tfrmtbuilder   *Run tfrmt Builder Shiny App*

Description

Run tfrmt Builder Shiny App

Usage

```
tfrmtbuilder(tfrmt = NULL, data = NULL, mockmode = TRUE, run = TRUE)
```

Arguments

tfrmt	tfrmt object to be loaded into app from R session. Defaults to NULL
data	data frame to be loaded into app from R session. Defaults to NULL
mockmode	Whether to initialize the app in mock mode. Defaults to TRUE
run	Boolean for whether the created object should be run directly. Set to FALSE for deployment

Value

Shiny app for creating and modifying tfrmt objects

Examples

```
if (interactive()){
  tfrmtbuilder()
}
```
