ET-R10

The ET-R10 combines the most powerful local diagnostic software with the capability to utilise the cutting-edge **Remote Service*** that allows access to a complete library of OEM tools and assistance from highly skilled and IMI-trained technicians. *additional license fee £200 + VAT.

Please call us on 01923 882 392 if you have any questions regarding Repairify services.

ET-R10

Quick Start Guide

1. Activate

Switch on your ET-R10 tablet and connect to the Wi-Fi. Call us on **01923 882 392** so that we can guide you through the activation process.

2. Connect

Connect the supplied asTech Link to the vehicle via the OBD II port.

3. Scan

Select 'Scan' and then navigate to 'Diagnostics' to complete a scan. Select the manufacturer and the function. The asTech Link will automatically connect.

4. Special Functions

To complete any job such as ABS bleeding, brake pad replacement, oil maintenance etc... Select the special functions tab and the job that you need to carry out. The asTech Link will connect automatically as above and then follow the prompts on the device to complete.

5. Reports

Once the health check has been completed, select report, in green at the bottom of the page. Select the report type and enter the license plate number if required and save or share. You can view saved reports under the report tab on the home screen of the diagnostics application.

For more information on **Remote Services**, please scan QR code.
