

The Greater Miami Conference By-Laws and Conference Regulations

GMC Position Statement on Racism and Injustice

7/7/2020

The Greater Miami Conference stands united with our student-athletes, coaches, administrators and colleagues to make our world a better place for all. As a conference representing thousands of students, teachers, and staff from all walks of life, we are committed to fostering a culture of inclusivity and respect in our school communities. Acts of racism and violence, no matter their origin or target, contradict this core commitment we share within the Greater Miami Conference. Incidents of racial violence underscore the need for us and for all Americans to join together in addressing matters of racism and injustice in a united, meaningful way. The GMC will be part of the solution as we actively and constructively combat racism and hatred in our country.

I. ELIGIBILITY

Rules and regulations governing all interscholastic athletics for grades 7 - 12 athletic eligibility as found in the Ohio High School Athletic Association Constitution and Rules (OHSAA) shall be followed.

II. CONFERENCE REGULATIONS

The purpose of the rules and suggestions which are found here and in succeeding section of this Manual are:

- A. To safeguard the health of the participants in the Athletic Program
- B. To provide opportunity for the largest possible group to participate
- C. To set standards of sportsmanship which will cultivate friendly relations among schools.
- D. To develop interests in physical activities that will serve the participant's present and future leisure-time needs.
- E. To ensure that the results of the activities sponsored are desirable and have educational value.
 1. The home team is responsible for reporting the results of athletic contests to the news media and to the Conference Public Relations Person.

2. No student athlete shall participate in both varsity and reserve events in any interscholastic meet or contest unless permitted by state rules where quarters of play in certain sports are limited.
3. No senior shall participate in reserve competition. An exception will be to complete a team roster at a level below varsity. This exception must be approved by a vote of the Athletic Directors.
4. If a majority of schools compete in a new activity as a varsity sport, then at the May meeting there will be a vote of the Athletic Directors to determine if the activity will be recognized with a Conference Championship. Prior to the May meeting, a committee will investigate the feasibility of adding the new activity. After the May vote, if a school must eliminate an activity for the upcoming season, the activity will remain a conference activity until the following May.

II. CONFERENCE REGULATIONS - Continued

5. Timeline:
 - February Athletic Director's Meeting: The Activity Participation Survey will be distributed to the athletic directors. The surveys are due to the Athletic Director Council Vice-President no later than the third Tuesday of February.
 - March Athletic Director's Meeting: The survey results are distributed. If six (6) schools designate a new sport as a Varsity activity, then a Feasibility Committee will be established. This committee will consist of the President of the Athletic Director Council, Conference Commissioner, Conference Secretary, and two other athletic directors. The committee shall determine the financial impact that the new activity would have upon the Conference, determine the scheduling impact, determine the facility needs and/or availability, and any and all potentially related ramifications to the Conference. This committee will present its report and recommendation at the April Athletic Director's Meeting.
 - April Athletic Director's Meeting: The Feasibility Committee report and recommendation will be presented. A first reading and discussion of a motion to accept or deny may be undertaken.
 - May Athletic Director's Meeting: A second reading of a motion to accept or deny a new sport, as a Conference Activity will be undertaken. Additional discussion will be heard followed by a vote.
6. If a sport is approved for conference competition and a school has a team in that sport, the school must compete in conference play. Any team which violates this rule -- 3 points will be deducted from the overall standings.
7. Conference passes shall be issued by the Executive Board of the **Greater Miami Conference** and shall be honored by member schools for any or all athletic activities.
8. The Conference will set up standard admission prices for conference contests. These prices should be adhered to unless they conflict with individual Board of Education policies.
9. There shall be a Conference All-Activity trophy presented to the member school who accumulates the most points in Varsity competition per school year.
10. There shall be no exchange of league school films or video tape in any sport with non-league schools, other than those non-conference schools that you are actually competing against. This provision would apply for the regular season as well as post season play. League schools must follow **Greater Miami Conference** specified film or video tape exchange rules within their individual sports.

11. Any use of technology for a GMC contest must be made available to both schools. Home school cannot gain a technological advantage by denying access to their visiting GMC opponent. If not made available to the visiting school, the home cannot use the technology to its advantage.

CONFERENCE REGULATIONS - Continued

11. Any person employed as a coach for a GMC school will not be permitted to officiate in that sport for any level GMC contest.
12. In case of a suspended game, both schools will continue the game at the original site at a mutually agreeable time with the exception of baseball and softball. OHSAA rules on suspended games will be followed.

III. CONFERENCE DUTIES OF ATHLETIC DIRECTORS

- A. Be present at all Athletic Director meetings or send a representative.
- B. Host Athletic Director will supervise any conference championship meet which would be conducted at his school.
- C. Host Athletic Directors will make arrangements with visiting Athletic Directors on the sale of tickets, promotion the contest, etc.
- D. The Athletic Director shall be the liaison member between the Executive Board and the Athletic Program.
- E. Supervise and evaluate employees of the Conference.

IV. CONFERENCE AWARDS

- A. All individual members of a championship team will receive a selected athletic award.
- B. Individual athletes chosen for the Conference All-Star Team will receive a selected athletic award.
- C. The **Greater Miami Conference** Traveling trophy will be presented to the championship team.
 1. When teams finish conference standings in a first-place tie, the championship will be shared.
 2. Championship trophy will be rotated among the championship teams throughout the year by a draw of numbers to indicate sequential order.
 3. Points toward the All-Sports trophy will be divided among the champions.
 4. When teams cannot make up a conference contest, each team will take a loss in that sport.
 5. The **Greater Miami Conference** will recognize only Varsity championships in all sports.

6. Points will be accumulated by a school where a varsity team finishes either in a conference season or conference tournament competition on the following award basis:

11 points	=	1st place
9 points	=	2nd place
8 points	=	3rd place
7 points	=	4th place
6 points	=	5th place
5 points	=	6th place
4 points	=	7th place
3 points	=	8th place
2 points	=	9th place
1 point	=	10th place

D. All-Academic Sports Award – Criteria

1. The student eligible for the award must be a member of a GMC recognized varsity team and earn a varsity award during the sport's season in which the award is to be prepared.
2. The student must have an accumulated grade point average of 3.3 or above at the most recent official school G.P.A. calculation.
3. The All-Academic Certificate is to be awarded separate from an All-Conference sport's award.
4. The official title for the award will be the **Greater Miami Conference All-Academic _____** (Name of Sport)
5. Ninth grade students are ineligible for this award because they will not have yet accumulated yearly grade-point averages.

V. **DETERMINATION OF CHAMPIONSHIPS**

This rule is to be used to determine conference championships where tie games could influence the conference championship in that sport. The following points are to be considered in determining the championship:

3 points for a win
1 point for a tie
0 points for a loss

VI. **LIFETIME GMC PASS**

A Lifetime GMC Pass is to be awarded for meritorious service to the Conference. Superintendents, principals, athletic administrators, athletic secretaries, coaches, and conference employees will be eligible for this honor. Nominations must be made by the principals or athletic directors and voted on by the nominating group.

VII. DRONE USE

The use of drones is prohibited for any purpose by any persons at OHSAA or GMC events. School officials shall remove anyone attempting to use a drone and/or confiscate the drone until the event is completed. An exception to this policy may be made in specific cases, provided the school officials permit the presence of drones.

VIII. POST-GAME MANAGEMENT PLAN (Crowd Control and Team Expectations)**General Guidelines**

- A. **At no time will fans or students be permitted on a field or court** while the opposing team is still present. The “storming of a court/ field” is strictly prohibited. Actions steps will be developed to ensure that advanced preparation will take place for appropriate and efficient administration at all contests.
- B. Responsibilities are shared by both participating schools at all contests.
- C. Visiting Teams must appropriately staff away contests. OHSAA guidelines dictate that administrative coverage is mandatory for all varsity football and varsity basketball games (boys and girls).
- D. Well in advance of the end of the game administration must meet and discuss how all spectators, including students, will be managed at the conclusion of the game.
- E. If needed, home site administration will assist the visiting team in management of spectators.
- F. Adequate security should be hired for each contest to assist in postgame crowd control.
- G. Spectators are not permitted on the field or court at any time if the visiting team is present.
- H. Visiting Teams should exit the field/court as quickly as possible and be respectful of traditions that might be in place at the host school. In addition, visiting teams should be aware that many marching bands perform after athletic contests and should take this into consideration and leave the playing surface quickly.
- I. Visiting Teams should report to their designated locker room areas once the head coach dismisses the team from the field/court.
- J. Visiting Teams should not enter into a reunion or meeting after the game on the visiting sideline at football games. Visiting teams should be aware of the potential damage to a home site’s track if entire team congregates on areas that are not protected.

General Premise

Visiting teams will quickly exit a field (2-4 minutes) or court immediately following a contest. This will allow for home sites to continue traditions, community bonding and comradery as the home site. Advance preparation is important for efficient administration before, during and after all athletic contests. It is critical that expectations are clearly communicated to head coaches, assistant coaches, team personnel, players, parents and supporters.

- Team celebrations are permitted, but must not take place at center court, midfield or on the opposing teams mascot.

Key Action Steps

- Constant and consistent communication from AD's with their head coaches, assistant coaches, team personnel, players, parents and supporters in regard to direction and expectations during, before and after all contests.
- PSA outlining expectations to be read at all contests, which include, but are not limited to all football, soccer, volleyball, basketball, wrestling, baseball and softball contests.
- PSA should be included in all preseason team meetings.

GMC SOCCER GOALKEEPER STATISTICS *(Source Material: NCAA)*

1. A save is awarded to a goalkeeper only if a shot otherwise would have gone into the goal. A goalkeeper can be credited with a save without catching the ball. If the goalkeeper blocks the ball or punches it wide or over the goal, that goalkeeper can be credited with a save, provided the ball would have otherwise gone into the goal. To receive a save, the play must be a shot on goal. A goalkeeper cannot receive credit for a save on a cross. Exception: A cross that the goalkeeper stops that otherwise would have entered the goal is considered a shot, and the goalkeeper is credited with a save.
2. A goalkeeper receives credit for a shutout only by playing the entire contest. If two or more goalkeepers participate in a game, in which no goals are allowed, credit the team with a shutout but do not award any goalkeeper an individual or shared shutout. A goalkeeper must be solely responsible for holding the opposition scoreless to be credited with a shutout.
3. If a contest ends in a scoreless tie, credit both teams with a shutout.

Soccer By-Laws - Continued

4. A goalkeeper's goals-against average is calculated by multiplying the number of goals allowed by 80, divided by the actual number of minutes played by the keeper. A team's goals-against average is figured by multiplying the number of goals allowed by the team by 80, divided by the actual number of minutes played. $GAA = (\text{Goals allowed} \times 80) \div \text{minutes played}$
5. If a player other than the team's goalkeeper saves a ball from going into the net, credit that team with a team save. The save is credited to the teams total for the game but not to the individual goalkeeper.
6. If a field player must play a game as goalkeeper due to excessive team injuries, etc., that player shall not be credited with a game played regarding per-game averages for points, goals and assists. This applies only if the field player plays the entire game in goal and does not register a goal or assist.

OVERTIME AND TIEBREAKER STATISTIC PROCEDURE

All statistics that occur during overtime count toward team and individual totals. However, if the game reaches the point where a tiebreaker procedure of taking kicks from the penalty-kick line or spot occurs, no statistics — goals or saves — count toward team or individual totals.

The Greater Miami Conference Swimming By-Laws

CHAMPIONSHIP

The Championship of the Conference will be decided by a two-day meet. Scoring and meet regulations will be as outlined in the Scholastic section of the Federation Swimming Guide with the exception--there will be no more than three (3) participants from each school. When an electronic timing system is used, the appropriate rule book governing its use will be adhered to. The meet is to be scheduled one week prior to the Sectional Swim Meet.

EVENTS

Exactly the same events will comprise the season meets, and championship meets as are outlined in the previously mentioned Federation Swimming Guide. The diving competition shall be a six (6) dive format.

Each packet will contain 30 Category Round Questions (3 each in the following categories: American Literature, Mathematics, World History, Fine Arts, Life Science, English Literature, U.S. Government, Physical Science, World Geography and U.S. History), 20 Alphabet Round questions and 30 Lightning Round questions. 20 Lightning Round questions will be for the competition and the last 10 will be used in the event of a tie.

V - QUESTIONING PROCEDURE

Questions are read by a moderator supplied by the home team. Both the moderator and judge shall keep all unread questions covered.

Questions will be read only once. If the moderator is interrupted by one team while reading the question and that team fails to answer correctly, she/he will complete the question for the opposing team. If a team answers a completed question incorrectly, the moderator will not repeat the question for the opposing team.

The procedure for answering matching questions will be decided by the Policy Committee before the start of the season.

Academic Competition – Continued

VI - ANSWERING PROCEDURE

The Category Round will begin with a coin toss. The winner will choose to be Team A or Team B. The first question of each category will alternate from Team A to Team B. The second question in each category will go to the other team. A team does not need to buzz in to answer a Team question. Each team has 10 seconds from the end of the reading of the team question to answer, except that in the mathematics category each team may have more time as indicated on the question packet to answer. The team may give up to two answers during this time. Three (3) points are awarded if the first answer is correct. Two (2) points are awarded if the second answer is correct. If an incorrect answer is given or the 10 seconds expires, the opposing team must be verbally recognized before answering. (*Note: The moderators will recognize the opposing team without the need for a buzz by this second team.) One (1) point is given for a correct answer by the opposing team within 10 seconds (longer on some math questions.) The third question in each category is a toss-up question. Teams must buzz in and be verbally recognized to answer the toss-up question. They must buzz in within 10 seconds of the end of the reading of the question. Teams are allowed to confer before answering and someone on the team must start to give the correct answer within 3 seconds of being verbally recognized to be awarded the point. The questions will be worth three (3) points. Only one (1) answer per team will be accepted. Either team will lose the chance to answer if it answers before being verbally recognized or does not answer within the required three (3) seconds. If the allotted time expires during the answering of a question by the first team to buzz in or during a ruling on the correctness of the first team's response, the other team will be verbally recognized by the moderator and given an additional five (5) seconds to begin its response to the toss-up question.

For the Alphabet Round, each team member will be given a copy of the 20 one-point questions, all of which require answers that begin with a designated letter of the alphabet. Each team will be given one copy of the answer sheet and will be verbally told the letter that begins each correct response. Teams will have five (5) minutes to consult and write their answers. Both teams will work at the same time. Students MUST stop writing when the time is called. Spelling does not count unless correct spelling of the answer is specified in the question. Answers must be legible. The moderator and/or official scorer will check the answers and announce point totals before the Lightning Round. Either the host coach or the moderator or a designated person will read the questions and give the correct answers to the audience/teams while the official answer sheets are checked. In the event that a team correctly answers all twenty questions, five (5) bonus points will be awarded (25 total). Otherwise, each correct answer will be worth one (1) point.

The Lightning Round will consist of 20 - two (2) point questions drawn from the previous ten categories as well as mythology, spelling, popular culture, world religions, world literature, philosophers, earth and space science, quotations and theater. A team must buzz in and be verbally recognized by the moderator to have the opportunity to answer a Lightning Round question. If a team buzzes prior to the end of the reading of the question, the moderator will stop reading and allow the team to answer. If an incorrect answer is

Academic Competition – Continued

VI - ANSWERING PROCEDURE - Continued

given, the moderator will finish reading the question. The other team may (and must) buzz and be recognized any time during the continued reading of the question or within three (3) seconds of the end of the reading of the question. Only one response will be accepted per team. If a team answers a completed question incorrectly, the opposing team must buzz in immediately (within 3 seconds) and be verbally recognized by the moderator to have the opportunity to answer. If at the end of three (3) seconds, neither team has buzzed in, the moderator will go to the next question.

Prior to the start of a match, all paper and writing utensils will be cleared from the competition tables. Each competitor will be provided one clear sheet of paper and one writing utensil by the host school. At the conclusion of the Alphabet Round, all questions sheets as well as the score sheet will be removed from the competition tables. Each competitor will be provided one clear sheet of paper and one writing utensil for the Lightning round.

Any time a buzzer is sounded before the question is complete; the moderator will stop reading and ask for the answer. The team must give all parts of the answer without further prompting, or the answer is wrong. Asking a team to be more specific will only be done if the answer was complete but needs clarification, such as first and last name. In the case of multiple-choice answers, students must give the correct answer to the letter of the correct choice or any other such designation such as "the last one."

Any time a moderator recognized a team that should have buzzed in prior to recognition, the error will be considered the fault of the moderator and the team will be allowed to answer as if it has buzzed in and been recognized.

VII - SCORING

The highest total score after the category round, alphabet round and 20 questions of the lightning round will determine the winner of the match. In the event of a tie, five (5) additional lightning questions will be presented to the teams (numbered 21-25 on the question sheet). If a tie still exists, five (5) more lightning questions (numbered 26-30) will be presented to the teams. If a tie still exists, the match will remain a tie. A minimum of two (2) people will keep score, one per team. The home team scorer will keep a record visible to both teams.

VIII - MONITORING

The home team will provide a moderator (reader), one timer, one scorer, and any other personnel needed. The moderator enforces all rules in a fair and judicious manner. The guest team will provide the judge. The judge is there to support the moderator and to intervene when the moderator asks for assistance or input. The guest team may, at the home team's option, provide additional people to score, time, or as needed.

Academic Competition - Continued

VIII - MONITORING - Continued

The timer enforces all time restrictions.

The scorer records each correct response as it is made and maintains a record of the score visible to all team members.

The judge must be able to see and hear all of the action of the match. The judge should read from the second set of questions as the moderator reads. The judge can assist the moderator when his/her assistance is requested. The judge, upon request, may rule on the acceptability of an answer.

IX - TIME-OUTS

Time-outs must be called by the team's head coach. Two (2) one-minute time-outs per match per team are allowed. A time-out may only be called at the end of a question. No time-outs may be taken during the alphabet round. If both teams substitute during a time-out, it will be considered one of the two time-outs for both teams. Time between matches should be limited to five (5) minutes when possible.

X - EQUIPMENT

The host team will supply the following equipment: Electrical buzzer system, timers, papers and pencils for both teams, and scoring system visible to both teams

XI - CHALLENGES

All challenges must be made by the advisor. A challenge may be made immediately following a controversial question or at the end of any round. Scorekeeping challenges can be made at any time. If disagreement cannot be settled immediately, the moderator's decision will stand. Any disagreement should be settled before the match is over.

XII - POSTPONEMENT/CANCELLATIONS

A meet can be cancelled only for weather conditions or the absence of the sponsor(s). The meet should be rescheduled at the earliest possible time convenient to both schools.

XIII - CHAMPIONSHIP

The GMC Championship will be determined by the win-loss-tie record of the varsity teams. In the event of a tie, total head-to-head points of the tied schools will determine the Greater Miami Conference Championship.

XIV - TOURNAMENT

A **Greater Miami Conference** varsity tournament will be held at the conclusion of the regular season. Each school is expected to compete on varsity level team as a member of the league. The winners of the varsity league and tournament are both eligible to participate at the regional/state tournament.

Academic Competition – Continued

XIV - TOURNAMENT

The tournament will be hosted at a school chosen by the athletic directors. The date for the tournament will be determined by the commissioner.

The tournament will consist of two divisions in which teams are seeded as follows based on final standings for the Greater Miami Conference season:

Division 1: Teams 1, 4, 6, 7, 10

Division 2: Teams 2, 3, 5, 8, 9

Each team will compete against the other 4 teams in its division during five (5) rounds with one bye round each. At the end of the division competition, the top team from each division will compete against each other in a final match consisting of two (2) rounds. For Division competition as well as the Final round, a round will consist of 30 Category questions, 20 Alphabet questions, and 20 Lightning Round questions. Tie-breakers will be conducted as during the regular season. If at any point in the tournament there is a tie among two (2) or more teams for wins, head-to-head competition followed by total point differential between the teams that are tied will determine the winner.

The Greater Miami Conference CHESS RULES

I - PURPOSE

To provide for inter-high school Chess activities, matches, tournaments, etc. for the **Greater Miami Conference**.

II - MEMBERS

Students enrolled in the ninth or higher grades of any high school in the **Greater Miami Conference**.

III - CHESS TEAM

A high school Chess team consists of five (5) players enrolled in the school that they represent at the time of the match. These five players may vary from match to match. OHSAA eligibility requirements are to be followed. It is recommended that each school form a reserve team from which substitutes can be obtained in cases of the absence of any of the five regular players. A dual match made of any agreed number of players may be played simultaneously with a league match.

IV- TEAM CONTACTS

Matches between Chess teams will be played in accordance with the league schedule. The designated home team contacts the visiting team for the time and place of the match arrangements. If the match is not played at the scheduled time a forfeit may be the penalty.

V – ADVISORS

Each Chess team must have an advisor who is board of education approved. The advisor will have the same power over the team activities that is usual for any club in the school in question.

VI – MATERIALS

The home team must furnish at least three Chess sets and the visiting team at least two Chess sets. By arrangement, the home team may furnish all five sets. All sets used in team matches must be of the “Staunton” style. Each team advisor will receive the league schedule, addresses of league participants, a copy of the rules and any other correspondence pertinent to the operation of the league.

VII – ARRANGEMENT

Written lineups must be brought to the match by both team advisors. These written lineups must be made out before either team sees the others team’s lineups. The home team has the white pieces on boards one, three, and five. No changes in the written lineups will be allowed unless a player does not show up for the match. If for any reason one player does not report for the match by the agreed upon start time, the entire match may be delayed up to 10 minutes before a coach is either required to find a substitute or forfeit the bottom board. Players are still required to be in order of playing strength.

CHESS RULES - Continued

VIII – ETHICS

“Stacking” is when the team uses the best player at some position other than first board and other strong players out of position. It is quite unethical to “stack.” Winning is not the only purpose of the Chess league. You will play your team on boards one through five in the order of their strength as best as you can.

IX -THE MATCH

Chess clocks must be used on all boards. No one other than the players involved in a game should make any comments about a game in progress or in the status of the Chess clocks in the games. A player needing a ruling or having a question should pause both clocks and raise his or her hand to get the attention of the referee or the match coaches. Chess clocks were promoted to reduce “stalling” and force some equality in time available to each player. The purpose of this league is to promote Chess play and good sportsmanship in Chess play. If for any reason a Chess clock stops running entirely because it is in neutral or some other malfunction, the first person noticing the problem will call it to the attention of both team coaches. The coaches will take action to replace or activate the clock as seems appropriate. Each player is allowed forty-five (45) minutes to complete all his or her moves for the game during the first half of the season (the “regular season”), and each play will be allowed thirty (30) minutes to complete all his or her moves for the game during the second half of the season (“the tournament” day). If time-delay clocks are available, regular season games will be played with forty (40) minutes on the clock and a five (5) second delay.

X – CHESS RULES

The rules for playing chess in the matches will be those of the “Chess Handbook” latest edition available with the exception that a “Losing Chances” draw claim (currently rule 14H) is not permitted during GMC play. Be sure to enforce the “touch move” rule. Once a piece is touched, it must be moved if it can be moved legally. If you wish to adjust the position of a piece on the board, say “I adjust” before touching the piece. There is to be no “kibitzing” during a match. This means by discussing or suggesting of strategy or possible moves by a player or observer until the game is over.

This includes the referring to Chess books or Chess articles or Chess material of any kind during the match. Chess club advisors should be present at each match, if possible, to prevent kibitzing and team captains should caution their teams concerning kibitzing. The team captains should notify the league counselor in writing if an opponent allows kibitzing so the appropriate penalties up to and sometimes including forfeits and suspensions can be assessed as are necessary.

Cell phones should be silenced or turned off and stored while playing. If exiting the room, do not take your cell phone with you. Use of headphones is not permitted at any time.

Notation will be required during play. If either player is below the 5-minute time period, then neither player is required to take notation. Prior to the 5-minute mark, if a player fails to take notation, a ten-minute penalty (if time remaining is over 20 minutes) or deletion of half the remaining playing time will be awarded.

Any claims of offenses should be made by a player in the game to an official.

XI – SCORING

Each game scores one point for the winner and zero for the loser. A stalemate or drawn game scores 1/2 point for each contestant. If either team has three or more points, they win the match. If each team has 2-1/2 points, the match is a tie. Home team must report results to the **Greater Miami conference Sports Information Director** upon completion of the match. A forfeit match is scored 0-0 for a double forfeit. In a single forfeit, the losing team gets zero and the winning team gets 5.

XII – TROPHY

The league trophy remains at the winning school during the year following the winning of the championship.

XIII – CHAMPIONSHIP

A conference championship will be declared as follows:

GMC Round 2 structure is 5 rounds with the same time control as season matches (G 40; d 5). Every team has the opportunity to play every other team with no repeat matches during round 2. Home-away will be reversed from the first round once a pairing is established.

The league championship will be determined by total won-loss record over two rounds. The second round will be played on a single day designated by the **Greater Miami Conference**. During the second round, players must play the same board number the entire day.

Greater Miami Conference

Mission Statement & By-Laws for 7th and 8th Grade Athletes

Adopted, 2009

The primary function of junior high athletes is to provide exploratory experiences which meet the basic criterion for contributing to the goals of general education established for these grade levels.

The educational program in grades 7 and 8 should be designed particularly to meet the physical, mental, social and emotional needs of youth during early adolescence. To provide for these needs, the curriculum should offer a core of common experiences, which will lead to broad understandings, good citizenship, and acceptable personality traits. In addition to the core experiences, many exploratory courses and counseling services should be offered to challenge and stimulate the students' desires to acquire more knowledge in specific fields of learning and endeavor. All of these courses offered at the junior high school level should be flexible enough to allow for individual differences in needs, interests and abilities.

The goals for these middle grades cannot be fully achieved by the student participating only in the required academic program. For this reason, each 7th and 8th grade school provides each student with the opportunity to participate in student activities such as school government, curricular-related club organizations, intramurals, physical fitness programs and athletic competition.

Educators, health, and medical authorities have long recognized that students in the 7th and 8th grade have a need for vigorous physical activity to promote normal growth and development. At this age level, there is a real organic need and desire for strenuous physical activity in the form of competitive sports. A study of growth characteristics shows that students of this age seek adventure and vigorous activity, are gregarious and want to belong to a group or team. It is recognized that normal growth and development of students leads them into competitive activities. For these reasons, schools have the responsibility for meeting the developmental needs of students through programs of physical education, which include intramural activities and interscholastic athletics.

Policies and Principles For 7th and 8th Grade Athletes

The regulations for 7th and 8th grade interscholastic athletics of the **Greater Miami Conference** are based upon the following principles and policies:

1. The interscholastic competition is sports competition in which the students from each school compete as a team.
2. Interscholastic athletic sports opportunities for 7th and 8th grade students should be planned as a program separate and different from the program of competitive athletics for high school students.
3. Interscholastic athletic sports competition should be planned and carried out for the values offered to the participant rather than as a spectator sport or as a training program for high school teams. The major emphasis in 7th and 8th grade interscholastic competition should be upon the development of skilled play and good sportsmanship. Wins and losses will understandably be a byproduct of interscholastic competition, however decisions made by the governing body, as well as individual athletic directors representing each school, should not be based upon competitive advantage.
4. It is important that those members of the governing body keep cognizant of the fact that it is our duty and obligation to protect the best interest of the young adults who are competing under our watch. This includes those student athletes of our opposing conference schools. We must at all times make the decisions that are best for all of our young athletes, not those decisions that are convenient or that are best for adults who might be involved.

Greater Miami Conference Junior High School By-Laws

Adopted, 2001

ARTICLE I

This conference shall be called the **Greater Miami Conference**, Junior High – Grades 7 and 8.

Eligibility

Rules and regulations governing all interscholastic athletics for grades 7 through 12 athletic eligibility as found in the **Ohio High School Athletic Association** (OHSAA) Constitution and Rules shall be followed.

ARTICLE II

The objectives and purposes of this conference, which the **Greater Miami Conference** High School Athletic Directors will establish, shall be to provide competitions in all sports and other activities. The purposes are to promote good relationships among the schools in this conference and throughout Ohio.

The overall objective of the **Greater Miami Conference** Junior High Athletic Association is to facilitate and create a wholesome atmosphere for extracurricular activities to be conducted on the 7th and 8th grade levels, while promoting the strength of competition in the **Greater Miami Conference** at the high school level. The **Greater Miami Conference Junior High Association** shall declare a championship in every sport in which there is an event that allows the schools to come together to compete for the championship. Individual awards and recognition will not be given by the league.

The league will not assume any added expense for these tournaments.

This governing body, with its determination to foster the values that accompany competition, believe that it is necessary to have student athletes compete within their designated grade level during end of the season GMC tournaments. This excludes individual sports like Tennis, Wrestling, Golf and Track. It is expected that coaches will adhere to this policy and ensure that this takes place, unless otherwise voted on by the government body for rare exceptions.

A commissioner's position will be established to help the association accomplish a consistent format for all league procedures. The presence of this position will allow individual members to use this person as a resource and coordinate their programs along guidelines established by **Greater Miami Conference** High School Principals and Athletic Directors and Junior High Principals. The commissioner will be instrumental in resolving and developing a calendar for the school year's athletic events. The commissioner will be visible at league-sponsored events and provide unity to the Junior High **Greater Miami Conference**.

ARTICLE III - MEMBERSHIP

The membership of this conference shall consist of the following schools: Colerain, Fairfield, Hamilton, Lakota East, Lakota West, Mason, Middletown, Oak Hills, Princeton, Sycamore, and their respective junior high/middle schools, grades 7 and 8.

The rules and standards of the OHSAA shall govern the activities of the GMC Junior High league and the eligibility of all GMC participants. In addition, GMC Junior High Schools will only knowingly participate in competitive events with non-public schools that represent a specific school building.

When competing against non-public schools that represent a specific school building, the sport must be a school sponsored sport. This By-Law only pertains to sports sanctioned by the GMC Junior High League. Sports such as junior high school soccer, lacrosse, swimming, and others are not held to this By-Law until that time they become recognized as a GMC Junior High sport.

When more than one team in the same sport at the same level represents a school the school must divide the teams in such a way that they are of equal talent. This is a procedure that should be closely monitored by the school's athletic director. It is recommended that the athletic director plan an active role in the team selection process from the first day of try-outs. At the time of team division, the athletic director must be present for a coin toss to decide which team will be assigned to each coach, or another similar means of division to keep teams equally divided. After this point in time there should be no changes to team rosters or trades of players

When a school chooses to sponsor two teams for the same sport within their building, it is imperative that both teams participate only in the GMC and both teams will follow each of the by-laws, as written in this document.

The only exception to this, is in the instance where Board Policy has been set in place by a school district declaring their intentions to have one team within the GMC and the second team acting as a "Reserve" or "B" team participating via an alternative, out of conference schedule. This must be an official board policy and proof of this must be presented to the governing body.

ARTICLE IV – NEW MEMBERS

Membership will be contingent upon the high school into which the junior high feeds being admitted as a member of the high school **Greater Miami Conference**.

At the time of a new member joining the conference, whether it's a new school district joining the GMC or a new athletic director filling the existing duties of a member school, a "mentor" will be provided to aide in the transition into the conference. This mentor will be selected and appointed by the governing body at the May meeting and will be expected to provide the newly added athletic director with everything they will need to be successful at their new position. Included in this process will be the distribution of these by-laws along with the upcoming season's schedules, contact information for the other conference athletic directors, assignor's information, and anything else that the governing body deems necessary.

ARTICLE V – VOTING POWER ON BY-LAW CHANGES OR ADDITIONS

Schools in the junior high **Greater Miami Conference Junior High Association** will be decided by a majority vote of those preset at the designed athletic administrator meeting.

Proposed changes in junior high **Greater Miami Conference** By-Law and Regulations will be forwarded to the high school athletic directors for approval.

ARTICLE VI – GREATER MIAMI CONFERENCE CRITERIA

Schools in the **Greater Miami Conference Junior High Association** would like to promote activities common to its men's and women's programs. Other activities such as leadership conferences, student exchanges, academic competitions, and sportsmanship programs are appropriate areas for league cooperation.

The proximity of the schools including geographic locations, dismissal times, and enrollment will be areas the coordinator will assess during the first year to suggest appropriate divisions of competition league scheduling, and tournament structure.

ARTICLE VII – ANNUAL DUES

Each high school will be assessed a yearly fee to provide for the additional operating costs for the **Greater Miami Conference Junior High Association**.

ARTICLE VIII – OFFICERS AND DUTIES**Section I**

An athletic administrative body comprised of the junior high athletic directors from each member school shall be established. The officers of the conference shall be elected by the athletic administrative body and shall consist of the president, president-elect, and secretary.

Section 2 - Duties**President**

1. Chairman of Athletic Administrative Body.
2. Presides at all meetings
