

»» A GREEN CINELAB?

We are on a journey of becoming green. We are not there yet and we do not claim to be, but we are working hard on becoming sustainable.

This is what we already do:

STANDARDS & ENERGY

- We voluntarily commit to all → **German Green Motion** Standards.
- We are operating on the highest health and safety levels in our lab.
- Our lab uses 100% green energy
- Our fleet is all electric.

WATER & CHEMISTRY

- We are recovering over 95% silver from sewage
- We are constantly working on optimising water and chemistry usage.
- We only use original Kodak Chemistry

RECYCLING & REUSING

- 100% recycling of our used chemistry
- 100% reuse of metal cans, cartridges & filmcores.
