

Introducing the Ravensburger Play Hub!

We're excited to announce a brand new tool for Disney Lorcana TCG in-store play reporting, the Ravensburger Play Hub Powered by Carde.io. We've been working with Carde.io to make a tool tailored to running great events for Disney Lorcana TCG and other great Ravensburger games, for both Hub organizers and our players. We'll be rolling out Ravensburger Play Hub store registrations, the event organizer, and event manager tools in early February, and we'll have more features to announce soon!

Getting Started with the Ravensburger Play Hub

Head to RavensburgerPlay.com and enter your email address to receive an email announcing account registrations are open.

When the Ravensburger Play Hub's event creator and manager is live, you can run events using Pack Rush, Core Constructed, or Draft.

- *Pack Rush:* Players play two rounds, best of one, using four booster packs (two packs per round). This is a fun format that's easy to jump right into, no deckbuilding required. (Pack Rush rules can be [found here](#)). For launch events we recommend using boosters from the latest set.
- *Core Constructed:* In this format, players create a deck with at least 60 cards containing only 2 ink-colors and no more than 4 copies of any individual card name. You can find rules on how to run a tournament [here](#).
- *Draft:* In a Draft tournament, players take turns selecting, or "drafting," cards from unopened booster packs to form their card pools. The minimum number of booster packs to be provided for Draft tournaments is four per player, from the set(s) of the tournament organizer's choice. Each player should begin with the same number of booster packs from each selected set. You can find further rules on how to run a draft tournament in section 6.4 of the official tournament rules, [here](#).
- *Sealed:* In a Sealed tournament, each player is provided with a set of unopened booster packs from which they will build their deck. The minimum number of booster packs to be provided for Sealed tournaments is six packs per player, from the set(s) of the tournament organizer's choice. Each player begins with the same number of booster packs from each set selected.

When should you move to the Ravensburger Play Hub?

We want to make sure you have enough time to familiarize yourself with the Ravensburger Play Hub once features roll out in early February. While you're introducing players to the new system, **please continue to use Melee for all *Archazia's Island* events through Set Championships.**

Starting with *Reign of Jafar*, you must be registered through RPH for in-store programs, as this will be the only platform to register for play support going forward. In order to be eligible for the *Reign of Jafar* Pre-Release window, stores must sign up and schedule an event in RPH. After *Reign of Jafar*, stores will also need to have run and reported events for continued support materials on future *Disney Lorcana* TCG sets.

Ravensburger Play Hub Programs

- **Pre-Release:** Starting with *Reign of Jafar*, we will be moving to a pre-release program. Hobby Retailers can register through RPH for the *Reign of Jafar* Pre-Release event that will take place one week prior to the full set release (the full set release includes all distribution channels). RPH retailers are permitted to sell product in-store starting with their pre-release event. There will also be promo cards in your Disney Lorcana OP kit to support a "Buy-A-Box" promotion, promos only available at RPH retailers to incentivize purchases in your stores rather than online, and Pre-Release Pack Rush events (while supplies last).
- **Set Championship:** The Set Championship program will only be available through RPH following *Archazia's Island*. Stores can schedule one Set Championship per set.
 - Starting with *Archazia's Island*, Set Championship kits will now include 1 Champion playmat, 8 Enchanted Foil Promo cards for the top 8 of your event, as well as 40 non-Foil Promos featuring the same artwork as the Enchanted card in a standard card format instead of the Enchanted style. Please use these non-Foil promo cards as incentive for players to pre-register for your event (while supplies last).
- **Weekly Play:** Programs for weekly Constructed and Pack Rush play to bring back players week-to-week and build your community will be supported through the OP Kit. As well as digital support like store-specific leaderboards in the Ravensburger Play Hub.

We Want to Hear From You

We want to gather feedback from stores who opt to run events and/or weekly play programs so that we can make better long term programs for each.

The Ravensburger Play team will share any further updates specific to North America in the [Ravensburger North America TCG OP Facebook](#) group.

We look forward to talking with you there! Please do not hesitate to reach out there for any questions during this transition period. We hope you're excited about the launch of the new Ravensburger Play Hub and are here to assist in making this a smooth process for everyone!

-Ravensburger Play Team
