroll in 300/400-level business courses appropriate to the minor.
2. Students pursuing Upper-Division General Education Requirement Option B: Interdisciplinary Minor or Option D: Six hours of elective upper-division courses outside the student's major discipline or college.
3. Students wishing to satisfy the Impact of Technology requirement may enroll in IT 360T.
4. Students pursuing a degree program other than the Bachelor of Science in Business Administration (BSBA) that requires or accepts specific 300/400-level business courses to complete the degree may enroll in the courses appropriate to the major.
5. Non-degree-seeking students may enroll in 300/400-level business courses if they have satisfied the prerequisites for these courses.

Students in categories 1 - 5 above who do not have a declared major will need a Program Restriction Waiver (PRW) in order to enroll in any 300/400-level Strome College of Business course (including Economics courses). Forms to request a PRW are available at the Strome College of Business website.

Regulations for Continuance in the Bachelor of Science in Business Administration

In addition to the Old Dominion University continuance policies, the following policies are specific to all declared Bachelor of Science in Business Administration (BSBA) students. The Strome College of Business makes a reasonable effort to notify undergraduate students who are not in good academic standing in the BSBA program of their academic status. Each undergraduate student who is placed on BSBA Academic Alarm or BSBA Termination (explained below) will be sent an e-mail message to that effect at the student's Old Dominion University e-mail address, in accordance with the Electronic Communication Policy for Official University Business. Non-receipt of the e-mail messages by a student will not be considered grounds for granting exceptions or delays in enforcement of the BSBA continuance regulations.

BSBA Continuance Regulations

If a student's Grade Point Average (GPA) in their BSBA Core courses falls below a 2.0, then they will be on Academic Alarm within the Strome College of Business (SCB). This policy is very similar to the University's academic continuance policy, the main difference being that it is based on the core Business courses and impacts acceptance and continuance within the SCB.

Academic Alarm

The first semester in which a student's BSBA Core GPA drops to below a 2.0, they will be on Academic Alarm. Once considered on academic alarm within the college, taking courses within the BSBA Core is the only way to bring that GPA back up.

- If the student raises the BSBA Core GPA to above a 2.0, then they will no longer be on academic alarm.
- If the BSBA Core GPA does not reach a 2.0 but the semester average in the BSBA Core courses is a 2.0 or higher, then the student will remain on academic alarm and be able to continue within the SCB.

SCB Termination

While on academic alarm within the Strome College of Business, if the semester BSBA Core GPA falls below a 2.0, the student will be terminated from the SCB and their major coding will be changed from Business to Undecided. (Terminations will not be processed in summer semesters.)

Appeals

If you have been terminated, you may appeal the decision if you have extenuating circumstances and documentation to support your claim. To appeal, write a letter and include documentation of your circumstances to the Associate Dean of the Strome College of Business (Constant Hall, Suite 2004). There are specific details that need to be included with your appeal -

for more information, please see the appeals process as described in the most recently issued catalog.

Guidelines for Filing a BSBA Termination Appeal

1. All students have the right to appeal their BSBA termination if they believe that extraordinary circumstances were the main reason for their poor academic performance. Notifications of pending BSBA termination are sent to the student's ODU email address and include information on the appeal process and deadlines. All BSBA termination appeals must be submitted electronically using the link provided in the email and will be reviewed by the SCB Termination Appeal Committee. Students are responsible for submitting their appeal by the stated deadline; late appeals will not be reviewed. Decisions of the Termination Appeal Committee may be appealed to the Associate Dean for Academic Programs in the Strome College of Business whose decision is final.

2. Appeals must be based on circumstances pertinent to the semesters in which the academic difficulty occurred that were beyond the control of the student and for which official withdrawal from the course(s) was not an option. Appeal letters must be legible and authored by the terminated student. The appeal letter must provide sufficient detail and explanation regarding the following points because there is no face-to-face meeting with the Associate Dean for Academic Programs in the Strome College of Business. The decision of the Associate Dean is final. Students without documentation will not be allowed to appeal their termination. In order to be reviewed, an appeal letter must:

- a. Document the extraordinary circumstances such as a death in the family, medical complications or chronic conditions, personal or family emergency, overwhelming work schedules, dorm-mate conflict, or a personal relationship conflict that have adversely affected performance: i.e., a statement or letter from a physician, employer, family members, faculty, academic advisor, Counseling Services, or Educational Accessibility.
- b. Explain how the extraordinary circumstances caused each semester of poor academic performance.
- c. State the reasons why an official withdrawal was not requested.
- d. Explain how the extraordinary circumstance(s) has been resolved.
- e. Provide a plan of action to return to good BSBA academic standing.

3. Students who do not file a BSBA termination appeal or whose appeals are denied, are no longer eligible to pursue a bachelor's degree in Business Administration. Upon BSBA termination, the student's major in the Strome College of Business will be removed. (This does not affect a declared second major outside of the BSBA.) These students are advised to work with an advisor in the SCB Center for Undergraduate Advising to explore other major options, and for referrals to other advising departments for a new major declaration.

4. BSBA-terminated students who had pre-registered for a subsequent semester lose eligibility for continued enrollment in upper-level business courses.

Applying for Readmission to the BSBA Program

After a minimum of five years has passed since a student was terminated from the BSBA program, the student may apply for readmission to the program. There must be a high probability the student will successfully complete the degree program, and approval will be at the discretion of the Strome College of Business Associate Dean.

Requirements

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6
Oral Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#oral)	3

Mathematics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#math)	3
Language and Culture (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#language)	0-6
Information Literacy and Research (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#information)	3
Human Behavior (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#behavior)	3
Human Creativity (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#creativity)	3
Interpreting the Past (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#interpret)	3
Literature (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#literature)	3
Philosophy and Ethics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#philosophy)	3
The Nature of Science (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#nature)	8
Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

Oral Communication: COMM 101R or MKTG 200R required. Additionally, all students majoring in business administration can expect to complete several courses in which individual and/or group oral presentations will be required.

Mathematics: MATH 162M and MATH 200 required.

Information Literacy and Research: IT 150G (recommended) or any "G" course from the approved general education information literacy and research course list.

Human Behavior: Met in the Business Administration core for all majors except Economics.

Philosophy and Ethics must be satisfied by completion of either PHIL 230E or an upper-level "E" course from the approved general education ethics course list. A philosophy course designated with a P will not meet this requirement for business administration students with the exception of a "P" course taken prior to fall 2010.

Impact of Technology requirement is satisfied within each BSBA degree major except Information Systems and Technology by IT 360T. In the Information Systems and Technology majors (excluding Business Analytics), the Impact of Technology requirement is satisfied by the coursework required for the major.

Transfer students with an applicable associate's degree from a Virginia Community College or another community college that has a seamless transfer agreement with ODU, and students with a prior bachelor's degree from another university, must nevertheless have a grade of C or better in the following to be able to transfer them:

COMM 101R	Public Speaking	3
or MKTG 200R	Professional Interactions and Negotiations	
PHIL 230E	Introduction to Ethics (Or an upper-level ethics course)	3
ENGL 211C	Writing, Rhetoric, and Research	3
or ENGL 231C	Writing, Rhetoric, and Research: Special Topics	
MATH 162M	Precalculus I	3
MATH 200	Calculus for Business and Economics	3

Upper-Division General Education

- Option A. Any University-approved minor, second degree, or second major.
- Option B. An interdisciplinary minor consisting of 12 credits, three of which can be in the major. Interdisciplinary minors are described in the University Catalog section labeled Requirements for Undergraduate Degrees, Upper-Division Requirements.

- Option C. An approved certification program, such as teaching licensure.
- Option D. Two Upper-Division Courses from outside the Strome College of Business and not required by the major (6 credits).

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Business Administration Core

ACCT 201	Principles of Financial Accounting *	3
ACCT 202	Principles of Managerial Accounting *	3
BNAL 206	Business Analytics I *	3
BNAL 306	Business Analytics II	3
ECON 201S	Principles of Macroeconomics *	3
ECON 202S	Principles of Microeconomics *	3
ECON 301	Managerial Economics	3
FIN 323	Introductory Financial Management	3
FIN 331	Legal Environment of Business	3
IT 360T	Principles of Information Technology **	3
MGMT 325	Contemporary Organizations and Management	3
MGMT 485W	Business Policy and Strategy (C or better) ***	3
MKTG 311	Marketing Principles and Problems	3
OPMT 303	Operations Management	3
Total Credit Hours		42

* Not automatically waived for transfer students with an applicable associate's degree from a Virginia Community College or another acceptable community college, or for students with a prior bachelor's degree from another university. A grade of C or better must be earned to transfer these courses to Old Dominion University.

** Students completing a major or minor in Information Systems and Technology (excluding the Business Analytics major) do not take this course.

*** Students majoring in Economics must complete MGMT 485W, but meet the writing intensive requirement by earning a grade of C or better either in MGMT 485W or in one of the ECON Writing Intensive courses.

Marketing - General Major*

General Education

Complete lower-division requirements		35-41
Complete upper-division requirements (minimum of 6 credit hours)		6
BUSN 110	Introduction to Contemporary Business **	1
MATH 200	Calculus for Business and Economics	3

Business Administration Core

Complete business administration core requirements	42

Marketing - General Major

MKTG 402	Consumer Behavior	3
MKTG 407	Marketing Research	3
MKTG 411	Multi-National Marketing	3
MKTG 490	Marketing Policy and Strategy	3
Select four from the following:		12
MKTG 316	Professional Selling	
MKTG 367	Cooperative Education	
MKTG 368	Marketing Internship	
MKTG 369	Practicum	
MKTG 403	Advertising Strategy	
MKTG 404	Sales Management	
MKTG 406	Public Relations	
MKTG 412	Retail Marketing	
MKTG 414	Ethics and Social Issues in Administration	
MKTG 417	Advanced Professional Selling	
MKTG 428	Marketing of Services	
MKTG 450	Marketing on the Internet	
MKTG 455	Social Media Marketing	
MKTG 460	Web Analytics	
MKTG 475	Marketing Analytics	
MKTG 496	Selected Topics in Marketing	
200-400 Level Free Elective		3
Free Electives		6
Total Credit Hours		120-126

- * A grade of C- or better is required in all marketing courses counted toward the major. A grade of C or better is required in MKTG 311 as a prerequisite to upper-level MKTG courses.
- ** Not required for students pursuing the IT major or for any student with an associate's degree in business administration or with a prior bachelor's degree in business administration.

All 300-400 level MKTG courses, except for MKTG 311, are included in the calculation of the 2.00 overall grade point average for major course work for graduation.

Additional Requirements and Information

Advanced Placement

The college accepts advanced placement credit in accordance with the rules and regulations outlined in the Academic Information section of this catalog. Students may take College-Level Examination Program (CLEP) tests to receive credit for:

ACCT 201	Principles of Financial Accounting	3
ACCT 202	Principles of Managerial Accounting	3
ECON 201S	Principles of Macroeconomics	3
ECON 202S	Principles of Microeconomics	3
FIN 331	Legal Environment of Business	3
MGMT 325	Contemporary Organizations and Management	3
MKTG 311	Marketing Principles and Problems	3

Students are advised to contact the Office of Prior Learning Assessment for more information regarding CLEP and other prior learning assessment credit options. For advanced placement credit in any other business or public administration course, students are advised to contact the chair of the department offering the course. Additional information about credit awarded for qualifying scores on AP and IB subject examinations can be found on the ODU website: <https://www.odu.edu/academics/academic-records/score-analysis/ap-ib> (<https://www.odu.edu/academics/academic-records/score-analysis/ap-ib/>).

Practical Work Experience for Business Administration Majors

Students may complement their major studies with a practical work experience, which may take the form of an internship, cooperative education experience or a class containing a real-world, hands-on project. Students must apply for internship or co-op participation through the Strome College of Business Career & Leadership Development Satellite Office. All work experiences must be approved by the faculty sponsor in the appropriate department prior to registering for credit. Students may not earn credit for previous or current work experiences. (However, academic credit for work experience may be approved in accordance with the policies for granting prior learning credit as defined in the section on Prior Learning Assessment Credit Options at the Undergraduate Level in this catalog.) For details see the Center for Career & Leadership Development section of this catalog.

Use of Internship and Similar Hours Toward Business Administration Majors

A student may apply no more than six hours of cooperative education, student internship or practicum courses to satisfy degree requirements. Students may not use more than three hours of cooperative education, student internship or practicum courses to satisfy major elective requirements in each of the students' majors. These courses are numbered 367, 368 or 369. Additional hours of cooperative education, student internship or practicum courses, however, can be used to satisfy other requirements such as free electives or general business electives. Additional internships must each involve substantially different kinds of work experiences. Internships must be approved by the Chief Departmental Advisor of the student's major and the CAP Coordinator of the internship.

Transfer of the Associate of Science in Business Administration Towards Degree Requirements

Students transferring to the college must complete a minimum of 10 business courses offered by the college to earn the degree from Old Dominion University, in accordance with AACSB regulations. Those transfer students holding the Associate of Science in Business Administration degree from a Virginia Community College must earn the grade of "C" or better in the following courses in order to satisfy requirements found in the first two years of the BSBA degree:

COMM 101R	Public Speaking	3
ENGL 211C	Writing, Rhetoric, and Research	3
or ENGL 231C	Writing, Rhetoric, and Research: Special Topics	
MATH 162M	Precalculus I	3
MATH 200	Calculus for Business and Economics	3
ACCT 201	Principles of Financial Accounting	3
ACCT 202	Principles of Managerial Accounting	3
ECON 201S	Principles of Macroeconomics	3
ECON 202S	Principles of Microeconomics	3
BNAL 206	Business Analytics I	3
Select one of the following:		3
PHIL 230E	Introduction to Ethics	
Upper-level ethics course		

With the exception of the courses listed above, the University's lower-division General Education requirements are deemed satisfied by the accepted AS degrees. These typically include all AS degrees from the Virginia Community College System except the applied science degrees. For more information about accepted AS degrees contact the Office of Admissions. Associate degree holders, although meeting lower-level General Education requirements, must ensure that 120 credits are completed to earn the BSBA degree. A minimum of 25% of the required credit hours must be completed through Old Dominion University, at least 12 of which are upper-level courses in the major program.

The Strome College of Business does not accept courses completed at the freshman and sophomore levels at other institutions for required courses at the junior and senior level at Old Dominion University. Please see the section on CLEP credits (Prior Learning Assessment Credit Options at the Undergraduate Level) for additional information.

Grade Average Requirements for Graduation

To graduate with a Bachelor of Science in Business Administration degree, students must present a minimum of 120 hours with a minimum overall grade point average of 2.00 in all courses taken at Old Dominion University. Students must also attain a minimum overall grade point average of 2.00 in courses taken toward the major (courses included in the major grade point average calculation are listed following the description of each major's course work).

Additionally, students must attain a minimum overall grade point average of 2.00 in the BSBA Core listed below. Only courses completed at Old Dominion University will be used to compute the BSBA Core average. Students with an Information Systems and Technology major (excluding Business Analytics) are not required to take IT 360T, so the BSBA Core grade point average is computed using the remaining courses. If the BSBA Core average is below the required 2.00 minimum, students are advised to utilize the Grade Forgiveness Policy or Adjusted Resident Credit option when appropriate to improve the grade point average.

Requirements for Completing a Bachelor of Science in Business Administration

The following sections show the courses that are requirements for all business students, regardless of the chosen major: Lower-Division General Education, BSBA Core Courses, and Upper-Division General Education. Credit hours are listed after the course title. The student must also choose a major and complete the requirements listed for that major on the following pages.

Foundation Courses for Admission to the Strome College of Business

ENGL 110C	English Composition (C or better)	3
MATH 162M	Precalculus I (C or better)	3
ACCT 201	Principles of Financial Accounting (C or better)	3
ECON 202S	Principles of Microeconomics (C or better)	3
BUSN 110	Introduction to Contemporary Business *	1

* Not required for students pursuing an Information Systems and Technology major (excluding Business Analytics) or for students with an associate's degree in business administration or with a prior bachelor's degree in business administration.

See the section on Admission to the Undergraduate Program in Business Administration, General Requirements.

Business Elective

A business elective is a course that is offered by an accredited college of business, including the Strome College of Business at Old Dominion University. Public Affairs and Service (PAS) courses offered by the Strome College of Business are not considered as business courses. However, because some business courses cannot be used to satisfy the requirements of certain majors, students must refer to their specific degree program requirements to make sure that they complete appropriate business elective courses. For example, ECON 200S cannot be used to satisfy an elective requirement for students majoring in business administration. Also, IT 360T cannot be used as an elective by students majoring in Information Systems and Technology. Refer to the course description section of this Catalog for full details of courses and their prerequisites.

Free Elective

In the majority of cases a free elective is any course offered by an accredited community college or university, including Old Dominion University. However, because some courses cannot be used to satisfy the requirements of certain majors, students must refer to their specific degree program requirements to make sure that they complete appropriate elective courses. For example, ECON 200S cannot be used to satisfy an elective requirement for students majoring in business administration. Also, IT 360T cannot be used as an elective by students majoring in Information Systems and

Technology. Refer to the course description section of this Catalog for full details of courses and their prerequisites.

Degree Program Guide

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

BSBA to MBA (Master of Business Administration) Linked Program

Students interested in the program should contact the MBA Program Office as early as possible to discuss their plans for early entry. Once admitted to the program, the MBA program manager will act as the student's co-advisor, along with the chief departmental advisor or chief discipline advisor

in the student's undergraduate major. The MBA Program Office is located in 1026 Constant Hall. The phone number is 757-683-3585 and email is mbainfo@odu.edu.

BSBA to MPA (Master of Public Administration) Linked Program

The linked BSBA to MPA program provides qualified Old Dominion University undergraduate students with the opportunity to earn a master's degree in public administration while taking 12 credits of the MPA program as an undergraduate student. The program is designed for highly motivated students with the desire to immediately continue their education after the bachelor's degree. The program is especially relevant to individuals seeking to work (or currently working) in the public or non-profit sectors, but is suitable for students from any undergraduate major. Graduate courses may be taken during the fall and spring semester of the student's senior undergraduate year. After receiving the undergraduate degree, a student will continue with the MPA program, taking MPA courses until completing the required 39 credit hours. Students in the linked program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Admission Requirements

A potential candidate will have:

1. Completed all lower level general education requirements
2. Achieved a cumulative GPA of at least 3.0 at the end of the junior year

Requirements for admission to the graduate program can be found in the School of Public Service section of the Graduate Catalog. For additional information, please contact the School of Public Service in the Strome College of Business.

Minor Marketing Minor Requirements Marketing Minor

A minor in marketing requires the completion of MKTG 311 plus 12 hours of 300/400-level marketing courses. All courses selected must be preceded by listed prerequisites. A grade of C or better is required in MKTG 311 as a prerequisite to upper-level MKTG courses.

For completion of a minor, a student must have a minimum overall cumulative grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of prerequisite courses. In addition, a grade of C- or better is required in all marketing courses counted toward the minor. A minimum of six hours in upper-level courses in the minor must be taken through courses offered by Old Dominion University.

Bachelor of Science in Business Administration Marketing Management with a Major in Digital Marketing (BSBA)

Chuanyi Tang, Chair
Michelle Carpenter, Chief Departmental Advisor

From building iconic brands to understanding why people buy what they buy, marketing is the exciting interface between companies and their customers and other stakeholders. It builds valuable relationships for companies and makes them more competitive in the marketplace. The marketing management degree program teaches students marketing, communication, and analytical knowledge and prepares students for high-demand marketing career opportunities in today's and tomorrow's global environment.

The marketing management degree program offers a general marketing major and three distinctive career-oriented majors:

1. Digital marketing major, which equips graduates with the knowledge base and skill set to leverage digital marketing platforms such as social media and search engines;
2. Marketing analytics and research major, which produces graduates for fast-growing career opportunities in the field of deriving deep customer insight and effective marketing strategy from data; also suitable for students interested in pursuing a graduate degree in marketing or related areas;
3. Professional sales major, which prepares graduates for a successful career in business-to-business sales.

For completion of a major under marketing management, a student must have a minimum overall cumulative grade point average of 2.00 in all courses taken toward the major. In addition, a grade of C- or better is required in all marketing courses counted toward the major. A student who seeks a Bachelor of Science in Business Administration degree in one of the marketing management majors from Old Dominion University must, in addition to meeting other requirements of the University, earn a minimum of 25 percent of the total number of credits required for the degree (for example, 30 credits in a 120-credit degree program) through on- or off-campus instruction. This must include a minimum of 12 credit hours of upper-level MKTG courses.

Strome College of Business (SCB) Center for Undergraduate Advising and Student Success

The mission of this office is to challenge and support students in self-exploration and, through advising, provide resources for them to develop an achievable plan for success. Our vision is for students to be aware of their academic, personal, and professional goals; empowered to pursue them; and confident in their ability to accomplish them.

Our professional advisors work with all Strome College of Business students regarding degree planning, changing majors, admissions, continuance, graduation requirements and required curricula for the majors and minors offered by the College.

Degree Requirements

Students in all of the Bachelor of Science in Business Administration degree programs must fulfill the University General Education requirements (including foreign language) as well as the Strome College of Business's core, major, and elective requirements. Students must choose at least one major area to meet requirements towards the degree.

To stay in compliance with AACSB accreditation standards, students receiving a Bachelor of Science in Business Administration from Old Dominion University must complete at least half of their business course work in residence with a minimum of four courses in their declared major. This equates to 10 business classes, thus meeting the University's residency requirement as well.

Majors in the college may not take business and public administration courses for pass/fail credit except those courses in which pass/fail is the only grading option (i.e., internships and practica).

Admission to the Undergraduate Program in Business Administration

General Requirements

Applicants for admission to the undergraduate degree program in business administration (the Bachelor of Science in Business Administration) should apply initially to the Office of Admissions of Old Dominion University. Students cannot be accepted into business administration without first being admitted to the University. Admission to the University does not guarantee admission to the Bachelor of Science in Business Administration (BSBA) program. Candidates for admission to the BSBA program should indicate on the application to the University their intention to enter the undergraduate business administration degree program.

Admission to the Bachelor's Degree Program in Business Administration:

Before Admission to the bachelor's degree program in business administration can be granted, a student must have earned a grade of C or higher in each of the business Admission courses:

BUSN 110	Introduction to Contemporary Business	1
ENGL 110C	English Composition	3
MATH 162M	Precalculus I	3
ACCT 201	Principles of Financial Accounting	3
ECON 202S	Principles of Microeconomics	3

- BUSN 110 is not required for students pursuing majors under the BSBA in Information Systems and Technology (excluding Business Analytics) or for any student with an associate's degree in business administration or with a prior bachelor's degree in business administration.
- Students may utilize the Grade Forgiveness Policy for the business Admission courses.
- Transfer students may complete business Admission courses (BUSN 110, ENGL 110C, MATH 162M, ACCT 201, and ECON 202S) at another accredited college or university, but are responsible for having Transfer Evaluation Services determine that the courses are acceptable to the University.

Eligibility to Enroll in Upper-Level (300/400-level) Business Courses

Only students who have officially completed Admission courses to the BSBA program will be eligible to enroll in upper-level (300/400) business courses (refer to exceptions for non-business majors). However, students who are in progress with the business Admission courses may enroll in upper-level (300/400) business courses. Note: These students will need a Program Restriction Waiver (PRW) to enroll in these courses, with the exception of FIN 323, MGMT 325, MKTG 311, and OPMT 303. These courses require a junior class standing for registration.

Enrollment in 300/400-level Business Courses by Non-Business Majors

Enrollment in 300/400-level business courses will be granted without the Admission courses for the following exceptions:

1. Students pursuing a declared minor in the Strome College of Business may enroll in 300/400-level business courses appropriate to the minor.
2. Students pursuing Upper-Division General Education Requirement Option B: Interdisciplinary Minor or Option D: Six hours of elective upper-division courses outside the student's major discipline or college.
3. Students wishing to satisfy the Impact of Technology requirement may enroll in IT 360T.
4. Students pursuing a degree program other than the Bachelor of Science in Business Administration (BSBA) that requires or accepts specific 300/400-level business courses to complete the degree may enroll in the courses appropriate to the major.
5. Non-degree-seeking students may enroll in 300/400-level business courses if they have satisfied the prerequisites for these courses.

Students in categories 1 - 5 above who do not have a declared major will need a Program Restriction Waiver (PRW) in order to enroll in any 300/400-level Strome College of Business course (including Economics courses). Forms to request a PRW are available at the Strome College of Business website.

Regulations for Continuance in the Bachelor of Science in Business Administration

In addition to the Old Dominion University continuance policies, the following policies are specific to all declared Bachelor of Science in Business Administration (BSBA) students. The Strome College of Business

makes a reasonable effort to notify undergraduate students who are not in good academic standing in the BSBA program of their academic status. Each undergraduate student who is placed on BSBA Academic Alarm or BSBA Termination (explained below) will be sent an e-mail message to that effect at the student's Old Dominion University e-mail address, in accordance with the Electronic Communication Policy for Official University Business. Non-receipt of the e-mail messages by a student will not be considered grounds for granting exceptions or delays in enforcement of the BSBA continuance regulations.

BSBA Continuance Regulations

If a student's Grade Point Average (GPA) in their BSBA Core courses falls below a 2.0, then they will be on Academic Alarm within the Strome College of Business (SCB). This policy is very similar to the University's academic continuance policy, the main difference being that it is based on the core Business courses and impacts acceptance and continuance within the SCB.

Academic Alarm

The first semester in which a student's BSBA Core GPA drops to below a 2.0, they will be on Academic Alarm. Once considered on academic alarm within the college, taking courses within the BSBA Core is the only way to bring that GPA back up.

- If the student raises the BSBA Core GPA to above a 2.0, then they will no longer be on academic alarm.
- If the BSBA Core GPA does not reach a 2.0 but the semester average in the BSBA Core courses is a 2.0 or higher, then the student will remain on academic alarm and be able to continue within the SCB.

SCB Termination

While on academic alarm within the Strome College of Business, if the semester BSBA Core GPA falls below a 2.0, the student will be terminated from the SCB and their major coding will be changed from Business to Undecided. (Terminations will not be processed in summer semesters.)

Appeals

If you have been terminated, you may appeal the decision if you have extenuating circumstances and documentation to support your claim. To appeal, write a letter and include documentation of your circumstances to the Associate Dean of the Strome College of Business (Constant Hall, Suite 2004). There are specific details that need to be included with your appeal - for more information, please see the appeals process as described in the most recently issued catalog.

Guidelines for Filing a BSBA Termination Appeal

1. All students have the right to appeal their BSBA termination if they believe that extraordinary circumstances were the main reason for their poor academic performance. Notifications of pending BSBA termination are sent to the student's ODU email address and include information on the appeal process and deadlines. All BSBA termination appeals must be submitted electronically using the link provided in the email and will be reviewed by the SCB Termination Appeal Committee. Students are responsible for submitting their appeal by the stated deadline; late appeals will not be reviewed. Decisions of the Termination Appeal Committee may be appealed to the Associate Dean for Academic Programs in the Strome College of Business whose decision is final.
2. Appeals must be based on circumstances pertinent to the semesters in which the academic difficulty occurred that were beyond the control of the student and for which official withdrawal from the course(s) was not an option. Appeal letters must be legible and authored by the terminated student. The appeal letter must provide sufficient detail and explanation regarding the following points because there is no face-to-face meeting with the Associate Dean for Academic Programs in the Strome College of Business. The decision of the Associate Dean is final. Students without documentation will not be allowed to appeal their termination. In order to be reviewed, an appeal letter must:

- a. Document the extraordinary circumstances such as a death in the family, medical complications or chronic conditions, personal or family emergency, overwhelming work schedules, dorm-mate conflict, or a personal relationship conflict that have adversely affected performance: i.e., a statement or letter from a physician, employer, family members, faculty, academic advisor, Counseling Services, or Educational Accessibility.
 - b. Explain how the extraordinary circumstances caused each semester of poor academic performance.
 - c. State the reasons why an official withdrawal was not requested.
 - d. Explain how the extraordinary circumstance(s) has been resolved.
 - e. Provide a plan of action to return to good BSBA academic standing.
3. Students who do not file a BSBA termination appeal or whose appeals are denied, are no longer eligible to pursue a bachelor's degree in Business Administration. Upon BSBA termination, the student's major in the Strome College of Business will be removed. (This does not affect a declared second major outside of the BSBA.) These students are advised to work with an advisor in the SCB Center for Undergraduate Advising to explore other major options, and for referrals to other advising departments for a new major declaration.
 4. BSBA-terminated students who had pre-registered for a subsequent semester lose eligibility for continued enrollment in upper-level business courses.

Applying for Readmission to the BSBA Program

After a minimum of five years has passed since a student was terminated from the BSBA program, the student may apply for readmission to the program. There must be a high probability the student will successfully complete the degree program, and approval will be at the discretion of the Strome College of Business Associate Dean.

Requirements

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6
Oral Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#oral)	3
Mathematics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#math)	3
Language and Culture (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#language)	0-6
Information Literacy and Research (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#information)	3
Human Behavior (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#behavior)	3
Human Creativity (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#creativity)	3
Interpreting the Past (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#interpret)	3
Literature (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#literature)	3
Philosophy and Ethics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#philosophy)	3
The Nature of Science (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#nature)	8
Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

Oral Communication: COMM 101R or MKTG 200R required. Additionally, all students majoring in business administration can expect to complete several courses in which individual and/or group oral presentations will be required.

Mathematics: MATH 162M and MATH 200 required.

Information Literacy and Research: IT 150G (recommended) or any "G" course from the approved general education information literacy and research course list.

Human Behavior: Met in the Business Administration core for all majors except Economics.

Philosophy and Ethics must be satisfied by completion of either PHIL 230E or an upper-level "E" course from the approved general education ethics course list. A philosophy course designated with a P will not meet this requirement for business administration students with the exception of a "P" course taken prior to fall 2010.

Impact of Technology requirement is satisfied within each BSBA degree major except Information Systems and Technology by IT 360T. In the Information Systems and Technology majors (excluding Business Analytics), the Impact of Technology requirement is satisfied by the coursework required for the major.

Transfer students with an applicable associate's degree from a Virginia Community College or another community college that has a seamless transfer agreement with ODU, and students with a prior bachelor's degree from another university, must nevertheless have a grade of C or better in the following to be able to transfer them:

COMM 101R	Public Speaking	3
or MKTG 200R	Professional Interactions and Negotiations	
PHIL 230E	Introduction to Ethics (Or an upper-level ethics course)	3
ENGL 211C	Writing, Rhetoric, and Research	3
or ENGL 231C	Writing, Rhetoric, and Research: Special Topics	
MATH 162M	Precalculus I	3
MATH 200	Calculus for Business and Economics	3

Upper-Division General Education

- Option A. Any University-approved minor, second degree, or second major.
- Option B. An interdisciplinary minor consisting of 12 credits, three of which can be in the major. Interdisciplinary minors are described in the University Catalog section labeled Requirements for Undergraduate Degrees, Upper-Division Requirements.
- Option C. An approved certification program, such as teaching licensure.
- Option D. Two Upper-Division Courses from outside the Strome College of Business and not required by the major (6 credits).

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Business Administration Core

ACCT 201	Principles of Financial Accounting *	3
ACCT 202	Principles of Managerial Accounting *	3

BNAL 206	Business Analytics I *	3
BNAL 306	Business Analytics II	3
ECON 201S	Principles of Macroeconomics *	3
ECON 202S	Principles of Microeconomics *	3
ECON 301	Managerial Economics	3
FIN 323	Introductory Financial Management	3
FIN 331	Legal Environment of Business	3
IT 360T	Principles of Information Technology **	3
MGMT 325	Contemporary Organizations and Management	3
MGMT 485W	Business Policy and Strategy (C or better) ***	3
MKTG 311	Marketing Principles and Problems	3
OPMT 303	Operations Management	3
Total Credit Hours		42

- * Not automatically waived for transfer students with an applicable associate's degree from a Virginia Community College or another acceptable community college, or for students with a prior bachelor's degree from another university. A grade of C or better must be earned to transfer these courses to Old Dominion University.
- ** Students completing a major or minor in Information Systems and Technology (excluding the Business Analytics major) do not take this course.
- *** Students majoring in Economics must complete MGMT 485W, but meet the writing intensive requirement by earning a grade of C or better either in MGMT 485W or in one of the ECON Writing Intensive courses.

Digital Marketing Major*

General Education

Complete lower-division requirements		35-41
Complete upper-division requirements (minimum of 6 credit hours)		6

MATH 200	Calculus for Business and Economics	3

Business Administration Core

Complete business administration core requirements	42

Digital Marketing

MKTG 402	Consumer Behavior	3
MKTG 407	Marketing Research	3
MKTG 411	Multi-National Marketing	3
MKTG 450	Marketing on the Internet	3
MKTG 455	Social Media Marketing	3
MKTG 460	Web Analytics	3
MKTG 490	Marketing Policy and Strategy	3

Select one of the following:	3

IT 325	Web Site and Web Page Design
MKTG 367	Cooperative Education
MKTG 368	Marketing Internship
MKTG 369	Practicum
MKTG 406	Public Relations
MKTG 412	Retail Marketing
MKTG 496	Selected Topics in Marketing

200-400 Level Free Elective	3

Free Electives	6

Total Credit Hours	120-126

- * A grade of C- or better is required in all marketing courses counted toward the major. A grade of C or better is required in MKTG 311 as a prerequisite to upper-level MKTG courses.

****** Not required for students pursuing the IT major or for any student with an associate's degree in business administration or with a prior bachelor's degree in business administration.

All 300-400 level MKTG courses, except for MKTG 311, are included in the calculation of the 2.00 overall grade point average for major course work for graduation.

Additional Requirements and Information

Advanced Placement

The college accepts advanced placement credit in accordance with the rules and regulations outlined in the Academic Information section of this catalog. Students may take College-Level Examination Program (CLEP) tests to receive credit for:

ACCT 201	Principles of Financial Accounting	3
ACCT 202	Principles of Managerial Accounting	3
ECON 201S	Principles of Macroeconomics	3
ECON 202S	Principles of Microeconomics	3
FIN 331	Legal Environment of Business	3
MGMT 325	Contemporary Organizations and Management	3
MKTG 311	Marketing Principles and Problems	3

Students are advised to contact the Office of Prior Learning Assessment for more information regarding CLEP and other prior learning assessment credit options. For advanced placement credit in any other business or public administration course, students are advised to contact the chair of the department offering the course. Additional information about credit awarded for qualifying scores on AP and IB subject examinations can be found on the ODU website: <https://www.odu.edu/academics/academic-records/score-analysis/ap-ib> (<https://www.odu.edu/academics/academic-records/score-analysis/ap-ib/>).

Practical Work Experience for Business Administration Majors

Students may complement their major studies with a practical work experience, which may take the form of an internship, cooperative education experience or a class containing a real-world, hands-on project. Students must apply for internship or co-op participation through the Strome College of Business Career & Leadership Development Satellite Office. All work experiences must be approved by the faculty sponsor in the appropriate department prior to registering for credit. Students may not earn credit for previous or current work experiences. (However, academic credit for work experience may be approved in accordance with the policies for granting prior learning credit as defined in the section on Prior Learning Assessment Credit Options at the Undergraduate Level in this catalog.) For details see the Center for Career & Leadership Development section of this catalog.

Use of Internship and Similar Hours Toward Business Administration Majors

A student may apply no more than six hours of cooperative education, student internship or practicum courses to satisfy degree requirements. Students may not use more than three hours of cooperative education, student internship or practicum courses to satisfy major elective requirements in each of the students' majors. These courses are numbered 367, 368 or 369. Additional hours of cooperative education, student internship or practicum courses, however, can be used to satisfy other requirements such as free electives or general business electives. Additional internships must each involve substantially different kinds of work experiences. Internships must be approved by the Chief Departmental Advisor of the student's major and the CAP Coordinator of the internship.

Transfer of the Associate of Science in Business Administration Towards Degree Requirements

Students transferring to the college must complete a minimum of 10 business courses offered by the college to earn the degree from Old Dominion University, in accordance with AACSB regulations. Those transfer students

holding the Associate of Science in Business Administration degree from a Virginia Community College must earn the grade of "C" or better in the following courses in order to satisfy requirements found in the first two years of the BSBA degree:

COMM 101R	Public Speaking	3
ENGL 211C	Writing, Rhetoric, and Research	3
or ENGL 231C	Writing, Rhetoric, and Research: Special Topics	
MATH 162M	Precalculus I	3
MATH 200	Calculus for Business and Economics	3
ACCT 201	Principles of Financial Accounting	3
ACCT 202	Principles of Managerial Accounting	3
ECON 201S	Principles of Macroeconomics	3
ECON 202S	Principles of Microeconomics	3
BNAL 206	Business Analytics I	3
Select one of the following:		3
PHIL 230E	Introduction to Ethics	
Upper-level ethics course		

With the exception of the courses listed above, the University's lower-division General Education requirements are deemed satisfied by the accepted AS degrees. These typically include all AS degrees from the Virginia Community College System except the applied science degrees. For more information about accepted AS degrees contact the Office of Admissions. Associate degree holders, although meeting lower-level General Education requirements, must ensure that 120 credits are completed to earn the BSBA degree. A minimum of 25% of the required credit hours must be completed through Old Dominion University, at least 12 of which are upper-level courses in the major program.

The Strome College of Business does not accept courses completed at the freshman and sophomore levels at other institutions for required courses at the junior and senior level at Old Dominion University. Please see the section on CLEP credits (Prior Learning Assessment Credit Options at the Undergraduate Level) for additional information.

Grade Average Requirements for Graduation

To graduate with a Bachelor of Science in Business Administration degree, students must present a minimum of 120 hours with a minimum overall grade point average of 2.00 in all courses taken at Old Dominion University. Students must also attain a minimum overall grade point average of 2.00 in courses taken toward the major (courses included in the major grade point average calculation are listed following the description of each major's course work).

Additionally, students must attain a minimum overall grade point average of 2.00 in the BSBA Core listed below. Only courses completed at Old Dominion University will be used to compute the BSBA Core average. Students with an Information Systems and Technology major (excluding Business Analytics) are not required to take IT 360T, so the BSBA Core grade point average is computed using the remaining courses. If the BSBA Core average is below the required 2.00 minimum, students are advised to utilize the Grade Forgiveness Policy or Adjusted Resident Credit option when appropriate to improve the grade point average.

Requirements for Completing a Bachelor of Science in Business Administration

The following sections show the courses that are requirements for all business students, regardless of the chosen major: Lower-Division General Education, BSBA Core Courses, and Upper-Division General Education. Credit hours are listed after the course title. The student must also choose a major and complete the requirements listed for that major on the following pages.

Foundation Courses for Admission to the Strome College of Business

ENGL 110C	English Composition (C or better)	3
MATH 162M	Precalculus I (C or better)	3
ACCT 201	Principles of Financial Accounting (C or better)	3

ECON 202S	Principles of Microeconomics (C or better)	3
BUSN 110	Introduction to Contemporary Business *	1

* Not required for students pursuing an Information Systems and Technology major (excluding Business Analytics) or for students with an associate's degree in business administration or with a prior bachelor's degree in business administration.

See the section on Admission to the Undergraduate Program in Business Administration, General Requirements.

Business Elective

A business elective is a course that is offered by an accredited college of business, including the Strome College of Business at Old Dominion University. Public Affairs and Service (PAS) courses offered by the Strome College of Business are not considered as business courses. However, because some business courses cannot be used to satisfy the requirements of certain majors, students must refer to their specific degree program requirements to make sure that they complete appropriate business elective courses. For example, ECON 200S cannot be used to satisfy an elective requirement for students majoring in business administration. Also, IT 360T cannot be used as an elective by students majoring in Information Systems and Technology. Refer to the course description section of this Catalog for full details of courses and their prerequisites.

Free Elective

In the majority of cases a free elective is any course offered by an accredited community college or university, including Old Dominion University. However, because some courses cannot be used to satisfy the requirements of certain majors, students must refer to their specific degree program requirements to make sure that they complete appropriate elective courses. For example, ECON 200S cannot be used to satisfy an elective requirement for students majoring in business administration. Also, IT 360T cannot be used as an elective by students majoring in Information Systems and Technology. Refer to the course description section of this Catalog for full details of courses and their prerequisites.

Degree Program Guide

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

BSBA to MBA (Master of Business Administration) Linked Program

Students interested in the program should contact the MBA Program Office as early as possible to discuss their plans for early entry. Once admitted to the program, the MBA program manager will act as the student's co-advisor, along with the chief departmental advisor or chief discipline advisor in the student's undergraduate major. The MBA Program Office is located in 1026 Constant Hall. The phone number is 757-683-3585 and email is mbainfo@odu.edu.

BSBA to MPA (Master of Public Administration) Linked Program

The linked BSBA to MPA program provides qualified Old Dominion University undergraduate students with the opportunity to earn a master's degree in public administration while taking 12 credits of the MPA program as an undergraduate student. The program is designed for highly motivated students with the desire to immediately continue their education after the bachelor's degree. The program is especially relevant to individuals seeking to work (or currently working) in the public or non-profit sectors, but is suitable for students from any undergraduate major. Graduate courses may be taken during the fall and spring semester of the student's senior undergraduate year. After receiving the undergraduate degree, a student will continue with the MPA program, taking MPA courses until completing the required 39 credit hours. Students in the linked program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Admission Requirements

A potential candidate will have:

1. Completed all lower level general education requirements
2. Achieved a cumulative GPA of at least 3.0 at the end of the junior year

Requirements for admission to the graduate program can be found in the School of Public Service section of the Graduate Catalog. For additional information, please contact the School of Public Service in the Strome College of Business.

Minor Marketing-Digital Marketing Minor

Marketing-Digital Marketing Minor

MKTG 311	Marketing Principles and Problems *	3
MKTG 450	Marketing on the Internet	3
MKTG 455	Social Media Marketing	3
Select one of the following:		3
MKTG 318	AI in Business: Foundations and Applications	
MKTG 319	Artificial Intelligence (AI) in Digital Marketing Management	
MKTG 403	Advertising Strategy	
MKTG 406	Public Relations	
MKTG 460	Web Analytics	
300/400-level marketing course		3
Total Credit Hours		15

* A grade of C or better is required in MKTG 311 as a prerequisite to upper-level MKTG courses.

For completion of a minor, a student must have a minimum overall cumulative grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of prerequisite courses. In addition, a grade of C- or better is required in all marketing courses counted toward the minor. A minimum of six hours in upper-level courses in the minor must be taken through courses offered by Old Dominion University.

Bachelor of Science in Business Administration Marketing Management with a Major in Marketing Analytics and Research (BSBA)

Chuanyi Tang, Chair
Michelle Carpenter, Chief Departmental Advisor

From building iconic brands to understanding why people buy what they buy, marketing is the exciting interface between companies and their customers and other stakeholders. It builds valuable relationships for companies and makes them more competitive in the marketplace. The marketing management degree program teaches students marketing, communication, and analytical knowledge and prepares students for high-demand marketing career opportunities in today's and tomorrow's global environment.

The marketing management degree program offers a general marketing major and three distinctive career-oriented majors:

1. Digital marketing major, which equips graduates with the knowledge base and skill set to leverage digital marketing platforms such as social media and search engines;

2. Marketing analytics and research major, which produces graduates for fast-growing career opportunities in the field of deriving deep customer insight and effective marketing strategy from data; also suitable for students interested in pursuing a graduate degree in marketing or related areas;
3. Professional sales major, which prepares graduates for a successful career in business-to-business sales.

For completion of a major under marketing management, a student must have a minimum overall cumulative grade point average of 2.00 in all courses taken toward the major. In addition, a grade of C- or better is required in all marketing courses counted toward the major. A student who seeks a Bachelor of Science in Business Administration degree in one of the marketing management majors from Old Dominion University must, in addition to meeting other requirements of the University, earn a minimum of 25 percent of the total number of credits required for the degree (for example, 30 credits in a 120-credit degree program) through on- or off-campus instruction. This must include a minimum of 12 credit hours of upper-level MKTG courses.

Strome College of Business (SCB) Center for Undergraduate Advising and Student Success

The mission of this office is to challenge and support students in self-exploration and, through advising, provide resources for them to develop an achievable plan for success. Our vision is for students to be aware of their academic, personal, and professional goals; empowered to pursue them; and confident in their ability to accomplish them.

Our professional advisors work with all Strome College of Business students regarding degree planning, changing majors, admissions, continuance, graduation requirements and required curricula for the majors and minors offered by the College.

Degree Requirements

Students in all of the Bachelor of Science in Business Administration degree programs must fulfill the University General Education requirements (including foreign language) as well as the Strome College of Business's core, major, and elective requirements. Students must choose at least one major area to meet requirements towards the degree.

To stay in compliance with AACSB accreditation standards, students receiving a Bachelor of Science in Business Administration from Old Dominion University must complete at least half of their business course work in residence with a minimum of four courses in their declared major. This equates to 10 business classes, thus meeting the University's residency requirement as well.

Majors in the college may not take business and public administration courses for pass/fail credit except those courses in which pass/fail is the only grading option (i.e., internships and practica).

Admission to the Undergraduate Program in Business Administration

General Requirements

Applicants for admission to the undergraduate degree program in business administration (the Bachelor of Science in Business Administration) should apply initially to the Office of Admissions of Old Dominion University. Students cannot be accepted into business administration without first being admitted to the University. Admission to the University does not guarantee admission to the Bachelor of Science in Business Administration (BSBA) program. Candidates for admission to the BSBA program should indicate on the application to the University their intention to enter the undergraduate business administration degree program.

Admission to the Bachelor's Degree Program in Business Administration:

Before Admission to the bachelor's degree program in business administration can be granted, a student must have earned a grade of C or higher in each of the business Admission courses:

BUSN 110	Introduction to Contemporary Business	1
ENGL 110C	English Composition	3
MATH 162M	Precalculus I	3
ACCT 201	Principles of Financial Accounting	3
ECON 202S	Principles of Microeconomics	3

- BUSN 110 is not required for students pursuing majors under the BSBA in Information Systems and Technology (excluding Business Analytics) or for any student with an associate's degree in business administration or with a prior bachelor's degree in business administration.
- Students may utilize the Grade Forgiveness Policy for the business Admission courses.
- Transfer students may complete business Admission courses (BUSN 110, ENGL 110C, MATH 162M, ACCT 201, and ECON 202S) at another accredited college or university, but are responsible for having Transfer Evaluation Services determine that the courses are acceptable to the University.

Eligibility to Enroll in Upper-Level (300/400-level) Business Courses

Only students who have officially completed Admission courses to the BSBA program will be eligible to enroll in upper-level (300/400) business courses (refer to exceptions for non-business majors). However, students who are in progress with the business Admission courses may enroll in upper-level (300/400) business courses. Note: These students will need a Program Restriction Waiver (PRW) to enroll in these courses, with the exception of FIN 323, MGMT 325, MKTG 311, and OPMT 303. These courses require a junior class standing for registration.

Enrollment in 300/400-level Business Courses by Non-Business Majors

Enrollment in 300/400-level business courses will be granted without the Admission courses for the following exceptions:

1. Students pursuing a declared minor in the Strome College of Business may enroll in 300/400-level business courses appropriate to the minor.
2. Students pursuing Upper-Division General Education Requirement Option B: Interdisciplinary Minor or Option D: Six hours of elective upper-division courses outside the student's major discipline or college.
3. Students wishing to satisfy the Impact of Technology requirement may enroll in IT 360T.
4. Students pursuing a degree program other than the Bachelor of Science in Business Administration (BSBA) that requires or accepts specific 300/400-level business courses to complete the degree may enroll in the courses appropriate to the major.
5. Non-degree-seeking students may enroll in 300/400-level business courses if they have satisfied the prerequisites for these courses.

Students in categories 1 - 5 above who do not have a declared major will need a Program Restriction Waiver (PRW) in order to enroll in any 300/400-level Strome College of Business course (including Economics courses). Forms to request a PRW are available at the Strome College of Business website.

Regulations for Continuance in the Bachelor of Science in Business Administration

In addition to the Old Dominion University continuance policies, the following policies are specific to all declared Bachelor of Science in Business Administration (BSBA) students. The Strome College of Business

makes a reasonable effort to notify undergraduate students who are not in good academic standing in the BSBA program of their academic status. Each undergraduate student who is placed on BSBA Academic Alarm or BSBA Termination (explained below) will be sent an e-mail message to that effect at the student's Old Dominion University e-mail address, in accordance with the Electronic Communication Policy for Official University Business. Non-receipt of the e-mail messages by a student will not be considered grounds for granting exceptions or delays in enforcement of the BSBA continuance regulations.

BSBA Continuance Regulations

If a student's Grade Point Average (GPA) in their BSBA Core courses falls below a 2.0, then they will be on Academic Alarm within the Strome College of Business (SCB). This policy is very similar to the University's academic continuance policy, the main difference being that it is based on the core Business courses and impacts acceptance and continuance within the SCB.

Academic Alarm

The first semester in which a student's BSBA Core GPA drops to below a 2.0, they will be on Academic Alarm. Once considered on academic alarm within the college, taking courses within the BSBA Core is the only way to bring that GPA back up.

- If the student raises the BSBA Core GPA to above a 2.0, then they will no longer be on academic alarm.
- If the BSBA Core GPA does not reach a 2.0 but the semester average in the BSBA Core courses is a 2.0 or higher, then the student will remain on academic alarm and be able to continue within the SCB.

SCB Termination

While on academic alarm within the Strome College of Business, if the semester BSBA Core GPA falls below a 2.0, the student will be terminated from the SCB and their major coding will be changed from Business to Undecided. (Terminations will not be processed in summer semesters.)

Appeals

If you have been terminated, you may appeal the decision if you have extenuating circumstances and documentation to support your claim. To appeal, write a letter and include documentation of your circumstances to the Associate Dean of the Strome College of Business (Constant Hall, Suite 2004). There are specific details that need to be included with your appeal - for more information, please see the appeals process as described in the most recently issued catalog.

Guidelines for Filing a BSBA Termination Appeal

1. All students have the right to appeal their BSBA termination if they believe that extraordinary circumstances were the main reason for their poor academic performance. Notifications of pending BSBA termination are sent to the student's ODU email address and include information on the appeal process and deadlines. All BSBA termination appeals must be submitted electronically using the link provided in the email and will be reviewed by the SCB Termination Appeal Committee. Students are responsible for submitting their appeal by the stated deadline; late appeals will not be reviewed. Decisions of the Termination Appeal Committee may be appealed to the Associate Dean for Academic Programs in the Strome College of Business whose decision is final.
2. Appeals must be based on circumstances pertinent to the semesters in which the academic difficulty occurred that were beyond the control of the student and for which official withdrawal from the course(s) was not an option. Appeal letters must be legible and authored by the terminated student. The appeal letter must provide sufficient detail and explanation regarding the following points because there is no face-to-face meeting with the Associate Dean for Academic Programs in the Strome College of Business. The decision of the Associate Dean is final. Students without documentation will not be allowed to appeal their termination. In order to be reviewed, an appeal letter must:

- a. Document the extraordinary circumstances such as a death in the family, medical complications or chronic conditions, personal or family emergency, overwhelming work schedules, dorm-mate conflict, or a personal relationship conflict that have adversely affected performance: i.e., a statement or letter from a physician, employer, family members, faculty, academic advisor, Counseling Services, or Educational Accessibility.
 - b. Explain how the extraordinary circumstances caused each semester of poor academic performance.
 - c. State the reasons why an official withdrawal was not requested.
 - d. Explain how the extraordinary circumstance(s) has been resolved.
 - e. Provide a plan of action to return to good BSBA academic standing.
3. Students who do not file a BSBA termination appeal or whose appeals are denied, are no longer eligible to pursue a bachelor's degree in Business Administration. Upon BSBA termination, the student's major in the Strome College of Business will be removed. (This does not affect a declared second major outside of the BSBA.) These students are advised to work with an advisor in the SCB Center for Undergraduate Advising to explore other major options, and for referrals to other advising departments for a new major declaration.
 4. BSBA-terminated students who had pre-registered for a subsequent semester lose eligibility for continued enrollment in upper-level business courses.

Applying for Readmission to the BSBA Program

After a minimum of five years has passed since a student was terminated from the BSBA program, the student may apply for readmission to the program. There must be a high probability the student will successfully complete the degree program, and approval will be at the discretion of the Strome College of Business Associate Dean.

Requirements

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6
Oral Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#oral)	3
Mathematics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#math)	3
Language and Culture (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#language)	0-6
Information Literacy and Research (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#information)	3
Human Behavior (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#behavior)	3
Human Creativity (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#creativity)	3
Interpreting the Past (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#interpret)	3
Literature (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#literature)	3
Philosophy and Ethics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#philosophy)	3
The Nature of Science (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#nature)	8
Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

Oral Communication: COMM 101R or MKTG 200R required. Additionally, all students majoring in business administration can expect to complete several courses in which individual and/or group oral presentations will be required.

Mathematics: MATH 162M and MATH 200 required.

Information Literacy and Research: IT 150G (recommended) or any "G" course from the approved general education information literacy and research course list.

Human Behavior: Met in the Business Administration core for all majors except Economics.

Philosophy and Ethics must be satisfied by completion of either PHIL 230E or an upper-level "E" course from the approved general education ethics course list. A philosophy course designated with a P will not meet this requirement for business administration students with the exception of a "P" course taken prior to fall 2010.

Impact of Technology requirement is satisfied within each BSBA degree major except Information Systems and Technology by IT 360T. In the Information Systems and Technology majors (excluding Business Analytics), the Impact of Technology requirement is satisfied by the coursework required for the major.

Transfer students with an applicable associate's degree from a Virginia Community College or another community college that has a seamless transfer agreement with ODU, and students with a prior bachelor's degree from another university, must nevertheless have a grade of C or better in the following to be able to transfer them:

COMM 101R	Public Speaking	3
or MKTG 200R	Professional Interactions and Negotiations	
PHIL 230E	Introduction to Ethics (Or an upper-level ethics course)	3
ENGL 211C	Writing, Rhetoric, and Research	3
or ENGL 231C	Writing, Rhetoric, and Research: Special Topics	
MATH 162M	Precalculus I	3
MATH 200	Calculus for Business and Economics	3

Upper-Division General Education

- Option A. Any University-approved minor, second degree, or second major.
- Option B. An interdisciplinary minor consisting of 12 credits, three of which can be in the major. Interdisciplinary minors are described in the University Catalog section labeled Requirements for Undergraduate Degrees, Upper-Division Requirements.
- Option C. An approved certification program, such as teaching licensure.
- Option D. Two Upper-Division Courses from outside the Strome College of Business and not required by the major (6 credits).

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Business Administration Core

ACCT 201	Principles of Financial Accounting *	3
ACCT 202	Principles of Managerial Accounting *	3

BNAL 206	Business Analytics I *	3
BNAL 306	Business Analytics II	3
ECON 201S	Principles of Macroeconomics *	3
ECON 202S	Principles of Microeconomics *	3
ECON 301	Managerial Economics	3
FIN 323	Introductory Financial Management	3
FIN 331	Legal Environment of Business	3
IT 360T	Principles of Information Technology **	3
MGMT 325	Contemporary Organizations and Management	3
MGMT 485W	Business Policy and Strategy (C or better) ***	3
MKTG 311	Marketing Principles and Problems	3
OPMT 303	Operations Management	3
Total Credit Hours		42

- * Not automatically waived for transfer students with an applicable associate's degree from a Virginia Community College or another acceptable community college, or for students with a prior bachelor's degree from another university. A grade of C or better must be earned to transfer these courses to Old Dominion University.
- ** Students completing a major or minor in Information Systems and Technology (excluding the Business Analytics major) do not take this course.
- *** Students majoring in Economics must complete MGMT 485W, but meet the writing intensive requirement by earning a grade of C or better either in MGMT 485W or in one of the ECON Writing Intensive courses.

Marketing Analytics and Research Major*

General Education

Complete lower-division requirements		35-41
Complete upper-division requirements (minimum of 6 credit hours)		6
BUSN 110	Introduction to Contemporary Business **	1
MATH 200	Calculus for Business and Economics	3

Business Administration Core

Complete business administration core requirements	42

Marketing Analytics and Research

MKTG 402	Consumer Behavior	3
MKTG 407	Marketing Research	3
MKTG 411	Multi-National Marketing	3
MKTG 460	Web Analytics	3
MKTG 475	Marketing Analytics	3
MKTG 490	Marketing Policy and Strategy	3
BNAL 405	Spreadsheet-Based Data Analysis for Decision Making	3

Select one of the following:	3

IT 450	Database Concepts
BNAL 415	Advanced Business Analytics/Big Data Applications
MKTG 367	Cooperative Education
MKTG 368	Marketing Internship
MKTG 369	Practicum
MKTG 496	Selected Topics in Marketing
PSYC 318W	Research Methods in Psychology

200-400 Level Free Elective	3
Free Electives	6

Total Credit Hours	120-126

- * A grade of C- or better is required in all marketing courses counted toward the major. A grade of C or better is

required in MKTG 311 as a prerequisite to upper-level MKTG courses.

** Not required for students pursuing the IT major or for any student with an associate's degree in business administration or with a prior bachelor's degree in business administration.

All 300-400 level MKTG courses, except for MKTG 311, are included in the calculation of the 2.00 overall grade point average for major course work for graduation.

Additional Requirements and Information

Advanced Placement

The college accepts advanced placement credit in accordance with the rules and regulations outlined in the Academic Information section of this catalog. Students may take College-Level Examination Program (CLEP) tests to receive credit for:

ACCT 201	Principles of Financial Accounting	3
ACCT 202	Principles of Managerial Accounting	3
ECON 201S	Principles of Macroeconomics	3
ECON 202S	Principles of Microeconomics	3
FIN 331	Legal Environment of Business	3
MGMT 325	Contemporary Organizations and Management	3
MKTG 311	Marketing Principles and Problems	3

Students are advised to contact the Office of Prior Learning Assessment for more information regarding CLEP and other prior learning assessment credit options. For advanced placement credit in any other business or public administration course, students are advised to contact the chair of the department offering the course. Additional information about credit awarded for qualifying scores on AP and IB subject examinations can be found on the ODU website: <https://www.odu.edu/academics/academic-records/score-analysis/ap-ib> (<https://www.odu.edu/academics/academic-records/score-analysis/ap-ib/>).

Practical Work Experience for Business Administration Majors

Students may complement their major studies with a practical work experience, which may take the form of an internship, cooperative education experience or a class containing a real-world, hands-on project. Students must apply for internship or co-op participation through the Strome College of Business Career & Leadership Development Satellite Office. All work experiences must be approved by the faculty sponsor in the appropriate department prior to registering for credit. Students may not earn credit for previous or current work experiences. (However, academic credit for work experience may be approved in accordance with the policies for granting prior learning credit as defined in the section on Prior Learning Assessment Credit Options at the Undergraduate Level in this catalog.) For details see the Center for Career & Leadership Development section of this catalog.

Use of Internship and Similar Hours Toward Business Administration Majors

A student may apply no more than six hours of cooperative education, student internship or practicum courses to satisfy degree requirements. Students may not use more than three hours of cooperative education, student internship or practicum courses to satisfy major elective requirements in each of the students' majors. These courses are numbered 367, 368 or 369. Additional hours of cooperative education, student internship or practicum courses, however, can be used to satisfy other requirements such as free electives or general business electives. Additional internships must each involve substantially different kinds of work experiences. Internships must be approved by the Chief Departmental Advisor of the student's major and the CAP Coordinator of the internship.

Transfer of the Associate of Science in Business Administration Towards Degree Requirements

Students transferring to the college must complete a minimum of 10 business courses offered by the college to earn the degree from Old Dominion University, in accordance with AACSB regulations. Those transfer students holding the Associate of Science in Business Administration degree from a Virginia Community College must earn the grade of "C" or better in the following courses in order to satisfy requirements found in the first two years of the BSBA degree:

COMM 101R	Public Speaking	3
ENGL 211C	Writing, Rhetoric, and Research	3
or ENGL 231C	Writing, Rhetoric, and Research: Special Topics	
MATH 162M	Precalculus I	3
MATH 200	Calculus for Business and Economics	3
ACCT 201	Principles of Financial Accounting	3
ACCT 202	Principles of Managerial Accounting	3
ECON 201S	Principles of Macroeconomics	3
ECON 202S	Principles of Microeconomics	3
BNAL 206	Business Analytics I	3
Select one of the following:		3
PHIL 230E	Introduction to Ethics	
Upper-level ethics course		

With the exception of the courses listed above, the University's lower-division General Education requirements are deemed satisfied by the accepted AS degrees. These typically include all AS degrees from the Virginia Community College System except the applied science degrees. For more information about accepted AS degrees contact the Office of Admissions. Associate degree holders, although meeting lower-level General Education requirements, must ensure that 120 credits are completed to earn the BSBA degree. A minimum of 25% of the required credit hours must be completed through Old Dominion University, at least 12 of which are upper-level courses in the major program.

The Strome College of Business does not accept courses completed at the freshman and sophomore levels at other institutions for required courses at the junior and senior level at Old Dominion University. Please see the section on CLEP credits (Prior Learning Assessment Credit Options at the Undergraduate Level) for additional information.

Grade Average Requirements for Graduation

To graduate with a Bachelor of Science in Business Administration degree, students must present a minimum of 120 hours with a minimum overall grade point average of 2.00 in all courses taken at Old Dominion University. Students must also attain a minimum overall grade point average of 2.00 in courses taken toward the major (courses included in the major grade point average calculation are listed following the description of each major's course work).

Additionally, students must attain a minimum overall grade point average of 2.00 in the BSBA Core listed below. Only courses completed at Old Dominion University will be used to compute the BSBA Core average. Students with an Information Systems and Technology major (excluding Business Analytics) are not required to take IT 360T, so the BSBA Core grade point average is computed using the remaining courses. If the BSBA Core average is below the required 2.00 minimum, students are advised to utilize the Grade Forgiveness Policy or Adjusted Resident Credit option when appropriate to improve the grade point average.

Requirements for Completing a Bachelor of Science in Business Administration

The following sections show the courses that are requirements for all business students, regardless of the chosen major: Lower-Division General Education, BSBA Core Courses, and Upper-Division General Education. Credit hours are listed after the course title. The student must also choose a major and complete the requirements listed for that major on the following pages.

Foundation Courses for Admission to the Strome College of Business

ENGL 110C	English Composition (C or better)	3
MATH 162M	Precalculus I (C or better)	3
ACCT 201	Principles of Financial Accounting (C or better)	3
ECON 202S	Principles of Microeconomics (C or better)	3
BUSN 110	Introduction to Contemporary Business *	1

* Not required for students pursuing an Information Systems and Technology major (excluding Business Analytics) or for students with an associate's degree in business administration or with a prior bachelor's degree in business administration.

See the section on Admission to the Undergraduate Program in Business Administration, General Requirements.

Business Elective

A business elective is a course that is offered by an accredited college of business, including the Strome College of Business at Old Dominion University. Public Affairs and Service (PAS) courses offered by the Strome College of Business are not considered as business courses. However, because some business courses cannot be used to satisfy the requirements of certain majors, students must refer to their specific degree program requirements to make sure that they complete appropriate business elective courses. For example, ECON 200S cannot be used to satisfy an elective requirement for students majoring in business administration. Also, IT 360T cannot be used as an elective by students majoring in Information Systems and Technology. Refer to the course description section of this Catalog for full details of courses and their prerequisites.

Free Elective

In the majority of cases a free elective is any course offered by an accredited community college or university, including Old Dominion University. However, because some courses cannot be used to satisfy the requirements of certain majors, students must refer to their specific degree program requirements to make sure that they complete appropriate elective courses. For example, ECON 200S cannot be used to satisfy an elective requirement for students majoring in business administration. Also, IT 360T cannot be used as an elective by students majoring in Information Systems and Technology. Refer to the course description section of this Catalog for full details of courses and their prerequisites.

Degree Program Guide

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

Course	Title	Credit Hours

BSBA to MBA (Master of Business Administration) Linked Program

Students interested in the program should contact the MBA Program Office as early as possible to discuss their plans for early entry. Once admitted to the program, the MBA program manager will act as the student's co-advisor, along with the chief departmental advisor or chief discipline advisor in the student's undergraduate major. The MBA Program Office is located in 1026 Constant Hall. The phone number is 757-683-3585 and email is mbainfo@odu.edu.

BSBA to MPA (Master of Public Administration) Linked Program

The linked BSBA to MPA program provides qualified Old Dominion University undergraduate students with the opportunity to earn a master's degree in public administration while taking 12 credits of the MPA program as an undergraduate student. The program is designed for highly motivated students with the desire to immediately continue their education after the bachelor's degree. The program is especially relevant to individuals seeking to work (or currently working) in the public or non-profit sectors,

but is suitable for students from any undergraduate major. Graduate courses may be taken during the fall and spring semester of the student's senior undergraduate year. After receiving the undergraduate degree, a student will continue with the MPA program, taking MPA courses until completing the required 39 credit hours. Students in the linked program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Admission Requirements

A potential candidate will have:

1. Completed all lower level general education requirements
2. Achieved a cumulative GPA of at least 3.0 at the end of the junior year

Requirements for admission to the graduate program can be found in the School of Public Service section of the Graduate Catalog. For additional information, please contact the School of Public Service in the Strome College of Business.

Minor Marketing-Marketing Analytics Minor

Marketing-Marketing Analytics Minor

MKTG 311	Marketing Principles and Problems *	3
MKTG 407	Marketing Research	3
MKTG 460	Web Analytics	3
MKTG 475	Marketing Analytics	3
300/400-level marketing course		3
Total Credit Hours		15

* A grade of C or better is required in MKTG 311 as a prerequisite to upper-level MKTG courses.

For completion of a minor, a student must have a minimum overall cumulative grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of prerequisite courses. In addition, a grade of C- or better is required in all marketing courses counted toward the minor. A minimum of six hours in upper-level courses in the minor must be taken through courses offered by Old Dominion University.

Bachelor of Science in Business Administration Marketing Management with a Major in Professional Sales (BSBA)

Chuan yi Tang, Chair
Michelle Carpenter, Chief Departmental Advisor

From building iconic brands to understanding why people buy what they buy, marketing is the exciting interface between companies and their customers and other stakeholders. It builds valuable relationships for companies and makes them more competitive in the marketplace. The marketing management degree program teaches students marketing, communication, and analytical knowledge and prepares students for high-demand marketing career opportunities in today's and tomorrow's global environment.

The marketing management degree program offers a general marketing major and three distinctive career-oriented majors:

1. Digital marketing major, which equips graduates with the knowledge base and skill set to leverage digital marketing platforms such as social media and search engines;
2. Marketing analytics and research major, which produces graduates for fast-growing career opportunities in the field of deriving deep customer

insight and effective marketing strategy from data; also suitable for students interested in pursuing a graduate degree in marketing or related areas;

3. Professional sales major, which prepares graduates for a successful career in business-to-business sales.

For completion of a major under marketing management, a student must have a minimum overall cumulative grade point average of 2.00 in all courses taken toward the major. In addition, a grade of C- or better is required in all marketing courses counted toward the major. A student who seeks a Bachelor of Science in Business Administration degree in one of the marketing management majors from Old Dominion University must, in addition to meeting other requirements of the University, earn a minimum of 25 percent of the total number of credits required for the degree (for example, 30 credits in a 120-credit degree program) through on- or off-campus instruction. This must include a minimum of 12 credit hours of upper-level MKTG courses.

Strome College of Business (SCB) Center for Undergraduate Advising and Student Success

The mission of this office is to challenge and support students in self-exploration and, through advising, provide resources for them to develop an achievable plan for success. Our vision is for students to be aware of their academic, personal, and professional goals; empowered to pursue them; and confident in their ability to accomplish them.

Our professional advisors work with all Strome College of Business students regarding degree planning, changing majors, admissions, continuance, graduation requirements and required curricula for the majors and minors offered by the College.

Degree Requirements

Students in all of the Bachelor of Science in Business Administration degree programs must fulfill the University General Education requirements (including foreign language) as well as the Strome College of Business's core, major, and elective requirements. Students must choose at least one major area to meet requirements towards the degree.

To stay in compliance with AACSB accreditation standards, students receiving a Bachelor of Science in Business Administration from Old Dominion University must complete at least half of their business course work in residence with a minimum of four courses in their declared major. This equates to 10 business classes, thus meeting the University's residency requirement as well.

Majors in the college may not take business and public administration courses for pass/fail credit except those courses in which pass/fail is the only grading option (i.e., internships and practica).

Admission to the Undergraduate Program in Business Administration

General Requirements

Applicants for admission to the undergraduate degree program in business administration (the Bachelor of Science in Business Administration) should apply initially to the Office of Admissions of Old Dominion University. Students cannot be accepted into business administration without first being admitted to the University. Admission to the University does not guarantee admission to the Bachelor of Science in Business Administration (BSBA) program. Candidates for admission to the BSBA program should indicate on the application to the University their intention to enter the undergraduate business administration degree program.

Admission to the Bachelor's Degree Program in Business Administration:

Before Admission to the bachelor's degree program in business administration can be granted, a student must have earned a grade of C or higher in each of the business Admission courses:

BUSN 110	Introduction to Contemporary Business	1
ENGL 110C	English Composition	3
MATH 162M	Precalculus I	3
ACCT 201	Principles of Financial Accounting	3
ECON 202S	Principles of Microeconomics	3

- BUSN 110 is not required for students pursuing majors under the BSBA in Information Systems and Technology (excluding Business Analytics) or for any student with an associate's degree in business administration or with a prior bachelor's degree in business administration.
- Students may utilize the Grade Forgiveness Policy for the business Admission courses.
- Transfer students may complete business Admission courses (BUSN 110, ENGL 110C, MATH 162M, ACCT 201, and ECON 202S) at another accredited college or university, but are responsible for having Transfer Evaluation Services determine that the courses are acceptable to the University.

Eligibility to Enroll in Upper-Level (300/400-level) Business Courses

Only students who have officially completed Admission courses to the BSBA program will be eligible to enroll in upper-level (300/400) business courses (refer to exceptions for non-business majors). However, students who are in progress with the business Admission courses may enroll in upper-level (300/400) business courses. Note: These students will need a Program Restriction Waiver (PRW) to enroll in these courses, with the exception of FIN 323, MGMT 325, MKTG 311, and OPMT 303. These courses require a junior class standing for registration.

Enrollment in 300/400-level Business Courses by Non-Business Majors

Enrollment in 300/400-level business courses will be granted without the Admission courses for the following exceptions:

1. Students pursuing a declared minor in the Strome College of Business may enroll in 300/400-level business courses appropriate to the minor.
2. Students pursuing Upper-Division General Education Requirement Option B: Interdisciplinary Minor or Option D: Six hours of elective upper-division courses outside the student's major discipline or college.
3. Students wishing to satisfy the Impact of Technology requirement may enroll in IT 360T.
4. Students pursuing a degree program other than the Bachelor of Science in Business Administration (BSBA) that requires or accepts specific 300/400-level business courses to complete the degree may enroll in the courses appropriate to the major.
5. Non-degree-seeking students may enroll in 300/400-level business courses if they have satisfied the prerequisites for these courses.

Students in categories 1 - 5 above who do not have a declared major will need a Program Restriction Waiver (PRW) in order to enroll in any 300/400-level Strome College of Business course (including Economics courses). Forms to request a PRW are available at the Strome College of Business website.

Regulations for Continuance in the Bachelor of Science in Business Administration

In addition to the Old Dominion University continuance policies, the following policies are specific to all declared Bachelor of Science in Business Administration (BSBA) students. The Strome College of Business makes a reasonable effort to notify undergraduate students who are not in good academic standing in the BSBA program of their academic status. Each undergraduate student who is placed on BSBA Academic Alarm or BSBA Termination (explained below) will be sent an e-mail message to that effect at the student's Old Dominion University e-mail address, in accordance with the Electronic Communication Policy for Official University Business. Non-

receipt of the e-mail messages by a student will not be considered grounds for granting exceptions or delays in enforcement of the BSBA continuance regulations.

BSBA Continuance Regulations

If a student's Grade Point Average (GPA) in their BSBA Core courses falls below a 2.0, then they will be on Academic Alarm within the Strome College of Business (SCB). This policy is very similar to the University's academic continuance policy, the main difference being that it is based on the core Business courses and impacts acceptance and continuance within the SCB.

Academic Alarm

The first semester in which a student's BSBA Core GPA drops to below a 2.0, they will be on Academic Alarm. Once considered on academic alarm within the college, taking courses within the BSBA Core is the only way to bring that GPA back up.

- If the student raises the BSBA Core GPA to above a 2.0, then they will no longer be on academic alarm.
- If the BSBA Core GPA does not reach a 2.0 but the semester average in the BSBA Core courses is a 2.0 or higher, then the student will remain on academic alarm and be able to continue within the SCB.

SCB Termination

While on academic alarm within the Strome College of Business, if the semester BSBA Core GPA falls below a 2.0, the student will be terminated from the SCB and their major coding will be changed from Business to Undecided. (Terminations will not be processed in summer semesters.)

Appeals

If you have been terminated, you may appeal the decision if you have extenuating circumstances and documentation to support your claim. To appeal, write a letter and include documentation of your circumstances to the Associate Dean of the Strome College of Business (Constant Hall, Suite 2004). There are specific details that need to be included with your appeal - for more information, please see the appeals process as described in the most recently issued catalog.

Guidelines for Filing a BSBA Termination Appeal

1. All students have the right to appeal their BSBA termination if they believe that extraordinary circumstances were the main reason for their poor academic performance. Notifications of pending BSBA termination are sent to the student's ODU email address and include information on the appeal process and deadlines. All BSBA termination appeals must be submitted electronically using the link provided in the email and will be reviewed by the SCB Termination Appeal Committee. Students are responsible for submitting their appeal by the stated deadline; late appeals will not be reviewed. Decisions of the Termination Appeal Committee may be appealed to the Associate Dean for Academic Programs in the Strome College of Business whose decision is final.
2. Appeals must be based on circumstances pertinent to the semesters in which the academic difficulty occurred that were beyond the control of the student and for which official withdrawal from the course(s) was not an option. Appeal letters must be legible and authored by the terminated student. The appeal letter must provide sufficient detail and explanation regarding the following points because there is no face-to-face meeting with the Associate Dean for Academic Programs in the Strome College of Business. The decision of the Associate Dean is final. Students without documentation will not be allowed to appeal their termination. In order to be reviewed, an appeal letter must:
 - a. Document the extraordinary circumstances such as a death in the family, medical complications or chronic conditions, personal or family emergency, overwhelming work schedules, dorm-mate conflict, or a personal relationship conflict that have adversely affected performance: i.e., a statement or letter from a physician, employer, family members, faculty, academic advisor, Counseling Services, or Educational Accessibility.

- b. Explain how the extraordinary circumstances caused each semester of poor academic performance.
 - c. State the reasons why an official withdrawal was not requested.
 - d. Explain how the extraordinary circumstance(s) has been resolved.
 - e. Provide a plan of action to return to good BSBA academic standing.
3. Students who do not file a BSBA termination appeal or whose appeals are denied, are no longer eligible to pursue a bachelor's degree in Business Administration. Upon BSBA termination, the student's major in the Strome College of Business will be removed. (This does not affect a declared second major outside of the BSBA.) These students are advised to work with an advisor in the SCB Center for Undergraduate Advising to explore other major options, and for referrals to other advising departments for a new major declaration.
 4. BSBA-terminated students who had pre-registered for a subsequent semester lose eligibility for continued enrollment in upper-level business courses.

Applying for Readmission to the BSBA Program

After a minimum of five years has passed since a student was terminated from the BSBA program, the student may apply for readmission to the program. There must be a high probability the student will successfully complete the degree program, and approval will be at the discretion of the Strome College of Business Associate Dean.

Requirements

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6
Oral Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#oral)	3
Mathematics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#math)	3
Language and Culture (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#language)	0-6
Information Literacy and Research (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#information)	3
Human Behavior (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#behavior)	3
Human Creativity (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#creativity)	3
Interpreting the Past (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#interpret)	3
Literature (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#literature)	3
Philosophy and Ethics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#philosophy)	3
The Nature of Science (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#nature)	8
Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

Oral Communication: COMM 101R or MKTG 200R required. Additionally, all students majoring in business administration can expect to complete several courses in which individual and/or group oral presentations will be required.

Mathematics: MATH 162M and MATH 200 required.

Information Literacy and Research: IT 150G (recommended) or any "G" course from the approved general education information literacy and research course list.

Human Behavior: Met in the Business Administration core for all majors except Economics.

Philosophy and Ethics must be satisfied by completion of either PHIL 230E or an upper-level "E" course from the approved general education ethics course list. A philosophy course designated with a P will not meet this requirement for business administration students with the exception of a "P" course taken prior to fall 2010.

Impact of Technology requirement is satisfied within each BSBA degree major except Information Systems and Technology by IT 360T. In the Information Systems and Technology majors (excluding Business Analytics), the Impact of Technology requirement is satisfied by the coursework required for the major.

Transfer students with an applicable associate's degree from a Virginia Community College or another community college that has a seamless transfer agreement with ODU, and students with a prior bachelor's degree from another university, must nevertheless have a grade of C or better in the following to be able to transfer them:

COMM 101R	Public Speaking	3
or MKTG 200R	Professional Interactions and Negotiations	
PHIL 230E	Introduction to Ethics (Or an upper-level ethics course)	3
ENGL 211C	Writing, Rhetoric, and Research	3
or ENGL 231C	Writing, Rhetoric, and Research: Special Topics	
MATH 162M	Precalculus I	3
MATH 200	Calculus for Business and Economics	3

Upper-Division General Education

- Option A. Any University-approved minor, second degree, or second major.
- Option B. An interdisciplinary minor consisting of 12 credits, three of which can be in the major. Interdisciplinary minors are described in the University Catalog section labeled Requirements for Undergraduate Degrees, Upper-Division Requirements.
- Option C. An approved certification program, such as teaching licensure.
- Option D. Two Upper-Division Courses from outside the Strome College of Business and not required by the major (6 credits).

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Business Administration Core

MGMT 452	Negotiations and Change Management	

200-400 Level Free Elective 3

Free Electives 6

Total Credit Hours 120-126

- * A grade of C- or better is required in all marketing courses counted toward the major. A grade of C or better is required in MKTG 311 as a prerequisite to upper-level MKTG courses.
- ** Not required for students pursuing the IT major or for any student with an associate's degree in business

administration or with a prior bachelor's degree in business administration.

All 300-400 level MKTG courses, except for MKTG 311, are included in the calculation of the 2.00 overall grade point average for major course work for graduation.

Additional Requirements and Information

Advanced Placement

The college accepts advanced placement credit in accordance with the rules and regulations outlined in the Academic Information section of this catalog. Students may take College-Level Examination Program (CLEP) tests to receive credit for:

ACCT 201	Principles of Financial Accounting	3
ACCT 202	Principles of Managerial Accounting	3
ECON 201S	Principles of Macroeconomics	3
ECON 202S	Principles of Microeconomics	3
FIN 331	Legal Environment of Business	3
MGMT 325	Contemporary Organizations and Management	3
MKTG 311	Marketing Principles and Problems	3

Students are advised to contact the Office of Prior Learning Assessment for more information regarding CLEP and other prior learning assessment credit options. For advanced placement credit in any other business or public administration course, students are advised to contact the chair of the department offering the course. Additional information about credit awarded for qualifying scores on AP and IB subject examinations can be found on the ODU website: <https://www.odu.edu/academics/academic-records/score-analysis/ap-ib> (<https://www.odu.edu/academics/academic-records/score-analysis/ap-ib/>).

Practical Work Experience for Business Administration Majors

Students may complement their major studies with a practical work experience, which may take the form of an internship, cooperative education experience or a class containing a real-world, hands-on project. Students must apply for internship or co-op participation through the Strome College of Business Career & Leadership Development Satellite Office. All work experiences must be approved by the faculty sponsor in the appropriate department prior to registering for credit. Students may not earn credit for previous or current work experiences. (However, academic credit for work experience may be approved in accordance with the policies for granting prior learning credit as defined in the section on Prior Learning Assessment Credit Options at the Undergraduate Level in this catalog.) For details see the Center for Career & Leadership Development section of this catalog.

Use of Internship and Similar Hours Toward Business Administration Majors

A student may apply no more than six hours of cooperative education, student internship or practicum courses to satisfy degree requirements. Students may not use more than three hours of cooperative education, student internship or practicum courses to satisfy major elective requirements in each of the students' majors. These courses are numbered 367, 368 or 369. Additional hours of cooperative education, student internship or practicum courses, however, can be used to satisfy other requirements such as free electives or general business electives. Additional internships must each involve substantially different kinds of work experiences. Internships must be approved by the Chief Departmental Advisor of the student's major and the CAP Coordinator of the internship.

Transfer of the Associate of Science in Business Administration Towards Degree Requirements

Students transferring to the college must complete a minimum of 10 business courses offered by the college to earn the degree from Old Dominion University, in accordance with AACSB regulations. Those transfer students holding the Associate of Science in Business Administration degree from a Virginia Community College must earn the grade of "C" or better in the

following courses in order to satisfy requirements found in the first two years of the BSBA degree:

COMM 101R	Public Speaking	3
ENGL 211C	Writing, Rhetoric, and Research	3
or ENGL 231C	Writing, Rhetoric, and Research: Special Topics	
MATH 162M	Precalculus I	3
MATH 200	Calculus for Business and Economics	3
ACCT 201	Principles of Financial Accounting	3
ACCT 202	Principles of Managerial Accounting	3
ECON 201S	Principles of Macroeconomics	3
ECON 202S	Principles of Microeconomics	3
BNAL 206	Business Analytics I	3
Select one of the following:		3
PHIL 230E	Introduction to Ethics	
Upper-level ethics course		

With the exception of the courses listed above, the University's lower-division General Education requirements are deemed satisfied by the accepted AS degrees. These typically include all AS degrees from the Virginia Community College System except the applied science degrees. For more information about accepted AS degrees contact the Office of Admissions. Associate degree holders, although meeting lower-level General Education requirements, must ensure that 120 credits are completed to earn the BSBA degree. A minimum of 25% of the required credit hours must be completed through Old Dominion University, at least 12 of which are upper-level courses in the major program.

The Strome College of Business does not accept courses completed at the freshman and sophomore levels at other institutions for required courses at the junior and senior level at Old Dominion University. Please see the section on CLEP credits (Prior Learning Assessment Credit Options at the Undergraduate Level) for additional information.

Grade Average Requirements for Graduation

To graduate with a Bachelor of Science in Business Administration degree, students must present a minimum of 120 hours with a minimum overall grade point average of 2.00 in all courses taken at Old Dominion University. Students must also attain a minimum overall grade point average of 2.00 in courses taken toward the major (courses included in the major grade point average calculation are listed following the description of each major's course work).

Additionally, students must attain a minimum overall grade point average of 2.00 in the BSBA Core listed below. Only courses completed at Old Dominion University will be used to compute the BSBA Core average. Students with an Information Systems and Technology major (excluding Business Analytics) are not required to take IT 360T, so the BSBA Core grade point average is computed using the remaining courses. If the BSBA Core average is below the required 2.00 minimum, students are advised to utilize the Grade Forgiveness Policy or Adjusted Resident Credit option when appropriate to improve the grade point average.

Requirements for Completing a Bachelor of Science in Business Administration

The following sections show the courses that are requirements for all business students, regardless of the chosen major: Lower-Division General Education, BSBA Core Courses, and Upper-Division General Education. Credit hours are listed after the course title. The student must also choose a major and complete the requirements listed for that major on the following pages.

Foundation Courses for Admission to the Strome College of Business

ENGL 110C	English Composition (C or better)	3
MATH 162M	Precalculus I (C or better)	3
ACCT 201	Principles of Financial Accounting (C or better)	3

ECON 202S	Principles of Microeconomics (C or better)	3
BUSN 110	Introduction to Contemporary Business *	1

* Not required for students pursuing an Information Systems and Technology major (excluding Business Analytics) or for students with an associate's degree in business administration or with a prior bachelor's degree in business administration.

See the section on Admission to the Undergraduate Program in Business Administration, General Requirements.

Business Elective

A business elective is a course that is offered by an accredited college of business, including the Strome College of Business at Old Dominion University. Public Affairs and Service (PAS) courses offered by the Strome College of Business are not considered as business courses. However, because some business courses cannot be used to satisfy the requirements of certain majors, students must refer to their specific degree program requirements to make sure that they complete appropriate business elective courses. For example, ECON 200S cannot be used to satisfy an elective requirement for students majoring in business administration. Also, IT 360T cannot be used as an elective by students majoring in Information Systems and Technology. Refer to the course description section of this Catalog for full details of courses and their prerequisites.

Free Elective

In the majority of cases a free elective is any course offered by an accredited community college or university, including Old Dominion University. However, because some courses cannot be used to satisfy the requirements of certain majors, students must refer to their specific degree program requirements to make sure that they complete appropriate elective courses. For example, ECON 200S cannot be used to satisfy an elective requirement for students majoring in business administration. Also, IT 360T cannot be used as an elective by students majoring in Information Systems and Technology. Refer to the course description section of this Catalog for full details of courses and their prerequisites.

Degree Program Guide

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

Total Credit Hours		120-126

** C or better required as a prerequisite to upper-level MKTG courses.

BSBA to MBA (Master of Business Administration) Linked Program

Students interested in the program should contact the MBA Program Office as early as possible to discuss their plans for early entry. Once admitted to the program, the MBA program manager will act as the student's co-advisor, along with the chief departmental advisor or chief discipline advisor in the student's undergraduate major. The MBA Program Office is located in 1026 Constant Hall. The phone number is 757-683-3585 and email is mbainfo@odu.edu.

BSBA to MPA (Master of Public Administration) Linked Program

The linked BSBA to MPA program provides qualified Old Dominion University undergraduate students with the opportunity to earn a master's degree in public administration while taking 12 credits of the MPA program as an undergraduate student. The program is designed for highly motivated students with the desire to immediately continue their education after the bachelor's degree. The program is especially relevant to individuals seeking to work (or currently working) in the public or non-profit sectors, but is suitable for students from any undergraduate major. Graduate courses may be taken during the fall and spring semester of the student's senior undergraduate year. After receiving the undergraduate degree, a student will continue with the MPA program, taking MPA courses until completing the required 39 credit hours. Students in the linked program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Admission Requirements

A potential candidate will have:

1. Completed all lower level general education requirements
2. Achieved a cumulative GPA of at least 3.0 at the end of the junior year

Requirements for admission to the graduate program can be found in the School of Public Service section of the Graduate Catalog. For additional information, please contact the School of Public Service in the Strome College of Business.

Minor Marketing-Professional Sales Minor

Marketing-Professional Sales Minor

MKTG 311	Marketing Principles and Problems *	3
MKTG 316	Professional Selling	3
MKTG 404	Sales Management	3
MKTG 417	Advanced Professional Selling	3
300/400-level marketing course		3
Total Credit Hours		15

* A grade of C or better is required in MKTG 311 as a prerequisite to upper-level MKTG courses.

For completion of a minor, a student must have a minimum overall cumulative grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of prerequisite courses. In addition, a grade of C- or better is required in all marketing courses counted toward the minor. A minimum of six hours in upper-level courses in the minor must be taken through courses offered by Old Dominion University.

Military Science and Leadership (Army Reserve Officers' Training Corps)

Web Site: <http://www.goarmy.com/rotc/schools/old-dominion-university.html>

Programs

Minor Program

- Military Leadership Minor (p. 487)

Army ROTC Program

- Military Leadership (p. 486)

Army Reserve Officers' Training Corps

Brandon A. Shah, Chair

The Department of Military Science and Leadership offers courses that develop a student's ability to organize, motivate, and lead others. Although some military science graduates choose a career with the U.S. Army, many use their Army leadership and management experiences as a springboard for successful careers as entrepreneurs, corporate officers and managers, attorneys, and governmental executives. A variety of social and professional enrichment activities as well as adventure training opportunities are also available to students. Scholarships are available on a competitive basis.

The Army ROTC program is administratively located under the Director of Military Activities and is situated, for academic matters, within the Strome College of Business.

Mission

The mission of the Department of Military Science and Leadership is to commission the future officer leadership of the U.S. Army. The Old Dominion University Army ROTC program consists of structured study in the field of military science with the primary objective of developing leaders who will serve as commissioned officers in the U.S. Army Active and Reserve components. Students develop maturity, responsibility, and dependability while earning the Gold Bar of an Army Second Lieutenant.

Requirements

Army ROTC offers two different programs to all qualified university students. The traditional four-year program gives students the opportunity to take AROTC courses in each of their four years of college. The two-year program is available for any students who did not take ROTC during their first two years of college. There is no service obligation until students reach their junior year of college.

Four-Year Program

Basic Course

Military Science Level I:		
MSL 101+	Introduction to ROTC	1
or MSL 195	Independent Study of Selected Military Topics	
MSL 102+	Introduction to Leadership	1
or MSL 196	Independent Study of Selected Military Topics	
Military Science Level II:		2-6
Option 1:		
MSL 201+	Leadership Skills II	
or MSL 295	Independent Study of Selected Military Topics	
MSL 202+	Foundations of the Military Profession	
or MSL 296	Independent Study of Selected Military Topics	
Option 2:		
MSL 250+	Alternate Summer Training Program: Leaders Training Course (LTC)	

Advanced Course

Military Science Level III:		
MSL 301	Advanced Leadership Skills	3
or MSL 395	Independent Study	
MSL 302	Applied Leadership	3
or MSL 396	Independent Study	
MSL 311+	Advanced Leadership Skills III Lab	1
MSL 312+	Applied Leadership Lab	1
Military Science Level IV:		
MSL 401	Military Leadership and Management	3
or MSL 495	Independent Study	
MSL 402	Officership	3
or MSL 496	Independent Study	
MSL 411+	Senior Military Leadership and Management Laboratory	1
MSL 412+	Senior Leadership Laboratory	1

Total Credit Hours 20-24

Veterans and members of the Reserve or National Guard may be able to waive the Basic Course requirements.

Two-Year Program

MSL 250+ (Basic Camp Leader's Training Course) and the Advanced Course listed above. Attendance at Leader's Training Course (not to be confused with the Basic Training) satisfies the Basic Course requirements.

Additional Requirements

Scholarships

Students may compete for four-, three-, and two-year scholarships that pay full tuition and gradually increasing stipend and book allowance annually. Nursing scholarships are plentiful for qualified applicants.

Summer Training

Students may compete for Airborne, Air Assault, and other training during the summer. Third-year ROTC students may compete for Cadet Troop Leadership slots to various locations in the United States and overseas. All Advanced Course cadets attend the Leadership Development and Assessment Course (LDAC) before or after their senior year.

Minor Military Leadership Minor

The minor in military leadership is a high quality, interdisciplinary, multidimensional, experiential, and culturally diverse program that exposes students to, and prepares them for, real life leadership opportunities and challenges. Students explore issues of leadership, citizenship, and social change within the context of an inquiry, experiential, and competency-based instructional design. The minor is open to all students who have completed the prerequisite courses. Students who are not enrolled in the military science or naval science program will receive academic credit for the minor but will not receive credit for commissioning purposes.

Requirements

The requirements for students in the Military Science and Leadership Department are completion of:

MSL 301	Advanced Leadership Skills	3
MSL 302	Applied Leadership	3
MSL 401	Military Leadership and Management	3
MSL 402	Officership	3
Select one of the following:		3
ENMA 301	Introduction to Engineering Management	
ENMA 401	Project Management	
ENGL 435W	Management Writing	
HIST 360	American Military History	
HIST 408	War and American Society in the Twentieth Century	
MGMT 325	Contemporary Organizations and Management	
MGMT 340	Human Resource Management	
NURS 480W	Nursing in the Health Care System: Leadership	
PHIL 442E	Studies in Applied Ethics	
POLS 326W	American Foreign Policy	
POLS 327W	Politics of National Security	
POLS 350T	Technology and War	
POLS 421	International Law	
PSYC 343	Personnel Psychology	
PSYC 345	Organizational Psychology	

Total Credit Hours 15

For completion of a minor, a student must have a minimum overall cumulative grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of 100/200-level courses and prerequisite courses and complete a minimum of six hours in upper-level courses in the minor requirement through courses offered by Old Dominion University.

School of Cybersecurity

Web Site: <https://www.odu.edu/cyber> (<https://www.odu.edu/cyber/>)

Holly Handley, Dean (Interim)
Daniel Takabi, Director

The School of Cybersecurity administers a BS in Cybersecurity, a BS in Cybersecurity with a major in Cyber Operations, a BS in Cybersecurity with a major in Cyber Risk Management, an MS in Cybersecurity, and an interdisciplinary minor in cybersecurity. The School's strategic priority is to deliver exceptional academic programs for both resident and online students to cultivate the cybersecurity workforce and enhance the nation's cybersecurity talent. The School supports undergraduate and graduate students and faculty to achieve healthy and sustainable growth of the cybersecurity program. The mission of the School also includes developing high-impact, cross-disciplinary research initiatives that center on cybersecurity and conducting outreach and community engagement, being a source of cybersecurity expertise to the community, the Hampton Roads region, the Commonwealth of Virginia, and the nation.

Bachelor of Science Cybersecurity (BS)

Web Site: <https://www.odu.edu/cyber> (<https://www.odu.edu/cyber/>)

Saltuk Karahan, Undergraduate Program Director
skarahan@odu.edu (<http://catalog.odu.edu/email:skarahan@odu.edu>)

The Bachelor of Science degree in cybersecurity provides opportunities for students to integrate education and training with the application of problem-solving skills in the lab environment. Courses are drawn from the disciplines of philosophy, computer science, computer engineering, information technology, and criminal justice to examine the multi-faceted nature of cybersecurity. Students admitted to the program have a variety of credit options including portfolio review, CLEP, DANTES, and departmental exams. For more information about the cybersecurity interdisciplinary program, email cyber@odu.edu or Dr. Saltuk Karahan (skarahan@odu.edu).

Requirements

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6
Oral Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#oral)	3
Mathematics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#math)	3
Language and Culture (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#language)	0-6
Information Literacy and Research (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#information)	3

Human Behavior (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#behavior)	3
Human Creativity (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#creativity)	3
Interpreting the Past (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#interpret)	3
Literature (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#literature)	3
Philosophy and Ethics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#philosophy)	3
The Nature of Science (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#nature)	8
Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

Written Communication: Grade of C or better required in both written communication courses and in ENGL 110C before declaring major.

Mathematics: MATH 162M required. MATH 211 and MATH 212 are required as prerequisites for selected upper-division ECE and MSIM courses.

Philosophy and Ethics: can be met by PHIL 355E

Impact of Technology: met with CYSE 200T/IT 200T in the major

Human Behavior: CRJS 215S or DASC 205S/SOC 205S

Upper-Division General Education

Met in the major.

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Cybersecurity Major

General Education

Complete lower-division requirements 35-44

Complete upper-division requirements (met in the major)

Prerequisite Courses

Students may be required to complete an additional 15-36 hours of prerequisite courses depending on which Principles and Application courses they select. 15-36

Interdisciplinary Writing Course

IDS 300W	Interdisciplinary Theory and Concepts	3

Core Courses

CYSE/IT 200T	Cybersecurity, Technology, and Society	3
CYSE 201S	Cybersecurity and the Social Sciences	3
CYSE 250	Basic Cybersecurity Programming and Networking	3
CYSE 300	Introduction to Cybersecurity	3
CYSE 301	Cybersecurity Techniques and Operations	3

CYSE/CRJS/CPD 406	Cyber Law	3
CYSE 425W	Cybersecurity Strategy and Policy (C or better required)	3
or POLS 425W	Cybersecurity Strategy and Policy	
CS 462	Cybersecurity Fundamentals	3
Principles Courses		
Select three courses from the following. The coursework allows students to study the selected cybersecurity principles of their choice aligned with their interests and career goals.		9
CRJS 310	Cybercriminology: Foundations	
CS 463	Cryptography for Cybersecurity	
CS 464	Networked Systems Security	
CYSE 495	Topics in Cybersecurity	
CYSE 416	Cyber Defense Fundamentals	
CYSE 419	Cyber Physical System Security	
CYSE 430	Introduction to Cybersecurity Risk Management	
or CYSE 431	Advanced Techniques Cybersecurity Risk Management	
ECE/MSIM 470	Foundations of Cyber Security	
IT 315	Introduction to Networking and Security *	
IT 417	Management of Information Security *	
IT 418	Enterprise Information Assurance *	
or CS 465	Information Assurance for Cybersecurity	
PHIL 355E	Cybersecurity Ethics	
Application Courses +		
Select three courses from the following. The coursework allows students to apply fundamental cybersecurity theories and techniques in their selected application domains.		9
CYSE 270	Linux System for Cybersecurity	
CYSE 280	Windows System Management and Security	
CYSE 407/CRJS 395	Digital Forensics	
CYSE 420	Applied Machine Learning in Cybersecurity	
CYSE 421	Generative AI in Cybersecurity	
CYSE 426	Cyber War	
or POLS 426	Cyber War	
CYSE 432	Cyber Risk CSF/CMMC	
or CYSE 433	Cyber Risk FedRAMP/Audit	
CYSE 450	Ethical Hacking and Penetration Testing	
CS 467	Introduction to Reverse Software Engineering	
CS 471	Operating Systems	
ECE 452	Introduction to Wireless Communication Networks	
ECE 455	Network Engineering and Design	
IT 410	Business Intelligence *	
IT 416	Network Server Configuration and Administration *	
IT 419	Enterprise Cyber Defense *	
IT 461	Implementing Internet Applications *	
RMI 412	Property & Liability Insurance Company Operations *	
or RMI 443	Enterprise Risk Management	
Capstone Courses		
CYSE 368	Cybersecurity Internship	3
IDS 493	IDS Electronic Portfolio Project	3
Electives (minimum of 19 credit hours)		

Students can take the electives from any discipline at ODU and/ or complete prerequisites for Principles and Application courses, as needed, to complete the required 120 credit hours. However, no more than 29 credits from courses in the Strome College of Business may be applied to the degree requirements, including named elective courses and general electives (ACCT, BNAL, BUSN, ECON, ENTR, FIN, INBU, IT, MGMT, MKTG, MSCM, OPMT, PAS, PORT, REST, RMI).

Total Credit Hours **120-150**

- * No more than 29 credits from courses in the Strome College of Business may be applied to the degree requirements, including named elective courses and general electives (ACCT, BNAL, ECON, FIN, IT, OPMT, MSCM, MGMT, ENTR, MKTG).
- + Other courses may be substituted with the approval of the program coordinator.

No more than two classes, or six credits, may be counted for both the major and a minor. Some minors may allow fewer credits to share.

Electives

Elective credit may be needed to meet the minimum of 120 hours required for the degree.

Degree Program Guide

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

Course	Title	Credit Hours
Freshman		
Fall

Minor Cybersecurity Minor

Saltuk Karahan, Undergraduate Program Director skarahan@odu.edu
School of Cybersecurity

This interdisciplinary minor in cybersecurity is focused on the technological, structural, social, and legal frameworks used to secure computer networks and software. The study of cybersecurity combines multiple fields including computer science, engineering, information technology, criminal justice, and philosophy, to name a few. In an effort to promote the security of computer networks, software, and cyber information, an interdisciplinary understanding about technological, legal, philosophical, and structural aspects of cybersecurity is needed. This minor will provide students from different majors the knowledge they need to prevent or respond to cyber incidents they are likely to encounter in their careers.

Requirements

Four courses chosen from: 12

CRJS 310	Cybercriminology: Foundations
CS 462	Cybersecurity Fundamentals
or ECE/MSIM 470	Foundations of Cyber Security
CS 463	Cryptography for Cybersecurity
CS 464	Networked Systems Security
CS 465	Information Assurance for Cybersecurity
CS 466	Principles and Practice of Cyber Defense
CYSE 300	Introduction to Cybersecurity
CYSE 301	Cybersecurity Techniques and Operations
CYSE 406	Cyber Law
CYSE 407	Digital Forensics
ECE 416	Cyber Defense Fundamentals
or MSIM 416	Cyber Defense Fundamentals
ECE 419	Cyber Physical System Security
or MSIM 419	Cyber Physical Systems Security
EET 405	Data Communications and Computer Networks
or EET 412	Wireless Communication Systems
IT 416	Network Server Configuration and Administration
IT 417	Management of Information Security
IT 418	Enterprise Information Assurance
IT 419	Enterprise Cyber Defense
IT 461	Implementing Internet Applications
PHIL 355E	Cybersecurity Ethics
RMI 443	Enterprise Risk Management
or RMI 412	Property & Liability Insurance Company Operations

The interdisciplinary minor in cybersecurity requires 12 credit hours of 300/400-level courses selected from at least two different disciplines with a maximum of six credits from any one discipline. For completion of the interdisciplinary minor, students must have a minimum overall cumulative grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of lower-level courses and prerequisite courses. At least six hours of upper-level courses must be taken through courses offered by Old Dominion University. Three credit hours may be in the major, if a major course is listed as an option for the interdisciplinary minor. As such, it will be credited toward both the major and the interdisciplinary minor.

Bachelor of Science Cybersecurity with a Major in Artificial Intelligence for Cybersecurity

Web Site: <https://www.odu.edu/cyber> (<https://www.odu.edu/cyber/>)

Saltuk Karahan, Undergraduate Program Director
skarahan@odu.edu

This major will begin effective with the Spring 2026 term.

The Artificial Intelligence for Cybersecurity (AICyber) major is an interdisciplinary undergraduate program within the School of Cybersecurity that equips students with the knowledge and skills to address emerging cybersecurity challenges using AI-driven solutions. Combining core principles of cybersecurity with machine learning, data analysis, and intelligent automation, the program prepares students to develop and deploy AI-enabled tools for threat detection, malware analysis, secure systems design, and real-time cyber defense. Designed to meet growing workforce demands in defense, critical infrastructure, finance, and technology sectors, AICyber aligns with national priorities such as the NICE Framework, NIST AI Risk Management Framework, and the DoD Cyber Strategy. The program also supports NSA-CAE initiatives by advancing AI-integrated cybersecurity education and research.

Requirements

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6
Oral Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#oral)	3
Mathematics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#math)	3

Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

Written Communication: Grade of C or better required in both written communication courses and in ENGL 110C before declaring major.

Mathematics: MATH 162M required.

Impact of Technology: met with CYSE 200T/IT 200T in the major

Human Behavior: CRJS 215S or DASC 205S/SOC 205S

Upper-Division General Education

Met in the major.

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Artificial Intelligence for Cybersecurity Major

General Education

Complete lower-division requirements 38-44

Complete upper-division requirements (met in the major)

Core Courses

IDS 300W	Interdisciplinary Theory and Concepts *	3
IDS 493	IDS Electronic Portfolio Project	3
CYSE/IT 200T	Cybersecurity, Technology, and Society	3
CYSE 201S	Cybersecurity and the Social Sciences	3
CYSE 250	Basic Cybersecurity Programming and Networking	3
CYSE 300	Introduction to Cybersecurity	3
CYSE 301	Cybersecurity Techniques and Operations	3
CYSE 368 or CYSE 494	Cybersecurity Internship Entrepreneurship in Cybersecurity	3
CYSE/CRJS/CPD 406	Cyber Law	3
CYSE/POLS 425W	Cybersecurity Strategy and Policy *	3

Required AI Courses

CS 422	Introduction to Machine Learning	3
PHIL/AI 446	Artificial Intelligence (AI) Ethics and Policy	3
CYSE/AI 410	Artificial Intelligence (AI) Methods and Models	3
CYSE 420	Applied Machine Learning in Cybersecurity	3
CYSE 421	Generative AI in Cybersecurity	3

Electives

Select three of the following:		9
CS 455	Introduction to Networks and Communications	
CS 463	Cryptography for Cybersecurity	
CS 464	Networked Systems Security	
CS 469	Data Analytics for Cybersecurity	
CS 472	Network and Systems Security	
CYSE 270	Linux System for Cybersecurity	
CYSE 280	Windows System Management and Security	
CYSE 450	Ethical Hacking and Penetration Testing	

Total Credit Hours

92-98

* A grade of C or better is required in this course if it is used towards the University Writing Requirement.

No more than two classes, or six credits, may be counted for both the major and a minor. Some minors may allow fewer credits to share.

Electives

Elective credit may be needed to meet the minimum of 120 hours required for the degree. Students can take electives from any discipline at ODU as needed to complete the required 120 credit hours. However, no more than 29 credits from courses in the Strome College of Business may be applied to the degree requirements, including named elective courses and general electives (ACCT, BNAL, BUSN, ECON, ENTR, FIN, INBU, IT, MGMT, MKTG, MSCM, OPMT, PAS, PORT, REST, RMI).

Language and Culture I & II may be met in high school and are not included in this four-year plan. Please see requirement details.

Bachelor of Science
Cybersecurity with a Major in
Cyber Operations (BS)

Shobha Vatsa, Program Coordinator and Faculty Advisor (svatsa@odu.edu)

Cybersecurity with a major in Cyber Operations is an interdisciplinary major encompassing the entire scope of cyberspace and related operations that are both technical and non-technical (i.e., ethical, legal, human-centered, etc.) in nature. Cyber Operations is a complementary discipline to Cybersecurity.

Cyber Operations places a particular emphasis on technologies and techniques applicable to all operational and system levels. Coursework in Cyber Operations balances theory, practice and hands-on labs inspired by real-life scenarios. Skills and competencies emphasized are in system attack, infiltration, exploitation, defense, mitigation, and recovery.

Graduates of the Bachelor of Science degree in Cybersecurity with the Cyber Operations major will have the skills and proficiencies that are critical to intelligence, military and law enforcement organizations authorized to perform these specialized operations. Therefore, they will play a role in the enhancement of the national security posture of the nation.

Requirements

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6
Oral Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#oral)	3
Mathematics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#math)	3
Language and Culture (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#language)	0-6
Information Literacy and Research (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#information)	3
Human Behavior (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#behavior)	3
Human Creativity (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#creativity)	3
Interpreting the Past (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#interpret)	3
Literature (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#literature)	3
Philosophy and Ethics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#philosophy)	3
The Nature of Science (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#nature)	8
Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

Written Communication: Grade of C or better required in both written communication courses and in ENGL 110C before declaring major.

Mathematics: MATH 211 and MATH 212 required

Philosophy and Ethics: met in the major by PHIL 355E

Impact of Technology: met in the major by CYSE 200T

Human Behavior: CRJS 215S or DASC 205S/SOC 205S required

Upper-Division General Education

Met through 300/400-level prerequisite courses required for the major.

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.

- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Cyber Operations Major

General Education

Complete lower-division requirements 40-46

Complete upper-division requirements (met through prerequisite courses required for the major)

Prerequisites		
CS 150	Introduction to Programming with C++	4
or CS 151	Introduction to Programming with Java	
or CS 153	Introduction to Programming with Python	
CS 170	Introduction to Computer Architecture I	3
CS 250	Programming with C++ *	4
or CS 251	Programming with Java	
CS 252	Introduction to Unix for Programmers	1
CS 260	C++ for Programmers *	1
or CS 261	Java for Programmers	
CS 270	Introduction to Computer Architecture II	3
CS 381	Introduction to Discrete Structures	3
ECE 241	Fundamentals of Computer Engineering	4
ECE 304	Probability, Statistics, and Reliability	3
Core Courses		
CYSE 200T	Cybersecurity, Technology, and Society	3
CYSE 301	Cybersecurity Techniques and Operations	3
CYSE 425W	Cybersecurity Strategy and Policy	3
CYSE/CRJS 406	Cyber Law	3
Major Coursework		
CS 361	Data Structures and Algorithms	3
CS 390	Introduction to Theoretical Computer Science	3
CS 466	Principles and Practice of Cyber Defense	3
CS 467	Introduction to Reverse Software Engineering	3
CS 471	Operating Systems	3
CYSE 368	Cybersecurity Internship	3
or IDS 493	IDS Electronic Portfolio Project	
ECE 346	Microcontrollers	3
ECE 355	Introduction to Networks and Data Communications	3
ECE 416	Cyber Defense Fundamentals	3
ECE 419	Cyber Physical System Security	3
ECE 455	Network Engineering and Design	3
MSIM 470	Foundations of Cyber Security	3
PHIL 355E	Cybersecurity Ethics	3
Approved Program Elective		
Select one of the following:		3
CS 476	Systems Programming	
CYSE 407	Digital Forensics	
ECE 483	Embedded Systems	
IT 417	Management of Information Security	
Total Credit Hours		120-126

* Students who take CS 250 Programming with C++ need to select CS 261 Java for Programmers as the required lab course. Students who take CS 251 Programming with

Java need to select CS 260 C++ for Programmers as the required lab course.

No more than two classes, or six credits, may be counted for both the major and a minor. Some minors may allow fewer credits to share.

Elective credit may be needed to meet the 120 hour requirement for graduation.

Degree Program Guide

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

Bachelor of Science Cybersecurity with a Major in Cyber Risk Management (BS)

Web Site: <https://www.odu.edu/cyber> (<https://www.odu.edu/cyber/>)

Saltuk Karahan, Undergraduate Program Director
skarahan@odu.edu

The Cybersecurity degree with a major in cyber risk management focuses on the risk management and management aspects of cybersecurity. Students are required to complete core courses in the fields of cybersecurity and information systems and technology. Building upon this foundation, students are offered elective courses in compliance methodologies, cyber risk management, insurance and information systems management.

Requirements

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6
Oral Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#oral)	3
Mathematics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#math)	3
Language and Culture (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#language)	0-6
Information Literacy and Research (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#information)	3
Human Behavior (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#behavior)	3
Human Creativity (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#creativity)	3
Interpreting the Past (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#interpret)	3
Literature (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#literature)	3
Philosophy and Ethics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#philosophy)	3
The Nature of Science (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#nature)	8
Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

Written Communication: Grade of C or better required in both written communication courses and in ENGL 110C before declaring major.

Mathematics: MATH 162M required.

Impact of Technology: met with CYSE 200T/IT 200T in the major

Human Behavior: CRJS 215S or DASC 205S/SOC 205S

Upper-Division General Education

Met in the major.

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.

- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Cyber Risk Management Major

General Education

Complete lower-division requirements 38-44

Complete upper-division requirements (met in the major)

Prerequisite Courses

IT 201	Introduction to Information Systems	3
IT 315	Introduction to Networking and Security	3

Core Courses

IDS 300W	Interdisciplinary Theory and Concepts	3
CYSE/IT 200T	Cybersecurity, Technology, and Society	3
CYSE 201S	Cybersecurity and the Social Sciences	3
CYSE 250	Basic Cybersecurity Programming and Networking	3
CYSE 300	Introduction to Cybersecurity	3
CYSE 301	Cybersecurity Techniques and Operations	3
CYSE 368 or CYSE 494	Cybersecurity Internship Entrepreneurship in Cybersecurity	3
CYSE/CRJS/CPD 406	Cyber Law	3
CYSE 425W or POLS 425W	Cybersecurity Strategy and Policy (C or better required) Cybersecurity Strategy and Policy	3
CS 462	Cybersecurity Fundamentals	3
IDS 493	IDS Electronic Portfolio Project	3

Principles Courses

Select three of the following: 9

CYSE 430	Introduction to Cybersecurity Risk Management
CYSE 431	Advanced Techniques Cybersecurity Risk Management
CYSE 432	Cyber Risk CSF/CMMC
CYSE 433	Cyber Risk FedRAMP/Audit

Select two of the following: 6

RMI 317	Principles of Risk Management and Insurance
RMI 412	Property & Liability Insurance Company Operations
IT 417	Management of Information Security
IT 418	Enterprise Information Assurance

Electives (minimum of 19 credit hours)

Students can take the electives from any discipline at ODU and/or complete prerequisites for Principles and Application courses, as needed, to complete the required 120 credit hours. However, no more than 29 credits from courses in the Strome College of Business may be applied to the degree requirements, including named elective courses and general electives (ACCT, BNAL, BUSN, ECON, ENTR, FIN, INBU, IT, MGMT, MKTG, MSCM, OPMT, PAS, PORT, REST, RMI).

Total Credit Hours 111-117

* No more than 29 credits from courses in the Strome College of Business may be applied to the degree requirements, including named elective courses and general electives (ACCT, BNAL, ECON, FIN, IT, OPMT, MSCM, MGMT, ENTR, MKTG).

+ Other courses may be substituted with the approval of the program coordinator.

No more than two classes, or six credits, may be counted for both the major and a minor. Some minors may allow fewer credits to share.

Electives

Elective credit may be needed to meet the minimum of 120 hours required for the degree.

Degree Program Guide

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

Language and Culture I & II may be met in high school and are not included in this four-year plan. Please see requirement details.

Certificate Cyber Risk Management Certificate

The purpose of the undergraduate certificate in Cyber Risk Management is to educate students in cybersecurity to prevent cyber-attacks using steps zero through three of the National Institute of Standards and Technology (NIST) Risk Management Framework (RMF).

Requirements

Course requirements are as follows.

CYSE 300	Introduction to Cybersecurity	3
CYSE 430	Introduction to Cybersecurity Risk Management	3
CYSE 431	Advanced Techniques Cybersecurity Risk Management	3
CYSE 432	Cyber Risk CSF/CMMC	3
CYSE 433	Cyber Risk FedRAMP/Audit	3
Total Credit Hours		15

For completion of the certificate, students must have a minimum cumulative grade point average of 2.00 in all courses specified as a requirement for the certificate and complete a minimum of six hours in upper-level courses required for the certificate through courses offered by Old Dominion University.

School of Data Science

Holly Handley, Dean (Interim)
Frank Liu, Director

The School of Data Science is designed to organize data science academic and research activities (with degrees and certificates tailored to regional workforce needs) while leveraging research partnerships with nearby national labs (Jefferson Lab, NASA Langley, and Wallops Flight Facility) to develop a targeted scientific focus in data science. The School's objectives include developing high-impact, cross-disciplinary research initiatives that center on data science and conducting outreach and community engagement, being a sources of data science expertise to the community, the Hampton Roads region, the Commonwealth of Virginia, and the nation.

Programs

Bachelor of Science Programs

- Data Science (BS) (p. 498)
- Data Science with a Major in Data for a Human World (BS) (p. 502)

Minor Program

- Data Science Minor (p. 503)
- Humanities and Data Science Minor (p. 504)

Bachelor of Science Data Science (BS)

Web Site: <https://www.odu.edu/datascience> (<https://www.odu.edu/datascience/>)

Dr. Frank Liu, School Director (flu@odu.edu)

The increased amount of available data has escalated the demand for data science professionals. The purpose of the BS in Data Science program is to provide students with foundational knowledge in the core competency areas of data science. Students will learn to use data to identify trends and patterns, solve problems, communicate results, and recommend solutions. The program will provide opportunities for students to practice these skills across application areas from different domains (e.g., geography, business, education). Graduates of this program will have the computer science, mathematics and statistics, and data analytics knowledge, skills, and abilities to work as data professionals.

For more information about the program, please email the Undergraduate Program Director at dsupd@odu.edu.

Requirements

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6

Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

Mathematics: Met with STAT 130M in Foundations.

Human Behavior: May not be met with DASC 205S or SOC 205S.

Philosophy and Ethics: Met with DASC 357E/PHIL 357E in the major.

Impact of Technology: Met with BDA 200T in the major.

Upper-Division General Education

Met in the major.

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Data Science Major

General Education

Complete lower-division requirements	32-38

Upper Division General Education (met in the major)

Foundation Courses

MATH 163	Precalculus II **	3
STAT 130M	Elementary Statistics	3
Select one of the following programming options:		
DASC 157 & DASC 257	Introduction to Data Science Programming and Data Science Programming	
CS 153 & DASC 255	Introduction to Programming with Python and Data Processing with Python	
CS 153 & CS 251	Introduction to Programming with Python and Programming with Java	

Core Requirements

BDA 200T	Elements of Data Science	3
DASC/SOC 205S	Data, Technology, Society	3
DASC 300	Foundations of Data Science	3
DASC/PHIL 357E	Ethics and Data	3
DASC 434	Data Curation and Management	3
IT 360T	Principles of Information Technology	3
IT 450	Database Concepts	3
STAT 310	Introductory Data Analysis	3
DASC 436W	Data Science Capstone Project *	3

Complete an area of specialization (27-30 credits) 27-30

Total Credit Hours 100-109

* Writing Intensive: C or better required.

**

MATH 162M may be needed as a prerequisite.
Recommend taking as an elective if needed.

No more than two classes, or six credits, may be counted for both the major and a minor. Some minors may allow fewer credits to share.

Data Science Areas of Specialization

Students in the Bachelor of Science in Data Science degree program must focus their studies in one of the specialized areas listed below.

The Artificial Intelligence and Machine Learning area requires completion of the following:

Required Courses

MATH 211	Calculus I	4
MATH 212	Calculus II	4
MATH 316	Introductory Linear Algebra	3
CS 252	Introduction to Unix for Programmers	1
CS 422	Introduction to Machine Learning	3
Select five of the following approved area electives:		15
BDA 431	Modern Statistical Methods for Big Data Analytics	
BDA 432	Introduction to Optimization in Data Science	
CS 361	Data Structures and Algorithms	
CS 432	Web Science	
CS 469	Data Analytics for Cybersecurity	
CS 480	Introduction to Artificial Intelligence	
CYSE 420	Applied Machine Learning in Cybersecurity	
DASC 324	Introduction to Data Visualization	
DASC 424	Data Storytelling	
ECE 407	Introduction to Game Development	
GEOG 402	Geographic Information Systems	
IT 452	Cloud Database	
IT 453	Advanced Database Concepts	
STAT 331	Theory of Probability	
STAT 405	Introduction to Data Handling	
STAT 437	Applied Regression and Time Series Analysis	

Total Credit Hours 30

The Data Visualization area requires completion of the following:

Required Courses

COMM 260	Understanding Media	3
COMM 303	Introduction to Strategic Communications	3
DASC 324	Introduction to Data Visualization	3
DASC 424	Data Storytelling	3
IT 150G	Basic Information Literacy and Research	3
IT 325	Web Site and Web Page Design	3
Select four of the following approved area electives:		12
BNAL 206	Business Analytics I	
BNAL 306	Business Analytics II	
BNAL 403	Data Visualization and Exploration	
COMM 402	Communicating Data	
CRJS 344	Social Science and Crime Mapping	
CS 361	Data Structures and Algorithms	
CS 432	Web Science	
DASC 312	The Art of Data Visualization	
ECE 406	Computer Graphics and Visualization	
ECE 407	Introduction to Game Development	
ENGL 307T	Digital Writing	
or ENGL 334W Technical Writing		

GAME 201T	Introduction to Game Studies
GAME 340	Visual Design and Digital Graphics for Games
GAME 440	Advanced Visual Design and Digital Graphics for Games
GEOG 300	Maps and Geographic Information
or GEOG 402	Geographic Information Systems
IT 452	Cloud Database
IT 453	Advanced Database Concepts

Total Credit Hours 30

The Geospatial Analytics area requires completion of the following:

Required courses

GEOG 102T	Digital Earth: Geospatial Technology and Society	3
GEOG 402	Geographic Information Systems	3
GEOG 404	Digital Techniques for Remote Sensing	3
GEOG 425	Internet Geographic Information Systems	3
GEOG 432	Advanced GIS	3
GEOG 462	Advanced Spatial Analysis	3
Select three of the following approved area electives:		9
CRJS 344	Social Science and Crime Mapping	
CS 361	Data Structures and Algorithms	
CS 422	Introduction to Machine Learning	
CS 432	Web Science	
CS 480	Introduction to Artificial Intelligence	
DASC 324	Introduction to Data Visualization	
DASC 424	Data Storytelling	
GEOG 300	Maps and Geographic Information	
GEOG 463	GIS Programming	
IT 452	Cloud Database	
IT 453	Advanced Database Concepts	

Electives

Elective credit may be needed to meet the minimum of 120 hours required for the degree.

Degree Program Guide

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

Specialization Area: Artificial Intelligence and Machine Learning

Bachelor of Science Data Science with a Major in Data for a Human World (BS)

Web Site: <https://www.odu.edu/datascience> (<https://www.odu.edu/datascience/>)

Dr. Frank Liu, School Director (flu@odu.edu)

The increased amount of available data has escalated the demand for data science professionals. Data Science is a field of scientific methods, processes, and systems to extract knowledge or insights from a variety of data sources. The Major in Data for a Human World provides coursework allowing students to explore diverse pathways in Data Science, including intersections with the Humanities, Geography, Computer Science, Mathematics and the Visual Arts. The major creates an interdisciplinary understanding of Data Science by developing critical thinking and problem-solving skills from other perspectives and apply writing, communication, and creativity skills to applications in Data Science.

For more information about the program contact Dr. Teresa Kouri Kissel (tkouri@odu.edu), Associate Professor of Philosophy & Religious Studies.

Requirements

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6
Oral Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#oral)	3
Mathematics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#math)	3
Language and Culture (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#language)	0-6
Information Literacy and Research (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#information)	3
Human Behavior (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#behavior)	3
Human Creativity (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#creativity)	3
Interpreting the Past (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#interpret)	3
Literature (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#literature)	3
Philosophy and Ethics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#philosophy)	3
The Nature of Science (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#nature)	8
Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

Mathematics: Met with STAT 130M in Foundations.

Human Behavior: May not be met with DASC 205S or SOC 205S.

Philosophy and Ethics: Met with DASC 357E/PHIL 357E in the major.

Impact of Technology: Met with BDA 200T in the major.

Upper-Division General Education

Met in the major.

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Data for a Human World Major

General Education

Complete lower-division requirements 32-38

Upper Division General Education (met in the major)

Foundation Courses

MATH 163	Precalculus II **	3
STAT 130M	Elementary Statistics	3

Select one of the following programming options: 8

DASC 157 & DASC 257	Introduction to Data Science Programming and Data Science Programming	
CS 153 & DASC 255	Introduction to Programming with Python and Data Processing with Python	
CS 153 & CS 251	Introduction to Programming with Python and Programming with Java	

Core Requirements

BDA 200T	Elements of Data Science	3
DASC/SOC 205S	Data, Technology, Society	3
DASC 300	Foundations of Data Science	3
DASC/PHIL 357E	Ethics and Data	3
DASC 434	Data Curation and Management	3
IT 360T	Principles of Information Technology	3
IT 450	Database Concepts	3
STAT 310	Introductory Data Analysis	3
DASC 436W	Data Science Capstone Project *	3

Major Electives

Select three of the following: 9

COMM 402	Communicating Data	
ENGL 370	English Linguistics	
HIST 396	Topics in History ***	
IDS 301	Data and Humanities Research	
PHIL 447	Philosophy of Information	
SOC 309	Population and Society	
WGS 495	Topics in Women's, Gender, and Sexuality Studies ***	

Select six of the following: 18

COMM 303	Introduction to Strategic Communications	
COMM 408	Health Communication	
CRJS 344	Social Science and Crime Mapping	
ENGL 334W	Technical Writing	
GEOG 300	Maps and Geographic Information	
GEOG 402	Geographic Information Systems	

IDS 300W	Interdisciplinary Theory and Concepts	
QUST/WGS 302W	Dimensions of Diversity: Intersectionality Among Women	
PHIL/AI 446	Artificial Intelligence (AI) Ethics and Policy	
SOC 337	Social Research Methods	
WGS 470	Feminist Research Methods	
Total Credit Hours		100-106

- * Writing Intensive: C or better required.
- ** MATH 162M may be needed as a prerequisite. Recommend taking as an elective if needed.
- *** Coordinator approval required (Topics course).

No more than two classes, or six credits, may be counted for both the major and a minor. Some minors may allow fewer credits to share.

Electives

Elective credit may be needed to meet the minimum of 120 hours required for the degree.

Degree Program Guide

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

Minor

Data Science Minor

This interdisciplinary minor in data science is focused on the analytical and ethical principles of data collection, data analysis, and the application of data in various domains. An interdisciplinary foundation is used to demonstrate the connections between phenomena studied by scientists and the impact of scientific data analysis on businesses and societies. The program includes coursework focusing on the principles of data analysis as well as coursework selected by students to apply those principles to topical domains.

Requirements

Required Courses		
DASC 300	Foundations of Data Science	3
DASC 357E	Ethics and Data	3
<i>Select two of the following:</i>		6-8
BDA 401	Programming Languages for Data Science	

BDA 411	Introduction to Machine Learning
BIOL 451	Bioinformatics and Genomics I
BIOL 454	Research in Pathogen Biology I: Laboratory Investigation
BIOL 455	Research in Pathogen Biology II: Analysis
BNAL 306	Business Analytics II
CYSE 420	Applied Machine Learning in Cybersecurity
CS 422	Introduction to Machine Learning
CS 432	Web Science
CS 480	Introduction to Artificial Intelligence
CRJS 344	Social Science and Crime Mapping
CRJS/SOC 436	Capstone Research Project
ECE 407	Introduction to Game Development
ECON 311	Analytical Tools for Economists
ECON 400	From Correlation to Causation: Applied Causal Inference
ENVH 448	Epidemiology and Biostatistics
EXSC 420	Research Methods in Exercise Science
GAME 440	Advanced Visual Design and Digital Graphics for Games
GEOG 402	Geographic Information Systems
GEOG 425	Internet Geographic Information Systems
HPE 406	Tests and Measurement in Physical Education and Health
OEAS 451W	Data Collection and Analysis in Oceanography
POLS 418	Quantitative Methods
PUBH 445	Health Services Research Methods
PUBH 461	Managerial Epidemiology
SEPS 420	Fashion Research
STAT 310	Introductory Data Analysis
STEM 382	Industrial Design

Total Credit Hours **12-14**

For completion of a minor, a student must have a minimum grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of lower-level courses and prerequisite courses and complete a minimum of six hours in upper-level courses in the minor requirement through courses offered by Old Dominion University.

Three credit hours in the interdisciplinary minor may be in the major if a major course is listed as an option for the interdisciplinary minor. As such, it will be credited toward both the major and the interdisciplinary minor. Interdisciplinary minors require twelve credit hours of 300/400-level courses selected from at least two different disciplines with a maximum of six credits from any one discipline. Course substitutions may be approved by the interdisciplinary minor coordinator.

Minor

Humanities and Data Science

Minor

The Humanities and Data Science interdisciplinary minor provides the opportunity to expose Humanities majors to Data Science concepts, increasing their opportunity to participate in Data Science related fields.

Requirements

DASC 300	Foundations of Data Science	3
DASC/PHIL 357E	Ethics and Data	3
Select two of the following:		6

COMM 303	Introduction to Strategic Communications
COMM 408	Health Communication
COMM 402	Communicating Data
ENGL 334W	Technical Writing
ENGL 370	English Linguistics
GEOG 300	Maps and Geographic Information
HIST 396	Topics in History (3 credits) *
IDS 300W	Interdisciplinary Theory and Concepts
IDS 301	Data and Humanities Research
PHIL/AI 446	Artificial Intelligence (AI) Ethics and Policy
PHIL 447	Philosophy of Information
SOC 309	Population and Society
SOC 337	Social Research Methods
WGS/QUST 302W	Dimensions of Diversity: Intersectionality Among Women
WGS 470	Feminist Research Methods
WGS 495	Topics in Women's, Gender, and Sexuality Studies *

* Minor coordinator approval required.

For completion of a minor, a student must have a minimum grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of lower-level courses and prerequisite courses and complete a minimum of six hours in upper-level courses in the minor requirement through courses offered by Old Dominion University.

Three credit hours in the interdisciplinary minor may be in the major if a major course is listed as an option for the interdisciplinary minor. As such, it will be credited toward both the major and the interdisciplinary minor. Interdisciplinary minors require twelve credit hours of 300/400-level courses selected from at least two different disciplines with a maximum of six credits from any one discipline. Course substitutions may be approved by the interdisciplinary minor coordinator.

Darden College of Education and Professional Studies

Web Site: <http://www.odu.edu/education> (<http://www.odu.edu/education/>)

Tammi Dice, Dean

Maggie Barber, Associate Dean, Academic Programs and Assessment

Petros Katsioloudis, Associate Dean, Faculty Affairs and Research

Jennifer Simmons, Assistant Dean, Student Affairs and Engagement

The Darden College of Education and Professional Studies is comprised of the following departments: Counseling and Human Services; Educational Leadership and Workforce Development; Human Movement Studies and Special Education; Science, Technology, Engineering and Mathematics (STEM) Education and Professional Studies; and Teaching and Learning.

Mission

To advance our communities through research, teaching and service activities that reflect our commitment to excellence, innovation and transformation.

Vision

The Darden College of Education and Professional Studies is dedicated to continually improving the lives of our communities - those groups of people linked by diverse needs, affiliation, or purpose - through culturally-affirming research, teaching, and service. The College will be a premier leader in preparing individuals for professions in education, industry, service and clinical environments.

Departments

- Counseling and Human Services (p. 506)
- Educational Leadership and Workforce Development (p. 513)
- Human Movement Studies and Special Education (p. 529)
- Science, Technology, Engineering, and Mathematics (STEM) Education and Professional Studies (p. 554)
- Teaching & Learning (p. 554)

Programs

Bachelor of Science Programs

- Career and Technical Education with a Major in Marketing Education (BS) (p. 514)
- Career and Technical Education with a Major in Technology Education (BS) (p. 517)
- Early Childhood Education (BS) (p. 557)
- Elementary Education (BS) (p. 560)
- Human Services (BS) (p. 506)
- Occupational and Technical Studies with a Major in Fashion Merchandising (BS) (p. 521)
- Occupational and Technical Studies with a Major in Industrial Technology (BS) (p. 523)
- Occupational and Technical Studies with a Major in Training Specialist (BS) (p. 525)
- Park, Recreation and Tourism Studies with a Major in Park and Recreation Management (BS) (p. 529)
- Park, Recreation and Tourism Studies with a Major in Tourism and Hospitality Management (BS) (p. 532)
- Physical Education with a Major in Coaching and Physical Activity Leadership (BS) (p. 534)
- Physical Education with a Major in PreK-12 Health and Physical Education (BS) (p. 537)
- Special Education with a Major in Early Intervention/Early Childhood Special Education (Birth-5) (BS) (p. 541)
- Special Education with a Major in Special Education Adapted Curriculum K-12 (BS) (p. 544)

- Special Education with a Major in Special Education General Curriculum K-12 (BS) (p. 548)
- Sport Management (BS) (p. 551)

Minor Programs

- Addiction Prevention and Treatment Minor (p. 513)
- Coaching Education Minor (p. 540)
- Fashion Merchandising Minor (p. 523)
- Health Education Minor (p. 540)
- Human Services Minor (p. 513)
- Impact of Technology Minor (p. 520)
- Marketing Education Minor (p. 520)
- Park, Recreation and Tourism Management Minor (p. 534)
- Physical Education Minor (p. 540)
- Special Education Minor (p. 551)
- Sport Management Minor (p. 554)
- Training and Development Minor (p. 528)

Certificate Programs

- Addiction Prevention and Treatment Certificate (p. 513)
- Industrial Training Certificate (p. 528)

BA or BS to MBA (Master of Business Administration) Linked Program

The linked BA/MBA or BS/MBA program is an early entry to the MBA program of study. The early-entry program is designed for well qualified non-business undergraduate ODU students to start their MBA program prior to completing their undergraduate degree. Well qualified non-business undergraduate students may take MBA-level courses as early as three semesters prior to graduation and count up to 12 graduate credits toward their undergraduate degree. Students participating in the early-entry program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree). Early-entry program students should carefully consider their undergraduate degree program requirements when planning their course of study. Students in the early-entry program work in close consultation with the MBA Program Office and should refer to information in the Strome College of Business section in the graduate catalog (<http://catalog.odu.edu/graduate/stromecollegeofbusiness/>) to develop an individualized plan of study based on the required coursework.

BA or BS to MPA (Master of Public Administration) Linked Program

The linked BA/MPA or BS/MPA program provides qualified Old Dominion University undergraduate students with the opportunity to earn a master's degree in public administration while taking credits in the MPA program as an undergraduate student. The program is designed for highly motivated students with the desire to immediately continue their education after the bachelor's degree. The program is especially relevant to individuals seeking to work (or currently working) in the public or non-profit sectors, but is suitable for students from any undergraduate major. Graduate courses may be taken during the fall and spring semester of the student's senior undergraduate year. Up to 12 graduate credits can count toward both the undergraduate and graduate degree and can meet upper-level General Education requirements. After receiving the undergraduate degree, a student will continue with the MPA program, taking MPA courses until completing the required 39 credit hours. Students in the linked program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Requirements for admission to the graduate program can be found in the School of Public Service section of the Graduate Catalog (<http://catalog.odu.edu/graduate/business/public-service/>). For additional information, please contact the School of Public Service in the Strome College of Business.

Centers and Institutes

Career and Advising Resource Center

<https://www.odu.edu/eps/advising/undergraduate> (<https://www.odu.edu/eps/advising/undergraduate/>)

Rob Batchelder, Director of Advising
1107 Education Building (757) 683-4789

The Career and Advising Resource Center (CARC) provides career and academic advising services for students in the Darden College of Education and Professional Studies. Students who visit CARC are encouraged to plan for their academic program and investigate career opportunities through exploration and engagement with an academic advisor. CARC provides students access to university resources including the Center for Career & Leadership Development and Student Enrollment, Engagement & Services. CARC advisors believe in a collaborative partnership to maximize the potential of each student, and are available to answer any questions as students discover their academic and career plans.

Office of Clinical Experiences

<https://www.odu.edu/oce> (<https://www.odu.edu/oce/>)

Jennessa Libby-Reynolds, Director
1107 Education Building (757) 683-3348

The Office of Clinical Experiences is committed to effectively and efficiently supporting all students in the Darden College of Education and Professional Studies who engage in field experiences. The services provided assist in preparing students for their professions in education, industry, service and clinical environments.

Counseling and Human Services

Web Site: <http://www.odu.edu/chs> (<http://www.odu.edu/chs/>)

Mark Refhuss, Chair

The Department of Counseling and Human Services offers one undergraduate program, the Bachelor of Science in human services. On the graduate level, the department offers the Master of Science in Education in counseling, an advanced Education Specialist degree in counseling, and a counseling emphasis in the PhD in Education program. Once admitted to the human services program, students must consult their advisors regarding program requirements and selection of courses.

Programs

Bachelor of Science Program

- Human Services (BS) (p. 506)

Minor Programs

- Addiction Prevention and Treatment Minor (p. 513)
- Human Services Minor (p. 513)

Certificate Program

- Addiction Prevention and Treatment Certificate (p. 513)

Bachelor of Science Human Services (BS)

Kristy Carlisle, Undergraduate Program Director
Chaniece Winfield, Online Program Coordinator

The program leading to the Bachelor of Science in human services prepares students for entry-level positions in a wide variety of community service settings. Students in the program learn the roles and functions of the human service profession; characteristics of human growth and development; personal, social, and environmental factors affecting individual development; characteristics of human service agencies; theories and skills of human services; and how ethical issues, legal issues, and

multicultural issues affect the work of the human service profession. Graduates are prepared to assist clients in coping successfully with developmental tasks of normal growth and in solving problems caused by personal, social, and environmental stress. Graduates may be employed in a wide variety of settings including mental health, disability services, substance abuse, aging/gerontology, domestic violence, child and youth services, correction/criminal justice, health care, recreation/fitness, and vocational rehabilitation.

Admission

Students must have a grade point average of 2.00 or above and have successfully completed ENGL 110C and ENGL 211C or ENGL 231C. A grade of C or better must be earned in ENGL 110C and ENGL 211C or ENGL 231C to meet the undergraduate writing program requirement.

Requirements

All human services majors must satisfy the Bachelor of Science in human services core requirements, major requirements, minor requirements, any applicable electives, and General Education requirements as listed below.

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6
Oral Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#oral)	3
Mathematics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#math)	3

Written Communication Skills: Grade of C or better required in both courses

Mathematical Skills: STAT 130M preferred.

Human Behavior: SOC 201S (C or better) required.

Oral Communication: Satisfied by HMSV 339 in the major.

Upper-Division General Education

Select one option from the following:

- Option A. Approved Disciplinary Minor (a minimum of 12 hours determined by the department) or Second Major or Second Degree
- Option B. Interdisciplinary Minor (specifically 12 hours, 3 of which may be in the major)
- Option C. An approved Certification Program such as teaching licensure
- Option D. Two Upper-Division Courses from outside the College of Education and Professional Studies and not required by the major (6 hours)

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Human Services Major

General Education

Complete lower-division requirements	38-44
Complete upper-division requirements (minimum of 6 credit hours)	6

Human Services

HMSV 339	Interpersonal Relations	3
HMSV 341	Introduction to Human Services	3
HMSV 343	Human Services Methods	3
HMSV 344	Career Development and Appraisal	3
HMSV 346	Diversity Issues in Human Services	3
HMSV 368	Case Management & Crisis Techniques through Field Observation	3
HMSV 440W	Program Development, Implementation, and Funding	3
HMSV 444	Psycho-educational Groups	3
HMSV 449	Crisis Intervention, Prevention and Ethics	3
HMSV 491	Family Guidance	3
HMSV 468	Internship in Human Services	12
Select one of the following:		3
HMSV 447	Introduction to Substance Abuse *	
HMSV 448	Interventions and Advocacy with Children	
Select one of the following:		3
HMSV 452	Substance Abuse Treatment and Research *	
HMSV 494	Entrepreneurship in Human Services and Non-Profit Fundraising *	

Total Credit Hours	92-98

* For students pursuing credentialing as a CSAC or CADC following graduation, HMSV 447 must be taken as the HMSV elective. Additionally, HMSV 452 must be selected as part of the required curriculum instead of HMSV 494. Please see the section below on Substance Abuse Course Sequence for additional information.

Electives

Elective credit will be needed to meet the minimum of 120 hours required for the degree.

Additional Requirements and Information

A one-semester, unpaid internship (HMSV 468) is required after all other General Education courses, core courses, major courses, and minor courses are completed. Students are not to take any other courses when enrolled in the internship. Requirements for the internship include a minimum cumulative GPA of 2.0 overall and in the major and minor. Students must

earn a grade of C (2.00) or better in all HMSV courses before taking the internship.

Students' prior coursework will be evaluated by an advisor at the time of admission to the program. Following admission, students must obtain permission from an authorized faculty advisor before registering. Students should obtain a curriculum sheet from the Human Services website http://education.odu.edu/chs/academics/human_services/ or from their academic advisor to assist in making course selections. Students must adhere to all course prerequisites and corequisites as stated in the course descriptions and on the curriculum sheets.

Human Services Double Major Options

Human services majors can elect to double major in the areas listed below. Combining interest areas between two majors allows more versatility for students' future through enhanced opportunities to pursue graduate school and strengthening employability. In addition, several of these double major opportunities include specialized certificates to further demonstrate students' commitment and leadership in their field of choice.

Human Services and Sociology

The Department of Counseling and Human Services and the Department of Sociology and Criminal Justice have created an opportunity for undergraduate students to major in both human services and sociology. Both majors can be earned within the 120 credit hours required for an undergraduate degree. Within this double major, students have an opportunity to pursue a certificate in addiction prevention and treatment. Students who select the addiction prevention and treatment option will graduate with a certificate in addiction prevention and treatment.

Human Services and Criminal Justice

The Department of Counseling and Human Services and the Department of Sociology and Criminal Justice have created an opportunity for undergraduate students to major in both human services and criminal justice. Both majors can be earned within the 120 credit hours required for an undergraduate degree. Within this double major, students have an opportunity to pursue a certificate in addiction prevention and treatment. Students who select the addiction prevention and treatment option will graduate with a certificate in addiction prevention and treatment.

Human Services and Interdisciplinary Studies - Leadership

The Department of Counseling and Human Services and the Department of Interdisciplinary Studies have created an opportunity for undergraduate students to major in both human services and interdisciplinary studies-leadership. Both majors can be earned within the 120 credit hours required for an undergraduate degree. Within this double major, students will be exposed to a number of fields of study to enhance their knowledge and skills in the area of leadership, professional writing, and technology, while engaging in human services coursework. In addition, students may pursue two specialized certificates within the double major – addiction prevention and treatment and professional leadership.

Students interested in these double major options should contact the Human Services Director for more information, HMSVupd@odu.edu.

Departmental Honors

Students may earn the designation of departmental honors on their diplomas by completing the minimum University standards for honors designation in addition to the human services program standards. Specifically, the standards are:

1. Minimum cumulative GPA of 3.25.
2. Minimum major GPA of 3.5.
3. Completion of at least two 300-400 level courses designated by the department to be honors courses.

4. Completion of at least 60 credit hours at Old Dominion University, 54 of which must be in grade-point graded courses.
5. Completion of a scholarly experience such as a research project with a human services faculty mentor. HMSV 397 Independent Study: Guided Research in Human Services can be taken as an elective course and will qualify as a scholarly experience. Students enrolled in this course may conduct individual or group projects focused on research, literature review, or methodology development. All work is conducted under the supervision and evaluation of a program faculty member. Please contact Dr. Kristy Carlisle, kcarlisl@odu.edu, for more information regarding this course.

Contact the program director, Dr. Kristy Carlisle kcarlisl@odu.edu for more information about this opportunity.

Substance Abuse Course Sequence

For those wishing to pursue credentialing as a Certified Substance Abuse Counselor (CSAC) or Certified Alcohol and Drug Counselor (CADC), the following must be completed: all HMSV degree requirements (core requirements, major requirements, minor requirements, any applicable electives, and General Education requirements) with the selection of HMSV 447 and HMSV 452 as required human services electives. Additionally, HMSV 468 (Internship) is recommended to be in a substance abuse treatment setting.

Degree Program Guide

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

BS Human Services to MSED Counseling Linked Program

There is a linked program available to qualified students under existing university policy to link the Bachelor of Science with a major in Human Services (p. 506) undergraduate program with the Master of Science in Education (Counseling with a Concentration in Clinical Mental Health Counseling) (<http://catalog.odu.edu/graduate/education/counseling-human-services/counseling-clinical-mental-health-msed/>) or Master of Science in Education (Counseling with a Concentration in School Counseling) (<http://catalog.odu.edu/graduate/education/counseling-human-services/counseling-school-msed/>) graduate program. See program director for additional details.

Advanced students in the human services major with excellent academic achievement may apply to take up to 4 courses (12 credit hours) in the counseling M.S.Ed. program. If interested in pursuing the full M.S.Ed. degree, students may complete their bachelor's degree and master's degree in 180 credit hours or approximately 6 full years.

Admissions

Admission to the linked program requires the following:

1. Completion of at least 60 credit hours and attainment of Junior status.
2. Declaration of Human Services as the academic major.
3. Completion of 9 credits hours in the Human Services program at ODU (HMSV 341, HMSV 339, and HMSV 343).
4. A minimum GPA of 3.3, which must be maintained.

Application

Students who meet the above minimum criteria should contact the graduate program director of the counseling program. Once admitted into the linked program, students may take:

1. COUN 601 Principles of Professional Counseling and Ethics
2. COUN 633 Counseling and Psychotherapy Techniques
3. COUN 650 Theories of Counseling and Psychotherapy
4. COUN 655 Social and Cultural Issues in Counseling

Counseling graduate courses completed with a B or better count towards the following requirements up to 12 credit hours:

- HMSV 346 Diversity Issues in Human Services;
- and either HMSV 491 Family Guidance or HMSV 344 Career Development and Appraisal;
- and either HMSV 448 Interventions and Advocacy with Children and HMSV 494 Entrepreneurship in Human Services and Non-Profit Fundraising **OR** HMSV 447 Introduction to Substance Abuse and HMSV 452 Substance Abuse Treatment and Research.

Note: Students must take courses based on their respective campus designation (either online or on-campus)

Full admission to the M.S.Ed.

Upon attaining senior status, students in the linked program complete their application to the M.S.Ed. program with two letters of recommendation and an essay on their goals for entering the M.S.Ed. in Counseling. Students must maintain their degree GPA of 3.3 and earn at least a B in the graduate classes to be eligible for admission to the M.S.Ed.

BA or BS to MBA (Master of Business Administration) Linked Program

The linked BA/MBA or BS/MBA program is an early entry to the MBA program of study. The early-entry program is designed for well qualified non-business undergraduate ODU students to start their MBA program prior to completing their undergraduate degree. Well qualified non-business undergraduate students may take MBA-level courses as early as three semesters prior to graduation and count up to 12 graduate credits toward their undergraduate degree. Students participating in the early-entry program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree). Early-entry program students should carefully consider their undergraduate degree program requirements when planning their course of study. Students in the early-entry program work in close consultation with the MBA Program Office and should refer to information in the Strome College of Business section in the graduate catalog (<http://catalog.odu.edu/graduate/stromecollegeofbusiness/>) to develop an individualized plan of study based on the required coursework.

BA or BS to MPA (Master of Public Administration) Linked Program

The linked BA/MPA or BS/MPA program provides qualified Old Dominion University undergraduate students with the opportunity to earn a master's degree in public administration while taking credits in the MPA program as an undergraduate student. The program is designed for highly motivated students with the desire to immediately continue their education after the bachelor's degree. The program is especially relevant to individuals seeking to work (or currently working) in the public or non-profit sectors, but is suitable for students from any undergraduate major. Graduate courses may be taken during the fall and spring semester of the student's senior undergraduate year. Up to 12 graduate credits can count toward both the

undergraduate and graduate degree and can meet upper-level General Education requirements. After receiving the undergraduate degree, a student will continue with the MPA program, taking MPA courses until completing the required 39 credit hours. Students in the linked program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Requirements for admission to the graduate program can be found in the School of Public Service section of the Graduate Catalog (<http://catalog.odu.edu/graduate/business/public-service/>). For additional information, please contact the School of Public Service in the Strome College of Business.

Minor

Human Services Minor

Requirements

Area I Courses

HMSV 339	Interpersonal Relations	3
HMSV 341	Introduction to Human Services	3
HMSV 343	Human Services Methods	3
HMSV 346	Diversity Issues in Human Services	3

Area II Courses

Select one of the following:		3
HMSV 344	Career Development and Appraisal	
HMSV 447	Introduction to Substance Abuse	
HMSV 448	Interventions and Advocacy with Children	
HMSV 449	Crisis Intervention, Prevention and Ethics	
HMSV 491	Family Guidance	

Total Credit Hours 15

For completion of a minor, a student must have a minimum overall cumulative grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of prerequisite courses and complete a minimum of six hours in upper-level courses in the minor requirement through courses offered by Old Dominion University.

Minor

Addiction Prevention and Treatment Minor

The Addiction Prevention and Treatment minor complements many academic programs and majors by providing knowledge and experience in the 12 core competency areas identified by the Substance Abuse and Mental Health Services Administration [SAMSHA] as vital to knowledge, skills and attitudes required for professional practice in addiction services. In addition to fulfilling core competency areas required for addiction services, courses in this minor may meet the didactic education requirements for addiction credentialing, such as the Certified Substance Abuse Counselor* (CSAC) credential in Virginia.

*Students are strongly encouraged to contact their respective state board regarding didactic requirements for specific credentials.

Requirements

HMSV 341	Introduction to Human Services	3
HMSV 343	Human Services Methods	3
HMSV 368	Case Management & Crisis Techniques through Field Observation	3
HMSV 444	Psycho-educational Groups	3
HMSV 447	Introduction to Substance Abuse	3
HMSV 452	Substance Abuse Treatment and Research	3

Total Credit Hours 18

For completion of a minor, an undergraduate student must have a minimum grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of prerequisite courses and complete a minimum of six hours in upper-level courses in the minor requirement through courses offered by Old Dominion University.

Certificate

Addiction Prevention and Treatment Certificate

The certificate program consists of six courses in the human services program for a total of 18 credit hours. Students transferring from other institutions are required to have a transcript analysis to ensure that the appropriate prerequisite requirements are met. Students' prior coursework will be evaluated by an advisor at the time of admission to the certificate program.

HMSV 452	Substance Abuse Treatment and Research	3

Total Credit Hours 18

For completion of the certificate, students must have a minimum cumulative grade point average of 2.00 overall in all courses taken toward the certificate program, a grade of C or better in all prerequisite courses and courses applied to the certificate, and complete a minimum of six hours in upper-level courses required for the certificate through courses offered by Old Dominion University. Transfer courses require approval of the certificate coordinator. Non-Degree seeking students must have an Associate Degree or higher, with a minimum cumulative grade point average of 2.00 overall.

Educational Leadership and Workforce Development

Mickey Kosloski, Chair and Program Director for Marketing Education
Sharon Davis, Program Director for Fashion Merchandising
Basim Matrood, Program Director for Industrial Technology
Phil Reed, Program Director for Technology Education
Cindy Tomovic, Program Director for Training Specialist

The department offers undergraduate courses SEPS 400 and SEPS 408 often taken as part of bachelor's programs in teacher preparation. The department also offers the following general education courses: STEM 110T, STEM 251G, SEPS 223A, and SEPS 203S.

After earning an undergraduate degree, students may be interested in the master's and education specialist degree programs offered in PreK-12 Educational Leadership and Supervision and Higher Education. The department also offers PhD degrees in workforce and organizational development, educational leadership, community college leadership, and higher education leadership. Several licensure/endorsement/certificate areas are available for graduate students. Please refer to the the Graduate Catalog for information on these programs. (<http://catalog.odu.edu/graduate/>)

Bachelor of Science Programs

- Career and Technical Education with a Major in Marketing Education (BS) (p. 514)
- Career and Technical Education with a Major in Technology Education (BS) (p. 517)
- Occupational and Technical Studies with a Major in Fashion Merchandising (BS) (p. 521)

- Occupational and Technical Studies with a Major in Industrial Technology (BS) (p. 523)
- Occupational and Technical Studies with a Major in Training Specialist (BS) (p. 525)

Minor Programs

- Fashion Merchandising Minor (p. 523)

Satisfied in the major.

Requirements for Graduation

Students in marketing education and technology education licensure programs must have:

1. Minimum of 120 credit hours.
2. Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.

3. A 2.75 grade point average overall, in the major, and in the core.
4. Earned a passing grade in student teaching.
5. Completed ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better.
6. Completed the senior assessment.

Licensure requirements also include certificate of completion in First Aid/AED/CPR, Dyslexia Awareness Training, Child Abuse and Neglect Recognition and Intervention Training, and Regulations Governing the Use of Restraint and Seclusion in Elementary and Secondary Schools, and Cultural Competence Training.

Due to changing University requirements, national accreditation standards, and Commonwealth licensure regulations, the programs in the Darden College of Education and Professional Studies are under constant revision. Any changes resulting from these factors supersede the program requirements described in this Catalog. Students should obtain current program information from their advisors.

Additional Requirements and Information

Admission

For the most current information on the prescribed Virginia Board of Education admission assessment, visit the Office of Clinical Experiences website, <https://www.odu.edu/oce> (<https://www.odu.edu/oce/>).

Prescribed Virginia Board of Education Assessment for Admission to an Approved Teacher Education Program

Old Dominion University students seeking admission to an approved teacher education program must satisfy the Virginia Board of Education required assessment for admission into an approved teacher education program.

Students must have an interview with the program leader. Students must be admitted into the approved marketing education or technology education teacher preparation program prior to enrolling in SEPS 408.

For the most current information on the prescribed Virginia Board of Education admission assessment, visit the Virginia Department of Education at <https://www.doe.virginia.gov/>.

Continuance

Students in marketing education and technology education licensure programs must:

1. Satisfy University requirements.
2. Maintain a cumulative GPA of 2.75, a major GPA of 2.75 and a core GPA of 2.75 with no earned grade less than C- in all courses taken in the major and in the core.
3. Successfully complete SEPS 297.
4. Take and pass the appropriate PRAXIS Subject Assessment (Technology and Engineering Education – Content Knowledge, 5053 or Marketing Education – Content Knowledge, 5561) prior to or while enrolled in the Instructional Strategies course SEPS 408. All assessments must be passed prior to the start of the Teacher Candidate Internship Orientation session.

Background Clearance Requirement

Old Dominion University requires a background clearance check of candidates interested in many of the professional education programs. Professional education programs have several field experiences that are required for continuance and graduation from the program. The background clearance must be successfully completed prior to a field experience placement. Candidates will be provided a field experience placement when the background check process is completed with resolution of any issues. The process to complete the ODU clearance background check is located at: <https://www.odu.edu/oce/teacher-education/placement/background-checks> (<https://www.odu.edu/oce/teacher-education/placement/background-checks/>). The ODU clearance process includes: an FBI fingerprint, a child protective service/social service review, and a Virginia State Police sex offender registry review. Candidates interested in the professional education programs are advised to complete this clearance process immediately upon entry into the program since the clearance process takes a minimum of eight weeks to complete.

Assessments Required for Teacher Education Programs and Licensure

In order to obtain a Virginia teaching license, all teacher education students must attain passing scores on the appropriate teacher licensure exams. All students will take and attain a passing score on the appropriate Praxis Subject Area Assessment (Technology and Engineering Education – Content Knowledge, 5053 with a score of 162 or Marketing Education –

Content Knowledge, 5561 with a score of 147) in order to be eligible for student teaching and licensure. Score reports of all examinations must be on file in the Office of Clinical Experiences in the Education Building. To review more information on the Virginia Board of Education Prescribed Assessments, visit the Office of Clinical Experiences website, <https://www.odu.edu/oce> (<https://www.odu.edu/oce/>).

Licensure/Endorsement Programs

Licensure Program in Marketing Teacher Education

The licensure program in marketing teacher education is designed to prepare a person who has a business-related baccalaureate degree to be a marketing education teacher-coordinator. Participants who successfully complete this program will qualify to apply for a Virginia teaching license to teach marketing education.

Admission

Prior to entering this program students must hold a business-oriented baccalaureate degree in which 30 hours of marketing-related courses have been completed including at least three semester hours each of courses covering the marketing process, economics, personnel, the sales process, operations and organization, and promotion. Students must also have completed a rigorous general education program as outlined by the Commonwealth in its Licensure Regulations for Teachers. They must be interviewed and accepted by the marketing education program leader. Finally, students must attain or exceed the minimum score required by Virginia on the Praxis I examination. The Praxis I exam must be passed prior to admittance into teacher education and taking SEPS 408/SEPS 508.

Exit

Students must:

1. Complete the following courses:		
SEPS 297	Observation and Participation	1
SPED 313	Fundamentals of Human Growth and Development: Birth through Adolescence	3
TLED 408	Reading and Writing in Content Areas	3
SEPS 400/500	Instructional Systems Development	3
SEPS 401/501	Foundations of Career and Technical Education	3
SEPS 408/508	Advanced Classroom Issues and Practices in Career and Technical Education	3
SEPS 450/550	Assessment, Evaluation and Improvement	3
SEPS 485	Student Teaching	12
Total Credit Hours		31

2. Earn a 2.75 cumulative grade point average if licensure is at the undergraduate level and a 3.00 cumulative grade point average if licensure is at the graduate level; and
3. Document at least 4000 clock hours of marketing-related work experience completed within the past five years or complete SEPS 405.

Passing scores on the Praxis Subject Assessment, Marketing Education Content Knowledge are required before teacher internship. Passing scores must be attached to the teacher internship application.

Twelve hours of 500/600 level courses may be applied toward the Master of Science in occupational and technical studies, career and technical education teaching concentration.

Endorsement Program in Industrial Cooperative Training

The endorsement program in industrial cooperative training is designed to prepare a licensed teacher to be endorsed to teach industrial cooperative training in the public schools.

Admission

Prior to entering this program students must have or qualify for a Virginia Collegiate Professional or Postgraduate Professional License. Secondly, they must be interviewed and accepted by the program coordinator.

Exit

Students must:

1. Complete the following courses:

BA or BS to MBA (Master of Business Administration) Linked Program

The linked BA/MBA or BS/MBA program is an early entry to the MBA program of study. The early-entry program is designed for well qualified non-business undergraduate ODU students to start their MBA program prior to completing their undergraduate degree. Well qualified non-business undergraduate students may take MBA-level courses as early as three semesters prior to graduation and count up to 12 graduate credits toward their undergraduate degree. Students participating in the early-entry program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree). Early-entry program students should carefully consider their undergraduate degree program requirements when planning their course of study. Students in the early-entry program work in close consultation with the MBA Program Office and should refer to information in the Strome College of Business section in the graduate catalog (<http://catalog.odu.edu/graduate/stromecollegeofbusiness/>) to develop an individualized plan of study based on the required coursework.

BA or BS to MPA (Master of Public Administration) Linked Program

The linked BA/MPA or BS/MPA program provides qualified Old Dominion University undergraduate students with the opportunity to earn a master's degree in public administration while taking credits in the MPA program as an undergraduate student. The program is designed for highly motivated students with the desire to immediately continue their education after the bachelor's degree. The program is especially relevant to individuals seeking to work (or currently working) in the public or non-profit sectors, but is suitable for students from any undergraduate major. Graduate courses may be taken during the fall and spring semester of the student's senior undergraduate year. Up to 12 graduate credits can count toward both the undergraduate and graduate degree and can meet upper-level General Education requirements. After receiving the undergraduate degree, a student will continue with the MPA program, taking MPA courses until completing the required 39 credit hours. Students in the linked program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Requirements for admission to the graduate program can be found in the School of Public Service section of the Graduate Catalog (<http://catalog.odu.edu/graduate/business/public-service/>). For additional information, please contact the School of Public Service in the Strome College of Business.

BA or BS to MBA (Master of Business Administration) Linked Program

The linked BA/MBA or BS/MBA program is an early entry to the MBA program of study. The early-entry program is designed for well qualified non-business undergraduate ODU students to start their MBA program prior to completing their undergraduate degree. Well qualified non-business undergraduate students may take MBA-level courses as early as three semesters prior to graduation and count up to 12 graduate credits toward their undergraduate degree. Students participating in the early-entry program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree). Early-entry program students should carefully consider their undergraduate degree program requirements when planning their course of study. Students in the early-entry program work in close consultation with the MBA Program Office and should refer to information in the Strome College of Business section in the graduate catalog (<http://catalog.odu.edu/graduate/stromecollegeofbusiness/>) to develop an individualized plan of study based on the required coursework.

BA or BS to MPA (Master of Public Administration) Linked Program

The linked BA/MPA or BS/MPA program provides qualified Old Dominion University undergraduate students with the opportunity to earn a master's degree in public administration while taking credits in the MPA program as an undergraduate student. The program is designed for highly motivated students with the desire to immediately continue their education after the bachelor's degree. The program is especially relevant to individuals seeking to work (or currently working) in the public or non-profit sectors, but is suitable for students from any undergraduate major. Graduate courses may be taken during the fall and spring semester of the student's senior undergraduate year. Up to 12 graduate credits can count toward both the undergraduate and graduate degree and can meet upper-level General Education requirements. After receiving the undergraduate degree, a student will continue with the MPA program, taking MPA courses until completing the required 39 credit hours. Students in the linked program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Requirements for admission to the graduate program can be found in the School of Public Service section of the Graduate Catalog (<http://catalog.odu.edu/graduate/business/public-service/>). For additional information, please contact the School of Public Service in the Strome College of Business.

Minor Marketing Education Minor

The minor in marketing education is offered by the department to students majoring in disciplines other than marketing education and technology education.

Requirements

SEPS 401	Foundations of Career and Technical Education	3
SEPS 402	Instructional Methods in Occupational Studies	3
SEPS 408	Advanced Classroom Issues and Practices in Career and Technical Education	3
SEPS 450	Assessment, Evaluation and Improvement	3
STEM 351	Communication Technology	3
Total Credit Hours		15

Students must pass the Praxis I examination prior to enrolling in SEPS 408. Students must have a minimum overall cumulative grade point average of 2.75 in all courses specified as a requirement for the minor exclusive of 100- and 200-level courses and prerequisite courses. Six hours of the 300/400-level courses must be taken through courses offered by Old Dominion University. All courses may be applied toward the licensure requirements to teach marketing education in Virginia.

Minor Impact of Technology Minor

Philip A. Reed, Department of Educational Leadership and Workforce Development, Coordinator

This interdisciplinary minor develops a broader understanding of technology and its impact on individuals, societies, and the environment. It provides the social context and the historical and philosophical backgrounds needed by informed students to evaluate technology and its impacts. The minor equips students with skills to make better personal decisions about technology and more appropriate choices for their futures.

Requirements

Course options are as follows:

COMM 340	Media and Popular Culture	3
COMM 372T	Introduction to New Media Technologies	3
COMM 400W	Intercultural Communication	3
COMM 401	Communication Theory	3
COMM 448	Global Media Industries	3
CS 300T	Computers in Society	3
CS 312	Internet Concepts	3
ECON 402	Transportation Economics	3
ECON 454W	Economic Development	3
ENGL 380	Introduction to Journalism	3
ENGL 382	Reporting News for Television and Digital Media	3
ENVH 301	Principles of Environmental Health Science	3
ENVH 402W	Environmental and Occupational Health Administration and Law	3
GEOG 305	World Resources	3
GEOG 306T	Hazards: Natural and Technological	3
HIST 304T	History of Medicine, Disease, and Health Technology	3
HIST 389T	Technology and Civilization	3
HIST 386T/SCI 302T	The Evolution of Modern Science	3
IT 360T	Principles of Information Technology	3

MUSC 335T	Music Technology Survey	3
OPMT 303	Operations Management	3
PHIL 355E	Cybersecurity Ethics	3
PHIL 383T	Philosophy of Technology	3
POLS 350T	Technology and War	3
STEM 370T	Technology and Society	3
STEM 382	Industrial Design	3
WGS 390T	Women, Gender, and Technology Worldwide	3

The interdisciplinary minor in the Impact of Technology requires 12 credit hours of 300/400-level courses selected from at least two different disciplines with a maximum of six credits from any one discipline. For completion of the interdisciplinary minor, students must have a minimum overall cumulative grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of lower-level courses and prerequisite courses. At least six hours of upper-level courses must be taken through courses offered by Old Dominion University. Three credit hours may be in the major, if a major course is listed as an option for the interdisciplinary minor. As such, it will be credited toward both the major and the interdisciplinary minor.

Bachelor of Science Occupational and Technical Studies with a Major in Fashion Merchandising (BS)

Requirements

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6
Oral Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#oral)	3
Mathematics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#math)	3
Language and Culture (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#language)	0-6
Information Literacy and Research (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#information)	3
Human Behavior (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#behavior)	3
Human Creativity (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#creativity)	3
Interpreting the Past (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#interpret)	3
Literature (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#literature)	3
Philosophy and Ethics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#philosophy)	3
The Nature of Science (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#nature)	8
Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

Written Communication: Grade of C or better required in both courses

Information Literacy and Research: STEM 251G required

Human Creativity cannot be met by SEPS 223A

Human Behavior: ECON 200S required

Impact of Technology: satisfied by STEM 370T in the major

Upper-Division General Education

- Option A. Approved Disciplinary Minor (a minimum of 12 hours determined by the department) or second degree or second major
- Option B. Interdisciplinary Minor (specifically 12 hours, 3 of which may be in the major)
- Option C. An approved Certification Program such as teaching licensure
- Option D. Two Upper-Division Courses from outside the College of Education and Professional Studies and not required by the major (6 hours)

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Fashion Merchandising Major

This major is designed to prepare students to enter the fashion industry to become buyers, fashion coordinators, and merchandise managers. Requirements are as follows:

General Education

Complete lower-division requirements	38-44
Complete upper-division requirements (minimum of 6 credit hours)	6

Fashion Merchandising

ACCT 201	Principles of Financial Accounting	3
SEPS 100	Sales Techniques	3
SEPS 102	Advertising and Promotion	3
SEPS 203S	Dress, Culture and Society	3
SEPS 208	Retail Merchandising and Buying	3
SEPS 220	The Fashion Industry	3
SEPS 234	Survey of Dress and Costume	3
SEPS 302	Workforce Supervision Management	3
SEPS 355	Fashion Consumer Behavior	3
STEM 365	Safety and OSHA Certification	3
SEPS 405	Directed Work Experience (summer only)	4
SEPS 415	Advanced Merchandising	3
SEPS 422	Fashion Product Development	3
SEPS 427	Fashion Marketing (fall)	3
SEPS 435	International Retailing	3
SEPS 456	E-Commerce and Social Media in Fashion	3
SEPS 480	Senior Project: Merchandise Retailing (Prerequisite SEPS 415)	3
SEPS 481	Career and Professional Development	3
STEM 370T	*Technology and Society (Writing Intensive)	3

Select six of the following or other advisor-approved electives: 18

SEPS 223A	Visual Merchandising and Display
STEM 321	Manufacturing Technology
SEPS 367	Cooperative Education (requires employment)

STEM 382	Industrial Design	
SEPS 400	Instructional Systems Development	
SEPS 409	Fashion Forecasting Market Trip	
SEPS 410	The Foreign Fashion Market Trip	
SEPS 420	Fashion Research	
SEPS 424	Fashion, Textiles, and Construction Analysis	
SEPS 440	Fashion Global Sourcing/Supply Chain Management	
SEPS 495	Topics in Occupational Education	
Total Credit Hours		120-126

Elective credit may be needed to meet the minimum of 120 credits required for the degree.

* Grade of C or better required

Degree Program Guide

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

BA or BS to MBA (Master of Business Administration) Linked Program

The linked BA/MBA or BS/MBA program is an early entry to the MBA program of study. The early-entry program is designed for well qualified non-business undergraduate ODU students to start their MBA program prior to completing their undergraduate degree. Well qualified non-business undergraduate students may take MBA-level courses as early as three semesters prior to graduation and count up to 12 graduate credits toward their undergraduate degree. Students participating in the early-

entry program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree). Early-entry program students should carefully consider their undergraduate degree program requirements when planning their course of study. Students in the early-entry program work in close consultation with the MBA Program Office and should refer to information in the Strome College of Business section in the graduate catalog (<http://catalog.odu.edu/graduate/stromecollegeofbusiness/>) to develop an individualized plan of study based on the required coursework.

BA or BS to MPA (Master of Public Administration) Linked Program

The linked BA/MPA or BS/MPA program provides qualified Old Dominion University undergraduate students with the opportunity to earn a master's degree in public administration while taking credits in the MPA program as an undergraduate student. The program is designed for highly motivated students with the desire to immediately continue their education after the bachelor's degree. The program is especially relevant to individuals seeking to work (or currently working) in the public or non-profit sectors, but is suitable for students from any undergraduate major. Graduate courses may be taken during the fall and spring semester of the student's senior undergraduate year. Up to 12 graduate credits can count toward both the undergraduate and graduate degree and can meet upper-level General Education requirements. After receiving the undergraduate degree, a student will continue with the MPA program, taking MPA courses until completing the required 39 credit hours. Students in the linked program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Requirements for admission to the graduate program can be found in the School of Public Service section of the Graduate Catalog (<http://catalog.odu.edu/graduate/business/public-service/>). For additional information, please contact the School of Public Service in the Strome College of Business.

Minor Fashion Merchandising Minor

The department offers a minor in fashion merchandising for students majoring in disciplines other than occupational and technical studies majors.

Requirements

Requirements for the minor are completion of 12 credit hours from among the following courses:

Select four of the following:	12
SEPS 302	Workforce Supervision Management
SEPS 367	Cooperative Education
SEPS 405	Directed Work Experience
SEPS 409	Fashion Forecasting Market Trip
SEPS 410	The Foreign Fashion Market Trip
SEPS 415	Advanced Merchandising
SEPS 422	Fashion Product Development
SEPS 424	Fashion, Textiles, and Construction Analysis
SEPS 431	Web-Based Organization for Fashion
SEPS 435	International Retailing
or SEPS 440	Fashion Global Sourcing/Supply Chain Management
SEPS 495	Topics in Occupational Education *
SEPS 496	Topics in Career and Technical Education *
Total Credit Hours	12

* Prior approval required

SEPS 208 or SEPS 220 are prerequisites for the minor and are not included in the calculation of the grade point average for the minor. Students must have a minimum overall cumulative grade point average of 2.00 in all

courses specified as a requirement for the minor exclusive of 100- and 200-level courses and prerequisite courses and complete a minimum of six hours in upper-level courses in the minor through courses offered by Old Dominion University.

Bachelor of Science Occupational and Technical Studies with a Major in Industrial Technology (BS)

Requirements

Written Communication: Grade of C or better required in both courses

Oral Communication: met in the major by HMSV 339

Mathematics: MATH 101M or MATH 102M or MATH 103M and STAT 130M required

Information Literacy and Research: STEM 251G required

Human Creativity cannot be met by SEPS 223A

Human Behavior: PSYC 201S required; cannot be met by SEPS 203S

Impact of Technology: satisfied by STEM 370T in the major

Upper-Division General Education

- Option A. Approved Disciplinary Minor (a minimum of 12 hours determined by the department) or second degree or second major
- Option B. Interdisciplinary Minor (specifically 12 hours, 3 of which may be in the major)
- Option C. An approved Certification Program such as teaching licensure
- Option D. Two Upper-Division Courses from outside the College of Education and Professional Studies and not required by the major (6 hours)

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Industrial Technology Major

This major is designed to prepare students to enter industry as supervisors, technical managers, or trainers. The major is also available through ODUGlobal. Additional industrial technology areas are available for transfer students. On approval of the program leader, select technical content areas from the community college can satisfy the 30 hours of technical content for this major. Requirements are as follows:

General Education		
Complete lower-division requirements		38-44
Complete upper-division requirements (minimum of 6 credit hours)		6
Industrial Technology		
Technical Content-General:		
SEPS 195	Topics (Design & Visualization)	3
STEM 221	Industrial Materials	3
STEM 231	Materials and Processes Technology	3

BA or BS to MBA (Master of Business Administration) Linked Program

The linked BA/MBA or BS/MBA program is an early entry to the MBA program of study. The early-entry program is designed for well qualified non-business undergraduate ODU students to start their MBA program prior to completing their undergraduate degree. Well qualified non-business undergraduate students may take MBA-level courses as early as three semesters prior to graduation and count up to 12 graduate credits

toward their undergraduate degree. Students participating in the early-entry program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree). Early-entry program students should carefully consider their undergraduate degree program requirements when planning their course of study. Students in the early-entry program work in close consultation with the MBA Program Office and should refer to information in the Strome College of Business section in the graduate catalog (<http://catalog.odu.edu/graduate/stromecollegeofbusiness/>) to develop an individualized plan of study based on the required coursework.

BA or BS to MPA (Master of Public Administration) Linked Program

The linked BA/MPA or BS/MPA program provides qualified Old Dominion University undergraduate students with the opportunity to earn a master's degree in public administration while taking credits in the MPA program as an undergraduate student. The program is designed for highly motivated students with the desire to immediately continue their education after the bachelor's degree. The program is especially relevant to individuals seeking to work (or currently working) in the public or non-profit sectors, but is suitable for students from any undergraduate major. Graduate courses may be taken during the fall and spring semester of the student's senior undergraduate year. Up to 12 graduate credits can count toward both the undergraduate and graduate degree and can meet upper-level General Education requirements. After receiving the undergraduate degree, a student will continue with the MPA program, taking MPA courses until completing the required 39 credit hours. Students in the linked program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Requirements for admission to the graduate program can be found in the School of Public Service section of the Graduate Catalog (<http://catalog.odu.edu/graduate/business/public-service/>). For additional information, please contact the School of Public Service in the Strome College of Business.

Bachelor of Science Occupational and Technical Studies with a Major in Training Specialist (BS)

Unlock your potential in the \$350 billion global training and development industry with the Training Specialist major! Gain the expertise necessary to become a training and organizational development specialist by creating value-added training solutions that drive talent development and enhance organizational performance. Develop skills in training and development program design, delivery, and evaluation; creative problem-solving, leadership, communications technology, and management. Explore and enhance your career opportunities in business, industry, healthcare, government, the military, and higher education. A minor in Training and Development and a certificate in Industrial Training are also available. Join us and launch your career today!

Career Highlights

- 12% projected job growth far exceeds the 5% national average; \$65,000 starting; \$125,000 with five years of experience (Bureau of Labor Statistics Occupational Handbook, 2024)
- Careers include corporate trainer, training and development specialists, instructional designer, talent development and recruiter, and human resources specialists, consultant, training and development manager, and chief learning officer.

Major Highlights

- An accelerated plan of study is available. Complete the Bachelor of Science degree in 1.3 years as a 60+ hour transfer student.
- Complete the major at your own pace, full-time or part-time.

- Self-paced and instructor-led courses
- Built-in OSHA certification
- A.S. and A.A.S community college credits accepted
- Transfer friendly (prior course work likely meets elective requirements)
- Military friendly (JST, CLEP, and DSST credits accepted)
- Air University Associate to Baccalaureate Cooperative (AU-ABC) partner
- U.S. Armed Forces Military Pathways
- Courses based on cutting-edge research conducted by ATD, SHRM, AHRD
- Developing employ-based educational programs

Graduation Qualifications

To graduate, students need to earn at least a 2.0 GPA overall and in their major. In addition to meeting other requirements of the University, students must earn a minimum of 25 percent of the total number of credits required for the degree (for example, 30 credits in a 120-credit degree program) through on- or off-campus instruction.

Accelerated Plan-of-Study Based on a Transfer of 60+ Hours

Please see the Degree Program Guide area for additional information.

- 60 hours remaining (120 hours total required for degree completion)
- 34 hours STEM/SEPS courses
- 6 hours Upper Division General Education
- 20 hours of a combination of remaining required courses and electives
- 4 semesters to completion (3 academic semesters plus 1 summer term)

Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

Written Communication: Grade of C or better required in both courses

Oral Communication: met in the major by HMSV 339

Information Literacy and Research: STEM 251G required

Human Creativity cannot be met by SEPS 223A

Human Behavior: ECON 200S required; cannot be met by SEPS 203S

Impact of Technology: satisfied by STEM 370T in the major

Upper-Division General Education

- Option A. Approved Disciplinary Minor (a minimum of 12 hours determined by the department) or second degree or second major
- Option B. Interdisciplinary Minor (specifically 12 hours, 3 of which may be in the major)
- Option C. An approved Certification Program such as teaching licensure
- Option D. Two Upper-Division Courses from outside the College of Education and Professional Studies and not required by the major (6 hours)

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Training Specialist Major

This major is designed to prepare students as training specialists who design, develop, and present training in business and industry. The major is also available through ODUGlobal. On approval of the program leader, select business-related technical content areas from the community college can satisfy 30 hours of technical content for this major. Requirements are as follows:

General Education

Complete lower-division requirements	35-41
Complete upper-division requirements (minimum of 6 credit hours)	6

Technical Content Courses

ACCT 201	Principles of Financial Accounting	3
HMSV 339	Interpersonal Relations	3
MGMT 325	Contemporary Organizations and Management	3
MGMT 330 or MGMT 340	Organizational Behavior Human Resource Management	3

* Permission required to take over 18 hours per semester. This plan assumes at least 60 credits have been transferred in to Old Dominion University.

** SEPS 405 is a 4-hour course that is offered in a 12-week Session 1 format. Courses taken in Winter Term and Maymester do not count toward Summer hours.

BA or BS to MBA (Master of Business Administration) Linked Program

The linked BA/MBA or BS/MBA program is an early entry to the MBA program of study. The early-entry program is designed for well qualified non-business undergraduate ODU students to start their MBA program prior to completing their undergraduate degree. Well qualified non-business undergraduate students may take MBA-level courses as early as three semesters prior to graduation and count up to 12 graduate credits toward their undergraduate degree. Students participating in the early-

entry program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree). Early-entry program students should carefully consider their undergraduate degree program requirements when planning their course of study. Students in the early-entry program work in close consultation with the MBA Program Office and should refer to information in the Strome College of Business section in the graduate catalog (<http://catalog.odu.edu/graduate/stromecollegeofbusiness/>) to develop an individualized plan of study based on the required coursework.

BA or BS to MPA (Master of Public Administration) Linked Program

The linked BA/MPA or BS/MPA program provides qualified Old Dominion University undergraduate students with the opportunity to earn a master's degree in public administration while taking credits in the MPA program as an undergraduate student. The program is designed for highly motivated students with the desire to immediately continue their education after the bachelor's degree. The program is especially relevant to individuals seeking to work (or currently working) in the public or non-profit sectors, but is suitable for students from any undergraduate major. Graduate courses may be taken during the fall and spring semester of the student's senior undergraduate year. Up to 12 graduate credits can count toward both the undergraduate and graduate degree and can meet upper-level General Education requirements. After receiving the undergraduate degree, a student will continue with the MPA program, taking MPA courses until completing the required 39 credit hours. Students in the linked program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Requirements for admission to the graduate program can be found in the School of Public Service section of the Graduate Catalog (<http://catalog.odu.edu/graduate/business/public-service/>). For additional information, please contact the School of Public Service in the Strome College of Business.

Minor Training and Development Minor

The minor in training and development is offered by the department for students majoring in disciplines other than occupational and technical studies.

Requirements

The minor requires 15 hours of course work as follows:

SEPS 389	Education and Training of Adults	3
SEPS 400	Instructional Systems Development	3
SEPS 402	Instructional Methods in Occupational Studies	3
SEPS 450	Assessment, Evaluation and Improvement	3
STEM 351	Communication Technology	3
Total Credit Hours		15

Students must have a minimum overall cumulative grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of 100- and 200-level courses and prerequisite courses and six hours of the 300/400-level courses must be taken through courses offered by Old Dominion University.

Certificate Industrial Training Certificate

This program is designed especially for military and civilian instructors and trainers. It is directed to those individuals who possess technical skills in the military, industry, career and technical centers, or community colleges. An overall grade point average of 2.0 or above in all courses specified as a requirement for the certificate is required for the award of the certificate. Students must complete a minimum of six hours in upper-level courses

required for the certificate through courses offered by Old Dominion University.

Requirements

This certificate requires successful completion of the following 21 credit hours (seven courses).

SEPS 302	Workforce Supervision Management	3
SEPS 400	Instructional Systems Development	3
SEPS 402	Instructional Methods in Occupational Studies	3
STEM 351	Communication Technology	3
STEM 370T	Technology and Society	3
PSYC 303	Industrial/Organizational Psychology	3
HMSV 339	Interpersonal Relations	3
Total Credit Hours		21

Human Movement Studies and Special Education

Web Site: <http://www.odu.edu/hms> (<http://www.odu.edu/hms/>)

Xihe Zhu, Chair
Jonna Bobzien, Assistant Chair

The Department of Human Movement Studies and Special Education offers programs leading to a Bachelor of Science (BS) degree in four areas. These include a BS in Physical Education with majors in PreK-12 Health and Physical Education and Coaching and Physical Activity Leadership, a BS in Park, Recreation and Tourism Studies with majors in Tourism and Hospitality Management and Park and Recreation Management, a BS in Special Education with various majors, and a BS in Sport Management.

In addition to these BS degrees and majors, our department offers minors in Coaching Education, Health Education, Park, Recreation, and Tourism Management, Physical Education, Special Education, and Sport Management.

Due to changing University requirements, national accreditation standards, and Commonwealth licensure regulations, the programs in the Darden College of Education and Professional Studies are under constant revision. Any changes resulting from these factors supersede the program requirements described in the catalog. Students should obtain current program information from their advisors and the Darden College of Education and Professional Studies website at <http://www.odu.edu/education>. (<http://education.odu.edu/>)

Programs

Bachelor of Science Programs

- Park, Recreation and Tourism Studies with a Major in Park and Recreation Management (BS) (p. 529)
- Park, Recreation and Tourism Studies with a Major in Tourism and Hospitality Management (BS) (p. 532)
- Physical Education with a Major in Coaching and Physical Activity Leadership (BS) (p. 534)
- Physical Education with a Major in PreK-12 Health and Physical Education (BS) (p. 537)
- Special Education with a Major in Early Intervention/Early Childhood Special Education (Birth-5) (BS) (p. 541)
- Special Education with a Major in Special Education Adapted Curriculum K-12 (BS) (p. 544)
- Special Education with a Major in Special Education General Curriculum K-12 (BS) (p. 548)
- Sport Management (BS) (p. 551)

Minor Programs

- Coaching Education Minor (p. 540)
- Health Education Minor (p. 540)
- Park, Recreation and Tourism Management Minor (p. 534)
- Physical Education Minor (p. 540)
- Special Education Minor (p. 551)
- Sport Management Minor (p. 554)

Bachelor of Science Park, Recreation and Tourism Studies with a Major in Park and Recreation Management (BS)

Ling Ling, PhD, Undergraduate Program Director
2014 Student Recreation Center
(757) 683-4881

This program is designed to prepare students to enter the professional field of park and recreation management.

Students must have a 2.00 GPA and 12 credit hours at Old Dominion University to be declared under the Park, Recreation and Tourism Studies program.

A minimum of 120 credit hours, which must include both a minimum of 30 credit hours overall and 12 credit hours in upper-level courses in the major program from Old Dominion University, is required for Park and Recreation Management majors.

Advanced Placement

Departmental examinations for advanced placement are available for selected courses in the undergraduate programs. Please contact the department chair for further details. Refer also to the Policy on Prior Learning Assessment Credit Options at the Undergraduate Level in this Catalog.

PRTS 366	Internship Seminar	1
PRTS 368	Internship	9
Total Credit Hours		28

* A grade of C or better is required in PRTS 482W. A grade of C- or higher is required in all other core courses.

Park and Recreation Management Major

General Education

Complete lower-division requirements	41-47
Complete upper-division requirements (minimum of 6 credit hours)	6

Park, Recreation and Tourism Studies Core

Complete the Park, Recreation and Tourism Studies Core Requirements	28

Park and Recreation Management

PAS 300	Foundations of Public Service	3
PRTS 251	Introduction to Park and Recreation Management *	3
PRTS 302	Facilitating the Recreation Experience	3
PRTS 404	Recreation Resource Management	3

PRTS 405	Outdoor Recreation	3
PRTS 433	Camp Administration	3
Total Credit Hours		93-99

* Grade of C- or better required.

Recommended Minors

It is recommended that students select a minor in Business Administration, Communication, Sustainability & Conservation Leadership, Geography, Management, Marketing, Psychology, or Public Service (12-15 credit hours) to reach the 120 credits required for graduation.

Electives

Elective credit may be needed to meet the minimum of 120 credit hours required for the degree.

Additional Requirements and Information

Admission

Students must:

1. Have an overall grade point average of 2.00 and 12 credit hours at Old Dominion University.
2. Have a meeting with faculty to complete required paperwork.
3. Pass a background check for courses where students will have contact with youth.

Continuance

Students must:

1. Maintain an overall grade point average of 2.00.
2. Maintain a grade point average of 2.00 in the major.
3. Earn a grade of C or higher in PRTS 482W and a grade of C- or higher in the remaining PRTS core courses.
4. Earn a Grade of C- or higher in PRTS 251 or PRTS 271.
5. Complete ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better.
6. Complete all PRTS core and major courses prior to completing PRTS 368, Internship.

Exit

Students must:

1. Have an overall grade point average of 2.00.
2. Have a grade point average of 2.00 in the major.
3. Complete ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better.
4. Complete an internship.
5. Satisfy all course requirements.
6. Take the University Senior Assessment.

BA or BS to MBA (Master of Business Administration) Linked Program

The linked BA/MBA or BS/MBA program is an early entry to the MBA program of study. The early-entry program is designed for well qualified non-business undergraduate ODU students to start their MBA program prior to completing their undergraduate degree. Well qualified non-business undergraduate students may take MBA-level courses as early as three semesters prior to graduation and count up to 12 graduate credits toward their undergraduate degree. Students participating in the early-entry program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree). Early-entry program students should carefully consider their undergraduate degree program requirements when planning their course of study. Students in the early-entry program work in close consultation with the MBA Program Office and should refer to information in the Strome College of Business section in the graduate catalog (<http://catalog.odu.edu/graduate/stromecollegeofbusiness/>) to develop an individualized plan of study based on the required coursework.

BA or BS to MPA (Master of Public Administration) Linked Program

The linked BA/MPA or BS/MPA program provides qualified Old Dominion University undergraduate students with the opportunity to earn a master's degree in public administration while taking credits in the MPA program as an undergraduate student. The program is designed for highly motivated students with the desire to immediately continue their education after the bachelor's degree. The program is especially relevant to individuals seeking to work (or currently working) in the public or non-profit sectors, but is suitable for students from any undergraduate major. Graduate courses may be taken during the fall and spring semester of the student's senior undergraduate year. Up to 12 graduate credits can count toward both the undergraduate and graduate degree and can meet upper-level General Education requirements. After receiving the undergraduate degree, a student will continue with the MPA program, taking MPA courses until completing the required 39 credit hours. Students in the linked program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Requirements for admission to the graduate program can be found in the School of Public Service section of the Graduate Catalog (<http://catalog.odu.edu/graduate/business/public-service/>). For additional information, please contact the School of Public Service in the Strome College of Business.

Bachelor of Science Park, Recreation and Tourism Studies with a Major in Tourism and Hospitality Management (BS)

Ling Ling, PhD, Undergraduate Program Director
2014 Student Recreation Center
(757) 683-4881

This program is designed to prepare students to enter the professional field of tourism, hospitality, and event management.

Students must have a 2.00 GPA and 12 credit hours at Old Dominion University to be declared under the Park, Recreation and Tourism Studies program.

A minimum of 120 credit hours, which must include both a minimum of 30 credit hours overall and 12 credit hours in upper-level courses in the major program from Old Dominion University, is required for Tourism and Hospitality Management majors.

Advanced Placement

Departmental examinations for advanced placement are available for selected courses in the undergraduate programs. Please contact the department chair for further details. Refer also to the Policy on Prior Learning Assessment Credit Options at the Undergraduate Level in this Catalog.

PRTS 271	Introduction to Tourism & Hospitality Management *	3
PRTS 350	Lodging Operations	3
PRTS 441	Marketing of Hospitality Services	3
PRTS 461	Hospitality Leadership and Management	3
PRTS 465	Hospitality Revenue Management	3
PRTS 491	Festival, Meeting, and Event Management	3
Total Credit Hours		96-102

* Grade of C- or better required.

Recommended Minors

It is recommended that students select a minor in Business Administration, Communication, Management, or Marketing (12-15 credit hours) to reach the 120 credits required for graduation.

Electives

Elective credit may be needed to meet the minimum of 120 credit hours required for the degree.

Additional Requirements and Information

Admission

Students must:

- 1. Have an overall grade point average of 2.00 and 12 credit hours at Old Dominion University.
- 2. Have a meeting with faculty to complete required paperwork.
- 3. Pass a background check for courses where students will have contact with youth.

Continuance

Students must:

- 1. Maintain an overall grade point average of 2.00.
- 2. Maintain a grade point average of 2.00 in the major.
- 3. Earn a grade of C or higher in PRTS 482W and a grade of C- or higher in the remaining PRTS core courses.
- 4. Earn a Grade of C- or higher in PRTS 251 or PRTS 271.
- 5. Complete ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better.
- 6. Complete all PRTS core and major courses prior to completing PRTS 368, Internship.

Exit

Students must:

- 1. Have an overall grade point average of 2.00.
- 2. Have a grade point average of 2.00 in the major.
- 3. Complete ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better.
- 4. Complete an internship.
- 5. Satisfy all course requirements.
- 6. Take the University Senior Assessment.

Degree Program Guide

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

BA or BS to MBA (Master of Business Administration) Linked Program

The linked BA/MBA or BS/MBA program is an early entry to the MBA program of study. The early-entry program is designed for well qualified non-business undergraduate ODU students to start their MBA program prior to completing their undergraduate degree. Well qualified non-business undergraduate students may take MBA-level courses as early as three semesters prior to graduation and count up to 12 graduate credits toward their undergraduate degree. Students participating in the early-entry program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree). Early-entry program students should carefully consider their undergraduate degree program requirements when planning their course of study. Students in the early-entry program work in close consultation with the MBA Program Office and should refer to information in the Strome College of Business section in the graduate catalog (<http://catalog.odu.edu/graduate/stromecollegeofbusiness/>) to develop an individualized plan of study based on the required coursework.

BA or BS to MPA (Master of Public Administration) Linked Program

The linked BA/MPA or BS/MPA program provides qualified Old Dominion University undergraduate students with the opportunity to earn a master's degree in public administration while taking credits in the MPA program as an undergraduate student. The program is designed for highly motivated students with the desire to immediately continue their education after the bachelor's degree. The program is especially relevant to individuals seeking to work (or currently working) in the public or non-profit sectors, but is suitable for students from any undergraduate major. Graduate courses may be taken during the fall and spring semester of the student's senior undergraduate year. Up to 12 graduate credits can count toward both the undergraduate and graduate degree and can meet upper-level General Education requirements. After receiving the undergraduate degree, a student will continue with the MPA program, taking MPA courses until completing the required 39 credit hours. Students in the linked program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Requirements for admission to the graduate program can be found in the School of Public Service section of the Graduate Catalog (<http://catalog.odu.edu/graduate/business/public-service/>). For additional information, please contact the School of Public Service in the Strome College of Business.

Minor Park, Recreation and Tourism Management Minor

Requirements

PRTS 251* or PRTS 271* is a prerequisite for the minor and is not included in the calculation of the grade point average for the minor. Requirements for the minor are:

Select four from the following:		12
PRTS 302	Facilitating the Recreation Experience	
PRTS 350	Lodging Operations	
PRTS 404	Recreation Resource Management	
PRTS 405	Outdoor Recreation	
PRTS 433	Camp Administration	
PRTS 441	Marketing of Hospitality Services	
PRTS 461	Hospitality Leadership and Management	
PRTS 465	Hospitality Revenue Management	
PRTS 491	Festival, Meeting, and Event Management	
Total Credit Hours		12

* Grade of C- or better required.

For completion of a minor, a student must have a minimum overall cumulative grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of 100- and 200-level courses and prerequisite courses and complete a minimum of six hours in upper-level courses in the minor requirement through courses offered by Old Dominion University.

Bachelor of Science Physical Education with a Major in Coaching and Physical Activity Leadership (BS)

This program is designed to promote competencies involved in teaching, coaching, and leadership in sport and physical activity settings.

Katelyn Makovec, Undergraduate Program Director
2030 Student Recreation Center
757-683-3355
ksmith@odu.edu

Requirements

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6

Philosophy and Ethics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#philosophy)	3
The Nature of Science (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#nature)	8
Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

Written Communication Skills: Grade of C or better required in both courses

Oral Communication: COMM 101R required

Mathematics: Select

from MATH 101M, MATH 102M, MATH 103M, MATH 162M, or STAT 130M.

The Nature of

Science: BIOL 117N/BIOL 118N and BIOL 121N/BIOL 122N recommended

Impact of Technology: Satisfied by TLED 430W in the major.

Upper-Division General Education

Satisfied by the required minor in Coaching Education included in the program.

Requirements for Graduation

1. All program requirements
2. ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better
3. A minimum cumulative 2.0 GPA in the major area and in the professional education core, with no grade less than a C- in the major.
4. Completion of the Senior Assessment
5. Successful completion of the Coaching Internship
6. Completion of a minimum of 120 credit hours, which must include both a minimum of 30 credit hours overall and 12 credit hours in upper-level courses in the major program from Old Dominion University.

All HPE, EXSC, SMGT, and TLED courses and BIOL 240 or BIOL 250 will be used to calculate the major content grade point average. Grade point averages must be 2.0 for continuance and graduation. Additional elective hours may be needed to make 120 total hours.

Due to changing University requirements, national accreditation standards, and the Virginia Board of Education licensure regulations, the programs in the Darden College of Education and Professional Studies are under constant revision. Any changes resulting from these factors supersede the program requirements described in this Catalog.

Coaching in Physical Activity and Leadership Major*

* Grade of C or better required in HPE 301W; grade of C- or better required in all other courses.

All HPE, EXSC, SMGT, and TLED courses and BIOL 240 or BIOL 250 will be used to calculate the major content grade point average. Grade point averages must be 2.00 to graduate.

Additional elective hours may be needed to reach 120 total credit hours, which must include both a minimum of 30 credit hours overall and 12 credit hours in upper-level courses in the major program from Old Dominion University.

Background Clearance Requirement

Old Dominion University requires a background clearance check of candidates interested in many of the professional education programs. Professional education programs have several field experiences that are required for continuance and graduation from the program. The background clearance must be successfully completed prior to a field experience placement. Candidates will be provided a field experience placement when the background check process is completed with resolution of any issues. The process to complete the ODU clearance background check is located at: <https://ww1.odu.edu/oce/placement/background-checks> (<https://ww1.odu.edu/oce/placement/background-checks/>). The ODU clearance process includes: an FBI fingerprint SP-24 form, a child protective service/social service review, and a Virginia State Police sex offender registry review. Candidates interested in the professional education programs are advised to complete this clearance process immediately upon entry into the program since the clearance process takes a minimum of eight weeks to complete.

Degree Program Guide

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

Master of Science in Education Programs

- Physical Education with a Concentration in Adapted Physical Education (MSEd) (<http://catalog.odu.edu/graduate/education/human-movement-studies-special-education/physical-education-adapted-msed/#text>)
- Physical Education with a Concentration in Coaching (MSEd) (<http://catalog.odu.edu/graduate/education/human-movement-studies-special-education/physical-education-coaching-msed/>)
- Physical Education with a Concentration in Curriculum & Instruction (MSEd) (<http://catalog.odu.edu/graduate/education/human-movement-studies-special-education/physical-education-health-sport-pedagogy-msed/>)
- Physical Education with a Concentration in Initial Virginia Licensure in Health and Physical Education (MSEd) (<http://catalog.odu.edu/graduate/education/human-movement-studies-special-education/physical-education-initial-virginia-licensure-health-msed/>)

Admission and Entrance Requirements

Applicants for the MSEd in Physical Education are required to submit credentials for consideration through the Office of Graduate Admissions at Old Dominion University. Students applying for admission with regular status must have:

- A completed online application via www.odu.edu/admission/graduate (<http://www.odu.edu/admission/graduate/>)
- A baccalaureate degree from a regionally-accredited institution or an equivalent degree from a foreign institution
- 2.8 cumulative GPA or higher (on a 4.0 scale) *
- 3.0 GPA or higher in the undergraduate major *
- A combined GRE score of 291 or higher (verbal and quantitative sections) *
- Personal essay (no more than two pages) addressing motivations to apply to program, career interests, and ability to complete graduate level work
- Three letters of recommendation (from former professors or employers)
- Current copy of résumé
- Transcripts from all prior postsecondary institutions
- Test of English as a Foreign Language (TOEFL) score of 550 on the paper-based test (or 79-80 on the iBT) for non-native English speakers

* Students who have a low GPA or a low GRE score may be considered for admission with provisional status.

* The program admissions committee will consider GRE waiver requests for high potential candidates by considering application elements that demonstrate the ability to take on the rigor of graduate level studies. A request for a waiver does not guarantee that a waiver will be granted.

Bachelor of Science Physical Education with a Major in PreK-12 Health and Physical Education (BS)

Katelyn Makovec, Undergraduate Program Director
2030 Student Recreation Center
757 683-3355
ksmith@odu.edu

This program is designed to promote competencies involved in the teaching of health and physical education in pre-kindergarten through grade 12.

Advanced Placement

Departmental examinations for advanced placement are available for selected courses in the undergraduate programs. Please contact the department chair for further details. Refer also to the Policy on Prior

Learning Assessment Credit Options at the Undergraduate Level in this Catalog.

Lower-Division General Education

Written Communication Skills: Grade of C or better required in both courses

Oral Communication: COMM 101R required

Mathematics: Select from MATH 101M, MATH 102M, MATH 103M, MATH 162M, or STAT 130M.

Human Behavior: PSYC 201S, PSYC 203S, or HMS 200S required.

The Nature of Science: BIOL 117N/BIOL 118N and BIOL 121N/BIOL 122N recommended

Impact of Technology: Satisfied by TLED 430W in the major.

Upper-Division General Education

Satisfied by the required minor in health education included in the program (Option A) and completion of professional education courses (Option C).

Requirements for Graduation

Requirements for graduation include completion of:

- All program requirements
- ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better
- A minimum cumulative 2.75 GPA in the major area and in the professional education core, with no grade less than a C- in the major/content and in the professional education core
- Completion of the Senior Assessment
- Successful completion of the Teacher Candidate Internship
- Completion of a minimum of 120 credit hours, which must include both a minimum of 30 credit hours overall and 12 credit hours in upper-level courses in the major program from Old Dominion University.

All HPE courses, EXSC courses, and BIOL 240 or BIOL 250 will be used to calculate the major content grade point average. HPE and TLED courses will be used to calculate the professional education grade point average. Both major content and professional education grade point averages must be 2.75 for admission into the approved teacher education program and for continuance and graduation. Additional elective hours may be needed to make 120 total hours.

Licensure requirements also include certificate of completion in First Aid/AED/CPR, Dyslexia Awareness Training, Child Abuse and Neglect Recognition and Intervention Training, and Regulations Governing the Use of Restraint and Seclusion in Elementary and Secondary Schools, and Cultural Competence Training.

Due to changing University requirements, national accreditation standards, and the Virginia Board of Education licensure regulations, the programs in the Darden College of Education and Professional Studies are under constant revision. Any changes resulting from these factors supersede the program requirements described in this Catalog. Students are encouraged to obtain current program information from their advisors and from the Office of Clinical Experiences website, <http://www.odu.edu/oce> (<http://www.odu.edu/tes/>).

HPE 309	Principles and Methodologies of Classroom and In-Car Instruction	3

Additional Requirements and Information

Prescribed Virginia Board of Education Assessment for Admission to an Approved Teacher Education Program

Old Dominion University students seeking admission to an approved teacher education program must satisfy the Virginia Board of Education required assessment for admission into an approved teacher education program.

For the most current information on the prescribed Virginia Board of Education admission assessments, please visit the Virginia Department of Education at <https://www.doe.virginia.gov/>.

Admission to the Undergraduate Teacher Education Program

All students must apply for and be admitted into the approved PreK-12 Health and Physical Education major as a requirement of continuance and graduation. Admittance to the program requires that the students:

1. Are a declared BS in physical education with a major in PreK-12 Health and Physical Education and a health education minor.
2. Have a cumulative GPA of 2.75.
3. Have a major /content GPA of 2.75 - HPE 301W must be passed with a grade of C or higher, and all other Health and Physical education courses must be passed with a grade of C- or higher.
4. Have a professional education GPA of 2.75 – all professional education courses must be passed with a grade of C- or higher.
5. Submit an application for admission that is approved by the program and the Darden College of Education and Professional Studies.

Although students may enroll in a limited number of education courses, students must be admitted into the approved PreK-12 Health and Physical Education major prior to enrolling in any instructional strategies practicum education course (HPE 469).

Continuance

Students must:

1. Maintain a cumulative GPA of 2.75, a major/content GPA of 2.75, and a professional education GPA of 2.75.
2. HPE 301W must be passed with a grade of C or higher, and all other health and physical education courses must be passed with a grade of C- or higher. The remaining courses required for the major and in the professional education core must be completed with a grade of C- or higher for continuance.
3. Students must take and pass the Praxis Subject Assessment, Health and Physical Education content knowledge (test code 5857) prior to or while enrolled in the student teaching seminar course. A passing score of 160 is required.

All assessments must be passed prior to the prescribes deadlines posted. Test results will be submitted to the Office of Clinical Experiences.

Background Clearance Requirement

Old Dominion University requires a background clearance check of candidates interested in many of the professional education programs. Professional education programs have several field experiences that are required for continuance and graduation from the program. The background clearance must be successfully completed prior to a field experience placement. Candidates will be provided a field experience placement when the background check process is completed with resolution of any issues. The process to complete the ODU clearance background check is located at: <https://ww1.odu.edu/oce/placement/background-checks> (<https://ww1.odu.edu/oce/placement/background-checks/>). The ODU clearance process includes: an FBI fingerprint SP-24 form, a child protective service/ social service review, and a Virginia State Police sex offender registry

review. Candidates interested in the professional education programs are advised to complete this clearance process immediately upon entry into the program since the clearance process takes a minimum of eight weeks to complete.

Degree Program Guide

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

Master of Science in Education Programs

There is a linked program available to qualified students under existing university policy to link the Bachelor of Science (Physical Education with a Major in PreK-12 Health and Physical Education) (p. 537) undergraduate program with the Master of Science in Education (Physical Education with a Concentration in Adapted Physical Education) (<http://catalog.odu.edu/graduate/education/human-movement-studies-special-education/physical-education-adapted-msed/>) or Master of Science in Education (Physical Education with a Concentration in Coaching) (<http://catalog.odu.edu/graduate/education/human-movement-studies-special-education/physical-education-coaching-msed/>) or Master of Science in Education (Physical Education with a Concentration in Curriculum & Instruction) (<http://catalog.odu.edu/graduate/education/human-movement-studies-special-education/physical-education-health-sport-pedagogy-msed/>) graduate program. See program director for additional details.

Admission and Entrance Requirements

Applicants for the MSED in Physical Education are required to submit credentials for consideration through the Office of Graduate Admissions at Old Dominion University. Students applying for admission with regular status must have:

- A completed online application via www.odu.edu/admission/graduate (<http://www.odu.edu/admission/graduate/>)
- A baccalaureate degree from a regionally-accredited institution or an equivalent degree from a foreign institution
- 2.8 cumulative GPA or higher (on a 4.0 scale) *
- 3.0 GPA or higher in the undergraduate major *
- A combined GRE score of 291 or higher (verbal and quantitative sections) *
- Personal essay (no more than two pages) addressing motivations to apply to program, career interests, and ability to complete graduate level work
- Three letters of recommendation (from former professors or employers)
- Current copy of résumé
- Transcripts from all prior postsecondary institutions
- Test of English as a Foreign Language (TOEFL) score of 550 on the paper-based test (or 79-80 on the iBT) for non-native English speakers

* Students who have a low GPA or a low GRE score may be considered for admission with provisional status.

* The program admissions committee will consider GRE waiver requests for high potential candidates by considering application elements that demonstrate the ability to take on the rigor of graduate level studies. A request for a waiver does not guarantee that a waiver will be granted.

Minor Coaching Education Minor

Requirements

BIOL 240 or BIOL 250 and HPE 324 are prerequisites for the minor and are not included in the calculation of the grade point average for the minor. Requirements for the minor are:

HPE 409	Physiology of Exercise	3
or EXSC 309	Fundamentals of Exercise Physiology	
HPE 415	Principles of Coaching Management	3
or SMGT 415	Principles of Coaching Management	
HPE 456	Sports Psychology	3
or SMGT 456	Sport Psychology	
HPE 368	Coaching Internship	6
Total Credit Hours		15

For completion of a minor, a student must have a minimum overall cumulative grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of 100- and 200-level courses and prerequisite courses (2.75 for teacher licensure with no less than C- earned in all core courses) and complete a minimum of six hours in upper-level courses in the minor requirement through courses offered by Old Dominion University. To obtain a Virginia teaching license, all teacher education and licensure only students must attain a passing score on the appropriate Praxis II specialty area test.

Minor Health Education Minor

Requirements

BIOL 240 or BIOL 250 and HPE 200 are prerequisites for the minor and are not included in the calculation of the grade point average for the minor. Requirements for the minor are:

HPE 317	Human Growth & Motor Development	3
HPE 324	Teaching Injury Care for Sports	3
HPE 402	Methods and Materials in Health Education	3
HPE 430	Nutrition and Fitness Education	3
Total Credit Hours		12

For completion of a minor, a student must have a minimum overall cumulative grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of 100- and 200-level courses and prerequisite courses (2.75 for teacher licensure with no less than C- earned in all core courses) and complete a minimum of six hours in upper-level courses in the minor requirement through courses offered by Old Dominion University. To obtain a Virginia teaching license, all teacher education and licensure only students must attain a passing score on the appropriate Praxis II specialty area test.

Minor Physical Education Minor

Requirements

HPE 200 is a prerequisite for the minor and is not included in the calculation of the grade point average for the minor. Requirements for the minor are:

HPE 300	Teaching Elementary Physical Education	3
HPE 317	Human Growth & Motor Development	3
HPE 400	Management Skills for Teaching Health and Physical Education	3

HPE 430	Nutrition and Fitness Education	3
Total Credit Hours		12

For completion of a minor, a student must have a minimum overall cumulative grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of 100- and 200-level courses and prerequisite courses (2.75 for teacher licensure with no less than C- earned in all core courses) and complete a minimum of six hours in upper-level courses in the minor requirement through courses offered by Old Dominion University. To obtain a Virginia teaching license, all teacher education and licensure only students must attain a passing score on the appropriate Praxis II specialty area test.

Bachelor of Science Special Education with a Major in Early Intervention/Early Childhood Special Education (Birth-5) (BS)

Lisa Morin, Ph.D., Undergraduate Program Director

The BS in special education draws courses from across the University to prepare teacher candidates interested in teaching special education. Course work spans the disciplines of English literature and composition; history; fine and performing arts; mathematics; natural sciences; social sciences; human growth and development; and educational foundations, technology, assessment, theory, and methods. The broad curriculum, along with the admittance, continuance, and graduation requirements, prepares teacher candidates for endorsement in early childhood special education for the Commonwealth of Virginia.

Major coursework is available in both online and face-to-face formats. Additional information is posted on the departmental website or available in hard copy from the department.

Requirements

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6
Oral Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#oral)	3
Mathematics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#math)	3
Language and Culture (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#language)	0-6
Information Literacy and Research (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#information)	3
Human Behavior (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#behavior)	3
Human Creativity (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#creativity)	3
Interpreting the Past (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#interpret)	3
Literature (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#literature)	3
Philosophy and Ethics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#philosophy)	3
The Nature of Science (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#nature)	8
Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

Courses in Written Communication, Literature, Human Creativity, Interpreting the Past, Human Behavior, Mathematics, and the Nature of Science are departmental requirements for all teacher candidates and are not met by the associate degree.

Language and Culture: See Requirements for Undergraduate Degrees section of this Catalog for requirement. If language needed, Spanish preferred.

Information Literacy and Research: met in the major with LIBS 110G (<https://catalog.odu.edu/search/?P=LIBS%20110G>) or STEM 251G (<https://catalog.odu.edu/search/?P=STEM%20251G>)

Human Behavior: PSYC 203S (<https://catalog.odu.edu/search/?P=PSYC%20203S>) required

Impact of Technology: met in the major with STEM 370T (<https://catalog.odu.edu/search/?P=STEM%20370T>)

Interpreting the Past: HIST 104H (<https://catalog.odu.edu/search/?P=HIST%20104H>) required

Nature of Science: Select one from BIOL 105N, BIOL 106N, BIOL 110N/BIOL 111N, BIOL 112N/BIOL 113N, or BIOL 121N/BIOL 122N and one from OEAS 110N, OEAS 111N, ASTP 103N, ASTP 104N, or OEAS 250N.

Upper-Division General Education

Satisfied in the major.

Requirements for Graduation

To graduate, teacher candidates must:

1. Minimum of 120 credit hours.
2. Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
3. Complete all program requirements.
4. Earn a grade of no less than C- in all departmental requirements (C in ENGL 110C and ENGL 211C), major courses, and core courses.
5. Have a minimum cumulative grade point average of 2.75 and 2.75 major and core GPA.
6. Pass the writing intensive (W) course in the major with a grade of C or higher.
7. Obtain certificate of completion in First Aid/AED/CPR, Dyslexia Awareness Training, Child Abuse and Neglect Recognition and Intervention Training, and Regulations Governing the Use of Restraint and Seclusion in Elementary and Secondary Schools.
8. Complete the Senior Assessment Survey.
9. Submit a professional portfolio according to Darden College of Education and Professional Studies and program requirements.

Due to changing University requirements, national accreditation standards, and Commonwealth of Virginia licensure regulations, the programs in the Darden College of Education and Professional Studies are under constant revision. Any changes resulting from these factors supersede the program requirements described in this catalog. Students should obtain current program information from their advisors and the Darden College of Education and Professional Studies website at <https://www.odu.edu/eps> (<https://www.odu.edu/eps/>).

Early Intervention/Early Childhood Special Education (Birth-5) Major Total Credit Hours		49
Total Credit Hours		114-120
(Additional Credits to reach 120 can be earned as a minor or through electives)		

** Meets the Information Literacy and Research requirement.
*** Admission to the undergraduate special education teacher preparation program and completion of a background clearance check is required prior to registration for SPED 415, SPED 441, SPED 460, SPED 467, and SPED 486. SPED 415, SPED 441, SPED 460, and SPED 467 each include a 45-hour practicum requirement. Students enrolled in SPED 415 must request an elementary school placement, students enrolled in SPED 460 and SPED 467 must request an early intervention or early childhood special education placement, and students in enrolled in SPED 441 may request any Prek-12 setting. In

SPED 486, teacher candidates will teach 7-weeks at the early intervention (Birth-3) level and 7-weeks at the early childhood special education (3-5) level. A passing score on the Special Education exit exam is required prior to SPED 486.

++ A passing score on the Special Education exit exam is required prior to SPED 486.

Note: All students must earn a minimum of 120 credit hours for the baccalaureate degree, which must include both a minimum of 30 credit hours overall and 12 credit hours in upper-level courses in the major program from Old Dominion University.

Additional Requirements and Information

Declaration of Major

To declare the major, teacher candidates must have a C or better in ENGL 110C and meet with an advisor in the Darden College of Education and Professional Studies.

Virginia Board of Education Prescribed Assessments for Admission to an Approved Teacher Education Program

Old Dominion University students seeking admission to an approved teacher education program must satisfy the Virginia Board of Education required assessment for admission into an approved teacher education program.

For the most current information on the prescribed Virginia Board of Education admission assessment, visit the Virginia Department of Education at <https://www.doe.virginia.gov/>.

Admission to Undergraduate Teacher Education Program

All teacher candidates must be admitted to the special education program as a requirement of continuance and graduation. Admittance to the special education program requires that the teacher candidate:

1. Be a declared BS in special education student.
2. Have a cumulative GPA of 2.75.
3. Have a 2.75 GPA in major and core courses.
4. Have no grade below a C- in any course required in the program.
5. Submit an application for admittance that is approved by the program and the Darden College of Education and Professional Studies.

Additionally, teacher candidates should be admitted to the special education program by the end of their 60th credit hour. Transfer students with 60 or more credits should be admitted to the special education program by the end of their second semester enrolled at the University.

Continuance

Teacher candidates must:

1. Maintain a cumulative grade point average of 2.75 and a 2.75 major and core GPA.
2. Earn a grade no less than C- in all departmental requirements, major courses, and core courses.
3. Successfully complete a background clearance check.

Background Clearance Requirement: Old Dominion University requires a background clearance check of candidates interested in professional education programs. Professional education programs have several field experiences that are required for continuance and graduation from the program. The background clearance must be successfully completed prior to a field experience placement. The process to complete the ODU clearance background check is located at: <https://www.odu.edu/clinical-experiences/placement/background-checks> (<https://www.odu.edu/clinical-experiences/placement/background-checks/>). The ODU clearance process includes the FBI fingerprint SP-24 form, the child protective service/ social service check, and the sexual offender registry check. Candidates interested in professional education programs are advised to complete this clearance process immediately upon entry since the clearance process takes a

minimum of eight weeks to complete. Please contact the Office of Clinical Experiences at 757-683-3348 with any questions.

Teacher candidates who fail to meet program requirements for two consecutive semesters will be encouraged to consider other academic and professional goals.

Additionally, passing scores on the Special Education exit exam is a required prerequisite to enrollment in SPED 486. Special Education exit examination scores will be submitted to the Office of Clinical Experiences by the Undergraduate Program Director. All teacher candidates must consult with an academic advisor every semester to review their academic progress.

Degree Program Guide

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

Master's Degree Options

There is a linked program available to qualified students under existing university policy to link the Bachelor of Science (Special Education with a Major in Early Intervention/Early Childhood Special Education Birth-5) (p. 541) undergraduate program with the Master of Science in Education (Special Education with a Concentration in K-12 Licensure-Adapted Curriculum-K-12) (<http://catalog.odu.edu/graduate/education/human-movement-studies-special-education/special-education-k-12-licensure-adapted-curriculum-msed/>) or Master of Science in Education (Special Education with a Concentration in K-12 Licensure-General Curriculum-K-12) (<http://catalog.odu.edu/graduate/education/human-movement-studies-special-education/special-education-k-12-licensure-general-curriculum-msed/>) graduate program. See program director for additional details.

BA or BS to MBA (Master of Business Administration) Linked Program

The linked BA/MBA or BS/MBA program is an early entry to the MBA program of study. The early-entry program is designed for well qualified non-business undergraduate ODU students to start their MBA program prior to completing their undergraduate degree. Well qualified non-business undergraduate students may take MBA-level courses as early as three semesters prior to graduation and count up to 12 graduate credits toward their undergraduate degree. Students participating in the early-entry program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree). Early-entry program students should carefully consider their undergraduate degree program requirements when planning their course of study. Students in the early-entry program work in close consultation with the MBA Program Office and should refer to information in the Strome College of Business section in the graduate catalog (<http://catalog.odu.edu/graduate/stromecollegeofbusiness/>) to develop an individualized plan of study based on the required coursework.

BA or BS to MPA (Master of Public Administration) Linked Program

The linked BA/MPA or BS/MPA program provides qualified Old Dominion University undergraduate students with the opportunity to earn a master's degree in public administration while taking credits in the MPA program as an undergraduate student. The program is designed for highly motivated students with the desire to immediately continue their education after the bachelor's degree. The program is especially relevant to individuals seeking to work (or currently working) in the public or non-profit sectors, but is suitable for students from any undergraduate major. Graduate courses may be taken during the fall and spring semester of the student's senior undergraduate year. Up to 12 graduate credits can count toward both the undergraduate and graduate degree and can meet upper-level General Education requirements. After receiving the undergraduate degree, a student will continue with the MPA program, taking MPA courses until completing the required 39 credit hours. Students in the linked program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Requirements for admission to the graduate program can be found in the School of Public Service section of the Graduate Catalog (<http://catalog.odu.edu/graduate/business/public-service/>). For additional information, please contact the School of Public Service in the Strome College of Business.

Bachelor of Science Special Education with a Major in Special Education Adapted Curriculum K-12 (BS)

Lisa Morin, Ph.D., Undergraduate Program Director

The BS in special education draws courses from across the University to prepare teacher candidates interested in teaching special education. Course work spans the disciplines of English literature and composition; history; fine and performing arts; mathematics; natural sciences; social sciences; human growth and development; and educational foundations, technology, assessment, theory, and methods. The broad curriculum, along with the admittance, continuance, and graduation requirements described below, prepares teacher candidates for licensure endorsement for special education adapted curriculum K-12 for the Commonwealth of Virginia.

Major coursework is available in online formats. Additional information is posted on the departmental website or available in hard copy from the department.

Requirements

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6

Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

Courses in Written Communication, Literature, Human Creativity, Interpreting the Past, Human Behavior, Mathematics, and the Nature of Science are departmental requirements for all teacher candidates and are not met by the associate degree.

Language and Culture: See Requirements for Undergraduate Degrees section of this Catalog for requirement. If language needed, Spanish preferred.

Information Literacy and Research: met in the major with LIBS 110G or STEM 251G

Human Behavior: PSYC 203S required

Impact of Technology: met in the major with STEM 370T

Interpreting the Past: HIST 104H required

Nature of Science: Select one from BIOL 105N, BIOL 106N, BIOL 110N/BIOL 111N, BIOL 112N/BIOL 113N, or BIOL 121N/BIOL 122N and one from OEAS 110N, OEAS 111N, ASTP 103N, ASTP 104N, or OEAS 250N.

Upper-Division General Education

Satisfied in the major.

Requirements for Graduation

To graduate, teacher candidates must:

1. Minimum of 120 credit hours.
2. Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
3. Complete all program requirements.
4. Earn a grade of no less than C- in all departmental requirements (C in ENGL 110C and ENGL 211C), major courses, and core courses.
5. Have a minimum cumulative grade point average of 2.75 and 2.75 major and core GPA.
6. Pass the writing intensive (W) course in the major with a grade of C or higher.
7. Obtain certificate of completion in First Aid/AED/CPR, Dyslexia Awareness Training, Child Abuse and Neglect Recognition and Intervention Training, and Regulations Governing the Use of Restraint and Seclusion in Elementary and Secondary Schools.
8. Complete the Senior Assessment Survey.
9. Submit a professional portfolio according to Darden College of Education and Professional Studies and program requirements.

Due to changing University requirements, national accreditation standards, and Commonwealth of Virginia licensure regulations, the programs in the Darden College of Education and Professional Studies are under constant revision. Any changes resulting from these factors supersede the program requirements described in this catalog. Students should obtain current program information from their advisors and the Darden College of Education and Professional Studies website at <https://www.odu.edu/eps> (<https://www.odu.edu/eps/>).

^{**} Meets the Information Literacy and Research requirement.

^{***} Admission to the undergraduate special education teacher preparation program and completion of a background clearance check is required prior to registration for SPED 415, SPED 428, SPED 441, and SPED 486. SPED 428, SPED 441, and SPED 415 each include a 45-hour practicum requirement. Students enrolled in SPED 415 must request an elementary school practicum placement, students enrolled in SPED 428 must request a middle/high school placement, and students enrolled in SPED 441 may request any PreK-12 setting. In SPED 486 teacher candidates will student teach 7 weeks at the elementary level and 7 weeks at the secondary level. A passing score on the Special Education exit exam is required prior to SPED 486.

⁺⁺

Note: All students must earn a minimum of 120 credit hours for the baccalaureate degree, which must include both a minimum of 30 credit hours overall and 12 credit hours in upper-level courses in the major program from Old Dominion University.

Additional Requirements and Information

Declaration of Major

To declare the major, teacher candidates must have a C or better in ENGL 110C and meet with an advisor in the Darden College of Education and Professional Studies.

Virginia Board of Education Prescribed Assessments for Admission to an Approved Teacher Education Program

Old Dominion University students seeking admission to an approved teacher education program must satisfy the Virginia Board of Education required assessment for admission into an approved teacher education program.

For the most current information on the prescribed Virginia Board of Education admission assessment, visit the Virginia Department of Education at <https://www.doe.virginia.gov/>.

Admission to Undergraduate Teacher Education Program

All teacher candidates must be admitted to the special education program as a requirement of continuance and graduation. Admittance to the special education program requires that the teacher candidate:

- 1. Be a declared BS in special education student.
- 2. Have a cumulative GPA of 2.75.
- 3. Have a 2.75 GPA in major and core courses.
- 4. Have no grade below a C- in any course required in the program.
- 5. Submit an application for admittance that is approved by the program and the Darden College of Education and Professional Studies.

Additionally, teacher candidates should be admitted to the special education program by the end of their 60th credit hour. Transfer students with 60 or more credits should be admitted to the special education program by the end of their second semester enrolled at the University.

Continuance

Teacher candidates must:

- 1. Maintain a cumulative grade point average of 2.75 and a 2.75 major and core GPA.
- 2. Earn a grade no less than C- in all departmental requirements, major courses, and core courses.
- 3. Successfully complete a background clearance check.

Background Clearance Requirement: Old Dominion University requires a background clearance check of candidates interested in professional education programs. Professional education programs have several field experiences that are required for continuance and graduation from the program. The background clearance must be successfully completed prior to a field experience placement. The process to complete the ODU clearance background check is located at: <https://www.odu.edu/clinical-experiences/placement/background-checks> (<https://www.odu.edu/clinical-experiences/placement/background-checks/>). The ODU clearance process includes the FBI fingerprint SP-24 form, the child protective service/ social service check, and the sexual offender registry check. Candidates interested in professional education programs are advised to complete this clearance process immediately upon entry since the clearance process takes a minimum of eight weeks to complete. Please contact the Office of Clinical Experiences at 757-683-3348 with any questions.

Teacher candidates who fail to meet program requirements for two consecutive semesters will be encouraged to consider other academic and professional goals.

Additionally, passing scores on the Special Education exit exam is a required prerequisite to enrollment in SPED 486. Special Education exit examination scores will be submitted to the Office of Clinical Experiences by the

Undergraduate Program Director. All teacher candidates must consult with an academic advisor every semester to review their academic progress.

Degree Program Guide

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

Master's Degree Options

There is a linked program available to qualified students under existing university policy to link the Bachelor of Science (Special Education with a Major in Special Education Adapted Curriculum K-12) (p. 544) undergraduate program with the Master of Science in Education (Special Education with a Concentration in Early Childhood Special Education (<http://catalog.odu.edu/graduate/education/human-movement-studies-special-education/special-education-early-childhood-msed/>)) or Master of Science in Education (Special Education with a Concentration in K-12 Licensure-General Curriculum-K-12 (<http://catalog.odu.edu/graduate/education/human-movement-studies-special-education/special-education-k-12-licensure-general-curriculum-msed/>)) graduate program. See program director for additional details.

BA or BS to MBA (Master of Business Administration) Linked Program

The linked BA/MBA or BS/MBA program is an early entry to the MBA program of study. The early-entry program is designed for well qualified non-business undergraduate ODU students to start their MBA program prior to completing their undergraduate degree. Well qualified non-business undergraduate students may take MBA-level courses as early as three semesters prior to graduation and count up to 12 graduate credits toward their undergraduate degree. Students participating in the early-entry program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree). Early-entry program students should carefully consider their undergraduate degree program requirements when planning their course of study. Students in the early-entry program work in close consultation with the MBA Program Office and should refer to information in the Strome College of Business section in the graduate catalog (<http://catalog.odu.edu/graduate/stromecollegeofbusiness/>) to develop an individualized plan of study based on the required coursework.

BA or BS to MPA (Master of Public Administration) Linked Program

The linked BA/MPA or BS/MPA program provides qualified Old Dominion University undergraduate students with the opportunity to earn a master's degree in public administration while taking credits in the MPA program as an undergraduate student. The program is designed for highly motivated students with the desire to immediately continue their education after the bachelor's degree. The program is especially relevant to individuals seeking

to work (or currently working) in the public or non-profit sectors, but is suitable for students from any undergraduate major. Graduate courses may be taken during the fall and spring semester of the student's senior undergraduate year. Up to 12 graduate credits can count toward both the undergraduate and graduate degree and can meet upper-level General Education requirements. After receiving the undergraduate degree, a student will continue with the MPA program, taking MPA courses until completing the required 39 credit hours. Students in the linked program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Requirements for admission to the graduate program can be found in the School of Public Service section of the Graduate Catalog (<http://catalog.odu.edu/graduate/business/public-service/>). For additional information, please contact the School of Public Service in the Strome College of Business.

Bachelor of Science Special Education with a Major in Special Education General Curriculum K-12 (BS)

Lisa Morin, Ph.D., Undergraduate Program Director

The BS in special education draws courses from across the University to prepare teacher candidates interested in teaching special education. Course work spans the disciplines of English literature and composition; history; fine and performing arts; mathematics; natural sciences; social sciences; human growth and development; and educational foundations, technology, assessment, theory, and methods. The broad curriculum, along with the admittance, continuance, and graduation requirements described below, prepares teacher candidates for licensure endorsement for special education general curriculum K-12 for the Commonwealth of Virginia, including a passing score on the Praxis Teaching Reading: Elementary and Special Education (Test #5205) Assessment.

Major coursework is available in distance learning formats. Additional information is posted on the departmental website or available in hard copy from the department.

Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

Courses in Written Communication, Literature, Human Creativity, Interpreting the Past, Human Behavior, Mathematics, and the Nature of Science are departmental requirements for all teacher candidates and are not met by the associate degree.

Language and Culture: See Requirements for Undergraduate Degrees section of this Catalog for requirement. If language needed, Spanish preferred.

Information Literacy and Research: met in the major with LIBS 110G or STEM 251G

Human Behavior: PSYC 203S required

Interpreting the Past: HIST 104H required

Impact of Technology: met in the major with STEM 370T

Nature of Science: Select one from BIOL 105N, BIOL 106N, BIOL 110N/BIOL 111N, BIOL 112N/BIOL 113N, or BIOL 121N/BIOL 122N and one from OEAS 110N, OEAS 111N, ASTP 103N, ASTP 104N, or OEAS 250N.

Upper-Division General Education

Satisfied in the major.

Requirements for Graduation

To graduate, teacher candidates must:

1. Minimum of 120 credit hours.
2. Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
3. Complete all program requirements.
4. Earn a grade of no less than C- in all departmental requirements (C in ENGL 110C and ENGL 211C), major courses, and core courses.
5. Have a minimum cumulative grade point average of 2.75 and 2.75 major and core GPA.
6. Pass the writing intensive (W) course in the major with a grade of C or higher.
7. Obtain passing scores on the Reading for Virginia Educators (RVE) assessment (Special Education General Curriculum K-12 only).
8. Obtain certificate of completion in First Aid/AED/CPR, Dyslexia Awareness Training, Child Abuse and Neglect Recognition and Intervention Training, and Regulations Governing the Use of Restraint and Seclusion in Elementary and Secondary Schools.
9. Complete the Senior Assessment Survey.
10. Submit a professional portfolio according to Darden College of Education and Professional Studies and program requirements.

Due to changing University requirements, national accreditation standards, and Commonwealth of Virginia licensure regulations, the programs in the Darden College of Education and Professional Studies are under constant revision. Any changes resulting from these factors supersede the program requirements described in this catalog. Students should obtain current program information from their advisors and the Darden College of Education and Professional Studies website at <https://www.odu.edu/eps> (<https://www.odu.edu/eps/>).

Master's Degree Options

There is a linked program available to qualified students under existing university policy to link the Bachelor of Science (Special Education with a Major in Special Education General Curriculum K-12) (p. 548) undergraduate program with the Master of Science in Education (Special Education with a Concentration in Early Childhood Special Education) (<http://catalog.odu.edu/graduate/education/human-movement-studies-special-education/special-education-early-childhood-msed/>) or Master of Science in Education (Special Education with a Concentration in K-12 Licensure-Adapted Curriculum-K-12) (<http://catalog.odu.edu/graduate/education/human-movement-studies-special-education/special-education-k-12-licensure-adapted-curriculum-msed/>) graduate program. See program director for additional details.

BA or BS to MBA (Master of Business Administration) Linked Program

The linked BA/MBA or BS/MBA program is an early entry to the MBA program of study. The early-entry program is designed for well qualified non-business undergraduate ODU students to start their MBA program prior to completing their undergraduate degree. Well qualified non-business undergraduate students may take MBA-level courses as early as three semesters prior to graduation and count up to 12 graduate credits toward their undergraduate degree. Students participating in the early-entry program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree). Early-entry program students should carefully consider their undergraduate degree program requirements when planning their course of study. Students in the early-entry program work in close consultation with the MBA Program Office and should refer to information in the Strome College of Business section in the graduate catalog (<http://catalog.odu.edu/graduate/stromecollegeofbusiness/>) to develop an individualized plan of study based on the required coursework.

BA or BS to MPA (Master of Public Administration) Linked Program

The linked BA/MPA or BS/MPA program provides qualified Old Dominion University undergraduate students with the opportunity to earn a master's degree in public administration while taking credits in the MPA program as an undergraduate student. The program is designed for highly motivated students with the desire to immediately continue their education after the bachelor's degree. The program is especially relevant to individuals seeking to work (or currently working) in the public or non-profit sectors, but is suitable for students from any undergraduate major. Graduate courses may be taken during the fall and spring semester of the student's senior undergraduate year. Up to 12 graduate credits can count toward both the undergraduate and graduate degree and can meet upper-level General Education requirements. After receiving the undergraduate degree, a student will continue with the MPA program, taking MPA courses until completing the required 39 credit hours. Students in the linked program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Requirements for admission to the graduate program can be found in the School of Public Service section of the Graduate Catalog (<http://catalog.odu.edu/graduate/business/public-service/>). For additional information, please contact the School of Public Service in the Strome College of Business.

Minor Special Education Minor Requirements

The minor in Special Education requires the completion of 12 credit hours. For completion of a minor, a student must have a minimum grade point average of 2.00 in all courses specified as a requirement for the minor

exclusive of prerequisite courses and complete a minimum of six hours in upper-level courses in the minor requirement at Old Dominion University.

Select four of the following: 12

SPED 313	Fundamentals of Human Growth and Development: Birth through Adolescence
SPED 400	Foundations of Special Education: Legal Aspects and Characteristics *
SPED 402	Instructional Design I: Learner Characteristics and Assessment
SPED 411	Classroom and Behavioral Management Techniques for Students with Diverse Needs
SPED 415	Instructional Design II: Curricular Procedures and Individualized Education Planning
or SPED 417	Collaboration and Transitions

Total Credit Hours 12

* LiveText is required for all Special Education minors upon registration for SPED 400.

Bachelor of Science Sport Management (BS)

Michelle Redmond, Ph.D., Undergraduate Program Director
2020 Student Recreation Center
757 683-3354

This program is designed to prepare students for entry-level positions within the sport industry. Students acquire knowledge and skills needed for careers with professional sport teams and leagues, intercollegiate athletics, sport facility and event management companies, sport marketing agencies, and other sport-related businesses.

Requirements

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6
Oral Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#oral)	3
Mathematics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#math)	3
Language and Culture (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#language)	0-6
Information Literacy and Research (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#information)	3
Human Behavior (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#behavior)	3
Human Creativity (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#creativity)	3
Interpreting the Past (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#interpret)	3
Literature (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#literature)	3
Philosophy and Ethics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#philosophy)	3
The Nature of Science (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#nature)	8
Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

Written Communication Skills: Grade of C or better required in both courses.

Mathematics: Select from MATH 102M, MATH 103M, MATH 162M, STAT 130M

Human Behavior: ECON 200S or ECON 201S required

Philosophy and Ethics: Satisfied with SMGT 450W in the major.

Upper-Division General Education

A minor in Management or Marketing is recommended, but students may select another minor with approval from their advisor. Students must follow the requirements for the selected minor option as outlined in this Catalog.

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Sport Management Major

General Education		
Complete lower-division requirements		38-44
Complete upper-division requirements (minor required; minimum of 12 credit hours)		12
Sport Management		
SMGT 214	Introduction to Sport Management *	3
SMGT 305	Sport Administrative Theory *	3
SMGT 312	Sport Sales *	3
SMGT 315	Sport Media and Public Relations *	3

MGMT 325	Contemporary Organizations and Management	3
Total Credit Hours		101-113
* Grade of C- or better required.		
** Grade of C or better required.		

Elective credit may be needed to meet the minimum of 120 credits required for the degree. Additional SMGT courses as well as courses other than SMGT may be used to meet elective requirements.

Additional Requirements and Information

Prerequisites

1. MATH 102M, MATH 103M, MATH 162M or STAT 130M with a passing grade is a prerequisite for SMGT 214.
2. SMGT 214 is a prerequisite for all SMGT core courses.
3. ENGL 110C and ENGL 211C or the equivalent are prerequisites for SMGT 315 and SMGT 450W.
4. ACCT 201 is a prerequisite for SMGT 331.

Continuance

1. Maintain an overall grade point average of 2.0 or higher.
2. Maintain a grade point average of 2.0 or higher in the major.
3. Earn a grade of C or higher in SMGT 450W and a grade of C- or higher in all other SMGT core courses.
4. Passing grade in all additional required courses for the major (ACCT 201, ECON 202S, MKTG 311 and MGMT 325).
5. Complete SMGT 369 and all SMGT core course work prior to the internship.
6. A total of 9 credit hours of advisor-approved electives is required to attain 120 credit hours for graduation.

Exit

1. Have an overall grade point average of 2.0 or higher.
2. Have a grade point average of 2.0 or higher in the major.
3. Complete ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major SMGT 450W with a grade of C or better.
4. Complete an internship.
5. Satisfy all core competencies.
6. Complete 120 credit hours.
7. Take the University Senior Assessment Survey.

Degree Program Guide

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

BA or BS to MBA (Master of Business Administration) Linked Program

The linked BA/MBA or BS/MBA program is an early entry to the MBA program of study. The early-entry program is designed for well qualified non-business undergraduate ODU students to start their MBA program prior to completing their undergraduate degree. Well qualified non-business undergraduate students may take MBA-level courses as early as three semesters prior to graduation and count up to 12 graduate credits toward their undergraduate degree. Students participating in the early-entry program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree). Early-entry program students should carefully consider their undergraduate degree program requirements when planning their course of study. Students in the early-entry program work in close consultation with the MBA Program Office and should refer to information in the Strome College of Business section in the graduate catalog (<http://catalog.odu.edu/graduate/stromecollegeofbusiness/>) to develop an individualized plan of study based on the required coursework.

BA or BS to MPA (Master of Public Administration) Linked Program

The linked BA/MPA or BS/MPA program provides qualified Old Dominion University undergraduate students with the opportunity to earn a master's degree in public administration while taking credits in the MPA program as an undergraduate student. The program is designed for highly motivated students with the desire to immediately continue their education after the bachelor's degree. The program is especially relevant to individuals seeking to work (or currently working) in the public or non-profit sectors, but is suitable for students from any undergraduate major. Graduate courses may be taken during the fall and spring semester of the student's senior undergraduate year. Up to 12 graduate credits can count toward both the undergraduate and graduate degree and can meet upper-level General Education requirements. After receiving the undergraduate degree, a student will continue with the MPA program, taking MPA courses until completing the required 39 credit hours. Students in the linked program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Requirements for admission to the graduate program can be found in the School of Public Service section of the Graduate Catalog (<http://catalog.odu.edu/graduate/business/public-service/>). For additional information, please contact the School of Public Service in the Strome College of Business.

Minor

Sport Management Minor

Requirements

SMGT 214* is a prerequisite for the minor and is not included in the calculation of the grade point average for the minor. Requirements for the minor are:

Select four from the following:	12
SMGT 305	Sport Administrative Theory
SMGT 312	Sport Sales
SMGT 315	Sport Media and Public Relations
SMGT 331	Fiscal Planning and Management in Sport and Recreation
SMGT 369	Sport Management Pre-Internship
SMGT 414	Sport Marketing
SMGT 415	Principles of Coaching Management
SMGT 421	Legal Aspects in Recreation and Sport Management
SMGT 450W	Ethics and Morality in Sport
SMGT 455	Sport in Contemporary Society
SMGT 456	Sport Psychology
SMGT 495	Topics in Sport Management
Total Credit Hours	12

* Grade of C- or better is required.

For completion of a minor, a student must have a minimum overall cumulative grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of 100- and 200-level courses and prerequisite courses (2.75 for teacher licensure with no less than C- earned in all core courses) and complete a minimum of six hours in upper-level courses in the minor requirement through courses offered by Old Dominion University. To obtain a Virginia teaching license, all teacher education and licensure only students must attain a passing score on the appropriate Praxis II specialty area test.

Science, Technology, Engineering, and Mathematics (STEM) Education and Professional Studies

Web Site: <http://www.odu.edu/stemps> (<http://www.odu.edu/stemps/>)

Shana Pribesh, Chair

The department offers undergraduate courses FOUN 301 and FOUN 302 often taken as part of bachelor's programs in teacher preparation. The department also offers an undergraduate course FOUN 101S, Learning to Learn, in the Human Behavior area of the University's General Education requirements. We also offer LIBS 110G Information Literacy for the Digital Age as part of ODU's General Education requirements.

At the graduate level, the department offers the Master of Science in Education degree with a concentration in Instructional Design & Technology; a Master of Library and Information Studies; and a PhD in Education with concentrations in Instructional Design & Technology, and Educational Psychology and Program Evaluation. Students can enter the Educational Psychology and Program Evaluation PhD concentration directly from their undergraduate program. Please refer to the Graduate Catalog for information on these programs. (<http://catalog.odu.edu/graduate/>)

Teaching & Learning

Web Site: <http://www.odu.edu/teaching> (<http://www.odu.edu/teaching/>)

Angela Eckhoff, Chair

The Department of Teaching and Learning aims to promote the development of teacher candidates as professional educators, leaders, and critically engaged citizens. Through these efforts, teacher candidates become innovative and creative educators who make a difference for diverse learners. The Department offers three undergraduate programs: BS in Early Childhood Education, BS in Elementary Education, and MonarchTeach. The department also offers professional education courses to students who wish to teach in disciplines in secondary schools and are pursuing courses of study leading to baccalaureate degrees in either the College of Arts and Letters or the College of Sciences.

Programs

Bachelor of Science Programs

- Early Childhood Education (BS) (p. 557)
- Elementary Education (BS) (p. 560)

Additional Teacher Education Information

Teacher Education, Undergraduate Secondary (6-12) Programs - Mathematics and Science and Middle School Science (6-8)

MonarchTeach Program

The MonarchTeach program is an innovative teacher preparation program that introduces mathematics and science majors to the teaching profession through early field experiences. MonarchTeach, a collaboration between the Darden College of Education and Professional Studies and the College of Sciences, allows students to pursue secondary teacher licensure while at the same time completing their four-year mathematics or science degree program. Following completion, students are awarded a Virginia teaching license along with a BS degree in their content area.

MonarchTeach allows students to "Explore Teaching" through STEM 103, a two-credit field-based course. Through this course, students gain early teaching experience as they prepare and teach lessons in local elementary and middle school classrooms. This course meets weekly on the ODU campus and experienced master teachers assist students in preparing inquiry-based lessons. Additional courses required in the MonarchTeach program, drawn from both the Darden College of Education and Professional Studies and the College of Sciences, emphasize the relationships between mathematics and science, while integrating teaching content and skills throughout the field-intensive curriculum. Coursework in the MonarchTeach program prepares teacher candidates interested in teaching middle school science or secondary mathematics or science to complete content and pedagogical competency requirements for teacher licensure in the Commonwealth of Virginia.

All students seeking Virginia Department of Education licensure to teach in secondary schools must complete all admission, continuance, and exit requirements for approved Teacher Education Programs (see the Darden College of Education Teacher Education Program section of this catalog). Students can officially apply to the undergraduate teacher education program after completion of STEM 103. When applying to the program, students must fill out the appropriate paperwork provided by the Office of Clinical Experiences. To graduate and be recommended for licensure, students must complete the required coursework in an approved College of Sciences degree program and in the MonarchTeach program. Students must have a minimum major and overall GPA of at least 2.75, have earned a grade of at least C- in all of the professional development and supporting courses listed below (with the exception of Apprentice Teaching, which is a pass/fail course), have a passing score on the appropriate PRAXIS Content Test, and have passed the final teaching portfolio review.

Licensure requirements also include certificate of completion in First Aid/AED/CPR, Dyslexia Awareness Training, Child Abuse and Neglect Recognition and Intervention Training, and Regulations Governing the Use of Restraint and Seclusion in Elementary and Secondary Schools, and Cultural Competence Training.

Background Clearance Requirement

Old Dominion University requires a background clearance check of candidates interested in any field-based professional education course. The background clearance must be successfully completed prior to any field experience placement. Candidates will be provided a field experience placement when the background check process is completed with resolution of any issues. The process to complete the ODU clearance background check is located at: <https://www.odu.edu/clinical-experiences/placement/background-checks> (<https://www.odu.edu/clinical-experiences/placement/background-checks/>). The ODU clearance process includes: an FBI fingerprint, a child protective service/social service review, and a Virginia State Police sex offender registry review. Candidates must complete this clearance process immediately in the first field-based course since the clearance process takes a minimum of eight weeks to complete.

Course Requirements

STEM 103	Foundations of STEM Teaching: An Inquiry-Based Approach	2
STEM 201	Knowing and Learning in STEM Education	3
STEM 202	Classroom Interactions in STEM Education (field based)	3
STEM 401	Project Based Instruction in STEM Education (field based)	3
STEM 402	Perspectives on STEM	3
SCI 468	Research Methods in Math and Sciences	3
or BIOL 468W	Research Methods in Mathematics and Science	
or CHEM 468	Research Methods in Mathematics and Science	
or OEAS 468W	Research Methods in Math and Sciences	
or PHYS 468W	Research Methods in Mathematics and Sciences	
STEM 485	Apprentice Teaching (field based)	9
Total Credit Hours		26

Mathematics education students in the MonarchTeach program must also complete MATH 375.

Program Requirements

Upon completion of STEM 103 students are encouraged to apply to the teacher preparation program MonarchTeach. Students who wish to teach science or mathematics at the middle school or secondary level must pursue courses of study leading to baccalaureate degrees in the College of Sciences. (See the College of Sciences section of this Catalog for full and specific requirements for science and mathematics secondary education.) In addition, to be eligible for state licensure to teach in Virginia middle or high schools, students must complete requirements in the Darden College of Education and Professional Studies listed below.

Admission

Students must:

1. Have an overall grade point average of 2.75 and a 2.75 in the academic major and the professional education core classes;
2. Submit the undergraduate teacher education program application to the Office of Clinical Experiences. (The application forms may be obtained on the Office of Clinical Experiences web page.); and
3. Acceptance into the Darden College of Education and Professional Studies teacher preparation program requires students to have no course grades in the academic major or professional education core below a C-, and an overall GPA of 2.75 or higher. Students should be formally admitted to teacher education before completing STEM 202 Classroom Interactions.

Continuance

Students must:

1. Maintain minimum overall grade point averages of 2.75 and 2.75 in the academic major and the professional education core;
2. Successfully complete all professional education courses and field experiences;

3. Be approved for Apprentice Teaching by the faculty; and
4. Pass Praxis Content Test in order to participate in Apprentice Teaching. Passing scores must be attached to the Apprentice Teaching application.

Exit

Students must:

1. Have minimum overall grade point averages of 2.75 and 2.75 in the academic major and the professional education core;
2. Successfully complete prescribed Apprentice Teaching and Seminar;
3. Have an exit interview; and
4. Have completed all course requirements. No courses in the academic major in which the student has made below a C- will be accepted toward meeting requirements in the Darden College of Education and Professional Studies.

Teacher Education, K-12 and Secondary Undergraduate Programs

Program Requirements

Students who wish to teach any of the disciplines listed below in secondary schools must pursue courses of study leading to baccalaureate degrees in either the College of Arts and Letters or the College of Sciences. (See either the College of Arts and Letters (<http://catalog.odu.edu/undergraduate/collegeofartsletters/>) or the College of Sciences (<http://catalog.odu.edu/undergraduate/collegeofsciences/>) section of this Catalog for full and specific requirements in any prospective teaching subject in secondary education.) In addition, to be eligible for state licensure to teach in secondary schools, students must complete requirements (listed below by subject area) in the Darden College of Education and Professional Studies.

Admission, Continuance, and Exit Requirements

Admission

Old Dominion University students seeking admission to an approved teacher education program must have submitted Praxis Core or approved alternative test of mathematics, reading, and writing (SAT or ACT).

Students must:

1. Have an overall grade point average of 2.75 and a 2.75 in the academic major and the professional education core.
2. Submit to the Office of Clinical Experiences an application form containing recommendations from two faculty members familiar with their work. (These forms may be obtained either in the Office of Clinical Experiences or in the appropriate chair's office in either the College of Arts and Letters or the College of Sciences.)

No courses in the academic major or professional education in which the student has made below a C (depending on the program) will be accepted for admission in the Darden College of Education and Professional Studies. Students should be formally admitted to teacher education before taking:

TLED 451	Developing Instructional Strategies for Teaching in the Middle/High School: English	3
TLED 452	Developing Instructional Strategies for Teaching in Middle/High School: Math and Science	3
TLED 455	Developing Instructional Strategies for Teaching in the Middle/High School: Social Studies	3

Continuance

Students must:

1. Maintain minimum overall grade point averages of 2.75 and 2.75 in the academic major and the professional education core.
2. Successfully complete TLED 301 and a subsequent practicum.
3. Be approved for teacher internship by the faculty.

4. Pass the Praxis Subject Assessment in order to participate in the teacher internship. Passing scores must be attached to the teacher internship application.
5. A clearance background check must be completed prior to placement in a field experience required for any observation and practicum courses and for the teacher candidate internship. For more information please review the clearance background check policy on the Office of Clinical Experiences website at <https://www.odu.edu/oce>. (<https://www.odu.edu/oce/>)

Exit

Students must:

1. Have minimum overall grade point averages of 2.75 and 2.75 in the academic major and the professional education core.
2. Successfully complete prescribed student teaching experiences.
3. Have an exit interview.
4. Have completed all course requirements. No courses in the academic major in which the student has made below a C (depending on the program) will be accepted toward meeting requirements in the Darden College of Education and Professional Studies.

Professional Education Course Requirements—Secondary

Art Education

This program leads to Licensure, K-12.

Add-on Endorsements

Add-on endorsements are available in algebra I, English as a second language, journalism, and most other grade 6-12 areas. For information, please contact the Office of Clinical Experiences, website at <https://www.odu.edu/oce>. (<https://www.odu.edu/oce/>)

Bachelor of Science Early Childhood Education (BS)

Jody Sommerfeldt, Undergraduate Program Director

The BS in Early Childhood Education draws courses from across the University to prepare teacher candidates interested in teaching early childhood education. Course work spans the disciplines of English literature and composition; history; fine and performing arts; mathematics; natural sciences; social sciences; human growth and development; and educational foundations, technology, assessment, theory, and methods. The broad curriculum, along with the admittance, continuance, and graduation requirements described below, prepares teacher candidates to meet state license standards for the Commonwealth of Virginia, including a passing scores on the Praxis Teaching Reading: Elementary (Test #5205). Core coursework is available in both online and face-to-face formats. Additional information is posted on the department's website or available in hard copy from the department.

Please note: Admissions beyond Fall 2025 is on hold for program review.

Written Communication: ENGL 110C and ENGL 211C or ENGL 231C; Departmental requirement for all teacher candidates, not met by the associate degree.

Mathematics: MATH 102M or MATH 103M; Departmental requirement for all teacher candidates, not met by the associate degree.

Information Literacy and Research: met in the major with LIBS 110G

Interpreting the Past: HIST 104H required; Departmental requirement for all teacher candidates, not met by the associate degree.

Human Behavior: PSYC 203S required; Departmental requirement for all teacher candidates, not met by the associate degree.

Nature of Science: Select one from BIOL 105N, BIOL 106N, BIOL 110N/BIOL 111N, BIOL 112N/BIOL 113N, BIOL 117N/BIOL 118N, BIOL 121N/BIOL 122N and one from PHYS 101N, CHEM 105N/CHEM 106N; Departmental requirement for all teacher candidates, not met by the associate degree.

Impact of Technology: met in the major

Upper-Division General Education

Satisfied in the major.

Requirements for Graduation

To graduate, teacher candidates must:

1. Complete all program requirements.
2. Earn a grade of no less than C- in all departmental requirements (C in ENGL 110C and ENGL 211C or ENGL 231C), major courses, and core courses.
3. Have a minimum cumulative grade point average of 2.75 and 2.75 core and major GPA.
4. Pass the writing intensive (W) course in the major with a grade of C or higher.
5. Complete the Senior Assessment Survey.
6. Submit a professional portfolio according to Darden College of Education and Professional Studies and program requirements.

NOTE: All students must earn a minimum of 120 credit hours for the Baccalaureate degree, which must include both a minimum of 30 credit hours overall and 12 credit hours in upper-level courses in the major program from Old Dominion University.

Licensure requirements also include certificate of completion in First Aid/AED/CPR, Dyslexia Awareness Training, Child Abuse and Neglect Recognition and Intervention Training, and Regulations Governing the Use of Restraint and Seclusion in Elementary and Secondary Schools, and Cultural Competence Training.

Due to changing University requirements, national accreditation standards, and Commonwealth of Virginia licensure regulations, the programs in the Darden College of Education and Professional Studies are under constant revision. Any changes resulting from these factors supersede the program requirements described in this catalog. Students should obtain current program information from their advisors and the Darden College of Education and Professional Studies website at <https://www.odu.edu/eps> (<https://www.odu.edu/eps/>).

- ** A passing score on the Reading for Virginia Educators Assessment is required in TLED 483 and prior to TLED 487.

Additional Requirements and Information

Declaration of Major

To declare the major, teacher candidates must have a C or better in ENGL 110C and meet with an advisor in the Darden College of Education and Professional Studies.

Prescribed Virginia Board of Education Assessment for Admission to an Approved Teacher Education Program

Old Dominion University students seeking admission to an approved teacher education program must satisfy the Virginia Board of Education required assessment for admission into an approved teacher education program.

For the most current information on the prescribed Virginia Board of Education admission assessment, visit the Virginia Department of Education at <https://www.doe.virginia.gov/>.

Admission to Undergraduate Teacher Education Program

All teacher candidates must be admitted to the Early Childhood Education program as a requirement of continuance and graduation. Admittance to the early childhood education program requires that the teacher candidate:

1. Be a declared BS in early childhood education student.
2. Have a cumulative GPA of 2.75.
3. Have a 2.75 GPA in core and major courses.
4. Have no grade below a C- in any course required in the program.
5. Submit an application for admittance that is approved by the program and the Darden College of Education and Professional Studies.

Additionally, teacher candidates should be admitted to the early childhood education program by the end of their 60th credit hour. Transfer students with 60 or more credits should be admitted to the early childhood education program by the end of their second semester enrolled at the University.

Continuance

Teacher candidates must:

1. Maintain a cumulative grade point average of 2.75 and 2.75 core and major GPA.
2. Earn a grade no less than C- in all departmental requirements, major courses, and core courses.
3. Successfully complete a background clearance check.

Background Clearance Requirement

Old Dominion University requires a background clearance check of candidates interested in professional education programs. Professional education programs have several field experiences that are required for continuance and graduation from the program. The background clearance must be successfully completed prior to a field experience placement. The process to complete the ODU clearance background check is located at: <http://www.odu.edu/success/academic/teacher-education/placement/background-checks> (<http://www.odu.edu/success/academic/teacher-education/placement/background-checks/>). The ODU clearance process includes the FBI fingerprint SP-24 form, the child protective service/social service check, and the sexual offender registry check. Candidates interested in professional education programs are advised to complete this clearance process immediately upon entry since the clearance process takes a minimum of eight weeks to complete. Please contact the Office of Clinical Experiences at 757-683-3348 with any questions.

Teacher candidates who fail to meet program requirements for two consecutive semesters will be encouraged to consider other academic and professional goals.

Additionally, passing scores on the Praxis Multiple Subject Assessment for Elementary Education and Praxis Teaching Reading are required in TLED 483 and prior to TLED 487. Test results will be submitted to the Office of Clinical Experiences. All teacher candidates must consult with an academic advisor every semester to review their academic progress.

Degree Program Guide

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

BA or BS to MBA (Master of Business Administration) Linked Program

The linked BA/MBA or BS/MBA program is an early entry to the MBA program of study. The early-entry program is designed for well qualified non-business undergraduate ODU students to start their MBA program prior to completing their undergraduate degree. Well qualified non-business undergraduate students may take MBA-level courses as early as three semesters prior to graduation and count up to 12 graduate credits toward their undergraduate degree. Students participating in the early-entry program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree). Early-entry program students should carefully consider their undergraduate degree program requirements when planning their course of study. Students in the early-entry program work in close consultation with the MBA Program Office and should refer to information in the Strome College of Business section in the graduate catalog (<http://catalog.odu.edu/graduate/stromecollegeofbusiness/>) to develop an individualized plan of study based on the required coursework.

BA or BS to MPA (Master of Public Administration) Linked Program

The linked BA/MPA or BS/MPA program provides qualified Old Dominion University undergraduate students with the opportunity to earn a master's degree in public administration while taking credits in the MPA program as an undergraduate student. The program is designed for highly motivated students with the desire to immediately continue their education after the bachelor's degree. The program is especially relevant to individuals seeking to work (or currently working) in the public or non-profit sectors, but is suitable for students from any undergraduate major. Graduate courses may be taken during the fall and spring semester of the student's senior undergraduate year. Up to 12 graduate credits can count toward both the undergraduate and graduate degree and can meet upper-level General Education requirements. After receiving the undergraduate degree, a student will continue with the MPA program, taking MPA courses until completing the required 39 credit hours. Students in the linked program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Requirements for admission to the graduate program can be found in the School of Public Service section of the Graduate Catalog (<http://catalog.odu.edu/graduate/business/public-service/>). For additional information, please contact the School of Public Service in the Strome College of Business.

Bachelor of Science Elementary Education (BS)

Jody Sommerfeldt, Undergraduate Program Director

The BS in Elementary Education draws courses from across the University to prepare teacher candidates interested in teaching elementary education. Course work spans the disciplines of English literature and composition; history; fine and performing arts; mathematics; natural sciences; social sciences; human growth and development; and educational foundations, technology, assessment, theory, and methods. The broad curriculum, along with the admittance, continuance, and graduation requirements described below, prepares teacher candidates to meet state license standards for

the Commonwealth of Virginia, including passing scores on the Praxis Teaching Reading: Elementary (Test #5205) and the Praxis Multiple Subject Assessment. Core coursework is available in both online and face-to-face formats. Additional information is posted on the department's website or available in hard copy from the department.

Teacher Education

Old Dominion University's Professional Educator Program is a collaborative effort between the Darden College of Education and Professional Studies, the College of Arts and Letters, and the College of Sciences. The major purpose in its teacher education programs is to prepare teachers who have knowledge of their teaching disciplines, abilities to practice state-of-the-art instruction to students of various cultural and socioeconomic backgrounds, and demonstrate dispositions that reflect commitment to teaching and learning as well as lifelong professional growth and development.

For academic advising, contact Career and Advising Resource Center (CARC) and appropriate departmental offices in the Darden College of

Education and Professional Studies, the College of Arts and Letters, and the College of Sciences.

Baccalaureate Teacher Education Programs

- Students interested in teaching art, dance, English, world languages, music, social studies, history, or theatre, refer to the College of Arts & Letters (p. 82) section of this Catalog.
- Students interested in teaching biology, chemistry, computer science, Earth science, middle school science, physics, or math, refer to the College of Sciences (p. 674) section of this Catalog.
- Students interested in teaching elementary education PreK-6 (BS in Elementary Education) or early childhood education PreK-3 (BS in Early Childhood Education), refer to the Department of Teaching and Learning (p. 554) in the Darden College of Education and Professional Studies.
- Students interested in teaching special education or health and physical education (BS in Physical Education), refer to the Department of Human Movement Studies and Special Education (p. 529) in the Darden College of Education and Professional Studies.
- Students interested in teaching marketing or technology education (BS in Career and Technical Education), refer to the Department of Educational Leadership and Workforce Development (p. 513) in the Darden College of Education and Professional Studies.

Admission, Continuance, and Exit Requirements for Baccalaureate Approved Teacher Education Programs

Admission to Old Dominion University does not guarantee admission to a degree and/or a teacher preparation program in the student's specific area of interest. All such programs have admission, continuance, and exit requirements based on the Regulations Governing the Review and Approval of Education Programs in Virginia and specific Old Dominion University departmental criteria. These criteria include course work, minimum grade point averages, course grades, licensure assessments, professional dispositions, and faculty recommendations. Admission to an approved teacher education program is described in this section of the Catalog.

Admission

Students applying for admission to the teacher education program must:

1. Have a completed Clearance Background Check as specified in this section of the Catalog;
2. Have a minimum 2.75 grade point average overall (or as outlined in the specific curriculum), in the major, and in the content and professional education core courses;
3. Have at least a grade of C or C- (depending on the program) in all courses specified in the major curriculum to include content and professional education core courses; and
4. Provide authorization for the release of any disciplinary action that is contained in student records upon application.

Although students may enroll in a limited number of education courses, the following requirements must be on file in the Office of Clinical Experiences prior to enrolling in any professional education practicum course: 1) admission into the teacher education program; 2) professional education survey; and 3) the completed clearance background check process.

Continuance

Once individuals are admitted to the undergraduate teacher education program, they are expected to continue to maintain the same caliber of academic achievement during the remainder of their program. This will ensure that teacher candidates remain on track with projected graduation dates. In the event that a candidate experiences academic difficulty *immediately* prior to enrollment in a practicum course, the policies below will govern. Academic difficulty is defined as not meeting the minimum grade point average (GPA) program requirement or earning a grade or grades that do not meet the candidate's program requirements the first time the course was taken.

To continue in the respective teacher education program, the student must:

1. Maintain a 2.75 minimum grade point average overall (or as outlined in the specific curriculum), in the major and in the content and professional education core courses;
2. Continue to earn at least a grade of C or C- (depending on the program) in all courses specified in the major curriculum to include content and professional education core courses for continuance in the teacher education program; and
3. Have achieved passing scores in the prescribed Virginia Board of Education professional assessments for licensure described in this section of the Catalog, prior to the start of the teacher candidate internship orientation.

Score reports for all examinations must be on file in the Office of Clinical Experiences in room 1107 of the Education Building. These score reports are to be provided by the candidate and will not be returned. For the most current information on prescribed Virginia Board of Education professional assessments for each individual passing score, visit the Office of Clinical Experiences website (<https://www.odu.edu/oce/>) and review the *required assessments*.

Prior to placement in early field experiences, practica and/or internships, students are required to have a completed Clearance Background Check search, which consists of: *National Criminal Background Check for Employee or Volunteer Providing Care to Children, the Elderly and Disabled* (SP-24 Form), the Child Protective Service's *Central Registry Release of Information* (032-02-1515-11-eng, 02/14), a fingerprint check using the APPLICANT FD258 (REV 3-1-10) 1110-0046 fingerprinting card, and the National Sex Offender Registry and/or the Virginia State Police: Sex Offender Registry search. Students are liable for all costs incurred. Visit the Office of Clinical Experiences website (<https://www.odu.edu/oce/>) for more information.

Exit

Students must have:

1. A minimum 2.75 grade point average overall (or as outlined in the specific curriculum), in the major, and in the content and the professional education core courses;
2. Achieved grades of C or C- (as determined by the specific academic department) in all courses specified in the major curriculum to include content and professional education core courses;
3. Earned a passing grade in student teaching; and
4. Completed the senior assessment.

The Virginia Department of Education requires all initially licensed teachers, school counselors, administrators, and other school personnel to demonstrate proficiency in the use of educational technology for instruction and obtain certificates of completion in First Aid/AED/CPR, Dyslexia Awareness Training, Child Abuse and Neglect Recognition and Intervention Training, Regulations Governing the Use of Restraint and Seclusion in Elementary and Secondary Schools, and Cultural Competence Training.

Due to changing University requirements, national accreditation standards, and Commonwealth licensure regulations, the programs in the Darden College of Education and Professional Studies are under constant revision. Any changes resulting from these factors supersede the program requirements described in this Catalog. Students should obtain current program information from their advisors and the Darden College of Education and Professional Studies website at www.education.odu.edu (<https://www.odu.edu/education/>).

For more information on requirements in specific programs, students should refer to the individual program listings in this catalog or contact the Office of Clinical Experiences or the appropriate academic department in the College of Arts and Letters (<http://catalog.odu.edu/undergraduate/collegeofartsletters/>), the College of Sciences (p. 674), or the Darden College of Education and Professional Studies (<http://www.odu.edu/education/departments/>).

Teacher Candidate Dispositions

All teacher candidates are expected to demonstrate behaviors that are indicative of the following dispositions characteristic of effective educators. All candidates will be assessed a minimum of three times throughout their program, including entry. Any teacher candidate who is not displaying these dispositions will be subject to the disposition policy found at Office of Clinical Experiences website. Demonstrated professional dispositions are expected for continuance in the program.

Prescribed Virginia Board of Education Professional Assessments for Licensure

Old Dominion University teacher candidates seeking initial licensure through the completion of an approved teacher education program must successfully pass the Prescribed Virginia Board of Education Professional Assessments for Licensure prior to the start of the teacher candidate internship. The following assessments must be completed with a passing score:

1. Praxis subject assessment passing score approved by the Virginia Board of Education; and
2. Praxis Teaching Reading: Elementary (Test #5202). The passing score required for PreK-3, PreK-6, and K-12 special education general curriculum is 159.

For the most current information on the prescribed Virginia Board of Education professional assessments for each individual passing score, visit the Office of Clinical Experiences website, and review the Required Assessments.

Post-Baccalaureate Endorsement Teacher Education Programs

The Post-Baccalaureate Endorsement program is an approved teacher education program for individuals who have completed a bachelor's degree from a regionally accredited institution and wish to qualify for a Virginia teaching license. Students applying for admission into this approved teacher education program are considered graduate non-degree status and must meet the college's requirements for admitting students into an approved teacher education program. Admission to Old Dominion University does not guarantee admission into degree and/or teacher preparation programs in the Darden College of Education and Professional Studies. Program sheets for the Post-Baccalaureate Endorsement programs are available in the Office of Clinical Experiences.

Admission, Continuance and Exit Requirements for Post-Baccalaureate Teacher Education Programs

Admission

Students seeking admission into the post-baccalaureate endorsement program must:

1. Apply for admission to Old Dominion University as graduate non-degree seeking student;
2. Have achieved an overall GPA of 2.75-2.80 (as outlined in the specific curriculum);
3. Have earned a grade of C or C- (as determined by the specific academic department);
4. Interview with and receive recommendation for admittance from a department representative, or ODUGlobal representative;
5. Submit the Post-Baccalaureate Endorsement Program Application;
6. Be aware that only 12 hours of professional education courses from another institution may transfer into a post-baccalaureate endorsement program and that practicum and/or student teaching courses are not eligible for transfer;
7. Complete the professional dispositions self-survey; and
8. Attach the completed authorization for the release of any disciplinary action on file with the Office of Student Accountability and Academic Integrity.

Students who do not meet regular admission requirements may meet provisional admission into the post-baccalaureate endorsement program. For provisional status, a student must:

1. Apply for admission to Old Dominion University as a graduate non-degree seeking student;
2. Have achieved an overall GPA of 2.5-2.74 in the baccalaureate degree official transcript;
3. Have earned a grade of C or C- (as determined by the specific academic department);
4. Interview with and receive recommendation for admittance from a department representative, or ODUGlobal representative;
5. Submit the Post-Baccalaureate Endorsement Program Application;
6. Be aware that only 12 hours of professional education courses from another institution may transfer into a post-baccalaureate endorsement program and that practicum and/or student teaching courses are not eligible for transfer;
7. Complete the professional dispositions self-survey; and
8. Attach the completed authorization for the release of any disciplinary action on file with the Office of Student Accountability and Academic Integrity.

Students who wish to apply to a graduate program while in the post-baccalaureate endorsement program must meet all graduate program entry requirements. Only 12 credit hours of professional education course work from a post-baccalaureate endorsement program will transfer into a graduate program.

In order to student teach, all approved teacher education program requirements must be completed, to include all content and professional education course work with the appropriate grade and GPA as outlined in the respective curriculum and passing scores on Praxis II and the Virginia Reading Assessment (if required by the program).

Continuance

To continue in the respective post-baccalaureate teacher education program, the student must:

1. Maintain a 2.75-2.80 minimum grade point average overall (or as outlined in the specific curriculum), in the major and in the content and professional education core courses;
2. Maintain a 3.0 minimum grade point average overall (or as outlined in the specific curriculum), in the major and in the content and professional education core courses;
3. Continue to earn at least a grade of C or C- (depending on the program) in all courses specified in the major curriculum to include content and professional education core courses for continuance in the teacher education program; and
4. Have achieved passing scores in the prescribed Virginia Board of Education professional assessments for licensure described in this section of the catalog, prior to the start of the teacher candidate internship orientation.

Score reports for all examinations must be on file in the Career and Academic Resource Center and Office of Clinical Experiences. These score reports are to be provided by the candidate and will not be returned. For the most current information on prescribed Virginia Board of Education professional assessments for each individual passing score, visit the Office of Clinical Experiences website and review the *required assessments*.

Prior to placement in early field experiences, practica and/or internships, students are required to have a completed Clearance Background Check search, which consists of: *National Criminal Background Check for Employee or Volunteer Providing Care to Children, the Elderly and Disabled* (SP-24 Form), the Child Protective Service's *Central Registry Release of Information* (032-02-1515-11-eng, 02/14), a fingerprint check using the APPLICANT FD258 (REV 3-1-10) 1110-0046 fingerprinting card, and the National Sex Offender Registry and/or the Virginia State Police: Sex Offender Registry search. Students are liable for all costs incurred.

Exit

Students must have:

1. For undergraduate post-baccalaureate teacher education programs, maintain a 2.75 minimum grade point average overall (or as outlined in the specific curriculum), in the major and in the content and professional education core courses;
2. Maintain a 3.0 minimum grade point average overall (or as outlined in the specific curriculum), in the major and in the content and professional education core courses;
3. Achieved grades of C or C- (as determined by the specific academic department) in all courses specified in the major curriculum to include content and professional education core courses; and
4. Earned a passing grade in student teaching.

The Virginia Department of Education requires all initially licensed teachers, school counselors, administrators, and other school personnel to demonstrate proficiency in the use of educational technology for instruction and obtain certificates of completion in First Aid/AED/CPR, Dyslexia Awareness Training, Child Abuse and Neglect Recognition and Intervention Training, Regulations Governing the Use of Restraint and Seclusion in Elementary and Secondary Schools, and Cultural Competence Training.

Due to changing University requirements, national accreditation standards, and Commonwealth licensure regulations, the programs in the Darden College of Education and Professional Studies are under constant revision. Any changes resulting from these factors supersede the program requirements described in this Catalog. Students should obtain current program information from their advisors and the Darden College of Education and Professional Studies website at www.education.odu.edu (<https://www.odu.edu/education/>).

For more information on requirements in specific programs, students should refer to the individual program listings in this catalog or contact the Office of Clinical Experiences or the appropriate academic department in the College of Arts and Letters (<http://catalog.odu.edu/undergraduate/collegeofartsletters/>), the College of Sciences (p. 674), or the Darden College of Education and Professional Studies (<http://www.odu.edu/education/departments/>).

Teacher Candidate Dispositions

All teacher candidates are expected to demonstrate behaviors that are indicative of the following dispositions characteristic of effective educators. All candidates will be assessed a minimum of three times throughout their program, including entry. Any teacher candidate who is not displaying these dispositions will be subject to the disposition policy found at Office of Clinical Experiences website. Demonstrated professional dispositions are expected for continuance in the program.

Prescribed Virginia Board of Education Professional Assessments for Licensure

Old Dominion University teacher candidates seeking initial licensure through the completion of an approved teacher education program must successfully pass the Prescribed Virginia Board of Education Professional Assessments for Licensure prior to the start of the teacher candidate internship. The following assessments must be completed with a passing score:

1. Praxis subject assessment passing score approved by the Virginia Board of Education; and
2. Praxis Teaching Reading: Elementary (Test #5202). The passing score required for PreK-3, PreK-6, and K-12 special education general curriculum is 159.

For the most current information on the prescribed Virginia Board of Education professional assessments for each individual passing score, visit the Office of Clinical Experiences website, and review the Required Assessments.

Frank Batten College of Engineering and Technology

Web Site: <http://www.odu.edu/eng> (<http://www.odu.edu/eng/>)

Jeffrey Fergus, Dean

Jeffrey LaCombe, Associate Dean for Undergraduate & Graduate Education

Sherif Ishak, Associate Dean for Research & Innovation

Stacie Ringleb, Associate Dean for Faculty Affairs and Student Engagement

Anthony Dean, Assistant Dean for Maritime and Defense Initiatives

Mission Statement

In accordance with the mission of Old Dominion University, the Frank Batten College of Engineering and Technology promotes the advancement of engineering knowledge, both by its creation and dissemination and by providing successful graduates and a continuously improving learning environment to its constituents, while maintaining ethical, multicultural and global standards.

College Diversity, Equity, and Inclusion Statement

The Frank Batten College of Engineering and Technology recognizes that diversity and inclusion are foundational to developing creative and robust engineering solutions to address complex global challenges. We are committed both to a diverse, equitable, and inclusive environment for students, faculty, and staff and to educating our students on the need for these in the engineering profession.

Overview

The Frank Batten College of Engineering and Technology at Old Dominion University offers degrees in engineering and in engineering technology. The course of study that leads to engineering degrees is characterized by a solid foundation in the theoretical underpinnings of engineering based on science and mathematics. Graduates of our undergraduate programs are well equipped to pursue advanced study through graduate education, pursue professional registration, or enter the engineering profession. The course of study that leads to engineering technology degrees is characterized by strong laboratory experiences and an emphasis on the application of engineering fundamentals and techniques that will prepare the graduate to be ready to embark on applied engineering career paths and implement advanced design, analysis and development concepts. The engineering technology degree is considered to be a terminal degree and graduates are prepared for manufacturing, testing, production, and operations.

The engineering and engineering technology programs at Old Dominion University are specifically designed to take advantage of the unique assets in the Hampton Roads area. These assets include:

1. a strong technology center to promote and use modeling and simulation
2. the NASA Langley Research Center with its focus on aerospace and virtual environments
3. the Jefferson Laboratories, a major center of nuclear physics and engineering
4. one of the major international deep-water ports on the east coast of the United States
5. a major shipbuilding and ship repair industry
6. a major high technology industry base
7. a very large presence of military facilities and military contractors

These assets have enabled the development of distinctive engineering and technology curricula. Points of distinction (from other programs in and out of the state) include the following:

Engineering Up-Front

Freshmen immediately become engaged in practical engineering and technology activities through a required course, ENGN 121 Introduction to Engineering and Technology. Team projects in different engineering disciplines allow students to experience the professional spectrum from

idea generation through its translation into the design, manufacture, and commercialization cycle. This course is well-suited to aid students in selecting a specific engineering discipline for their major for the remainder of their studies.

Multi-Disciplinary Industry Senior Project

Seniors may choose to join a multi-disciplinary team of students led by faculty and industry representatives to work on an industry project subject to specific deliverables and time and budget constraints.

Linked Bachelor's/Graduate Degree Programs

Undergraduate students in the Batten College of Engineering and Technology may apply for early admission into an engineering graduate program and may be permitted to apply credits for some courses simultaneously to both degrees. The degrees need not be in the same field of engineering.

Monarch Engineering and Innovation Laboratory (M-Lab)

Undergraduate and graduate students in the Batten College of Engineering and Technology have access to the M-Lab (<https://www.odu.edu/mlab/>) a 6,500 square-foot facility where they can learn how to use advanced hardware and software tools that enable 1) the analysis of complex problems, 2) the development of engineering solutions, 3) the analysis and testing of engineering solutions, 4) the development of prototypes from low to high-fidelity, 5) collaboration with students from different engineering programs and engineering disciplines, 6) collaboration with other colleges within the university, 7) collaboration with industry and research partners, and 8) the promotion of entrepreneurial and commercialization activities.

Professional Engineer (P.E.) Certification

The College encourages all of its graduates to eventually be certified as Professional Engineers (P.E.). The certification requires taking the Fundamentals of Engineering (FE) Examination and the Professional Engineering (P.E.) Examination. All students are encouraged to take the FE Examination in their senior year. For details, contact the departmental or Dean's Office and the following web site: www.dpor.virginia.gov (<http://www.dpor.virginia.gov>).

For further information, please visit the college's web site: <http://www.odu.edu/eng> (<http://www.odu.edu/eng/>)

Programs of Study

Bachelor of Science (Majors)

Engineering Programs

- Civil Engineering - B.S.C.E.
- Computer Engineering (Computer Engineering Major) - B.S.C.E.
- Computer Engineering (Modeling & Simulation Engineering Major) - B.S.C.E.
- Electrical Engineering - B.S.E.E.
- Mechanical Engineering - B.S.M.E.

Engineering Technology Program's Majors

- Civil Engineering Technology - B.S.E.T. (Major: Civil Engineering Technology)
- Electrical Engineering Technology - B.S.E.T. (Major: Electrical Engineering Technology)
- Manufacturing Engineering Technology - B.S.E.T. (Major: Manufacturing Engineering Technology)
- Mechanical Engineering Technology - B.S.E.T. (Major: Mechanical Engineering Technology)

Minors

- Minor in Aerospace Engineering (Department of Mechanical and Aerospace Engineering)

- Minor in Biomedical Engineering (Interdisciplinary, Department of Electrical and Computer Engineering)
- Minor in Civil Engineering (Department of Civil and Environmental Engineering)
- Minor in Civil Engineering Technology-Construction (Department of Engineering Technology)
- Minor in Computer Engineering (Department of Electrical and Computer Engineering)
- Minor in Cybersecurity (Interdisciplinary, see details below)
- Minor in Electrical Engineering (Department of Electrical and Computer Engineering)
- Minor in Electrical Engineering Technology (Department of Engineering Technology)
- Minor in Energy Engineering (Interdisciplinary, see details below)
- Minor in Engineering Management (Department of Engineering Management & Systems Engineering)
- Minor in Engineering Solutions for Climate Adaptation and Resilience
- Minor in Environmental Engineering (Department of Civil and Environmental Engineering)
- Minor in Global Engineering (Interdisciplinary, see details below)
- Minor in Marine Engineering (Department of Engineering Technology)
- Minor in Mechanical Engineering (Department of Mechanical and Aerospace Engineering)
- Minor in Mechanical Engineering Technology (Department of Engineering Technology)
- Minor in Military Leadership (Department of Naval Science)
- Minor in Modeling and Simulation (Department of Electrical and Computer Engineering)
- Minor in Uncrewed Systems Design & Development

Master's Programs

Engineering Programs

- Aerospace (Engineering, M.S., M.E.)
- Biomedical (Engineering, M.S., M.E.)
- Civil (Engineering, M.S.)
- Electrical and Computer Engineering (Engineering, M.S.)
- Engineering Management (M.S., M.E.M.)
- Environmental (Engineering, M.S.)
- Mechanical (Engineering, M.S., M.E.)
- Modeling & Simulation Engineering (Engineering, M.S.)
- Systems Engineering (Engineering, M.E.)

Doctoral Programs

Engineering Programs

- Aerospace (Engineering, Ph.D.)
- Biomedical (Engineering, Ph.D.)
- Civil and Environmental (Engineering, Ph.D.)
- Cybersecurity Engineering (Engineering, D.Eng.)
- Electrical and Computer (Engineering, Ph.D., D.Eng.)
- Engineering Management and Systems Engineering (Engineering, Ph.D., D.Eng.)
- Mechanical (Engineering, Ph.D., D.Eng.)
- Modeling and Simulation (Engineering, Ph.D., D.Eng.)

Accreditation

The following are engineering programs accredited by the Engineering Accreditation Commission of ABET www.abet.org (<http://www.abet.org>):

- Bachelor of Science in Civil Engineering
- Bachelor of Science in Computer Engineering

- Bachelor of Science in Electrical Engineering
- Bachelor of Science in Mechanical Engineering

The following are engineering technology programs accredited by the Engineering Technology Accreditation Commission ABET www.abet.org (<http://www.abet.org>):

- Bachelor of Science in Engineering Technology - Civil Engineering Technology
- Bachelor of Science in Engineering Technology - Electrical Engineering Technology
- Bachelor of Science in Engineering Technology - Mechanical Engineering Technology

The following program is certified by the American Society for Engineering Management www.asem.org (<http://www.asem.org>):

- Master of Engineering Management

Collaborative Programs

Cardinal Education

Stacie Ringleb, Associate Dean for Faculty Affairs and Student Engagement, ODU Cardinal Education Site Director

The Cardinal Education Program offers ODU engineering graduate students a selection of online graduate courses and programs to compliment the on-campus course offerings. It is a unique cooperative agreement that enables engineering students at ODU to enroll (and receive credit for) select online courses from six respected Virginia universities. The Cardinal Program (formerly CGEP) has a 35+ year record of leadership in distance learning.

Partnering engineering schools in the Commonwealth of Virginia include: Old Dominion University, Polytechnic Institute and State University, The University of Virginia, George Mason University, Virginia Virginia State University, and Virginia Commonwealth University. The program also serves the diverse continuing education needs of students working in industry and government.

Students seeking course registration via the Cardinal Education Program should contact the Cardinal Education Program Office in the Batten College of Engineering and Technology at Old Dominion University: <https://www.odu.edu/engineering/programs/cardinal-education> (<https://www.odu.edu/engineering/programs/cardinal-education/>)

Special Programs

Cooperative Education/Internships Program

The cooperative education programs in the Frank Batten College of Engineering and Technology at Old Dominion University are of the highest academic quality. These programs allow students to combine academic study with professional-level training. Cooperative education positions may be based on the alternating program style in which periods of full-time study are alternated with periods of full-time employment. Participation in the cooperative education program can be a source of financial support to help meet a substantial portion of college expenses. All departments in the Frank Batten College of Engineering and Technology strongly endorse the concept of cooperative education and internships.

Old Dominion University/Eastern Virginia Medical School Joint Program in Medicine

The joint program in medicine is designed to encourage highly qualified students to receive a BS from Old Dominion University and an MD from Eastern Virginia Medical School. Students apply after completion of their freshman year at Old Dominion University. Upon successful completion of requirements and graduation from Old Dominion University, a student accepted in the ODU/EVMS Joint Program in Medicine will be guaranteed admission to Eastern Virginia Medical School. Engineering and engineering technology students are encouraged to apply for this program. Complete information can be found in the College of Sciences section of this catalog.

Engineering Fundamentals Division & Curriculum

The Engineering Fundamentals Division (EFD) is designed to provide support to first-year engineering and transfer students as they make the transition into the Frank Batten College of Engineering and Technology. All students are admitted to this division until they are prepared to successfully take courses in their major. While in this division, students receive individualized counseling, mentoring, and advising support designed to prepare them for success in their chosen engineering or technology major. A key experience for students in this division is ENGN 121 Introduction to Engineering and Technology. This group-oriented course uses hands-on projects to expose students to the spectrum of engineering practices from innovation through design, manufacture and commercialization of a product or process. It also provides students with an opportunity to experience various aspects of engineering and have a basis for selecting their major.

Admission

Students who qualify for regular admission to the University will be accepted into EFD. Students in EFD may identify a desired degree program or may declare that they are undecided among engineering and engineering technology programs. They will be assigned an intended major code classification, which indicates that they are enrolled and, if appropriate, which is their preferred program.

Matriculation into an Engineering or Engineering Technology Degree Program

Students must meet with a major advisor and meet the following requirements in order to be declared:

1. Earn an overall GPA of 2.0 or better
2. Earn at least 30 credit hours applicable toward a degree, including the Engineering Fundamental courses listed below
3. Complete ENGN 121
4. Complete ENGN 122. A grade of C or higher may be required for progression in some programs.
5. Complete all freshman-level math courses with a C or higher (MATH 211 & MATH 212 for engineering majors and MATH 162M and MATH 163 or higher for engineering technology majors)
6. Complete any other major-specific requirements

Normally, students are not eligible to enroll in major courses until they are accepted into the degree program. Students may petition to waive this rule when extenuating circumstances warrant.

Continuance

Students are eligible to continue in the EFD as long as, within two years, they:

1. meet the continuance regulations of the University and
2. make reasonable progress toward matriculation into an engineering or engineering technology program.

A student who has ceased reasonable progress toward matriculation into a college degree program will be notified in writing. One semester following this notification, if reasonable progress has not resumed, the student will be referred to the Center for Major Exploration. A student who successfully completes the requirements must apply to and be accepted by a college degree program. Students not accepted into a degree program during a period of one semester beyond completion of the requirements will be referred to the Center for Major Exploration.

Computer Requirement

The Frank Batten College of Engineering and Technology requires that all incoming freshmen and transfer students to the college have a notebook or laptop computer that meets or exceeds the Mobile Monarch Student Notebook Program's recommended models for engineering majors. Students are strongly encouraged to consider purchasing one of the Mobile Monarch Student Notebook Program's notebooks; however, students may bring their

own notebook if it meets the specifications. Contact the campus Monarch Techstore for technology requirements and student programs at: <https://www.odu.edu/techstore>. (<https://www.odu.edu/techstore/>) Please note, Apple computers are not compatible with many necessary engineering software packages.

Engineering Fundamentals—Engineering Programs

The following courses are commonly taken during the Freshman year (minor differences will be seen from program to program). Please see the individual department/program pages for four-year academic plans.

First-Year Engineering Courses

ENGN 121	Introduction to Engineering and Technology *	4
ENGN 122	Computer Programming for Engineering	4
MATH 211	Calculus I	4
MATH 212	Calculus II	4
CHEM 121N	Foundations of Chemistry I Lecture	3
CHEM 122N	Foundations of Chemistry I Laboratory	1
ENGL 110C	English Composition (grade of C or better required)	3
COMM 101R	Public Speaking **	3
PHYS 231N	University Physics I	4
Total Credits		30

* Meets the lower-division general education information literacy and research requirement.

** Civil Engineering majors may complete Human Creativity during the Freshman year and COMM 101R during the Sophomore year.

Engineering Fundamentals—Engineering Technology Programs

The Engineering Technology course requirements for the freshman year differ from the above by 1) MATH 211 and MATH 212 are replaced by MATH 162M and MATH 163, 2) COMM 101R is replaced by either ENGL 211C or ENGL 231C, and 3) PHYS 111N is taken in place of PHYS 231N. For additional details, please refer to the degree program guides appearing in the Engineering Technology section.

Advanced Placement

The University provides for possible advanced placement for up to 60 semester hours of course work. The student should refer to the advanced placement policy of specific departments (Mathematics and Statistics, Physics, Chemistry and Biochemistry, etc.) and the Policy for Prior Learning Assessment Credit Options at the Undergraduate Level found in this Catalog.

Qualified students may take advanced placement examinations in certain courses in the various departments of the Batten College of Engineering and Technology. The student should contact the chair of the department offering the course for information on applicability and approval.

Prospective freshmen are encouraged to take as many advanced placement courses as possible in high school. Further, prospective freshmen are encouraged to take as many AP examinations of the Educational Testing Service and CLEP examinations as possible. Qualifying scores on these examinations may result in advanced placement credit. However, freshmen should still consult with their faculty advisor before "skipping" courses given at Old Dominion University.

Additional information on advanced placement credit awarded for qualifying scores on AP and IB subject examinations can be found on the equivalency charts on the Office of Undergraduate Admissions website at <https://www.odu.edu/admission/undergraduate/credit> (<https://www.odu.edu/admission/undergraduate/credit/>).

Transfer Students

Transfer students seeking admission to an engineering or engineering technology program at Old Dominion University must complete the standard admission procedures as established by the Office of Admissions.

Transfer students are usually in one of the following categories:

1. students who have completed some course work, but who have not completed associate degrees
2. students who have completed associate degrees in appropriate fields before transferring.

Certain special policies have been developed for students in category (2). If the overall educational background of the transfer student who has completed an associate degree is felt to be sufficiently strong to permit them to pursue upper-division work satisfactorily, a composite or "package" evaluation of transfer credit may be made. This approach will permit some flexibility in accommodating students with slightly different but equally appropriate backgrounds, dependent on the engineering or engineering technology program involved. Certain deficiencies can be made up while the student is pursuing upper-division studies.

To be admitted as a transfer student with departmental junior standing, the student should have either completed an associate degree in an acceptable program or received full credit for two years of work indicated by the completion of the equivalent number of semester hours in the chosen engineering or engineering technology curriculum with a grade of C or better in each course.

Transfer students must earn a minimum of 25 percent of the total number of credits required for the degree from Old Dominion University and complete a minimum of 12 credit hours in upper-level courses in the major program from Old Dominion University.

Students transferring from the Virginia Community College System may view information about Old Dominion University's Guaranteed Admission Agreement, curriculum sheets, the letter of intent process, and Articulation Agreements on the Transfer Student Centers website (<https://www.odu.edu/transfer/transfer-centers/>).

Linked Bachelor's/Master's Degree Programs

Linked Bachelor's/Master's programs are designed to allow qualified students to secure a space in a master's program available in the Frank Batten College of Engineering and Technology while they are still pursuing their undergraduate degrees. An eligible student can choose a master's program in the same discipline as his/her bachelor's program or in a complementary discipline. Subject to the approval of the undergraduate and graduate program directors, a student enrolled in a linked program can count up to six credit hours of course work towards both the undergraduate and the graduate degrees. Full-time students may be able to complete the requirements for the bachelor's degree in four years and the master's degree in one additional year. Students in linked programs must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Students who are matriculated in an undergraduate major in the Frank Batten College of Engineering and Technology with a GPA of at least 3.00 overall and 3.00 in the major are eligible to apply for admission to a Linked Bachelor's/Master's program. Transfer students who desire to be admitted to a linked program at the time they join an undergraduate major at Old Dominion University are eligible to apply if their overall GPA at their previous institution is 3.25 or higher. Prerequisite courses may be required for engineering technology majors to pursue a master's degree in engineering.

Continuance in a Linked Bachelor's/Master's program requires maintenance of a GPA of 3.00 or higher overall and in the major.

Linked Bachelor-to-PhD Programs

For a select number of exceptionally well-qualified students, the college has established a linked doctoral program that enables students to be admitted directly into the PhD program upon completion of the baccalaureate degree. A select number of exceptionally well-qualified students can be admitted

to the Bachelor/PhD program in their junior year while they are pursuing one of the undergraduate programs at Old Dominion University. This program encourages admitted students to work closely with faculty members and pursue a research experience. Just as in the Linked Bachelor/Masters program, six credit hours of graduate course work may again be counted towards the undergraduate degree and doctoral course work mentioned above for the Bachelor/PhD program. For linked bachelor's to doctoral programs, students must earn a minimum of 198 credit hours (120 discrete credit hours for the undergraduate degree and 78 discrete credit hours for the graduate degree). Students in these programs must maintain a GPA of 3.50 or better throughout their bachelor's and doctoral studies.

The student may opt to obtain the master's degree along the way to the doctorate. To obtain the master's degree, the student must utilize the six graduate credits obtained as part of their undergraduate program, use 18 credits of the graduate course work that is part of the PhD, and work with the Graduate Program Director to plan the final 6 credits.

Enterprise Centers

The Batten College of Engineering and Technology is a catalyst for the economic development of Hampton Roads. To this end, the college has established a number of centers to serve as engines for enterprise development. These centers utilize all University resources, including students and faculty.

Applied Research Center (ARC)

Hani Elsayed-Ali, Director

ARC is an advanced materials engineering and laser technology research center. Staffed with industry/university teams utilizing the Jefferson Lab technologies, ARC provides commercial product-related research in the areas of thin-film technology, laser and plasma processing of materials, materials analysis, and devices and sensor fabrication. For more information: www.odu.edu/engineering/applied-research-center (<https://www.odu.edu/engineering/applied-research-center/>).

Frank Reidy Research Center for Bioelectrics

Andrei Pakhomov, Executive Director

The mission of the Center is to increase scientific knowledge and understanding of the interaction of electromagnetic fields and ionized gases with biological cells and to apply this knowledge to the development of medical diagnostics, therapeutics, and environmental contamination. The objectives of the Center are to perform leading-edge interdisciplinary and multi-institutional research, recruit top faculty and exceptional graduate students, support regional, national, and international programs, and increase external funding and institutional visibility. For more information: www.odu.edu/bioelectrics (<https://www.odu.edu/frank-reidy-research-center-bioelectrics/>).

Affiliated Centers

Center for Secure and Intelligent Critical Systems

Sachin Shetty, Director

The Center for Secure and Intelligent Critical Systems (CSICS) conducts research on developing and integrating secure and intelligent technologies to ensure safe, reliable, and resilient infrastructure for the future. CSICS focuses on both theoretical and practical research in computational modeling, simulation, and analysis. For more information: <https://sics-c.org/>

Institute for Coastal Adaptation and Resilience

Jessica Whitehead, Executive Director

ICAR's mission is to advance the practice of coastal resilience and adaptation by engaging with communities, organizations, and businesses to develop and deploy solutions based on integrated, innovative, and applied research. For more information: <https://oduadaptationandresilience.org/>.

Commonwealth Center for Recurrent Flooding

Carol Considine, ODU Contact

The Commonwealth Center for Recurrent Flooding Resiliency engages the expertise, resources, and intellectual vibrancy of William & Mary and Old Dominion University in support of building resilience to rising waters. The Center serves, advises, and supports Virginia by conducting interdisciplinary studies and providing training, technical and non-technical services, and policy guidance in the area of recurrent flooding resilience to the Commonwealth and its local governments, state agencies, industries, and citizens.. For more information: <https://www.floodingresiliency.org/>

Mission Engineering Center

Thomas Irwin, Executive Director

The Center for Mission Engineering (CME) is an interdisciplinary applied research center focused on advancement in designing, analyzing, integrating, and improving the ability of systems to deliver desired mission outcomes. For more information: <https://oduinnovate.org/research-enterprise/center-for-mission-engineering/>

Virginia Digital Maritime Center

Mark Whitney, Executive Director

The Virginia Digital Maritime Center's mission is to support Virginia's maritime enterprise by leveraging applied research & cutting-edge technology to advance the maritime workforce, foster collaborative partnerships, and drive economic growth in Hampton Roads. For more information: <https://digitalmaritime.org/>

Virginia Institute for Spaceflight and Autonomy

Yiannis Papelis, Executive Director

The Virginia Institute for Spaceflight and Autonomy cultivates partnerships between governments, industry, and academia to grow the spaceflight and autonomy ecosystems on the Eastern Shore. For more information: <https://visaatodu.org/>

Virginia Modeling, Analysis, and Simulation Center

Eric Weisel, Associate Vice President for Applied Research and Executive Director, VMASC

The Virginia Modeling, Analysis, and Simulation Center (VMASC) is an enterprise center of Old Dominion University, supporting the University's research mission through innovation, workforce development, and industry ecosystem engagement programs that create and integrate digital technologies into everyday practice. The Center performs applied research leading to digital transformation. For more information: www.vmasc.org (<http://www.vmasc.org/>).

Virginia Beach Institute of Data Science

Khan Iftekharuddin, Director

The Virginia Beach Data Science Institute is at the forefront of education, research and collaboration for Hampton Roads region, state and globally. The Institute aims to be a driving force for building a vibrant academic community that will educate new generations of builders, thinkers, and leaders.

College Institutes

Institute for Autonomous and Connected Systems: The mission of IACS is to bring together faculty and students across campus from the Colleges of Engineering & Technology, Arts & Letters, and Sciences who have mutual interest in advancing the interdisciplinary research and development of autonomous and connected systems including un-crewed and autonomous vehicles in air, land, space, and maritime applications. Interim Director: Thomas Alberts.

Institute for Engineering in Medicine, Health, and Human

Performance: The Institute for Engineering in Medicine, Health, and Human Performance (EnMed) is the trans-disciplinary home for innovative

biomedical research, founded on unique academic, industrial, and military footprints at ODU and in Hampton Roads, to improve patient and community health outcomes and advance human performance. Director: Lobat Tayebi.

Departmental Centers and Institutes

Sustainable Development Institute promotes and provides engineering, ecological, environmental, and economic assistance to local, regional, and national governmental agencies, as well as international organizations and businesses. The institute actively participates in community service by conducting waste minimization and pollution prevention assistance to local businesses. Director: Mujde Erten-Unal.

Transportation Research Institute collaborates with centers and departments across the ODU campus to conduct innovation-based research in the core areas of transportation operations, transportation safety, transportation planning, freight transportation, and environment, energy, and sustainable transport. Director: Mecit Cetin.

Virginia Institute for Photovoltaics research spans from the Nanoscale (Fundamental Sciences and Engineering) through the Devices and balance of systems, to the deployment of Gigascale commercial power generation. The current focus is to research and develop the Science and Engineering of Photovoltaic Devices (or Solar cells) and bring them from the laboratory to the industry. Director: Sylvain Marsillac.

Virginia Institute for Image and Vision Analysis aims to leverage complimentary expertise of faculty in computer vision, signal/image processing and machine learning to become one of the leading institutes in the field. Research focuses on novel theory, state-of-art algorithms, architectures, real-time implementations for biomedical engineering, human- and machine-centric recognition, environmental and geoscience applications and computer-aided medical diagnosis systems. Director: Khan Iftekharuddin.

Center for Bioelectronics: The mission of the Center is to lead the effort of advancing scientific frontiers, ensuring educational accessibility for underrepresented students in STEM, and securing research leadership in critical areas, such as smart health and biomedical research. The ODU Center for Bioelectronics is dedicated to the mission of diversity, equity, and inclusion in education and the workforce. Director: Gymama Slaughter.

Minors

Programs

Minor Programs

- Cybersecurity Minor (p. 571)
- Energy Engineering Minor (p. 571)
- Global Engineering Minor (p. 572)
- Uncrewed Systems Design & Development Minor (p. 572)

Minor

Cybersecurity Minor

Saltuk Karahan, Undergraduate Program Director skarahan@odu.edu
School of Cybersecurity

This interdisciplinary minor in cybersecurity is focused on the technological, structural, social, and legal frameworks used to secure computer networks and software. The study of cybersecurity combines multiple fields including computer science, engineering, information technology, criminal justice, and philosophy, to name a few. In an effort to promote the security of computer networks, software, and cyber information, an interdisciplinary understanding about technological, legal, philosophical, and structural aspects of cybersecurity is needed. This minor will provide students from different majors the knowledge they need to prevent or respond to cyber incidents they are likely to encounter in their careers.

Requirements

Four courses chosen from:

12

CRJS 310	Cybercriminology: Foundations
CS 462	Cybersecurity Fundamentals
or ECE/MSIM 470	Foundations of Cyber Security
CS 463	Cryptography for Cybersecurity
CS 464	Networked Systems Security
CS 465	Information Assurance for Cybersecurity
CS 466	Principles and Practice of Cyber Defense
CYSE 300	Introduction to Cybersecurity
CYSE 301	Cybersecurity Techniques and Operations
CYSE 406	Cyber Law
CYSE 407	Digital Forensics
ECE 416	Cyber Defense Fundamentals
or MSIM 416	Cyber Defense Fundamentals
ECE 419	Cyber Physical System Security
or MSIM 419	Cyber Physical Systems Security
EET 405	Data Communications and Computer Networks
or EET 412	Wireless Communication Systems
IT 416	Network Server Configuration and Administration
IT 417	Management of Information Security
IT 418	Enterprise Information Assurance
IT 419	Enterprise Cyber Defense
IT 461	Implementing Internet Applications
PHIL 355E	Cybersecurity Ethics
RMI 443	Enterprise Risk Management
or RMI 412	Property & Liability Insurance Company Operations

The interdisciplinary minor in cybersecurity requires 12 credit hours of 300/400-level courses selected from at least two different disciplines with a maximum of six credits from any one discipline. For completion of the interdisciplinary minor, students must have a minimum overall cumulative grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of lower-level courses and prerequisite courses. At least six hours of upper-level courses must be taken through courses offered by Old Dominion University. Three credit hours may be in the major, if a major course is listed as an option for the interdisciplinary minor. As such, it will be credited toward both the major and the interdisciplinary minor.

Minor

Energy Engineering Minor

Sandeep Kumar, Department of Civil and Environmental Engineering,
Coordinator

This interdisciplinary minor is for students who would like to learn about energy engineering fundamentals, socio-environmental impacts of energy systems, and novel energy engineering technologies. The minor will enhance students' abilities to integrate knowledge from different disciplines with concepts used in energy engineering and offer students the opportunity to be recognized for study in this growing interdisciplinary field.

Requirements

The interdisciplinary minor requires 12 credit hours of 300/400-level courses selected from at least two different disciplines with a maximum of six credits from any one discipline. The course requirements are as follows:

Four courses chosen from:

12

CET 355	Sustainable Building Practices
CEE 458	Sustainable Development
CEE 459	Biofuels Engineering

ECE 303	Introduction to Electrical Power
ECE 403	Power Electronics
ECE 471	Introduction to Solar Cells
ECON 447W	Natural Resource and Environmental Economics
EET 370	Energy and The Environment
EET 483	Introduction to Smart Grids
EET 485	Electrical Power Systems
ENMA 301	Introduction to Engineering Management
ENMA 302	Engineering Economics
MAE 411	Mechanical Engineering Power Systems Theory and Design
MAE 413	Energy Conversion
MET 300	Thermodynamics
MET 471	Nuclear Systems I
OEAS 415	Waves and Tides
PHYS 415	Introduction to Nuclear and Particle Physics

One course relevant to energy engineering from the student's major can also be used as a minor course with the approval of the minor coordinator.

For completion of the minor, students must have a minimum overall grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of prerequisites. At least six hours of the required 12 must be taken through courses offered by Old Dominion University.

Minor Global Engineering Minor

To be named, Coordinator

The minor in global engineering is for students who plan to seek career opportunities in companies with global operations. With globalization of design and manufacturing, it has become important for engineers, engaged in transnational projects, to not only have better teamwork and communication skills, but also a good understanding of the socioeconomic, environmental and cultural aspects of global engineering projects. The global engineering minor provides an understanding of these aspects through courses that develop an understanding of global technology, quality assurance standards, and differences in cultural, communication and business practices in a global work environment.

Requirements

Students may obtain a minor in global engineering by successful completion of 12 semester credit hours in approved course work at the 300- or 400-level. In addition, a student seeking a minor in global engineering must satisfy all pre- or corequisite requirements for the courses selected. The requirements are as follows:

CEE 458	Sustainable Development	3
CEE 367	Cooperative Education *	3
or MAE 367	Cooperative Education	
Select two of the following:		6
GEOG 305	World Resources	
ENGL 371W	Language and Culture	
MKTG 411	Multi-National Marketing	
Total Credit Hours		12

* Preferably at a multinational company.

For completion of a minor, a student must have a grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of lower-level courses, prerequisites and corequisites and complete at least six hours in upper-level courses in the minor requirement through courses offered by Old Dominion University.

Minor Uncrewed Systems Design & Development Minor

The Frank Batten College of Engineering and Technology offers a minor program in Uncrewed Systems Design & Development that develops focused expertise in uncrewed vehicles and systems (aerial, surface and underwater). Autonomous and uncrewed systems (including "drones") are a rapidly emerging interdisciplinary technology area that merge many disciplines of engineering, science, and beyond. This 12-credit minor is open to students from any major, and is an especially appropriate minor for undergraduates in engineering and science fields.

Requirements

Prerequisites may be required for many courses in the minor. Please check the course description for each course for prerequisite information.

The basic course requirements are as follows:

Core Courses		
ENGN 485	Introduction to Uncrewed Aerial Systems	3
or GEOG 409	Drone Applications Proseminar	
ENGN 486	Multirotor UAS Design and Construction	3
Elective Courses		
Select two of the following:		6
ECE 346	Microcontrollers	
ECE 408	Fundamentals of Electric Vehicles	
ECE 445	Introduction to Computer Vision	
ECE 463	Design and Modeling of Autonomous Robotic Systems	
ENGN 487	Fixed Wing and VTOL UAS Design and Construction	
ENGN 488	Autonomous Mission Platforms Systems Integration	
GEOG 402	Geographic Information Systems	
MAE 403	Flight Mechanics	
MAE 406	Flight Vehicle Aerodynamics	
MAE 417	Propulsion Systems	
MAE 438	Applied Analog and Digital Control	

For completion of a minor, a student must have a minimum overall cumulative grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of lower-level courses, prerequisites and corequisites and complete at least six hours of upper-level courses in the minor requirement through courses offered by Old Dominion University.

A maximum of six credits for disciplinary minors may share with other areas of the student's program. Approval of the department chair, chief departmental advisor, or designee may be required. Special attention should be paid to major/minor combinations where multiple courses overlap to ensure that the student is taking enough unique hours for the minor.

Civil and Environmental Engineering

Web Site: <http://www.odu.edu/cee> (<http://www.odu.edu/cee/>)

Sandeep Kumar, Chair

The Department of Civil and Environmental Engineering offers an undergraduate four-year program leading to the Bachelor of Science in Civil Engineering. The program is accredited by the Engineering Accreditation Commission (EAC) of ABET, <http://www.abet.org>. The department also offers a varied program of graduate study and research leading to the Master of Science, Master of Engineering, Doctor of Engineering, and Doctor of Philosophy degrees with concentrations in civil or environmental engineering. Areas of specialization include coastal, environmental,

geotechnical, hydraulics and water resources, transportation, and structural engineering. For further information, please visit the web site: <http://www.odu.edu/cee> (<http://www.odu.edu/cee/>).

Programs

Bachelor of Science in Civil Engineering Program

- Civil Engineering (BSCE) (p. 573)

Minor Programs

- Civil Engineering Minor (p. 575)
- Engineering Solutions for Climate Adaptation and Resilience Minor (p. 576)
- Environmental Engineering Minor (p. 575)

Bachelor of Science in Civil Engineering Civil Engineering (BSCE)

The undergraduate degree in civil engineering prepares graduates for entry into professional practice and continued intellectual and professional development throughout their career. The program prepares its graduates to serve as master planners, designers, constructors, and operators/managers of the built environment as well as stewards of natural resources and the environment. Civil engineering graduates are also prepared to serve as both innovators and integrators in the application of existing and developing technologies in the creation and maintenance of society's infrastructure. They also serve as evaluators and managers of risk and uncertainty and apply engineering knowledge and science to the protection of the built environment and public health.

The curriculum in civil engineering is designed to provide education in fundamental engineering sciences, certain nontechnical subjects, and all major areas of civil engineering, which will serve as a basis for entrance into civil engineering practice and/or graduate study. Technical elective courses are available that allow pursuit of several programs of study or specialization:

- Geotechnical
- Hydraulics and water resources
- Environmental
- Transportation
- Structural
- Coastal

In addition, course work in General Education skills and ways of knowing is required to assure a well-rounded program of study.

Civil Engineering Program Objectives

The program educational objectives describe the expected accomplishments of graduates during the first few years after graduation. The educational objectives of the civil engineering program, established with participation of all constituencies, are consistent with the mission of Old Dominion University and the Department of Civil and Environmental Engineering.

The objectives of the civil engineering program are to produce graduates who will:

- Successfully practice and/or pursue advanced studies in civil engineering or other fields.
- Effectively communicate the technical and social implications of civil engineering solutions.
- Appreciate and apply state-of-the-art practice in their chosen fields.
- Advance in the professional community through ethical practice, collaboration, and service.

Civil Engineering Program Outcomes

The program outcomes are statements that describe what students are expected to know and be able to do by the time of graduation. The

program outcomes have been established based on the program educational objectives, in consultation with the advisory council as documented in the minutes of the Civil and Environmental Engineering Visiting Council (CEEVC) meetings.

Students who qualify for graduation will have:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply the engineering design process to produce solutions that meet specified needs with consideration for public health and safety, and global, cultural, social, environmental, economic, and other factors as appropriate to the discipline.
3. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
4. An ability to communicate effectively with a range of audiences.
5. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
6. An ability to recognize the ongoing need for additional knowledge, to choose appropriate learning strategies, and to apply this knowledge.
7. An ability to function effectively as a member or leader of a team that establishes goals, plans tasks, meets deadlines, and creates a collaborative and inclusive environment.

In addition, students will have had opportunities for work experience through internships, practicum, and cooperative education. They will also have had opportunities to participate in student organizations for exposure to community service and for developing leadership skills. The students will be able to apply knowledge in environmental, geotechnical, structural, transportation, and water resources engineering.

In addition to the curriculum detailed below, all students in the Civil Engineering program are required to take the Fundamentals of Engineering exam (<http://ncees.org/exams/fe-exam/>) prior to graduation. Any student passing the FE exam prior to graduation will receive a reimbursement for the exam fee paid by the CEEVC.

Accreditation

The Bachelor of Science in Civil Engineering is accredited by the Engineering Accreditation Commission of ABET www.abet.org. (<http://www.abet.org>)

Requirements

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6
Oral Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#oral)	3
Mathematics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#math)	3
Language and Culture (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#language)	0-6
Information Literacy and Research (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#information)	3
Human Behavior (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#behavior)	3
Human Creativity (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#creativity)	3
Interpreting the Past (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#interpret)	3

Philosophy and Ethics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#philosophy)	3

The Nature of Science (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#nature)	8
Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

The General Education requirements in information literacy and research, impact of technology, and philosophy and ethics are met through the major.

Upper-Division General Education

- Option A. Approved Minor, 12-24 credit hours; also second degree or second major
- Option B. Interdisciplinary Minor; 12 credit hours, (3 credit hours may be in the major area of study)
- Option C. An approved certification program such as teaching licensure (hours vary)
- Option D. Two Upper-Division Courses (6 credit hours) from outside the College of Engineering and Technology and are not required by the major.

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Civil Engineering Major

In addition to the requirements shown in the degree program guide, all students in the Civil Engineering program are required to take the Fundamentals of Engineering exam (<https://ncees.org/engineering/fe/>) prior to graduation. Any student passing the FE exam prior to graduation will receive a reimbursement for the exam fee by the CEEVC.

General Education

Complete lower-division requirements	33-39
Complete upper-division requirements (minimum of 6 credit hours)	6

Civil Engineering Major

Complete civil engineering departmental and major requirements as shown on the degree program guide	84

Total Credit Hours	123-129

Degree Program Guide*

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

Linked Bachelor's/Master's Degree Programs

Linked Bachelor's/Master's programs are designed to allow qualified students to secure a space in a master's program available in the Frank Batten College of Engineering and Technology while they are still pursuing their undergraduate degrees. An eligible student can choose a master's program in the same discipline as his/her bachelor's program or in a complementary discipline. Subject to the approval of the undergraduate and graduate program directors, a student enrolled in a linked program can count up to six credit hours of course work towards both the undergraduate and the graduate degrees. Full-time students may be able to complete the requirements for the bachelor's degree in four years and the master's degree in one additional year. Students in linked programs must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Students who are matriculated in an undergraduate major in the Frank Batten College of Engineering and Technology with a GPA of at least 3.00 overall and 3.00 in the major are eligible to apply for admission to a Linked Bachelor's/Master's program. Transfer students who desire to be admitted to a linked program at the time they join an undergraduate major at Old Dominion University are eligible to apply if their overall GPA at their previous institution is 3.25 or higher. Prerequisite courses may be

required for engineering technology majors to pursue a master's degree in engineering.

Continuance in a Linked Bachelor's/Master's program requires maintenance of a GPA of 3.00 or higher overall and in the major.

Linked Bachelor-to-PhD Programs

For a select number of exceptionally well-qualified students, the college has established a linked doctoral program that enables students to be admitted directly into the PhD program upon completion of the baccalaureate degree. A select number of exceptionally well-qualified students can be admitted to the Bachelor/PhD program in their junior year while they are pursuing one of the undergraduate programs at Old Dominion University. This program encourages admitted students to work closely with faculty members and pursue a research experience. Just as in the Linked Bachelor/Masters program, six credit hours of graduate course work may again be counted towards the undergraduate degree and doctoral course work mentioned above for the Bachelor/PhD program. For linked bachelor's to doctoral programs, students must earn a minimum of 198 credit hours (120 discrete credit hours for the undergraduate degree and 78 discrete credit hours for the graduate degree). Students in these programs must maintain a GPA of 3.50 or better throughout their bachelor's and doctoral studies.

The student may opt to obtain the master's degree along the way to the doctorate. To obtain the master's degree, the student must utilize the six graduate credits obtained as part of their undergraduate program, use 18 credits of the graduate course work that is part of the PhD, and work with the Graduate Program Director to plan the final 6 credits.

Minor Civil Engineering Minor

An undergraduate minor in civil engineering may be obtained by students from outside of the major by successful completion of 12 or more semester credit hours in approved civil engineering course work at the 300 or 400 level. In addition, a student seeking a minor in civil engineering must satisfy all pre- or corequisite requirements for the courses selected.

Requirements

CEE 323	Soil Mechanics	3
or CEE 340	Hydraulics and Water Resources	
CEE 310	Structures I	3
CEE 370	Transportation Fundamentals	3
or CEE 4xx **		
CEE 4xx **		3
Total Credit Hours		12

- ** CEE 4xx can be any senior-level elective in coastal, geotechnical, structural or water resources engineering. The precise course of study must be approved by the chief departmental advisor.

For completion of a minor, a student must have a minimum overall cumulative grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of lower-level courses, prerequisites and corequisites and complete a minimum of six hours of upper-level courses in the minor requirement through courses offered by Old Dominion University. Completion of a minor in civil engineering with a grade point average of 3.00 or greater partially satisfies the leveling requirements for graduate degrees in civil engineering.

Minor Environmental Engineering Minor

An undergraduate minor in environmental engineering may be obtained by successful completion of 12 or more semester credit hours in approved environmental engineering course work at the 300 or 400 level. In addition,

a student seeking a minor in environmental engineering must satisfy all pre- or corequisite requirements for the courses selected. For civil engineering majors pursuing the environmental engineering minor, one of two 400-level technical elective courses in environmental engineering may count toward one of the approved 400-level courses for the environmental engineering minor.

Requirements

Two tracks are available: aqueous environmental systems and environmental protection. The course requirements are as follows:

Aqueous Environmental Systems

CEE 350	Environmental Pollution and Control	3
Select three of the following:		9
CEE 440	Hydraulic Engineering	
CEE 446	Urban Stormwater Hydrology	
CEE 447	Groundwater Hydraulics	
CEE 450	Water Distribution and Wastewater Collection System Design	
CEE 451	Water and Wastewater Treatment	
CEE 482	Introduction to Coastal Engineering	
Total Credit Hours		12

Environmental Protection

CEE 350	Environmental Pollution and Control	3
Select three of the following:		9
CEE 451	Water and Wastewater Treatment	
CEE 452	Air Quality	
CEE 454	Hazardous Waste Treatment	
CEE 458	Sustainable Development	
CEE 459	Biofuels Engineering	
CEE 482	Introduction to Coastal Engineering	
CEE 455	Pollution Prevention and Green Engineering	
Total Credit Hours		12

For completion of a minor a student must have a minimum overall cumulative grade point average of 2.00 in courses specified as a requirement for the minor exclusive of lower-level courses, prerequisites and corequisites and complete a minimum of six hours of upper-level courses in the minor requirement through courses offered by Old Dominion University. Completion of a minor in environmental engineering with a grade point average of 3.00 or greater partially satisfies the leveling requirements for graduate degrees in environmental engineering.

Minor Engineering Solutions for Climate Adaptation and Resilience Minor Requirements

CEE 457	Adaptation to Sea Level Rise	3
CET 458	Managing the Climate Crisis	3
Select two of the following:		6
CET 332	Water Resources Engineering	
CET 420	Hydrology and Drainage	
CEE 446	Urban Stormwater Hydrology	
CEE 447	Groundwater Hydraulics	
CEE 455	Pollution Prevention and Green Engineering	
CET 456	Resilience and Sustainability	
CEE 458	Sustainable Development	

Civil Engineering majors completing the minor are limited to a maximum of six credits of CEE coursework. Civil Engineering Technology majors completing the minor are limited to a maximum of six credits of CET coursework.

For completion of the minor, students must have a minimum overall cumulative grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of lower-level courses and prerequisite courses. At least six hours of upper-level courses must be taken through courses offered by Old Dominion University.

Electrical and Computer Engineering

Web Site: <http://www.odu.edu/ece> (<http://www.odu.edu/ece/>)

Oscar González, Chair

The Department of Electrical and Computer Engineering offers undergraduate four-year degree programs leading to the Bachelor of Science in Electrical Engineering and the Bachelor of Science in Computer Engineering. These programs are accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org>. The undergraduate programs provide a broad foundation in electrical and/or computer engineering through combined lecture and laboratory work and prepare the student for entering the profession of electrical and/or computer engineering. In addition, these programs prepare the students for further study at the graduate level.

The department also offers programs of graduate study leading to the degrees of Master of Science, Doctor of Engineering, and Doctor of Philosophy. Faculty members in electrical and computer engineering are actively engaged in research, and the department maintains extensive laboratory facilities to support the research work. Areas of specialization include AI and machine learning engineering, atomic layer deposition, autonomous systems, biomedical engineering, bioelectronics, communications and networking, computer hardware cybersecurity engineering, distributed simulation, high performance computing, intelligent transportation systems, laser processing, microelectronics/nanotechnology, modeling/simulation/visualization, medical modeling, multivariable systems/nonlinear control, photovoltaics, plasmas, quantum computing, signal and image processing, thin films, virtual reality, and augmented reality.

Students majoring in either electrical engineering or computer engineering may fulfill the upper-level General Education requirements through completion of a minor in the other discipline. Except for the major in modeling & simulation engineering, computer engineering students automatically meet this requirement with the built-in minor in computer science.

Mission Statement

The Department of Electrical and Computer Engineering at Old Dominion University is a partnership among students, faculty and staff in Service to the profession of Electrical and computer engineering through academic excellence, Research and real-world experiences, dedicated to a Vision of the future that includes Industry and community, Continuous improvement, and personal Enrichment and growth (SERVICE).

Continuance Regulations

It is the policy of the Department of Electrical and Computer Engineering to deny a student eligibility to enroll in program courses after it becomes evident that he or she is either unable or unwilling to maintain reasonable standards of academic achievement. Courses in the electrical and computer engineering major are defined as courses with an ECE prefix.

1. A student will be placed on departmental academic probation whenever his or her major grade point average (GPA) falls below 2.00 (after six or more hours have been attempted in the major).
2. Students on academic probation are expected to improve their major GPA by achieving a semester GPA of 2.0 or better during the next semester of attendance. A student on academic probation will have two consecutive semesters to improve their major GPA to 2.0 before termination from the program.
3. Following two consecutive semesters of academic probation, a student is subject to termination from the program if his or her major GPA is below 2.0 and the semester GPA is below 2.0 in the major at the end of either the Fall or Spring semester.

Appeals of termination from the program are in order if extenuating circumstances warrant. Appeals are to be made in writing to the chair of the department. Once the appeal is submitted, it is considered by the faculty of the department.

Programs

Bachelor of Science in Computer Engineering Programs

- Computer Engineering (BSCE) (p. 577)
- Computer Engineering with a Major in Modeling & Simulation Engineering (BSCE) (p. 587)

Bachelor of Science in Electrical Engineering Programs

- Electrical Engineering (BSEE) (p. 592)

Minor Programs

- Biomedical Engineering Minor (p. 599)
- Computer Engineering Minor (p. 586)
- Electrical Engineering Minor (p. 598)
- Modeling and Simulation Minor (p. 592)

Bachelor of Science in Computer Engineering Computer Engineering (BSCE)

Lee A. Belfore II, Chief Departmental Advisor

The computer engineering undergraduate degree program, available in both synchronous online and face-to-face formats, is designed to provide both a broad engineering background and a comprehensive foundation in the technical principles underlying the computer area. Students develop a background through course work in mathematics, the basic sciences, and general engineering. The technical core consists of course work from electrical engineering to address hardware aspects of computer engineering and course work from computer science to address software aspects.

There are two majors available in the Bachelor of Science in Computer Engineering degree: Computer Engineering major and Modeling & Simulation Engineering major. Adequate elective freedom is available to students in each major. The Computer Engineering major has a built-in minor in computer science, and four technical electives allow for specialization in one or more of four additional areas: computer hardware systems, computer networks, cyber security, or data analytics engineering. The Modeling and Simulation major allows students to select three technical elective courses. In addition, course work in General Education Skills and Ways of Knowing is required to assure a well-rounded program of study.

Students pursuing a Bachelor of Science in Computer Engineering degree (BSCE) are intended in their degree until Engineering Fundamental/foundational courses (I.E. Calculus I & II, Calculus-based University Physics I, Programming I, Chemistry I, and Engineering introductory courses) are completed.

Computer Engineering Program Educational Objectives

The computer engineering program seeks to prepare graduates who, after the first few years of their professional career, have:

1. established themselves as practicing engineering professionals in industry or government, or engaged in graduate study
2. demonstrated their ability to work successfully as members of a professional team and function effectively as responsible professionals
3. demonstrated their ability to adapt to new technology and career challenges.

Student Outcomes

The computer engineering student outcomes are as follows. Graduates must attain:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Accreditation

The Bachelor of Science in Computer Engineering is accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org>. (<http://www.abet.org>)

Requirements

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6
Oral Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#oral)	3
Mathematics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#math)	3
Language and Culture (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#language)	0-6
Information Literacy and Research (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#information)	3
Human Behavior (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#behavior)	3
Human Creativity (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#creativity)	3
Interpreting the Past (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#interpret)	3
Literature (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#literature)	3
Philosophy and Ethics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#philosophy)	3
The Nature of Science (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#nature)	8

Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

The General Education requirements in information literacy and research, impact of technology, and philosophy and ethics are met through the major. The upper-division General Education requirement is met through a built-in minor in Computer Science.

Upper-Division General Education

Met in the major through a built-in minor in computer science.

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Computer Engineering

Computer Engineering majors must earn a grade of C or better in all 200-level ECE courses and all CS courses prior to taking the next course in the sequence.

Any ECE course registration issues are to be resolved with the ECE Academic Coordinator and Program Manager.

General Education

Complete lower-division requirements	33-39

Complete upper-division requirements (satisfied in the major through a built-in minor in computer science)

Computer Engineering Major

Complete computer engineering departmental and major requirements as shown on the degree program guide	89

Total Credit Hours	122-128

Computer Engineering Areas of Specialization

Students in the Bachelor of Science in Computer Engineering degree program may focus their studies in one or more specialized areas by electing to take courses in computer hardware systems, computer networks, cyber security, or data analytics engineering.

The computer hardware systems area requires completion of four courses selected from the following: ECE 341, ECE 346, ECE 441, ECE 443, and ECE 483.

The computer networks area requires completion of the following four courses: ECE 355, ECE 451, ECE 452, and ECE 455.

The cyber security area requires completion of four courses selected from the following: ECE 346, ECE 355, ECE 416, ECE 419, ECE 455, ECE 470 and ECE 483.

The data analytics engineering area requires completion of the following courses: ECE 304, ECE 350, ECE 441, ECE 445, and ECE 450.

Degree Program Guide*

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly

encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

Computer Engineering (BSCE)

Course	Title	Credit Hours
Freshman		
Fall		
ENGN 121	Introduction to Engineering and Technology	4
CHEM 121N	Foundations of Chemistry I Lecture	3
CHEM 122N or CHEM 120	Foundations of Chemistry I Laboratory ** or Foundations of Chemistry I Laboratory for Online Degree Programs	1
MATH 211	Calculus I (Grade of C or better required)	4
ENGL 110C	English Composition (Grade of C or better required)	3
Credit Hours		15
Spring

CS 411W	Professional Workforce Development II (Grade of C or better required to meet the University Writing Intensive requirement)	3
CS Upper Level Elective III		3
ECE Technical Elective II ⁶		3
Credit Hours		15
Total Credit Hours		153

- * Does not include the University's General Education language and culture requirement. Additional hours may be required.
- 1 CHEM 120 is for online program students only.
- 2 ENGN 121 satisfies the Computer Science Information Literacy & Research requirement.
- 3 ENGN 122 satisfies the Introduction to Programming requirement in the Computer Science curriculum.
- 4 ECE 304 satisfies the STAT 330 requirement in Computer Science curriculum
- 5 ENMA 480 satisfies the Computer Science Philosophy & Ethics requirement.
- 6 Computer Engineering students pursuing the dual degree with Computer Science have two remaining ECE 400-level Technical Elective courses.
- 7 ECE 346 satisfies the CS 170 requirement in Computer Science curriculum.
- 8 ECE 443 satisfies the CS 270 requirement in Computer Science curriculum.

The General Education requirements in information literacy and research, impact of technology, and philosophy and ethics are met through the major. The upper-division General Education requirement is met through a built-in minor in computer science and through the completion of a second major/degree.

Computer engineering and computer science majors must earn a grade of C or better in all 200-level ECE courses and all CS courses prior to taking the next course in the sequence.

Any ECE course registration issues are to be resolved with the ECE Academic Coordinator and Program Manager.

The five-year plan is a suggested curriculum to complete this degree program in five years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

Literature Way of Knowing		3
Credit Hours		15
Total Credit Hours		161

* Does not include the University's General Education language and culture requirement. Additional hours may be required.

¹ CHEM 120 is for online program students only.

² ENGN 121 satisfies the Cybersecurity Information Literacy & Research requirement.

583 Computer Engineering (BSCE)

³ CRJS 215S or SOC 201S satisfies the University's Human Behavior Way of Knowing requirement.

⁴ These courses are required courses for Cybersecurity curriculum (satisfying 2 Principles & 2 Application Courses) & ECE Technical Electives for Computer Engineering curriculum.

The General Education requirements in information literacy and research, impact of technology, and philosophy and ethics are met through the major. The upper-division General Education requirement is met through a built-in minor in computer science and through the completion of a second major/degree.

Computer engineering and cybersecurity majors must earn a grade of C or better in all 200-level ECE courses and all CS courses prior to taking the next course in the sequence.

Any ECE course registration issues are to be resolved with the ECE Academic Coordinator and Program Manager.

The five-year plan is a suggested curriculum to complete this degree program in five years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

Total Credit Hours		160

- * Does not include the University's General Education language and culture requirement. Additional hours may be required.
- 1 CHEM 120 is for online program students only.
- 2 ENGN 121 satisfies the Computer Science Information Literacy & Research requirement.
- 3 ENGN 122 satisfies the Introduction to Programming requirement in the Computer Science curriculum.
- 4 ECE 304 satisfies the STAT 330 requirement in Computer Science curriculum
- 5 ENMA 480 satisfies the Computer Science Philosophy & Ethics requirement.
- 6 Computer Engineering - Modeling & Simulation Engineering Major students pursuing the dual degree with

7	Computer Science have one remaining ECE 400-level Technical Elective course.
8	ECE 346 satisfies the CS 170 requirement in Computer Science curriculum.
	ECE 443 satisfies the CS 270 requirement in Computer Science curriculum.

The General Education requirements in information literacy and research, impact of technology, and philosophy and ethics are met through the major. The upper-division General Education requirement is met through a built-in minor in computer science and through the completion of a second major/degree.

Modeling & Simulation Engineering and Computer Science majors must earn a grade of C or better in all 200-level ECE courses and all CS courses prior to taking the next course in the sequence.

Any ECE course registration issues are to be resolved with the ECE Academic Coordinator and Program Manager.

The five-year plan is a suggested curriculum to complete this degree program in five years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

Linked Bachelor's/Master's Degree Programs

Linked Bachelor's/Master's programs are designed to allow qualified students to secure a space in a master's program available in the Frank Batten College of Engineering and Technology while they are still pursuing their undergraduate degrees. An eligible student can choose a master's program in the same discipline as his/her bachelor's program or in a complementary discipline. Subject to the approval of the undergraduate and graduate program directors, a student enrolled in a linked program can count up to six credit hours of course work towards both the undergraduate and the graduate degrees. Full-time students may be able to complete the requirements for the bachelor's degree in four years and the master's degree in one additional year. Students in linked programs must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Students who are matriculated in an undergraduate major in the Frank Batten College of Engineering and Technology with a GPA of at least 3.00 overall and 3.00 in the major are eligible to apply for admission to a Linked Bachelor's/Master's program. Transfer students who desire to be admitted to a linked program at the time they join an undergraduate major at Old Dominion University are eligible to apply if their overall GPA at their previous institution is 3.25 or higher. Prerequisite courses may be required for engineering technology majors to pursue a master's degree in engineering.

Continuance in a Linked Bachelor's/Master's program requires maintenance of a GPA of 3.00 or higher overall and in the major.

Linked Bachelor-to-PhD Programs

For a select number of exceptionally well-qualified students, the college has established a linked doctoral program that enables students to be admitted directly into the PhD program upon completion of the baccalaureate degree. A select number of exceptionally well-qualified students can be admitted to the Bachelor/PhD program in their junior year while they are pursuing one of the undergraduate programs at Old Dominion University. This program encourages admitted students to work closely with faculty members and pursue a research experience. Just as in the Linked Bachelor/Masters program, six credit hours of graduate course work may again be counted towards the undergraduate degree and doctoral course work mentioned above for the Bachelor/PhD program. For linked bachelor's to doctoral programs, students must earn a minimum of 198 credit hours (120 discrete credit hours for the undergraduate degree and 78 discrete credit hours for the

graduate degree). Students in these programs must maintain a GPA of 3.50 or better throughout their bachelor's and doctoral studies.

The student may opt to obtain the master's degree along the way to the doctorate. To obtain the master's degree, the student must utilize the six graduate credits obtained as part of their undergraduate program, use 18 credits of the graduate course work that is part of the PhD, and work with the Graduate Program Director to plan the final 6 credits.

Minor Computer Engineering Minor

Lee Belfore, Minor Coordinator

An undergraduate minor in computer engineering may be obtained by successful completion of 13 or more semester credit hours of approved electrical or computer engineering or computer science course work at the 200, 300 or 400 level. In addition, a student seeking a minor in computer engineering must satisfy all pre- or corequisite requirements for the courses selected. CS 150 (or CS 151 or CS 153) or ENGN 122, CS 250 (or CS 251 or CS 253 or (ECE 250 and CS 261)), and CS 252 are prerequisites for the minor and are not included in the calculation of the GPA for the minor. The chief departmental advisor must approve the precise course of study.

Requirements

The basic course requirements are as follows:

ECE 241	Fundamentals of Computer Engineering	4
CS 361	Data Structures and Algorithms	3
Select two of the following: *		6
ECE 341	Digital System Design	
ECE 346	Microcontrollers	
ECE 355	Introduction to Networks and Data Communications	
ECE 381	Introduction to Discrete-time Signal Processing **	
ECE 406	Computer Graphics and Visualization	
ECE 407	Introduction to Game Development	
ECE 441	Advanced Digital Design and Field Programmable Gate Arrays	
ECE 455	Network Engineering and Design	
ECE 483	Embedded Systems	
Total Credit Hours		13

* Course substitutions may be approved by the chief departmental advisor.

** Class not permitted for Electrical Engineering majors due to being a requirement in the major.

For completion of a minor, a student must have a minimum overall cumulative grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of lower-level courses (except for ECE 241), prerequisites and corequisites and complete a minimum of six hours of upper-division courses in the minor through courses offered by Old Dominion University. Completion of a minor in computer engineering with a GPA of 3.00 or greater partially satisfies the leveling requirements for graduate degrees in computer engineering.

Bachelor of Science in Computer Engineering

Computer Engineering with a Major in Modeling & Simulation Engineering (BSCE)

Lee A. Belfore II, Chief Departmental Advisor

The computer engineering undergraduate degree program, available in both synchronous online and face-to-face formats, is designed to provide both a broad engineering background and a comprehensive foundation in the technical principles underlying the computer area. Students develop a background through course work in mathematics, the basic sciences, and general engineering. The technical core consists of course work from electrical engineering to address hardware aspects of computer engineering and course work from computer science to address software aspects.

There are two majors available in the Bachelor of Science in Computer Engineering degree: Computer Engineering major and Modeling & Simulation Engineering major. Adequate elective freedom is available to students in each major. The Computer Engineering major has a built-in minor in computer science, and four technical electives allow for specialization in one or more of four additional areas: computer hardware systems, computer networks, cyber security, or data analytics engineering. The Modeling and Simulation major allows students to select three technical elective courses. In addition, course work in General Education Skills and Ways of Knowing is required to assure a well-rounded program of study.

Students pursuing a Bachelor of Science in Computer Engineering degree (BSCE) are intended in their degree until Engineering Fundamental/foundational courses (I.E. Calculus I & II, Calculus-based University Physics I, Programming I, Chemistry I, and Engineering introductory courses) are completed.

Computer Engineering Program Educational Objectives

The computer engineering program seeks to prepare graduates who, after the first few years of their professional career, have:

1. established themselves as practicing engineering professionals in industry or government, or engaged in graduate study
2. demonstrated their ability to work successfully as members of a professional team and function effectively as responsible professionals
3. demonstrated their ability to adapt to new technology and career challenges.

Student Outcomes

The computer engineering student outcomes are as follows. Graduates must attain:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.

7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Accreditation

The Bachelor of Science in Computer Engineering is accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org>. (<http://www.abet.org>)

Requirements

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6
Oral Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#oral)	3
Mathematics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#math)	3
Language and Culture (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#language)	0-6
Information Literacy and Research (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#information)	3
Human Behavior (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#behavior)	3
Human Creativity (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#creativity)	3
Interpreting the Past (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#interpret)	3
Literature (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#literature)	3
Philosophy and Ethics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#philosophy)	3
The Nature of Science (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#nature)	8
Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

The General Education requirements in information literacy and research, impact of technology, and philosophy and ethics are met through the major.

Upper-Division General Education

- Option A. Approved Minor, 12-24 credit hours; also second degree or second major
- Option B. Interdisciplinary Minor; 12 credit hours, (3 credit hours may be in the major area of study)
- Option C. An approved certification program such as teaching licensure (hours vary)
- Option D. Two Upper-Division Courses (6 credit hours) from outside the College of Engineering and Technology and are not required by the major.

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.

- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Computer Engineering with a Major in Modeling & Simulation Engineering

James Leathrum Jr., Program Advisor and Coordinator

Computer Engineering-Modeling & Simulation Engineering majors must earn a grade of C or better in all 200-level ECE courses and all CS courses prior to taking the next course in the sequence.

Any ECE course registration issues are to be resolved with the ECE Academic Coordinator and Program Manager.

General Education

Complete lower-division requirements 33-39

Complete upper-division requirements (minimum of 6 credit hours) 6

Modeling & Simulation Engineering Major

Complete modeling and simulation engineering departmental and major requirements as shown on the degree program guide 83

Total Credit Hours 122-128

Degree Program Guide

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

- * Does not include the University's General Education language and culture requirement. Additional hours may be required.
- 1 CHEM 120 is for online program students only.
- 2 ENGN 121 satisfies the Computer Science Information Literacy & Research requirement.
- 3 ENGN 122 satisfies the Introduction to Programming requirement in the Computer Science curriculum.
- 4 ECE 304 satisfies the STAT 330 requirement in Computer Science curriculum
- 5 ENMA 480 satisfies the Computer Science Philosophy & Ethics requirement.
- 6 Computer Engineering - Modeling & Simulation Engineering Major students pursuing the dual degree with

591 Computer Engineering with a Major in Modeling & Simulation Engineering (BSCE)

Computer Science have one remaining ECE 400-level Technical Elective course.

7 ECE 346 satisfies the CS 170 requirement in Computer Science curriculum.

8 ECE 443 satisfies the CS 270 requirement in Computer Science curriculum.

The General Education requirements in information literacy and research, impact of technology, and philosophy and ethics are met through the major. The upper-division General Education requirement is met through a built-in minor in computer science and through the completion of a second major/degree.

Modeling & Simulation Engineering and Computer Science majors must earn a grade of C or better in all 200-level ECE courses and all CS courses prior to taking the next course in the sequence.

Any ECE course registration issues are to be resolved with the ECE Academic Coordinator and Program Manager.

The five-year plan is a suggested curriculum to complete this degree program in five years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

Linked Bachelor's/Master's Degree Programs

Linked Bachelor's/Master's programs are designed to allow qualified students to secure a space in a master's program available in the Frank Batten College of Engineering and Technology while they are still pursuing their undergraduate degrees. An eligible student can choose a master's program in the same discipline as his/her bachelor's program or in a complementary discipline. Subject to the approval of the undergraduate and graduate program directors, a student enrolled in a linked program can count up to six credit hours of course work towards both the undergraduate and the graduate degrees. Full-time students may be able to complete the requirements for the bachelor's degree in four years and the master's degree in one additional year. Students in linked programs must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Students who are matriculated in an undergraduate major in the Frank Batten College of Engineering and Technology with a GPA of at least 3.00 overall and 3.00 in the major are eligible to apply for admission to a Linked Bachelor's/Master's program. Transfer students who desire to be admitted to a linked program at the time they join an undergraduate major at Old Dominion University are eligible to apply if their overall GPA at their previous institution is 3.25 or higher. Prerequisite courses may be required for engineering technology majors to pursue a master's degree in engineering.

Continuance in a Linked Bachelor's/Master's program requires maintenance of a GPA of 3.00 or higher overall and in the major.

Linked Bachelor-to-PhD Programs

For a select number of exceptionally well-qualified students, the college has established a linked doctoral program that enables students to be admitted directly into the PhD program upon completion of the baccalaureate degree. A select number of exceptionally well-qualified students can be admitted to the Bachelor/PhD program in their junior year while they are pursuing one of the undergraduate programs at Old Dominion University. This program encourages admitted students to work closely with faculty members and pursue a research experience. Just as in the Linked Bachelor/Masters program, six credit hours of graduate course work may again be counted towards the undergraduate degree and doctoral course work mentioned above for the Bachelor/PhD program. For linked bachelor's to doctoral programs, students must earn a minimum of 198 credit hours (120 discrete credit hours for the undergraduate degree and 78 discrete credit hours for the

graduate degree). Students in these programs must maintain a GPA of 3.50 or better throughout their bachelor's and doctoral studies.

The student may opt to obtain the master's degree along the way to the doctorate. To obtain the master's degree, the student must utilize the six graduate credits obtained as part of their undergraduate program, use 18 credits of the graduate course work that is part of the PhD, and work with the Graduate Program Director to plan the final 6 credits.

Minor

Modeling and Simulation Minor

James Leathrum, Minor Coordinator

An undergraduate minor in modeling and simulation may be obtained by successful completion of 12 or more credit hours of approved modeling and simulation engineering coursework at the 200-, 300-, and 400-level. In addition, a student seeking a minor in modeling and simulation must satisfy all pre- or corequisite requirements for the courses selected.

There are two tracks available in the minor in modeling and simulation: simulation application and simulation development. The minor coordinator must approve the precise course of study in the minor.

Requirements

The basic course requirements for the two tracks are as follows:

Simulation Application Track

STAT 330	An Introduction to Probability and Statistics (or ECE 304)	3
ECE 306	Discrete System Modeling and Simulation	3
ECE 320	Continuous System Modeling and Simulation	3
Select one of the following:		3
ECE 410	Model Engineering	
ECE 453	Analysis for Modeling and Simulation	
Total Credit Hours		12

Simulation Development Track

STAT 330	An Introduction to Probability and Statistics (or ECE 304)	3
ECE 306	Discrete System Modeling and Simulation	3
ECE 348	Simulation Software Design	3
Select one of the following:		3
ECE 406	Computer Graphics and Visualization	
ECE 407	Introduction to Game Development	
ECE 409	Introduction to Distributed Simulation	
Total Credit Hours		12

When appropriate, other course work can be developed in consultation with the minor coordinator.

For completion of the minor, a student must pass each course required for the minor, achieve a cumulative grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of lower-level courses, prerequisites and corequisites, complete a minimum of twelve credit hours of approved coursework for the minor, and complete at least six hours of upper-level courses in the minor requirement through courses offered by Old Dominion University. To enter the program, students must have completed calculus and one college-level computer-programming course (CS 150 or equivalent).

Bachelor of Science in Electrical Engineering

Electrical Engineering (BSEE)

Lee A. Belfore II, Chief Departmental Advisor

The electrical engineering undergraduate curriculum begins with a solid foundation in math, science, English, circuits, signals and linear systems, electronics, electromagnetics, digital systems, and microelectronics. Adequate elective freedom is available to the student to allow specialization in one or more of five areas: systems and automation engineering, physical electronics, computer hardware systems, power and renewable energy, or data analytics engineering. Emphasis is placed on understanding principles through theoretical investigation and experimental verification. In addition, course work in General Education Skills and Ways of Knowing is required to assure a well-rounded program of study.

Students pursuing a BSEE degree are intended in their degree until Engineering Fundamental/foundational courses (I.E. Calculus I & II, Calculus-based University Physics I, Programming I, Chemistry I, and Engineering introductory courses) are completed.

Electrical Engineering Program Educational Objectives

The electrical engineering program seeks to prepare graduates who, after the first few years of their professional career, have:

1. established themselves as practicing engineering professionals in industry or government, or engaged in graduate study
2. demonstrated their ability to work successfully as members of a professional team and function effectively as responsible professionals
3. demonstrated their ability to adapt to new technology and career challenges

Student Outcomes

The electrical engineering student outcomes are as follows. Graduates must attain:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Accreditation

The Bachelor of Science in Electrical Engineering is accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org>. (<http://www.abet.org>)

Requirements

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6
Oral Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#oral)	3
Mathematics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#math)	3
Language and Culture (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#language)	0-6

Information Literacy and Research (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#information)	3
Human Behavior (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#behavior)	3
Human Creativity (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#creativity)	3
Interpreting the Past (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#interpret)	3
Literature (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#literature)	3
Philosophy and Ethics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#philosophy)	3
The Nature of Science (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#nature)	8
Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

The General Education requirements in information literacy and research, impact of technology, and philosophy and ethics are met through the major.

Upper-Division General Education

- Option A. Approved Minor, 12-24 credit hours; also second degree or second major
- Option B. Interdisciplinary Minor; 12 credit hours, (3 credit hours may be in the major area of study)
- Option C. An approved certification program such as teaching licensure (hours vary)
- Option D. Two Upper-Division Courses (6 credit hours) from outside the College of Engineering and Technology and are not required by the major.

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Electrical Engineering

Electrical engineering majors must earn a grade of C or better in all 200-level ECE courses prior to taking the next course in the sequence.

Any ECE course registration issues are to be resolved with the ECE Academic Coordinator and Program Manager.

General Education

Complete lower-division requirements	33-39
Complete upper-division requirements (minimum of 6 credit hours)	6
Electrical Engineering Major	
Complete electrical engineering departmental and major requirements as shown on the degree program guide	84
Total Credit Hours	123-129

Electrical Engineering Areas of Specialization

Students in the Bachelor of Science in Electrical Engineering degree program may focus their studies in one or more specialized areas by electing to take courses in systems and automation engineering, physical electronics, computer hardware systems, power and renewable energy, or data analytics engineering.

The systems and automation engineering area requires completion of four courses selected from the following: ECE 381, ECE 451, ECE 455, ECE 458, and ECE 461.

The physical electronics area requires completion of four courses selected from the following: ECE 403, ECE 454, ECE 464, ECE 471, ECE 472, ECE 473, and ECE 474.

The computer hardware systems area requires completion of four courses selected from the following: ECE 341, ECE 346, ECE 441, ECE 443, and ECE 483.

The power and renewable energy area requires completion of four courses selected from the following: ECE 303, ECE 403, ECE 404, ECE 405, ECE 408, ECE 461, and ECE 471.

The data analytics engineering area requires completion of the following: ECE 304, ECE 346, ECE 350, ECE 445, and ECE 450.

Degree Program Guide

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

- * Does not include the University's General Education language and culture requirement. Additional hours may be required.
- ** CHEM 120 is for online program students only.

The General Education requirements in information literacy and research, impact of technology, and philosophy and ethics are met through the major. The upper-division General Education requirement is met through a built-in minor in computer science and through the completion of a second major/degree.

Electrical & Computer engineering majors must earn a grade of C or better in all 200-level ECE courses and all CS courses prior to taking the next course in the sequence.

Any ECE course registration issues are to be resolved with the ECE Academic Coordinator and Program Manager. Students must have a 3.00 GPA or better and must obtain approval from their advisor and college dean to register for more than 18 hours in a semester.

The five-year plan is a suggested curriculum to complete this degree program in five years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

Students seeking two degrees must complete a minimum of 150 credit hours.

- * Does not include the University's General Education language and culture requirement. Additional hours may be required.
- 1 ENGN 121 satisfies both the Physics Approved Seminar requirement and the PHYS Information Literacy and Research requirement in the Physics curriculum.
- 2 ECE 287 satisfies the PHYS 303 requirement in the Physics curriculum.
- 3 PHYS 425 satisfies the Nonmajor Engineering Elective requirement in the Electrical Engineering curriculum.
- 4 PHYS 453 and PHYS 456 offered spring semester only.

- 5 Electrical Engineering students need four technical elective courses selected from one of two options: (1) four 400-level ECE technical elective courses; (2) three 400-level ECE technical elective courses and one 300-level ECE technical elective course or one approved 300- or 400-level CS/MATH/Engineering course.
- 6 ENMA 480 satisfies the PHYS Philosophy & Ethics requirement in the Physics curriculum.

The General Education requirements in information literacy and research, impact of technology, and philosophy and ethics are met through the Electrical Engineering major/degree. The upper-division General Education requirement is met through the completion of a second major/degree.

Electrical engineering majors must earn a grade of C or better in all 200-level ECE courses prior to taking the next course in the sequence.

Any ECE course registration issues are to be resolved with the ECE Academic Coordinator and Program Manager.

The five-year plan is a suggested curriculum to complete this degree program in five years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

Linked Bachelor's/Master's Degree Programs

Linked Bachelor's/Master's programs are designed to allow qualified students to secure a space in a master's program available in the Frank Batten College of Engineering and Technology while they are still pursuing their undergraduate degrees. An eligible student can choose a master's program in the same discipline as his/her bachelor's program or in a complementary discipline. Subject to the approval of the undergraduate and graduate program directors, a student enrolled in a linked program can count up to six credit hours of course work towards both the undergraduate and the graduate degrees. Full-time students may be able to complete the requirements for the bachelor's degree in four years and the master's degree in one additional year. Students in linked programs must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Students who are matriculated in an undergraduate major in the Frank Batten College of Engineering and Technology with a GPA of at least 3.00 overall and 3.00 in the major are eligible to apply for admission to a Linked Bachelor's/Master's program. Transfer students who desire to be admitted to a linked program at the time they join an undergraduate major at Old Dominion University are eligible to apply if their overall GPA at their previous institution is 3.25 or higher. Prerequisite courses may be required for engineering technology majors to pursue a master's degree in engineering.

Continuance in a Linked Bachelor's/Master's program requires maintenance of a GPA of 3.00 or higher overall and in the major.

Linked Bachelor-to-PhD Programs

For a select number of exceptionally well-qualified students, the college has established a linked doctoral program that enables students to be admitted directly into the PhD program upon completion of the baccalaureate degree. A select number of exceptionally well-qualified students can be admitted to the Bachelor/PhD program in their junior year while they are pursuing one of the undergraduate programs at Old Dominion University. This program encourages admitted students to work closely with faculty members and pursue a research experience. Just as in the Linked Bachelor/Masters program, six credit hours of graduate course work may again be counted towards the undergraduate degree and doctoral course work mentioned above for the Bachelor/PhD program. For linked bachelor's to doctoral programs, students must earn a minimum of 198 credit hours (120 discrete credit hours for the undergraduate degree and 78 discrete credit hours for the

graduate degree). Students in these programs must maintain a GPA of 3.50 or better throughout their bachelor's and doctoral studies.

The student may opt to obtain the master's degree along the way to the doctorate. To obtain the master's degree, the student must utilize the six graduate credits obtained as part of their undergraduate program, use 18 credits of the graduate course work that is part of the PhD, and work with the Graduate Program Director to plan the final 6 credits.

Minor Electrical Engineering Minor

Lee Belfore, Ph.D., Chief Departmental Advisor

An undergraduate minor in electrical engineering may be obtained by successful completion of 12 or more semester credit hours of approved electrical or computer engineering or computer science course work at the 200, 300 or 400 level. In addition, a student seeking a minor in electrical engineering must satisfy all pre- or corequisite requirements for the courses selected. Tracks in systems science, physical electronics, digital design, and electrical power are available. The chief departmental advisor must approve the precise course of study. The basic course requirements for the three main tracks are as follows:

Requirements

Systems Science Track

ECE 202	Circuit Analysis II	3
ECE 302	Linear System Analysis	3
ECE 304	Probability, Statistics, and Reliability	3
Select one of the following:		3
ECE 451	Communication Systems	
ECE 452	Introduction to Wireless Communication Networks	
ECE 455	Network Engineering and Design	
ECE 461	Automatic Control Systems	
Total Credit Hours		12

Physical Electronics Track

ECE 323	Electromagnetics	3
ECE 332	Microelectronic Materials and Processes	3
Select two of the following:		6
ECE 454	Introduction to Bioelectronics	
ECE 464	Biomedical Applications of Low Temperature Plasmas	
ECE 471	Introduction to Solar Cells	
ECE 472	Plasma Processing at the Nanoscale	
ECE 473	Solid State Electronics	
ECE 474	Optical Fiber Communication	
Total Credit Hours		12

Digital Design Track*

ECE 241	Fundamentals of Computer Engineering	4
ECE 341	Digital System Design	3
ECE 346	Microcontrollers	3
Select one of the following:		3
ECE 441	Advanced Digital Design and Field Programmable Gate Arrays	
ECE 443	Computer Architecture	
ECE 483	Embedded Systems	
Total Credit Hours		13

* The digital design track is not available for computer engineering majors and modeling and simulation engineering majors.

Electrical Power Track

ECE 303	Introduction to Electrical Power	3
ECE 323	Electromagnetics	3
Select two of the following:		6
ECE 403	Power Electronics	
ECE 404	Electric Drives	
ECE 405	Power System Design & Analysis	
ECE 408	Fundamentals of Electric Vehicles	
ECE 461	Automatic Control Systems	
ECE 471	Introduction to Solar Cells	
Total Credit Hours		12

For completion of a minor, a student must have a minimum overall cumulative grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of lower-level courses, prerequisites and corequisites and complete at least six hours of upper-level courses in the minor requirement through courses offered by Old Dominion University. Completion of a minor in electrical engineering with a GPA of 3.00 or greater partially satisfies the leveling requirements for graduate degrees in electrical engineering.

Minor

Biomedical Engineering Minor

Dharmakeerthi Nawarathna, BME Minor Coordinator

This interdisciplinary minor is for students who would like to learn about processes encountered in biomedical engineering innovation and enhance their ability to integrate knowledge from different disciplines with principles used in biomedical engineering. The minor offers an opportunity for students to be recognized for study in this growing multidisciplinary field and to enhance competitiveness for job opportunities upon graduation.

Requirements

Course prerequisites for BME 403, BME 404, BME 405, and BME 409 are BIOL 240 or BIOL 250 and MATH 200, MATH 205 or MATH 211. Prerequisite courses are not included in the calculation of the grade point average for the minor.

Course requirements are as follows:

Select two of the following BME courses:		6
BME 403	Introduction to Mathematical Modeling in Physiology	
BME 404	Introduction to Biomaterials	
BME 405	Biomechanics	
BME 409	Introduction to Regenerative Medicine	
Select two elective courses from the following:		6
BIOL 446	Comparative Biomechanics	
BIOL 460	Frontiers in Nanoscience and Nanotechnology	
BIOL 490	Advanced Human Physiology	
BIOL 496	Topics in Biological Sciences (approved by minor advisor)	
CHEM 443	Intermediate Biochemistry	
ECE 454	Introduction to Bioelectronics	
ECE 462	Introduction to Medical Image Analysis (MIA)	
ECE 464	Biomedical Applications of Low Temperature Plasmas	

or BIOL 464	Biomedical Applications of Low Temperature Plasmas
EXSC 322	Anatomical Kinesiology
EXSC 417	Biomechanics
HLSC 405	Interprofessional Study Abroad on Global Health
MAE 303	Mechanics of Fluids
MAE 440	Introduction to Finite Element Analysis
MLS 324	Clinical Chemistry I
MSIM 451	Analysis for Modeling and Simulation
NMED 331	Fundamental Concepts in Nuclear Medicine Technology
NURS 456	Global Health Perspectives

Total Credit Hours **12**

Students have the option to substitute one course from those that satisfy their major requirements for one of the minor electives with approval of the minor coordinator.

Students interested in medical simulation are encouraged to select their electives from ECE 462 and MAE 440.

The interdisciplinary minor in biomedical engineering requires 12 credit hours of 300/400-level courses selected from at least two different disciplines with a maximum of six credits from any one discipline. For completion of the interdisciplinary minor, students must have a minimum overall cumulative grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of lower-level courses and prerequisite courses. At least six hours of upper-level courses must be taken through courses offered by Old Dominion University. Three credit hours may be in the major, if a major course is listed as an option for the interdisciplinary minor. As such, it will be credited toward both the major and the interdisciplinary minor.

Engineering Management and Systems Engineering

Minor Program

- Engineering Management Minor (p. 599)

Minor

Engineering Management Minor

Opportunities for Employment and Graduate Studies

According to a recent Income and Salary Survey by the National Society of Professional Engineers, the median annual income of engineers having executive/administrative job functions is approximately \$20,000 higher than those having technical functions. This program provides undergraduate students with a set of courses that provides some of the basic management concepts useful to those aspiring to an executive/administrative management position in technology-based, project-oriented organizations. Upon graduation, this knowledge will help individuals qualify for project management positions or for entrepreneurial activities. Students interested in obtaining a strong preparation in engineering management should consider this minor.

Points of Interest

The minor in engineering management is intended for students with majors in engineering, engineering technology, computer science, physics, chemistry, mathematics, ocean, earth and atmospheric sciences, or biology. Students with majors in other disciplines may also pursue this minor, and they are encouraged to talk with their advisors to determine its appropriateness to their educational objectives. The minor develops the skills in team building, interpersonal communications, decision making, ethics and leadership, project management, risk analysis, and quality assurance that employers are increasingly looking for in both engineers and scientists, as well as in other employees in "high tech" organizations. The minor also satisfies the University's General Education upper-division requirement.

For additional information about the undergraduate minor in engineering management, contact:

Chair
Department of Engineering Management and Systems Engineering
Old Dominion University
Norfolk, VA 23529-0248

Telephone: (757) 683-4558
FAX: (757) 683-5640

Requirements

Applicants for the minor in engineering management must be juniors or seniors with a declared major and a minimum GPA of 2.00. The courses can also be taken by graduate students or other graduates. The minor requires completion of 12 credit hours of course work with a minimum grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of lower-level courses and prerequisite courses. A minimum of six hours in upper-level courses in the minor requirement must be taken through courses offered by Old Dominion University.

Curriculum

The course work for the minor in engineering management involves extensive writing assignments, oral presentations, and group projects, and is designed to develop the skills needed for rapid advancement in either industrial or government organizations. Twelve credit hours of course work is required to meet the requirements for the minor in engineering management. Students are required to complete three core engineering management classes and one engineering management elective. Any ENMA 300- or 400-level class is accepted as an elective for the minor, with the exception of internship or co-op courses. Students who intend to complete a master's in engineering management or in systems engineering should take ENMA 420 as part of their minor requirements as it is a prerequisite to the graduate programs.

Select three of the following:	9
ENMA 301	Introduction to Engineering Management
ENMA 302	Engineering Economics
ENMA 401	Project Management
ENMA 421	Decision Techniques in Engineering
ENMA 424	Risk Analysis in Engineering Management
Engineering Management elective *	3
Total Credit Hours	12

* Excluding internship and co-op courses

Engineering Technology

Web Site: <http://www.odu.edu/engtech> (<http://www.odu.edu/engtech/>)

Vukica Jovanovic, Chair

Old Dominion University has the unique advantage of having both engineering technology and engineering programs. The Engineering Technology Department offers a Bachelor of Science in Engineering Technology degree with majors in Civil Engineering Technology, Electrical

Engineering Technology, Manufacturing Engineering Technology, and Mechanical Engineering Technology as well as opportunities to select electives in multiple areas that prepare industry ready graduates.

The primary goal of the Department of Engineering Technology and its programs is to provide a general yet sufficiently specialized education to equip the student for immediate employment in a variety of engineering and technical fields. In general, engineering technology programs provide an opportunity for students who desire a technical undergraduate education to apply engineering knowledge to solve actual industrial problems. As a result, the engineering technology programs emphasize the practical application of technical knowledge with a strong laboratory program supporting the lecture content of the curricula. For further information, please visit the department website: <http://www.odu.edu/engtech> (<http://www.odu.edu/engtech/>).

Mission Statement

The mission of the department is to educate technically savvy and socially responsible applied engineers ready to embrace the challenges of an expanding global economy. The Department of Engineering Technology offers ABET accredited programs in Civil Engineering Technology, Electrical Engineering Technology, and Mechanical Engineering Technology. In addition to offering quality academic programs that are infused with learning-by-doing experiences, the department offers opportunities for internship, field trips, engineering competitions and professional society meetings. All programs can be completed on the main campus or online.

The department faculty take pride in their commitment to excellence in teaching, closely coupled with excellence in applied research and strong engagement with industry and community. The talented group of faculty are engineering professionals and possess a wealth of business and industrial experience. The faculty are engaged in applied research projects that are funded by industry and government agencies.

Degree completion through ODUGlobal

All upper-level courses required for all engineering technology programs are delivered via ODUGlobal. Thus, students with associate degrees, some college credit or military pathways may complete degree requirements without attending the main campus.

<https://online.odu.edu/academics/programs> (<https://online.odu.edu/academics/programs/>)

- For students with some college credits
- Complete at least 30 credits online from ODU

Computer Requirement

The Frank Batten College of Engineering and Technology requires that all incoming freshmen to the college have a notebook or laptop computer that meets or exceeds the Mobile Monarch Student Notebook Program's recommended models for engineering majors. Students are strongly encouraged to consider purchasing one of the Mobile Monarch Student Notebook Program's notebooks; however, students may bring their own notebook if it meets the specifications.

PLEASE NOTE ** Apple computers (MacBook, iMac, etc.) are NOT compatible with engineering software.

Recommended Specs for Engineering Programs can be found at <https://ww1.odu.edu/eng/ess/admitted#tab52=6&done1612907281342> (<https://ww1.odu.edu/eng/ess/admitted/#tab52=6&done1612907281342>).

Civil Engineering Technology

Jon Lester, PhD, PE - Program Director

The Bachelor of Science in Engineering Technology (BSET) degree program has courses at the senior level specializing in the areas of construction management, structural design, and site development. Students in this program are prepared for employment in a wide range of professional and technical positions with the construction, consulting engineering, surveying and site development industries. Graduates are eligible to take the Fundamentals of Engineering exam, the first step to licensure as a professional engineer. CET courses include topics such as computer-aided drafting, statics, strength of materials, materials testing, surveying, building construction, steel and concrete design, soils and foundations, and hydrology and drainage. Effective written, oral, and graphic communications are practiced throughout the curriculum along with computer literacy. The program culminates in a senior project that integrates coursework with a practical project assignment in the student's area of interest. To satisfy the upper-division general education requirements, students are encouraged to complete a minor in engineering management, business management, environmental health and safety, or mechanical engineering technology.

Civil Engineering Technology Program

Mission Statement

The mission of the Civil Engineering Technology (CET) program is to sustain a high-quality undergraduate program of study leading to the Bachelor of Science in Engineering Technology degree. The program prepares graduates to become certified in their area of specialization. Civil engineering technology is a significant component of the University's commitment to science, engineering, and technology, particularly in structural design, construction, site development and related fields, which are of major importance to civilization. Students around the world are enabled to expand opportunities to enhance their education and pursue baccalaureate-level studies through ODUGlobal. Simultaneously, the program supports the general education components that yield a well-rounded graduate aware of and able to address societal needs and issues.

Typical technical problems that CET graduates will be able to address include building and non-building type structures and construction operations. Typical technical tasks the CET graduates will be expected to perform include planning and design, field testing and inspection, on-site technical coordination and control, and other tasks relevant to one's emphasis area.

Program Educational Objectives

The objective of the civil engineering technology program is to prepare graduates to establish themselves as successful professionals in structural design, site development, and construction management or related areas during the first few years of their careers by having demonstrated their ability to:

1. Identify and solve increasingly complex technical problems, both theoretically and practically, as raised by continually evolving technologies and industry needs and practices.
2. Make educated, responsible, and ethical decisions in response to the profession's and society's needs, with these decisions solidly grounded in science and engineering fundamentals.
3. Work effectively as a member or leader of technical teams and clearly communicate ideas leading to successful team outcomes.

Student Outcomes

After deliberations by its constituents, the civil engineering technology program has adopted five student outcomes for the Bachelor of Science degree program in civil engineering technology. These outcomes are listed below.

1. an ability to apply knowledge, techniques, skills, and modern tools of mathematics, science, engineering, and technology to solve broadly defined engineering problems appropriate to the discipline;
2. an ability to design systems, components, or processes meeting specified needs for broadly defined engineering problems appropriate to the discipline;
3. an ability to apply written, oral, and graphical communication in broadly defined technical and non-technical environments; and an ability to identify and use appropriate technical literature;
4. an ability to conduct standard tests, measurements, and experiments and to analyze and interpret the results to improve processes; and
5. an ability to function effectively as a member, as well as, a leader on technical teams.

Accreditation

The Bachelor of Science in Engineering Technology - Civil Engineering Technology is accredited by the Engineering Technology Accreditation Commission (ETAC) of ABET, <https://www.abet.org> (<https://www.abet.org/>), under the General Criteria and the Civil Engineering Technology Program Criteria.

Graduates of CET programs typically analyze and design systems, specify project methods and materials, perform cost estimates and analyses, and manage technical activities that support civil engineering projects. The curriculum provides instruction in the following curricular areas:

1. utilization of principles, hardware, and software that are appropriate to produce drawings, reports, quantity estimates, and other documents related to civil engineering technology;
2. performance of standardized field and laboratory tests related to civil engineering technology;
3. utilization of surveying methods appropriate for land measurement and/or construction layout;
4. application of fundamental computational methods and elementary analytical techniques in sub-disciplines related to civil engineering technology;
5. planning and preparation of documents appropriate for design and construction;
6. performance of economic analyses and cost estimates related to the design, construction, operations, and maintenance of systems associated with civil engineering technology;
7. selection of appropriate engineering materials and practices; and
8. performance of standard analysis and design in at least three sub-disciplines related to civil engineering technology.

Requirements

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6
Oral Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#oral)	3
Mathematics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#math)	3
Language and Culture (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#language)	0-6
Information Literacy and Research (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#information)	3
Human Behavior (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#behavior)	3
Human Creativity (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#creativity)	3
Interpreting the Past (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#interpret)	3
Literature (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#literature)	3
Philosophy and Ethics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#philosophy)	3
The Nature of Science (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#nature)	8
Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

The General Education requirements in information literacy and research, impact of technology, and philosophy and ethics are met through the major.

Upper-Division General Education

- Option A: Any University-approved disciplinary minor (minimum of 12 hours), second degree, or second major.
- Option B: Any University-approved interdisciplinary minor (12 credit hours, 3 of which may be in the major).
- Option D: Two Upper-Division Courses (6 credit hours) from outside the College of Engineering and Technology and not required by the major.

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Civil Engineering Technology Grade Requirements

Critical CET course sequences within the Civil Engineering Technology curricula require a minimum grade of C before progressing to subsequent courses. A grade of C- does not satisfy the requirement for a C grade.

The following courses require a minimum grade of C:

ENGL 110C	English Composition	3
ENGL 211C or ENGL 231C	Writing, Rhetoric, and Research Writing, Rhetoric, and Research: Special Topics	3
MATH 162M	Precalculus I	3
MATH 163	Precalculus II	3
MATH 211	Calculus I	4
ENGT 435W	Senior Design Project	3
ENGT 220	Strength of Materials	3
ENGT 200	Statics	3

Civil Engineering Technology Major

General Education

Complete lower-division requirements	32-38
Complete upper-division requirements (minimum of 6 credits)	6

Civil Engineering Technology Major

Complete civil engineering technology departmental and major requirements as shown on the degree program guide	83

Total Credit Hours	121-127

Degree Program Guide ¹

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

Critical CET course sequences within the Civil Engineering Technology curricula require a minimum grade of C before progressing to subsequent courses. Refer to the individual CET course descriptions for information on specific C grade prerequisites. A grade of C- does not satisfy the requirement for a C grade.

CET 496	Topics (Approved CET Elective)	3

Linked Bachelor's/Master's Degree Programs

Linked Bachelor's/Master's programs are designed to allow qualified students to secure a space in a master's program available in the Frank Batten College of Engineering and Technology while they are still pursuing their

undergraduate degrees. An eligible student can choose a master's program in the same discipline as his/her bachelor's program or in a complementary discipline. Subject to the approval of the undergraduate and graduate program directors, a student enrolled in a linked program can count up to six credit hours of course work towards both the undergraduate and the graduate degrees. Full-time students may be able to complete the requirements for the bachelor's degree in four years and the master's degree in one additional year. Students in linked programs must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Students who are matriculated in an undergraduate major in the Frank Batten College of Engineering and Technology with a GPA of at least 3.00 overall and 3.00 in the major are eligible to apply for admission to a Linked Bachelor's/Master's program. Transfer students who desire to be admitted to a linked program at the time they join an undergraduate major at Old Dominion University are eligible to apply if their overall GPA at their previous institution is 3.25 or higher. Prerequisite courses may be required for engineering technology majors to pursue a master's degree in engineering.

Continuance in a Linked Bachelor's/Master's program requires maintenance of a GPA of 3.00 or higher overall and in the major.

Linked Bachelor-to-PhD Programs

For a select number of exceptionally well-qualified students, the college has established a linked doctoral program that enables students to be admitted directly into the PhD program upon completion of the baccalaureate degree. A select number of exceptionally well-qualified students can be admitted to the Bachelor/PhD program in their junior year while they are pursuing one of the undergraduate programs at Old Dominion University. This program encourages admitted students to work closely with faculty members and pursue a research experience. Just as in the Linked Bachelor/Masters program, six credit hours of graduate course work may again be counted towards the undergraduate degree and doctoral course work mentioned above for the Bachelor/PhD program. For linked bachelor's to doctoral programs, students must earn a minimum of 198 credit hours (120 discrete credit hours for the undergraduate degree and 78 discrete credit hours for the graduate degree). Students in these programs must maintain a GPA of 3.50 or better throughout their bachelor's and doctoral studies.

The student may opt to obtain the master's degree along the way to the doctorate. To obtain the master's degree, the student must utilize the six graduate credits obtained as part of their undergraduate program, use 18 credits of the graduate course work that is part of the PhD, and work with the Graduate Program Director to plan the final 6 credits.

Minor Civil Engineering Technology - Construction Minor

The minor in civil engineering technology – construction is open to all students (except civil engineering technology majors).

Requirements

The program consists of 12 credits and the specified courses are as follows:

CET 355	Sustainable Building Practices	3
CET 361	Construction Project Management	3
CET 460	Construction Cost Estimating	3
CET 462	Construction Planning and Scheduling (Const. Planning and Scheduling (replaces old CET 445))	3
Total Credit Hours		12

The courses are offered both on campus and through ODUGlobal.

For completion of a minor, a student must have a minimum overall cumulative grade point average of 2.00 in all courses specified as a

requirement for the minor exclusive of lower-level courses and prerequisite courses and complete at least six hours in upper-level courses in the minor requirement through courses offered by Old Dominion University.

Bachelor of Science in Engineering Technology Engineering Technology with a Major in Electrical Engineering Technology (BSET)

Electrical Engineering Technology

Murat Kuzlu, Program Director

The Bachelor of Science in Engineering Technology with a major offers courses at the senior level in communications systems technology, embedded systems technology, power systems technology, mechatronics systems technology, and computer engineering technology. Students in this program take common courses in areas such as DC and AC circuits, electronic devices and circuits, digital electronics, linear electronics, microcontrollers, programming, Programmable Logic Controllers (PLCs), and electric machines. Supporting laboratories provide experience in instrumentation, testing and troubleshooting, and design and implementation. The program culminates with a senior project that integrates coursework with a practical project assignment in the student's area of interest. To satisfy the upper-division general education requirements, students are required to complete one of the following three options: 1) Option D: 6 hours of elective upper-division course work from outside of and not required by the student's major and college; 2) Option A: Any University-approved minor (minimum of 12 hours determined by the department), second degree, or second major; or 3) Option B: Any University-approved interdisciplinary minor (12 hours, three of which may be in the major). Graduates should be qualified for application positions in electronic and electrical product design and development, electronic and electrical system operation and maintenance, field operations, and various other technical functions.

Mission Statement

The mission of the Electrical Engineering Technology (EET) program is to sustain a high quality undergraduate program of study leading to the Bachelor of Science in Engineering Technology degree. It is a significant component of the University's commitment to science, engineering and technology, particularly in fields of major importance to the region. Through ODUGlobal (<https://online.odu.edu/academics/programs/electrical-engineering-technology/>), the electrical engineering technology program provides opportunities for technical personnel throughout the state and elsewhere to enhance their education and pursue baccalaureate level studies. Simultaneously, the program supports the general education components that yield a well-rounded graduate who is aware of societal needs and issues.

Program Educational Objectives

The objective of the electrical engineering technology program is to prepare graduates to establish themselves as successful professionals in electrical systems technology, computer engineering technology, or related areas during the first few years of their careers by having demonstrated their ability to:

1. Identify and solve increasingly complex technical problems, both theoretically and practically, as raised by continually evolving technologies and industry needs and practices.
2. Make educated, responsible, and ethical decisions in response to the needs of the profession and society, with these decisions solidly grounded in science and engineering fundamentals.
3. Work effectively as a member or leader of technical teams and clearly communicate ideas leading to successful team outcomes.

Typical technical problems that EET graduates will be able to address include planning, specification, development, design, procurement of

equipment and materials, implementation, and performance verification. Typical technical tasks the EET graduates will be expected to perform include: conducting engineering experiments, making observations, collecting and analyzing data, and formulating conclusions.

Student Outcomes

The electrical engineering technology program has adopted, after deliberations by its constituents, outcomes for the Bachelor of Science program in electrical engineering technology. These outcomes are listed below:

1. An ability to apply knowledge, techniques, skills and modern tools of mathematics, science, engineering, and technology to solve broadly-defined engineering problems appropriate to the discipline;
2. An ability to design systems, components, or processes meeting specified needs for broadly-defined engineering problems appropriate to the discipline;
3. An ability to apply written, oral, and graphical communication in broadly-defined technical and non-technical environments; and an ability to identify and use appropriate technical literature;
4. An ability to conduct standard tests, measurements, and experiments and to analyze and interpret the results to improve processes;
5. An ability to function effectively as a member or leader on a technical teams.

Accreditation

The Bachelor of Science in Engineering Technology - Electrical Engineering Technology is accredited by the Engineering Technology Accreditation Commission (ETAC) of ABET, <https://www.abet.org> (<https://www.abet.org/>), under the General Criteria and the Electrical/Electronic(s) Engineering Technology Program Criteria.

The curriculum provides EET graduates with instruction in the knowledge, techniques, skills, and use of modern tools necessary to enter careers in the design, application, installation, manufacturing, operation, and/or maintenance of electrical/electronic(s) systems. Graduates of the EET program are well-prepared for the design, development, and implementation of electrical/electronic(s) systems.

The curriculum includes the following topics:

1. application of circuit analysis and design, computer programming, associated software, analog and digital electronics, microcontrollers, and engineering standards to the building, testing, operation, and maintenance of electrical/electronic(s) systems;
2. application of natural sciences and mathematics at or above the level of trigonometry to the building, testing, operation, and maintenance of electrical/electronic systems;
3. analysis, design, and implementation of one or more of the following: control systems, instrumentation systems, communications systems, computer systems, power systems or energy systems;
4. application of project management techniques to electrical/electronic(s) systems; and
5. utilization of differential and integral calculus, as a minimum, to characterize the performance of electrical/electronic systems.

Requirements

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6
Oral Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#oral)	3
Mathematics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#math)	3
Language and Culture (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#language)	0-6
Information Literacy and Research (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#information)	3

Human Behavior (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#behavior)	3
Human Creativity (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#creativity)	3
Interpreting the Past (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#interpret)	3
Literature (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#literature)	3
Philosophy and Ethics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#philosophy)	3
The Nature of Science (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#nature)	8
Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

The General Education requirements in information literacy and research, impact of technology, and philosophy and ethics are met through the major.

Upper-Division General Education

- Option A: Any University-approved disciplinary minor (minimum of 12 hours), second degree, or second major.
- Option B: Any University-approved interdisciplinary minor (12 credit hours, 3 of which may be in the major).
- Option D: Two Upper-Division Courses (6 credit hours) from outside the College of Engineering and Technology and not required by the major.

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Electrical Engineering Technology Grade Requirements

Critical EET course sequences within the Electrical Engineering Technology curricula require a minimum grade of C before progressing to subsequent courses. A grade of C- does not satisfy the requirement for a C grade.

The following courses require a minimum grade of C:

ENGL 110C	English Composition	3
ENGL 211C or ENGL 231C	Writing, Rhetoric, and Research Writing, Rhetoric, and Research: Special Topics	3
MATH 162M	Precalculus I	3
MATH 163	Precalculus II	3
MATH 211	Calculus I	4
EET 110	Electrical Circuits I	3
EET 200	Electrical Circuits II	3
ENGT 435W	Senior Design Project	3

Electrical Engineering Technology Major

General Education

Complete lower-division requirements 32-38

Complete upper-division requirements	6
Electrical Engineering Technology Major	
Complete electrical engineering technology departmental and major requirements as shown on the degree program guide	83
Total Credit Hours	121-127

Graduates of the electrical engineering technology major are eligible to take the Fundamentals of Engineering (FE) exam in Virginia and many other states.

Degree Program Guide*

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

Course prerequisites are strictly enforced. Critical EET course sequences within the Electrical Engineering Technology curricula require a minimum grade of C before progressing to subsequent courses. Refer to the individual EET course descriptions for information on specific C grade and other prerequisite requirements. A grade of C- does not satisfy the requirement for a C grade.

Linked Bachelor's/Master's Degree Programs

Linked Bachelor's/Master's programs are designed to allow qualified students to secure a space in a master's program available in the Frank Batten College of Engineering and Technology while they are still pursuing their undergraduate degrees. An eligible student can choose a master's program in the same discipline as his/her bachelor's program or in a complementary discipline. Subject to the approval of the undergraduate and graduate program directors, a student enrolled in a linked program can count up to six credit hours of course work towards both the undergraduate and the graduate degrees. Full-time students may be able to complete the requirements for the bachelor's degree in four years and the master's degree in one additional year. Students in linked programs must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Students who are matriculated in an undergraduate major in the Frank Batten College of Engineering and Technology with a GPA of at least 3.00 overall and 3.00 in the major are eligible to apply for admission to a Linked Bachelor's/Master's program. Transfer students who desire to be admitted to a linked program at the time they join an undergraduate major at Old Dominion University are eligible to apply if their overall GPA at their previous institution is 3.25 or higher. Prerequisite courses may be required for engineering technology majors to pursue a master's degree in engineering.

Continuance in a Linked Bachelor's/Master's program requires maintenance of a GPA of 3.00 or higher overall and in the major.

Linked Bachelor-to-PhD Programs

For a select number of exceptionally well-qualified students, the college has established a linked doctoral program that enables students to be admitted directly into the PhD program upon completion of the baccalaureate degree. A select number of exceptionally well-qualified students can be admitted to the Bachelor/PhD program in their junior year while they are pursuing one of the undergraduate programs at Old Dominion University. This program encourages admitted students to work closely with faculty members and pursue a research experience. Just as in the Linked Bachelor/Masters program, six credit hours of graduate course work may again be counted towards the undergraduate degree and doctoral course work mentioned above for the Bachelor/PhD program. For linked bachelor's to doctoral programs, students must earn a minimum of 198 credit hours (120 discrete credit hours for the undergraduate degree and 78 discrete credit hours for the graduate degree). Students in these programs must maintain a GPA of 3.50 or better throughout their bachelor's and doctoral studies.

The student may opt to obtain the master's degree along the way to the doctorate. To obtain the master's degree, the student must utilize the six graduate credits obtained as part of their undergraduate program, use 18

credits of the graduate course work that is part of the PhD, and work with the Graduate Program Director to plan the final 6 credits.

Minor Electrical Engineering Technology Minor

The minor in electrical engineering technology is open to students (except electrical engineering and electrical engineering technology majors) who have completed at least one three-credit course in calculus. It is particularly helpful for those who are preparing for the Fundamentals of Engineering examination. The courses are offered both on campus and through ODUGlobal.

Requirements

The program consists of 12 credits. The specified courses are as follows:

Required

EET 370	Energy and The Environment	3
Select three more courses from the following:		9
EET 330	Linear Electronics	
EET 360	Electrical Power and Machinery	
EET 373	Instrumentation	
EET 405	Data Communications and Computer Networks	
EET 412	Wireless Communication Systems	
EET 420	Advanced Logic Design	
EET 430	Advanced Motion Control Systems	
EET 470	Microcontrollers/Embedded-Based Designs	
EET 483	Introduction to Smart Grids	
EET 485	Electrical Power Systems	

Total Credit Hours	12

Certain substitutions are possible if suitable justification is provided.

For completion of a minor, a student must have a minimum overall cumulative grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of lower-level courses and prerequisite courses and complete at least six hours in upper-level courses in the minor requirement through courses offered by Old Dominion University.

Bachelor of Science in Engineering Technology Engineering Technology with a Major in Manufacturing Engineering Technology (BSET) Manufacturing Engineering Technology

Charles Lowe, Program Director

The Bachelor of Science in Engineering Technology (BSET) degree program in Manufacturing Engineering Technology (MFET) offers a variety of courses in the following areas: manufacturing processes, manufacturing principles, smart manufacturing, and metrology. Students in this program also take additional courses such as: engineering graphics, geometric dimensioning and tolerancing, statics, dynamics, automation and control (Programmable Logic Controller - PLCs). The program culminates with a senior project that integrates coursework with a practical project assignment in the student's area of interest. Graduates of the MFET program are qualified for positions in manufacturing systems design, development and manufacturing, maintenance, field operations, and various other technical functions. Potential positions are manufacturing engineer, quality assurance engineer, project engineer, robotics engineer, and mechatronics engineer.

Mission Statement

The mission of the Manufacturing Engineering Technology program is to sustain a high quality undergraduate program of study leading to the Bachelor of Science in Engineering Technology degree. It is a significant component of the University's commitment to science, engineering and technology, particularly in fields of major importance to the region. Through the University's distance learning program, the MFET program provides opportunities for technical personnel throughout the state and elsewhere to enhance their education and pursue baccalaureate level studies. Simultaneously, the program supports the general education components that yield a well-rounded graduate who is aware of societal needs and issues.

Program Educational Objectives

The objective of the Manufacturing Engineering Technology program is to prepare graduates to establish themselves as successful professionals in manufacturing systems or related areas during the first few years of their careers by having demonstrated their ability to:

1. Identify and solve increasingly complex technical problems, both theoretically and practically, as raised by continually evolving technologies and industry needs and practices.
2. Make educated, responsible, and ethical decisions in response to the needs of the profession and society, with these decisions solidly grounded in science and engineering fundamentals.
3. Work effectively as member or leader of technical teams and clearly communicate ideas leading to successful team outcomes.

Student Outcomes

The Manufacturing Engineering Technology program has adopted, after deliberations by its constituents, five student outcomes for the Bachelor of Science in Engineering Technology degree program in Manufacturing Engineering Technology. These outcomes are listed below:

1. Apply knowledge, techniques, skills and modern tools of mathematics, science, engineering, and technology to solve broadly-defined engineering problems appropriate to the discipline;
2. Design systems, components, or processes meeting specified needs for broadly-defined engineering problems appropriate to the discipline;
3. Apply written, oral, and graphical communication in broadly-defined technical and non-technical environments; and an ability to identify and use appropriate technical literature;
4. Conduct standard tests, measurements, and experiments and to analyze and interpret the results to improve processes; and
5. Function effectively as a member as well as a leader on technical teams.

Curriculum

The curriculum provides baccalaureate degree graduates with instruction in the knowledge, techniques, skills, and use of modern equipment in manufacturing engineering technology. Baccalaureate degree graduates build on the strengths of associate degree programs by gaining the knowledge, skills, and abilities for entry into manufacturing careers practicing various tools, techniques and processes. The curriculum must include instruction in the following topics:

1. Materials and manufacturing processes;
2. Product design process, tooling, and assembly;
3. Manufacturing systems, automation, and operations;
4. Statistics, quality and continuous improvement, and industrial organization and management; and
5. Capstone or integrating experience that develops and illustrates student competencies in applying both technical and non-technical skills in successfully solving manufacturing problems.

Requirements

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6
Oral Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#oral)	3

The Nature of Science (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#nature)	8
Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

General Education requirements in information literacy and research, impact of technology, and philosophy and ethics are met through the major.

Upper-Division General Education

Met in the major through a built-in minor in engineering management.

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Manufacturing Engineering Technology Grade Requirement

Critical MFET course sequences within the Manufacturing Engineering Technology curriculum require a minimum grade of C before progressing to subsequent courses. A grade of C- does not satisfy the requirement for a C grade.

The following courses require a minimum grade of C:

ENGL 110C	English Composition	3
ENGL 211C	Writing, Rhetoric, and Research	3
or ENGL 231C	Writing, Rhetoric, and Research: Special Topics	
MATH 162M	Precalculus I	3
MATH 163	Precalculus II	3
MATH 211	Calculus I	4

MET 200	Materials and Manufacturing Processes	3
ENGT 435W	Senior Design Project	3

Manufacturing Engineering Technology Major

Students completing this major will receive a minor in engineering management.

General Education

Complete lower-division requirements	32-38

Complete upper-division requirements (met in the major through a built-in minor in engineering management)	12

Manufacturing Engineering Technology

Complete the MFET departmental and major requirements as shown on the degree program guide	77

Total Credit Hours	121-127

Degree Program Guide*

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

Linked Bachelor's/Master's Degree Programs

Linked Bachelor's/Master's programs are designed to allow qualified students to secure a space in a master's program available in the Frank Batten College of Engineering and Technology while they are still pursuing their undergraduate degrees. An eligible student can choose a master's program in the same discipline as his/her bachelor's program or in a complementary discipline. Subject to the approval of the undergraduate and graduate program directors, a student enrolled in a linked program can count up to six credit hours of course work towards both the undergraduate and the graduate degrees. Full-time students may be able to complete the requirements for the bachelor's degree in four years and the master's degree in one additional year. Students in linked programs must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Students who are matriculated in an undergraduate major in the Frank Batten College of Engineering and Technology with a GPA of at least 3.00 overall and 3.00 in the major are eligible to apply for admission to a Linked Bachelor's/Master's program. Transfer students who desire to be admitted to a linked program at the time they join an undergraduate major at Old Dominion University are eligible to apply if their overall GPA at their previous institution is 3.25 or higher. Prerequisite courses may be required for engineering technology majors to pursue a master's degree in engineering.

Continuance in a Linked Bachelor's/Master's program requires maintenance of a GPA of 3.00 or higher overall and in the major.

Linked Bachelor-to-PhD Programs

For a select number of exceptionally well-qualified students, the college has established a linked doctoral program that enables students to be admitted directly into the PhD program upon completion of the baccalaureate degree. A select number of exceptionally well-qualified students can be admitted to the Bachelor/PhD program in their junior year while they are pursuing one of the undergraduate programs at Old Dominion University. This program encourages admitted students to work closely with faculty members and pursue a research experience. Just as in the Linked Bachelor/Masters program, six credit hours of graduate course work may again be counted towards the undergraduate degree and doctoral course work mentioned

above for the Bachelor/PhD program. For linked bachelor's to doctoral programs, students must earn a minimum of 198 credit hours (120 discrete credit hours for the undergraduate degree and 78 discrete credit hours for the graduate degree). Students in these programs must maintain a GPA of 3.50 or better throughout their bachelor's and doctoral studies.

The student may opt to obtain the master's degree along the way to the doctorate. To obtain the master's degree, the student must utilize the six graduate credits obtained as part of their undergraduate program, use 18 credits of the graduate course work that is part of the PhD, and work with the Graduate Program Director to plan the final 6 credits.

Bachelor of Science in Engineering Technology Engineering Technology with a Major in Mechanical Engineering Technology (BSET)

Mechanical Engineering Technology

Nathan Luetke, Program Director

The MET program offers courses at the senior level specializing in mechanical systems design, mechatronics systems, marine systems, manufacturing systems, and nuclear systems. Students in this program take common courses in areas such as computer-aided drafting, statics, strength of materials, dynamics, thermodynamics, fluid mechanics, and automation and controls. The program culminates in a senior project that integrates coursework with a practical project assignment in the student's area of interest. Graduates should be qualified for application positions in mechanical product design, development and manufacturing, mechanical system operation and maintenance, field operations, and various other technical functions.

Mission Statement

The mission of the Mechanical Engineering Technology (MET) program is to sustain a high-quality undergraduate program of study leading to the Bachelor of Science in Engineering Technology degree. It is a significant component of the University's commitment to science, engineering, and technology, particularly in fields of major importance to the region. Through ODUGlobal, the mechanical engineering technology program provides opportunities for technical personnel throughout the state and elsewhere to enhance their education and pursue baccalaureate level studies. Simultaneously, the program supports the general education components that yield a well-rounded graduate who is aware of societal needs and issues.

Program Educational Objectives

The objective of the mechanical engineering technology program is to prepare graduates to establish themselves as successful professionals in mechanical systems or related areas during the first few years of their careers by having demonstrated their ability to:

1. Identify and solve increasingly complex technical problems, both theoretically and practically, as raised by continually evolving technologies and industry needs and practices.
2. Make educated, responsible, and ethical decisions in response to the needs of the profession and society, with these decisions solidly grounded in science and engineering fundamentals.
3. Work effectively as member or leader of technical teams and clearly communicate ideas leading to successful team outcomes.

Student Outcomes

After deliberations by its constituents, the mechanical engineering technology program has adopted five student outcomes for the Bachelor of Science program in mechanical engineering technology. These outcomes are listed below:

1. an ability to apply knowledge, techniques, skills, and modern tools of mathematics, science, engineering, and technology to solve broadly defined engineering problems appropriate to the discipline;
2. an ability to design systems, components, or processes meeting specified needs for broadly defined engineering problems appropriate to the discipline;
3. an ability to apply written, oral, and graphical communication in broadly defined technical and non-technical environments; and an ability to identify and use appropriate technical literature;
4. an ability to conduct standard tests, measurements, and experiments and to analyze and interpret the results to improve processes; and
5. an ability to function effectively as a member, as well as, a leader on technical teams.

Accreditation

The Bachelor of Science in Engineering Technology - Mechanical Engineering Technology is accredited by the Engineering Technology Accreditation Commission (ETAC) of ABET, <https://www.abet.org>), under the General Criteria and the Mechanical Engineering Technology Program Criteria.

The curriculum prepares MET graduates with the knowledge, techniques, skills, and use of modern equipment in mechanical engineering technology. Baccalaureate degree graduates build on the strengths of associate degree programs by gaining proficiency in the analysis, applied design, development, implementation, or oversight of more advanced mechanical components, systems, or processes. The following curricular topics are covered:

1. Application of principles of geometric dimensioning and tolerancing;
2. Use of computer-aided drafting and design software;
3. Perform selection, set-up, and calibration of measurement tools/instrumentation;
4. Elements of differential and integral calculus;
5. Manufacturing processes;
6. Material science and selection;
7. Solid mechanics (such as statics, dynamics, strength of materials, etc.);
8. Mechanical system design;
9. Thermal sciences (such as thermodynamics, fluid mechanics, heat transfer, etc.);
10. Electrical circuits (AC and DC) and electronic controls;
11. Application of industry codes, specifications, and standards; and
12. Technical communications are typically used in the preparation of engineering proposals, reports, and specifications.

The capstone experience, ideally multidisciplinary, must be project-based and include formal design, implementation, and test processes.

Requirements

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6
Oral Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#oral)	3
Mathematics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#math)	3
Language and Culture (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#language)	0-6
Information Literacy and Research (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#information)	3
Human Behavior (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#behavior)	3
Human Creativity (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#creativity)	3

Interpreting the Past (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#interpret)	3
Literature (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#literature)	3
Philosophy and Ethics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#philosophy)	3
The Nature of Science (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#nature)	8
Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

General Education requirements in information literacy and research, impact of technology, and philosophy and ethics are met in the major.

Upper-Division General Education

- Option A: Any University-approved disciplinary minor (minimum of 12 hours), second degree, or second major.
- Option B: Any University-approved interdisciplinary minor (12 credit hours, 3 of which may be in the major).
- Option D: Two Upper-Division Courses (6 credit hours) from outside the College of Engineering and Technology and not required by the major.

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Mechanical Engineering Technology Grade Requirements

Critical MET course sequences within the Mechanical Engineering Technology curricula require a minimum grade of C before progressing to subsequent courses. A grade of C- does not satisfy the requirement for a C grade.

The following courses require a minimum grade of C:

ENGL 110C	English Composition	3
ENGL 211C or ENGL 231C	Writing, Rhetoric, and Research Writing, Rhetoric, and Research: Special Topics	3
MATH 162M	Precalculus I	3
MATH 163	Precalculus II	3
MATH 211	Calculus I	4
ENGT 200	Statics	3
ENGT 220	Strength of Materials	3
MET 300	Thermodynamics	3
ENGT 435W	Senior Design Project	3

Mechanical Engineering Technology Major

General Education

Complete lower-division requirements	32-38
Complete upper-division requirements (minimum of 6 credit hours with option D)	6

Mechanical Engineering Technology Major		
Complete the mechanical engineering technology departmental and major requirements as shown on the degree program guide	83	
Total Credit Hours	121-127	

Degree Program Guide*

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

MFET 460	Facilities Planning and Material Handling	3

Linked Bachelor's/Master's Degree Programs

Linked Bachelor's/Master's programs are designed to allow qualified students to secure a space in a master's program available in the Frank Batten College of Engineering and Technology while they are still pursuing their undergraduate degrees. An eligible student can choose a master's program in the same discipline as his/her bachelor's program or in a complementary discipline. Subject to the approval of the undergraduate and graduate program directors, a student enrolled in a linked program can count up to six credit hours of course work towards both the undergraduate and the graduate degrees. Full-time students may be able to complete the requirements for the bachelor's degree in four years and the master's degree in one additional year. Students in linked programs must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Students who are matriculated in an undergraduate major in the Frank Batten College of Engineering and Technology with a GPA of at least 3.00 overall and 3.00 in the major are eligible to apply for admission to a Linked Bachelor's/Master's program. Transfer students who desire to be admitted to a linked program at the time they join an undergraduate major at Old Dominion University are eligible to apply if their overall GPA at their previous institution is 3.25 or higher. Prerequisite courses may be required for engineering technology majors to pursue a master's degree in engineering.

Continuance in a Linked Bachelor's/Master's program requires maintenance of a GPA of 3.00 or higher overall and in the major.

Linked Bachelor-to-PhD Programs

For a select number of exceptionally well-qualified students, the college has established a linked doctoral program that enables students to be admitted directly into the PhD program upon completion of the baccalaureate degree. A select number of exceptionally well-qualified students can be admitted to the Bachelor/PhD program in their junior year while they are pursuing one of the undergraduate programs at Old Dominion University. This program encourages admitted students to work closely with faculty members and pursue a research experience. Just as in the Linked Bachelor/Masters program, six credit hours of graduate course work may again be counted towards the undergraduate degree and doctoral course work mentioned

above for the Bachelor/PhD program. For linked bachelor's to doctoral programs, students must earn a minimum of 198 credit hours (120 discrete credit hours for the undergraduate degree and 78 discrete credit hours for the graduate degree). Students in these programs must maintain a GPA of 3.50 or better throughout their bachelor's and doctoral studies.

The student may opt to obtain the master's degree along the way to the doctorate. To obtain the master's degree, the student must utilize the six graduate credits obtained as part of their undergraduate program, use 18 credits of the graduate course work that is part of the PhD, and work with the Graduate Program Director to plan the final 6 credits.

Minor Mechanical Engineering Technology Minor

The minor in mechanical engineering technology is open to students (except mechanical engineering, manufacturing engineering technology, and mechanical engineering technology majors) who have completed at least one four-credit course in calculus. It is particularly helpful for those who are preparing for the Fundamentals of Engineering examination. The courses are offered both on campus and through ODUGlobal.

Requirements

The program consists of 12 credits and the specified courses are as follows:

MET 300	Thermodynamics	3
MET 310	Dynamics	3
MET 330	Fluid Mechanics	3
MET 350	Thermal Applications	3
Total Credit Hours		12

Certain substitutions are possible if suitable justification is provided.

For completion of a minor, a student must have a minimum overall cumulative grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of lower-level courses, prerequisites and corequisites and complete at least six hours in upper-level courses in the minor requirement through courses offered by Old Dominion University.

Minor Engineering Solutions for Climate Adaptation and Resilience Minor

The minor in Engineering Solutions for Climate Adaptation and Resilience will train students with an interest in developing engineering skills focused on adaptation and resilience to climate change and associated hazards. It will provide students with an understanding of the science, impacts, and management strategies of climate change.

Requirements

CEE 457	Adaptation to Sea Level Rise	3
CET 458	Managing the Climate Crisis	3
Select two of the following:		6
CET 332	Water Resources Engineering	
CET 420	Hydrology and Drainage	
CEE 446	Urban Stormwater Hydrology	
CEE 447	Groundwater Hydraulics	
CEE 455	Pollution Prevention and Green Engineering	
CET 456	Resilience and Sustainability	
CEE 458	Sustainable Development	
CEE 482	Introduction to Coastal Engineering	
Total Credit Hours		12

Civil Engineering majors completing the minor are limited to a maximum of six credits of CEE coursework. Civil Engineering Technology majors completing the minor are limited to a maximum of six credits of CET coursework.

For completion of the minor, students must have a minimum overall cumulative grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of lower-level courses and prerequisite courses. At least six hours of upper-level courses must be taken through courses offered by Old Dominion University.

Minor

Marine Engineering Minor

Minor in Marine Engineering

The minor in marine engineering is open to all students with the exception of those students in the Mechanical Engineering Technology program who are specializing in Marine Systems. Students seeking the minor must satisfy all pre- or corequisite requirements for the courses selected. The minor is multidisciplinary and consists of four courses in topics that are relevant to the shipbuilding, maintenance, repair and maritime operations industries.

The course requirements are as follows:

MET 475	Marine Engineering I	3
MET 476	Marine Engineering II	3
MAE 450	Principles of Naval Architecture	3
MAE 417	Propulsion Systems	3
Total Credit Hours		12

For completion of a minor, a student must have a minimum overall grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of lower-level courses, prerequisites and corequisites and complete at least six hours of upper-level courses in the minor requirement through courses offered by Old Dominion University.

Mechanical and Aerospace Engineering

Web Site: <http://www.odu.edu/mae> (<http://www.odu.edu/mae/>)

Marwan Al-Haik, Chair
Colin Britcher, Associate Chair

The Mechanical and Aerospace Engineering (MAE) Department offers an undergraduate program leading to a Bachelor of Science in Mechanical Engineering. The program is accredited by the Engineering Accreditation Commission (EAC) of ABET, <http://www.abet.org>. The Department also offers varied programs of graduate study and research leading to the Master of Engineering, Master of Science, and Doctor of Philosophy degrees in either Mechanical Engineering or Aerospace Engineering. For further information, please visit the Department's web site: <http://www.odu.edu/mae> (<http://www.odu.edu/mae/>).

Mechanical Engineering Mission

1. To develop and maintain a high-quality undergraduate program of study leading to the bachelor's degree in Mechanical Engineering.
2. To develop and maintain high-quality graduate programs of study and research leading to master's and doctoral degrees in Mechanical Engineering or Aerospace Engineering.
3. To conduct a relevant and high-quality research program in the mechanical and aerospace engineering disciplines.
4. To provide practicing mechanical and aerospace engineers in Virginia the opportunities to develop and maintain up-to-date technical knowledge and skills.
5. To provide the unique skills and knowledge required by the mechanical and aerospace engineering professions to support existing government agencies, consulting firms and industry and help promote the

development of new and more competitive industries in Virginia and the nation.

Programs

Bachelor of Science in Mechanical Engineering Programs

- Mechanical Engineering (BSME) (p. 614)

Minor Programs

- Mechanical Engineering Minor (p. 618)

Bachelor of Science in Mechanical Engineering Mechanical Engineering (BSME)

Xiaoyu Zhang, Chief Departmental Advisor

The mechanical engineering program is among the most basic of all engineering programs, with a curriculum that embraces the major areas of power, design, and fluid or solid mechanics. Seniors may select a number of elective classes, approved by their advisor, providing a focus on specialties such as:

1. Power/energy conversion
2. Mechanical systems/design
3. Aerospace engineering
4. Other

The program is designed to prepare its graduates for professional practice in many facets of engineering, such as research, development, design, planning, testing, management, and consulting. The graduate is prepared to undertake challenging and creative engineering work in almost any industry, government agency, research organization, or consulting firm. The program also provides an excellent preparation for graduate school and the Fundamentals of Engineering (FE) Exam.

An undergraduate student handbook providing rules and a detailed semester-by-semester plan for the program is available on the department's web site. Courses are routinely scheduled in the late afternoon and evening to accommodate students with current employment.

Outcomes

The Mechanical and Aerospace Engineering Department has adopted, after deliberations by its constituents, 7 outcomes for the BSME program. These outcomes are listed below. The students who qualify for graduation will have:

1. Proficiency in mathematics, calculus-based physics, and engineering science, and an ability to apply knowledge in these areas to identify, formulate, and solve mechanical engineering problems.
2. An ability to design an engineering system, component, or process to meet specified needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability.
3. An ability to present ideas and technical material to diverse audiences visually, verbally, and in writing.
4. An ability to recognize professional and ethical responsibilities and professional practice issues and to acquire the broad education necessary to make informed judgments, which must consider the impact of engineering solutions in a global, economic, environmental, and societal context.
5. An ability to function effectively as a member or a leader of a team that establishes goals, plans tasks, meets deadlines, and creates a collaborative and inclusive environment.

- An ability to design and conduct experiments and to critically analyze and interpret data in various mechanical engineering areas.
- An ability to recognize the ongoing need to acquire and apply new knowledge.

Mechanical Engineering Objectives

The program's educational objectives describe the career and professional accomplishments that the program is preparing graduates to attain within a few years after graduation. The educational objectives of the mechanical engineering program, established with participation of all constituencies, are consistent with the mission of Old Dominion University and the Department of Mechanical and Aerospace Engineering.

The objectives of the mechanical engineering undergraduate program at Old Dominion University are that our graduates should accomplish the following:

- To establish themselves as successful professionals in the general areas of thermal/fluid systems, mechanical systems and design, and materials and manufacturing in industry and government settings by demonstrating their ability to:
 - Conduct themselves consistently in a responsible, professional and ethical manner.
 - Participate in continuing education, research and development, and in other lifelong creative efforts in science and technology.
 - Lead others in support of activities that promote service to, and economic development of, the community, the region, state and nation.
- To successfully pursue and complete graduate programs in mechanical engineering, aerospace engineering or a related field if they so desire.

Accreditation

The Bachelor of Science in Mechanical Engineering is accredited by the Engineering Accreditation Commission of ABET www.abet.org. (<http://www.abet.org>)

Requirements

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6
Oral Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#oral)	3
Mathematics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#math)	3
Language and Culture (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#language)	0-6
Information Literacy and Research (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#information)	3
Human Behavior (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#behavior)	3
Human Creativity (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#creativity)	3

The Nature of Science (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#nature)	8
Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

General Education requirements in information literacy and research and impact of technology are met through the major. For additional information consult the department undergraduate handbook.

Upper-Division General Education

- Option A. Approved Minor, 12-24 credit hours; also second degree or second major
- Option B. Interdisciplinary Minor; 12 credit hours, (3 credit hours may be in the major area of study)
- Option C. An approved certification program such as teaching licensure (hours vary)
- Option D. Two Upper-Division Courses (6 credit hours) from outside the College of Engineering and Technology which are not required by the major.

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Mechanical Engineering Grade Requirements

Mechanical engineering majors must earn a grade of C or better in the following courses in order to continue to progress through the program:

ENGL 110C	English Composition	3
MATH 211	Calculus I	4
ENGL 211C or ENGL 231C	Writing, Rhetoric, and Research Writing, Rhetoric, and Research: Special Topics	3
MATH 212	Calculus II	4
CHEM 121N	Foundations of Chemistry I Lecture	3
PHYS 231N	University Physics I	4
MAE 201	Materials Science	3
MAE 204	Engineering Mechanics I - Statics	3
MAE 205	Dynamics	3
MAE 220	Engineering Mechanics II - Solid Mechanics	3
MAE 303	Mechanics of Fluids	3
MAE 311	Thermodynamics I	3
MAE 332	Mechanical Engineering Design I	3
MAE 434W	Project Design and Management I	3

Mechanical Engineering Major

General Education

Complete lower-division requirements	36-42
Complete upper-division requirements (minimum of 6 credit hours)	6

Mechanical Engineering Major

Complete mechanical engineering departmental and major requirements as shown on the degree program guide	82
Total Credit Hours	124-130

Additional Requirements and Information

Continuance Regulations

It is the policy of the Department of Mechanical and Aerospace Engineering to deny a student eligibility to enroll in program courses after it becomes evident that he or she is either unable or unwilling to maintain reasonable standards of academic achievement. Required courses are all those specifically listed above. Major GPA is calculated based on courses with an MAE prefix.

- 1. Warning. A student will be placed on departmental academic warning if their major grade point average falls below 2.0 after six or more hours have been attempted in the major. Students on academic warning are expected to consult with their departmental advisors and to take immediate steps to improve their major GPA.
- 2. A student will be placed on departmental academic probation whenever their major grade point average falls below 2.0 for two consecutive semesters of enrollment. Students on academic probation are expected to improve their major GPA to 2.0 or above in no more than one additional regular semester (Fall or Spring). University rules for grade forgiveness will apply.
- 3. A student is subject to termination from the program if their major GPA remains below 2.0 after the additional regular semester on probation.
- 4. Students are expected to achieve the required grade (i.e. pass or C) in all required classes in no more than three completed attempts. Failure to do so renders the student subject to immediate termination from the program.

Appeals of termination from the program are in order if extenuating circumstances warrant. Appeals are to be made in writing to the chair of the department. Once the appeal is submitted, it is considered by the faculty of the department.

Degree Program Guide*

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

- * Does not include the University's General Education language and culture requirement. Additional hours may be required.
- ** ENMA 480 is preferred.

Senior Electives

In the senior year, students should select their three elective courses to support a chosen specialty area. Examples include:

1. Power/energy: three courses from MAE 312, MAE 411, MAE 412, MAE 413, MAE 414, MAE 417, MAE 438, MAE 440
2. Mechanical systems design: three courses from MAE 404, MAE 422, MAE 431, MAE 438, MAE 440, MAE 441
3. Aerospace: three courses from MAE 403, MAE 406, MAE 417, MAE 420 (or MAE 440), MAE 438, MAE 460
4. Alternative combinations may be selected with advisor approval.

Linked Bachelor's/Master's Degree Programs

Linked Bachelor's/Master's programs are designed to allow qualified students to secure a space in a master's program available in the Frank Batten College of Engineering and Technology while they are still pursuing their undergraduate degrees. An eligible student can choose a master's program in the same discipline as his/her bachelor's program or in a complementary discipline. Subject to the approval of the undergraduate and graduate program directors, a student enrolled in a linked program can count up to six credit hours of course work towards both the undergraduate and the graduate degrees. Full-time students may be able to complete the requirements for the bachelor's degree in four years and the master's degree in one additional year. Students in linked programs must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Students who are matriculated in an undergraduate major in the Frank Batten College of Engineering and Technology with a GPA of at least 3.00 overall and 3.00 in the major are eligible to apply for admission to a Linked Bachelor's/Master's program. Transfer students who desire to be admitted to a linked program at the time they join an undergraduate major at Old Dominion University are eligible to apply if their overall GPA at their previous institution is 3.25 or higher. Prerequisite courses may be required for engineering technology majors to pursue a master's degree in engineering.

Continuance in a Linked Bachelor's/Master's program requires maintenance of a GPA of 3.00 or higher overall and in the major.

Linked Bachelor-to-PhD Programs

For a select number of exceptionally well-qualified students, the college has established a linked doctoral program that enables students to be admitted directly into the PhD program upon completion of the baccalaureate degree. A select number of exceptionally well-qualified students can be admitted to the Bachelor/PhD program in their junior year while they are pursuing one of the undergraduate programs at Old Dominion University. This program encourages admitted students to work closely with faculty members and pursue a research experience. Just as in the Linked Bachelor/Masters program, six credit hours of graduate course work may again be counted towards the undergraduate degree and doctoral course work mentioned above for the Bachelor/PhD program. For linked bachelor's to doctoral programs, students must earn a minimum of 198 credit hours (120 discrete credit hours for the undergraduate degree and 78 discrete credit hours for the graduate degree). Students in these programs must maintain a GPA of 3.50 or better throughout their bachelor's and doctoral studies.

The student may opt to obtain the master's degree along the way to the doctorate. To obtain the master's degree, the student must utilize the six graduate credits obtained as part of their undergraduate program, use 18 credits of the graduate course work that is part of the PhD, and work with the Graduate Program Director to plan the final 6 credits.

Minor Aerospace Engineering Minor Requirements

The Department of Mechanical and Aerospace Engineering offers a minor program in aerospace engineering comprising four courses chosen from the following list:

MAE 403	Flight Mechanics	3
MAE 406	Flight Vehicle Aerodynamics	3
MAE 417	Propulsion Systems	3
MAE 420	Aerospace Structures	3
or MAE 440	Introduction to Finite Element Analysis	
MAE 438	Applied Analog and Digital Control	3
MAE 460	Introduction to Space Systems Engineering	3
Total Hours Required (choose 4 courses):		12

It may be possible to substitute other appropriate senior-level mechanical and aerospace engineering courses with prior approval of the Mechanical and Aerospace Engineering Department. The minor in aerospace engineering is open to all students except for those majoring in mechanical engineering with a focus in aerospace engineering. All prerequisites and corequisites must be satisfied for all courses taken.

For completion of a minor, a student must have a minimum overall cumulative grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of lower-level courses, prerequisites and corequisites and complete at least six hours of upper-level courses in the minor requirement through courses offered by Old Dominion University.

Minor Marine Engineering Minor Minor in Marine Engineering

The minor in marine engineering is open to all students with the exception of those students in the Mechanical Engineering Technology program who are specializing in Marine Systems. Students seeking the minor must satisfy all pre- or corequisite requirements for the courses selected. The minor is multidisciplinary and consists of four courses in topics that are relevant to the shipbuilding, maintenance, repair and maritime operations industries.

The course requirements are as follows:

MET 475	Marine Engineering I	3
MET 476	Marine Engineering II	3
MAE 450	Principles of Naval Architecture	3
MAE 417	Propulsion Systems	3
Total Credit Hours		12

For completion of a minor, a student must have a minimum overall grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of lower-level courses, prerequisites and corequisites and complete at least six hours of upper-level courses in the minor requirement through courses offered by Old Dominion University.

Minor

Mechanical Engineering Minor

The Department of Mechanical and Aerospace Engineering offers a minor program with two emphases: thermal sciences and mechanics.

Requirements

The specific minimum courses required are as follows:

Thermal Sciences

MAE 303	Mechanics of Fluids	3
MAE 311	Thermodynamics I	3
MAE 312	Thermodynamics II	3
or MAE 414	Introduction to Gas Dynamics	
MAE 315	Heat and Mass Transfer	3
Total Credit Hours		12

Mechanics

MAE 332	Mechanical Engineering Design I	3
MAE 340	Computational Methods in Mechanical Engineering	3
MAE 404	Vibrations	3
MAE 436	Dynamic Systems and Control	3
Total Credit Hours		12

It may be possible to substitute other appropriate junior- or senior-level mechanical engineering courses for those specified above with prior approval of the department. Exceptions are rare and are not encouraged. All prerequisites and corequisites must be satisfied for all courses taken.

For completion of a minor, a student must have a minimum overall cumulative grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of lower-level courses, prerequisites and corequisites and complete at least six hours in upper-level courses in the minor requirement through courses offered by Old Dominion University.

Naval Science (Naval Reserve Officers Training Corps)

Web Site: <https://www.odu.edu/nrotc> (<https://www.odu.edu/nrotc/>)

Programs

Minor Program

- Military Leadership Minor (p. 619)

Naval ROTC Program

- NROTC (p. 618)

Naval Reserve Officers' Training Corps

Mission and Basic Program

The primary mission of the Department of Naval Science is to provide professional and leadership instruction to students who desire to serve as commissioned officers in the United States Navy or Marine Corps. The Naval ROTC program is administratively located under the Director of Military Activities and is situated, for academic matters, within the Batten College of Engineering and Technology. (<http://www.odu.edu/eng/>)

The NROTC program consists of two courses of instruction: the four-year program and the two-year program. Both apply to scholarship and non-scholarship (college program) students.

The four-year program is divided into a two-year basic course and a two-year advanced course.

The basic course is normally pursued by NROTC midshipmen during their freshman and sophomore years. While most freshmen begin the basic course during the fall, it is possible to enter the program in the spring semester.

Requirements

NAVS 101	Introduction to Naval Science	2
NAVS 102	Naval Sea Power and Maritime Affairs	3
NAVS 301	Navigation and Naval Operations I	3
NAVS 401	Leadership and Management I	3

The advanced course is normally pursued during the junior and senior years.

Accompanying laboratory sessions

NAVS 201	Naval Ships Systems I	3
NAVS 202	Naval Ships Systems II	3
NAVS 302	Navigation and Naval Operations II	3
NAVS 402	Leadership and Ethics	3

Students seeking a commission in the Marine Corps or Marine Corps Reserve are not required to take: NAVS 201, NAVS 202, NAVS 301, and NAVS 302 but instead must take NAVS 310 and NAVS 410.

Scholarship recipients supplement classroom instruction with an at-sea training period each summer. College program students supplement classroom instruction with at-sea training during the summer between their junior and senior years. Similarly, Marine Corps option students attend the six-week Marine Officer Candidate School at Quantico, Virginia during the summer between their junior and senior years.

The two-year NROTC program is extended to students who do not participate in NROTC during their freshman and sophomore years. Applications to join must be submitted during the sophomore year. If accepted for an unaffiliated scholarship, students will become a member of the unit upon acceptance and will be required to meet all NROTC standards and requirements.

Nuclear Power Option

To be most competitive, those students interested in entering the Navy's nuclear power program should have a college grade point average greater than 3.00. While any major is acceptable, all applicants must have completed at least two semesters of calculus (MATH 211 and MATH 212, or equivalent) and two semesters of calculus-based physics (PHYS 231N and PHYS 232N). Those students with a major in science, math, or engineering are most desirable. While not required, the following courses are recommended regardless of major for those students interested in navy nuclear power:

- Modern Physics
- Differential Equations
- Thermodynamics (ME)

- Principles of Chemistry
- Circuit Analysis

Minor

Military Leadership Minor

The minor in military leadership is a high quality, interdisciplinary, multidimensional, experiential, and culturally diverse program that exposes students to, and prepares them for, real life leadership opportunities and challenges. Students explore issues of leadership, citizenship, and social change within the context of an inquiry, experiential, and competency-based instructional design. The minor is open to all students who have completed the prerequisite courses. Students who are not enrolled in the military science or naval science program will receive academic credit for commissioning purposes.

For more information contact the Department of Naval Science at (757) 683-4741 or visit the web site: <http://www.odu.edu/nrotc> (<http://www.odu.edu/nrotc/>).

Requirements

The requirements for students in the Naval Science Department are completion of the following:

NAVS 301	Navigation and Naval Operations I	3
or NAVS 310	Evolution of Warfare	
NAVS 302	Navigation and Naval Operations II	3
or NAVS 410	Fundamentals of Maneuver Warfare	
NAVS 401	Leadership and Management I	3
NAVS 402	Leadership and Ethics	3
Select one of the following:		3
ENMA 301	Introduction to Engineering Management	
ENMA 401	Project Management	
ENGL 435W	Management Writing	
HIST 360	American Military History	
HIST 408	War and American Society in the Twentieth Century	
MGMT 325	Contemporary Organizations and Management	
MGMT 340	Human Resource Management	
NURS 480W	Nursing in the Health Care System: Leadership	
PHIL 442E	Studies in Applied Ethics	
POLS 326W	American Foreign Policy	
POLS 327W	Politics of National Security	
POLS 350T	Technology and War	
POLS 421	International Law	
PSYC 343	Personnel Psychology	
PSYC 345	Organizational Psychology	
Total Credit Hours		15

For completion of a minor, a student must have a minimum overall cumulative grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of lower-level courses and prerequisite courses and complete a minimum of six hours in upper-level courses in the minor requirement through courses offered by Old Dominion University.

Crystal Rawls, Advisor

The Ellmer College of Health Sciences' mission is to engage learners, make discoveries and improve health. We are a forward-focused College that improves health in our communities through innovative and interdisciplinary approaches. The college values integrity, inclusiveness, excellence and partnership. The degree programs are competitive, fully accredited (if applicable), and nationally recognized for quality graduates.

The college consists of the School of Exercise Science, the Gene W. Hirschfeld School of Dental Hygiene, the School of Medical Diagnostic and Translational Sciences, the School of Rehabilitation Sciences and the School of Speech-Language Pathology. These schools offer a variety of baccalaureate, master's, and doctoral degrees, undergraduate, graduate, and non-degree certificate programs, accelerated and degree completion programs, minors, and professional continuing education programs. In addition, many of these programs are offered off-campus and in a variety of online formats. See individual program information or the Graduate Catalog for details.

Program Application, Acceptance, and Continuance

Intended Health Sciences Students - Health Sciences Advising Center

Students who qualify for regular admission to the University and who intend to apply for admission to a health sciences major program are considered Intended Health Sciences students until admitted to their intended major.

They will be assigned an advisor in the Health Sciences Advising Center while completing general education and prerequisite requirements needed to apply to their intended major. Intended health sciences students receive individualized advising support designed to prepare them for success in their chosen health sciences major.

Contact:
Health Sciences Advising Center
3rd floor Ellmer Health Sciences Building
1019 W 41st. Street, Norfolk, VA 23529
757-683-5137
HSAdvising@odu.edu

<https://www.odu.edu/health-sciences-advising> (<https://www.odu.edu/health-sciences-advising/>)

Regulations for Continuance as an Intended Health Sciences Major

Students are eligible to continue as Intended Health Sciences majors as long as they meet both of the following:

1. Meet the continuance regulations of the University.
2. Make reasonable progress toward matriculation into Ellmer College of Health Sciences major program.

At the end of each semester (fall, spring, and summer), the Health Sciences Advising Center reviews the records of all students who do not meet minimum admissions requirements for their intended major (see admissions

information in the specific program sections of the Catalog and on the web site.) A student who has ceased reasonable progress toward admission into a Health Sciences degree program will be notified in writing via the student's Old Dominion University e-mail address, in accordance with the Electronic Communication Policy for Official University Business.

Students who are not making satisfactory progress in Health Sciences will meet with their professional academic advisor in health sciences to determine the next steps. The advisor will assist the student in identifying another major in the school/college; facilitating a transfer to another school/college if the new major is known, or connecting with the Center for Orientation, Retention and Exploration (CORE) for assistance in selecting a new intended major.

Program Admission

A separate application must be submitted to be considered for acceptance into many of the health science majors. **Acceptance to the University does not constitute or guarantee acceptance into these health science majors.** Students are notified by the program director of their acceptance and any other program specific requirements such as physicals, immunizations, technical standards, etc. Application information, qualifications, deadlines, and advisors are listed in the specific program sections of the Catalog and on the web site.

Continuance in the health science majors requires strong academic achievement, including successful demonstration of knowledge and use of practical and critical thinking skills in laboratory and in clinical rotations. Criminal background checks may be required as specified in course syllabi or program-specific admission materials. Any student deemed unacceptable for clinical or other field rotation due to results from a criminal background check will not be allowed to complete the program of study.

Advanced Placement

Advanced placement credit may be earned for courses offered by the Ellmer College of Health Sciences upon validation of mastery of the subject matter and skills covered in the respective course(s). A fee may be charged for the assessment of competency. Please check with the school offering the course for further information.

EVMS – Early Assurance Programs

ODU and EVMS School of Health Professions have entered into Early Assurance Program (EAP) agreements. ODU applicants meeting certain criteria are eligible for early assurance into the EVMS Master of Pathologists' Assistant (MSHPA) program, Master of Physician Assistant (MPA) program, EVMS Master of Surgical Assisting (MSA) program, and Master of Laboratory Animal Science (MS) program. To be eligible to apply through the EAP program, students must meet and maintain specific criteria as outlined on the EVMS website:

Laboratory Animal Science (MS):

https://www.evms.edu/education/masters_programs/laboratory_animal_science/early_assurance_program/

Pathologists' Assistant (MSHPA):

https://www.evms.edu/education/masters_programs/pathologists_assistant/early_assurance_program/

Physician Assistant (MPA):

Bachelor of Science in Health Sciences Health Sciences with a Major in Pre-Clinical Studies (BSHS)

The Pre-Clinical Studies major provides clear paths for students interested in graduate health professions with flexibility to select courses, depending on the anticipated graduate degree.

Major Declaration

To officially declare a major in Pre-Clinical Studies, students must complete the following courses with a grade of C or better: HLTH 120G, ENGL 110C, MATH 102M or MATH 103M or MATH 162M, CHEM 121N, CHEM 122N, CHEM 123N, CHEM 124N STAT 130M, and BIOL 250.

Students who have met all major declaration requirements will be referred by their advisor in the Health Sciences Advising Center to the program director for major declaration and assignment to a program advisor. For additional information on the curriculum or major declaration requirements, please contact the College of Health Sciences Advising Center (hsadvising@odu.edu).

Continuance and Readmission Policy

In addition to the Old Dominion University continuance policies in this catalog, the following policies are specific to all declared majors in the Pre-Clinical Studies Program:

1. A grade of C (2.00) or better is required in all required core courses and Pre-Clinical Studies major electives to continue in the program.
2. A student who earns a grade of C- or lower will not be considered in good academic standing in the major and must retake the course in the next semester the course is offered.
3. A Pre-Clinical Studies major student who does not earn a grade of C or higher in multiple major courses may be undeclared and must meet with the program director to create an academic success plan that outlines requirements for continuance in the major. Students who continue not to meet continuance requirements for more than one semester may be removed from the major and referred to the Academic Success Center for advising and degree counseling.
4. A cumulative grade point average of 2.7 or better is required to continue in the Pre-Clinical Studies program.
5. A student may be readmitted to the Pre-Clinical Studies major only once.

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6
Oral Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#oral)	3
Mathematics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#math)	3
Language and Culture (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#language)	0-6
Information Literacy and Research (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#information)	3
Human Behavior (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#behavior)	3
Human Creativity (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#creativity)	3
Interpreting the Past (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#interpret)	3
Literature (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#literature)	3
Philosophy and Ethics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#philosophy)	3
The Nature of Science (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#nature)	8
Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

Written Communication: grade of C or better required in both courses

Oral Communication: Can be met in the major with HMSV 339

Mathematics: MATH 102M or MATH 103M or MATH 162M required (C or better required)

Information Literacy and Research: Met in the major prerequisite with HLTH 120G

Human Behavior: PSYC 201S or SOC 201S required (C or better required)

Philosophy and Ethics: PHIL 345E preferred (may also count toward Option D)

Nature of Science (C or better required): CHEM 121N, CHEM 122N, CHEM 123N, and CHEM 124N required (CHEM 103 may be needed as a prerequisite--consult advisor)

Impact of Technology: Met in the major with HLSC 485

Upper-Division General Education

- Option A: Disciplinary Minor (a minimum of 12 hours determined by the department) or Second Major or Second Degree
- Option B: Interdisciplinary Minor (specifically 12 hours, 3 of which may be in the major)
- Option C: An approved Certification Program such as teaching licensure
- Option D: Six hours of elective upper-division courses from outside the College of Health Sciences and not required by the student's major.

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Pre-Clinical Studies Major

General Education		
Complete lower-division requirements		32-41
Complete upper-division requirements (minimum of 6 credit hours)		3-6
Prerequisite Course *		
HLTH 120G	Information Literacy for Health Professions	3

Total Credit Hours		120

- * Grade of C or better required
- ** CHEM 103 with a grade of C or better may be required as a pre-requisite for CHEM 121N. Please consult with your advisor to determine whether you need this course. If not, a general elective may be completed instead.
- *** If you completed HLSC 335 and did not complete HMSV 339, you will still need to meet the University's Oral Communication requirement. Consult your advisor for guidance.
- + Additional electives may be needed to reach 120 hours.

Bachelor of Science in Health Sciences Health Sciences with a Major in Recreational Therapy (BSHS)

Shelly Beaver, Undergraduate Program Director
3053 Ellmer College of Health Sciences Building
(757) 683-4415, sbeaver@odu.edu

The Recreational Therapy (RT) program at Old Dominion University strives to prepare competent, entry-level recreational therapists in the cognitive (knowledge), psychomotor (skill), and affective (behavior) learning domains. The RT program implements high-impact educational practices, such as community-engaged learning, interprofessional collaborative projects, and internships, to provide disciplinary-specific education and experiences across practice settings and diagnostic groups. Students gain necessary job task skills in the areas of assessment, planning, implementation, evaluation, documentation, administration, and professionalism, as outlined by the National Council for Therapeutic Recreation Certification (NCTRC). Upon graduation students will be eligible to sit for the NCTRC national certification exam to enter the profession as a qualified provider of recreational therapy services.

A minimum of 120 credit hours, which must include both a minimum of 30 credit hours overall and 12 credit hours in upper-level courses in the major program from Old Dominion University, is required for the Recreational Therapy major.

National Council for Therapeutic Recreation Certification (NCTRC) is the credentialing organization for the profession of Therapeutic Recreation. <https://www.nctrc.org>

American Therapeutic Recreation Association (ATRA) is the national professional organization representing the interests and needs of recreational therapists. <https://www.atra-online.com> (<https://www.atra-online.com/>)

** The recreational therapy curriculum includes prerequisite coursework required for admission into ODU's Doctor of Occupational Therapy (OTD) program. Completing the recreational therapy program does not guarantee admission into the OTD program.*

Admission into the Recreational Therapy Major

To officially declare a major in Recreational Therapy, requirements are as follows:

1. Students must have an overall grade point average of 2.00.
2. Students must have completed the following courses: ENGL 110C (C or higher), PSYC 203S, BIOL 240 or BIOL 250, BIOL 241 or BIOL 251, and RT 261 (C- or higher).
3. Students who have met all Recreational Therapy major admission requirements will be referred by their advisor in the Health Sciences Advising Center to the Recreational Therapy Undergraduate Program Director for major declaration and assignment to a faculty advisor.
4. Students must pass a background check.
5. Students must be admitted to the Recreational Therapy major before enrolling in RT 300- or 400- level required courses.

- Students must comply with all policies and procedures outlined in the Recreational Therapy Student Handbook.

For additional information on the curriculum or major declaration requirements, please contact: Program Director (sbeaver@odu.edu) (sbeaver@odu.edu) or the College of Health Sciences Advising Center (hsadvising@odu.edu).

Continuance and Readmission Policy

In addition to Old Dominion University's continuance policies, the following policies are specific to all declared Recreational Therapy majors in the BSHS degree. All continuance policies for the Recreational Therapy major can be found in detail in the Recreational Therapy Student Handbook.

- A cumulative grade point average of 2.00 or better is required to continue in the major.
- Students placed on academic suspension by the University will not be considered in good academic standing and will be dismissed from the major. At the request of the student, their status may be changed to an intended major.
- Students may apply for readmission to the major once they have completed the academic suspension period, have been readmitted to the University, and have met all the entrance to major requirements.
- Students may be readmitted to the BSHS Recreational Therapy major only once.
- A student who leaves the major and is readmitted may be required to take additional course work prior to or concurrent with readmission.

Senior Internship

The senior internship, RT 468 is a capstone course and requires a 560-hour and 14-week internship experience at an approved health and human service agency practicing recreational therapy. Students will apply academic learning and will demonstrate competencies associated with entry-level practice in recreational therapy. The student's academic and agency direct supervisors must be Certified Therapeutic Recreation Specialists (CTRS). The senior internship is a planned, supervised, and evaluated culminating experience for students. The senior internship must adhere to all NCTRC internship standards for national certification. All coursework must be completed prior to a student beginning the senior internship experience.

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Requirements

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6
Oral Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#oral)	3
Mathematics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#math)	3

Language and Culture (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#language)	0-6
Information Literacy and Research (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#information)	3
Human Behavior (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#behavior)	3
Human Creativity (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#creativity)	3
Interpreting the Past (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#interpret)	3
Literature (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#literature)	3
Philosophy and Ethics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#philosophy)	3
The Nature of Science (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#nature)	8
Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

Written Communication Skills: Grade of C or better required in both courses.

Human Behavior: PSYC 201S is required with a C or better.

Lower-division general education requirements met in the major:

- Mathematics: STAT 130M is a core requirement and met in the major, with a required grade of C- or better.
- Impact of Technology: HLSC 485 is met in the major, with a required grade of C- or better
- Oral Communication: met in the major with HMSV 339, with a required grade of C- or better

Lower-division general education requirements preferred courses:

- Information Literacy and Research: HLTH 120G is preferred
- Philosophy and Ethics: PHIL 345E is preferred

Upper-Division General Education

- Option A: Disciplinary Minor (a minimum of 12 hours determined by the department) or Second Major or Second Degree
- Option B: Interdisciplinary Minor (specifically 12 hours, 3 of which may be in the major)
- Option C: An approved Certification Program such as teaching licensure
- Option D: Six hours of elective upper-division courses from outside the College of Health Sciences and not required by the student's major.

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Recreational Therapy Prerequisite Courses

Minor Recreational Therapy Minor Requirements

RT 261* is a prerequisite for the minor and is not included in the calculation of the grade point average for the minor. Requirements for the minor are completion of 13 hours as follows:

RT 420	Intervention Techniques in Recreational Therapy	4
RT 450	Diagnostic Groups in Recreational Therapy	3
RT 460	Administration of Recreational Therapy Services	3
HLSC 320	Health Equity and Disability Culture	3
Total Credit Hours		13

* Grade of C- or better required.

For completion of a minor, a student must have a minimum overall cumulative grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of 100- and 200-level courses and prerequisite courses and complete a minimum of six hours in upper-level courses in the minor requirement through courses offered by Old Dominion University.

Dental Hygiene

Web Site: <http://www.odu.edu/dental> (<http://www.odu.edu/dental/>)

Brenda Bradshaw, Chair
Tara Newcomb, Chief Departmental Advisor

The Gene W. Hirschfeld School of Dental Hygiene offers programs leading to the degrees of Bachelor of Science in Dental Hygiene (entry level and post-licensure) and Master of Science with a major in dental hygiene. The entry-level dental hygiene program is accredited by the Commission on Dental Accreditation.

International Dental Hygiene

The School of Dental Hygiene, committed to solving global oral health problems, offers a variety of service learning programs in partnership with non-governmental agencies, academic institutions, and private organizations worldwide. Faculty-led experiences offer unique opportunities for students to travel abroad, develop cross-cultural competence, experience global health challenges, and engage in projects that advance oral health. International locations are determined by the School of Dental Hygiene in conjunction with the Office of Study Abroad. Program participation requires approval from the School of Dental Hygiene and the Office of Study Abroad.

The Dental Hygiene Research Center

The focus of the Dental Hygiene Research Center is to support research through collaboration and partnerships that will provide a foundation for dental hygiene services and practice, advance the practice of dental hygiene, and improve the oral health status of the public. Multidisciplinary and interdisciplinary projects are developed with healthcare facilities, private industry, and other academic institutions. Undergraduate and graduate students are integrated into the research process, which contributes to the understanding between theory and practice.

Programs

Bachelor of Dental Hygiene Programs

- Dental Hygiene (BSDH) (p. 626)
- Dental Hygiene Post-Licensure Major (BSDH) (p. 630)

Linked Bachelor of Science in Dental Hygiene to Master of Science Program

Entry-level and BSDH Post-Licensure online dental hygiene students who have a cumulative 3.30 grade point average and senior standing may complete the Bachelor of Science in Dental Hygiene to Master of Science (BSDH-MS) dental hygiene linked program application. This program allows exceptional undergraduate students the opportunity to take up to 12 credit hours of graduate course work and apply them to both the undergraduate and graduate degrees. Students in the linked program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree). Consult with the graduate program director for more information.

Bachelor of Science in Dental Hygiene Dental Hygiene (BSDH)

Brenda Bradshaw, Entry-Level Program Director

The baccalaureate program in dental hygiene is designed to prepare men and women as professional dental hygienists qualified for positions in a variety of health-care settings and/or for graduate study in dental hygiene. A dental hygienist is a licensed professional and member of the oral health care team who provides services to promote optimal oral health. Dental hygienists serve as clinical practitioners, educators, researchers, administrators, managers, program developers, consultants, and/or dental product sales representatives, depending on the individual's employment setting and educational background. In addition, dental hygienists with a bachelor's degree may pursue careers in elementary and secondary schools, community and public health settings, institutional, entrepreneurial and industrial dental hygiene, professional education, and research.

Students in good academic standing during the last semester of the Bachelor of Science in Dental Hygiene entry-level program may be approved by the School Chair to take the National Board Examination for Dental Hygiene and a regional licensing board examination. A successful outcome on both examinations is required to practice dental hygiene.

The School of Dental Hygiene reserves the right to require remedial work of any student who does not perform at a level satisfactory for patient care. Annually, students are required to submit documentation of a current background check, CPR certification, immunizations and diagnostic procedures. Students are required to complete the School of Dental Hygiene Entrance Health Form and strongly advised to be up to date on all appropriate immunizations to minimize risk of infectious disease due to the nature of clinical care as part of the dental hygiene curriculum. The University maintains liability insurance on the students while enrolled in the School of Dental Hygiene.

Admission to Bachelor of Science in Dental Hygiene (Entry-Level)

OVERVIEW: Admissions procedures and decisions are nondiscriminatory, and a diverse pool of qualified applicants is encouraged to apply.

Dental hygiene education curriculum is scientifically-oriented and rigorous. Accreditation requirements limit enrollment based on resources including faculty-student ratios. Therefore, admission is competitive with standardized and fair criteria and procedures to ensure selected candidates have the potential for successfully completing the program.

Required prerequisite courses and dental hygiene curricular content can be found below. Recommended courses for transfer from the Virginia Community College System (VCCS) can be viewed here: <https://www.odu.edu/transfer/vccs-transfer-guide> (<https://www.odu.edu/transfer/vccs-transfer-guide/>). To determine if courses taken outside of ODU will transfer, visit: <https://transfer2.odu.edu/equivalency/>. All applicants are highly encouraged to seek advising from the ODU College of Health Sciences Advising Team before applying. They can be reached by emailing: hsadvising@odu.edu. This program is fully on campus.

Below is an explanation of the 2-step application process with a list of criteria and instructions:

Step 1. Complete an online application to ODU as a degree-seeking student by December 1.

- Application information for undergraduate admission to the University can be found at: <https://odu.edu/admission/undergraduate> (<https://odu.edu/admission/undergraduate/>).

Step 2. Apply to the entry-level baccalaureate degree program of the School of Dental Hygiene (SODH) using the American Dental Education Association Dental Hygiene Centralized Application Service (ADEA DHCAS). The deadline for completing this application is February 1.

The following 4 bullet points list **Required** parts of the dental hygiene application:

- **All post-secondary educational official transcripts:** The applicant is responsible for providing accurate and comprehensive information regarding their academic history by including official transcripts from all educational institutions attended since high school including community colleges, four-year colleges, and universities. Instructions for entering academic history information and sending official

transcripts to DHCAS can be found at: https://help.liaisonedu.com/ADEA_DHCAS_Applicant_Help_Center (https://help.liaisonedu.com/ADEA_DHCAS_Applicant_Help_Center/). Failure to follow these instructions may cause delays in the verification of an application and/or the inability to be admitted to the School of Dental Hygiene. Candidates' Grade Point Averages (GPAs) are evaluated in two ways: Overall GPA (minimum 3.0) and Science GPA (minimum 3.3). All courses attempted and grades earned are calculated into the GPAs by DHCAS. GPA calculations include +/- grades, and all grades earned for each attempt at a course (repeated courses are included). For information about GPA calculations, visit: https://help.liaisonedu.com/ADEA_DHCAS_Applicant_Help_Center/Filling_Out_Your_ADEA_DHCAS_Application/Academic_History/4_ADEA_DHCAS_Course_Subjects (https://help.liaisonedu.com/ADEA_DHCAS_Applicant_Help_Center/Filling_Out_Your_ADEA_DHCAS_Application/Academic_History/4_ADEA_DHCAS_Course_Subjects/). GPA is weighed most heavily for admissions decisions. While minimum GPAs are expected, many applicants have well above the minimums and are considered most competitive.

- **High school unofficial transcripts:** This may take some time. Applicants are encouraged to request unofficial transcripts from their high school(s) early in the application process. You can upload them in the "documents" page of the application. High school grades are not considered and are not factored into the GPA. This is used mainly to ensure foreign language has been satisfied if taken in high school.
- **Two ODU School of Dental Hygiene Recommendation Forms:** These forms should be completed by current or previous academic and/or employer recommenders. Applicants send electronic copies of the School of Dental Hygiene Recommendation Form to their recommenders and explain that this specific form must be used. The form is located here (<https://www.odu.edu/sites/default/files/2023/documents/sodh-recommendation-form.pdf>). Then, go to the "Program Materials" section of the application, select "ODU," navigate to the "Evaluations" tab, and enter the recommenders' names and email addresses. Be sure to do this accurately. Recommenders will receive an email from dhcasinfo@dhcas.org requesting they provide an "online evaluation." NOTE: Recommendation letters are not accepted and will not be reviewed. For more information, visit: https://help.liaisonedu.com/ADEA_DHCAS_Applicant_Help_Center/Filling_Out_Your_ADEA_DHCAS_Application (https://help.liaisonedu.com/ADEA_DHCAS_Applicant_Help_Center/Filling_Out_Your_ADEA_DHCAS_Application/).
- **Essay:** Applicants must upload a well-written 300-500 words typed essay on the following topic: *"Dental hygienist professional roles include: clinician, corporate, public health, researcher, educator, administrator, and entrepreneur. Choose one role you are most interested in and explain how you would contribute to the profession in that role."* Applicants are highly encouraged to explore the American Dental Hygienists' Association website to gather information for their essay: <https://www.adha.org/professional-roles> (<https://www.adha.org/professional-roles/>). There is no required format or reference style for the essay.

The following 6 bullet points list **optional** information applicants may include that would award points on their application. GPA is weighed heavily for admissions decisions, but the following additional information may be used to support admissions decisions. To earn these points, upload applicable electronic certificates/documents to the DHCAS application as proof:

- Radiation Safety Certificate= .5 points
- Certified Dental Assistant Certificate= .5 points
- Current CPR Card= .5 points
- Enrollment information: the number of semesters enrolled at Old Dominion University (past and present). Proof of this would show on submitted ODU transcripts. .25 points are awarded for each previous and currently enrolled semester.

- Previous degrees that have been conferred as shown on official transcripts. Points awarded are: Associate degree= .25; Bachelor's degree= .5; Master's degree= .75.
- Admission Test for Dental Hygiene (ATDH) scores are optional, but recommended. If an applicant submits scores, points will be awarded based on a range of scores. SCORE RANGES: score of 200= 0 points; scores of 201 to 275= .25 points; scores of 276 to 350= .5 points; scores of 351 to 425= .75 points; scores of 426 to 500= 1 point. For more information about the ATDH and how to report scores, visit: <https://www.ada.org/education/testing/exams/admission-test-for-dental-hygiene-atdh> (<https://www.ada.org/education/testing/exams/admission-test-for-dental-hygiene-atdh/>).

3. Still have questions or concerns about the ADEA DHCAS application?

- Answers to most questions are found here: https://help.liaisonedu.com/ADEA_DHCAS_Applicant_Help_Center (https://help.liaisonedu.com/ADEA_DHCAS_Applicant_Help_Center/) or applicants may contact DHCAS Customer Service for assistance with questions about the application. Call 617-612-2095 or email dhcasinfo@dhcas.org.
- The SODH does not have access to an application until it has reached "verified" status by DHCAS. Applications will not be considered for admission unless verified by March 1.

4. Wait for email notification.

- Applicants will receive notification from the ODU Office of Admissions regarding the application decision for entrance into the University.
- Applicants will receive email notification in April from the SODH regarding the status of their application decision for entrance into the SODH (check email inbox and spam folder daily). If accepted or placed on the alternate candidate list, there will be deadlines in the email which will require immediate action.
- **Admission to ODU does not guarantee acceptance to the SODH. Applicants must be successfully admitted to both the University as a degree-seeking student and to the SODH.**

5. If accepted into the SODH, students will need to attend the SODH's required in-person orientation where they will meet with an advisor and register for dental hygiene classes. Orientation details will be emailed.

Guaranteed Entry Program

The guaranteed entry program is designed for highly qualified senior high school students who are committed to completing a Bachelor of Science in Dental Hygiene at Old Dominion University. Students accepted into this program will be guaranteed a position upon completion of the prerequisites and candidacy requirements as outlined by Old Dominion University School of Dental Hygiene. For more information, email hsadvising@odu.edu

Requirements for Entry-Level Program

Students must complete the entire curriculum of 120-126 credit hours (depending upon foreign language exemption) to meet degree requirements. All Dental Hygiene courses with the prefix DNTH are to be completed in a prescribed sequence within two academic years due to scheduling and space limitations. A minimum grade of C (2.00) must be obtained in all DNTH courses.

Students desiring to enroll in the BSDH Entry-level Dental Hygiene program must complete the lower-division general education courses noted below and departmental requirements for dental hygiene prior to beginning the dental hygiene major.

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6
Oral Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#oral)	3
Mathematics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#math)	3

Language and Culture (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#language)	0-6
Information Literacy and Research (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#information)	3
Human Behavior (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#behavior)	3
Human Creativity (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#creativity)	3
Interpreting the Past (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#interpret)	3
Literature (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#literature)	3
Philosophy and Ethics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#philosophy)	3
The Nature of Science (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#nature)	8
Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

All prerequisite courses must be completed with a grade of C (2.00) or better. A grade of C- will not transfer into the School of Dental Hygiene.

Information Literacy/Research, Oral Communication, and Philosophy/Ethics will be met in the major.

Mathematics: STAT 130M*

Human Behavior: PSYC 201S* and SOC 201S*

Nature of Science: CHEM 105N* and CHEM 106N*, BIOL 150* and BIOL 151*, and BIOL 240* and BIOL 241* or BIOL 250* and BIOL 251*.

Impact of Technology (300/400 level preferred; any 300/400 level T course EXCEPT DNTH 440T meets upper-division general education/Option D)

Upper-Division General Education courses must be outside the College of Health Sciences.

*Grade of C or better required.

Upper-Division General Education

- Option A. Approved Disciplinary Minor, 12 hours minimum; also second degree or second major.
- Option B. Interdisciplinary Minor (specifically 12 hours, 3 of which may be in the major)
- Option C. An approved Certification Program such as teaching licensure
- Option D. Two Upper-Division Courses from outside the College of Health Sciences and not required by the major (6 hours)

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

* Grade of C or better is required in all DNTH courses

Additional Requirements and Information

Continuance Policy

In addition to the Old Dominion University Continuance policies in this catalog, the following policies are specific to all declared majors in the Gene W. Hirschfeld School of Dental Hygiene. A grade of D (1.00) or F in any dental hygiene course will result in academic dismissal from the program. Inability to attend clinical practice or community rotations due to an agency refusal or infraction in a background check will be cause for dismissal. One finding of a violation of the Code of Student Conduct for academic integrity is grounds for removal from the dental hygiene program.

1. A grade of C (2.00) or better is required in all dental hygiene courses to continue in the dental hygiene program.
2. A cumulative grade point average of 2.00 or better is required to continue in the dental hygiene program.
3. A dental hygiene student who earns a D (1.00) or F in a dental hygiene course and after dismissal from the program, may seek reapplication to be considered for readmission to the dental hygiene program (see Readmission Policy).

Policy on Readmission

Subsequent to dismissal or withdrawal for academic deficiencies, readmission may be sought through reapplication to the Dental Hygiene Program. A student who must repeat one or more courses in the dental hygiene major must first be readmitted to the dental hygiene program. In order to initiate the readmission process, the student shall submit a letter to the School of Dental Hygiene by emailing the Chair, requesting readmission to the program, with supporting documents to include a copy of official transcripts and letter of intention indicating the reasons why he/she should be reconsidered and proposed goals for achieving academic success no later than one month after dismissal date. A cumulative GPA of 3.0 will make the candidate competitive for readmission consideration. Students dismissed for violations of the Code of Student Conduct and/or Academic Integrity are ineligible for readmission. Once the School of Dental Hygiene has evaluated the letter of intent and official transcripts, the admissions committee will consider the student for readmission. The process of reconsideration will include a careful review of the student's academic records, the letter of intent, and an assessment of potential for academic progress in the future by a readmission committee. Recommendations relative to readmission will be referred to the School of Dental Hygiene Chair in conjunction with the Chief Department Advisor for final decision and notification, including conditions for readmission, where appropriate. Readmitted students are allowed to repeat a failed course only once. A student may be readmitted to the dental hygiene major only once. A student who leaves the major and is readmitted will be required to take additional course work prior to or concurrent with

readmission. Readmission will be granted on a space-available basis only after regular admission has been filled. Appeal of readmission decisions should be directed to the School of Dental Hygiene Chair.

Degree Program Guide

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

Linked Bachelor of Science in Dental Hygiene to Master of Science Program

Entry-level and BSDH Post-Licensure online dental hygiene students who have a cumulative 3.30 grade point average and senior standing may complete the Bachelor of Science in Dental Hygiene to Master of Science (BSDH-MS) dental hygiene linked program application. This program allows exceptional undergraduate students the opportunity to take up to 12 credit hours of graduate course work and apply them to both the undergraduate and graduate degrees. Students in the linked program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree). Consult with the graduate program director for more information.

Bachelor of Science in Dental Hygiene Dental Hygiene Post-Licensure Major (BSDH)

Amber Hunt, BSDH Post-Licensure Online Program Director

The Bachelor of Science in Dental Hygiene (BSDH) Post-Licensure Online program is designed for students who have completed a certificate or associate degree from an accredited dental hygiene program and desire to continue their education toward a Bachelor of Science in Dental Hygiene. The program provides an opportunity for the licensed dental hygienist to gain knowledge, skills, and attitudes necessary for expanded career opportunities in education, oral health promotion, research, community and public health, management, and marketing. This program also provides a strong foundation for graduate studies. A minimum of 120 credit hours is necessary to obtain the baccalaureate degree. The length of time required to complete the program and University requirements is determined by the number of acceptable college transfer credits; at least 30 credit hours must be taken at Old Dominion University. Students can expect to complete the program in three academic semesters of full-time study. The BSDH Post-Licensure online program is available online or as a hybrid of online and on-campus courses.

Admission to the Bachelor of Science in Dental Hygiene Post-Licensure Online Program

A licensed dental hygienist educated at another institution who desires to pursue the Bachelor of Science in Dental Hygiene should apply and be accepted by Old Dominion University as an upper-level dental hygiene transfer student. Formal acceptance as a dental hygiene major will be determined by the Admissions Committee for the BSDH Post-Licensure Online Program. The School of Dental Hygiene BSDH Post-Licensure application must be submitted to the American Dental Education Association's Dental Hygiene Centralized Application Service (ADEA DHCAS) website (<https://www.adea.org/godental/apply/dhcas-application> (<https://www.adea.org/godental/apply/dhcas-application/>)) and must have "Verified" status to be considered complete and ready for review. Admission to the University does not constitute admission to the dental hygiene program.

Transfer applicants must meet the following requirements:

1. Certificate or associate degree in dental hygiene from a dental hygiene program accredited by the Commission on Dental Accreditation (CODA).
2. Successful completion of all University lower-level general education and department requirements.
3. Submission of **application to the Old Dominion University Office of Admissions** including official high school and college transcripts.
4. Acceptance to Old Dominion University.
5. Submission of completed **School of Dental Hygiene BSDH Post-Licensure application** to the American Dental Education Association's Dental Hygiene Centralized Application Service (**ADEA DHCAS website**) (<https://www.adea.org/godental/apply/dhcas-application> (<https://www.adea.org/godental/apply/dhcas-application/>)) with the following items:
 - a. Official transcripts from high school and college academic institutions attended
 - b. Copy of National Board Dental Hygiene Examination Score
 - c. Two professional letters of recommendation
 - d. Registered Dental Hygienist License

Requirements

Transfer students must satisfy the following:

1. Certificate or associate degree in dental hygiene from a dental hygiene program accredited by the Commission on Dental Accreditation (CODA).
2. Students without credit for ENGL 110C must achieve a passing score on the Writing Success Placement Tool (WSPT).
3. Successful completion of the University Lower-Division General Education requirements or a transfer associate degree.

4. Successful completion of department requirements or the equivalent. A grade of (C) or better is required in all courses. A grade of C- will not transfer to the School of Dental Hygiene.
5. Successful completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better and the Senior Assessment Survey.
6. Successful completion of 15 credits at the upper division to include a minimum of six credits to meet the Upper-Division General Education requirement.
7. Successful completion of five major courses.

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6
Oral Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#oral)	3
Mathematics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#math)	3
Language and Culture (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#language)	0-6
Information Literacy and Research (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#information)	3
Human Behavior (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#behavior)	3
Human Creativity (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#creativity)	3
Interpreting the Past (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#interpret)	3
Literature (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#literature)	3
Philosophy and Ethics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#philosophy)	3
The Nature of Science (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#nature)	8
Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

Information Literacy/Research, Oral Communication, Philosophy/Ethics, and Impact of Technology will be satisfied in the major for the BSDH Post-Licensure Program. With the exception of Mathematics, Human Behavior, and Nature of Science, which are departmental requirements, lower-level general education requirements may be met by a transferable associate degree.

Mathematics: STAT 130M*

Human Behavior: PSYC 201S* or PSYC 203S* and SOC 201S*

Nature of Science: CHEM 105N* and CHEM 106N*, BIOL 150* and BIOL 151*, and BIOL 240* and BIOL 241* or BIOL 250* and BIOL 251*

*Grade of C or better required

Upper-Division General Education

Successful completion of 15 credits at the upper division to include a minimum of six credits to meet the Upper-Division General Education requirement. This may include a minor.

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.

- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Elective Credit

Elective credit may be needed to meet the minimum 120 credit hours required for the degree.

Additional Requirements and Information

Continuance

In addition to the Old Dominion University continuance policies, the following policy is specific to the BSDH Post-Licensure Online program. A grade of C (2.00) or better is required in all DNTH courses for graduation. A cumulative grade point average of a C (2.00) or better is required to continue in the dental hygiene program. A grade of D (1.00) or F in any dental hygiene course will not be considered in good academic standing in the major and will result in an evaluation of the individual student's academic progress on a case-to-case basis. Dental hygiene students will be allowed to repeat a failed course only once.

One finding of a violation of the Code of Student Conduct for academic integrity is grounds for removal from the dental hygiene program.

Students admitted to the BSDH Post-Licensure Online program who do not take a course for two academic years or more, have completed reactivation

with Old Dominion University, and are eligible to start or continue the BSDH Post-Licensure Online program based on the continuance policy, must submit the following updated document(s) prior to taking classes:

- Registered Dental Hygienist License

Linked Bachelor of Science in Dental Hygiene to Master of Science Program

Entry-level and BSDH Post-Licensure online dental hygiene students who have a cumulative 3.30 grade point average and senior standing may complete the Bachelor of Science in Dental Hygiene to Master of Science (BSDH-MS) dental hygiene linked program application. This program allows exceptional undergraduate students the opportunity to take up to 12 credit hours of graduate course work and apply them to both the undergraduate and graduate degrees. Students in the linked program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree). Consult with the graduate program director for more information.

Exercise Science

Bachelor of Science Exercise Science (BS)

J. Kyle Davis, M.S., Undergraduate Program Director

1005 Student Recreation Center
757 683-4754
jkdavis@odu.edu

This program is designed to prepare students for careers in developing exercise and wellness programs in settings such as hospitals, wellness and rehabilitation centers, sports medicine clinics, sports performance centers, collegiate sport facilities, government agencies, health and fitness centers, and corporate industry. Academic preparation focuses on the scientific aspects of exercise related to asymptomatic, and symptomatic populations. The program also contains pre-requisite coursework and serves to prepare students for graduate studies in exercise science, physical therapy, athletic training, occupational therapy and other allied health fields including ODU's Exercise Science master's degree (<https://www.odu.edu/academics/programs/masters/exercise-science/>).

Major Declaration

To officially declare a major in Exercise Science, students must complete EXSC 225 and the following courses with a C or better : ENGL 110C, MATH 102M or MATH 103M, BIOL 121N, BIOL 122N, CHEM 121N, CHEM 122N, and BIOL 240 or BIOL 250.

Students who have met all major declaration requirements will be referred by their advisor in the Health Sciences Advising Center to the program director for major declaration and assignment to a program advisor. For additional information on the curriculum or major declaration requirements, please contact: Program Director (jkdavis@odu.edu) or the College of Health Sciences Advising Center (hsadvising@odu.edu).

Advanced Placement

Departmental examinations for advanced placement are available for selected courses in the undergraduate programs. Please contact the department chair for further details. Refer also to the Policy on Prior Learning Assessment Credit Options at the Undergraduate Level in this Catalog.

Written Communication Skills: Grade of C or better required in both courses

Mathematical Skills: MATH 102M or MATH 103M or MATH 162M; grade of C or better required

Nature of Science: BIOL 121N/BIOL 122N and CHEM 121N/CHEM 122N

Information Literacy and Research: HLTH 120G preferred

Human Behavior: PSYC 201S preferred

Philosophy and Ethics: PHIL 345E preferred

Impact of Technology: Satisfied with EXSC 417 in the major

Upper-Division General Education

- Option A. Disciplinary Minor (a minimum of 12 hours determined by the department or Second Major or Second Degree
- Option B. Interdisciplinary Minor (specifically 12 hours, 3 of which may be in the major)

- Option C. An approved Certification Program such as teaching licensure
- Option D. Two Upper-Division Courses from outside the College of Health Sciences and not required by the major (6 hours)

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Total Credit Hours		120

Minor

Exercise Science Minor

Requirements

BIOL 240 or BIOL 250 and EXSC 225 are prerequisites for the minor and are not included in the calculation of the grade point average for the minor. Requirements for the minor are:

EXSC 309	Fundamentals of Exercise Physiology	3
EXSC 322	Anatomical Kinesiology	3
Select two of the following:		6
EXSC 240	Prevention and Care of Injuries Related to Physical Activity	
or EXSC 250	Strength and Conditioning Leadership	
EXSC 369	Practicum in Exercise Science	
EXSC 408	Nutrition for Fitness and Sport	
EXSC 415	Exercise Testing for Normal and Special Populations	
EXSC 417	Biomechanics	
EXSC 420	Research Methods in Exercise Science	
EXSC 428	Exercise Prescription for Chronic Disease	
EXSC 431W	Wellness Programming and Administration	
Total Credit Hours		12

For completion of a minor, a student must have a minimum overall cumulative grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of 100- and 200-level courses and prerequisite courses and complete a minimum of six hours in upper-level courses in the minor requirement through courses offered by Old Dominion University.

Minor

Health and Wellness Minor

J. Kyle Davis, Health and Wellness Minor Coordinator
1005 Student Recreation Center
757 683-4754
jkdavis@odu.edu

The Health and Wellness interdisciplinary minor explores personal involvement in and commitment to health and wellness and the factors that influence the health status of individuals and society. This interdisciplinary minor fosters an appreciation for personal responsibility for health and strategies to enhance and preserve the individual's and the public's health. Societal health and the factors that impact on the health and wellness of a community and the individual's role in health policy are examined. Students gain an awareness of the cultural, psychological, sociological and ethical issues affecting and effected by the health and wellness of individuals and the society in which they live.

Requirements

Select four courses from the following (chosen from at least two disciplines with a maximum of six credit hours from any one discipline):

HLSC 425	Health Aspects of Aging
HLSC 465	Policy and Politics of Health
CRJS 401	Understanding Violence
CRJS/SOC 421	Deviant Behavior
CRJS/SOC 427	Gender-Based Violence
CRJS/SOC 441	Drugs and Society
EXSC 403	Lifetime Fitness and Wellness
EXSC 408	Nutrition for Fitness and Sport
EXSC 415	Exercise Testing for Normal and Special Populations

EXSC 431W	Wellness Programming and Administration
HLSC 405	Interprofessional Study Abroad on Global Health
HPE 317	Human Growth & Motor Development
HPE 400	Management Skills for Teaching Health and Physical Education
HPE 402	Methods and Materials in Health Education
HPE 409	Physiology of Exercise
HPE 430	Nutrition and Fitness Education
HMSV 341	Introduction to Human Services
HMSV 491	Family Guidance
PHIL 345E	Bioethics
PSYC 306	Health Psychology
PSYC 325	Drugs and Behavior
PSYC 351	Child Psychology
PSYC 353	The Psychology of Adulthood and Aging
PSYC 363	Psychology of Sex
PSYC 405	Psychopathology
PSYC 408	Theories of Personality
PSYC 410	Human Cognition
PSYC 420	Cross-Cultural Psychology
PSYC 424	Physiological Psychology
PSYC 460	Psychology of African Americans
SOC 440	Health, Illness, and Society
SPED 313	Fundamentals of Human Growth and Development: Birth through Adolescence
PUBH 360	Introduction to Global Health

The interdisciplinary minor in Health and Wellness requires 12 credit hours of 300/400-level courses selected from at least two different disciplines with a maximum of six credits from any one discipline. For completion of the interdisciplinary minor, students must have a minimum overall cumulative grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of lower-level courses and prerequisite courses. At least six hours of upper-level courses must be taken through courses offered by Old Dominion University. Three credit hours may be in the major, if a major course is listed as an option for the interdisciplinary minor. As such, it will be credited toward both the major and the interdisciplinary minor.

Medical Diagnostic & Translational Sciences

Web Site: <http://www.odu.edu/mdts> (<http://www.odu.edu/mdts/>)

Harold Riethman, Chair

The School of Medical Diagnostic and Translational Sciences offers a coordinated program of courses and clinical experiences leading to degrees of Bachelor of Science in Medical Laboratory Science and Bachelor of Science in Nuclear Medicine Technology and a post-baccalaureate certificate in cytotechnology. Students may also pursue a major in cytology through the Bachelor of Science in Medical Laboratory Science degree program.

In addition, the School offers a minor in medical laboratory science and a degree completion program for certified medical laboratory technicians (MLT) pursuing a baccalaureate degree. For those seeking a graduate certificate in molecular diagnostics, as well as the Master of Science in Molecular Diagnostics and Precision Medicine, please refer to the ODU Graduate Catalog.

Programs

Bachelor of Science in Medical Laboratory Science Program

- Medical Laboratory Science (BSMLS) (p. 637)
- Medical Laboratory Science Degree Completion Major (BSMLS) (p. 639)
- Medical Laboratory Science with a Major in Cytology (BSMLS) (p. 641)

Bachelor of Science in Nuclear Medicine Technology Program

- Nuclear Medicine Technology (BSNMT) (p. 643)

Minor Program

- Medical Laboratory Science Minor (p. 641)

Bachelor of Science in Medical Laboratory Science (BSMLS)

Bachelor of Science in Medical Laboratory Science

Program Director:
Rachel Childs, M.S., MLS(ASCP)^{CM}
Ellmer College of Health Sciences
4608 Hampton Blvd, Rm 2126 (Hampton Hall)
Phone: 757-683-3016
E-mail: rchilds@odu.edu (rchilds@odu.edu)
([rchilds@odu.edu757-683-6039](tel:757-683-6039))

The medical laboratory scientist plays a vital role in the diagnosis and treatment of disease by performing clinical laboratory tests on patients' blood, body fluids, and other specimens. This includes clinical tests within the areas of chemistry, microbiology, hematology, immunology/serology, urinalysis, immunohematology (blood banking), and molecular pathology.

The program has been continually accredited by the National Accrediting Agency for Clinical Laboratory Sciences, 5600 N River Road, Suite 720, Rosemont, IL 60018, 773 714-8880. Due to accreditation, upon successful completion of the program graduates are eligible to take the national certification exam for Medical Laboratory Scientist, administered by the American Society for Clinical Pathology, MLS(ASCP).

Admission

Admission to the University does not constitute admission to the medical laboratory science program. Students are admitted to the program after completion of two years of college study, which includes all program prerequisite courses. All program prerequisite courses must be completed with a grade of C (2.00) or better. Additionally, applicants must be in good academic standing (cumulative GPA 2.0 or greater). The students then enter two years of a combined didactic and clinical phase congruent with the 2 + 2 concept. A grade of C (2.00) or better is required in all medical laboratory science course work for continuance in the program. The program does not offer just the final clinical phase to transfer applicants from 3 + 1 programs. Applications to the program, including all materials, must be submitted no later than February 1 for consideration for admission the following fall. Exemptions may be appealed only through the program director. Prospective students who fail to meet the February 1 deadline for formal admission may be allowed to take on-campus medical laboratory science/medical

technology courses on a space-available basis. Permission must be first granted by the program director in advance of registration.

Requirements

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6
Oral Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#oral)	3

Human Creativity (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#creativity)	3
Interpreting the Past (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#interpret)	3
Literature (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#literature)	3
Philosophy and Ethics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#philosophy)	3
The Nature of Science (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#nature)	8
Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

Written Communication: grade of C or better required in both courses

Mathematics: satisfied through departmental requirements

Nature of Science: satisfied through departmental requirements

Oral Communication: satisfied through major course requirements

Philosophy and Ethics: PHIL 345E Bioethics preferred; 300/400 level P or E course meets upper-division general education/Option D

Impact of Technology: 300/400 level preferred; any 300/400 level T course EXCEPT DNTH 440T meets upper-division general education/Option D

Upper-Division General Education

- Option A. Approved Disciplinary Minor, 12 hours minimum; also second degree or second major.
- Option B. Interdisciplinary Minor (specifically 12 hours, 3 of which may be in the major)
- Option C. An approved Certification Program such as teaching licensure
- Option D. Two Upper-Division Courses from outside the College of Health Sciences and not required by the major (6 hours)

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.

- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Departmental Requirements

Students must complete the following courses with a C or better prior to entering the Medical Laboratory Science/Medical Technology program:

STAT 130M	Elementary Statistics	3
MATH 102M	College Algebra	3
or MATH 103M	College Algebra with Supplemental Instruction	
BIOL 121N & BIOL 122N	General Biology I and General Biology I Lab	4
CHEM 121N & CHEM 122N	Foundations of Chemistry I Lecture and Foundations of Chemistry I Laboratory	4
CHEM 123N & CHEM 124N	Foundations of Chemistry II Lecture and Foundations of Chemistry II Laboratory	4
CHEM 211 & CHEM 212	Organic Chemistry I Lecture and Organic Chemistry I Laboratory	5
BIOL 250	Human Anatomy and Physiology I	4
BIOL 251	Human Anatomy and Physiology II	4

MLS 403W	Management in the Clinical Setting	3
MLS 457	Medical Laboratory Science Seminar	1
Clinical Practica 4-5 credits from fourth year spring semester or elective		
Credit Hours		13
Total Credit Hours		63

Notes: Junior year core courses that are over three years old prior to starting a rotation (practicum course) must be reevaluated by the faculty member at ODU in charge of the specialty, in both theoretical knowledge and technical skills. Reevaluation may result in the need to repeat and/or audit out-of-date courses. This applies to both part-time and returning students.

Following the completion of MLS 420 Blood Collection Techniques, a 2-credit optional, limited enrollment Phlebotomy Internship, MLS 468 is available. Successful completion of both: MLS 420 and MLS 468 satisfies the requirements for Phlebotomy Certification from the American Society for Clinical Pathology, PBT(ASCP). Both classes are also available at graduate level as MLS 520 and MLS 568. Graduate students interested in these classes must contact the MLS Program Director for permission to enroll.

Degree Program Guide

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

Bachelor of Science in Medical Laboratory Science Medical Laboratory Science Degree Completion Major (BSMLS)

The Bachelor of Science in Medical Laboratory Science degree completion program (previously medical technology) is available for graduates of accredited associate degree university, hospital-based, or military Medical Laboratory Technician (MLT) programs. MLT certification is required for admission. The curriculum is designed to meet the needs

of both local and non-local practitioners. Program courses are delivered online to accommodate the schedules of working students. ODUGlobal enrollment coordinators for health sciences programs may be reached at healthsciencesonline@odu.edu (%20healthsciencesonline@odu.edu).

Admission to the University does not constitute admission to the medical laboratory science degree completion program. All program prerequisite courses must be completed with a grade of C (2.00) or better. Additionally, applicants must be in good academic standing (cumulative GPA 2.0 or greater).

For consultation and evaluation of eligibility for the degree completion program, contact MLS Program Director:

Rachel Childs, M.S., MLS(ASCP)^{CM}
Ellmer College of Health Sciences
4608 Hampton Blvd, Rm 2126 (Hampton Hall)

Elective Credit

Elective credit may be needed to meet the minimum 120 credit hours required for the degree.

Minor

Medical Laboratory Science Minor

A minor in medical laboratory science requires a minimum of 12 semester hours of 300/400-level MLS courses. Students may choose courses from a specific laboratory science discipline (hematology, microbiology, clinical chemistry, and immunohematology) or from several disciplines. All prerequisite courses must be completed. Selection of a plan or program of study must be done in consultation with the program director. For completion of the minor, all program prerequisite courses must be completed with a grade of C (2.00) or better and a minimum of six hours in upper-level courses in the minor requirement must be taken through courses offered by Old Dominion University. Substitutes of non-MLS courses require the permission of the program director. Completion of the minor does not confer eligibility to take national certification examinations.

Bachelor of Science in Medical Laboratory Science Medical Laboratory Science with a Major in Cytology (BSMLS)

<https://www.odu.edu/medical-diagnostic-translational-sciences/cytology>
[\(https://www.odu.edu/medical-diagnostic-translational-sciences/cytology/\)](https://www.odu.edu/medical-diagnostic-translational-sciences/cytology/)

Deborah Krzyzaniak, M.S., C.T.(ASCP), S.C.T.(ASCP) Program Director

The School of Medical Diagnostic and Translational Sciences offers a major in cytology through the Bachelor of Science in Medical Laboratory Sciences (BSMLS). The program offers a first and second degree option as well as a post-baccalaureate certificate option.

Cytologists are specially trained medical laboratory professionals who work with pathologists in detecting changes in cell samples from numerous body sites which allows the early diagnosis of cancer. This is done primarily with the use of the microscope to evaluate slide preparation of cell samples for abnormalities in structure, indicating cancer, precancerous lesions, benign tumors, infectious agents and inflammatory processes. They are also trained in specimen preparation, molecular, FISH, flow cytometry techniques, and fine needle aspiration cytology.

The program of study is accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP), 9355 113th Street, N.W. Seminole, FL. 33775; phone: 727-210-2350; e-mail: mail@caahep.org; website: www.caahep.org (<http://www.caahep.org>), in association with the American Society of Cytopathology (ASC).

Theory is reinforced through an integrated clinical phase that allows the student direct experience in a hospital or lab setting providing additional training in screening techniques and diagnostic procedures. Students are required to obtain a minimum grade of 70 percent or C in all didactic coursework. Clinical coursework requires a minimum passing grade of 80, 85 and 90 percent during the first, second and third internship, respectively.

Graduates are eligible to sit for the national board exam given by the ASCP (American Society of Clinical Pathology) upon successful completion of the program.

Application to the cytology program must be submitted by February 15. Competitive applicants should have an overall GPA of 2.8 or higher.

Requirements

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6

Written Communication Skills: Grade of C or better required in both courses

Oral Communication: Met in the major with CYTO 424 and CYTO 497.

Mathematics: MATH 102M or MATH 103M

Information Literacy and Research: HLTH 120G preferred

Nature of Science: BIOL 121N & BIOL 122N, BIOL 123N & BIOL 124N

Philosophy and Ethics: PHIL 345E recommended; 300/400 level P or E course meets upper division general education/Option D

Impact of Technology: HIST 304T preferred but any 300/400 level T course EXCEPT DNTH 440T meets upper-division general education/Option D

Upper-Division General Education

- Option A. Approved Disciplinary Minor, 12 hours minimum; also second degree or second major.
- Option B. Interdisciplinary Minor (specifically 12 hours, 3 of which may be in the major)
- Option C. An approved Certification Program such as teaching licensure
- Option D. Two Upper-Division Courses from outside the College of Health Sciences and not required by the major (6 hours)

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.

- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Departmental Requirements

BIOL 121N	General Biology I	3
BIOL 122N	General Biology I Lab	1
BIOL 123N	General Biology II	3
BIOL 124N	General Biology II Lab	1
CHEM 105N	Introductory Chemistry	3
or CHEM 121N	Foundations of Chemistry I Lecture	
CHEM 106N	Introductory Chemistry Laboratory	1
or CHEM 122N	Foundations of Chemistry I Laboratory	
CHEM 107N	Introductory Organic and Biochemistry	3
or CHEM 123N	Foundations of Chemistry II Lecture	
CHEM 108N	Introductory Organic and Biochemistry Laboratory	1
or CHEM 124N	Foundations of Chemistry II Laboratory	
BIOL 240	Fundamentals of Anatomy and Physiology I	4
or BIOL 250	Human Anatomy and Physiology I	
BIOL 241	Fundamentals of Anatomy and Physiology II	4
or BIOL 251	Human Anatomy and Physiology II	
BIOL 150	Introductory Microbiology	3
BIOL 151	Introductory Microbiology Laboratory	1
Total Credit Hours		28

Students must complete the following courses prior to entering the cytology program: BIOL 121N/BIOL 122N, BIOL 123N/BIOL 124N, BIOL 240 or BIOL 250, BIOL 241 or BIOL 251, CHEM 105N/CHEM 106N or CHEM 121N/CHEM 122N, CHEM 107N/CHEM 108N or CHEM 123N/CHEM 124N, and BIOL 150/BIOL 151.

Cytology Major

General Education

Complete lower-division requirements	30-36
Complete upper-division requirements	0-6

Departmental Requirements

Complete departmental requirements	28

First Semester

CYTO 404	General Pathology	3
CYTO 407	Clinical Histology (Strongly Recommended)	3
MDTS 401	Molecular Diagnostics Laboratory	3
MLS 403W	Management in the Clinical Setting *	3
MLS 310	Urinalysis and Body Fluids (may be taken earlier-see Degree Program Guide)	1

Second Semester

CYTO 403	Gynecological Screening Laboratory	3
CYTO 405	Normal Gynecological Cytology	3
CYTO 415	Abnormal Gynecological Cytology	4
CYTO 430	Cytopreparation & Ancillary Techniques	4
CYTO 444	Genitourinary Cytology	2
CYTO 445	Breast Cytology	2

Third Semester

CYTO 424	Respiratory Cytology	4
CYTO 446	Body Fluids Cytology	3
CYTO 448	Non-Epithelial Cytology	1
CYTO 468	Cytology Internship II	4
CYTO 442	Gastro-Intestinal Cytology	2
CYTO 458	Cytology Internship I	3

Fourth Semester

CYTO 456	Fine Needle Aspiration Cytology I	3
CYTO 457	Fine Needle Aspiration Cytology II	3
CYTO 478	Cytology Internship III	8
CYTO 497	Cytology Senior Seminar	1
CYTO 499	Comprehensive Cytology Review	1

Total Credit Hours	122-134

* C or better required to meet the University Writing Requirement.

Second Degree

A second degree in Medical Laboratory Sciences (BSMLS, Cytology) is available to students who have a Bachelor's degree, with a minimum of 20 credit hours in biology and eight credit hours in chemistry. A minimum GPA of 2.8 is required. The curriculum for the second degree mirrors the requirements for the first degree.

Post-Baccalaureate Certificate Option

A certificate in Cytology is available to students who have a Bachelor's degree, with a minimum of 20 hours of biology and eight hours of chemistry. The certificate in Cytology requires 61-64 credit hours and a minimum GPA of 2.8. Courses included in the certificate mirror the Cytology major requirements.

Degree Program Guide

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

Bachelor of Science in Nuclear Medicine Technology

Nuclear Medicine Technology (BSNMT)

<http://www.odu.edu/mdts/nuclear-medicine> (<http://www.odu.edu/mdts/nuclear-medicine/>)

Sara M. Maynard, Program Director
smaynard@odu.edu
2128 Health Sciences Building
757 683-4702

Nuclear medicine technology is the medical specialty that utilizes sealed and unsealed radioactive materials in the diagnosis and treatment of disease. The nuclear medicine technology program at Old Dominion University is designed to prepare individuals as entry-level nuclear medicine technologists. Upon successful completion of the program, graduates are eligible to sit for a national exam for certification as a nuclear medicine technologist.

Nuclear medicine technologists are allied health professionals certified in nuclear medicine technology who, under the direction of an authorized physician user, are committed to applying the art and skill of diagnostic and therapeutic nuclear medicine procedures through the safe and effective use of radionuclides. Responsibilities include but are not limited to: direct patient contact, the preparation and administration of radiopharmaceuticals, patient imaging procedures including computer processing, laboratory testing, patient preparation, quality control and radiation safety. Nuclear medicine technologists can be employed in hospitals and imaging centers.

The program is accredited by the Joint Review Committee on Educational Programs in Nuclear Medicine Technology.

Admission

All admission materials must be received by October 15. Interviews are then scheduled for early November. All applicants must be in good academic standing (cumulative GPA of 2.0 or greater).

Continuance Policy

1. A grade of C (2.00) or better is required in all NMED courses to continue in the nuclear medicine technology program.
2. A cumulative grade point average of 2.00 or better is required to continue in the nuclear medicine technology program.
3. A nuclear medicine technology student who leaves the major must apply for readmission to the major.
4. A nuclear medicine technology student who fails a nuclear medicine technology course and is readmitted to the program is allowed to repeat the failed course only once.
5. A student who leaves the major and is readmitted may be required to take additional course work prior to or concurrent with readmission at the discretion of the Program Director.

- A student may be readmitted to the nuclear medicine technology major only once.
- A student seeking readmission to a clinical course is responsible for securing an approved clinical site. Preference for clinical space is always given to currently enrolled students and is at the discretion of the NMED Program Director and Program Clinical Coordinators and in alignment with the Joint Review Committee on Educational Programs in Nuclear Medicine Technology policies.

Note: Policies and procedures are outlined in more detail in the School of Medical Diagnostic & Translational Sciences Nuclear Medicine Technology Program Student Handbook Program Policies. All students accepted into the Nuclear Medicine Technology major are responsible for familiarizing themselves with this handbook upon entry into the major.

Requirements

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6
Oral Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#oral)	3
Mathematics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#math)	3
Language and Culture (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#language)	0-6
Information Literacy and Research (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#information)	3
Human Behavior (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#behavior)	3
Human Creativity (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#creativity)	3
Interpreting the Past (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#interpret)	3

Philosophy and Ethics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#philosophy)	3
The Nature of Science (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#nature)	8
Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

Written Communication: grade of C or better required in both courses

Mathematics: STAT 130M and MATH 102M or MATH 103M

Philosophy and Ethics: PHIL 345E preferred; 300/400 level P or E course meets upper division general education/Option D

Nature of Science: CHEM 105N and CHEM 106N, CHEM 107N and CHEM 108N, and PHYS 101N and PHYS 102N

Impact of Technology: HIST 304T preferred but any 300/400 level T course EXCEPT DNTH 440T meets upper-division general education/Option D

Upper-Division General Education

- Option A. Approved Disciplinary Minor, 12 hours minimum; also second degree or second major.
- Option B. Interdisciplinary Minor (specifically 12 hours, 3 of which may be in the major)
- Option C. An approved Certification Program such as teaching licensure
- Option D. Two Upper-Division Courses from outside the College of Health Sciences and not required by the major (6 hours)

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

A variety of clinical facilities in the Hampton Roads area are utilized for clinical education experiences. Students are responsible for providing their own transportation to these sites. Students must meet established programmatic technical standards.

Departmental Requirements

BIOL 240	Fundamentals of Anatomy and Physiology I	4
or BIOL 250	Human Anatomy and Physiology I	
BIOL 241	Fundamentals of Anatomy and Physiology II	4
or BIOL 251	Human Anatomy and Physiology II	
Total Credit Hours		8

Students must complete the following courses (or equivalent) prior to entering the nuclear medicine technology program: BIOL 240 or BIOL 250 and BIOL 241 or BIOL 251, CHEM 105N, CHEM 106N, CHEM 107N and CHEM 108N, PHYS 101N and PHYS 102N, and MATH 102M and STAT 130M.

Speech-Language Pathology

School of Speech-Language Pathology
Dr. Stacie Raymer, Chair
Dr. Rachel Johnson, Undergraduate Program Director

The School of Speech-Language Pathology offers undergraduate and graduate degrees that prepare professionals to address communication and swallowing disorders and differences that disrupt learning, health, and quality of life for people across the lifespan. As stipulated by our accreditation status, the degrees are offered primarily in face-to-face format. The bachelor's degree offers elective opportunities for early clinical experiences in preparation for master's degree programs in speech-language pathology (offered at Old Dominion University) or clinical doctoral programs in audiology (offered at other universities) where students become licensed and certified for clinical practice.

Programs

Bachelor of Science Program

- Speech-Language Pathology and Audiology (BS) (p. 646)

Minor Program

- Speech-Language Pathology and Audiology Minor (p. 648)

Bachelor of Science Speech-Language Pathology and Audiology (BS)

Dr. Rachel Johnson, Undergraduate Program Director

The Bachelor of Science program in Speech-Language Pathology and Audiology is designed to provide students with the academic experiences needed to understand normal processes involved in speech, language, swallowing, and hearing abilities, and to identify communication and swallowing disorders and differences. Classes also introduce students to clinical procedures for assessment and treatment of communication and swallowing disorders and differences. The minimum number of hours required for the degree is 120 credits. The bachelor's-level students are not eligible for employment as a licensed speech-language pathologist or audiologist in any professional setting. Therefore, the undergraduate program at Old Dominion University serves as a feeder program for students to apply to the graduate program in speech-language pathology where licensure and certification standards will be met. Also, the undergraduate degree prepares students to apply to graduate audiology programs that are offered at other universities and other professional graduate programs. For students who are not committed to pursuing graduate school options, the undergraduate program at Old Dominion University prepares students to pursue national certification as a speech-language pathology assistant.

Admission and Continuance Requirements

Admission

To officially declare a major in Speech-Language Pathology & Audiology, requirements are as follows:

1. Students must have completed at least one year of coursework at ODU with an overall grade point average of at least 2.50; Transfer students must have completed at least one semester of course work at ODU with an overall grade point average of at least 2.50.
2. Students must have completed the following courses: ENGL 110C (C or higher), Mathematical Skills (STAT 130M preferred), Human Behavior (PSYC 201S or SOC 201S preferred), 8 credits of BIOL and CHEM or PHYS Nature of Science requirements, and CSD 350 (C- or higher).
3. Students must have an interview with a program advisor.
4. Students who have met all Speech-Language Pathology & Audiology major admission requirements will be referred by their advisor in the Health Sciences Advising Center to the Speech-Language Pathology & Audiology Undergraduate Program Director for major declaration

and assignment to a program advisor. For additional information on the curriculum or major declaration requirements, please contact: Program Director (r1johnson@odu.edu) or the College of Health Sciences Advising Center (hsadvising@odu.edu) (hsadvising@odu.edu).

Continuance

A cumulative grade point average of 2.50 in all major courses is required for continuing status. Grades below C- in major courses must be retaken to attain a grade of C- or higher. A grade of C or better is required in CSD 449W in order to meet the ODU undergraduate writing requirement.

Requirements

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6
Oral Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#oral)	3
Mathematics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#math)	3

Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

Written Communication Skills: C or better required in both courses.

Mathematical Skills: STAT 130M recommended

The Nature of Science: To meet national certification requirements, students must complete one course in biological sciences selected from BIOL 105N, BIOL 106N, BIOL 110N/BIOL 111N, BIOL 117N/BIOL 118N, BIOL 121N/BIOL 122N and one course in either chemistry or physics selected from CHEM 105N/CHEM 106N, CHEM 121N/CHEM 122N, PHYS 101N, PHYS 111N, PHYS 231N.

Human Behavior: To meet national certification requirements, students must complete either PSYC 201S or SOC 201S.

Upper-Division General Education

- Option A: Approved Disciplinary Minor (a minimum of 12 hours determined by the department), or second degree or second major
- Option B: Interdisciplinary Minor (specifically 12 hours, 3 of which may be in the major)
- Option C: An approved Certification Program such as teaching licensure
- Option D: Upper-Division courses (totaling 6 hours) from outside the College of Health Sciences and not required by the major

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.

- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of 2.50 in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Total Credit Hours 101-107

Major courses in which a grade below C- was earned must be repeated to attain a grade of C- or higher. A grade of C or better must be earned in CSD 449W.

Elective Credit

Elective credit may be needed to meet the requirement of 120 credit hours.

Additional Requirements and Information

Admission, Continuance and Exit Requirements

Admission

Requirements are as follows:

1. Students must have completed one year of course work with an overall grade point average of at least 2.50.
2. Students must have an interview with a program advisor.

Continuance

A cumulative grade point average of 2.50 in all major courses is required for continuing status. Grades below C- in major courses must be retaken to attain a grade of C- or higher. A grade of C or better is required in CSD 449W in order to meet the ODU undergraduate writing requirement.

Exit

Undergraduate majors must have satisfied University and program requirements, complete ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better, and have a grade point average of at least 2.50 in all major courses and at least 2.0 overall.

Degree Program Guide

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

Minor Speech-Language Pathology and Audiology Minor

To declare your major, please contact the Undergraduate Program Director, Dr. Rachel Johnson.

Requirements

CSD 350	Survey in Communication Disorders	3
CSD 460	Hearing Disorders and Basic Audiometry	3
Electives		
Select four of the following:		12
CSD 451	Introduction to Speech Sound Disorders	
CSD 452	Introduction to Voice and Fluency Disorders	
CSD 453	Speech and Language Development	
CSD 458	Speech and Hearing Science	
CSD 461	Aural Rehabilitation I	
Total Credit Hours		18

For completion of a minor, a student must have a minimum overall cumulative grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of prerequisite courses and complete a minimum of six hours in upper-level courses in the minor requirement through courses offered by Old Dominion University.

Ellmer School of Nursing

<http://www.odu.edu/nursing> (<http://www.odu.edu/nursing/>)

Rene Love, Dean, Ellmer School of Nursing
Lynn Wiles, Undergraduate Program Director
lwiles@odu.edu

The Ellmer School of Nursing offers programs leading to the degrees of Bachelor of Science in Nursing, Master of Science in Nursing and Doctor of Nursing Practice.

The Ellmer School of Nursing **pre-licensure** undergraduate curriculum admits a cohort of students each fall semester. This is a full-time program where all nursing courses are completed in five consecutive semesters (fall, spring, summer, fall, spring). Upon completion of the program, graduates are eligible to take the national licensure exam (NCLEX) to become registered nurses.

The curriculum incorporates current recommendations for undergraduate nursing education and is designed to get graduates into the workforce and enrolled in graduate nursing programs more quickly. There are 66 upper-division credit hours in the nursing curriculum and the number of total credits required to graduate with a Bachelor of Science in Nursing is 120. Students applying to the pre-licensure curriculum are required to have all lower-division departmental and general education courses fully completed before admission to the nursing major; there are no exceptions to this requirement. The minimum GPA for admission to the pre-licensure program is 3.00.

The Ellmer School of Nursing **concurrent and post-licensure** undergraduate curriculum admits a cohort of students each semester. The RN to BSN and Concurrent curriculum is offered using a year-round schedule with part-time and full-time options. The **Linked BSN to MSN** program is designed for associate degree prepared Registered Nurses who are pursuing MSN degrees in Advanced Practice Nursing Roles. The program allows select students, working closely with faculty advisors, to complete graduate coursework while they are still undergraduates.

Post-licensure students are already registered nurses who are returning to complete their BSN degree.

Concurrent students are enrolled in an associate degree nursing program (AAS/ADN) and desire to take BSN courses concurrently. Concurrent students typically take one-two RN-BSN courses in addition to their courses at their pre-licensure program.

Linked BSN to MSN students can count up to 9 credit hours of graduate nursing coursework toward both their undergraduate and master's degrees in nursing. Students in the linked program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

For additional information on the curriculum or admission requirements, please contact:

- Chief Academic Advisor for the Undergraduate Nursing Program, Suzanne Van Orden, svanorde@odu.edu

Programs

Bachelor of Science in Nursing Programs

- Nursing - Concurrent Program (BSN) (p. 649)
- Nursing Post-Licensure Major (BSN) (p. 652)
- Nursing Pre-Licensure Major (BSN) (p. 654)

Linked BSN to MSN

The linked BSN (Bachelor of Science in Nursing) to MSN (Master of Science in Nursing) is designed for well-qualified students seeking an efficient pathway to an MSN degree in Advanced Practice Nursing Roles. Up to 9 credits of graduate coursework may be counted toward both the undergraduate and master's degrees in nursing. This program allows for

select post-licensure students, working closely with faculty advisors, to complete graduate coursework while they are still undergraduates.

Admission Requirements

Applicants will apply to the RN/BSN to MSN option by May 1st of each year and must meet all current requirements for admission to the Nursing Post-licensure Major (BSN) program as currently outlined in catalog. Further, applicants must meet all current requirements for admission to the MSN as currently stated in the catalog with the exception of the requirement for completion of a Baccalaureate degree in nursing or related science field.

Admission Procedures

Students who meet the admission requirements should consult with the graduate program director to discuss their eligibility and to establish a proposed plan of study for graduate courses to be taken as an undergraduate. Students must first apply and be accepted to the Nursing Post-licensure Major (BSN) program. Once accepted, students will work directly with the Graduate Program Director to be considered for admission to the Linked BSN to MSN program. The application to the Linked BSN to MSN will include three letters of recommendation, with at least one from a former faculty member and at least one from a former employer while in the RN role and a 500-700 word essay that addresses the applicant's goals and reasons for seeking certification as an advanced practice nurse. Some MSN tracks may have additional requirements.

Requirements for the Linked BSN to MSN Program

Students accepted into this curriculum may use nine graduate credits to count toward both the BSN and MSN degrees as follows:

- NURS 709 to meet BSN NURS 363 and MSN core
- NURS 771 to meet BSN NURS 305 and MSN core
- NURS 800 to meet required BSN NURS ELECTIVE and MSN core

To continue in the BSN to MSN curriculum, a student must earn a grade of B or above in each graduate-level course. A student who earns a grade of B- or C+ in a graduate course will not be able to continue in the MSN curriculum as an undergraduate student, but will be allowed to count that graduate course toward the BSN degree requirements. A student who earns a grade of C or below in a graduate course will not be allowed to continue in the MSN curriculum as an undergraduate student, and will be required to take the corresponding undergraduate course to complete the BSN degree requirements.

Students must earn a minimum of 120 credits for the undergraduate degree. The 9 credits listed above of graduate level course work would count toward the 120 credits and toward the MSN degree. Further, students must complete all required credits for the MSN concentration sought as currently listed in the catalog for the concentration.

Bachelor of Science in Nursing Nursing - Concurrent Program (BSN)

Bachelor of Science in Nursing

Lynn Wiles, Undergraduate Program Director
Suzanne Van Orden, Chief Academic Advisor

Concurrent Enrollment Option

The concurrent enrollment option presents an opportunity for individuals to obtain a BSN in a timely manner while remaining in their local community completing their AAS/ADN courses. Students who are enrolled in an AAS/ADN program typically take 1-2 ODU RN-BSN courses each semester in addition to their courses. As part of ODUglobal, the ODU nursing courses are offered in an on-line program of study.

The concurrent scheduling option is for students who have completed all lower-division departmental and general education courses for the BSN and are enrolled in an RN program at a partner institution. Advisors work with students to develop an individual plan of study to fulfill the

requirements. Following graduation from the AAS/ADN program and successful completion of the NCLEX RN licensure exam, the student will be awarded 33 nursing transfer credits toward completion of the Bachelor of Science in Nursing degree. Fall, Spring and Summer enrollment is available.

The Concurrent Enrollment option contributes to the BSN prepared workforce as well as prepares RNs for graduate programs by creating a seamless progression from the AAS to the BSN. Graduates of the baccalaureate program in professional nursing are generalists prepared to care for culturally diverse individuals and groups across the lifespan in a complex global community. Upon completion of the innovative, technology-enhanced program, graduates are knowledgeable about current trends in health care, assume responsibility for their professional growth, and are prepared for graduate study in nursing. The program is fully accredited by the Commission on Collegiate Nursing Education (CCNE) and approved by the Virginia State Board of Nursing.

The BSN is awarded upon successful completion of the following:

1. The Associate Degree in Nursing program
2. Passing NCLEX
3. Completion of BSN coursework

Admission

Admission to the School of Nursing is a competitive process. Applicants for admission to the baccalaureate program in nursing should apply initially to the Office of Admissions of Old Dominion University to seek admission to the University. Admission to the University does not constitute admission to the School of Nursing.

Applicants for admission to the undergraduate nursing program must complete prerequisite courses with a grade of “C” or better prior to being admitted to the School of Nursing. Transfer students may complete the prerequisite courses at another college or university but are responsible for having a transfer credit evaluation completed by the transfer evaluation unit in the Office of Admissions to determine that transfer courses are equivalent and acceptable to University requirements.

Applicants must complete a School of Nursing Supplemental Application to be considered for admission to the undergraduate nursing program. The School of Nursing Supplemental Application may be obtained directly from the School of Nursing Academic Advising Office or the School of Nursing website: <https://www.odu.edu/nursing> (<https://www.odu.edu/nursing/>)

In summary the applicant must:

1. Apply and be admitted to the University as a degree-seeking undergraduate student.
2. Submit a School of Nursing Supplemental Application directly to the School of Nursing with photocopies of all previous college transcripts attached. Submit all items in the same envelope. Do not mail transcripts in separate envelopes to the School of Nursing.
3. Have a transfer of credit evaluation completed by the transfer evaluation unit in the Office of Admissions.
4. Letter of admission and/or current enrollment in an associate degree program.

Transfer of Nursing Credits

Concurrent and RN-BSN students seeking to transfer NURSING credits from another NLNAC or CCNE accredited BSN program must submit photocopies of all nursing course syllabi for which they desire transfer credit approval. The School of Nursing Admission's Committee and nursing faculty will review the transfer course content for comparability with ODU nursing courses and determine if advanced placement in the BSN curriculum is appropriate.

Because of the dynamic nature of the nursing profession, currency of both nursing content and clinical skills is essential. Patient safety is of critical concern and is compromised when a student has out-of-date knowledge and/or less than competent nursing care skills. Transfer of nursing credits into the BSN curriculum may be affected if there has been a lapse of time greater

than one year since previous nursing enrollment or by availability of clinical placements.

Continuance Policies

1. The student must be in good standing / currently enrolled in their ADN program.
2. A grade of C (2.00) or better is required in all nursing courses to continue in the nursing program.
3. An average of 80% or better on objective tests within a nursing course is required to earn a grade of C (2.00). A student who earns an average less than 80% on objective tests for a nursing course is awarded a grade of D or F and will not be considered in good academic standing in the major.
4. A cumulative grade point average of 2.00 or better is required to continue in the nursing program.
5. A nursing student who fails a course at ODU or in their ADN program will be dismissed from the concurrent program at ODU. Upon completion of the ADN, the student will be eligible to resume the post-licensure BSN curriculum.
6. A student who leaves the major and is readmitted may be required to take additional course work prior to or concurrent with readmission.

Note: Policies and procedures are outlined in more detail in the School of Nursing Student Handbook. All students accepted into the nursing major are responsible for familiarizing themselves with this handbook upon entry into the major.

Requirements

The concurrent curriculum is offered in both a full-time and part-time format. As part of ODU Global, courses are offered in an on-line program of study. Most students enroll on a part-time basis. Students may start the major in the fall, spring or summer semester.

Non-nursing courses must be completed with a grade of C (2.00) or better. (A grade of C- will not transfer to Old Dominion University.)

Upper-Division General Education

- Option A. Approved Minor, 12-24 hours; also second degree or second major.
- Option B. Interdisciplinary Minor, 12 hours specified by the department, 3 of which may be in the major area of study.
- Option C. An approved certification program such as teaching licensure
- Option D. Two Upper-Division Courses from outside the School of Nursing and not required by the major (6 hours)

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Bachelor of Science in Nursing Nursing Post-Licensure Major (BSN)

Bachelor of Science in Nursing

Lynn Wiles, Undergraduate Program Director
Suzanne Van Orden, Chief Academic Advisor

The post-licensure curriculum is designed for registered nurses who are returning to complete their BSN. The post-licensure curriculum is offered in both a full-time and part-time format. As part of ODUGlobal, courses are offered in an on-line program of study.

Graduates of the baccalaureate program in professional nursing are generalists prepared to care for culturally diverse individuals and groups across the lifespan in a complex global community. Upon completion of the innovative, technology-enhanced program, graduates are knowledgeable about current trends in health care, assume responsibility for their professional growth, and are prepared for graduate study in nursing. The program is fully accredited by the Commission on Collegiate Nursing Education (CCNE) and approved by the Virginia State Board of Nursing.

Admission

Admission to the School of Nursing is a competitive process. Applicants for admission to the baccalaureate program in nursing should apply initially to

the Office of Admissions of Old Dominion University to seek admission to the University. Admission to the University does not constitute admission to the School of Nursing.

Applicants for admission to the undergraduate nursing program must complete prerequisite courses with a grade of “C” or better prior to being admitted to the School of Nursing. Transfer students may complete the prerequisite courses at another college or university but are responsible for having a transfer credit evaluation completed by the transfer evaluation unit in the Office of Admissions to determine that transfer courses are equivalent and acceptable to University requirements.

Applicants must complete a School of Nursing Supplemental Application to be considered for admission to the undergraduate nursing program. The School of Nursing Supplemental Application may be obtained directly from the School of Nursing Academic Advising Office or the School of Nursing website: <https://www.odu.edu/nursing> (<https://www.odu.edu/nursing/>)

In summary the applicant must:

1. Apply and be admitted to the University as a degree-seeking undergraduate student.
2. Submit a School of Nursing Supplemental Application directly to the School of Nursing with photocopies of all previous college transcripts attached. Submit all items in the same envelope. Do not mail transcripts in separate envelopes to the School of Nursing.
3. Have a transfer of credit evaluation completed by the transfer evaluation unit in the Office of Admissions.
4. Have an unencumbered RN license.

Transfer of Nursing Credits

Concurrent and RN-BSN students seeking to transfer NURSING credits from another NLNAC or CCNE accredited BSN program must submit photocopies of all nursing course syllabi for which they desire transfer credit approval. The School of Nursing Admission's Committee and nursing faculty will review the transfer course content for comparability with ODU nursing courses and determine if advanced placement in the BSN curriculum is appropriate.

Because of the dynamic nature of the nursing profession, currency of both nursing content and clinical skills is essential. Patient safety is of critical concern and is compromised when a student has out-of-date knowledge and/or less than competent nursing care skills. Transfer of nursing credits into the BSN curriculum may be affected if there has been a lapse of time greater than one year since previous nursing enrollment or by availability of clinical placements.

Continuance Policies

1. A grade of C (2.00) or better is required in all nursing courses to continue in the nursing program.
2. An average of 80% or better on objective tests within a nursing course is required to earn a grade of C (2.00). A student who earns an average less than 80% on objective tests for a nursing course is awarded a grade of D or F and will not be considered in good academic standing in the major.
3. A cumulative grade point average of 2.00 or better is required to continue in the nursing program.
4. A nursing student who fails a nursing course and is readmitted to the nursing program is allowed to repeat the failed course only once.
5. A student who leaves the major and is readmitted may be required to take additional course work prior to or concurrent with readmission.
6. A student may be readmitted to the nursing major only once.

Note: Policies and procedures are outlined in more detail in the School of Nursing Student Handbook. All students accepted into the nursing major are responsible for familiarizing themselves with this handbook upon entry into the major.

Requirements

The post-licensure curriculum for registered nurses is offered in both a full-time and part-time format. As part of ODU Global, courses are offered in an

on-line program of study. Most students enroll on a part-time basis. Students may start the major in the fall, spring or summer semester.

Non-nursing courses must be completed with a grade of C (2.00) or better. (A grade of C- will not transfer to Old Dominion University.)

Bachelor of Science in Nursing

Lynn Wiles, Undergraduate Program Director
Suzanne Van Orden, Chief Academic Advisor

The pre-licensure baccalaureate curriculum is designed to accommodate the needs of students desiring to become registered nurses. The pre-licensure nursing curriculum admits a cohort of students each fall semester. This is a full-time program where all nursing courses are completed in five consecutive semesters (fall, spring, summer, fall, spring). Upon completion of the program, graduates are eligible to take the national licensure exam (NCLEX) to become registered nurses.

Graduates of the baccalaureate program in professional nursing are generalists prepared to care for culturally diverse individuals and groups across the lifespan in a complex global community. Upon completion of the innovative, technology-enhanced program, graduates are knowledgeable about current trends in health care, assume responsibility for their professional growth, and are prepared for graduate study in nursing. The program is fully accredited by the Commission on Collegiate Nursing Education (CCNE) and approved by the Virginia State Board of Nursing.

Intended Pre-licensure Nursing Students - Health Sciences Advising Center

Students who qualify for regular admission to the University and who intend to apply for admission to the pre-licensure nursing program are considered Intended Health Sciences students until admitted to nursing. They will be assigned an advisor in the Health Sciences Advising Center while completing general education and prerequisite requirements needed to apply to their intended major. Intended health sciences students receive individualized advising support designed to prepare them for success in their chosen health sciences major.

Contact:

3rd Floor New Health Sciences Building
1019 W. 41st Street

Regulations for Continuance as an Intended Pre-licensure Nursing Major

Students are eligible to continue as an Intended Nursing major as long as they meet both of the following:

1. Meet the continuance regulations of the University.
2. Make reasonable progress toward matriculation into the pre-licensure nursing major.

At the end of each semester (fall, spring, and summer), the Health Sciences Advising Center reviews the records of all students who do not meet minimum admissions requirements for their intended major (see admissions information in the specific program sections of the Catalog and on the website.) A student who has ceased reasonable progress toward admission into the pre-licensure nursing program will be notified in writing via the student's Old Dominion University e-mail address, in accordance with the Electronic Communication Policy for Official University Business.

Students identified as not making reasonable progress toward their intended degree program will be referred to an advisor in the Student Success Center and/or the Center for Major Exploration for assistance in selecting a new intended major.

Pre-licensure Nursing Program Admission

Acceptance to the University does not constitute or guarantee acceptance into the pre-licensure nursing major. A separate application must be submitted to be considered for acceptance into the pre-licensure nursing major. Application information, qualifications, deadlines, and advisors are listed in the specific program sections of the Catalog and on the website. Admission to the School of Nursing is a competitive process.

Students who wish to enter the pre-licensure nursing major must be admitted to ODU and submit a School of Nursing Supplemental Application by February 15. Late or incomplete pre-licensure applications will not be considered. The pre-licensure program admits students for the fall semester only. Students are notified by the program director of their acceptance and any other program specific requirements such as physicals, immunizations, technical standards, etc.

Continuance in the pre-licensure nursing major requires strong academic achievement, including successful demonstration of knowledge and use of practical and critical thinking skills in laboratory and in clinical rotations. Criminal background checks and routine drug screenings are requirements enforced by the School of Nursing's clinical partners. Any student deemed unacceptable for clinical rotation due to results from a criminal background check /drug screen will not be allowed to complete the program of study.

Applicants for admission to the undergraduate nursing program must complete prerequisite courses with a grade of "C" or better prior to being admitted to the School of Nursing. Transfer students may complete the prerequisite courses at another college or university but are responsible for having a transfer credit evaluation completed by the transfer evaluation unit in the Office of Admissions to determine that transfer courses are equivalent and acceptable to University requirements.

Applicants must complete a School of Nursing Supplemental Application to be considered for admission to the undergraduate nursing program. The School of Nursing Supplemental Application may be obtained directly from the School of Nursing Academic Advising Office or the School of Nursing website: <https://www.odu.edu/nursing> (<https://www.odu.edu/nursing/>)

In summary the applicant must:

1. Apply and be admitted to the University as a degree-seeking undergraduate student.
2. Submit a School of Nursing Supplemental Application directly to the School of Nursing with photocopies of all previous college transcripts

attached. Submit all items in the same envelope. Do not mail transcripts in separate envelopes to the School of Nursing.

3. A minimum of 30 credit hours that apply to the BSN must be completed before applying to the program. If admitted, all required lower-division departmental and general education courses must be completed prior to the enrollment date of the nursing curriculum.
4. Transfer students must have a transfer of credit evaluation completed by the transfer evaluation unit in the Office of Admissions.

The School of Nursing is committed to an equitable, inclusive, and diverse learning community. A balance of applicant experiences, attributes, and academic metrics is used to assess applicants. Academic metrics will be applied across the entire qualified candidate pool with the intent of creating a richly diverse student body. Pre-licensure applicant review considers the following criteria:

- Grade point average (GPA) of identified courses
- Pre-admissions aptitude testing (i.e., HESI)
- Measure of applicant experiences/attributes related to potential for success (i.e., work/volunteer experience, ODU prerequisites).
- Personal statements may be obtained through writing prompts and/or interviews.

Guaranteed Entry Program for High School Students

The nursing program offers a guaranteed entry program. This program is designed for highly qualified high school students who are committed to completing a Bachelor of Science in Nursing at Old Dominion University. Applicants must meet and maintain eligibility requirements as defined by the program. For more information, contact the pre-nursing advisor at 683-5137. <https://www.odu.edu/health-sciences-advising/health-sciences-pathways/special> (<https://www.odu.edu/health-sciences-advising/health-sciences-pathways/special/>)

General Pre-Licensure Policies

1. All pre-licensure students are required to have an initial physical exam completed and submitted by the first week of courses in the major.
2. Returning prelicensure students (second year, third year) must have an annual PPD and returning physical form completed and submitted by the first week of courses in the fall semester.
3. All prelicensure students must provide written documentation of Cardio-Pulmonary Resuscitation certification (professional level course) each year by the first week of courses in the semester.
4. Professional liability insurance is required for all clinical courses. The University covers this requirement for students enrolled in required clinical courses for the activities associated with those courses.
5. Due to the intimate nature of nursing practice with vulnerable populations, criminal background/sex offender status checks are required of all prelicensure students.
6. The School of Nursing technical standards and performance requirements are located on the School's website and student handbook.
7. The School of Nursing computer competency requirements are located on the School's website and student handbook.

Continuance Policies

1. A grade of C (2.00) or better is required in all nursing courses to continue in the nursing program.
2. An average of 80% or better on objective tests within a nursing course is required to earn a grade of C (2.00). A student who earns an average less than 80% on objective tests for a nursing course is awarded a grade of D or F and will not be considered in good academic standing in the major.
3. A nursing student who fails a nursing course and is readmitted to the nursing program is allowed to repeat the failed course only once.
4. A student who leaves the major and is readmitted may be required to take additional course work prior to or concurrent with readmission.
5. A student may be readmitted to the nursing major only once.

Note: Policies and procedures are outlined in more detail in the School of Nursing Student Handbook. All students accepted into the nursing major are responsible for familiarizing themselves with this handbook upon entry into the major.

Requirements

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6
Oral Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#oral)	3
Mathematics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#math)	3
Language and Culture (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#language)	0-6
Information Literacy and Research (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#information)	3
Human Behavior (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#behavior)	3
Human Creativity (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#creativity)	3
Interpreting the Past (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#interpret)	3
Literature (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#literature)	3
Philosophy and Ethics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#philosophy)	3
The Nature of Science (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#nature)	8
Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

Oral Communication requirement is met in the major

Information Literacy and Research requirement is met in the major

Mathematics: STAT 130M

Human Behavior: PSYC 203S and SOC 201S

Nature of Science: CHEM 105N, CHEM 106N, BIOL 150, BIOL 151, BIOL 240 or BIOL 250, BIOL 241 or BIOL 251

Impact of Technology: upper-division T course from outside the College of Health Sciences

Students must complete the entire curriculum of 120-126 credits (depending upon foreign language exemption) to meet degree requirements. Nursing courses are taken in the order listed. Students applying to the nursing major should complete all of the non-nursing courses prior to beginning the major. Courses must be completed with a grade of C (2.00) or better (not a C-) for transfer credit to Old Dominion University. A minimum GPA of 3.0 is required for consideration for admission to the pre-licensure program. A grade of B or better makes the applicant more competitive.

Nursing courses are taught in fall, spring and summer semesters. Summer enrollment is required.

Each semester in the program students are assessed a non-refundable program fee of \$375. This fee is posted to the student's account to be paid with tuition. The fee covers a variety of program-related expenses outside of tuition and books.

Upper-Division General Education

- Option A. Approved Minor, 12-24 hours; also second degree or second major.
- Option B. Interdisciplinary Minor, 12 hours specified by the department, 3 of which may be in the major area of study.
- Option C. An approved certification program such as teaching licensure

- Option D. Two Upper-Division Courses from outside the School of Nursing and not required by the major (6 hours)

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Nursing Pre-licensure Major

General Education

Complete lower-division requirements 46-52

Complete upper-division requirements 3-6

Nursing Pre-Licensure Major

Complete the nursing pre-licensure major requirements below 66

Total Credit Hours 115-124

All Nursing courses must be completed as scheduled in the terms in the plan of study.

Course	Title	Credit Hours
First Year		
Fall		
NURS 304	Principles of Practice: Foundations of Health Assessment	3

Credit Hours		14
Total Credit Hours		66

Elective credit may be needed to meet the minimum 120 credit hours required for the degree.

Honors Program for Pre-Licensure Nursing Majors

The School of Nursing has elected to offer departmental honors to interested and qualified undergraduate students. The honors curriculum reflects the school's commitment to scholarship, leadership, clinical practice and community service.

Application to the Honors Program occurs at the end of the first semester in the upper-division courses. Acceptance is limited to approximately 10% of the class size and students will be considered based on:

1. A minimum GPA of 3.50
2. Faculty recommendation

Applications will be distributed to pre-licensure students at the end of the first semester in nursing courses. Honors advisors will obtain faculty recommendations for the applicants.

Students who are selected for the Honors Program must complete the following requirements in addition to regular course and clinical requirements.

1. Completion of required departmental honors courses
 - a. NURS 387 in place of NURS 363.
 - b. NURS 491 in place of NURS 481.
2. Design and implement a community service project encompassing 25 or more volunteer hours. This is above and beyond the clinical hours in community health or participation in Student Nursing Association projects.
3. Complete a leadership project in NURS 491 Role Transition.

Bachelor of Science in Nursing (BSN)

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

Joint School of Public Health

Li-Wu Chen, PhD, MHSA, Founding Dean
Brian C. Martin, PhD, MBA, Associate Dean for Academic Affairs
Felicia Mebane, PhD, MSPH, Associate Dean for Community Engagement and Outreach (NSU)
Elizabeth A. Brown, PhD, MPH, CPH, BSPH Program Director
Maria Kronenburg, PhD, MBA, BSPH Health Services Administration Program Director
Jeff Moody, MSPH, BSEH Program Director

4608 Hampton Blvd
Norfolk, VA 23508
757-683-4259

School Mission

The Joint School of Public Health (JSPH) is a collaborative partnership between Old Dominion University and Norfolk State University to offer experiential learning and research opportunities across multiple campuses. The first of its kind in Virginia, students learn through hands-on experience, classroom learning, and community engagement to prepare for the public health jobs of the future.

The school's mission is to improve the health and well-being of populations, in the Commonwealth of Virginia and beyond, through transformative education, research, scholarship, service, practice experiences and community partnerships.

Program Application, Acceptance, and Continuance

The JSPH has developed undergraduate programs that prepare individuals to meet the public health needs of the region, the state, and the nation. These programs include the Bachelor of Science in Public Health (BSPH) degree, the Bachelor of Science in Public Health – Health Services Administration (BSPH-HSA) major, the Bachelor of Science in Environmental Health (BSEH) degree, and the undergraduate Certificate in Occupational Safety.

Students entering undergraduate programs in the JSPH should meet the minimum university admission requirements (see <https://www.odu.edu/admission/undergraduate> (<https://www.odu.edu/admission/undergraduate>)).

Students who qualify for regular admission to the University and who intend to apply for admission to a public health major are considered Intended Joint School of Public Health students until admitted to their intended major. They will be assigned an advisor in the Health Sciences Advising Center/ODU Global Health Sciences while completing general education and prerequisite requirements needed to apply to their intended major. Intended Joint School of Public Health students receive individualized advising support designed to prepare them for success in their chosen public health major.

HSAadvising@odu.edu (hsadvising@odu.edu)

Contact:
ODU Global Health Sciences
800-968-2638
healthsciencesonline@odu.edu

Students are eligible to continue as Intended Joint School of Public Health majors if they meet both of the following:

1. Meet the continuance regulations of the University.
2. Make reasonable progress toward matriculation into a Joint School of Public Health major program.

At the end of each semester (fall, spring, and summer), the Health Sciences Advising Center/ODU Online Health Sciences reviews the records of all students who do not meet minimum admissions requirements for their intended major (see admissions information in the specific program sections of the Catalog and on the program web site). A student who has ceased reasonable progress toward admission into a JSPH degree program will be

notified in writing via the student's Old Dominion University e-mail address, in accordance with the Electronic Communication Policy for Official University Business.

Students who have met all major admissions requirements will be referred by their advisor in the Health Sciences Advising Center/ ODU Global Health Sciences to the appropriate program director for major declaration, program admission, and assignment to a program advisor. For additional information on the curriculum or admission requirements, please see specific program sections of the Catalog and the program web site.

Students identified as not making reasonable progress toward their intended JSPH degree program will be referred to an advisor in the Student Success Center and/or the Center for Orientation, Retention, and Exploration (CORE) for assistance in selecting a new intended major.

Bachelor of Science in Public Health Public Health (BSPH)

Webpage: <https://www.odu.edu/public-health/academics/undergraduate>
Program Email: bsph@odu.edu (<http://outlook.odu.edu>)
Program Director: Dr. Elizabeth A. Brown

The Bachelor of Science in Public Health (Public Health major) is in the new Joint School of Public Health (<https://www.odu.edu/public-health/>), which is a collaborative partnership between Old Dominion University and Norfolk State University, and housed under the newly formed Macon & Joan Brock Virginia Health Sciences (<https://www.odu.edu/virginia->

health-sciences/). Graduates of the Public Health major will possess knowledge and skills necessary to prevent disease, prolong life, and promote health. Graduates will also have the skills to be leaders in their community where they can showcase their ability to describe data related to social determinants of health (factors that impact health and health equity), determine interventions needed for diverse communities, and demonstrate the ability to collect, manage, and analyze data. Graduates will be able to serve as leaders in various capacities at the local, state, or federal level. Students will have skills valuable to health departments, non-profit organizations, hospitals, and even the military. Graduates may consider furthering their education with a Master of Public Health while others may pursue clinical programs (e.g., medicine, nursing, dental, or physician assistant), occupational therapy, physical therapy, etc.

The curriculum for the Public Health major incorporates rigorous coursework in epidemiology and biostatistics, social and behavioral aspects of health, the United States healthcare delivery system, bioethics, natural sciences, health policy, and environmental health issues, among other areas. The program also provides students with courses in basic research methods necessary for assessment, analysis, communication, research, problem solving, and critical thinking abilities in the emerging emphasis on evidence-based health care and public health. Students will have the opportunity to gain practical public health exposure and mentoring in clinical, research, or community settings.

The Public Health major is available in a flexible format with some courses offered online and some in person. The program can also be completed fully online for students who are interested in an autonomous online learning environment.

Major Declaration: Public Health Program

To officially declare a major in Public Health, students must complete the following courses with a grade of C or better: PUBH 200, ENGL 110C, MATH 162M, STAT 130M, BIOL sequence**, and CHEM sequence.**

1. Students who have met all major declaration requirements and meet the minimum cumulative GPA (2.00) requirement will be referred by their advisor in the Health Sciences Advising Center/ODU Global Health Sciences advisor to the program director for major declaration and assignment to a program advisor. For additional information, please contact the Program Director (bsph@odu.edu (<http://outlook.odu.edu/>)) or Health Sciences Advising Center (hsadvising@odu.edu (<http://www.odu.edu/hs/advising/>)).
2. Students must be accepted to the program before enrolling in any 400-level required course.

**The BSPH-Public Health Program may accept lower-level science options for BIOL 121N/BIOL 122N and BIOL 123N/BIOL 124N and CHEM 121N/CHEM 122N and CHEM 123N/CHEM 124N. Grade C or higher required. For additional information, please contact the Program Director (bsph@odu.edu (<http://outlook.odu.edu/>)) or Health Sciences Advising Center (hsadvising@odu.edu (<http://www.odu.edu/hs/advising/>)).

Continuance and Readmission Policy

In addition to the Old Dominion University continuance policies in this catalog, the following policies are specific to all declared majors in the Public Health major:

1. A grade of C (2.00) or better is required in all required major courses to continue in the program.
2. A student who earns a grade of C- or lower in a required major course will not be considered in good academic standing in the major and must retake the course in the next semester the course is offered.
3. A cumulative grade point average of 2.00 or better is required to continue in the Public Health program.

Students who fail to meet the continuance requirements for the major will revert to intended degree, and an advising hold will be placed back on their

account. A meeting with the program director will be required to create a success plan before a student may enroll in additional Public Health courses.

To be readmitted to the Public Health major:

1. Students must meet with the program director to create a success plan.
2. Students must successfully complete all major courses with a grade of C or higher, maintain a cumulative grade point average of 2.0 or better, and meet the program director again before the major will be redeclared. Students are responsible for contacting the program director when all readmission requirements have been met.
3. A student who is readmitted to the major may be required to take additional course work prior to or concurrent with readmission.

Internship (Capstone Experience)

The internship (capstone experience) PUBH 468 is a three-credit course that serves as the capstone experience for students pursuing the Bachelor of Science in Public Health. The internship is a planned, supervised, and evaluated 200-hour experience under the direction of the internship coordinator. (Note: Students enrolled in the linked BSPH to MPH program are required to perform 120 hours as those students take graduate-level courses and are required to complete an Applied Practice Experience/practicum in the graduate program.) The policies, guidelines, and processes followed by the coordinator and students are delineated in the Internship Manual provided to students when they enroll in the program. The internship provides the opportunity for students to integrate their academic work into experiential learning to gain additional experience in the field or community of the student's choice. The experience will allow a student to gain basic job entry or advanced skills by working with experienced public health or healthcare professionals in a public or private organization. Students may select the internship site, or they may seek guidance from faculty about possible sites.

Students may be eligible for internship upon senior standing in the major (at least 90 credits) and completion of all required prerequisites. Senior standing is imperative for success in the internship course as the foundational skills and concepts are achieved during the span of entire coursework at ODU. Internships must be sought and undertaken in an organization, agency, department, or community that provides planning and/or services that are relevant to the core areas of public health. Any student who plans to organize an internship without the appropriate foundation may be at a disadvantage in the organizations in which internships are undertaken. All public health students will complete an internship related to public health. The internship experience and corresponding internship course both address the relevance of developing skills and competencies as required for the future of public health practitioners. **Students must complete an internship learning contract and receive final approval from the internship coordinator by the following deadline: August 1 (fall internship), December 1 (spring internship), and May 1 (summer internship).**

As part of the course assessment, students are required to develop an electronic portfolio (ePortfolio). The ePortfolio is a collection of work completed by the student during the internship and can be used to present the student's "professional" or digital self to others. In addition to submitting an ePortfolio, students must submit a comprehensive attendance record that covers the entire internship period.

Students who have five or more years of supervisory or management experience in a public health field can apply for a Prior Learning ePortfolio Challenge, which could replace the internship course. A cover letter and resume will be required for initial review. Please contact the BSPH internship coordinator to discuss this option.

Some internship sites may require the student to complete a criminal background check, drug screening, computer-based training, Cardiopulmonary Resuscitation (CPR) training, proof of vaccination status, and/or other relevant responsibilities needed to train in public health organizations prior to beginning the internship.

Students who do not pass the internship in the first attempt will have the opportunity to repeat the course one additional time. If they are unsuccessful

on their final attempt, they will be unable to earn the Bachelor of Science in Public Health.

Requirements

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6
Oral Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#oral)	3
Mathematics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#math)	3

Philosophy and Ethics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#philosophy)	3
The Nature of Science (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#nature)	8
Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

Written Communication: grade of C or better required in both courses

Mathematics: MATH 162M required

Human Behavior: met by PSYC 201S or SOC 201S in foundations coursework

Philosophy and Ethics: PHIL 345E preferred

The Nature of Science: BIOL 121N/BIOL 122N and BIOL 123N/BIOL 124N required**

Impact of Technology: met in the major by PUBH 485

Information Literacy and Research: HLTH 120G preferred

Upper-Division General Education

Students may choose one of the following options to fulfill their upper-division general education requirement.

- Option A: A University-approved disciplinary minor, second degree or second major, with advisor approval.
- Option B: A University-approved interdisciplinary minor.
- Option C: An approved certification program such as teaching licensure.
- Option D: Six hours of upper division courses outside the College of Health Sciences.

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.

- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Public Health Major

To declare a major in Public Health, students must complete the following with grades of C or better:

PUBH 200, ENGL 110C, MATH 162M, STAT 130M, BIOL sequence**, and CHEM sequence.**

Students must be a declared major to enroll in 400-level BSPH major courses.

All courses required for the major must be completed with a grade of C or better.

**The BSPH-Public Health Program may accept lower-level science options for BIOL 121N/BIOL 122N and BIOL 123N/BIOL 124N and CHEM 121N/CHEM 122N and CHEM 123N/CHEM 124N. Grade C or higher required. For additional information, please contact the Program Director (bsph@odu.edu (<http://outlook.odu.edu/>)) or Health Sciences Advising Center (hsadvising@odu.edu (<http://www.odu.edu/hs/advising/>)).

General Education

Complete lower-division requirements 35-41

Complete upper-division requirements (minimum of 3 credit hours; 3-6 3 credits for Option D may be met by PHIL 345E)

Public Health Prerequisite

PUBH 200 Principles of Public Health * 3

Public Health Sciences Foundation

STAT 130M Elementary Statistics * 3

Linked Bachelor of Science in Public Health (BSPH) to Master of Public Health (MPH) Program

Overview

The linked Bachelor of Science in Public Health (BSPH) to Master of Public Health (MPH) Program provides qualified ODU undergraduate students with the opportunity to earn a Master of Public Health degree while taking up to 12 credits in the MPH Program as an undergraduate BSPH student. The linked program is designed for highly-motivated students with the desire to continue their education after the BSPH degree. It is especially relevant for individuals seeking to work (or currently working) in the public health, health services, or non-profit sectors. Successful applicants must have demonstrated both a mature attitude and superior academic achievement.

Eligibility

BSPH students in the Public Health, Health Services Administration (HSA), and Health Services Administration-Professional (HSA-P) majors are eligible for the linked BSPH to MPH Program. Additional eligibility requirements are below:

- Students in a major under the BSPH degree
 - Note: Students in the HSA or HSA-P majors may need to take additional public health-related courses (see Required Coursework below)
- Students with a 3.5 grade point average (GPA) or higher in their major

Required Coursework

BSPH students interested in the linked BSPH to MPH Program should carefully consider their undergraduate degree program requirements when planning their course of study. Students in the linked program work in close consultation with the BSPH Co-Directors and MPH Director to develop an individualized plan of study based on the required coursework.

Students in the BSPH-HSA or BSPH-HSA-P majors, who are interested in the linked program, are required to take the following electives: (1) PUBH 422 Health, Culture and Diversity-Reducing Disparities in Public Health and (2) ENVH 448 Epidemiology and Biostatistics. Students must make a C or higher in the courses. Students should make note of the course prerequisites.

Process

Eligible BSPH students may take MPH-level courses as early as four semesters prior to their graduation and count up to 12* graduate credit hours toward their undergraduate degree. Once in the linked program, BSPH students must maintain a 3.0 GPA or above throughout the program. Undergraduate students who fail to maintain a 3.0 GPA may revert to the regular BSPH degree and count up to 12 hours of completed graduate coursework toward the undergraduate degree.

After receiving the undergraduate degree, the student must officially apply to the MPH Program through the ODU Graduate School. A student will continue with the MPH program, taking MPH courses until completing the required 43 credit hours. Students in the linked program must earn a minimum of 151 credit hours (120 credit hours for the undergraduate degree and 31 credit hours for the graduate degree).

**For additional information, please contact the MPH Program Director at mph@odu.edu.*

BSPH to MPH Program Admission Information

Eligible BSPH students who are interested in the linked BSPH to MPH Program must complete the following requirements:

- Complete general education requirements before the end of Junior year.
- Declare major under the BSPH degree at Old Dominion University (ODU).
- Have a 3.5 GPA (or higher) in the major.
- Complete required coursework (for HSA and HSA-P majors)
- Request a course review and interview from the MPH Director after completing a minimum of 60 credits and before completing 105 credits.
- Apply to the MPH program via Graduate Admissions no later than the June 15 of your final undergraduate year. The application includes submitting a personal statement, two letters of recommendation, etc. Please review additional application requirements set by the ODU MPH Program.

Bachelor of Science in Public Health Public Health with a Major in Health Services Administration (BSPH)

Webpage: <http://www.odu.edu/commhealth/academics/undergraduate>
(<http://www.odu.edu/commhealth/academics/undergraduate/>)

Program Email: [HealthAdminMajor@odu.edu]

Program Director: Dr. Maria Kronenburg

The Bachelor of Science in Public Health (BSPH) degree with a major in Health Services Administration (HSA) aims to provide students with current, relevant information and experiences that will enable them to function as entry-level health service administrators in local, state, and national arenas. Additionally, the program will prepare persons seeking advanced study in preparation for the MHA, MPH, MPP, MPA, and MS degrees and the foundation for PhD or MD educational career paths.

Graduates of the Bachelor of Science in Public Health with a major in the Health Services Administration Program will possess the knowledge and skills necessary to enhance the administration and the delivery of health services through health care management and policy education. These graduates will serve as leaders for health care organizations in the public, private, and military organizations. The curriculum for the Health Services Administration major integrates a multidisciplinary approach that includes global and public health, health care finance, health services research, epidemiology, health care policy and management. Students will have the opportunity to gain practical health care management experience and drive innovation in health care policy.

Graduates of the program will be ready to serve as invaluable leaders in health care services.

The Health Services Administration major is available fully online, with the option to complete some courses on campus.

Major Declaration: Health Services Administration Program

To officially declare a major in Health Services Administration (HSA), students must complete the following courses with a grade of C or better: PUBH 200, PUBH 320, PUBH 335, PUBH 390, and STAT 130M.

1. Students who have met all major declaration requirements and meet the minimum cumulative GPA (2.00) requirement will be referred by their advisor in the Health Sciences Advising Center/ODU Global Health Sciences advisor to the program director for major declaration and assignment to a program advisor. For additional information, please contact the Program Director at: HealthAdminMajor@odu.edu or the Health Sciences Advising Center (hsadvising@odu.edu (<http://www.odu.edu/hs/advising/>)).
2. Students must be accepted to the program before enrolling in any 400-level required course.

Continuance and Readmission Policy

In addition to the Old Dominion University continuance policies in this catalog, the following policies are specific to all declared majors in the Health Services Administration (HSA) Program:

1. A grade of C (2.00) or better is required in all required major courses to continue in the program.
2. A student who earns a grade of C- or lower in a required major course will not be considered in good academic standing in the major and must retake the course in the next semester the course is offered.
3. A cumulative grade point average of 2.00 or better is required to continue in the HSA program.

Students who fail to meet the continuance requirements for the major will revert to intended degree, and an advising hold will be placed back on their account. A meeting with the program director will be required to create a success plan before a student may enroll in additional courses.

To be readmitted to the HSA program:

1. Students must meet with the program director to create a success plan.
2. Students must successfully complete all major courses with a grade of C or higher, maintain a cumulative grade point average of 2.0 or better, and meet the program director again before the major will be redeclared. Students are responsible for contacting the program director when all readmission requirements have been met.
3. A student who is readmitted to the major may be required to take additional course work prior to or concurrent with readmission.

Internship

The PUBH 468 internship is designed to provide students with practical experiences in a health setting. This allows students to apply their academic knowledge to real-life situations within an organization or community context that focuses on health activities. During the internship, students will acquire practical skills by completing assignments that challenge them to utilize the competencies learned in their coursework. They will also gain a deeper understanding of the political, economic, social, and organizational factors that influence health services administration.

The PUBH 468 internship is a crucial component of the BSPH degree, serving as a culminating experience. To be eligible for the internship, BSPH-HSA students must fill out an internship learning contract for approval and have completed at least 90 credits and half of the major coursework. Internships must be planned and approved in advance by the program internship coordinator. The internship course may be taken concurrently with other courses within the credit hour limits for the term. **A learning contract must be submitted for approval prior to the following internship deadlines: May 1 for summer, August 1 for fall, and December 1 for spring.**

Internships should occur with sites that are relevant to health services administration, such as agencies, departments, or community-based organizations. Some internship facilities may require background checks, drug screenings, trainings, certifications (like CPR), proof of vaccinations, or other mandatory compliance requirements.

Students with at least five years of relevant supervisory, administrative, or management experience in health services administration may be eligible for the Prior Learning Challenge to fulfill the internship requirement. A cover letter and resume are required for initial review. For further information or to discuss the Prior Learning option, please contact the program internship coordinator.

Careful planning and coordination with the program internship coordinator are essential for a successful internship experience. Students should select internship placements that align with their career goals and provide valuable learning opportunities.

Requirements

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6

Mathematics: STAT 130M required; must be completed with a grade of C or better prior to major declaration.

Information Literacy and Research: HLTH 120G preferred

Philosophy and Ethics: met in the major by PHIL 345E

Impact of Technology: met in the major by PUBH 485

Upper-Division General Education

Completion of the MGMT courses required for the major with a grade of C or higher results in a minor in management and meets upper-division general education.

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.

- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Health Services Administration Major

To officially declare a major in Health Services Administration, students must complete the following courses with a grade of C or better: PUBH 200, PUBH 320, PUBH 335, PUBH 390, and STAT 130M.

Students must be a declared major prior to starting 400-level major courses. All courses required for the major must be completed with a grade of C or better.

General Education

Bachelor of Science in Public Health Public Health with a Major in Health Services Administration (Professional) (BSPH)

Webpage: <http://www.odu.edu/commhealth/academics/undergraduate>
(<http://www.odu.edu/commhealth/academics/undergraduate/>)

Program Email: [HealthAdminMajor@odu.edu]

Program Director: Dr. Maria Kronenburg

The Bachelor of Science in Public Health with a major in Health Services Administration (HSA) (Professional) is designed to offer advanced educational experiences to students who are health professionals and/or who have completed a certification or Associate of Science degree in a health-related discipline, have credentials to practice in their field, and have experience as a health care provider. This program also builds on the expertise of practicing health professionals and allows them the opportunity

to enhance their formal learning. The program focuses on upper-level course work and general education in conjunction with an area of career enhancement chosen by the individual student.

Additionally, the program will prepare persons seeking advanced study in preparation for the MHA, MPH, MPP, MPA, and MS degrees and the foundation for PhD or MD educational career paths.

Graduates of the Bachelor of Science in Public Health with a major in Health Services Administration will possess the knowledge and skills necessary to enhance the administration and the delivery of health services through health care management and policy education. These graduates will serve as leaders for health care organizations in the public, private, and military organizations. The curriculum for the Health Services Administration major integrates a multidisciplinary approach that includes global and public health, health care finance, health services research, epidemiology, health care policy and management. Students will have the opportunity to gain practical health care management experience and drive innovation in health care policy.

Graduates of the program will be ready to serve as invaluable leaders in health care services.

The Health Services Administration (Professional) major is available fully online, with the option to complete some courses on campus.

Admission to the Health Services Administration (Professional) Program

1. Students who have met all major declaration requirements and meet the minimum cumulative GPA (2.00) requirement will be referred by their advisor in the Health Sciences Advising Center/ODU Global Health Sciences advisor to the program director for major declaration and assignment to a program advisor. For additional information, please contact the Program Director at: HealthAdminMajor@odu.edu or the Health Sciences Advising Center (hsadvising@odu.edu (<http://www.odu.edu/hs/advising/>)).
2. Students must be accepted to the program before enrolling in any 400-level required course.

Continuance and Readmission Policy

In addition to the Old Dominion University continuance policies in this catalog, the following policies are specific to all declared majors in the Health Services Administration (HSA) Program:

1. A grade of C (2.00) or better is required in all required major courses to continue in the program.
2. A student who earns a grade of C- or lower in a required major course will not be considered in good academic standing in the major and must retake the course in the next semester the course is offered.
3. A cumulative grade point average of 2.00 or better is required to continue in the HSA program.

Students who fail to meet the continuance requirements for the major will revert to intended degree, and an advising hold will be placed back on their account. A meeting with the program director will be required to create a success plan before a student may enroll in additional courses.

To be readmitted to the HSA program:

1. Students must meet with the program director to create a success plan.
2. Students must successfully complete all major courses with a grade of C or higher, maintain a cumulative grade point average of 2.0 or better, and meet the program director again before the major will be redeclared. Students are responsible for contacting the program director when all readmission requirements have been met.
3. A student who is readmitted to the major may be required to take additional course work prior to or concurrent with readmission.

Internship

The internship (PUBH 468) is designed and implemented to ensure that students achieve the following objectives:

1. Practical experience in a health setting via exposure to an organization and/or community context that generates health activities.
2. Acquisition of practical skills via related field assignments that challenge students to utilize knowledge of competencies learned from the academic curriculum and improved understanding of the political, economic, social and organizational context within which health services administrative activities operate.

BSPH-HSA-Professional students must apply for approval to enroll in the Internship course. Internship is a planned, supervised and evaluated exercise that serves as a culminating experience for students pursuing the BSPH degree. A student may be eligible for the internship upon senior standing in the major (at least 90 credits completed and at least half of the major courses completed). Internships must be planned and approved in advance by the program internship coordinator. The internship course may be taken with other courses or up to the minimum full-time credit hours for the term.

The internship learning contract must be submitted for approval prior to the internship paperwork deadline: May 1 deadline to register for summer semester; August 1 deadline to register for the fall semester; January 1 deadline to register for the spring semester.

Internships should be sought and undertaken in an organization, agency, department or community that provides planning and/or services that are relevant to the core areas of health services administration. Any student who plans to organize an internship without the appropriate foundation may be at a disadvantage in the organizations in which internships are undertaken. All students must complete an internship within their major of Health Services Administration. The internship experience and course address the relevance of developing skills and competencies.

Some internship sites may require the student to complete a criminal background check, drug screenings, computer-based training, CPR certifications, proof of vaccination status, and/or any other pre-existing mandatory compliance requirements prior to beginning the internship.

Students who have five or more years of supervisory, administrative, or management experience in a related field can apply for a Prior Learning ePortfolio Challenge which could replace the internship course. A cover letter and resume will be required for the initial review. Please contact the program internship coordinator or program director to discuss this option.

Requirements

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6
Oral Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#oral)	3
Mathematics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#math)	3
Language and Culture (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#language)	0-6
Information Literacy and Research (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#information)	3

Human Creativity (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#creativity)	3
Interpreting the Past (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#interpret)	3
Literature (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#literature)	3
Philosophy and Ethics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#philosophy)	3

The Nature of Science (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#nature)	8
Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

Written Communication: grade of C or better required in both courses

Mathematics: STAT 130M required; must be completed with a grade of C or better prior to major declaration.

Information Literacy and Research: HLTH 120G preferred

Philosophy and Ethics: met in the major by PHIL 345E

Impact of Technology: met in the major by PUBH 485

Upper-Division General Education

Completion of the MGMT courses required for the major with a grade of C or higher results in a minor in management and meets upper-division general education.

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Health Services Administration (Professional) Major

Current/active licensure (through state board) and/or certification (exam-based proficiency) as a clinical health professional and an Associate of Applied Science degree make a student eligible for the Health Services Administration Professional major. The following programs are some that have been accepted: Radiation Technology, Medical Dosimetry, Nuclear Medicine Technology, Radiologic Technology, Nursing, Occupational Therapy, Occupational Therapy Assistant, Dental Hygiene, Emergency Medical Technology, Medical Laboratory Technology, Cytotechnology, Paramedic, Respiratory Therapy, and Physical Therapy Assistant or military experience such as Hospital Corpsman. Consult the Program Director for specific information on program eligibility.

For students approved as eligible for the Health Services Administration Professional major, PUBH 200 will be taken in the first semester after admission to ODU as a co-requisite with 300-level major courses.

Lower-division general education courses and STAT 130M must be completed prior to major declaration. STAT 130M must be completed with a grade of C or better. Students must be admitted to the program by the Program Director prior to starting 400-level major courses. All courses required for the major must be completed with a grade of C or better.

Up to 23 professional elective credits may be awarded upon program admission and review of transcripts and other provided documentation to the Program Director; the number of credits is determined by training hours completed. These experiential hours are included in the overall number of hours needed for graduation. These hours are applied to the number of elective hours needed to meet the graduation requirement of 120 hours. In summary, up to 23 experiential credit hours can be awarded, leaving 97

hours needed to complete the Health Services Administration Professional major.

General Education

Complete lower-division requirements 35-41

Complete upper-division requirements (met in the major with a C or better in required MGMT courses)

* This guide begins after most lower-division requirements are completed. C or better required in all courses. See advisor for additional information.

Minor
Community Health Minor

The minor in community health is designed to prepare students in the ever-changing world of healthcare and health behavior as practitioners and offers courses in such areas as population health, health equity, environmental health, health promotion, health policy, and health administration. The goal of the minor is to emphasize healthcare administration, operations and public health preparedness, as well as communication and critical thinking. It is possible to complement the minor with courses in management, environmental health, or occupational health. The minor is especially attractive to students in other majors such as psychology, nursing, dental

hygiene, engineering, occupational and technical studies, and business who may reasonably anticipate public health, health administration, and community health as core components of their duties. The minor prepares the students for an experience at internship sites in public health or the healthcare industry.

Requirements

PUBH 200 with a grade of C or higher is a prerequisite for the minor and is not included in the calculation of the grade point average for the minor. Requirements for the minor are as follows:

Select four of the following:		12
PUBH 320	Health Equity and Disability Culture	
PUBH 335	Population Health	
PUBH 430W	Community Health Resources and Health Promotion	
PUBH 450	Public and Community Health Administration	
PUBH 465	Policy and Politics of Health	
ENVH 301	Principles of Environmental Health Science	

For completion of the minor, a student must have a minimum overall cumulative grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of prerequisite courses and complete a minimum of six hours in upper-level courses in the minor requirement through courses offered by Old Dominion University.

Minor Public Health Minor

Webpage: <http://www.odu.edu/commhealth/academics/undergraduate>
(<http://www.odu.edu/commhealth/academics/undergraduate/>)

Program Email: [bsph@odu.edu (<http://outlook.odu.edu/>)]

Program Director: Dr. Elizabeth A. Brown

The minor in public health offers students an understanding of core areas and principles of public health, specifically global health and health disparities. The minor focuses on culture and diversity among different physical and social communities. The minor may be an ideal fit for students in various majors including biology, nursing, dental hygiene, sociology, political science, exercise science, etc. Graduates with a minor in public health will possess knowledge and skills necessary to prevent disease, prolong life, and promote health.

Requirements

PUBH 200 with a grade of C or higher is a prerequisite for the minor and must be completed before enrolling in any 300- or 400-level required course.

It is not included in the calculation of the grade point average for the minor. Requirements for the minor are as follows:

PUBH 335	Population Health	3
PUBH 360	Introduction to Global Health	3
PUBH 415	One Health-One Medicine	3
PUBH 422	Health, Culture and Diversity-Reducing Disparities in Public Health	3
Total Credit Hours		12

For completion of the minor, students must have a minimum overall cumulative grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of prerequisite courses and complete a minimum of six hours in upper-level courses in the minor requirement through courses offered by Old Dominion University.

Department of Epidemiology, Biostatistics, & Environmental Health

Department website: <https://www.odu.edu/epidemiology-biostatistics-environmental-health> (<https://www.odu.edu/epidemiology-biostatistics-environmental-health/>)

Jim Blando, PhD
Associate Professor
Chair
jblando@odu.edu

Jeff Moody, MSPH
Senior Lecturer
BSEH Program Director
j1moody@odu.edu

The Department of Epidemiology, Biostatistics, and Environmental Health plays a central role in advancing public health. Our environmental health faculty apply physics and chemistry to measure and assess environmental risks and their potential impact on humans and ecosystems. The epidemiology faculty study disease patterns in populations, while our biostatistics faculty use advanced mathematical methods to analyze data and draw insights critical to public health. Together, these disciplines address key global challenges such as climate change, pandemics, pollution, food insecurity, clean water, and sustainability.

The Department of Epidemiology, Biostatistics, and Environmental Health houses the BS Environmental Health degree and Undergraduate Certificate in Occupational Safety.

Jeff Moody, MSPH, Program Director
Email: bseh@odu.edu

www.odu.edu/commhealth/academics/bs_enviro/ (http://www.odu.edu/commhealth/academics/bs_enviro/)

Environmental health is the study and management of factors that can adversely affect the environment and the health and well-being of humans. The curriculum in environmental health, which is accredited by the National Environmental Health Science and Protection Accreditation Council, encompasses a variety of disciplines in the preparation of environmental health professionals, industrial hygienists, and occupational safety and health specialists.

Environmental health professionals manage environmental health and safety programs, work with communities to address environmental hazards, conduct environmental hazard and accident investigations, provide safety training, conduct safety audits, perform Job Hazard Analysis, work to foster sustainability, and lead emergency preparedness and response services. Industrial hygienists conduct evaluations and monitor harmful agents and health hazards (such as: noise and vibration, chemicals, gases and vapors, radiation, heat, and biohazards) in the work environment and recommend controls to minimize the health risk to workers in the

occupational environment. In simple terms they anticipate, recognize, evaluate and control occupational exposures. On the environmental side, environmental health professionals engage in education, consultation, and enforcement relating to local, state and federal environmental health laws, regulations, and standards. They work on air and water quality, food safety, management of hazardous and infectious materials, housing, disease vectors, institutional environments, and other environmental health issues. Environmental health professionals manage environmental health and safety programs for companies, government agencies, academic institutions, non-profit organizations, health departments, and military installations.

The program requires three credit hours of internship field practice within an environmental or occupational health facility or industrial site. A variety of internship sites are available in the Hampton Roads area for these experiences. Internship sites throughout the U.S. and overseas are also available. Internships are available any semester but are typically completed in the summer between the junior and senior year. Most internships are paid and many out of area internships offer a stipend to cover expenses.

Upon graduation, students are eligible to sit for the professional licensing examination in environmental health, e.g., NEHA REHS/RS and CSFP. With work experience, students are eligible to take the certification examinations in industrial hygiene as Certified Industrial Hygienist (CIH) and/or in safety as Associate Safety Professional (ASP) and then a Certified Safety Professional (CSP).

A broad spectrum of employment opportunities are available to graduates. Alumni employment success has been outstanding, with graduates finding employment in agencies such as the USDA, EPA, OSHA, NASA, FDA, and DOD. Many work in private industries, manufacturing plants, the oil industry, consulting firms, health departments, waste and wastewater plants, civil service, and other organizations.

Admission

Students may be admitted to the program on the satisfactory completion of 60 semester hours of recommended study of required prerequisite courses and with the approval of the program director. Applications to the program, including all materials, may be submitted any time during the academic year for consideration for admission. Permission must be granted by the program director prior to applying to the program if the student has fewer than the 60 semester hours of required prerequisite courses.

If you have questions on the Program, contact the BSEH Program Director: Jeff Moody, MSPH (bseh@odu.edu).

To declare a major in Environmental Health, students must complete the following: ENGL 110C, CHEM 121N/CHEM 122N, CHEM 123N/CHEM 124N, COMM 101R, ENVH 301, MATH 162M, STAT 130M, and the Nature of Science Biology sequence.

Oral Communication: COMM 101R

Mathematics: MATH 162M

Information Literacy and Research: HLTH 120G preferred

Philosophy and Ethics: PHIL 345E preferred; meets upper-division general education.

Nature of Science - Select one of the following Biology sequences:

- BIOL 110N/BIOL 111N and BIOL 117N/BIOL 118N OR
- BIOL 121N/BIOL 122N and BIOL 123N/BIOL 124N

Impact of Technology (upper-division T course outside the College of Health Sciences; meets upper-division general education)

Upper-Division General Education

- Option A. Approved Disciplinary Minor, 12-24 hours minimum; also second degree or second major.
- Option B. Interdisciplinary Minor (specifically 12 hours, 3 of which may be in the major)
- Option C. An approved Certification Program such as teaching licensure
- Option D. Two Upper-Division Courses from outside the College of Health Sciences and not required by the major (6 hours)

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Minor Environmental Health Minor

Jeff Moody, MSPH, Coordinator

A minor in environmental health requires a minimum of 12 semester hours of environmental health courses. The minor is designed to enhance the knowledge of students and help them understand the influences and impact of environmental factors on human health. Students majoring in environmental health are not eligible for this minor.

Requirements

Requirements for the environmental health minor are as follows.

ENVH 301	Principles of Environmental Health Science	3
ENVH 420	Communicable Diseases	3
ENVH 421	Food Safety	3
ENVH 423	Vector-Borne Diseases and Their Control	3
Total Credit Hours		12

For completion of the minor, students must have a minimum overall cumulative grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of prerequisite courses and complete a minimum of six hours in upper-level courses in the minor requirement through courses offered by Old Dominion University. Twelve semester hours of science courses are preferred. Students majoring in environmental health are not eligible for this minor.

Minor Environmental Issues and Management Minor

Jeff Moody, MSPH, Coordinator

Continuing environmental degradation is a worldwide problem threatening the quality of life and its viability. The problem can only be understood and addressed by drawing upon the resources of multidisciplinary approaches. The multidisciplinary perspective center of this minor focuses on the human dimensions of the human-environment equation and includes geographical and ecological approaches, scientific and technological methodologies, planning and public policy issues, and health, ethical, political, economic, and legal considerations.

Requirements

The interdisciplinary minor in environmental issues and management requires 12 credit hours of 300/400-level courses selected from at least two different disciplines with a maximum of six credits from any one discipline. For completion of the interdisciplinary minor, students must have a minimum overall cumulative grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of lower-level courses and prerequisite courses. At least six hours of upper-level courses must be taken through courses offered by Old Dominion University. Three credit hours may be in the major, if a major course is listed as an option for the interdisciplinary minor. As such, it will be credited toward both the major and the interdisciplinary minor.

Course options are as follows:

CEE 350	Environmental Pollution and Control	3
CEE 458	Sustainable Development	3
ECON 435	Health Economics: A Global Perspective	3
ECON 447W	Natural Resource and Environmental Economics	3
ENVH 301	Principles of Environmental Health Science	3
ENVH 402W	Environmental and Occupational Health Administration and Law	3
ENVH 420	Communicable Diseases	3

ENVH 421	Food Safety	3
ENVH 422	Water and Wastewater Technology	3
GEOG 305	World Resources	3
GEOG 306T	Hazards: Natural and Technological	3
GEOG 400W	Seminar in Geography	3
GEOG 420	Marine Geography	3
GEOG 422W	Coastal Geography	3
OEAS 302	Environmental Geology	3
OEAS 310	Global Earth Systems	4
PAS 300	Foundations of Public Service	3
PHIL 344E	Environmental Ethics	3
PHIL 345E	Bioethics	3
POLS 300	Introduction to Public Policy	3
POLS 335	Environmental Politics	3
POLS 401	Global Environmental Policy	3
PRTS 405	Outdoor Recreation	3
SOC 309	Population and Society	3
SOC 320	Social Inequality	3
SOC 325	Social Welfare	3
SOC 440	Health, Illness, and Society	3
SOC/CRJS 444	Community Justice	3

Minor

Occupational Safety Minor

Jeff Moody, MSPH, Coordinator

The minor in occupational safety is designed to prepare students to meet safety standards and guidelines in such areas as business, education and industry with the goal of managing operations to minimize financial losses resulting from accidents, health claims, legal actions and property damage. It is especially attractive to students in majors such as engineering, occupational and technical studies, and business who may reasonably anticipate assignment of safety as an additional duty. Students majoring in environmental health are not eligible for this minor.

Requirements

The minor in occupational safety requires 12 credit hours as follows:

ENVH 406	Principles of Occupational Safety and Health	3
ENVH 407	Occupational Safety Standards, Laws and Regulations	3
ENVH 425	Occupational Safety and Health Program Management	3
ENVH 426	Physical Hazards and Their Control	3
Total Credit Hours		12

For completion of the minor students must have a minimum overall cumulative grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of prerequisite courses and complete a minimum of six hours in upper-level courses in the minor requirement through courses offered by Old Dominion University. Students majoring in environmental health are not eligible for this minor.

Certificate

Occupational Safety Certificate

Jeff Moody, MSPH, Coordinator

The certificate program in occupational safety is designed to prepare students to meet safety standards and guidelines in such areas as business, education, and industry with the goal of managing operations to minimize financial losses resulting from accidents, health claims, legal actions, and property damage. It is especially attractive to students in majors such as engineering, occupational and technical studies, and business who may

reasonably anticipate assignment of safety as an additional duty, or to individuals already employed in the environmental health and safety field.

Courses in the certificate program are normally taken through the non-degree program. Students majoring in environmental health are not eligible for the certificate. Students later accepted into the Bachelor of Science degree in environmental health may apply certificate credits toward that degree.

Students in a degree program other than environmental health may apply certificate credits toward their degree or minor.

Requirements

For completion of the undergraduate Certificate in Occupational Safety, students must have a minimum cumulative grade point average of 2.00 in all courses specified as a requirement for the certificate. Students must complete a minimum of six semester hours in upper-level courses required for the certificate through courses offered by Old Dominion University. Courses in the certificate program may be taken through degree or non-degree programs, and may be applied to degree requirements at the undergraduate level in environmental health. After successful completion of the program, a Certificate in Occupational Safety will be awarded. Students majoring in environmental health are not eligible for this certificate.

A total of 15 semester hours is required, comprised of three core courses and six hours of electives. All courses, with the exception of ENVH 406 and the lab course (ENVH 442), are provided online. Permission of the instructor is required for acceptance of any transfer prerequisites for the courses. Please contact the certificate coordinator for questions about prerequisite requirements.

Core Courses

ENVH 406	Principles of Occupational Safety and Health	3
ENVH 407	Occupational Safety Standards, Laws and Regulations	3
ENVH 425	Occupational Safety and Health Program Management	3
Select two of the following:		6
ENVH 401	Occupational Health	
ENVH 426	Physical Hazards and Their Control	
ENVH 440	Principles of Ergonomics	
ENVH 441	Industrial Hygiene	
ENVH 442	Industrial Hygiene Sampling Methods	

Total Credit Hours 15

Department of Health Behavior, Policy, & Management

Department website: <https://www.odu.edu/health-behavior-policy-management> (<https://www.odu.edu/health-behavior-policy-management/>)

Brian C. Martin, PhD, MBA

Professor

Interim Chair

Associate Dean for Academic Affairs

martinbc@odu.edu

The Department of Health Behavior, Policy, and Management is dedicated to shaping future leaders in health behavior, policy, management, and research. We tackle critical population and organizational challenges through a blend of innovative education, cutting-edge research, and practical application. Our health behavior experts are committed to advancing public health by addressing the root causes of health issues. Meanwhile, our health policy and management specialists focus on creating evidence-based solutions to systemic challenges, preparing the next generation of healthcare administrators, policymakers, and researchers to ensure accessible, high-quality care for all.

College of Sciences

Web Site: <http://sci.odu.edu>

Gail Dodge, Dean
Joshua Wallach, Associate Dean for Undergraduate Studies
Lesley Greene, Associate Dean for Graduate Studies
Jingdong Mao, Associate Dean for Research
Wayne Hynes, Associate Dean for Faculty Affairs

The College of Sciences degree programs are designed to prepare students for careers in the sciences or to lay broad foundations for specialized training in these fields of knowledge.

The college is comprised of the Departments of Biological Sciences, Chemistry and Biochemistry, Computer Science, Mathematics and Statistics, Ocean and Earth Sciences, Physics, and Psychology. The Departments of Biological Sciences, Chemistry and Biochemistry, Computer Science, Mathematics and Statistics, Ocean and Earth Sciences, and Physics cooperate with the Darden College of Education and Professional Studies to provide the necessary courses for certification to teach in the Commonwealth.

Undergraduate Degree Requirements for all Majors in the College of Sciences

Core Requirements

Fulfilling the University General Education Requirements for a specific program satisfies the degree requirements for the College of Sciences. Refer to the University General Education section of this Catalog for details about which courses satisfy the skills, ways of knowing, and upper-division requirements of the General Education program.

Additional major requirements are listed under the various departmental programs.

General Requirements

1. Students wishing to take a major or a minor in the College of Sciences must declare with the appropriate department.
2. The College of Sciences allows a maximum of four hours of activity credit to be applied toward any degree granted by the college. Activity credit beyond the four-hour maximum may be permitted in unusual circumstances with the written approval of the dean of the college. Activity credit required by a student's major department will not be counted toward the credit limitation. (See the Catalog section on Activity Credits for the definitions and other restrictions on activity course credits.)

College of Sciences Degree Programs

Subject	BS	MS	PhD
Biology	X	X	X ¹
Biochemistry	X	X ²	X ³
Chemistry	X	X	X
Clinical Psychology			X ⁴
Computer Engineering		X ⁵	X ⁵
Computer Science X		X	X
Computer Science (Computer Information Sciences)		X ⁶	
Mathematics	X	X ⁷	X ⁷
Ocean and Earth Science	X	X	
Oceanography			X

Physics	X	X	X
Psychology	X	X	X ⁸

- 1 Ecological sciences. Training opportunities are available with faculty in the Departments of Biological Sciences, Chemistry and Biochemistry, and Ocean and Earth Sciences.
- 2 Emphasis area within chemistry master's degree program.
- 3 Emphasis area within chemistry Ph.D. program.
- 4 Doctor of Philosophy (Ph.D.) offered through the Virginia Consortium Program in Clinical Psychology, sponsored by Norfolk State University and Old Dominion University.
- 5 Offered jointly with the College of Engineering and Technology.
- 6 Offered jointly with the Strome College of Business.
- 7 Computational and applied mathematics, with emphases in applied mathematics and statistics/biostatistics.
- 8 Health psychology, human factors psychology, and industrial/organizational psychology.

Old Dominion University/Eastern Virginia Medical School Early Assurance Program in Medicine

The Early Assurance Program in Medicine is designed to encourage highly qualified students to receive a BS from Old Dominion University and an M.D. from Eastern Virginia Medical School. Students apply during their sophomore semester at Old Dominion University. Upon successful completion of the program requirements and graduation from Old Dominion University, a student accepted into the ODU/EVMS Early Assurance Program in Medicine will be guaranteed admission to Eastern Virginia Medical School. Additional information and admission requirements can be found at the following address: <https://www.odu.edu/sci/academics/advising/bmsmd> (<https://www.odu.edu/sci/academics/advising/bmsmd/>).

Policy for the Awarding of Bachelor's Degrees To Students Attending Professional School in Medically Related Fields

Old Dominion University students attending an accredited medical, dental, pharmacy, or veterinary school without a bachelor's degree shall be given the opportunity of receiving the bachelor's degree in accordance with the prescribed criteria as follows:

1. The student applying for the degree must complete a minimum of 90 semester hours of undergraduate credit prior to attending professional school.
2. The student must fulfill the General Education requirements of the University and the College of Sciences.
3. Thirty of the last thirty-six hours prior to professional school must be taken at Old Dominion University. A minimum of 12 hours at the 300/400 level in the major program must be taken at Old Dominion University.
4. This policy is applicable to any bachelor's degree offered by Old Dominion University. It must be kept in mind, however, that all departmental requirements must be met either prior to professional school or by using courses taken during the first year of professional school. This latter course of action requires written petition to and approval by the appropriate departmental chair. In either case the student must complete at least two-thirds of the major requirements for the degree prior to attending professional school.
5. The degree is to be awarded only after completion of one year of professional school with acceptable academic performance (to be determined by a letter from the professional school stating that the student is eligible to matriculate for the second year).
6. The student would apply for the bachelor's degree on completion of one year of professional school. Certification by the appropriate department chair is required as usual.

Prehealth Advisement–Prehealth Advisory Committee

Students seeking careers in medicine, dentistry, osteopathy, optometry, podiatry, veterinary medicine, or pharmacy should request advisement as early as possible from the Prehealth Advisory Committee, as well as from their major or other academic advisor. This is to obtain general information of value in gaining acceptance to the professional school of choice, such as how and when to apply for admission, preparation for preprofessional tests and interviews, obtaining letters of evaluation and recommendation, and choosing among the many different schools and professions. Advice is also given on course selection, although only the academic advisor can formally approve these selections.

Students seeking admission to medical, dental and other medically related professional schools should confer with the Prehealth Advisory Committee in their junior year concerning the preparation of letters of evaluation by the Committee.

To receive prehealth advisement, please contact Reneldo Randall, Chair of the Prehealth Advisory Committee located in MGB 236, (757) 683-6790.

BA or BS to MBA (Master of Business Administration) Linked Program

The linked BA/MBA or BS/MBA program is an early entry to the MBA program of study. The early-entry program is designed for well qualified non-business undergraduate ODU students to start their MBA program prior to completing their undergraduate degree. Well qualified non-business undergraduate students may take MBA-level courses as early as three semesters prior to graduation and count up to 12 graduate credits toward their undergraduate degree. Students participating in the early-entry program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree). Early-entry program students should carefully consider their undergraduate degree program requirements when planning their course of study. Students in the early-entry program work in close consultation with the MBA Program Office and should refer to information in the Strome College of Business section in the graduate catalog (<http://catalog.odu.edu/graduate/stromecollegeofbusiness/>) to develop an individualized plan of study based on the required coursework.

BA or BS to MPA (Master of Public Administration) Linked Program

The linked BA/MPA or BS/MPA program provides qualified Old Dominion University undergraduate students with the opportunity to earn a master's degree in public administration while taking credits in the MPA program as an undergraduate student. The program is designed for highly motivated students with the desire to immediately continue their education after the

bachelor's degree. The program is especially relevant to individuals seeking to work (or currently working) in the public or non-profit sectors, but is suitable for students from any undergraduate major. Graduate courses may be taken during the fall and spring semester of the student's senior undergraduate year. Up to 12 graduate credits can count toward both the undergraduate and graduate degree and can meet upper-level General Education requirements. After receiving the undergraduate degree, a student will continue with the MPA program, taking MPA courses until completing the required 39 credit hours. Students in the linked program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Requirements for admission to the graduate program can be found in the School of Public Service section of the Graduate Catalog (<http://catalog.odu.edu/graduate/business/public-service/>). For additional information, please contact the School of Public Service in the Strome College of Business.

Research and Service Centers

Center for Coastal Physical Oceanography

The Commonwealth Center for Coastal Physical Oceanography focuses research efforts on major physical processes in the coastal ocean. These processes include continent scale currents, exchange with the open ocean, and effects of global change. Techniques focus on computer modeling and analysis of existing data bases. The center provides advanced computer resources, technical support, and funding for faculty, research associates, and students. Visitors are encouraged to use the facility during either short- or long-term stays.

Center for Accelerator Science

The Center for Accelerator Science, established in partnership with Thomas Jefferson National Accelerator Facility (Jefferson Lab), aims to meet the nation's need for scientists who will advance the sciences and technologies of particle accelerators and light sources for use in basic science, applied science and industry.

Biological Sciences

Holly Gaff, Chair
Brian Olechnowski, Chief Departmental Advisor
Clayton Wright, Undergraduate Program Director

Department website: <https://www.odu.edu/biological-sciences/academics>
(<https://www.odu.edu/biological-sciences/academics/>)

The Department of Biological Sciences offers a Bachelor of Science degree with the following majors: Biology, Biology One Health, Biomedical Sciences, Biomedical Sciences Pre-Health, Marine Biology, and Secondary Biology Education (6-12). Biology majors have the opportunity to take many courses across the wide range of biology. The Biology major provides students with a good foundation in biology. Biology One Health studies the interaction between humans, animals, and the environment. Marine Biology is the study of marine organisms and their environment. Secondary Biology Education prepares students to teach science in high school. The Biomedical Sciences major is more focused and is for students who want to focus on medical microbiology and immunology. The Biomedical Sciences major is a good choice for students planning careers in biomedical research, biotech and health professions. Biomedical Sciences Pre-Health prepares students who want to go to a professional school such as medical or dental school.

Some majors choose a minor in Conservation Leadership. This is an interdisciplinary minor that focuses on species conservation and sustainability issues. We also offer a minor in Biology.

Advanced Placement

Advanced placement credit is awarded to students who earn qualifying scores on AP and IB subject examinations. See the equivalency charts here: <https://www.odu.edu/academics/academic-records/score-analysis/ap-ib> (<https://www.odu.edu/academics/academic-records/score-analysis/ap-ib>)

ib/). Official score reports should be sent to the Office of Admissions prior to registration for evaluation.

Mathematics: Select MATH 205 or MATH 211; C or better required

Information Literacy and Research: CS 121G, CS 126G, or OEAS 130G required

Nature of Science: met by CHEM 121N-CHEM 122N and CHEM 123N-CHEM 124N

Upper-Division General Education Requirements

- Option A. Approved Disciplinary Minor (a minimum of 12 hours determined by the department) or second degree or second major.
- Option B: Interdisciplinary Minor (specifically 12 hours, 3 of which may be in the major)
- Option C. An approved Certification Program such as teaching licensure
- Option D. Two Upper-Division (300-level or above) courses from outside the College of Sciences and not required by the major (6 hours)

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Biology Core

Required Biology Core Courses (C or better required in each course)

BIOL 121N & BIOL 122N	General Biology I and General Biology I Lab	4
BIOL 123N & BIOL 124N	General Biology II and General Biology II Lab	4
Upon completion of the above sequences, students must complete the following core courses, some of which are prerequisites or corequisites for upper-level biology courses (see course descriptions for individual courses):		
BIOL 291	Ecology	3
BIOL 292	Evolution	3
BIOL 293	Cell Biology	3
BIOL 294	Genetics	3
Total Credit Hours		20

Writing Intensive Requirement

In addition to the core courses, all majors must complete at least one writing intensive (W) course at Old Dominion University and earn a grade of C or better: BIOL 401W, BIOL 405W, BIOL 415W, BIOL 423W, BIOL 430W, BIOL 432W, BIOL 436W, BIOL 437W, BIOL 466W, BIOL 468W, BIOL 471W, BIOL 481W, or BIOL 488W. This course should be taken during the junior or senior year after completion of the required prerequisites. The W course selected will count towards the upper-division Biology electives. BIOL 405W requires a sponsor and approval of the topic.

Upper-Division Biology Elective Courses

Students must choose at least 30 elective hours at the 300-level or above from the courses offered by the Department of Biological Sciences. Some non-laboratory course options include BIOL 302, BIOL 311, BIOL 331, BIOL 346, BIOL 355, BIOL 403, BIOL 416, BIOL 445, BIOL 446, and BIOL 494.

A minimum of three of the courses must have a structured laboratory/field component. Some examples of these courses include BIOL 301, BIOL 309, BIOL 313, BIOL 314, BIOL 401W, BIOL 404, BIOL 415W, BIOL 420, BIOL 422, BIOL 424, BIOL 426, BIOL 441, BIOL 454, BIOL 455, BIOL 461, and BIOL 481W.

To be clear, BIOL 367 (Cooperative Education), BIOL 368 (Internship) and BIOL 369 (Practicum) courses cannot be used to satisfy the laboratory/field requirement. Additionally, transfer courses will not meet the laboratory/field component unless approved by the Biology curriculum committee. Transfer courses should be submitted to the College of Sciences Advising Office for consideration.

Students may use no more than six credits of unstructured courses to satisfy the requirement (see below). Elective courses must be passed with a grade of

C (2.0) or better unless they are specified as Pass/Fail courses, in which case they must be passed (P).

Experiential Learning

Students may take advantage of several non-classroom experiences ("Unstructured Courses") offered by the Department of Biological Sciences and may receive elective credit for these experiences. These include BIOL 367 (Cooperative Education), BIOL 368 (Internship), BIOL 369 (Practicum), BIOL 497 (Undergraduate Research) and BIOL 498 (Independent Study). BIOL 367, BIOL 368, BIOL 369 and BIOL 498 cannot be used to satisfy the lab/field requirement but can be used to satisfy one of the required elective courses. A passing grade (P) is required. See individual course descriptions and the chief departmental advisor for more information about these opportunities.

Non-Biology Course Requirements

Required Non-Biology Courses (C or better required in each course)		
CHEM 121N	Foundations of Chemistry I Lecture	3
CHEM 122N	Foundations of Chemistry I Laboratory	1
CHEM 123N	Foundations of Chemistry II Lecture	3
CHEM 124N	Foundations of Chemistry II Laboratory	1
CHEM 211	Organic Chemistry I Lecture	3
Select one of the following:		4
PHYS 111N	Introductory General Physics	
OEAS 110N	Earth Science	
OEAS 111N	Physical Geology	
Select one of the following:		3
STAT 130M	Elementary Statistics	
STAT 310	Introductory Data Analysis	
Total Credit Hours		18

Biology Major

General Education	
Complete lower-division requirements	33-40
Complete upper-division requirements (minimum of 6 credit hours)	6
Biology	
Complete the biology core	20
Complete upper-level biology elective courses (minimum of 30 credit hours to include writing intensive course)	30
Complete non-biology courses	18
Total Credit Hours	107-114

Elective Credit

Elective credit may be needed to meet the minimum requirement of 120 credit hours for the degree.

Honors Program in Biology

A. Honors Research

Undergraduates with junior or senior standing and a GPA of 3.00 or better are eligible to participate in Honors Research. After consultation with the CDA (Chief Departmental Advisor), students select a professor who agrees to oversee the research project. Students then enroll in two courses, BIOL 487 and BIOL 488W. The courses may be taken in any sequence: fall-spring, spring-summer, summer-summer, summer-fall. Normally both semesters are required but a student may receive credit for only one semester. The research project, time commitment by the student and the basis for the grade are mutually determined by the student and professor. Because first-semester research results are often preliminary, the grade for BIOL 487 is based on a review paper and/or research proposal, which provides the student with an overview of the field. The second semester is graded on the final research paper and a seminar presented to the honors committee and interested faculty. Professors should encourage students to publish results and present papers at scientific meetings when

appropriate. Students should also be urged to apply for funds from agencies that provide seed money to undergraduates. The program director can provide information on scientific societies that sponsor meetings and/or offer small grants. Successful completion of both courses with a C (2.0) or better will allow the student to use BIOL 488W as a lab course in meeting his/her requirements.

B. Bachelor's Degree with Honors in Biological Sciences and Honors Designation for Biology courses

Students maintaining an overall GPA of at least 3.25 and of 3.50 in biology can receive a "Bachelor's Degree with Honors in Biological Sciences" subject to satisfaction of the minimum University standards for the Honors degree and completion of one of the following two options:

Option 1: Successful completion of two semesters of biological research taken as BIOL 487 / BIOL 488W (Honors Research).

Option 2: Successful completion of three upper-division courses in Biological Sciences and achievement of the "Honors" designation in each.

Students petitioning for designation of an upper-division biology course as "Honors" must have a minimum overall GPA of 3.25 and a GPA of at least 3.50 in biology.

To receive the "Honors" designation for a course, students must achieve a final course score of at least 95% or the equivalent of an "A" on the University grade scale.

Faculty are encouraged to assign and work with students on other activities deemed appropriate for an "Honors" course designation and utilize the results of these activities in the assignment of a course grade.

Degree Program Guide

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

Total Credit Hours	120-127

BA or BS to MBA (Master of Business Administration) Linked Program

The linked BA/MBA or BS/MBA program is an early entry to the MBA program of study. The early-entry program is designed for well qualified non-business undergraduate ODU students to start their MBA program prior to completing their undergraduate degree. Well qualified non-business undergraduate students may take MBA-level courses as early as three semesters prior to graduation and count up to 12 graduate credits toward their undergraduate degree. Students participating in the early-entry program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree). Early-entry program students should carefully consider their undergraduate degree program requirements when planning their course of study. Students in the early-entry program work in close consultation with the MBA Program Office and should refer to information in the Strome College of Business section in the graduate catalog (<http://catalog.odu.edu/graduate/stromecollegeofbusiness/>) to develop an individualized plan of study based on the required coursework.

BA or BS to MPA (Master of Public Administration) Linked Program

The linked BA/MPA or BS/MPA program provides qualified Old Dominion University undergraduate students with the opportunity to earn a master's degree in public administration while taking credits in the MPA program as an undergraduate student. The program is designed for highly motivated students with the desire to immediately continue their education after the bachelor's degree. The program is especially relevant to individuals seeking to work (or currently working) in the public or non-profit sectors, but is suitable for students from any undergraduate major. Graduate courses may be taken during the fall and spring semester of the student's senior undergraduate year. Up to 12 graduate credits can count toward both the undergraduate and graduate degree and can meet upper-level General Education requirements. After receiving the undergraduate degree, a student will continue with the MPA program, taking MPA courses until completing the required 39 credit hours. Students in the linked program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Requirements for admission to the graduate program can be found in the School of Public Service section of the Graduate Catalog (<http://catalog.odu.edu/graduate/business/public-service/>). For additional information, please contact the School of Public Service in the Strome College of Business.

Bachelor of Science Biology with a Major in Biology-One Health (BS)

Requirements

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6

Oral Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#oral)	3
Mathematics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#math)	3
Language and Culture (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#language)	0-6
Information Literacy and Research (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#information)	3
Human Behavior (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#behavior)	3
Human Creativity (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#creativity)	3
Interpreting the Past (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#interpret)	3
Literature (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#literature)	3
Philosophy and Ethics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#philosophy)	3
The Nature of Science (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#nature)	8
Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

Mathematics: Select MATH 205 or MATH 211; C or better required

Information Literacy and Research: CS 121G, CS 126G or OEAS 130G required

Nature of Science: met by CHEM 121N-CHEM 122N and CHEM 123N-CHEM 124N

Writing Intensive Requirement: met in the major with BIOL 436W and BIOL 437W

Upper-Division General Education Requirements

- Option A. Approved Disciplinary Minor (a minimum of 12 hours determined by the department) or second degree or second major.
- Option B: Interdisciplinary Minor (specifically 12 hours, 3 of which may be in the major)
- Option C. An approved Certification Program such as teaching licensure
- Option D. Two Upper-Division (300-level or above) courses from outside the College of Sciences and not required by the major (6 hours)

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Biology Core

Required Biology Core Courses (C or better required in each course)

BIOL 121N & BIOL 122N	General Biology I and General Biology I Lab	4
BIOL 123N & BIOL 124N	General Biology II and General Biology II Lab	4

Upon completion of the above sequences, students must complete the following core courses, some of which are prerequisites or corequisites for upper-level biology courses (see course descriptions for individual courses):		
BIOL 291	Ecology	3
BIOL 292	Evolution	3
BIOL 293	Cell Biology	3
BIOL 294	Genetics	3
Total Credit Hours		20

One Health Major

General Education

Complete lower-division requirements	33-39
Complete upper-division requirements (minimum of 6 credit hours)	6

One Health

Biology Core

Complete biology core requirements	20

One Health Major *

BIOL 302	Introduction to immunology	3
BIOL 316	General Microbiology	3
BIOL 317	General Microbiology Laboratory	2
or BIOL 318	Online General Microbiology Laboratory	
BIOL 436W	Infectious Disease Epidemiology	3
BIOL 437W	One Health: People, Animals and the Environment	3

Upper-Division Biology Elective Courses *

Students must choose at least 16 elective hours from the following courses. Two of the elective courses must have a laboratory/field component. Students must pass all Biology electives with a C (2.0) or better (P=Passing for courses graded Pass/Fail).	16

BIOL 300	Fundamental Biomolecules
BIOL 301	Practice of Science-Biology **
BIOL 322	Ethnobotany
BIOL 401W	Entomology **
BIOL 404	Conservation Biology and Sustainable Development **
BIOL 408	Introduction to Pharmacology
BIOL 423W	Cellular and Molecular Biology
BIOL 430W	Microbial Pathogenesis
BIOL 440	Methods in Immunological Research **
BIOL 453	Molecular Ecology **
BIOL 454	Research in Pathogen Biology I: Laboratory Investigation **
BIOL 455	Research in Pathogen Biology II: Analysis **
BIOL 457	General Virology
BIOL 462	Microbial Genetics
BIOL 470T	Diseases that Changed our World
BIOL 481W	Forensic and Medical Entomology **
BIOL 482	Human and Veterinary Parasitology

Experiential Learning

A maximum of 6 credits can be applied toward Upper Division Biology Electives. All experiences must be One Health-related experiences. Documented prior approval is required. A passing grade (P) is required.

BIOL 367	Cooperative Education
BIOL 368	Internship
BIOL 369	Practicum
BIOL 487	Honors Research in Biology **
BIOL 488W	Honors Research in Biology **

BIOL 497 Undergraduate Research (Counts towards lab credit if 3 credits are earned.) **

BIOL 498 Independent Study

Non-Biology Degree Requirements (18 credits; C or better required in each course)

CHEM 121N	Foundations of Chemistry I Lecture	3
CHEM 122N	Foundations of Chemistry I Laboratory	1
CHEM 123N	Foundations of Chemistry II Lecture	3
CHEM 124N	Foundations of Chemistry II Laboratory	1
CHEM 211	Organic Chemistry I Lecture	3
PHYS 111N	Introductory General Physics	4
or OEAS 110N	Earth Science	
or OEAS 111N	Physical Geology	
STAT 130M	Elementary Statistics	3
or STAT 310	Introductory Data Analysis	

Total Credit Hours 107-113

* C or better required.

** Course has lab/field component.

Elective Credit

Elective credit may be needed to meet the minimum requirement of 120 credit hours for the degree.

Honors Program in Biology

A. Honors Research

Undergraduates with junior or senior standing and a GPA of 3.00 or better are eligible to participate in Honors Research. After consultation with the CDA (Chief Departmental Advisor), students select a professor who agrees to oversee the research project. Students then enroll in two courses, BIOL 487 and BIOL 488W. The courses may be taken in any sequence: fall-spring, spring-summer, summer-summer, summer-fall. Normally both semesters are required but a student may receive credit for only one semester. The research project, time commitment by the student and the basis for the grade are mutually determined by the student and professor. Because first-semester research results are often preliminary, the grade for BIOL 487 is based on a review paper and/or research proposal, which provides the student with an overview of the field. The second semester is graded on the final research paper and a seminar presented to the honors committee and interested faculty. Professors should encourage students to publish results and present papers at scientific meetings when appropriate. Students should also be urged to apply for funds from agencies that provide seed money to undergraduates. The program director can provide information on scientific societies that sponsor meetings and/or offer small grants. Successful completion of both courses with a C (2.0) or better will allow the student to use BIOL 488W as a lab course in meeting his/her requirements.

B. Bachelor's Degree with Honors in Biological Sciences and Honors Designation for Biology courses

Students maintaining an overall GPA of at least 3.25 and of 3.50 in biology can receive a "Bachelor's Degree with Honors in Biological Sciences" subject to satisfaction of the minimum University standards for the Honors degree and completion of one of the following two options:

Option 1: Successful completion of two semesters of biological research taken as BIOL 487 / BIOL 488W (Honors Research).

Option 2: Successful completion of three upper-division courses in Biological Sciences and achievement of the "Honors" designation in each.

Students petitioning for designation of an upper-division biology course as "Honors" must have a minimum overall GPA of 3.25 and a GPA of at least 3.50 in biology.

To receive the "Honors" designation for a course, students must achieve a final course score of at least 95% or the equivalent of an "A" on the University grade scale.

Faculty are encouraged to assign and work with students on other activities deemed appropriate for an "Honors" course designation and utilize the results of these activities in the assignment of a course grade.

Degree Program Guide

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

BA or BS to MBA (Master of Business Administration) Linked Program

The linked BA/MBA or BS/MBA program is an early entry to the MBA program of study. The early-entry program is designed for well qualified non-business undergraduate ODU students to start their MBA program prior to completing their undergraduate degree. Well qualified non-business undergraduate students may take MBA-level courses as early as three semesters prior to graduation and count up to 12 graduate credits toward their undergraduate degree. Students participating in the early-entry program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree). Early-entry program students should carefully consider their undergraduate degree program requirements when planning their course of study. Students in the early-entry program work in close consultation with the MBA Program Office and should refer to information in the Strome College of Business section in the graduate catalog (<http://catalog.odu.edu/graduate/stromecollegeofbusiness/>) to develop an individualized plan of study based on the required coursework.

BA or BS to MPA (Master of Public Administration) Linked Program

The linked BA/MPA or BS/MPA program provides qualified Old Dominion University undergraduate students with the opportunity to earn a master's degree in public administration while taking credits in the MPA program as an undergraduate student. The program is designed for highly motivated students with the desire to immediately continue their education after the bachelor's degree. The program is especially relevant to individuals seeking to work (or currently working) in the public or non-profit sectors, but is suitable for students from any undergraduate major. Graduate courses may be taken during the fall and spring semester of the student's senior undergraduate year. Up to 12 graduate credits can count toward both the undergraduate and graduate degree and can meet upper-level General Education requirements. After receiving the undergraduate degree, a student will continue with the MPA program, taking MPA courses until completing the required 39 credit hours. Students in the linked program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Requirements for admission to the graduate program can be found in the School of Public Service section of the Graduate Catalog (<http://catalog.odu.edu/graduate/business/public-service/>). For additional information, please contact the School of Public Service in the Strome College of Business.

Bachelor of Science Biology with a Major in Biomedical Sciences-Pre Health (BS)

Mathematics: MATH 205 or MATH 211; C or better required

Information Literacy and Research: CS 121G, CS 126G, or OEAS 130G required

Nature of Science: met by CHEM 121N-CHEM 122N and CHEM 123N-CHEM 124N

Human Behavior: met by SOC 201S and PSYC 201S

Upper-Division General Education Requirements

The Professional Education core satisfies this requirement for the secondary education concentration.

- Option A. Approved Disciplinary Minor (a minimum of 12 hours determined by the department) or second degree or second major.
- Option B: Interdisciplinary Minor (specifically 12 hours, 3 of which may be in the major)
- Option C. An approved Certification Program such as teaching licensure
- Option D. Two Upper-Division (300-level or above) courses from outside the College of Sciences and not required by the major (6 hours)

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Biology Core

Required Biology Core Courses (C or better required in each course)

BIOL 121N & BIOL 122N	General Biology I and General Biology I Lab	4
BIOL 123N & BIOL 124N	General Biology II and General Biology II Lab	4
BIOL 293	Cell Biology	3
BIOL 294	Genetics	3
Select one of the following:		8
BIOL 240 & BIOL 241	Fundamentals of Anatomy and Physiology I and Fundamentals of Anatomy and Physiology II	

BIOL 250 & BIOL 251	Human Anatomy and Physiology I and Human Anatomy and Physiology II	
Total Credit Hours		22

Biomedical Sciences-Pre Health Major

General Education

Complete lower-division requirements	30-36
Complete upper-division requirements (minimum of 6 credit hours)	6

Biology Core

Complete the biology core	22

Upper-Division Required Biology Courses (C or better required in each course)

BIOL 302	Introduction to immunology	3
BIOL 316	General Microbiology	3
BIOL 317	General Microbiology Laboratory	2
or BIOL 318	Online General Microbiology Laboratory	

Writing Intensive Requirement

Choose a Writing Intensive (W) course from the following Upper-Division Biology Electives or BIOL 405W, which requires the approval of topic/sponsor or a biomedical-specific course section. BIOL 405W will NOT count towards the upper-division Biology electives.

Upper-Division Biology Elective Courses

Students must choose 16 elective credit hours from the following Biology elective courses. At least one of the courses must be BIOL 416, BIOL 440, BIOL 454, or BIOL 476. Two laboratory-based courses (**) are required in the 16 elective credit hours. Students must pass all Biology electives with a C or better (P=Passing for courses graded Pass/Fail).

Select at least one of the following:

BIOL 416	Clinical Immunology
BIOL 440	Methods in Immunological Research **
BIOL 454	Research in Pathogen Biology I: Laboratory Investigation **
BIOL 476	Cancer Immunology and Immunotherapy

Select from the following to complete the Upper-Division Biology elective credits:

BIOL 301	Practice of Science-Biology **
BIOL 306	Human Genetics
BIOL 309	Foundations of Pathophysiology **
BIOL 313	Introduction to Neuroanatomy **
BIOL 314	Developmental Biology **
BIOL 355	Stem Cell Biology
BIOL 403	Medical Microbiology
BIOL 408	Introduction to Pharmacology
BIOL 423W	Cellular and Molecular Biology
BIOL 425	Cancer Biology
BIOL 426	Histology **
BIOL 430W	Microbial Pathogenesis
BIOL 436W	Infectious Disease Epidemiology
BIOL 437W	One Health: People, Animals and the Environment
BIOL 449	Microbial Impact on Human Health
BIOL 455	Research in Pathogen Biology II: Analysis **
BIOL 457	General Virology
BIOL 460	Frontiers in Nanoscience and Nanotechnology
BIOL 461	Human Cadaver Dissection **
BIOL 462	Microbial Genetics
BIOL 463	Cell Signaling in Host Pathogen Interactions

BIOL 464	Biomedical Applications of Low Temperature Plasmas
BIOL 465	Biotechnology
BIOL 470T	Diseases that Changed our World
BIOL 475	Neurobiology
BIOL 481W	Forensic and Medical Entomology **
BIOL 482	Human and Veterinary Parasitology
BIOL 490	Advanced Human Physiology

Experiential Learning

A maximum of 6 credits can be applied toward Upper-Division Biology credit hours. These courses require documented prior approval.

BIOL 367	Cooperative Education
BIOL 368	Internship
BIOL 369	Practicum
BIOL 487	Honors Research in Biology **
BIOL 488W	Honors Research in Biology **
BIOL 497	Undergraduate Research Counts towards lab credit if 3 credits are earned.
BIOL 498	Independent Study

Non-Biology Degree Requirements (C or better required in each course)

SOC 201S	Introduction to Sociology	3
PSYC 201S	Introduction to Psychology	3
CHEM 121N	Foundations of Chemistry I Lecture	3
CHEM 122N	Foundations of Chemistry I Laboratory	1
CHEM 123N	Foundations of Chemistry II Lecture	3
CHEM 124N	Foundations of Chemistry II Laboratory	1
CHEM 211	Organic Chemistry I Lecture	3
CHEM 212	Organic Chemistry I Laboratory	2
CHEM 213	Organic Chemistry II Lecture	3
CHEM 214	Organic Chemistry II Laboratory	2
CHEM 441	Biochemistry Lecture	3
PHYS 111N	Introductory General Physics	4
PHYS 112N	Introductory General Physics	4
STAT 130M	Elementary Statistics	3
or STAT 310	Introductory Data Analysis	

Total Credit Hours	120-126

** Lab-based course.

Elective Credit

Elective credit may be needed to meet the minimum requirement of 120 credit hours for the degree.

Honors Program in Biology

A. Honors Research

Undergraduates with junior or senior standing and a GPA of 3.00 or better are eligible to participate in Honors Research. After consultation with the CDA (Chief Departmental Advisor), students select a professor who agrees to oversee the research project. Students then enroll in two courses, BIOL 487 and BIOL 488W. The courses may be taken in any sequence: fall-spring, spring-summer, summer-summer, summer-fall. Normally both semesters are required but a student may receive credit for only one semester. The research project, time commitment by the student and the basis for the grade are mutually determined by the student and professor. Because first-semester research results are often preliminary, the grade for BIOL 487 is based on a review paper and/or research proposal, which provides the student with an overview of the field. The second semester is graded on the final research paper and a seminar presented to the honors committee and interested faculty. Professors should encourage

students to publish results and present papers at scientific meetings when appropriate. Students should also be urged to apply for funds from agencies that provide seed money to undergraduates. The program director can provide information on scientific societies that sponsor meetings and/or offer small grants. Successful completion of both courses with a C (2.0) or better will allow the student to use BIOL 488W as a lab course in meeting his/her requirements.

B. Bachelor's Degree with Honors in Biological Sciences and Honors Designation for Biology courses

Students maintaining an overall GPA of at least 3.25 and of 3.50 in biology can receive a "Bachelor's Degree with Honors in Biological Sciences" subject to satisfaction of the minimum University standards for the Honors degree and completion of one of the following two options:

Option 1: Successful completion of two semesters of biological research taken as BIOL 487 / BIOL 488W (Honors Research).

Option 2: Successful completion of three upper-division courses in Biological Sciences and achievement of the "Honors" designation in each.

Students petitioning for designation of an upper-division biology course as "Honors" must have a minimum overall GPA of 3.25 and a GPA of at least 3.50 in biology.

To receive the "Honors" designation for a course, students must achieve a final course score of at least 95% or the equivalent of an "A" on the University grade scale.

Faculty are encouraged to assign and work with students on other activities deemed appropriate for an "Honors" course designation and utilize the results of these activities in the assignment of a course grade.

Degree Program Guide

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

BA or BS to MBA (Master of Business Administration) Linked Program

The linked BA/MBA or BS/MBA program is an early entry to the MBA program of study. The early-entry program is designed for well qualified non-business undergraduate ODU students to start their MBA program prior to completing their undergraduate degree. Well qualified non-business undergraduate students may take MBA-level courses as early as three semesters prior to graduation and count up to 12 graduate credits toward their undergraduate degree. Students participating in the early-entry program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree). Early-entry program students should carefully consider their undergraduate degree program requirements when planning their course of study. Students in the early-entry program work in close consultation with the MBA Program Office and should refer to information in the Strome College of Business section in the graduate catalog (<http://catalog.odu.edu/graduate/stromecollegeofbusiness/>) to develop an individualized plan of study based on the required coursework.

BA or BS to MPA (Master of Public Administration) Linked Program

The linked BA/MPA or BS/MPA program provides qualified Old Dominion University undergraduate students with the opportunity to earn a master's degree in public administration while taking credits in the MPA program as an undergraduate student. The program is designed for highly motivated students with the desire to immediately continue their education after the bachelor's degree. The program is especially relevant to individuals seeking to work (or currently working) in the public or non-profit sectors, but is suitable for students from any undergraduate major. Graduate courses may be taken during the fall and spring semester of the student's senior undergraduate year. Up to 12 graduate credits can count toward both the undergraduate and graduate degree and can meet upper-level General Education requirements. After receiving the undergraduate degree, a student will continue with the MPA program, taking MPA courses until completing the required 39 credit hours. Students in the linked program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Requirements for admission to the graduate program can be found in the School of Public Service section of the Graduate Catalog (<http://catalog.odu.edu/graduate/business/public-service/>). For additional information, please contact the School of Public Service in the Strome College of Business.

Mathematics: Select MATH 205 or MATH 211; C or better required

Information Literacy and Research: CS 121G, CS 126G or OEAS 130G required

Nature of Science: met by CHEM 121N-CHEM 122N and CHEM 123N-CHEM 124N

Upper-Division General Education Requirements

The Professional Education core satisfies this requirement for the secondary education concentration.

- Option A. Approved Disciplinary Minor (a minimum of 12 hours determined by the department) or second degree or second major.
- Option B: Interdisciplinary Minor (specifically 12 hours, 3 of which may be in the major)
- Option C. An approved Certification Program such as teaching licensure
- Option D. Two Upper-Division (300-level or above) courses from outside the College of Sciences and not required by the major (6 hours)

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.

- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Biology Core

Required Biology Core Courses (C or better required in each course)

BIOL 121N & BIOL 122N	General Biology I and General Biology I Lab	4
BIOL 123N & BIOL 124N	General Biology II and General Biology II Lab	4

Upon completion of the above sequences, students must complete the following core courses, some of which are prerequisites or corequisites for upper-level biology courses (see course descriptions for individual courses):

BIOL 291	Ecology	3
BIOL 292	Evolution	3
BIOL 293	Cell Biology	3
BIOL 294	Genetics	3

Total Credit Hours 20

Biology with a Major in Marine Biology

The marine biology major provides students with coursework, specialized advising, and practical experience in marine biology while ensuring a strong, balanced education in one of the traditional natural sciences in which students major. A research, practicum, or internship experience in marine biology is strongly encouraged. Marine biology students may also select a minor in ocean and earth science.

General Education

Complete lower-division requirements	33-40
Complete upper-division requirements (minimum of 6 credit hours)	6

Biology Core ¹

Complete biology core requirements	20

Writing Intensive Requirement ¹

Choose a Writing Intensive (W) course from BIOL 415W, 471W, 488W or 405W which requires the approval of topic/sponsor. BIOL 405W will NOT count towards the upper-division Biology elective hours or the laboratory-based course requirement. BIOL 415W and BIOL 488W will count toward the upper-division Biology electives and the laboratory-based course requirement. BIOL 471W will only count toward the upper-division credit hour requirement and will not satisfy one of the laboratory-based course requirements.

Marine Biology Major ¹

BIOL 331	Marine Biology	3
OEAS 306	Oceanography	3

Upper-Division Biology Elective Courses ¹

Students must choose a minimum of three laboratory-based Marine Biology courses and complete a minimum of 13 upper-division elective credit hours. If the three laboratory-based courses satisfy the 13 hours, no additional electives will be required. If they do not satisfy the 13 credit hours, any additional 300/400-level Biology courses may be taken to satisfy the 13 credit hours. Marine Biology laboratory courses include: BIOL 301, BIOL 307, BIOL 402, BIOL 415W, BIOL 420, BIOL 424, BIOL 453, BIOL 487, BIOL 488W, and BIOL 497.

Non-Biology Degree Requirements ¹

CHEM 121N	Foundations of Chemistry I Lecture	3
CHEM 122N	Foundations of Chemistry I Laboratory	1
CHEM 123N	Foundations of Chemistry II Lecture	3
CHEM 124N	Foundations of Chemistry II Laboratory	1
CHEM 211	Organic Chemistry I Lecture	3

OEAS 110N	Earth Science	4
or OEAS 111N	Physical Geology	
PHYS 111N	Introductory General Physics	4
STAT 130M	Elementary Statistics	3
or STAT 310	Introductory Data Analysis	

Total Credit Hours 100-107

¹ All required, elective, and writing intensive courses must be passed with a C (2.0) or better. A passing grade (P) is required in courses graded pass/fail.

Elective Credit

Elective credit may be needed to meet the minimum requirement of 120 credit hours for the degree.

Honors Program in Biology

A. Honors Research

Undergraduates with junior or senior standing and a GPA of 3.00 or better are eligible to participate in Honors Research. After consultation with the CDA (Chief Departmental Advisor), students select a professor who agrees to oversee the research project. Students then enroll in two courses, BIOL 487 and BIOL 488W. The courses may be taken in any sequence: fall-spring, spring-summer, summer-summer, summer-fall. Normally both semesters are required but a student may receive credit for only one semester. The research project, time commitment by the student and the basis for the grade are mutually determined by the student and professor. Because first-semester research results are often preliminary, the grade for BIOL 487 is based on a review paper and/or research proposal, which provides the student with an overview of the field. The second semester is graded on the final research paper and a seminar presented to the honors committee and interested faculty. Professors should encourage students to publish results and present papers at scientific meetings when appropriate. Students should also be urged to apply for funds from agencies that provide seed money to undergraduates. The program director can provide information on scientific societies that sponsor meetings and/or offer small grants. Successful completion of both courses with a C (2.0) or better will allow the student to use BIOL 488W as a lab course in meeting his/her requirements.

B. Bachelor's Degree with Honors in Biological Sciences and Honors Designation for Biology courses

Students maintaining an overall GPA of at least 3.25 and of 3.50 in biology can receive a "Bachelor's Degree with Honors in Biological Sciences" subject to satisfaction of the minimum University standards for the Honors degree and completion of one of the following two options:

Option 1: Successful completion of two semesters of biological research taken as BIOL 487 / BIOL 488W (Honors Research).

Option 2: Successful completion of three upper-division courses in Biological Sciences and achievement of the "Honors" designation in each.

Students petitioning for designation of an upper-division biology course as "Honors" must have a minimum overall GPA of 3.25 and a GPA of at least 3.50 in biology.

To receive the "Honors" designation for a course, students must achieve a final course score of at least 95% or the equivalent of an "A" on the University grade scale.

Faculty are encouraged to assign and work with students on other activities deemed appropriate for an "Honors" course designation and utilize the results of these activities in the assignment of a course grade.

Degree Program Guide

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work

and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

Graduate courses may be taken during the fall and spring semester of the student's senior undergraduate year. Up to 12 graduate credits can count toward both the undergraduate and graduate degree and can meet upper-level General Education requirements. After receiving the undergraduate degree, a

student will continue with the MPA program, taking MPA courses until completing the required 39 credit hours. Students in the linked program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Requirements for admission to the graduate program can be found in the School of Public Service section of the Graduate Catalog (<http://catalog.odu.edu/graduate/business/public-service/>). For additional information, please contact the School of Public Service in the Strome College of Business.

Bachelor of Science

Biology with a Major in Secondary Biology Education (6-12) (BS)

Requirements

The Nature of Science (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#nature)	8
Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

Mathematics: Select MATH 205 or MATH 211; C or better required

Information Literacy and Research: CS 121G, CS 126G or OEAS 130G required

Nature of Science: met by CHEM 121N-CHEM 122N and CHEM 123N-CHEM 124N

Upper-Division General Education Requirements

Met in the major through professional education coursework.

Requirements for Graduation

Requirements for graduation include completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better, completion of the Biology and Senior Assessments, a minimum cumulative 2.75 GPA, in the major area, and in the professional education core, with no grade less than a C in the major and C- in the professional education core; successful completion of the Teacher Candidate Internship and a minimum of 120 credit hours, which must include both a minimum of 30 credit hours overall and 12 credit hours in upper-level courses in the major program from Old Dominion University. Note that a grade of C (2.0) or better must be earned in all biology courses used to satisfy departmental requirements.

Licensure requirements also include certificate of completion in First Aid/AED/CPR, Dyslexia Awareness Training, Child Abuse and Neglect Recognition and Intervention Training, and Regulations Governing the Use of Restraint and Seclusion in Elementary and Secondary Schools, and Cultural Competence Training.

Biology Core

Required Biology Core Courses (C or better required in each course)

BIOL 121N & BIOL 122N	General Biology I and General Biology I Lab	4
BIOL 123N & BIOL 124N	General Biology II and General Biology II Lab	4
Upon completion of the above sequences, students must complete the following core courses, some of which are prerequisites or corequisites for upper-level biology courses (see course descriptions for individual courses):		
BIOL 291	Ecology	3
BIOL 292	Evolution	3
BIOL 293	Cell Biology	3
BIOL 294	Genetics	3
Total Credit Hours		20

Biology with a Major in Secondary Biology Education (6-12)

This program leads to eligibility for teacher licensure in Virginia and is available only to individuals holding a baccalaureate degree or completing requirements for a Bachelor of Science degree in biology.

General Education

Complete lower-division requirements 33-40

Complete upper-division requirements (met in the major through professional education coursework)

Biology Core

Complete biology core requirements 20

Biology Requirements

BIOL 240 or BIOL 250	Fundamentals of Anatomy and Physiology I Human Anatomy and Physiology I	4
BIOL 307 or BIOL 336	Invertebrate Zoology Vertebrate Zoology	4-5
BIOL 308	Botany	4
Biology electives *		8

Non-Biology Requirements

CHEM 121N	Foundations of Chemistry I Lecture	3
CHEM 122N	Foundations of Chemistry I Laboratory	1
CHEM 123N	Foundations of Chemistry II Lecture	3
CHEM 124N	Foundations of Chemistry II Laboratory	1
CHEM 211	Organic Chemistry I Lecture	3
Select one of the following:		3
OEAS 110N	Earth Science	
OEAS 111N	Physical Geology	
PHYS 111N	Introductory General Physics	
STAT 130M or STAT 310	Elementary Statistics Introductory Data Analysis	3

Professional Education Coursework (overall 2.75 GPA required)

STEM 103	Foundations of STEM Teaching: An Inquiry-Based Approach	2
STEM 201	Knowing and Learning in STEM Education	3
STEM 202	Classroom Interactions in STEM Education	3
STEM 401	Project Based Instruction in STEM Education	3

STEM 402	Perspectives on STEM	3
STEM 485	Apprentice Teaching	9
BIOL 468W	Research Methods in Mathematics and Science	3
Total Credit Hours		116-124

* Electives must be at the 300 level or above, to include one lab or field course. See the secondary biology education advisor of chief departmental advisor for details.

Elective Credit

Elective credit may be needed to meet the minimum requirement of 120 credit hours for the degree.

Additional Requirements and Information

Admission

Students must first declare secondary biology education (6-12) as their major with the appropriate advisor. All students must apply for and be admitted into the approved secondary biology education program. Students must meet the required criteria for admission by earning the minimum required grade point averages (GPA).

For the most current information on the prescribed Virginia Board of Education admission assessment, visit the Virginia Department of Education at <https://www.doe.virginia.gov/>.

Required grade point averages (GPA)

- A cumulative GPA of 2.75 is required.
- A major/content GPA of 2.75 is required - all biology courses must be passed with a grade of C (2.0) or above and all other science content courses must be passed with a grade of C- or higher.
- A professional education GPA of 2.75 is required – all professional education courses must be passed with a grade of C- or higher

Although students may enroll in a limited number of education courses, students must be admitted into the approved secondary biology education program prior to enrolling in any instructional strategies practicum education course. Students must also meet with an education advisor in the Office of Clinical Experiences.

Continuance

Students must maintain a cumulative GPA of 2.75, a major/content GPA of 2.75 and a professional education GPA of 2.75. Biology courses must be passed with a grade of C (2.0) or higher. The remaining courses required for the major and in the professional education core must be completed with a grade of C- or higher for continuance. A professional education GPA of 2.75 is required for continuance. Students must take and pass the Praxis Subject Assessment, Biology content knowledge (formerly Praxis II) prior to or while enrolled in the instructional strategies course. All assessments must be passed prior to the start of the Teacher Candidate Internship Orientation session.

Background Clearance Requirement

Old Dominion University requires a background clearance check of candidates interested in many of the professional education programs. Professional education programs have several field experiences that are required for continuance and graduation from the program. The background clearance must be successfully completed prior to a field experience placement. Candidates will be provided a field experience placement when the background check process is completed with resolution of any issues. The process to complete the ODU clearance background check is located at: <http://www.odu.edu/success/academic/teacher-education/placement/background-checks> (<http://www.odu.edu/success/academic/teacher-education/placement/background-checks/>). The ODU clearance process includes: an FBI fingerprint, a child protective service/social service review, and a Virginia State Police sex offender registry review. Candidates interested in the professional education programs are advised to complete

this clearance process immediately upon entry into the program since the clearance process takes a minimum of eight weeks to complete.

Virginia Board of Education Prescribed Assessments for Licensure

Praxis Subject Assessment, Biology content knowledge: (test code: 5236) – passing score of 154 is required

To review more information on the Virginia Board of Education prescribed assessments visit the Office of Clinical Experiences website, www.odu.edu/oce (<http://www.odu.edu/oce/>).

Due to changing University requirements, national accreditation standards, and the Virginia Board of Education licensure regulations, the teacher preparation programs in the College of Sciences are under constant revision. Any changes resulting from these factors supersede the program requirements described in this Catalog. Students are encouraged to obtain current program information from their advisors and from the Office of Clinical Experiences website at: www.odu.edu/oce (<http://www.odu.edu/oce/>).

Honors Program in Biology

A. Honors Research

Undergraduates with junior or senior standing and a GPA of 3.00 or better are eligible to participate in Honors Research. After consultation with the CDA (Chief Departmental Advisor), students select a professor who agrees to oversee the research project. Students then enroll in two courses, BIOL 487 and BIOL 488W. The courses may be taken in any sequence: fall-spring, spring-summer, summer-summer, summer-fall. Normally both semesters are required but a student may receive credit for only one semester. The research project, time commitment by the student and the basis for the grade are mutually determined by the student and professor. Because first-semester research results are often preliminary, the grade for BIOL 487 is based on a review paper and/or research proposal, which provides the student with an overview of the field. The second semester is graded on the final research paper and a seminar presented to the honors committee and interested faculty. Professors should encourage students to publish results and present papers at scientific meetings when appropriate. Students should also be urged to apply for funds from agencies that provide seed money to undergraduates. The program director can provide information on scientific societies that sponsor meetings and/or offer small grants. Successful completion of both courses with a C (2.0) or better will allow the student to use BIOL 488W as a lab course in meeting his/her requirements.

B. Bachelor's Degree with Honors in Biological Sciences and Honors Designation for Biology courses

Students maintaining an overall GPA of at least 3.25 and of 3.50 in biology can receive a "Bachelor's Degree with Honors in Biological Sciences" subject to satisfaction of the minimum University standards for the Honors degree and completion of one of the following two options:

Option 1: Successful completion of two semesters of biological research taken as BIOL 487 / BIOL 488W (Honors Research).

Option 2: Successful completion of three upper-division courses in Biological Sciences and achievement of the "Honors" designation in each.

Students petitioning for designation of an upper-division biology course as "Honors" must have a minimum overall GPA of 3.25 and a GPA of at least 3.50 in biology.

To receive the "Honors" designation for a course, students must achieve a final course score of at least 95% or the equivalent of an "A" on the University grade scale.

Faculty are encouraged to assign and work with students on other activities deemed appropriate for an "Honors" course designation and utilize the results of these activities in the assignment of a course grade.

Degree Program Guide

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

Language and Culture I & II may be met in high school and are not included in this 4-year plan. Please see requirement details.

BA or BS to MBA (Master of Business Administration) Linked Program

The linked BA/MBA or BS/MBA program is an early entry to the MBA program of study. The early-entry program is designed for well qualified non-business undergraduate ODU students to start their MBA program prior to completing their undergraduate degree. Well qualified non-business undergraduate students may take MBA-level courses as early as three semesters prior to graduation and count up to 12 graduate credits toward their undergraduate degree. Students participating in the early-entry program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree). Early-entry program students should carefully consider their undergraduate degree program requirements when planning their course of study. Students in the early-entry program work in close consultation with the MBA Program Office and should refer to information in the Strome College of Business section in the graduate catalog (<http://catalog.odu.edu/>)

graduate/stromecollegeofbusiness/) to develop an individualized plan of study based on the required coursework.

BA or BS to MPA (Master of Public Administration) Linked Program

The linked BA/MPA or BS/MPA program provides qualified Old Dominion University undergraduate students with the opportunity to earn a master's degree in public administration while taking credits in the MPA program as an undergraduate student. The program is designed for highly motivated students with the desire to immediately continue their education after the bachelor's degree. The program is especially relevant to individuals seeking to work (or currently working) in the public or non-profit sectors, but is suitable for students from any undergraduate major. Graduate courses may be taken during the fall and spring semester of the student's senior undergraduate year. Up to 12 graduate credits can count toward both the undergraduate and graduate degree and can meet upper-level General Education requirements. After receiving the undergraduate degree, a student will continue with the MPA program, taking MPA courses until completing the required 39 credit hours. Students in the linked program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Requirements for admission to the graduate program can be found in the School of Public Service section of the Graduate Catalog (<http://catalog.odu.edu/graduate/business/public-service/>). For additional information, please contact the School of Public Service in the Strome College of Business.

Minor Biology Minor

The minor in biology offers students additional support to their chosen majors, prepares students for post-baccalaureate professional or graduate programs, offers greater job opportunities to graduates, and provides recognition of study in this academic area.

Requirements

BIOL 121N	General Biology I	3
BIOL 122N	General Biology I Lab	1
BIOL 123N	General Biology II	3
BIOL 124N	General Biology II Lab	1
Select a minimum of 12 credit hours of additional biology coursework		12
Total Credit Hours		20

BIOL 121N, BIOL 122N, BIOL 123N and BIOL 124N must be completed as prerequisites and are not included in the calculation of the grade point average for the minor. The 12 credits hours of coursework may include one course (3-4 credits) at the 200-level and the remaining courses (8-9 credits) at the 300-400 level. Courses at the 300-400 level may not include unstructured coursework (experiential learning). For completion of the minor, a student must have a C (2.0) or better in all of the courses designated for the minor excluding prerequisite courses. A minimum of 6 hours of upper-level work must be through courses offered by Old Dominion University.

Chemistry and Biochemistry

Web Site: <http://www.odu.edu/chemistry> (<http://www.odu.edu/chemistry/>)

Craig Bayse, Chair
Kalpana Mahadevan, Chief Departmental Advisor

The Department of Chemistry and Biochemistry offers a program in biochemistry, with optional majors in biochemistry-research and secondary chemistry education (6-12), and an American Chemical Society certified program in chemistry, with optional majors in chemistry-pre-med, chemistry-research, chemical forensic science, and secondary chemistry education (6-12). Chemistry has been called the "central science" because it

makes major contributions to agriculture, biology, electronics, engineering, environmental science, medicine, mineralogy and pharmacology. Either undergraduate degree program gives the student the necessary background for continued academic study at the master's and PhD levels, entry into medical, dental, and pharmacy schools, as well as a career in the chemical industry. Students not only gain an excellent education, but also have many research opportunities available to enrich their understanding of real-world problems. Cooperative arrangements exist with the nearby Eastern Virginia Medical School, NASA Langley Research Center and the Thomas Jefferson National Accelerator Facility.

Preparation for Medically Related Fields

Students seeking careers in pharmacy, medicine, dentistry, or veterinary science are advised to complete a major in a specific discipline. Such students electing either chemistry or biochemistry as their major must meet all of the requirements for the degree of Bachelor of Science in chemistry or biochemistry. In addition, students must complete all of the prerequisite coursework specified for admission into the professional program of their choice. Students should consult the Office of Admissions of such professional programs for specific prerequisite coursework and other entrance requirements. Students are also advised to register with the Prehealth Advisory Committee at Old Dominion University (683-6790).

Advanced Placement

Students who receive a qualifying score on the Advanced Placement of the College Board exam in chemistry may receive credit for introductory chemistry courses. The appropriate credit will be determined after consultation with an advisor. See the equivalency charts on the ODU website at <https://www.odu.edu/academics/academic-records/score-analysis/ap-ib> (<https://www.odu.edu/academics/academic-records/score-analysis/ap-ib/>). Students may also refer to the section of this Catalog on Prior Learning Assessment Credit Options at the Undergraduate Level.

Programs

Bachelor of Science Programs

- Biochemistry (BS) (p. 695)
- Biochemistry with a Major in Biochemistry-Research (BS) (p. 696)
- Biochemistry with a Major in Secondary Chemistry Education (6-12) (BS) (p. 699)
- Chemistry (BS) (p. 701)
- Chemistry with a Major in Chemical Forensic Science (BS) (p. 703)
- Chemistry with a Major in Chemistry Pre-Med (BS) (p. 705)
- Chemistry with a Major in Chemistry-Research (BS) (p. 707)
- Chemistry with a Major in Secondary Chemistry Education (6-12) (BS) (p. 709)

Minor Program

- Chemistry Minor (p. 712)

Linked Bachelor's/Master's Degree Programs

The linked BS in biochemistry and the MS in chemistry allows exceptional students to count up to 12 hours of graduate courses toward both a BS degree in biochemistry and an MS degree in chemistry. Students in the combined program must complete Senior Thesis I and II (CHEM 490 and CHEM 499), be accepted into the chemistry master's program, and earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree). Additional requirements apply; please contact the Chief Departmental Advisor.

Linked Bachelor's/Master's Degree Programs

The linked BS in chemistry and the MS in chemistry allows exceptional students to count up to 12 hours of graduate courses toward both a BS

degree in chemistry and an MS degree in chemistry. Students in the combined program must complete Senior Thesis I and II (CHEM 490 and CHEM 499), be accepted into the chemistry master's program, and earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree). Additional requirements apply; please contact the Chief Departmental Advisor.

Bachelor of Science Biochemistry (BS)

Requirements

Lower-Division General Education

Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

Written Communication: Grade of C or better required in both courses

Oral Communication: COMM 101R

Mathematics: MATH 163 required

Information Literacy and Research: satisfied in the major by CHEM 160G

The Nature of Science: BIOL 121N, BIOL 122N, BIOL 123N, BIOL 124N

Upper-Division General Education

- Option A. Approved Disciplinary Minor (a minimum of 12 hours determined by the department), or second degree or second major.
- Option B: Interdisciplinary Minor (specifically 12 hours, 3 of which may be in the major)
- Option C. An approved Certification Program such as teaching licensure
- Option D. Two Upper-Division Courses from outside the College of Sciences and not required by the major (6 hours)

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.

- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Biochemistry Major

Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

Written Communication: Grade of C or better required in both courses

Oral Communication: COMM 101R

Mathematics: MATH 163

Information Literacy and Research: satisfied in the major by CHEM 160G

The Nature of Science: BIOL 121N, BIOL 122N, BIOL 123N, BIOL 124N

Upper-Division General Education

- Option A. Approved Disciplinary Minor (a minimum of 12 hours determined by the department), or second degree or second major.
- Option B: Interdisciplinary Minor (specifically 12 hours, 3 of which may be in the major)
- Option C. An approved Certification Program such as teaching licensure
- Option D. Two Upper-Division Courses from outside the College of Sciences and not required by the major (6 hours)

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Biochemistry Core

In addition to completing the University's lower-division general education requirements and upper-division general education requirements, a biochemistry major must complete the following courses.

Required Chemistry Courses

CHEM 121N	Foundations of Chemistry I Lecture	3
CHEM 122N	Foundations of Chemistry I Laboratory	1
CHEM 123N	Foundations of Chemistry II Lecture	3
CHEM 124N	Foundations of Chemistry II Laboratory	1-2
or CHEM 125	Foundations of Chemistry II Lab with Introduction to Chemical Research	
CHEM 160G	Introduction to Chemistry and Biochemistry Research and Careers	3

CHEM 211	Organic Chemistry I Lecture	3
CHEM 212	Organic Chemistry I Laboratory	2
CHEM 213	Organic Chemistry II Lecture	3
CHEM 214	Organic Chemistry II Laboratory	2
or CHEM 216	Advanced Organic Chemistry Laboratory	
CHEM 321 & CHEM 322	Analytical Chemistry Lecture and Analytical Chemistry Laboratory	5
CHEM 331 & CHEM 333	Physical Chemistry Lecture I and Physical Chemistry Lecture II	6
CHEM 441	Biochemistry Lecture	3
CHEM 442W	Biochemistry Laboratory	4
CHEM 443	Intermediate Biochemistry	3
CHEM 485	Chemistry and Biochemistry Seminar	1

Other Required courses

MATH 211	Calculus I	4
MATH 212	Calculus II	4
PHYS 231N & PHYS 232N	University Physics I and University Physics II	8
BIOL 293	Cell Biology	3
BIOL 294	Genetics	3

Total Credit Hours **65-66**

Biochemistry majors must have a C or better in all courses required for the major, including prerequisite courses, and must complete a minimum of 12 credits in upper-level (300/400) chemistry courses at Old Dominion University. Written permission by the chief departmental advisor or chair is required prior to taking upper-level chemistry courses at other institutions.

Research Major

Students with an interest in pursuing biochemical research after graduation or in graduate school or those seeking a deeper understanding of biochemical research and applications may pursue a Biochemistry-Research major. Courses taken for the research concentration will substitute for courses in the regular curriculum; please consult the Chief Departmental Advisor for specific information on substitutions. Additionally, all regular BS-Biochemistry degree requirements must be met (with the exception of approved substitutions).

General Education

Complete lower-division requirements	38-44
Complete upper-division requirements (minimum of 6 credit hours)	6

Biochemistry Core

Complete the biochemistry core	65-66

Chemistry-Research Major

CHEM 490	Senior Thesis I	1
CHEM 499	Senior Thesis II	2

Select two of the following research-oriented courses: 3-5

CHEM 125	Foundations of Chemistry II Lab with Introduction to Chemical Research
CHEM 216	Advanced Organic Chemistry Laboratory
CHEM 497	Independent Study
CHEM 498	Independent Study

Total Credit Hours **115-124**

Elective Credit

Elective credit may be needed to meet the minimum requirement of 120 credit hours.

Additional Requirements and Information

ACS-Certified Degree

Biochemistry majors can attain an ACS-certified degree for chemistry content if they also complete the following.

CHEM 332W	Experimental Physical Chemistry I	2
CHEM 351	Inorganic Chemistry	3
Select two of the following lecture electives:		6
CHEM 411	Natural Products Chemistry in the Carribean	
CHEM 415	Intermediate Organic Chemistry	
CHEM 421	Instrumental Analysis Lecture	
CHEM 449	Environmental Chemistry	
CHEM 451	Advanced Inorganic Chemistry	
Select two of the following laboratory electives:		4
CHEM 334W	Experimental Physical Chemistry II	
CHEM 352	Inorganic Chemistry Laboratory	
CHEM 422	Instrumental Analysis Laboratory	
Total Credit Hours		15

Degree Program Guide

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

Course	Title	Credit Hours

Linked Bachelor's/Master's Degree Programs

The linked BS in biochemistry and the MS in chemistry allows exceptional students to count up to 12 hours of graduate courses toward both a BS degree in biochemistry and an MS degree in chemistry. Students in the combined program must complete Senior Thesis I and II (CHEM 490 and CHEM 499), be accepted into the chemistry master's program, and earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree). Additional requirements apply; please contact the Chief Departmental Advisor.

Bachelor of Science Biochemistry with a Major in Secondary Chemistry Education (6-12) (BS)

Biochemistry with a Major in Secondary Chemistry Education (6-12)

This program leads to eligibility for teacher licensure in Virginia and is available only to individuals holding a baccalaureate degree or completing requirements for a Bachelor of Science degree in biochemistry. Due to changing University requirements, national accreditation standards, and the Virginia Board of Education licensure regulations, the teacher preparation programs in the College of Sciences are under constant revision. Any changes resulting from these factors supersede the program requirements described in this Catalog. Students are encouraged to obtain current program information from their advisors and the Office of Clinical Experiences website at <https://www.odu.edu/oce> (<https://www.odu.edu/oce/>).

Admission

Students must first declare the biochemistry, secondary chemistry education (6-12) as their major with the chemistry departmental advisor. All students must apply for and be admitted into the approved biochemistry, secondary chemistry education program. Students must meet the required criteria for admission by earning the minimum required grade point averages (GPA).

Required grade point averages (GPA)

- A cumulative GPA of 2.75 is required.
- A major/content GPA of 2.75 is required - all chemistry courses must be passed with a grade of C (2.0) or above and all other science content courses must be passed with a grade of C- or higher.
- A professional education GPA of 2.75 is required – all professional education courses must be passed with a grade of C- or higher.

Although students may enroll in a limited number of education courses, students must be admitted into the approved biochemistry teacher preparation program prior to enrolling in any instructional strategies practicum education course. Students must also meet with an education advisor in the Office of Clinical Experiences.

Continuance

Students must maintain a cumulative GPA of 2.75, a major/content GPA of 2.75 and a professional education GPA of 2.75. Chemistry courses must be passed with a grade of C (2.0) or higher. The remaining courses required for the major and in the professional education core must be completed with a grade of C- or higher for continuance. A professional education GPA of 2.75 is required for continuance. Students must take and pass the Praxis Subject Assessment, Chemistry content knowledge (formerly Praxis II) prior to or while enrolled in the instructional strategies course. All assessments must be passed prior to the start of the Teacher Candidate Internship Orientation session.

Background Clearance Requirement

Old Dominion University requires a background clearance check of candidates interested in many of the professional education programs. Professional education programs have several field experiences that are required for continuance and graduation from the program. The background clearance must be successfully completed prior to a field experience placement. Candidates will be provided a field experience placement when the background check process is completed with resolution of any issues. The process to complete the ODU clearance background check is located at: <https://www.odu.edu/clinical-experiences/placement/background-checks> (<https://www.odu.edu/clinical-experiences/placement/background-checks/>). The ODU clearance process includes: an FBI fingerprint, a child protective service/social service review, and a Virginia State Police sex offender registry review. Candidates interested in the professional education programs

are advised to complete this clearance process immediately upon entry into the program since the clearance process takes a minimum of eight weeks to complete.

Virginia Board of Education Prescribed Assessments for Licensure

Praxis Subject Assessment, Chemistry content knowledge (test code: 5246) – passing score of 146 is required.

To review more information on the Virginia Board of Education prescribed assessments visit the Office of Clinical Experiences website at <https://www.odu.edu/oce> (<https://www.odu.edu/oce/>).

Requirements

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6
Oral Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#oral)	3
Mathematics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#math)	3
Language and Culture (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#language)	0-6
Information Literacy and Research (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#information)	3
Human Behavior (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#behavior)	3
Human Creativity (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#creativity)	3
Interpreting the Past (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#interpret)	3
Literature (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#literature)	3
Philosophy and Ethics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#philosophy)	3
The Nature of Science (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#nature)	8
Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

Written Communication: Grade of C or better required in both courses

Oral Communication: COMM 101R

Mathematics: MATH 163

Information Literacy and Research: satisfied in the major by CHEM 160G

The Nature of Science: BIOL 121N & BIOL 122N, BIOL 123N & BIOL 124N

Human Behavior: GEOG 101S

Additional hours may be required to meet the foreign language requirement.

Upper-Division General Education

The professional education core satisfies the Upper-Division General Education requirement.

Requirements for Graduation

Requirements for graduation include completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better, completion of the Senior Assessment, a minimum cumulative 2.75 GPA, in the major area, and in the professional education core, with no grade less than a C in the major and C- in the professional education core; successful completion of the Teacher Candidate Internship and a minimum of 129 credit hours, which must include both a minimum of 32 credit hours overall and 12 credit hours in upper-level courses in the major program from Old Dominion University. Note that a C

(2.0) must be earned in all chemistry courses used to satisfy departmental requirements.

Licensure requirements also include certificate of completion in First Aid/AED/CPR, Dyslexia Awareness Training, Child Abuse and Neglect Recognition and Intervention Training, and Regulations Governing the Use of Restraint and Seclusion in Elementary and Secondary Schools, and Cultural Competence Training.

Biochemistry Core

In addition to completing the University's lower-division general education requirements and upper-division general education requirements, a biochemistry, secondary chemistry education major seeking teacher licensure must complete the following courses.

Required Chemistry courses		
CHEM 121N	Foundations of Chemistry I Lecture	3
CHEM 122N	Foundations of Chemistry I Laboratory	1
CHEM 123N	Foundations of Chemistry II Lecture	3
CHEM 124N	Foundations of Chemistry II Laboratory	1-2
or CHEM 125	Foundations of Chemistry II Lab with Introduction to Chemical Research	
CHEM 160G	Introduction to Chemistry and Biochemistry Research and Careers	3
CHEM 211	Organic Chemistry I Lecture	3
CHEM 212	Organic Chemistry I Laboratory	2
CHEM 213	Organic Chemistry II Lecture	3
CHEM 214	Organic Chemistry II Laboratory	2
or CHEM 216	Advanced Organic Chemistry Laboratory	
CHEM 321 & CHEM 322	Analytical Chemistry Lecture and Analytical Chemistry Laboratory	5
CHEM 331	Physical Chemistry Lecture I	3
CHEM 333	Physical Chemistry Lecture II	3
CHEM 441	Biochemistry Lecture	3
CHEM 442W	Biochemistry Laboratory	4
CHEM 443	Intermediate Biochemistry	3
CHEM 485	Chemistry and Biochemistry Seminar	1
Other Required courses		
MATH 211	Calculus I	4
MATH 212	Calculus II	4
BIOL 293	Cell Biology	3
BIOL 294	Genetics	3
PHYS 231N	University Physics I	4
PHYS 232N	University Physics II	4
Total Credit Hours		65-66

Biochemistry majors must have a C or better in all courses required for the major, including prerequisite courses, and must complete a minimum of 12 credits in upper level (300/400) chemistry courses at Old Dominion University. Written permission by the chief departmental advisor or chair is required prior to taking upper-level chemistry courses at other institutions.

Oral Communication: COMM 101R

Mathematics: MATH 163

Information Literacy and Research: satisfied in the major by CHEM 160G

The Nature of Science: PHYS 231N-PHYS 232N

Upper-Division General Education

- Option A. Approved Disciplinary Minor (a minimum of 12 hours determined by the department), or second degree or second major.
- Option B: Interdisciplinary Minor (specifically 12 hours, 3 of which may be in the major)
- Option C. An approved Certification Program such as teaching licensure
- Option D. Two Upper-Division Courses from outside the College of Sciences and not required by the major (6 hours)

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Chemistry Major

General Education

Complete lower-division requirements	41-47
Complete upper-division requirements (minimum of 6 credit hours)	6

Required Courses

CHEM 121N	Foundations of Chemistry I Lecture (cannot earn credit for both 121N and 105N)	3
CHEM 122N	Foundations of Chemistry I Laboratory	1
CHEM 123N	Foundations of Chemistry II Lecture	3
CHEM 124N	Foundations of Chemistry II Laboratory	1-2

or CHEM 125	Foundations of Chemistry II Lab with Introduction to Chemical Research	
CHEM 160G	Introduction to Chemistry and Biochemistry Research and Careers	3
CHEM 211	Organic Chemistry I Lecture	3
CHEM 212	Organic Chemistry I Laboratory	2
CHEM 213	Organic Chemistry II Lecture	3
CHEM 214	Organic Chemistry II Laboratory	2
or CHEM 216	Advanced Organic Chemistry Laboratory	
CHEM 321 & CHEM 322	Analytical Chemistry Lecture and Analytical Chemistry Laboratory	5
CHEM 351	Inorganic Chemistry	3
CHEM 331	Physical Chemistry Lecture I	3
CHEM 332W	Experimental Physical Chemistry I	2
CHEM 333	Physical Chemistry Lecture II	3
CHEM 334W	Experimental Physical Chemistry II	2
CHEM 421 & CHEM 422	Instrumental Analysis Lecture and Instrumental Analysis Laboratory	6
CHEM 441	Biochemistry Lecture	3
CHEM 485	Chemistry and Biochemistry Seminar	1
Select two CHEM Electives from the following:		6
CHEM 415	Intermediate Organic Chemistry	
CHEM 439	Introduction to Pharmaceutical Chemistry	
CHEM 443	Intermediate Biochemistry	
CHEM 449	Environmental Chemistry	
CHEM 451	Advanced Inorganic Chemistry	
CHEM 453	Essentials of Toxicology	
Select one CHEM Laboratory from the following:		2-4
CHEM 352	Inorganic Chemistry Laboratory	
CHEM 442W	Biochemistry Laboratory	
Other required courses		
MATH 211	Calculus I	4
MATH 212	Calculus II	4
Total Credit Hours		112-121

Chemistry majors must have a C or better in all courses required for the major, including prerequisite courses, and must complete a minimum of 12 credits in upper-level (300/400) chemistry courses at Old Dominion University. Written permission by the chief departmental advisor or chair is required prior to taking upper-level chemistry courses at other institutions.

Elective Credit

Elective credit may be needed to meet the minimum requirement of 120 credit hours.

Honors in Chemistry

The honors program provides qualified students the opportunity for supervised individual study in their areas of interest. Admission to the program requires a cumulative GPA of 3.25 or higher and a GPA of 3.50 or higher in the major. Students must take two upper-division courses designated by the department to be honors courses. These are termed "Contract Honors Courses." A description of the procedures for these contract courses is found in the Honors College section of this Catalog.

Degree Program Guide

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

Written Communication: Grade of C or better required in both courses

Oral Communication: COMM 101R

Mathematics: STAT 130M required

Information Literacy and Research: satisfied in the major by CHEM 160G

Human Behavior: CRJS 215S required

Philosophy and Ethics: PHIL 345E recommended

The Nature of Science: PHYS 231N-PHYS 232N required

Impact of Technology: satisfied in the major by CHEM 320T

Upper-Division General Education

- Option A. Approved Disciplinary Minor (a minimum of 12 hours determined by the department), or second degree or second major.
- Option B: Interdisciplinary Minor (specifically 12 hours, 3 of which may be in the major)
- Option C. An approved Certification Program such as teaching licensure
- Option D. Two Upper-Division Courses from outside the College of Sciences and not required by the major (6 hours)

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Chemistry Core

Required Courses

CHEM 121N	Foundations of Chemistry I Lecture	3
CHEM 122N	Foundations of Chemistry I Laboratory	1
CHEM 123N	Foundations of Chemistry II Lecture	3
CHEM 124N	Foundations of Chemistry II Laboratory	1-2
or CHEM 125	Foundations of Chemistry II Lab with Introduction to Chemical Research	
CHEM 160G	Introduction to Chemistry and Biochemistry Research and Careers	3
CHEM 211	Organic Chemistry I Lecture	3
CHEM 212	Organic Chemistry I Laboratory	2
CHEM 213	Organic Chemistry II Lecture	3
CHEM 214	Organic Chemistry II Laboratory	2
or CHEM 216	Advanced Organic Chemistry Laboratory	
CHEM 321 & CHEM 322	Analytical Chemistry Lecture and Analytical Chemistry Laboratory	5
CHEM 331 & CHEM 332W	Physical Chemistry Lecture I and Experimental Physical Chemistry I *	5
CHEM 421 & CHEM 422	Instrumental Analysis Lecture and Instrumental Analysis Laboratory	6
CHEM 441	Biochemistry Lecture	3

Other Required Courses

BIOL 121N & BIOL 122N	General Biology I and General Biology I Lab	4

BIOL 123N & BIOL 124N	General Biology II and General Biology II Lab	4
MATH 211	Calculus I	4
MATH 212	Calculus II	4
Total Credit Hours		56-57

* Grade of C or better required in "W" courses if using to meet the University Writing Requirement (minimum of 3 credits total in "W" coursework required).

Chemical Forensic Science Major

General Education

Complete lower-division requirements	35-41
Complete upper-division requirements	6

Chemistry Core

Complete chemistry core	56-57

Chemical Forensic Science Major

CHEM 320T	Survey of Forensic Science	3
CHEM 325	Forensic Biochemistry and Microscopy with Laboratory	3
CHEM 359	Forensic Chemistry with Laboratory	3
CHEM 459	Advanced Forensic Chemistry and Crime Scene Investigation	3
CHEM 461	Forensic Professional Practice	3
CHEM 498 or CHEM 369	Independent Study Chemistry Practicum	2-3
CHEM 442W or CHEM 334W	Biochemistry Laboratory * Experimental Physical Chemistry II	2-4
CRJS 222	The Criminal Justice System	3

Total Credit Hours		119-129

* Grade of C or better required in "W" courses if using to meet the University Writing Requirement (minimum of 3 credits total in "W" coursework required).

Chemistry majors must have a C or better in all courses required for the major, including prerequisite courses, and must complete a minimum of 12 credits in upper-level (300/400) chemistry courses at Old Dominion University. Written permission by the chief departmental advisor or chair is required prior to taking upper-level chemistry courses at other institutions.

Elective Credit

Elective credit may be needed to meet the minimum requirement of 120 credit hours.

Honors in Chemistry

The honors program provides qualified students the opportunity for supervised individual study in their areas of interest. Admission to the program requires a cumulative GPA of 3.25 or higher and a GPA of 3.50 or higher in the major. Students must take two upper-division courses designated by the department to be honors courses. These are termed "Contract Honors Courses." A description of the procedures for these contract courses is found in the Honors College section of this Catalog.

Degree Program Guide

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

Credit Hours		12-18
Total Credit Hours		120-130

* Grade of C or better required in "W" courses if using to meet the University Writing Requirement (minimum of 3 credits total in "W" coursework required).

Linked Bachelor's/Master's Degree Programs

The linked BS in chemistry and the MS in chemistry allows exceptional students to count up to 12 hours of graduate courses toward both a BS degree in chemistry and an MS degree in chemistry. Students in the combined program must complete Senior Thesis I and II (CHEM 490 and CHEM 499), be accepted into the chemistry master's program, and earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree). Additional requirements apply; please contact the Chief Departmental Advisor.

Bachelor of Science Chemistry with a Major in Chemistry Pre-Med (BS) Requirements

CHEM 441	Biochemistry Lecture	3
CHEM 442W	Biochemistry Laboratory	4
CHEM 485	Chemistry and Biochemistry Seminar	1
Select two CHEM Electives from the following:		6
CHEM 415	Intermediate Organic Chemistry	
CHEM 439	Introduction to Pharmaceutical Chemistry	
CHEM 443	Intermediate Biochemistry	
CHEM 449	Environmental Chemistry	
CHEM 451	Advanced Inorganic Chemistry	
CHEM 453	Essentials of Toxicology	

Total Credit Hours **49-50**

Chemistry Pre-Med Major

Students who perform well in the life sciences will have the option of taking classes to prepare them for medical school, while also having a multitude of career options, post-graduation with chemical instrumentation experience. The chemistry pre-med major offers training that is directly applicable to medical school curricula, making students attractive applicants for pre-health-related programs. Some courses for the pre-med major will substitute for courses in the regular curriculum. Please contact the Chief Departmental Advisor.

General Education

Complete lower-division requirements	38-44

Linked Bachelor's/Master's Degree Programs

The linked BS in chemistry and the MS in chemistry allows exceptional students to count up to 12 hours of graduate courses toward both a BS degree in chemistry and an MS degree in chemistry. Students in the combined program must complete Senior Thesis I and II (CHEM 490

and CHEM 499), be accepted into the chemistry master's program, and earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree). Additional requirements apply; please contact the Chief Departmental Advisor.

BA or BS to MBA (Master of Business Administration) Linked Program

The linked BA/MBA or BS/MBA program is an early entry to the MBA program of study. The early-entry program is designed for well qualified non-business undergraduate ODU students to start their MBA program prior to completing their undergraduate degree. Well qualified non-business undergraduate students may take MBA-level courses as early as three semesters prior to graduation and count up to 12 graduate credits toward their undergraduate degree. Students participating in the early-entry program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree). Early-entry program students should carefully consider their undergraduate degree program requirements when planning their course of study. Students in the early-entry program work in close consultation with the MBA Program Office and should refer to information in the Strome College of Business section in the graduate catalog (<http://catalog.odu.edu/graduate/stromecollegeofbusiness/>) to develop an individualized plan of study based on the required coursework.

BA or BS to MPA (Master of Public Administration) Linked Program

The linked BA/MPA or BS/MPA program provides qualified Old Dominion University undergraduate students with the opportunity to earn a master's degree in public administration while taking credits in the MPA program as an undergraduate student. The program is designed for highly motivated students with the desire to immediately continue their education after the bachelor's degree. The program is especially relevant to individuals seeking to work (or currently working) in the public or non-profit sectors, but is suitable for students from any undergraduate major. Graduate courses may be taken during the fall and spring semester of the student's senior undergraduate year. Up to 12 graduate credits can count toward both the undergraduate and graduate degree and can meet upper-level General Education requirements. After receiving the undergraduate degree, a student will continue with the MPA program, taking MPA courses until completing the required 39 credit hours. Students in the linked program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Requirements for admission to the graduate program can be found in the School of Public Service section of the Graduate Catalog (<http://catalog.odu.edu/graduate/business/public-service/>). For additional information, please contact the School of Public Service in the Strome College of Business.

Bachelor of Science Chemistry with a Major in Chemistry-Research (BS)

CHEM 415	Intermediate Organic Chemistry	
CHEM 439	Introduction to Pharmaceutical Chemistry	
CHEM 443	Intermediate Biochemistry	
CHEM 449	Environmental Chemistry	
CHEM 451	Advanced Inorganic Chemistry	
CHEM 453	Essentials of Toxicology	
Select one CHEM Laboratory from the following:		2-4
CHEM 352	Inorganic Chemistry Laboratory	
CHEM 442W	Biochemistry Laboratory	

Other required courses

MATH 211	Calculus I	4
MATH 212	Calculus II	4

Total Credit Hours **65-68**

Chemistry majors must have a C or better in all courses required for the major, including prerequisite courses, and must complete a minimum of 12 credits in upper-level (300/400) chemistry courses at Old Dominion University. Written permission by the chief departmental advisor or chair is required prior to taking upper-level chemistry courses at other institutions.

Chemistry-Research Major

Students with an interest in pursuing chemical research after graduation or in graduate school or those seeking a deeper understanding of chemical research and applications may pursue a major in Chemistry-Research. Courses taken for the chemistry-research major will substitute for courses in the regular curriculum; please consult the chief departmental advisor for specific information on substitutions. Additionally, all regular BS-Chemistry degree requirements must be met (with the exception of approved substitutions).

General Education

Complete lower-division requirements	38-44
Complete upper-division requirements (minimum of 6 credit hours)	6

Chemistry Core

Complete chemistry core	65-68

Research Major

CHEM 490	Senior Thesis I	1
CHEM 499	Senior Thesis II	2
Select two of the following research-oriented courses:		3-5
CHEM 125	Foundations of Chemistry II Lab with Introduction to Chemical Research	
CHEM 216	Advanced Organic Chemistry Laboratory	
CHEM 497	Independent Study	
CHEM 498	Independent Study	

Total Credit Hours **115-126**

Elective Credit

Elective credit may be needed to meet the minimum requirement of 120 credit hours.

Honors in Chemistry

The honors program provides qualified students the opportunity for supervised individual study in their areas of interest. Admission to the program requires a cumulative GPA of 3.25 or higher and a GPA of 3.50 or higher in the major. Students must take two upper-division courses designated by the department to be honors courses. These are termed "Contract Honors Courses." A description of the procedures for these contract courses is found in the Honors College section of this Catalog.

Degree Program Guide

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

Linked Bachelor's/Master's Degree Programs

The linked BS in chemistry and the MS in chemistry allows exceptional students to count up to 12 hours of graduate courses toward both a BS degree in chemistry and an MS degree in chemistry. Students in the combined program must complete Senior Thesis I and II (CHEM 490 and CHEM 499), be accepted into the chemistry master’s program, and earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree). Additional requirements apply; please contact the Chief Departmental Advisor.

Bachelor of Science Chemistry with a Major in Secondary Chemistry Education (6-12) (BS)

This major leads to eligibility for teacher licensure in Virginia and is available only to individuals holding a baccalaureate degree or completing requirements for a Bachelor of Science degree in chemistry. Due to changing University requirements, national accreditation standards, and the Virginia Board of Education licensure regulations, the teacher preparation programs in the College of Sciences are under constant revision. Any changes resulting from these factors supersede the program requirements described in this Catalog. Students are encouraged to obtain current program information

from their advisors and the Office of Clinical Experiences website at <https://www.odu.edu/oce> (<https://www.odu.edu/oce/>).

Admission

Students must first declare secondary chemistry education (6-12) as their major with the chemistry departmental advisor. All students must apply for and be admitted into the approved secondary chemistry education program. Students must meet the required criteria for admission by earning the minimum required grade point averages (GPA).

Required grade point averages (GPA)

- A cumulative GPA of 2.75 is required.
- A major/content GPA of 2.75 is required - all chemistry courses must be passed with a grade of C (2.0) or above and all other science content courses must be passed with a grade of C- or higher.
- A professional education GPA of 2.75 is required – all professional education courses must be passed with a grade of C- or higher.

Although students may enroll in a limited number of education courses, students must be admitted into the approved chemistry teacher preparation program prior to enrolling in any instructional strategies practicum education course. Students must also meet with an education advisor in the Office of Clinical Experiences.

Continuance

Students must maintain a cumulative GPA of 2.75, a major/content GPA of 2.75 and a professional education GPA of 2.75. Chemistry courses must be passed with a grade of C (2.0) or higher. The remaining courses required for the major and in the professional education core must be completed with a grade of C- or higher for continuance. A professional education GPA of 2.75 is required for continuance. Students must take and pass the Praxis Subject Assessment, Chemistry content knowledge (formerly Praxis II) prior to or while enrolled in the instructional strategies course. All assessments must be passed prior to the start of the Teacher Candidate Internship Orientation session.

Background Clearance Requirement

Old Dominion University requires a background clearance check of candidates interested in many of the professional education programs. Professional education programs have several field experiences that are required for continuance and graduation from the program. The background clearance must be successfully completed prior to a field experience placement. Candidates will be provided a field experience placement when the background check process is completed with resolution of any issues. The process to complete the ODU clearance background check is located at: <http://www.odu.edu/success/academic/teacher-education/placement/background-checks> (<http://www.odu.edu/success/academic/teacher-education/placement/background-checks/>). The ODU clearance process includes: an FBI fingerprint, a child protective service/social service review, and a Virginia State Police sex offender registry review. Candidates interested in the professional education programs are advised to complete this clearance process immediately upon entry into the program since the clearance process takes a minimum of eight weeks to complete.

Virginia Board of Education Prescribed Assessments for Licensure

Praxis Subject Assessment, Chemistry content knowledge (test code: 5246) – passing score of 146 is required.

To review more information on the Virginia Board of Education prescribed assessments visit the Office of Clinical Experiences website at <https://www.odu.edu/oce> (<https://www.odu.edu/oce/>).

Written Communication: Grade of C or better required in both courses

Oral Communication: COMM 101R

Mathematics: MATH 163 required

Information Literacy and Research: satisfied in the major by CHEM 160G

The Nature of Science: PHYS 231N & PHYS 232N

Upper-Division General Education

The professional education core satisfies the Upper-Division General Education requirement.

Requirements for Graduation

Requirements for graduation include completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better, completion of the Senior Assessment, a minimum cumulative 2.75 GPA, in the major area, and in the professional education core, with no grade less than a C in the major and C- in the professional education core; successful completion of the Teacher Candidate Internship and a minimum of 129 credit hours, which must include both a minimum of 32 credit hours overall and 12 credit hours in upper-level courses in the major program from Old Dominion University. Note that a C (2.0) must be earned in all chemistry courses used to satisfy departmental requirements.

Licensure requirements also include certificate of completion in First Aid/AED/CPR, Dyslexia Awareness Training, Child Abuse and Neglect Recognition and Intervention Training, and Regulations Governing the Use of Restraint and Seclusion in Elementary and Secondary Schools, and Cultural Competence Training.

Chemistry Core

In addition to completing the University's lower-division general education requirements and upper-division general education requirements, a secondary chemistry education major seeking teacher licensure must complete the following courses.

CHEM 121N	Foundations of Chemistry I Lecture	3
CHEM 122N	Foundations of Chemistry I Laboratory	1
CHEM 123N	Foundations of Chemistry II Lecture	3
CHEM 124N	Foundations of Chemistry II Laboratory	1-2
or CHEM 125	Foundations of Chemistry II Lab with Introduction to Chemical Research	

CHEM 160G	Introduction to Chemistry and Biochemistry Research and Careers	3
CHEM 211	Organic Chemistry I Lecture	3
CHEM 212	Organic Chemistry I Laboratory	2
CHEM 213	Organic Chemistry II Lecture	3
CHEM 214	Organic Chemistry II Laboratory	2
or CHEM 216	Advanced Organic Chemistry Laboratory	
CHEM 321 & CHEM 322	Analytical Chemistry Lecture and Analytical Chemistry Laboratory	5
CHEM 351	Inorganic Chemistry	3
CHEM 331	Physical Chemistry Lecture I	3
CHEM 332W	Experimental Physical Chemistry I	2
CHEM 333 & CHEM 334W	Physical Chemistry Lecture II and Experimental Physical Chemistry II	5
CHEM 421 & CHEM 422	Instrumental Analysis Lecture and Instrumental Analysis Laboratory	6
CHEM 441	Biochemistry Lecture	3
CHEM 449	Environmental Chemistry	3
CHEM 485	Chemistry and Biochemistry Seminar	1
Select one CHEM elective from the following:		3
CHEM 415	Intermediate Organic Chemistry	
CHEM 439	Introduction to Pharmaceutical Chemistry	
CHEM 443	Intermediate Biochemistry	
CHEM 451	Advanced Inorganic Chemistry	
Select one CHEM Laboratory from the following:		2-4
CHEM 352	Inorganic Chemistry Laboratory	
CHEM 442W	Biochemistry Laboratory	
Other Required courses		
MATH 211	Calculus I	4
MATH 212	Calculus II	4
Total Credit Hours		65-68

Chemistry majors must have a C or better in all courses required for the major, including prerequisite courses, and must complete a minimum of 12 credits in upper level (300/400) chemistry courses at Old Dominion University. Written permission by the chief departmental advisor or chair is required prior to taking upper-level chemistry courses at other institutions.

Secondary Chemistry Education (6-12) Major

General Education

Complete lower-division requirements	38-44

Complete upper-division requirements (met in the major by the professional education core)

Chemistry Core

Complete chemistry core	65-68

Professional Education Core Courses and Requirements

STEM 103	Foundations of STEM Teaching: An Inquiry-Based Approach	2

STEM 401	Project Based Instruction in STEM Education	3
STEM 402	Perspectives on STEM	3
STEM 485	Apprentice Teaching	9
CHEM 468	Research Methods in Mathematics and Science	3

Total Credit Hours		129-138

Honors in Chemistry

The honors program provides qualified students the opportunity for supervised individual study in their areas of interest. Admission to the program requires a cumulative GPA of 3.25 or higher and a GPA of 3.50 or higher in the major. Students must take two upper-division courses designated by the department to be honors courses. These are termed "Contract Honors Courses." A description of the procedures for these contract courses is found in the Honors College section of this Catalog.

Degree Program Guide

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

Course	Title	Credit Hours
Freshman		
Fall		
ENGL 110C	English Composition (Grade of C or better required)	3

Credit Hours		16
Total Credit Hours		129-132

Language and Culture I & II may be met in high school and are not included in this 4-year plan. Please see requirement details.

Linked Bachelor's/Master's Degree Programs

The linked BS in chemistry and the MS in chemistry allows exceptional students to count up to 12 hours of graduate courses toward both a BS degree in chemistry and an MS degree in chemistry. Students in the combined program must complete Senior Thesis I and II (CHEM 490 and CHEM 499), be accepted into the chemistry master's program, and earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree). Additional requirements apply; please contact the Chief Departmental Advisor.

Minor Chemistry Minor Requirements

The chemistry minor consists of 13 credits of which nine credits must be selected from the following:

Select nine credits from the following:	9
CHEM 213	Organic Chemistry II Lecture
CHEM 321	Analytical Chemistry Lecture

CHEM 331	Physical Chemistry Lecture I
CHEM 333	Physical Chemistry Lecture II
CHEM 351	Inorganic Chemistry
CHEM 411	Natural Products Chemistry in the Caribbean
CHEM 415	Intermediate Organic Chemistry
CHEM 421	Instrumental Analysis Lecture
CHEM 439	Introduction to Pharmaceutical Chemistry
CHEM 441	Biochemistry Lecture
CHEM 443	Intermediate Biochemistry
CHEM 449	Environmental Chemistry
CHEM 451	Advanced Inorganic Chemistry
CHEM 453	Essentials of Toxicology
Select four credits from the following:	4
CHEM 214	Organic Chemistry II Laboratory
CHEM 322	Analytical Chemistry Laboratory
CHEM 332W	Experimental Physical Chemistry I
CHEM 334W	Experimental Physical Chemistry II
CHEM 352	Inorganic Chemistry Laboratory
CHEM 422	Instrumental Analysis Laboratory
CHEM 442W	Biochemistry Laboratory
CHEM 452	Advanced Inorganic Chemistry Laboratory
CHEM 497	Independent Study
CHEM 498	Independent Study

Total Credit Hours **13**

The courses designated for the minor and taken by students must be completed with an overall cumulative grade point average of 2.00 or better. CHEM 121N/CHEM 122N and CHEM 123N/CHEM 124N must be completed as prerequisites for the minor in chemistry and are not included in the calculation of the grade point average for the minor. Additional prerequisite courses may also be required and are not included in the grade point average for the minor. Students electing the minor must complete a minimum of six credit hours in the minor requirement through courses offered by Old Dominion University. Any substitutions must be approved in writing by the chief departmental advisor.

Computer Science

Ravi Mukkamala, Chair
Soad Ibrahim, Chief Departmental Advisor
Ayman El Mesalami, Undergraduate Program Director

The Department of Computer Science (CS) offers programs leading to the Bachelor of Science in Computer Science (BSCS), Master of Science with a concentration in computer science, and Doctor of Philosophy with a concentration in computer science. Students can also earn a degree of Bachelor of Science in Computer Science with a major in secondary computer science education (6-12), which is intended for those who wish to pursue a career in teaching computer science at the high school level and leads to teaching licensure in the Commonwealth of Virginia. A linked undergraduate to graduate option is available that leads to a Bachelor of Science in Computer Science (BSCS) and a Master of Science in computer science, and a linked undergraduate to graduate option is available that leads to a Bachelor of Science in Computer Science (BSCS) and a Master of Science in data science. The BSCS courses are offered via traditional live lectures and ODUGlobal options.

At the undergraduate level the Department of Computer Science jointly offers a program with the Department of Electrical and Computer Engineering in the College of Engineering and Technology leading to a Bachelor of Science in Computer Engineering. A linked undergraduate to graduate option is available that leads to Bachelor of Science in Computer Science and Master of Business Administration degrees. The CS department supports the electrical engineering technology major of the Engineering Technology bachelor's degree and the modeling and simulation engineering major in the Computer Engineering bachelor's degree. The CS department

also supports the Bachelor of Science degree with majors in cybersecurity and in cyber operations.

Computer science traces its foundation to mathematics, logic and engineering. Students in this program are exposed to the broad theoretical and practical basis of computer science in lectures and laboratory experiences. Through laboratories, students are introduced to both the experimental and the design aspects of computer science. Students may choose their electives to obtain an emphasis in data science, machine learning, databases, networking, web programming, systems programming, game programming, and cybersecurity.

The CS Department's curriculum applies computer science education to the real world. The Professional Workforce Development courses (CS 410 and CS 411W) expand upon the experimental and design approach of earlier courses by addressing the creativity and productivity required for business and industrial applications today. Faculty and industry representatives provide project concepts and mentor student teams in design and development of usable products.

Computing Facilities

The Computer Science Department at Old Dominion University offers a wide array of facilities, resources, and services to our faculty, staff, students and guests. Assets are distributed between Dragas Hall and the Engineering and Computational Sciences Building (E&CS). This system architecture enables our services to be configured in a redundant/highly-available manner. This stability and resiliency is essential to maintaining a high level of service to over 2,300 users.

The E&CS building is home to our primary data-center and main administrative office. It also houses several of our research labs, a multimedia conference room, and our network operations center. Dragas Hall contains several instructional and research labs, our satellite administrative office, secondary conference room, redundant data-center, extended network operations center, and support staff offices.

The department offers a heterogeneous computing environment that primarily consists of Windows and *nix based workstations and servers. On the Windows domain, users are offered network logons, Exchange email, terminal services via our Virtual Computing Lab (VCLab) where users can have access to our software remotely, roaming profiles, MSSQL database access for research, and Hyper-V virtualization for research/faculty projects. For Unix and Linux users we support Solaris, Ubuntu and Red Hat Enterprise Linux (RHEL) distributions. Our *nix services include DNS, NIS, Unix mail, access to personal MySQL databases, class and research project Oracle databases, and both Linux and Unix servers for secure shell sessions.

Programs

Bachelor of Science in Computer Science Programs

- Computer Science (BSCS) (p. 715)
- Computer Science with a Major in Secondary Computer Science Education (6-12) (BSCS) (p. 720)

Minor Programs

- Computer Science Minor (p. 725)
- Web Programming Minor (p. 725)

Bachelor of Science in Computer Engineering

The computer engineering undergraduate degree program is designed to provide both a broad engineering background and comprehensive foundation in the technical principles underlying the computer area. Students develop a background through course work in mathematics, the basic sciences, and general engineering. The technical core consists of courses from electrical and computer engineering to address hardware aspects of computer engineering and course work from computer science to address software aspects. A grade of C or better must be earned in computer science required courses. In addition, course work in General Education ways of knowing and

communication skills is required to assure a well rounded program of study. Specific degree requirements can be found listed under the Department of Electrical and Computer Engineering.

Due to limited laboratory facilities, admission to the computer engineering program is on a competitive basis. Students should apply to the Department of Electrical and Computer Engineering.

Bachelor of Science in Engineering Technology with a Major in Electrical Engineering Technology-Computer Engineering Technology

The goal of the electrical engineering technology-computer engineering technology program is to prepare students for employment in areas defined by the rapidly expanding opportunities of computer applications. With new hardware and software products being introduced monthly, students who wish to succeed in this field should develop a background in both software and hardware. This program provides such a background by combining a grounding in basic theory with hands-on, application courses selected from the disciplines of Computer Science and Electrical Engineering Technology. The curriculum emphasizes practical design and the utilization of systems and hardware. Areas of study include network design and management, modern communication systems, microcomputer systems and applications, and application program development. A grade of C or better must be earned in computer science required courses. Specific degree requirements can be found listed under the Department of Engineering Technology.

Linked Bachelor of Science in Computer Science and Master of Business Administration

This program allows students to earn a Bachelor of Science in Computer Science and a Master of Business Administration. After students have satisfactorily completed their undergraduate requirements, they must complete the remaining requirements in the MBA program. Additional information can be found in the section on BS/MBA Linked Program at the beginning of the College of Sciences section of this Catalog and the Strome College of Business section in the Graduate Catalog (<http://catalog.odu.edu/graduate/stromecollegeofbusiness/>).

Linked Bachelor of Science in Computer Science and Master of Science in Computer Science

This program allows for exceptionally successful students to earn both a BSCS and an MS in Computer Science by allowing up to 12 credits of graduate coursework to count toward both their bachelor's and master's degree in Computer Science. All options available under the MS degree are available under this program. Students must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Admission

To be admitted to the linked program, students must have completed at least 60 undergraduate credit hours with at least 24 credit hours from ODU. Students must have completed CS 361, CS 381, MATH 212 and all prerequisites for those courses. At the time of admission, they must have an overall GPA of 3.00 or better, and an overall GPA of 3.00 or better in CS and MATH courses.

Interested students who meet the admission requirements should apply to the graduate program director, after consulting with the undergraduate chief departmental advisor, as soon as possible upon completing the required courses and 60 credit hours. In consultation with the graduate program director, a student will:

1. Officially declare an undergraduate Computer Science major with the undergraduate chief departmental advisor.

2. Draft a schedule of graduate courses to be taken as an undergraduate to be presented to the undergraduate chief departmental advisor.
3. Apply, during their senior year, to the Office of Graduate Admissions for admission to the master's in computer science program.

Students who have completed at least six hours of graduate courses upon attaining senior standing (completion of 90 credit hours) and who have earned a GPA of 3.00 or better in those courses will not be required to take the Graduate Record Exam (GRE) for admission to the master's program. Otherwise, in keeping with normal admission requirements for the MS in computer science, students will take the GRE as an undergraduate and will subsequently be reevaluated for continuation into the master's program.

Once students have been awarded their bachelor's degree and fulfilled all regular admission requirements for the MS in computer science, they will be officially admitted into the MS program.

Program Requirements

Students in the program will fulfill all normal admission and curricular requirements for both a Bachelor of Science in Computer Science and an MS in computer science with the following exceptions:

1. Students in the program may count up to 12 hours of graduate courses, at the 500 or 600 level, excluding independent study, taken as an undergraduate toward both the bachelor's and master's degrees in computer science.
 - a. Students in the program may substitute computer science graduate courses for undergraduate courses according to the following schema. All students must complete an undergraduate writing intensive course in the major.
Students may substitute 500- and 600-level courses for the upper-level CS electives in the undergraduate program so long as they have the prerequisites for those courses. 700- or 800-level courses may not be used.
 - b. Students will not receive credit for both the 400 and 500 level version of the same course.
 - c. Students in the program may make a written petition for other substitutions to the graduate program director, who will consider them in consultation with the chief departmental advisor and the instructor(s) of the courses involved.
 - d. To maximize the accelerated benefit one or more of the following required courses should be selected: CS 517, CS 518, CS 550, or CS 571.

NOTES:

1. In accordance with University policy, up to 21 hours of graduate courses taken as an undergraduate may be counted toward the bachelor's degree in computer science. However, only 12 hours of graduate courses taken as an undergraduate may also be counted toward the MS degree in computer science. This will limit students' scheduling flexibility subsequently.
2. Like students in the regular MS in computer science program, students in the linked BSCS/MS computer science degree may count no more than 12 hours at the 500-level toward their MS degree. Students are advised against taking all 12 of those 500-level credits as an undergraduate, since doing so will limit their scheduling flexibility subsequently.

Linked Bachelor of Science in Computer Science and Master of Science in Data Science and Analytics

This program allows for exceptionally successful students to earn both a BSCS and an MS in Data Science and Analytics by allowing up to 12 credits of graduate coursework to count toward both their bachelor's degree in Computer Science and master's degree in Data Science and Analytics. All options available under the MS degree are available under this program. Students must earn a minimum of 150 credit hours (120 discrete credit hours

for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Admission

To be admitted to the linked program, students must have completed at least 60 undergraduate credit hours with at least 24 credit hours from ODU. Students must have completed CS 361, CS 381, MATH 212 and all prerequisites for those courses. At the time of admission, they must have an overall GPA of 3.00 or better, and an overall GPA of 3.00 or better in CS and MATH courses.

Interested students who meet the admission requirements should apply to the graduate program director, after consulting with the undergraduate chief departmental advisor, as soon as possible upon completing the required courses and 60 credit hours. In consultation with the graduate program director, a student will:

1. Officially declare an undergraduate Computer Science major with the undergraduate chief departmental advisor.
2. Draft a schedule of graduate courses to be taken as an undergraduate to be presented to the undergraduate chief departmental advisor.
3. Apply, during their senior year, to the Office of Graduate Admissions for admission to the master's in Data Science and Analytics program.

Students who have completed at least six hours of graduate courses upon attaining senior standing (completion of 90 credit hours) and who have earned a GPA of 3.00 or better in those courses will not be required to take the Graduate Record Exam (GRE) for admission to the master's program. Otherwise, in keeping with normal admission requirements for the MS in Data Science and Analytics, students will take the GRE as an undergraduate and will subsequently be reevaluated for continuation into the master's program.

Once students have been awarded their bachelor's degree and fulfilled all regular admission requirements for the MS in data science and analytics, they will be officially admitted into the MS program.

Program Requirements

Students in the program will fulfill all normal admission and curricular requirements for both a Bachelor of Science in Computer Science and an MS in Data Science and Analytics with the following exceptions:

1. Students in the program may count up to 12 hours of graduate courses, at the 500 or 600 level, excluding independent study, taken as an undergraduate toward both the bachelor's and master's degrees.
 - a. Students in the program may substitute computer science graduate courses for undergraduate courses according to the following schema. All students must complete an undergraduate writing intensive course in the major.
Students may substitute 500- and 600-level courses for the upper-level CS electives in the undergraduate program so long as they have the prerequisites for those courses. 700- or 800-level courses may not be used.
 - b. Students will not receive credit for both the 400 and 500 level version of the same course.
 - c. Students in the program may make a written petition for other substitutions to the graduate program director, who will consider them in consultation with the chief departmental advisor and the instructor(s) of the courses involved.

The graduate courses taken must be from the following:

CS 550	Database Concepts	3
Choose three from the following:*		9
CS 522	Introduction to Machine Learning	
CS 532	Web Science	
CS 569	Data Analytics for Cybersecurity	
CS 580	Introduction to Artificial Intelligence	

Total Credit Hours **12**

* Substitutions of other computer science courses may be made with approval of the graduate program director.

NOTE:

1. In accordance with University policy, up to 21 hours of graduate courses taken as an undergraduate may be counted toward the bachelor's degree in computer science. However, only 12 hours of graduate courses taken as an undergraduate may also be counted toward the MS degree in Data Science and Analytics. This will limit students' scheduling flexibility subsequently.

Bachelor of Science in Computer Science Computer Science (BSCS)

Requirements

The Bachelor of Science in Computer Science requires the successful completion of a minimum of 120 semester credit hours of approved course work. At least 30 credit hours overall and 12 credit hours in upper-level courses in the major program must be completed at Old Dominion University. In order to gain appropriate exposure and competency in basic computer science theory and applications, students must satisfy the General Education requirements and departmental requirements.

Language and Culture (competence must be at the 102 level)

Impact of Technology (satisfied through the major by CS 330, CS 350, CS 410, and CS 411W)

The Nature of Science: Computer Science majors must complete two Nature of Science courses in sequence for a total of eight credits from the following:

BIOL 121N & BIOL 122N	General Biology I and General Biology I Lab	4

BIOL 123N & BIOL 124N	General Biology II and General Biology II Lab	4
BIOL 136N & BIOL 137N	Honors General Biology I and Honors General Biology I Lab	4
BIOL 138N & BIOL 139N	Honors General Biology II and Honors General Biology II Lab	4
CHEM 105N & CHEM 106N	Introductory Chemistry and Introductory Chemistry Laboratory	4
CHEM 107N & CHEM 108N	Introductory Organic and Biochemistry and Introductory Organic and Biochemistry Laboratory	4
CHEM 121N & CHEM 122N	Foundations of Chemistry I Lecture and Foundations of Chemistry I Laboratory	4
CHEM 123N & CHEM 124N	Foundations of Chemistry II Lecture and Foundations of Chemistry II Laboratory	4
OEAS 106N & OEAS 108N	Introductory Oceanography and Understanding Global Climate Change	8
OEAS 106N & OEAS 250N	Introductory Oceanography and Natural Hazards and Disasters	8
OEAS 126N & OEAS 108N	Honors: Introductory Oceanography and Understanding Global Climate Change	8
OEAS 126N & OEAS 250N	Honors: Introductory Oceanography and Natural Hazards and Disasters	8
PHYS 111N & PHYS 112N	Introductory General Physics and Introductory General Physics	8
PHYS 226N & PHYS 227N	Honors: University Physics I and Honors: University Physics II	8
PHYS 231N & PHYS 232N	University Physics I and University Physics II	8

Upper-Division General Education

- Option A. Approved Disciplinary Minor (a minimum of 12 hours determined by the department), or second degree or second major.
- Option B: Interdisciplinary Minor (specifically 12 hours, 3 of which may be in the major)
- Option C. An approved Certification Program such as teaching licensure
- Option D. Two Upper-Division Courses from outside the College of Sciences and not required by the major (6 hours)

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Computer Science Major

General Education

Complete lower-division requirements	35-41
Complete upper-division requirements (minimum of 6 credit hours)	6-12

Computer Science

Required Computer Science Courses

Select one of the following:	4
CS 151	Introduction to Programming with Java

or		
CS 153	Introduction to Programming with Python	
or		
CS 150	Introduction to Programming with C++	
CS 170	Introduction to Computer Architecture I	3
Select one of the following:		5-6
CS 251 & CS 260	Programming with Java and C++ for Programmers	
or		
CS 253 & CS 260 & CS 261	Transfer Credit for Programming with Python and C++ for Programmers and Java for Programmers	
or		
CS 250 & CS 261	Programming with C++ and Java for Programmers	
CS 252	Introduction to Unix for Programmers	1
CS 270	Introduction to Computer Architecture II	3
CS 315	Computer Science Undergraduate Colloquium *	1
or CS 115	Introduction to Computer Science with Python	
CS 330	Object-Oriented Design and Programming	3
CS 350	Introduction to Software Engineering	3
CS 355	Principles of Programming Languages	3
CS 361	Data Structures and Algorithms	3
CS 381	Introduction to Discrete Structures	3
CS 390	Introduction to Theoretical Computer Science	3
CS 410	Professional Workforce Development I	3
CS 411W	Professional Workforce Development II	3
CS 417	Computational Methods and Software	3
CS 450	Database Concepts (or)	3
or CS 418	Web Programming	
CS 471	Operating Systems	3
Elective Computer Science Courses		
Select three additional CS courses from the following: **		9
CS 222	Introduction to Digital Image Processing	
CS 312	Internet Concepts	
CS 402	Formal Software Foundations	
CS 418	Web Programming	
CS 422	Introduction to Machine Learning	
CS 431	Web Server Design	
CS 432	Web Science	
CS 433	Web Security	
CS 441	App Development for Smart Devices	
CS 450	Database Concepts	
CS 455	Introduction to Networks and Communications	
CS 460	Computer Graphics	
CS 462	Cybersecurity Fundamentals	
CS 463	Cryptography for Cybersecurity	
CS 464	Networked Systems Security	
CS 465	Information Assurance for Cybersecurity	
CS 466	Principles and Practice of Cyber Defense	
CS 467	Introduction to Reverse Software Engineering	
CS 469	Data Analytics for Cybersecurity	
CS 472	Network and Systems Security	
CS 475	Introduction to Computer Simulation	
CS 476	Systems Programming	

CS 478	Computational Geometry, Methods and Applications	
CS 480	Introduction to Artificial Intelligence	
CS 486	Introduction to Parallel Computing	
CS 487	Applied Parallel Computing	
CS 488	Principles of Compiler Construction	
CS 491	Honors Research I in Computer Science	
CS 492	Honors Research II in Computer Science	
CS 499W	Honors Thesis in Computer Science	
Other Required Courses		
MATH 211	Calculus I	4
MATH 212	Calculus II	4
MATH 316	Introductory Linear Algebra	3
STAT 330	An Introduction to Probability and Statistics	3
Technical Elective ***		3-4
Total Credit Hours		117-131

* CS 115 is not open to students with prior credit for CS 150, CS 151, or CS 153. Students who have taken CS 115 may also take CS 315.

** Excluding CS 300T and CS 315. Computer science majors may select their own electives from the CS offerings. Up to six credits of work experience (CS 367 or CS 368) may be used.

*** Computer Science majors must complete one course not counted toward another degree requirement. These may be selected from the following biology, chemistry, ocean and earth science, and physics courses: BIOL 121N, BIOL 123N, BIOL 136N, BIOL 138N, CHEM 105N, CHEM 107N, CHEM 121N, CHEM 123N, OEAS 106N, OEAS 108N, OEAS 110N, OEAS 111N, OEAS 112N, OEAS 126N, OEAS 250N, PHYS 111N, PHYS 112N, PHYS 226N, PHYS 227N, PHYS 231N, PHYS 232N.
With the approval of a computer science advisor, other technically oriented courses may be used to meet this requirement.

Computer science majors must earn a grade of C or better in all (non-elective) computer science courses required for the major and in all computer science prerequisite courses and in the writing intensive (W) course in the major. A minimum of 9 credits of upper-level (300/400) computer science elective courses must be completed in addition to the required courses.

Computer Science Major Double Degree/Major Options

Computer science majors may also complete the requirements for a second degree or second major in computer engineering, cybersecurity, or cyber operations. Students interested in a second degree or second major in cybersecurity or cyber operations should contact their computer science advisor. A five-year degree program guide for students pursuing degrees in computer science and computer engineering can be found below. Students seeking two degrees should be aware that a minimum of 150 credit hours is required.

Computer Science (BSCS) & Computer Engineering Major (BSCE) 5-Year Plan (p. 578)

Additional Requirements and Information

Advanced Placement

Advanced placement credit is awarded to students who earn qualifying scores on AP and IB subject examinations. See the equivalency charts on the Office of Undergraduate Admissions website at <https://ww1.odu.edu/academics/academic-records/score-analysis/ap-ib> (<https://ww1.odu.edu/academics/academic-records/score-analysis/ap-ib/>).

Cooperative Education

Computer science majors interested in gaining practical experience and on-the-job training while completing undergraduate degree requirements may find opportunities through participation in the Cooperative Education Program.

Those students usually start in the junior year working with an employer in a field of computer science. Students must apply through the Center for Career & Leadership Development prior to registering for Cooperative Education credit. All work experiences must be approved by the Center for Career & Leadership Development and the academic department concerned.

Undergraduates can earn a maximum of six semester credits through cooperative education that apply toward degree requirements. For further information, see the Center for Career & Leadership Development section of this Catalog.

Honors Program in Computer Science

Undergraduate computer science majors maintaining an overall GPA of at least 3.25 and of 3.50 in the major have the opportunity to participate in the Honors Program in Computer Science (program coordinator: Dr. Jing He). Students who complete the program and also meet the University's standards for graduation with honors (see description in this Catalog) may earn the designation of departmental honors on their diplomas. Students must complete one of three options.

A. Departmental Honors in Computer Science

Students maintaining an overall GPA of at least 3.25 and of 3.50 in computer science can receive a "Bachelor's Degree with Honors in Computer Science" subject to satisfaction of the minimum University standards for the departmental honors and completion of one of the following three options:

- 1. Successful completion of two semesters of honors research taken as either CS 491 and CS 492 or CS 491 and CS 499W.
- 2. Successful completion of four upper-division courses in Computer Science as "Contract Honors Courses" and achievement of the "Honors" designation in each.
- 3. Successful completion of one semester of honors research taken as CS 491 and two "Contract Honors Courses" in Computer Science and achievement of the Contract Honors designation in each.

Note: Completion of at least 60 credit hours at Old Dominion University, 54 of which must be in grade-point graded courses, is also required. Candidates who have used grade forgiveness or adjusted resident credit should be aware that the enhanced grade point average determined by use of these procedures does not determine eligibility for departmental honors. To determine eligibility for departmental honors, the student's complete record, including grades and hours for courses that have been forgiven or adjusted, will be evaluated to calculate the final grade point average.

B. Honors Research Scholars

Undergraduates with junior or senior standing and a minimum of 3.0 GPA (or with approval by Honors Program Coordinator) are eligible to participate in Honors Research. After consultation with the Honors Program Coordinator, students select a faculty member who agrees to oversee the research project. The research project, time commitment, and the basis for grading are mutually determined by the student and the mentor. An outline is to be submitted and approved by the Honors Program Coordinator before registration of the course. Students are expected to perform mentored research. Faculty mentors encourage students to present/publish results at scientific conferences or journals. Students are encouraged to apply for funds to support undergraduate research. The following honors research courses are provided:

CS 491	Honors Research I in Computer Science	3
CS 492	Honors Research II in Computer Science	3
CS 499W	Honors Thesis in Computer Science	3

C. Contract Honors Designation for Upper-Division Computer Science courses

Students with a grade point average of at least 3.25 may convert any upper-division computer science course into an Honors course on an individual basis. No grade below B is accepted for Honors designation. An Honors designation of a course requires successful completion of honors-level tasks to be agreed upon by the student and the instructor. Students who plan to apply for the honors designation of a course are required to communicate with the instructor before registration. Students are required to submit an outline of honors work to Honors Program Coordinator and obtain an approval before the start of the semester in which the course is taken.

Degree Program Guide

The Degree Program Guide is a suggested curriculum to complete this degree program in four years. It is just one of several plans that will work and is presented only as broad guidance to students. Each student is strongly encouraged to develop a customized plan in consultation with their academic advisor. Additional information can also be found in Degree Works.

Course	Title	Credit Hours
Freshman		
Fall		
ENGL 110C	English Composition (Grade of C or better required)	3
MATH 211	Calculus I	4
Select one of the following:		4
CS 151 or CS 153	Introduction to Programming with Java or Introduction to Programming with Python	
Human Behavior		3
Language & Culture I (May be waived; See requirement details)		0-3
Credit Hours		14-17
Spring		
ENGL 211C or ENGL 231C (Grade of C or better required)		3
MATH 212	Calculus II	4
CS 170	Introduction to Computer Architecture I	3
CS 251	Programming with Java	4
CS 252	Introduction to Unix for Programmers	1
Elective or Language & Culture II (May be waived; See requirement details)		3

Total Credit Hours		120-124

** Students who have completed CS 115 are not required to take CS 315.

Linked Bachelor of Science in Computer Science and Master of Business Administration

This program allows students to earn a Bachelor of Science in Computer Science and a Master of Business Administration. After students have satisfactorily completed their undergraduate requirements, they must complete the remaining requirements in the MBA program. Additional information can be found in the section on BS/MBA Linked Program at the beginning of the College of Sciences section of this Catalog and the Strome

College of Business section in the Graduate Catalog (<http://catalog.odu.edu/graduate/stromecollegeofbusiness/>).

Linked Bachelor of Science in Computer Science and Master of Science in Computer Science

This program allows for exceptionally successful students to earn both a BSCS and an MS in Computer Science by allowing up to 12 credits of graduate coursework to count toward both their bachelor's and master's degree in Computer Science. All options available under the MS degree are available under this program. Students must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Admission

To be admitted to the linked program, students must have completed at least 60 undergraduate credit hours with at least 24 credit hours from ODU. Students must have completed CS 361, CS 381, MATH 212 and all prerequisites for those courses. At the time of admission, they must have an overall GPA of 3.00 or better, and an overall GPA of 3.00 or better in CS and MATH courses.

Interested students who meet the admission requirements should apply to the graduate program director, after consulting with the undergraduate chief departmental advisor, as soon as possible upon completing the required courses and 60 credit hours. In consultation with the graduate program director, a student will:

1. Officially declare an undergraduate Computer Science major with the undergraduate chief departmental advisor.
2. Draft a schedule of graduate courses to be taken as an undergraduate to be presented to the undergraduate chief departmental advisor.
3. Apply, during their senior year, to the Office of Graduate Admissions for admission to the master's in computer science program.

Students who have completed at least six hours of graduate courses upon attaining senior standing (completion of 90 credit hours) and who have earned a GPA of 3.00 or better in those courses will not be required to take the Graduate Record Exam (GRE) for admission to the master's program. Otherwise, in keeping with normal admission requirements for the MS in computer science, students will take the GRE as an undergraduate and will subsequently be reevaluated for continuation into the master's program.

Once students have been awarded their bachelor's degree and fulfilled all regular admission requirements for the MS in computer science, they will be officially admitted into the MS program.

Program Requirements

Students in the program will fulfill all normal admission and curricular requirements for both a Bachelor of Science in Computer Science and an MS in computer science with the following exceptions:

1. Students in the program may count up to 12 hours of graduate courses, at the 500 or 600 level, excluding independent study, taken as an undergraduate toward both the bachelor's and master's degrees in computer science.
 - a. Students in the program may substitute computer science graduate courses for undergraduate courses according to the following schema. All students must complete an undergraduate writing intensive course in the major. Students may substitute 500- and 600-level courses for the upper-level CS electives in the undergraduate program so long as they have the prerequisites for those courses. 700- or 800-level courses may not be used.
 - b. Students will not receive credit for both the 400 and 500 level version of the same course.
 - c. Students in the program may make a written petition for other substitutions to the graduate program director, who will consider

them in consultation with the chief departmental advisor and the instructor(s) of the courses involved.

- d. To maximize the accelerated benefit one or more of the following required courses should be selected: CS 517, CS 518, CS 550, or CS 571.

NOTES:

1. In accordance with University policy, up to 21 hours of graduate courses taken as an undergraduate may be counted toward the bachelor's degree in computer science. However, only 12 hours of graduate courses taken as an undergraduate may also be counted toward the MS degree in computer science. This will limit students' scheduling flexibility subsequently.
2. Like students in the regular MS in computer science program, students in the linked BSCS/MS computer science degree may count no more than 12 hours at the 500-level toward their MS degree. Students are advised against taking all 12 of those 500-level credits as an undergraduate, since doing so will limit their scheduling flexibility subsequently.

Linked Bachelor of Science in Computer Science and Master of Science in Data Science and Analytics

This program allows for exceptionally successful students to earn both a BSCS and an MS in Data Science and Analytics by allowing up to 12 credits of graduate coursework to count toward both their bachelor's degree in Computer Science and master's degree in Data Science and Analytics. All options available under the MS degree are available under this program. Students must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Admission

To be admitted to the linked program, students must have completed at least 60 undergraduate credit hours with at least 24 credit hours from ODU. Students must have completed CS 361, CS 381, MATH 212 and all prerequisites for those courses. At the time of admission, they must have an overall GPA of 3.00 or better, and an overall GPA of 3.00 or better in CS and MATH courses.

Interested students who meet the admission requirements should apply to the graduate program director, after consulting with the undergraduate chief departmental advisor, as soon as possible upon completing the required courses and 60 credit hours. In consultation with the graduate program director, a student will:

1. Officially declare an undergraduate Computer Science major with the undergraduate chief departmental advisor.
2. Draft a schedule of graduate courses to be taken as an undergraduate to be presented to the undergraduate chief departmental advisor.
3. Apply, during their senior year, to the Office of Graduate Admissions for admission to the master's in Data Science and Analytics program.

Students who have completed at least six hours of graduate courses upon attaining senior standing (completion of 90 credit hours) and who have earned a GPA of 3.00 or better in those courses will not be required to take the Graduate Record Exam (GRE) for admission to the master's program. Otherwise, in keeping with normal admission requirements for the MS in Data Science and Analytics, students will take the GRE as an undergraduate and will subsequently be reevaluated for continuation into the master's program.

Once students have been awarded their bachelor's degree and fulfilled all regular admission requirements for the MS in data science and analytics, they will be officially admitted into the MS program.

Program Requirements

Students in the program will fulfill all normal admission and curricular requirements for both a Bachelor of Science in Computer Science and an MS in Data Science and Analytics with the following exceptions:

1. Students in the program may count up to 12 hours of graduate courses, at the 500 or 600 level, excluding independent study, taken as an undergraduate toward both the bachelor's and master's degrees.
 - a. Students in the program may substitute computer science graduate courses for undergraduate courses according to the following schema. All students must complete an undergraduate writing intensive course in the major.
Students may substitute 500- and 600-level courses for the upper-level CS electives in the undergraduate program so long as they have the prerequisites for those courses. 700- or 800-level courses may not be used.
 - b. Students will not receive credit for both the 400 and 500 level version of the same course.
 - c. Students in the program may make a written petition for other substitutions to the graduate program director, who will consider them in consultation with the chief departmental advisor and the instructor(s) of the courses involved.

The graduate courses taken must be from the following:

CS 550	Database Concepts	3
Choose three from the following:*		9
CS 522	Introduction to Machine Learning	
CS 532	Web Science	
CS 569	Data Analytics for Cybersecurity	
CS 580	Introduction to Artificial Intelligence	
Total Credit Hours		12

* Substitutions of other computer science courses may be made with approval of the graduate program director.

NOTE:

1. In accordance with University policy, up to 21 hours of graduate courses taken as an undergraduate may be counted toward the bachelor's degree in computer science. However, only 12 hours of graduate courses taken as an undergraduate may also be counted toward the MS degree in Data Science and Analytics. This will limit students' scheduling flexibility subsequently.

BA or BS to MBA (Master of Business Administration) Linked Program

The linked BA/MBA or BS/MBA program is an early entry to the MBA program of study. The early-entry program is designed for well qualified non-business undergraduate ODU students to start their MBA program prior to completing their undergraduate degree. Well qualified non-business undergraduate students may take MBA-level courses as early as three semesters prior to graduation and count up to 12 graduate credits toward their undergraduate degree. Students participating in the early-entry program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree). Early-entry program students should carefully consider their undergraduate degree program requirements when planning their course of study. Students in the early-entry program work in close consultation with the MBA Program Office and should refer to information in the Strome College of Business section in the graduate catalog (<http://catalog.odu.edu/graduate/stromecollegeofbusiness/>) to develop an individualized plan of study based on the required coursework.

BA or BS to MPA (Master of Public Administration) Linked Program

The linked BA/MPA or BS/MPA program provides qualified Old Dominion University undergraduate students with the opportunity to earn a master's degree in public administration while taking credits in the MPA program as an undergraduate student. The program is designed for highly motivated students with the desire to immediately continue their education after the bachelor's degree. The program is especially relevant to individuals seeking to work (or currently working) in the public or non-profit sectors, but is suitable for students from any undergraduate major. Graduate courses may be taken during the fall and spring semester of the student's senior undergraduate year. Up to 12 graduate credits can count toward both the undergraduate and graduate degree and can meet upper-level General Education requirements. After receiving the undergraduate degree, a student will continue with the MPA program, taking MPA courses until completing the required 39 credit hours. Students in the linked program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Requirements for admission to the graduate program can be found in the School of Public Service section of the Graduate Catalog (<http://catalog.odu.edu/graduate/business/public-service/>). For additional information, please contact the School of Public Service in the Strome College of Business.

Bachelor of Science in Computer Science Computer Science with a Major in Secondary Computer Science Education (6-12) (BSCS)

Bachelor of Science in Computer Science with Teaching Licensure

This program leads to eligibility for teacher licensure in Virginia and is available only to individuals holding a baccalaureate degree or completing requirements for a Bachelor of Science in Computer Science. Due to changing University requirements, national accreditation standards, and the Virginia Board of Education licensure regulations, the teacher preparation programs in the College of Sciences are under constant revision. Any changes resulting from these factors supersede the program requirements described in this Catalog. Students are encouraged to obtain current program information from their advisors and the Office of Clinical Experiences website at <https://www.odu.edu/oce> (<https://www.odu.edu/oce/>).

Admission

Students must first declare computer science with a major in secondary computer science education (6-12) with the computer science departmental advisor. All students must apply for and be admitted into the approved secondary computer science education program. Students must meet the required criteria for admission by earning the minimum required grade point averages (GPA).

Required grade point averages (GPA)

- A cumulative GPA of 2.75 is required.
- A major/content GPA of 2.75 is required - all computer science courses must be passed with a grade of C (2.0) or above and all other content courses must be passed with a grade of C- or higher.
- A professional education GPA of 2.75 is required – all professional education courses must be passed with a grade of C- or higher.

Although students may enroll in a limited number of education courses, students must be admitted into the approved computer science teacher preparation program prior to enrolling in any instructional strategies practicum education course. Students must also meet with an education advisor in the Office of Clinical Experiences in the Darden College of Education and Professional Studies.

Continuance

Students must maintain a cumulative GPA of 2.75, a major/content GPA of 2.75 and a professional education GPA of 2.75. Computer science courses must be passed with a grade of C (2.0) or higher. Courses in the professional education core must be completed with a grade of C- or higher for continuance. A professional education GPA of 2.75 is required for continuance. Students must take and pass the Praxis Subject Assessment, Computer Science content knowledge (formerly Praxis II) prior to or while enrolled in the instructional strategies course. All assessments must be passed prior to the start of the Teacher Candidate Internship Orientation session.

Background Clearance Requirement

Old Dominion University requires a background clearance check of candidates interested in many of the professional education programs. Professional education programs have several field experiences that are required for continuance and graduation from the program. The background clearance must be successfully completed prior to a field experience placement. Candidates will be provided a field experience placement when the background check process is completed with resolution of any issues. The process to complete the ODU clearance background check is located at: <http://www.odu.edu/success/academic/teacher-education/placement/background-checks> (<http://www.odu.edu/success/academic/teacher-education/placement/background-checks/>). The ODU clearance process includes: an FBI fingerprint, a child protective service/social service review, and a Virginia State Police sex offender registry review. Candidates interested in the professional education programs are advised to complete this clearance process immediately upon entry into the program since the clearance process takes a minimum of eight weeks to complete.

Virginia Board of Education Prescribed Assessments for Licensure

Praxis Subject Assessment, Computer Science content knowledge (test code: 5652) - passing score of 142 is required.

To review more information on the Virginia Board of Education prescribed assessments visit the Office of Clinical Experiences website at <https://www.odu.edu/oce> (<https://www.odu.edu/oce/>).

Requirements

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6
Oral Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#oral)	3
Mathematics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#math)	3
Language and Culture (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#language)	0-6
Information Literacy and Research (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#information)	3
Human Behavior (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#behavior)	3
Human Creativity (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#creativity)	3
Interpreting the Past (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#interpret)	3
Literature (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#literature)	3
Philosophy and Ethics (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#philosophy)	3
The Nature of Science (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#nature)	8
Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

Additional hours may be required to meet the foreign language requirement.

Written Communication: ENGL 110C and ENGL 211C or ENGL 231C; grade of C or better required in both courses

Mathematics: satisfied in the major

Oral Communication: COMM 101R or PHIL 160R

Information Literacy and Research: CS 121G or CS 202G

Language and Culture: competence must be at the 102 level

Impact of Technology: satisfied in the major by CS 300T

The Nature of Science: Computer Science majors must complete two Nature of Science courses in sequence for a total of eight credits from the following:

BIOL 121N & BIOL 122N	General Biology I and General Biology I Lab	4
BIOL 123N & BIOL 124N	General Biology II and General Biology II Lab	4
BIOL 136N & BIOL 137N	Honors General Biology I and Honors General Biology I Lab	4
BIOL 138N & BIOL 139N	Honors General Biology II and Honors General Biology II Lab	4
CHEM 105N & CHEM 106N	Introductory Chemistry and Introductory Chemistry Laboratory	4
CHEM 107N & CHEM 108N	Introductory Organic and Biochemistry and Introductory Organic and Biochemistry Laboratory	4
CHEM 121N & CHEM 122N	Foundations of Chemistry I Lecture and Foundations of Chemistry I Laboratory	4
CHEM 123N & CHEM 124N	Foundations of Chemistry II Lecture and Foundations of Chemistry II Laboratory	4
OEAS 106N & OEAS 108N	Introductory Oceanography and Understanding Global Climate Change	8
OEAS 106N & OEAS 250N	Introductory Oceanography and Natural Hazards and Disasters	8
OEAS 126N & OEAS 108N	Honors: Introductory Oceanography and Understanding Global Climate Change	8
OEAS 126N & OEAS 250N	Honors: Introductory Oceanography and Natural Hazards and Disasters	8
OEAS 110N or OEAS 111N	Earth Science Physical Geology	4
and		
OEAS 112N	Historical Geology	4
PHYS 111N & PHYS 112N	Introductory General Physics and Introductory General Physics	8
PHYS 226N & PHYS 227N	Honors: University Physics I and Honors: University Physics II	8
PHYS 231N & PHYS 232N	University Physics I and University Physics II	8

Upper-Division General Education

The professional education core satisfies the Upper-Division General Education requirement.

Requirements for Graduation

Requirements for graduation include completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better, completion of the Senior Assessment, a minimum cumulative 2.75 GPA, in the major area, and in the professional education core, with no grade less than a C in the major and C- in the professional education core; successful completion of the Teacher Candidate Internship and a minimum of 120 credit hours, which must include both a minimum of 30 credit hours overall and 12 credit hours in upper-level courses in the major program from Old Dominion University.

Note that a C (2.0) must be earned in all computer science courses used to satisfy departmental requirements.

Licensure requirements also include certificate of completion in First Aid/AED/CPR, Dyslexia Awareness Training, Child Abuse and Neglect Recognition and Intervention Training, and Regulations Governing the Use of Restraint and Seclusion in Elementary and Secondary Schools, and Cultural Competence Training.

Professional Education Core

STEM 103	Foundations of STEM Teaching: An Inquiry-Based Approach	2
STEM 201	Knowing and Learning in STEM Education	3
STEM 202	Classroom Interactions in STEM Education	3
STEM 401	Project Based Instruction in STEM Education	3

Professional Education Core		
Complete professional education core requirements		26
Total Credit Hours		118-125

* Excluding CS 315

Computer science majors must earn a grade of C or better in all (non-elective) computer science courses required for the major and in all computer science prerequisite courses.

Additional Requirements and Information

Advanced Placement

Advanced placement credit is awarded to students who earn qualifying scores on AP and IB subject examinations. See the equivalency charts on the Office of Undergraduate Admissions website at <https://ww1.odu.edu/academics/academic-records/score-analysis/ap-ib> (<https://ww1.odu.edu/academics/academic-records/score-analysis/ap-ib/>).

Cooperative Education

Computer science majors interested in gaining practical experience and on-the-job training while completing undergraduate degree requirements may find opportunities through participation in the Cooperative Education Program.

Those students usually start in the junior year working with an employer in a field of computer science. Students must apply through the Center for Career & Leadership Development prior to registering for Cooperative Education credit. All work experiences must be approved by the Center for Career & Leadership Development and the academic department concerned.

Undergraduates can earn a maximum of six semester credits through cooperative education that apply toward degree requirements. For further information, see the Center for Career & Leadership Development section of this Catalog.

Honors Program in Computer Science

Undergraduate computer science majors maintaining an overall GPA of at least 3.25 and of 3.50 in the major have the opportunity to participate in the Honors Program in Computer Science (program coordinator: Dr. Jing He). Students who complete the program and also meet the University's standards for graduation with honors (see description in this Catalog) may earn the designation of departmental honors on their diplomas. Students must complete one of three options.

A. Departmental Honors in Computer Science

Students maintaining an overall GPA of at least 3.25 and of 3.50 in computer science can receive a "Bachelor's Degree with Honors in Computer Science" subject to satisfaction of the minimum University standards for the departmental honors and completion of one of the following three options:

1. Successful completion of two semesters of honors research taken as either CS 491 and CS 492 or CS 491 and CS 499W.
2. Successful completion of four upper-division courses in Computer Science as "Contract Honors Courses" and achievement of the "Honors" designation in each.
3. Successful completion of one semester of honors research taken as CS 491 and two "Contract Honors Courses" in Computer Science and achievement of the Contract Honors designation in each.

Note: Completion of at least 60 credit hours at Old Dominion University, 54 of which must be in grade-point graded courses, is also required. Candidates who have used grade forgiveness or adjusted resident credit should be aware that the enhanced grade point average determined by use of these procedures does not determine eligibility for departmental honors. To determine eligibility for departmental honors, the student's complete record, including

grades and hours for courses that have been forgiven or adjusted, will be evaluated to calculate the final grade point average.

B. Honors Research Scholars

Undergraduates with junior or senior standing and a minimum of 3.0 GPA (or with approval by Honors Program Coordinator) are eligible to participate in Honors Research. After consultation with the Honors Program Coordinator, students select a faculty member who agrees to oversee the research project. The research project, time commitment, and the basis for grading are mutually determined by the student and the mentor. An outline is to be submitted and approved by the Honors Program Coordinator before registration of the course. Students are expected to perform mentored research. Faculty mentors encourage students to present/publish results at scientific conferences or journals. Students are encouraged to apply for funds to support undergraduate research. The following honors research courses are provided:

CS 491	Honors Research I in Computer Science	3
CS 492	Honors Research II in Computer Science	3
CS 499W	Honors Thesis in Computer Science	3

C. Contract Honors Designation for Upper-Division Computer Science courses

Students with a grade point average of at least 3.25 may convert any upper-division computer science course into an Honors course on an individual basis. No grade below B is accepted for Honors designation. An Honors designation of a course requires successful completion of honors-level tasks to be agreed upon by the student and the instructor. Students who plan to apply for the honors designation of a course are required to communicate with the instructor before registration. Students are required to submit an outline of honors work to Honors Program Coordinator and obtain an approval before the start of the semester in which the course is taken.

Degree Program Guide

Course	Title	Credit Hours
Freshman		
Fall

* Excluding CS 315

Language and Culture I & II may be met in high school and is not included in this four-year plan. Please see requirement details.

Linked Bachelor of Science in Computer Science and Master of Business Administration

This program allows students to earn a Bachelor of Science in Computer Science and a Master of Business Administration. After students have satisfactorily completed their undergraduate requirements, they must complete the remaining requirements in the MBA program. Additional information can be found in the section on BS/MBA Linked Program at the beginning of the College of Sciences section of this Catalog and the Strome College of Business section in the Graduate Catalog (<http://catalog.odu.edu/graduate/stromecollegeofbusiness/>).

Linked Bachelor of Science in Computer Science and Master of Science in Computer Science

This program allows for exceptionally successful students to earn both a BSCS and an MS in Computer Science by allowing up to 12 credits of graduate coursework to count toward both their bachelor's and master's degree in Computer Science. All options available under the MS degree are available under this program. Students must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Admission

To be admitted to the linked program, students must have completed at least 60 undergraduate credit hours with at least 24 credit hours from ODU. Students must have completed CS 361, CS 381, MATH 212 and all prerequisites for those courses. At the time of admission, they must have an overall GPA of 3.00 or better, and an overall GPA of 3.00 or better in CS and MATH courses.

Interested students who meet the admission requirements should apply to the graduate program director, after consulting with the undergraduate chief departmental advisor, as soon as possible upon completing the required courses and 60 credit hours. In consultation with the graduate program director, a student will:

1. Officially declare an undergraduate Computer Science major with the undergraduate chief departmental advisor.
2. Draft a schedule of graduate courses to be taken as an undergraduate to be presented to the undergraduate chief departmental advisor.
3. Apply, during their senior year, to the Office of Graduate Admissions for admission to the master's in computer science program.

Students who have completed at least six hours of graduate courses upon attaining senior standing (completion of 90 credit hours) and who have earned a GPA of 3.00 or better in those courses will not be required to take the Graduate Record Exam (GRE) for admission to the master's program. Otherwise, in keeping with normal admission requirements for the MS in computer science, students will take the GRE as an undergraduate and will subsequently be reevaluated for continuation into the master's program.

Once students have been awarded their bachelor's degree and fulfilled all regular admission requirements for the MS in computer science, they will be officially admitted into the MS program.

Program Requirements

Students in the program will fulfill all normal admission and curricular requirements for both a Bachelor of Science in Computer Science and an MS in computer science with the following exceptions:

1. Students in the program may count up to 12 hours of graduate courses, at the 500 or 600 level, excluding independent study, taken as an undergraduate toward both the bachelor's and master's degrees in computer science.

- Students in the program may substitute computer science graduate courses for undergraduate courses according to the following schema. All students must complete an undergraduate writing intensive course in the major.
Students may substitute 500- and 600-level courses for the upper-level CS electives in the undergraduate program so long as they have the prerequisites for those courses. 700- or 800-level courses may not be used.
- Students will not receive credit for both the 400 and 500 level version of the same course.
- Students in the program may make a written petition for other substitutions to the graduate program director, who will consider them in consultation with the chief departmental advisor and the instructor(s) of the courses involved.
- To maximize the accelerated benefit one or more of the following required courses should be selected: CS 517, CS 518, CS 550, or CS 571.

NOTES:

- In accordance with University policy, up to 21 hours of graduate courses taken as an undergraduate may be counted toward the bachelor's degree in computer science. However, only 12 hours of graduate courses taken as an undergraduate may also be counted toward the MS degree in computer science. This will limit students' scheduling flexibility subsequently.
- Like students in the regular MS in computer science program, students in the linked BSCS/MS computer science degree may count no more than 12 hours at the 500-level toward their MS degree. Students are advised against taking all 12 of those 500-level credits as an undergraduate, since doing so will limit their scheduling flexibility subsequently.

Linked Bachelor of Science in Computer Science and Master of Science in Data Science and Analytics

This program allows for exceptionally successful students to earn both a BSCS and an MS in Data Science and Analytics by allowing up to 12 credits of graduate coursework to count toward both their bachelor's degree in Computer Science and master's degree in Data Science and Analytics. All options available under the MS degree are available under this program. Students must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Admission

To be admitted to the linked program, students must have completed at least 60 undergraduate credit hours with at least 24 credit hours from ODU. Students must have completed CS 361, CS 381, MATH 212 and all prerequisites for those courses. At the time of admission, they must have an overall GPA of 3.00 or better, and an overall GPA of 3.00 or better in CS and MATH courses.

Interested students who meet the admission requirements should apply to the graduate program director, after consulting with the undergraduate chief departmental advisor, as soon as possible upon completing the required courses and 60 credit hours. In consultation with the graduate program director, a student will:

- Officially declare an undergraduate Computer Science major with the undergraduate chief departmental advisor.
- Draft a schedule of graduate courses to be taken as an undergraduate to be presented to the undergraduate chief departmental advisor.
- Apply, during their senior year, to the Office of Graduate Admissions for admission to the master's in Data Science and Analytics program.

Students who have completed at least six hours of graduate courses upon attaining senior standing (completion of 90 credit hours) and who have earned a GPA of 3.00 or better in those courses will not be required to take

the Graduate Record Exam (GRE) for admission to the master's program. Otherwise, in keeping with normal admission requirements for the MS in Data Science and Analytics, students will take the GRE as an undergraduate and will subsequently be reevaluated for continuation into the master's program.

Once students have been awarded their bachelor's degree and fulfilled all regular admission requirements for the MS in data science and analytics, they will be officially admitted into the MS program.

Program Requirements

Students in the program will fulfill all normal admission and curricular requirements for both a Bachelor of Science in Computer Science and an MS in Data Science and Analytics with the following exceptions:

- Students in the program may count up to 12 hours of graduate courses, at the 500 or 600 level, excluding independent study, taken as an undergraduate toward both the bachelor's and master's degrees.
 - Students in the program may substitute computer science graduate courses for undergraduate courses according to the following schema. All students must complete an undergraduate writing intensive course in the major.
Students may substitute 500- and 600-level courses for the upper-level CS electives in the undergraduate program so long as they have the prerequisites for those courses. 700- or 800-level courses may not be used.
 - Students will not receive credit for both the 400 and 500 level version of the same course.
 - Students in the program may make a written petition for other substitutions to the graduate program director, who will consider them in consultation with the chief departmental advisor and the instructor(s) of the courses involved.

The graduate courses taken must be from the following:

CS 550	Database Concepts	3
Choose three from the following:*		9
CS 522	Introduction to Machine Learning	
CS 532	Web Science	
CS 569	Data Analytics for Cybersecurity	
CS 580	Introduction to Artificial Intelligence	
Total Credit Hours		12

* Substitutions of other computer science courses may be made with approval of the graduate program director.

NOTE:

- In accordance with University policy, up to 21 hours of graduate courses taken as an undergraduate may be counted toward the bachelor's degree in computer science. However, only 12 hours of graduate courses taken as an undergraduate may also be counted toward the MS degree in Data Science and Analytics. This will limit students' scheduling flexibility subsequently.

BA or BS to MBA (Master of Business Administration) Linked Program

The linked BA/MBA or BS/MBA program is an early entry to the MBA program of study. The early-entry program is designed for well qualified non-business undergraduate ODU students to start their MBA program prior to completing their undergraduate degree. Well qualified non-business undergraduate students may take MBA-level courses as early as three semesters prior to graduation and count up to 12 graduate credits toward their undergraduate degree. Students participating in the early-entry program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree). Early-entry program students should carefully consider their undergraduate degree program requirements when planning their course of study. Students in the early-entry program work in close consultation

with the MBA Program Office and should refer to information in the Strome College of Business section in the graduate catalog (<http://catalog.odu.edu/graduate/stromecollegeofbusiness/>) to develop an individualized plan of study based on the required coursework.

BA or BS to MPA (Master of Public Administration) Linked Program

The linked BA/MPA or BS/MPA program provides qualified Old Dominion University undergraduate students with the opportunity to earn a master's degree in public administration while taking credits in the MPA program as an undergraduate student. The program is designed for highly motivated students with the desire to immediately continue their education after the bachelor's degree. The program is especially relevant to individuals seeking to work (or currently working) in the public or non-profit sectors, but is suitable for students from any undergraduate major. Graduate courses may be taken during the fall and spring semester of the student's senior undergraduate year. Up to 12 graduate credits can count toward both the undergraduate and graduate degree and can meet upper-level General Education requirements. After receiving the undergraduate degree, a student will continue with the MPA program, taking MPA courses until completing the required 39 credit hours. Students in the linked program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Requirements for admission to the graduate program can be found in the School of Public Service section of the Graduate Catalog (<http://catalog.odu.edu/graduate/business/public-service/>). For additional information, please contact the School of Public Service in the Strome College of Business.

Minor Computer Science Minor

Requirements

Students may minor in computer science by taking the following courses:

Select one of the following:		4
CS 151	Introduction to Programming with Java	
or		
CS 153	Introduction to Programming with Python	
CS 251	Programming with Java	4
CS 252	Introduction to Unix for Programmers	1
CS 361	Data Structures and Algorithms	3
or CS 330		Object-Oriented Design and Programming
Select two CS Electives at the 400-level or from the following:		6
CS 312	Internet Concepts	
CS 330	Object-Oriented Design and Programming	
CS 355	Principles of Programming Languages	
CS 361	Data Structures and Algorithms	
CS 350	Introduction to Software Engineering	
CS 381	Introduction to Discrete Structures	
CS 390	Introduction to Theoretical Computer Science	
Total Credit Hours		18

A grade of C or better is required in each course. Students must have a minimum overall cumulative grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of prerequisite courses and complete a minimum of six hours in upper-level courses in the minor through courses offered by Old Dominion University.

The curriculum for the Bachelor of Science in Engineering Technology with a major in electrical engineering technology and specialized coursework in computer engineering technology and the Bachelor of Science in Computer Engineering contain a built-in minor in computer science.

Minor Web Programming Minor

Requirements

Students may minor in Web Programming by taking the following:

CS 330	Object-Oriented Design and Programming *	3
CS 418	Web Programming	3
Select two of the following:		6
CS 312	Internet Concepts	
CS 431	Web Server Design	
CS 432	Web Science	
CS 441	App Development for Smart Devices	
CS 462	Cybersecurity Fundamentals	
CS 465	Information Assurance for Cybersecurity	
Total Credit Hours		12

* CS 252 is a prerequisite and is not included in the calculation of the grade point average for the minor.

A grade of C or better is required in any of these courses if they are used as a prerequisite to any other CS course. Students must have a minimum overall cumulative grade point average of 2.00 in all courses specified as a requirement for the minor exclusive of 100- and 200-level courses and prerequisite courses and complete a minimum of six hours in upper-level courses in the minor through courses offered by Old Dominion University.

Mathematics and Statistics

Web Site: <http://www.odu.edu/math> (<http://www.odu.edu/math/>)

Gordon Melrose, Chair
Robert Strozak, Chief Departmental Advisor

The Department of Mathematics and Statistics offers programs of study that lead to the degree of Bachelor of Science in Mathematics. A student can earn the degree by completing a major in Applied Mathematics, a major in Statistics/Biostatistics, a major in Actuarial Mathematics, or a major in Big Data Analytics. Students can also earn a degree of Bachelor of Science in Mathematics with a major in Secondary Mathematics Education (6-12), which is intended for those who wish to pursue a career in teaching mathematics at the high school level and leads to teaching licensure in the Commonwealth of Virginia.

The applied mathematics major is intended for students wishing to pursue graduate work in mathematics or otherwise obtain employment in a mathematics field. Similarly, the statistics/biostatistics major is intended for those who wish to pursue graduate work in statistics or otherwise obtain employment in a statistics-related field, especially biostatistics.

The actuarial mathematics major is specifically designed for students who wish to pursue an actuarial field, pursue graduate work in financial mathematics, or employment in a mathematics or statistics-related field.

The big data analytics major is designed for students wishing to pursue one of the many jobs that require solving important large-scale problems in applied science, engineering, business, industry and government as well as pursue graduate work in big data analytics.

Teaching licensure can also be added to any of the majors above, which automatically fulfills the University's upper-division general education requirement under Option C. A double major within the Department of Mathematics and Statistics will not satisfy the University's upper-division general education requirement under option A except for a double major in applied mathematics and statistics/biostatistics.

The requirements of each major along with the professional education courses needed for teacher licensure in the Commonwealth of Virginia are listed in the section for each major. All students earning a Bachelor of

Science in Mathematics have to successfully complete the mathematics core course requirements.

Advanced Placement

Advanced placement credit is awarded to students who earn qualifying scores on AP and IB subject examinations. See the equivalency charts on the ODU website: <https://www.odu.edu/academics/academic-records/score-analysis/ap-ib> (<https://www.odu.edu/academics/academic-records/score-analysis/ap-ib/>).

Programs

Bachelor of Science Programs

- Mathematics with a Major in Actuarial Mathematics (BS) (p. 726)
- Mathematics with a Major in Applied Mathematics (BS) (p. 729)
- Mathematics with a Major in Big Data Analytics (BS) (p. 732)
- Mathematics with a Major in Secondary Mathematics Education (6-12) (BS) (p. 734)
- Mathematics with a Major in Statistics/Biostatistics (BS) (p. 738)

Minor Program

- Mathematics-Actuarial Mathematics Minor (p. 740)
- Mathematics-Applied Mathematics Minor (p. 740)
- Mathematics-Statistics/Biostatistics Minor (p. 741)

Linked Bachelor of Science in Mathematics and Master of Science in Computational and Applied Mathematics

The linked program allows students to count up to 12 credits of graduate coursework toward both their undergraduate and master's degrees. Students must earn a minimum of 150 credits (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Admission

To be admitted to the linked program, students must have completed at least 60 undergraduate credit hours with at least 24 credit hours from ODU. Students must have completed MATH 307, MATH 312, MATH 317 and all prerequisites for those courses. At the time of admission, they must have an overall GPA of 3.00 or better and a GPA of 3.00 or better in MATH and STAT courses.

Interested students who meet the admission requirements should apply to the graduate program director, after consulting with the undergraduate chief departmental advisor, as soon as possible upon completing the required courses and 60 credit hours. In consultation with the graduate program director, a student will:

1. Officially declare an undergraduate Mathematics major with the undergraduate chief departmental advisor.
2. Draft a schedule of graduate courses to be taken as an undergraduate to be presented to the undergraduate chief departmental advisor.
3. Apply, during their senior year, to the Office of Graduate Admissions for admission to the master's in computational and applied mathematics program.

Students who have completed at least six hours of graduate courses upon attaining senior standing (completion of 90 credit hours) and who have earned a GPA of 3.00 or better in those courses will not be required to take the Graduate Record Exam (GRE) for admission to the master's program. Otherwise, in keeping with normal admission requirements for the MS in computational and applied mathematics, students will take the GRE as an undergraduate and will subsequently be reevaluated for continuation into the master's program.

Once students have been awarded their bachelor's degree and fulfilled all regular admission requirements for the MS in computational and applied mathematics, they will be officially admitted into the MS program.

Program Requirements

Students in the program will fulfill all normal admission and curricular requirements for both a BS in mathematics and an MS in computational and applied mathematics with the following exceptions:

1. Students in the program may count up to 12 hours of 500 or 600 level graduate courses, excluding independent study, taken as an undergraduate for which they have earned a grade point average of 3.0 or greater with no course grade lower than a B- toward both the BS in mathematics and the MS in computational and applied mathematics.
2. Students in the program may substitute mathematics or statistics graduate courses for undergraduate courses according to the following schema. All students must complete an undergraduate writing intensive course in the major.
 - a. All students must complete the prescribed undergraduate program including all 400-level required courses and electives.
 - b. All students may substitute 500- and 600-level courses for the remaining credit hours in the 120-hour requirement in the undergraduate program so long as they have the prerequisites for those courses. 700- or 800-level courses may not be used.
 - c. Students will not receive credit for both the 400 and 500 level version of the same course.
 - d. Students in the program may make a written petition for other substitutions to the graduate program director, who will consider them in consultation with the chief departmental advisor and the instructor(s) of the courses involved.

NOTES:

1. In accordance with University policy, up to 21 hours of graduate courses taken as an undergraduate may be counted toward the bachelor's degree; however, only 12 hours of graduate courses taken as an undergraduate may also be counted toward the MS degree. This will limit students' scheduling flexibility subsequently.

The Nature of Science (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#nature)	8

Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

Written Communication: A grade of C or better is required in both courses.

Mathematics: met in the major by MATH 211

Information Literacy and Research: CS 121G (preferred); IT 150G is an acceptable substitute

Human Behavior: ECON 202S required

Philosophy and Ethics: PHIL 120P recommended

The Nature of Science: The eight credit hours of Nature of Science with labs need not be in the same science.

Impact of Technology: IT 360T recommended

Upper-Division General Education

The upper-division general education requirement must be satisfied by completing a second major in Risk Management and Insurance in the Bachelor of Science in Business Administration degree in Financial Management (Option A) or by completing a minor in Risk Management and Insurance (Option B).

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Mathematics Core

Mathematics Core Course Requirements *

CS 151 or CS 153	Introduction to Programming with Java Introduction to Programming with Python	4
MATH 211	Calculus I	4
MATH 212	Calculus II	4
MATH 307	Ordinary Differential Equations	3
MATH 311W	Abstract Algebra	3
MATH 312	Calculus III	4
MATH 316	Introductory Linear Algebra	3
MATH 317	Calculus IV: Introductory Analysis	3
STAT 310	Introductory Data Analysis	3
STAT 331	Theory of Probability	3
Total Credit Hours		34

* A grade of C+ or higher is required in MATH 211 and MATH 212. A cumulative GPA of 2.3 or higher is required in all 300 and 400 level core courses with no grade lower than a C. In addition, a grade of C or higher is required in mathematics and statistics prerequisite courses to advance to the next course.

Actuarial Mathematics Major

General Education

Complete lower-division requirements	38-44
Complete upper-division requirements (minor or second major in risk management and insurance required; minimum of 12 credit hours)	12

Mathematics Core

Complete mathematics core requirements	34

Linked Bachelor of Science in Mathematics and Master of Science in Computational and Applied Mathematics

The linked program allows students to count up to 12 credits of graduate coursework toward both their undergraduate and master's degrees. Students must earn a minimum of 150 credits (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Admission

To be admitted to the linked program, students must have completed at least 60 undergraduate credit hours with at least 24 credit hours from ODU. Students must have completed MATH 307, MATH 312, MATH 317 and all prerequisites for those courses. At the time of admission, they must have an overall GPA of 3.00 or better and a GPA of 3.00 or better in MATH and STAT courses.

Interested students who meet the admission requirements should apply to the graduate program director, after consulting with the undergraduate chief departmental advisor, as soon as possible upon completing the required courses and 60 credit hours. In consultation with the graduate program director, a student will:

1. Officially declare an undergraduate Mathematics major with the undergraduate chief departmental advisor.
2. Draft a schedule of graduate courses to be taken as an undergraduate to be presented to the undergraduate chief departmental advisor.
3. Apply, during their senior year, to the Office of Graduate Admissions for admission to the master's in computational and applied mathematics program.

Students who have completed at least six hours of graduate courses upon attaining senior standing (completion of 90 credit hours) and who have earned a GPA of 3.00 or better in those courses will not be required to take the Graduate Record Exam (GRE) for admission to the master's program. Otherwise, in keeping with normal admission requirements for the MS in computational and applied mathematics, students will take the GRE as an undergraduate and will subsequently be reevaluated for continuation into the master's program.

Once students have been awarded their bachelor's degree and fulfilled all regular admission requirements for the MS in computational and applied mathematics, they will be officially admitted into the MS program.

Program Requirements

Students in the program will fulfill all normal admission and curricular requirements for both a BS in mathematics and an MS in computational and applied mathematics with the following exceptions:

1. Students in the program may count up to 12 hours of 500 or 600 level graduate courses, excluding independent study, taken as an undergraduate for which they have earned a grade point average of 3.0 or greater with no course grade lower than a B- toward both the BS in mathematics and the MS in computational and applied mathematics.
2. Students in the program may substitute mathematics or statistics graduate courses for undergraduate courses according to the following schema. All students must complete an undergraduate writing intensive course in the major.
 - a. All students must complete the prescribed undergraduate program including all 400-level required courses and electives.

- b. All students may substitute 500- and 600-level courses for the remaining credit hours in the 120-hour requirement in the undergraduate program so long as they have the prerequisites for those courses. 700- or 800-level courses may not be used.
- c. Students will not receive credit for both the 400 and 500 level version of the same course.
- d. Students in the program may make a written petition for other substitutions to the graduate program director, who will consider them in consultation with the chief departmental advisor and the instructor(s) of the courses involved.

NOTES:

1. In accordance with University policy, up to 21 hours of graduate courses taken as an undergraduate may be counted toward the bachelor's degree; however, only 12 hours of graduate courses taken as an undergraduate may also be counted toward the MS degree. This will limit students' scheduling flexibility subsequently.

BA or BS to MBA (Master of Business Administration) Linked Program

The linked BA/MBA or BS/MBA program is an early entry to the MBA program of study. The early-entry program is designed for well qualified non-business undergraduate ODU students to start their MBA program prior to completing their undergraduate degree. Well qualified non-business undergraduate students may take MBA-level courses as early as three semesters prior to graduation and count up to 12 graduate credits toward their undergraduate degree. Students participating in the early-entry program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree). Early-entry program students should carefully consider their undergraduate degree program requirements when planning their course of study. Students in the early-entry program work in close consultation with the MBA Program Office and should refer to information in the Strome College of Business section in the graduate catalog (<http://catalog.odu.edu/graduate/stromecollegeofbusiness/>) to develop an individualized plan of study based on the required coursework.

BA or BS to MPA (Master of Public Administration) Linked Program

The linked BA/MPA or BS/MPA program provides qualified Old Dominion University undergraduate students with the opportunity to earn a master's degree in public administration while taking credits in the MPA program as an undergraduate student. The program is designed for highly motivated students with the desire to immediately continue their education after the bachelor's degree. The program is especially relevant to individuals seeking to work (or currently working) in the public or non-profit sectors, but is suitable for students from any undergraduate major. Graduate courses may be taken during the fall and spring semester of the student's senior undergraduate year. Up to 12 graduate credits can count toward both the undergraduate and graduate degree and can meet upper-level General Education requirements. After receiving the undergraduate degree, a student will continue with the MPA program, taking MPA courses until completing the required 39 credit hours. Students in the linked program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Requirements for admission to the graduate program can be found in the School of Public Service section of the Graduate Catalog (<http://catalog.odu.edu/graduate/business/public-service/>). For additional information, please contact the School of Public Service in the Strome College of Business.

Bachelor of Science Mathematics with a Major in Applied Mathematics (BS) Requirements

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6

Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

Written Communication: A grade of C or better is required in both courses.

Mathematics: met in the major by MATH 211

Information Literacy and Research: CS 121G (preferred)

Impact of Technology: BDA 200T (preferred)

Philosophy and Ethics: PHIL 120P recommended

The Nature of Science: The eight credit hours of Nature of Science with labs need not be in the same science. However, PHYS 231N-PHYS 232N are recommended for the Applied Mathematics major.

Upper-Division General Education

- Option A. Approved Disciplinary Minor (a minimum of 12 hours determined by the department), or second degree or second major.
- Option B: Interdisciplinary Minor (specifically 12 hours, 3 of which may be in the major)
- Option C. An approved Certification Program such as teaching licensure
- Option D. Two Upper-Division Courses from outside the College of Sciences and not required by the major (6 hours)

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.

- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Linked Bachelor of Science in Mathematics and Master of Science in Computational and Applied Mathematics

The linked program allows students to count up to 12 credits of graduate coursework toward both their undergraduate and master's degrees. Students must earn a minimum of 150 credits (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Admission

To be admitted to the linked program, students must have completed at least 60 undergraduate credit hours with at least 24 credit hours from ODU. Students must have completed MATH 307, MATH 312, MATH 317 and all prerequisites for those courses. At the time of admission, they must have an overall GPA of 3.00 or better and a GPA of 3.00 or better in MATH and STAT courses.

Interested students who meet the admission requirements should apply to the graduate program director, after consulting with the undergraduate chief departmental advisor, as soon as possible upon completing the required courses and 60 credit hours. In consultation with the graduate program director, a student will:

1. Officially declare an undergraduate Mathematics major with the undergraduate chief departmental advisor.
2. Draft a schedule of graduate courses to be taken as an undergraduate to be presented to the undergraduate chief departmental advisor.
3. Apply, during their senior year, to the Office of Graduate Admissions for admission to the master's in computational and applied mathematics program.

Students who have completed at least six hours of graduate courses upon attaining senior standing (completion of 90 credit hours) and who have earned a GPA of 3.00 or better in those courses will not be required to take the Graduate Record Exam (GRE) for admission to the master's program. Otherwise, in keeping with normal admission requirements for the MS in computational and applied mathematics, students will take the GRE as an

undergraduate and will subsequently be reevaluated for continuation into the master's program.

Once students have been awarded their bachelor's degree and fulfilled all regular admission requirements for the MS in computational and applied mathematics, they will be officially admitted into the MS program.

Program Requirements

Students in the program will fulfill all normal admission and curricular requirements for both a BS in mathematics and an MS in computational and applied mathematics with the following exceptions:

1. Students in the program may count up to 12 hours of 500 or 600 level graduate courses, excluding independent study, taken as an undergraduate for which they have earned a grade point average of 3.0 or greater with no course grade lower than a B- toward both the BS in mathematics and the MS in computational and applied mathematics.
2. Students in the program may substitute mathematics or statistics graduate courses for undergraduate courses according to the following schema. All students must complete an undergraduate writing intensive course in the major.
 - a. All students must complete the prescribed undergraduate program including all 400-level required courses and electives.
 - b. All students may substitute 500- and 600-level courses for the remaining credit hours in the 120-hour requirement in the undergraduate program so long as they have the prerequisites for those courses. 700- or 800-level courses may not be used.
 - c. Students will not receive credit for both the 400 and 500 level version of the same course.
 - d. Students in the program may make a written petition for other substitutions to the graduate program director, who will consider them in consultation with the chief departmental advisor and the instructor(s) of the courses involved.

NOTES:

1. In accordance with University policy, up to 21 hours of graduate courses taken as an undergraduate may be counted toward the bachelor's degree; however, only 12 hours of graduate courses taken as an undergraduate may also be counted toward the MS degree. This will limit students' scheduling flexibility subsequently.

BA or BS to MBA (Master of Business Administration) Linked Program

The linked BA/MBA or BS/MBA program is an early entry to the MBA program of study. The early-entry program is designed for well qualified non-business undergraduate ODU students to start their MBA program prior to completing their undergraduate degree. Well qualified non-business undergraduate students may take MBA-level courses as early as three semesters prior to graduation and count up to 12 graduate credits toward their undergraduate degree. Students participating in the early-entry program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree). Early-entry program students should carefully consider their undergraduate degree program requirements when planning their course of study. Students in the early-entry program work in close consultation with the MBA Program Office and should refer to information in the Strome College of Business section in the graduate catalog (<http://catalog.odu.edu/graduate/stromecollegeofbusiness/>) to develop an individualized plan of study based on the required coursework.

BA or BS to MPA (Master of Public Administration) Linked Program

The linked BA/MPA or BS/MPA program provides qualified Old Dominion University undergraduate students with the opportunity to earn a master's degree in public administration while taking credits in the MPA program as an undergraduate student. The program is designed for highly motivated students with the desire to immediately continue their education after the bachelor's degree. The program is especially relevant to individuals seeking

to work (or currently working) in the public or non-profit sectors, but is suitable for students from any undergraduate major. Graduate courses may be taken during the fall and spring semester of the student's senior undergraduate year. Up to 12 graduate credits can count toward both the undergraduate and graduate degree and can meet upper-level General Education requirements. After receiving the undergraduate degree, a student will continue with the MPA program, taking MPA courses until completing the required 39 credit hours. Students in the linked program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Requirements for admission to the graduate program can be found in the School of Public Service section of the Graduate Catalog (<http://catalog.odu.edu/graduate/business/public-service/>). For additional information, please contact the School of Public Service in the Strome College of Business.

Written Communication: A grade of C or better is required in both courses.

Mathematics: met in the major by MATH 211

Information Literacy and Research: CS 121G (preferred); IT 150G is an acceptable substitute.

Philosophy and Ethics: PHIL 120P recommended

The Nature of Science: The eight credit hours of Nature of Science with labs need not be in the same science.

Impact of Technology: BDA 200T preferred.

Upper-Division General Education

A minor or second major in computer science, which includes CS 361 Advanced Data Structures and Algorithms, is required.

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Linked Bachelor of Science in Mathematics and Master of Science in Computational and Applied Mathematics

The linked program allows students to count up to 12 credits of graduate coursework toward both their undergraduate and master's degrees. Students must earn a minimum of 150 credits (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Admission

To be admitted to the linked program, students must have completed at least 60 undergraduate credit hours with at least 24 credit hours from ODU. Students must have completed MATH 307, MATH 312, MATH 317 and all prerequisites for those courses. At the time of admission, they must have an overall GPA of 3.00 or better and a GPA of 3.00 or better in MATH and STAT courses.

Interested students who meet the admission requirements should apply to the graduate program director, after consulting with the undergraduate chief departmental advisor, as soon as possible upon completing the required courses and 60 credit hours. In consultation with the graduate program director, a student will:

1. Officially declare an undergraduate Mathematics major with the undergraduate chief departmental advisor.
2. Draft a schedule of graduate courses to be taken as an undergraduate to be presented to the undergraduate chief departmental advisor.
3. Apply, during their senior year, to the Office of Graduate Admissions for admission to the master's in computational and applied mathematics program.

Students who have completed at least six hours of graduate courses upon attaining senior standing (completion of 90 credit hours) and who have earned a GPA of 3.00 or better in those courses will not be required to take the Graduate Record Exam (GRE) for admission to the master's program. Otherwise, in keeping with normal admission requirements for the MS in computational and applied mathematics, students will take the GRE as an undergraduate and will subsequently be reevaluated for continuation into the master's program.

Once students have been awarded their bachelor's degree and fulfilled all regular admission requirements for the MS in computational and applied mathematics, they will be officially admitted into the MS program.

Program Requirements

Students in the program will fulfill all normal admission and curricular requirements for both a BS in mathematics and an MS in computational and applied mathematics with the following exceptions:

1. Students in the program may count up to 12 hours of 500 or 600 level graduate courses, excluding independent study, taken as an undergraduate for which they have earned a grade point average of 3.0 or greater with no course grade lower than a B- toward both the BS in mathematics and the MS in computational and applied mathematics.
2. Students in the program may substitute mathematics or statistics graduate courses for undergraduate courses according to the following schema. All students must complete an undergraduate writing intensive course in the major.
 - a. All students must complete the prescribed undergraduate program including all 400-level required courses and electives.
 - b. All students may substitute 500- and 600-level courses for the remaining credit hours in the 120-hour requirement in the undergraduate program so long as they have the prerequisites for those courses. 700- or 800-level courses may not be used.
 - c. Students will not receive credit for both the 400 and 500 level version of the same course.
 - d. Students in the program may make a written petition for other substitutions to the graduate program director, who will consider them in consultation with the chief departmental advisor and the instructor(s) of the courses involved.

NOTES:

1. In accordance with University policy, up to 21 hours of graduate courses taken as an undergraduate may be counted toward the bachelor's degree; however, only 12 hours of graduate courses taken as an undergraduate may also be counted toward the MS degree. This will limit students' scheduling flexibility subsequently.

BA or BS to MBA (Master of Business Administration) Linked Program

The linked BA/MBA or BS/MBA program is an early entry to the MBA program of study. The early-entry program is designed for well qualified non-business undergraduate ODU students to start their MBA program prior to completing their undergraduate degree. Well qualified non-business undergraduate students may take MBA-level courses as early as three semesters prior to graduation and count up to 12 graduate credits

toward their undergraduate degree. Students participating in the early-entry program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree). Early-entry program students should carefully consider their undergraduate degree program requirements when planning their course of study. Students in the early-entry program work in close consultation with the MBA Program Office and should refer to information in the Strome College of Business section in the graduate catalog (<http://catalog.odu.edu/graduate/stromecollegeofbusiness/>) to develop an individualized plan of study based on the required coursework.

BA or BS to MPA (Master of Public Administration) Linked Program

The linked BA/MPA or BS/MPA program provides qualified Old Dominion University undergraduate students with the opportunity to earn a master's degree in public administration while taking credits in the MPA program as an undergraduate student. The program is designed for highly motivated students with the desire to immediately continue their education after the bachelor's degree. The program is especially relevant to individuals seeking to work (or currently working) in the public or non-profit sectors, but is suitable for students from any undergraduate major. Graduate courses may be taken during the fall and spring semester of the student's senior undergraduate year. Up to 12 graduate credits can count toward both the undergraduate and graduate degree and can meet upper-level General Education requirements. After receiving the undergraduate degree, a student will continue with the MPA program, taking MPA courses until completing the required 39 credit hours. Students in the linked program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Requirements for admission to the graduate program can be found in the School of Public Service section of the Graduate Catalog (<http://catalog.odu.edu/graduate/business/public-service/>). For additional information, please contact the School of Public Service in the Strome College of Business.

Bachelor of Science Mathematics with a Major in Secondary Mathematics Education (6-12) (BS)

Bachelor of Science in Mathematics with Teaching Licensure

Due to changing University requirements, national accreditation standards, and the Virginia Board of Education licensure regulations, the teacher preparation programs in the College of Sciences are under constant revision. Any changes resulting from these factors supersede the program requirements described in this Catalog. Students are encouraged to obtain current program information from their advisors and the Office of Clinical Experiences website at www.odu.edu/oce (<http://www.odu.edu/oce/>).

Admission

Students must first declare mathematics with a major in secondary mathematics education (6-12) with the mathematics departmental advisor. All students must apply for and be admitted into the approved secondary mathematics education major. Students must meet the required criteria for admission by earning the minimum required grade point averages (GPA).

Required grade point averages (GPA)

- A cumulative GPA of 2.75 is required.
- A major/content GPA of 2.75 is required. The mathematics core must be successfully completed. A grade of C+ or higher is required in MATH 211 and MATH 212, and a cumulative GPA of 2.3 or higher is required in all 300 and 400 level core courses with no grade lower than a C. No grade lower than C- is accepted for the remaining math courses.

- A professional education GPA of 2.75 is required. All professional education courses must be passed with a grade of C- or higher.

Although students may enroll in a limited number of education courses, students must be admitted into the approved mathematics teacher preparation program prior to enrolling in any instructional strategies practicum education course. Students must also meet with an education advisor in the MonarchTeach Office.

Continuance

Students must maintain a cumulative GPA of 2.75, a major/content GPA of 2.75 and a professional education GPA of 2.75. The mathematics core must be successfully completed. A grade of C+ or higher is required in MATH 211 and MATH 212, and a cumulative GPA of 2.3 or higher is required in all 300 and 400 level mathematics core courses with no grade lower than a C. The remaining courses required for the major and in the professional education core must be completed with a grade of C- or higher for continuance. A professional education GPA of 2.75 is required for continuance. Students must take and pass the Praxis Subject Assessment, Mathematics content knowledge (formerly Praxis II) prior to or while enrolled in the instructional strategies course. All assessments must be passed prior to the start of the Teacher Candidate Internship Orientation session.

Background Clearance Requirement

Old Dominion University requires a background clearance check of candidates interested in many of the professional education programs. Professional education programs have several field experiences that are required for continuance and graduation from the program. The background clearance must be successfully completed prior to a field experience placement. Candidates will be provided a field experience placement when the background check process is completed with resolution of any issues. The process to complete the ODU clearance background check is located at: <https://www.odu.edu/clinical-experiences/placement/background-checks> (<https://www.odu.edu/clinical-experiences/placement/background-checks/>). The ODU clearance process includes: an FBI fingerprint, a child protective service/social service review, and a Virginia State Police sex offender registry review. Candidates interested in the professional education programs are advised to complete this clearance process immediately upon entry into the program since the clearance process takes a minimum of eight weeks to complete.

Virginia Board of Education Prescribed Assessments for Licensure

Praxis Subject Assessment, Mathematics content knowledge (formerly Praxis II). Test code: 5161 – passing score of 160 is required.

To review more information on the Virginia Board of Education prescribed assessments visit the Office of Clinical Experiences website, www.odu.edu/oce (<http://www.odu.edu/oce/>).

Requirements

Lower-Division General Education

Written Communication (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#written)	6

Impact of Technology (http://catalog.odu.edu/undergraduate/requirements-undergraduate-degrees/#impact)	3

Written Communication: A grade of C or better is required in both courses.

Mathematics: met in the major by MATH 211

Information Literacy and Research: CS 121G (preferred)

Philosophy and Ethics: PHIL 120P recommended

The Nature of Science: The eight credit hours of Nature of Science with labs need not be in the same science.

Impact of Technology: BDA 200T preferred.

Upper-Division General Education

The professional education core satisfies the Upper-Division General Education requirement.

Requirements for Graduation

Requirements for graduation with a BS in Mathematics with Teaching Licensure include completion of ENGL 110C and ENGL 211C or ENGL 231C with a grade of C or better, completion of the Senior Assessment, a minimum cumulative 2.75 GPA, in the major area, and in the professional education core, successful completion of the mathematics core, no grade less than C- in the remaining courses in the major and the professional education core, successful completion of the Apprentice Teaching, and a minimum of 120 credit hours to include a minimum of 30 credit hours overall and 12 credit hours in upper-level courses in the major program from Old Dominion University. Successful completion of the core requires a grade of C+ or higher in MATH 211 and MATH 212, and a cumulative GPA of 2.3 or higher is required in all 300 and 400 level mathematics core courses with no grade lower than a C.

Licensure requirements also include certificate of completion in First Aid/AED/CPR, Dyslexia Awareness Training, Child Abuse and Neglect Recognition and Intervention Training, and Regulations Governing the Use of Restraint and Seclusion in Elementary and Secondary Schools, and Cultural Competence Training.

Linked Bachelor of Science in Mathematics and Master of Science in Computational and Applied Mathematics

The linked program allows students to count up to 12 credits of graduate coursework toward both their undergraduate and master's degrees. Students must earn a minimum of 150 credits (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Admission

To be admitted to the linked program, students must have completed at least 60 undergraduate credit hours with at least 24 credit hours from ODU. Students must have completed MATH 307, MATH 312, MATH 317 and all prerequisites for those courses. At the time of admission, they must have an overall GPA of 3.00 or better and a GPA of 3.00 or better in MATH and STAT courses.

Interested students who meet the admission requirements should apply to the graduate program director, after consulting with the undergraduate chief departmental advisor, as soon as possible upon completing the required courses and 60 credit hours. In consultation with the graduate program director, a student will:

1. Officially declare an undergraduate Mathematics major with the undergraduate chief departmental advisor.
2. Draft a schedule of graduate courses to be taken as an undergraduate to be presented to the undergraduate chief departmental advisor.
3. Apply, during their senior year, to the Office of Graduate Admissions for admission to the master's in computational and applied mathematics program.

Students who have completed at least six hours of graduate courses upon attaining senior standing (completion of 90 credit hours) and who have earned a GPA of 3.00 or better in those courses will not be required to take the Graduate Record Exam (GRE) for admission to the master's program. Otherwise, in keeping with normal admission requirements for the MS in computational and applied mathematics, students will take the GRE as an undergraduate and will subsequently be reevaluated for continuation into the master's program.

Once students have been awarded their bachelor's degree and fulfilled all regular admission requirements for the MS in computational and applied mathematics, they will be officially admitted into the MS program.

Program Requirements

Students in the program will fulfill all normal admission and curricular requirements for both a BS in mathematics and an MS in computational and applied mathematics with the following exceptions:

1. Students in the program may count up to 12 hours of 500 or 600 level graduate courses, excluding independent study, taken as an undergraduate for which they have earned a grade point average of 3.0 or greater with no course grade lower than a B- toward both the BS in mathematics and the MS in computational and applied mathematics.
2. Students in the program may substitute mathematics or statistics graduate courses for undergraduate courses according to the following schema. All students must complete an undergraduate writing intensive course in the major.
 - a. All students must complete the prescribed undergraduate program including all 400-level required courses and electives.
 - b. All students may substitute 500- and 600-level courses for the remaining credit hours in the 120-hour requirement in the undergraduate program so long as they have the prerequisites for those courses. 700- or 800-level courses may not be used.
 - c. Students will not receive credit for both the 400 and 500 level version of the same course.
 - d. Students in the program may make a written petition for other substitutions to the graduate program director, who will consider them in consultation with the chief departmental advisor and the instructor(s) of the courses involved.

NOTES:

1. In accordance with University policy, up to 21 hours of graduate courses taken as an undergraduate may be counted toward the bachelor's degree; however, only 12 hours of graduate courses taken as an undergraduate may also be counted toward the MS degree. This will limit students' scheduling flexibility subsequently.

BA or BS to MBA (Master of Business Administration) Linked Program

The linked BA/MBA or BS/MBA program is an early entry to the MBA program of study. The early-entry program is designed for well qualified non-business undergraduate ODU students to start their MBA program prior to completing their undergraduate degree. Well qualified non-business undergraduate students may take MBA-level courses as early as three semesters prior to graduation and count up to 12 graduate credits toward their undergraduate degree. Students participating in the early-entry program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree). Early-entry program students should carefully consider their undergraduate degree program requirements when planning their course of study. Students in the early-entry program work in close consultation with the MBA Program Office and should refer to information in the Strome College of Business section in the graduate catalog (<http://catalog.odu.edu/graduate/stromecollegeofbusiness/>) to develop an individualized plan of study based on the required coursework.

BA or BS to MPA (Master of Public Administration) Linked Program

The linked BA/MPA or BS/MPA program provides qualified Old Dominion University undergraduate students with the opportunity to earn a master's degree in public administration while taking credits in the MPA program as an undergraduate student. The program is designed for highly motivated students with the desire to immediately continue their education after the bachelor's degree. The program is especially relevant to individuals seeking to work (or currently working) in the public or non-profit sectors, but is suitable for students from any undergraduate major. Graduate courses may be taken during the fall and spring semester of the student's senior undergraduate year. Up to 12 graduate credits can count toward both the undergraduate and graduate degree and can meet upper-level General Education requirements. After receiving the undergraduate degree, a

student will continue with the MPA program, taking MPA courses until completing the required 39 credit hours. Students in the linked program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Requirements for admission to the graduate program can be found in the School of Public Service section of the Graduate Catalog (<http://catalog.odu.edu/graduate/business/public-service/>). For additional information, please contact the School of Public Service in the Strome College of Business.

Mathematics: met in the major by MATH 211

Information Literacy and Research: CS 121G (preferred)

Impact of Technology: BDA 200T (preferred)

Philosophy and Ethics: PHIL 120P recommended

The Nature of Science: The eight credit hours of Nature of Science with labs need not be in the same science. However, BIOL 110N/BIOL 111N; BIOL 112N/BIOL 113N; BIOL 117N/BIOL 118N or BIOL 121N/BIOL 122N-BIOL 123N/BIOL 124N are recommended major.

Upper-Division General Education

- Option A. Approved Disciplinary Minor (a minimum of 12 hours determined by the department), or second degree or second major.
- Option B: Interdisciplinary Minor (specifically 12 hours, 3 of which may be in the major)
- Option C. An approved Certification Program such as teaching licensure
- Option D. Two Upper-Division Courses from outside the College of Sciences and not required by the major (6 hours)

Requirements for Graduation

Requirements for graduation include the following:

- Minimum of 120 credit hours.
- Minimum of 30 credit hours overall and 12 credit hours of upper-level courses in the major program from Old Dominion University.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward the major.
- Minimum overall cumulative grade point average of C (2.00) in all courses taken toward a minor.
- Completion of ENGL 110C, ENGL 211C or ENGL 231C, and the writing intensive (W) course in the major with a grade of C or better. The W course must be taken at Old Dominion University.
- Completion of Senior Assessment.

Impact of Technology (BDA 200T preferred)		3
Elective or Language & Culture II (May be waived; See requirement details)		3
Credit Hours		16
Sophomore		
Fall		
MATH 307	Ordinary Differential Equations	3
Human Creativity		3
CS 151 or CS 153	Introduction to Programming with Java or Introduction to Programming with Python	4
Nature of Science I (Course depends on major chosen. See requirement details)		4
Credit Hours		14
Spring		
MATH 312	Calculus III	4
Interpreting the Past		3
Philosophy and Ethics (PHIL 120P recommended)		3
Nature of Science II (Course depends on major chosen. See requirement details)		4
Credit Hours		14
Junior		
Fall		
MATH 311W	Abstract Algebra (C or better required)	3
STAT 310 or STAT 331 (Statistics/Biostatistics and Actuarial Mathematics Majors must take STAT 331)		3

Literature		3
Major course		3
Upper-Division General Education Course or Minor		3
Credit Hours		15
Spring		
MATH 316	Introductory Linear Algebra	3
MATH 317	Calculus IV: Introductory Analysis	3
STAT 330 or STAT 431 (Statistics/Biostatistics and Actuarial Mathematics majors take STAT 431)		3
Major course		3
Upper-Division General Education Course or Minor		3
Credit Hours		15
Senior		
Fall		
Major course		3
Major course		3
Elective or Major Course if Big Data Analytics major		3
Elective or STAT 310		3
Minor or Elective		3
Credit Hours		15
Spring		
Major course		3
Major course		3
Elective or Major Course if Big Data Analytics major		3
Elective		3
Minor or Elective		3
Credit Hours		15
Total Credit Hours		120

Linked Bachelor of Science in Mathematics and Master of Science in Computational and Applied Mathematics

The linked program allows students to count up to 12 credits of graduate coursework toward both their undergraduate and master's degrees. Students must earn a minimum of 150 credits (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Admission

To be admitted to the linked program, students must have completed at least 60 undergraduate credit hours with at least 24 credit hours from ODU. Students must have completed MATH 307, MATH 312, MATH 317 and all prerequisites for those courses. At the time of admission, they must have an overall GPA of 3.00 or better and a GPA of 3.00 or better in MATH and STAT courses.

Interested students who meet the admission requirements should apply to the graduate program director, after consulting with the undergraduate chief departmental advisor, as soon as possible upon completing the required courses and 60 credit hours. In consultation with the graduate program director, a student will:

1. Officially declare an undergraduate Mathematics major with the undergraduate chief departmental advisor.
2. Draft a schedule of graduate courses to be taken as an undergraduate to be presented to the undergraduate chief departmental advisor.

3. Apply, during their senior year, to the Office of Graduate Admissions for admission to the master's in computational and applied mathematics program.

Students who have completed at least six hours of graduate courses upon attaining senior standing (completion of 90 credit hours) and who have earned a GPA of 3.00 or better in those courses will not be required to take the Graduate Record Exam (GRE) for admission to the master's program. Otherwise, in keeping with normal admission requirements for the MS in computational and applied mathematics, students will take the GRE as an undergraduate and will subsequently be reevaluated for continuation into the master's program.

Once students have been awarded their bachelor's degree and fulfilled all regular admission requirements for the MS in computational and applied mathematics, they will be officially admitted into the MS program.

Program Requirements

Students in the program will fulfill all normal admission and curricular requirements for both a BS in mathematics and an MS in computational and applied mathematics with the following exceptions:

1. Students in the program may count up to 12 hours of 500 or 600 level graduate courses, excluding independent study, taken as an undergraduate for which they have earned a grade point average of 3.0 or greater with no course grade lower than a B- toward both the BS in mathematics and the MS in computational and applied mathematics.
2. Students in the program may substitute mathematics or statistics graduate courses for undergraduate courses according to the following schema. All students must complete an undergraduate writing intensive course in the major.
 - a. All students must complete the prescribed undergraduate program including all 400-level required courses and electives.
 - b. All students may substitute 500- and 600-level courses for the remaining credit hours in the 120-hour requirement in the undergraduate program so long as they have the prerequisites for those courses. 700- or 800-level courses may not be used.
 - c. Students will not receive credit for both the 400 and 500 level version of the same course.
 - d. Students in the program may make a written petition for other substitutions to the graduate program director, who will consider them in consultation with the chief departmental advisor and the instructor(s) of the courses involved.

NOTES:

1. In accordance with University policy, up to 21 hours of graduate courses taken as an undergraduate may be counted toward the bachelor's degree; however, only 12 hours of graduate courses taken as an undergraduate may also be counted toward the MS degree. This will limit students' scheduling flexibility subsequently.

BA or BS to MBA (Master of Business Administration) Linked Program

The linked BA/MBA or BS/MBA program is an early entry to the MBA program of study. The early-entry program is designed for well qualified non-business undergraduate ODU students to start their MBA program prior to completing their undergraduate degree. Well qualified non-business undergraduate students may take MBA-level courses as early as three semesters prior to graduation and count up to 12 graduate credits toward their undergraduate degree. Students participating in the early-entry program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree). Early-entry program students should carefully consider their undergraduate degree program requirements when planning their course of study. Students in the early-entry program work in close consultation with the MBA Program Office and should refer to information in the Strome College of Business section in the graduate catalog (<http://catalog.odu.edu/graduate/stromecollegeofbusiness/>) to develop an individualized plan of study based on the required coursework.

BA or BS to MPA (Master of Public Administration) Linked Program

The linked BA/MPA or BS/MPA program provides qualified Old Dominion University undergraduate students with the opportunity to earn a master's degree in public administration while taking credits in the MPA program as an undergraduate student. The program is designed for highly motivated students with the desire to immediately continue their education after the bachelor's degree. The program is especially relevant to individuals seeking to work (or currently working) in the public or non-profit sectors, but is suitable for students from any undergraduate major. Graduate courses may be taken during the fall and spring semester of the student's senior undergraduate year. Up to 12 graduate credits can count toward both the undergraduate and graduate degree and can meet upper-level General Education requirements. After receiving the undergraduate degree, a student will continue with the MPA program, taking MPA courses until completing the required 39 credit hours. Students in the linked program must earn a minimum of 150 credit hours (120 discrete credit hours for the undergraduate degree and 30 discrete credit hours for the graduate degree).

Requirements for admission to the graduate program can be found in the School of Public Service section of the Graduate Catalog (<http://catalog.odu.edu/graduate/business/public-service/>). For additional information, please contact the School of Public Service in the Strome College of Business.

Minor Mathematics-Actuarial Mathematics Minor Requirements

The mathematics-actuarial mathematics minor consists of the following:

MATH 312	Calculus III	4
MATH 316	Introductory Linear Algebra	3
STAT 330	An Introduction to Probability and Statistics	3
or STAT 331	Theory of Probability	
MATH 408	Applied Numerical Methods I	3
or STAT 431	Theory of Statistics	
Total Credit Hours		13

At least nine credit hours in the chosen minor must be taken through courses offered by Old Dominion University. Students must have an overall grade point average of at least 2.00 in all courses specified as a requirement for the minor in their chosen minor exclusive of 100/200-level courses and prerequisite courses.

Minor Mathematics-Applied Mathematics Minor

The mathematics-applied mathematics minor consists of the following:

MATH 307	Ordinary Differential Equations	3
MATH 312	Calculus III	4
MATH 317	Calculus IV: Introductory Analysis	3
Select two of the following:		6
MATH 316	Introductory Linear Algebra	
MATH 401	Partial Differential Equations	
MATH 408	Applied Numerical Methods I	
MATH 409	Applied Numerical Methods II	
MATH 417	Intermediate Real Analysis I	
MATH 420	Applied Mathematics I: Biomathematics	
MATH 421	Applied Mathematics II: Mathematical Modeling	

MATH 422	Applied Complex Variables
MATH 427	Applied Mathematics III: Elasticity
MATH 428	Applied Mathematics IV: Fluid Mechanics
MATH 457	Mathematics in Nature
Or approved topics or BDA courses	
Total Credit Hours	16

At least nine credit hours in the chosen minor must be taken through courses offered by Old Dominion University. Students must have an overall grade point average of at least 2.00 in all courses specified as a requirement for the minor in their chosen minor exclusive of 100/200-level courses and prerequisite courses.

Minor Mathematics-Statistics/Biostatistics Minor

The mathematics-statistics/biostatistics minor consists of 12 hours of statistics at the 300/400 level, of which at most six hours can be at the 300 level. STAT 306 cannot be applied to this option.

At least nine credit hours in the chosen minor must be taken through courses offered by Old Dominion University. Students must have an overall grade point average of at least 2.00 in all courses specified as a requirement for the minor in their chosen minor exclusive of 100/200-level courses and prerequisite courses.

Ocean and Earth Sciences

Web Site: <http://www.odu.edu/oeas> (<http://www.odu.edu/oeas/>)

Kevin Yeager, Chair
Richard Hale, Chief Departmental Advisor

The Department of Ocean and Earth Sciences offers the following undergraduate majors in Ocean and Earth Science: Oceanography, Environmental Sciences, Geology, Marine Science Technology, Secondary Earth Science Education (6-12), and Middle School Science Education (6-8). A minor in Ocean and Earth Science is also offered.

The department receives considerable support from the Commonwealth and local philanthropic sources, as well as from private industry and area citizens. Establishment of the Virginia Graduate Marine Science Consortium by the General Assembly in 1979 demonstrated the Commonwealth's determination to achieve excellence in marine science. The purpose of the consortium is to advance marine science instruction, research, training, and advisory services and to enhance Virginia's position in seeking funding to carry out these activities. Charter members of the consortium are Old Dominion University, the University of Virginia, Virginia Polytechnic Institute and State University, and the College of William and Mary. The Samuel L. and Fay M. Slover endowment to Old Dominion University in 1986 has significantly accelerated the program of marine studies. In 1991, a Center for Coastal Physical Oceanography (CCPO) was established at Old Dominion University by the Commonwealth of Virginia. The center is a Designated Center for Excellence.

The Department of Ocean and Earth Sciences is housed in two buildings. The Oceanography/Physical Sciences Building contains state-of-the-art teaching laboratories, computer facilities, and research laboratories for biological, chemical and geological oceanography. The Center for Coastal Physical Oceanography is located in the Research I building and houses all of the department's physical oceanography laboratories. The department maintains a 55-foot research vessel, the R/V Fay Slover, primarily for estuarine and coastal studies. In addition to the Slover, the department has a number of small boats suitable for near shore investigations.

Practicum Experiences

Students in the Ocean and Earth Science majors have the chance to participate in a practicum—a hands-on, course-length experience that closely ties their classroom learning with "real life." Students in Oceanography,

Geology, Environmental Science, and Marine Science Technology take OEAS 307, Research Experience in Oceanography. Students in the other majors (Secondary Earth Science Education, and Middle School Science Education) can take OEAS 307 as an upper-division elective. Students may also complete an internship (OEAS 368) with a municipal, state, or federal government agency, a non-governmental organization, or a business. In addition, Honors students may also develop a senior research project in OEAS 487.

Professional Geologist Certification

Ocean and Earth science graduates who work for several years as geologists and then pass a national standardized test can be certified as a Professional Geologist by the Commonwealth of Virginia or other states. The standardized tests commonly cover the following topics (listed in order of emphasis on the test): Research, Field Methods, and Communications; Structural Geology; Hydrogeology; Sedimentology/Stratigraphy; Petrology; Geomorphology; Engineering Geology; Mineralogy; Geophysics; Paleontology; Geochemistry; Mining Geology; and Petroleum Geology.

Credit by Examination

Students with prior training or experience may receive credit for three hours of OEAS 111N by passing the DANTES Physical Geology exam. Both tests are administered by the Testing Center. Because OEAS 111N is a four credit course students must also complete a physical geology laboratory course (one credit) in order to use this advanced placement credit. Interested students should contact the chief departmental advisor about this course. Students may also refer to the Policy on Prior Learning Assessment Credit Options at the Undergraduate Level found in this Catalog.

Programs

Bachelor of Science Programs

- Ocean and Earth Science with a Major in Environmental Sciences (BS) (p. 741)
- Ocean and Earth Science with a Major in Geology (BS) (p. 744)
- Ocean and Earth Science with a Major in Marine Science Technology (BS) (p. 746)
