JONATHAN SOWTER (CEO)

Jonathan Sowter is an English designer, master cabinetmaker and craftsman. Jonathan established his high end factory, Vietnam Furniture Resources, and launched the Jonathan Charles brand in 2004 with only a few designs and a handful of craftsmen. His vision was to focus on exquisite antique reproductions using traditional Old World techniques such as marquetry, decorative hand painting, hand carving, inlay, églomisé, gilding and more. Designing and manufacturing with his own craftsmen and facility was the only option, in particular considering his meticulous attention to detail and the desire to ensure that all aspects of the furniture would be of the highest quality. This standard is what sets him apart from the competition.

Jonathan's passion for detail is also reflected in our in-house foundry, where we manufacture all of our own hardware. This affords us the opportunity to design one-of-a-kind pulls, hinges, locks, and keys for a specific item or to create unique accessories.

These qualities have been instrumental in the company's success and have facilitated our rapid expansion. To accommodate for growth and new projects, in 2014 Jonathan relocated the factory, which allowed for more business opportunities. His factory is now the original equipment manufacturer (OEM) for over 20 furniture companies, and he has entered the hospitality and contract market designing and supplying some of the most prestigious 5-Star Hotel projects around the world.

Jonathan has excelled in the art of fine antique reproductions, and continues to push the boundaries with JC Modern & JC Edited designs. Each lifestyle features a different look and feel, but all receiving the same exceptional attention to detail as the original Jonathan Charles Fine Furniture.

WHO WE ARE

Our team provides comprehensive project support, covering management, research and development, planning, technical renderings, sample workshop designs, production, and shipping. Our innovative technology systems enable precise tracking of each item's progress throughout the production stages, ensuring adherence to project timelines. From prototype to final production, our Design and Engineering teams, along with representatives from Production and Quality Assurance, meticulously review every product, demonstrating a collective sense of ownership for each project. Whether it involves outfitting a hotel, creating new designs for a trendy restaurant, or introducing groundbreaking ideas for a modern airport, JC HOSPITALITY is dedicated to delivering the highest quality products and customer service to our valued customers.

WE ARE CRAFTSMEN

JONATHAN CHARLES works with highly qualified artisans who bring to the company a variety of traditional cabinetmaking and carpentry skills.

We take pride in our work, which is evident in every piece of our beautifully crafted furniture; whether we're reproducing well known, exceptional antiques or producing clean lined, mid-century transitional pieces.

At JONATHAN CHARLES we go far beyond simply creating furniture that resembles classics; we make the classics, employing traditional techniques that breathe soul and lasting quality into our products.

WE ARE DESIGNERS

Many of our inspirations come from original antiques that Jonathan discovers on his travels. Sometimes, a re-discovered antique will be reproduced accurately in the most intimate detail, whilst at other times we will take but one detail, and create an entirely new piece of furniture around it.

Often, we will start the design process with a blank sheet of paper, gathering inspiration from all manner of sources, be it a classic wallpaper design, a rare object, or nature itself. We never design to the limitations of our factory, we constantly innovate. Our factory has expanded over the years because of this and employees have likewise expanded their skills and knowledge in areas such as advanced marquetry, bronze casting, mother of pearl inlay and much more.

WE STAND FOR QUALITY

We never compromise on design and likewise, never compromise quality. Only the finest materials are used in our furniture.

Our highly trained quality inspectors ensure technically sound components and design throughout the process. These experts oversee production, checking in at key transaction points throughout the production process to ensure nothing is overlooked.

Before each item is packaged, it is reviewed again with a keen eye and must pass a comprehensive checklist by a quality control inspector.

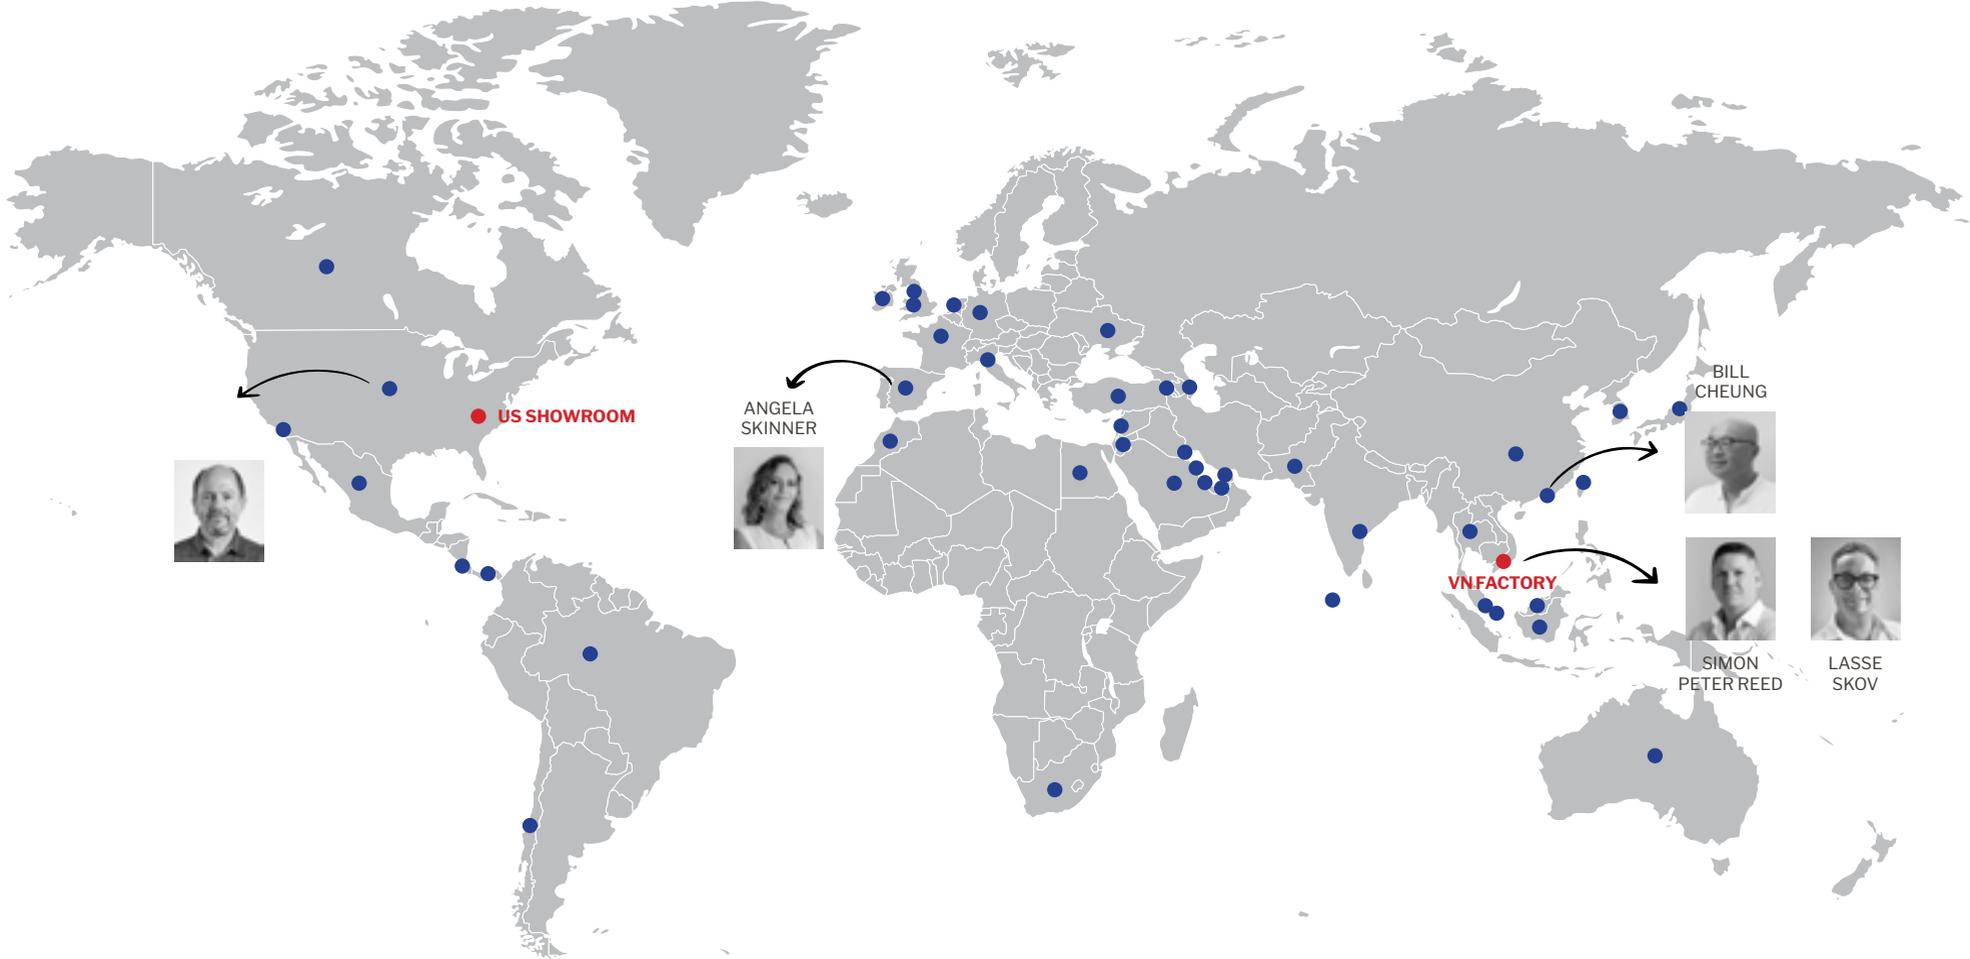

We have fully automated production monitoring & control systems that allow us to track each piece from start to shipping!

We are ISO 9001:2015 certified! This proves our organization, management systems, and teams consistently demonstrate the ability to provide products & services that meet our customer requirements.

HARDWARE

Time-honoured traditions of craftsmanship are nowhere more evident than in our hardware. Traditional skills of sand casting, lost wax casting and others are used to produce pulls, handles and knobs to your exact specification. Artisans take each piece, no matter how small, and hand finish them to the highest degree. From wreath-shaped English Georgian style desk handles to contemporary brass drawer pulls you can design your own or adapt from our library of thousands of designs.

STONE

A highly polished marble or stone surface adds light and luxury to tables and decorative accessories. At JONATHAN CHARLES we work directly with quarries and stone suppliers, choosing each slab for the quality of its colour, veining or suitability for the chosen project. Whether you chose a gleaming white carrara marble, black marble with delicate white veining or a glittering granite, our specialists will source the finest stone for your needs.

WOODEN COMPONENTS

At JONATHAN CHARLES we handle millions of pieces of timber and veneer every year. With practised eyes, our carvers, sanders, veneer cutters, carpenters and quality control specialists handle wood in all its stages of production. When you commission any form of wooden component from us you are buying not only that piece, but the professional guarantee that can only come from experience.

CASEGOODS

JONATHAN CHARLES can, and has, manufactured and delivered casegoods by the thousandS for single projects. Our proprietary approach to quality control ensures that there is no compromise to our premium product when we manufacture a single, or multiple pieces, at scale.

From elaborate Regency style breakfront bookcases to modern nightstands, we manufacture on time, and with the customer forefront in our minds.

JONATHAN CHARLES

JONATHAN CHARLES Fine Furniture follows Jonathan Sowter’s tradition of master cabinetry. We excel in the art of fine antique reproduction with meticulous attention to detail and the highest-quality construction. From Renaissance styles to the golden age of walnut and mahogany, age-old techniques of veneer inlay, lacquer, and gold leaf are applied by our master craftsmen to create unique heirlooms. Incorporating the finest materials and craftsmanship we create superior classic styles.

JC Modern was created by JONATHAN CHARLES to reflect the changing trends of today’s modern lifestyle. With the same high quality and attention to detail given to all our designs, JC Modern combines traditional art forms and skills, fused with cleaner, contemporary designs to forge sleek aesthetics. Incorporating an eclectic mix of natural materials, simple lines, curves and geometric patterns, JC Modern brings an edge to today’s living space with its modern designs.

JC Edited was created by JONATHAN CHARLES for a younger, more casual home. With surprising value for money, JC Edited is available in a range of styles and finish options reflecting all tastes, which is perfect for your first or second home. JC Edited offers fresh, compact collections that represent the very essence of today’s living, combining a multitude of materials and designs while maintaining quality and detail in every piece.

JC Outdoor was created by JONATHAN CHARLES to extend high-quality craftsmanship and construction from indoor to outdoor. Incorporating a range of the most natural and refined outdoor materials and treatment processes, our Outdoor collections are made to withstand the elements year-round. The versatile designs and attention to detail take outdoor comfort to the next level.

QUALITY CONTROL PROCEDURES

At JONATHAN CHARLES we pride ourselves on the quality of our finished products, from the smallest brass handle commissioned for a top American retailer, to the most complicated artisanal piece in our catalogue. Fifty-three quality control inspectors operate a tightly controlled system of reviews and approvals. In fact, every component has a barcode which allows it to be tracked to the individual who created it. Last year there were a total of 11 million quality checks at JONATHAN CHARLES.

The pieces in your project will each have signed off 'standards', finish panels and components agreed upon by Quality Control, Production and a member of your team.

Lastly, we have a state of the art virtual inspection room, enabling you to review your pieces remotely in real time with the JONATHAN CHARLES team.

TRANSIT DROP TESTING EQUIPMENT

Drop tester uses to evaluate the capability of a container to withstand the sudden shock resulting from a free fall, or to evaluate the capability of a container and its inner packing to protect its contents during the sudden shock resulting from a free fall.

TRANSIT INCLINE IMPACT TESTING EQUIPMENT

The incline impact tester simulates a guided carriage capable of holding a test container or shipping unit impacts into a rigid impact surface (backstop) with or without hazards at a predetermined impact velocity.

TRANSIT VIBRATION TESTING EQUIPMENT

The vibration tester simulates shipping containers are exposed to complex dynamic stresses when subjected to vibration present in all transportation vehicles.

EMC CLIMATE SIMULATION CHAMBER

To simulate the climate as end-use and sudden change of temperature and humidity for whole big products.

HUMIDITY AND TEMPERATURE CHAMBER

To simulate the climate as end-use and sudden change of temperature and humidity for components/parts.

UNIVERSAL CONSTRUCTION TESTING EQUIPMENT

To conduct construction testing for vary product types per ASTM, BS EN, ANSI BIFMA, ANSI SOHO, UL standard, etc.

HIGH TEMPERATURE CHAMBER

To conduct testing with high temperature and determine measure moisture for natural woods, composite woods.

SALT SPRAY CHAMBER

To provide a controlled corrosive environment which has been utilized to produce relative corrosion resistance information for specimens of metals and coated metals exposed in a given test chamber.

CHAIR STRENGTH TESTING EQUIPMENT

A mechanical testing device used to simulate repeated tilting and leaning motions of a chair. It evaluates the durability and structural integrity of seating products under real-life usage conditions, as required by EU and US standards.

FINISH TESTING EQUIPMENT

- A. Pencil hardness test**
To determine the coating hardness.
- B. Stain resistance test**
To check ability to resist stain during usage.

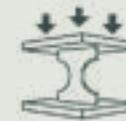

UNIVERSAL TESTING EQUIPMENT

To conduct testing for joint strength, wood modulus, carton ECT, raw materials, etc.

STABILITY TESTING PROCESS FOR SAFETY UNDER REQUIRED EU/US STANDARD

COMPONENTS

With state of the art machinery including; multi head precision CNC routers, wide belt sanders, multi spindle carving machines, and our one day - one process systems, our components division manufactures and handles tens of thousands of separate components on a daily basis. This division also incorporates the highly skilled carving and marquetry craftsmen and women who bring the unique products to life.

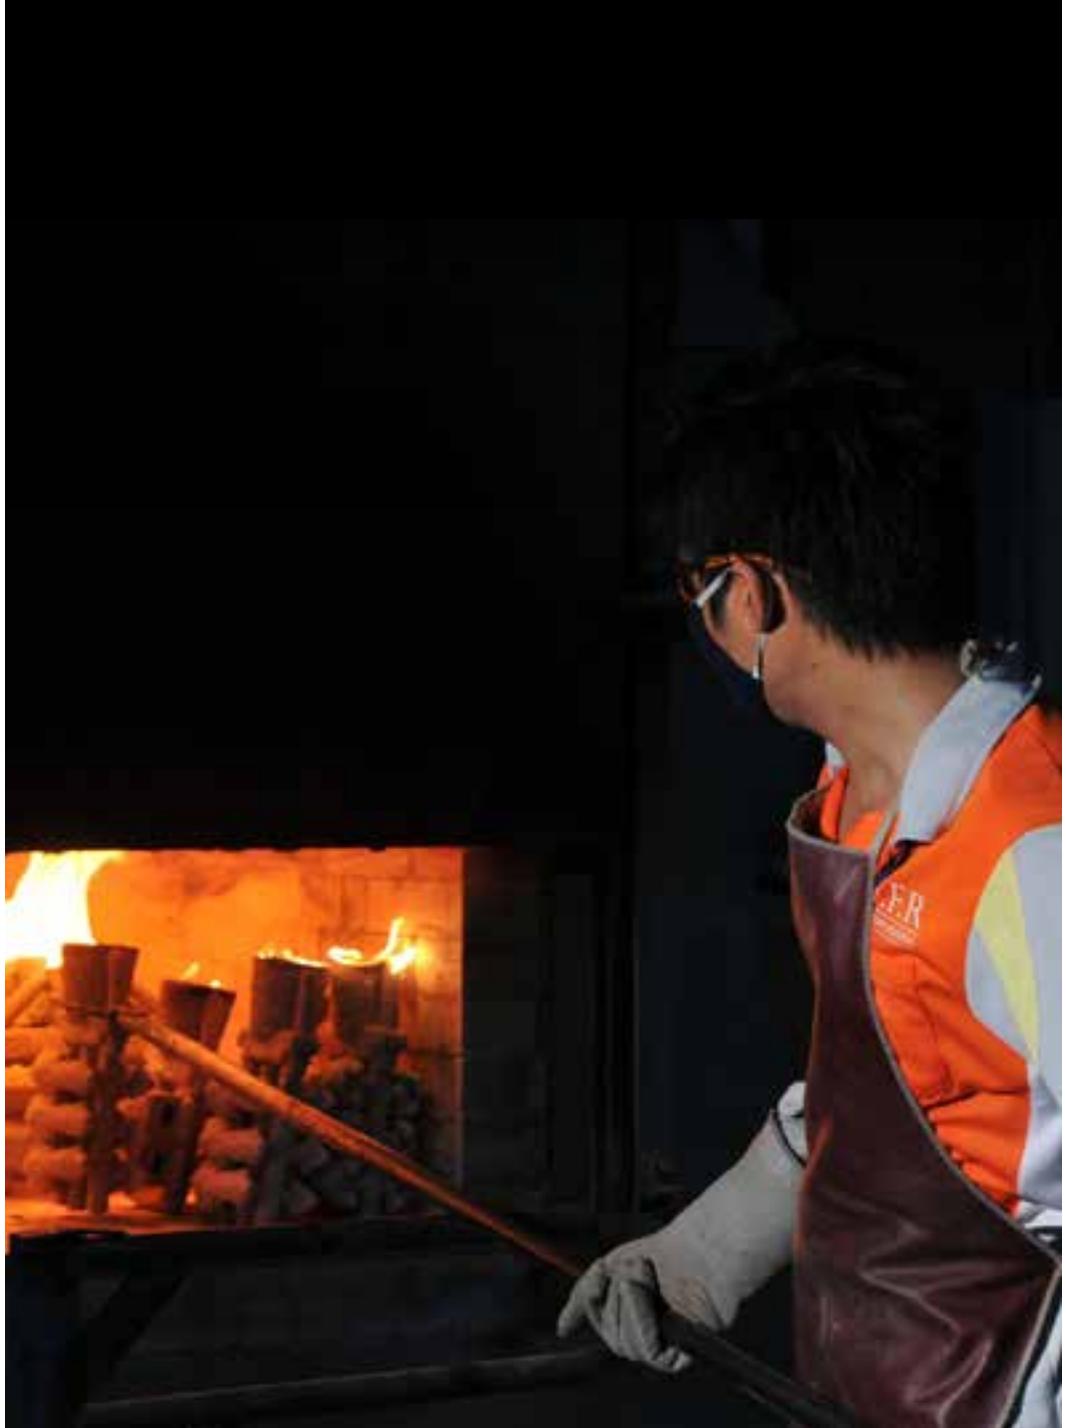

ASSEMBLY

All our designs are assembled by hand by qualified carpenters. Every component is uniquely fitted for a single piece of furniture, using age old techniques; dovetail joints, dowels and gluing. On completion, each piece of furniture is hand sanded and distressed before moving to finishing.

FINISHING

With approximately 1km of finishing line conveyor, multiple finishing processes can be underway at any given time. A fully separate special finishing section is also incorporated; Hand painting, gilding, eglomise, eggshell, lacquer and PU finishing is incorporated to complete the array of products over our 4 brands.

FOUNDRY

Sand casting, lost wax shell casting and flask casting are all used depending on the intricate detailing, quantity, hardware or components required. Our processes allow us to design hardware that is totally unique to each piece of furniture or collection. Solid brass and stainless steel casting is available.

THE ART OF CARVING

The carvers at JC HOSPITALITY are arguably the highest-skilled craftsmen in our factory.

Carving is an art that speaks for itself, and our team of carving artisans are some of the best in the business. We use only traditional hand carving techniques.

One look at any of our carved pieces will tell you everything you need to know about our dedication to producing the finest pieces of furniture in the world.

Hand carving is sadly a dying skill and many companies have switched to stamping, pressing and even resin overlays.

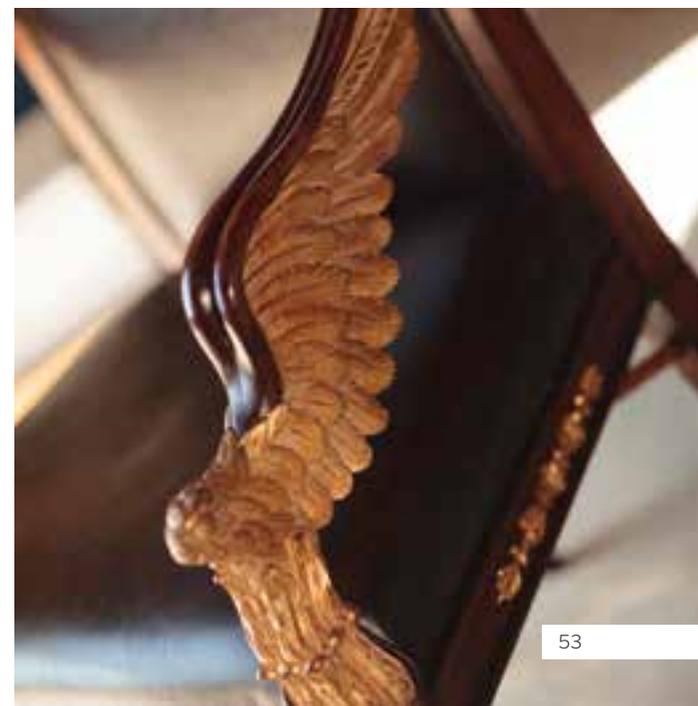

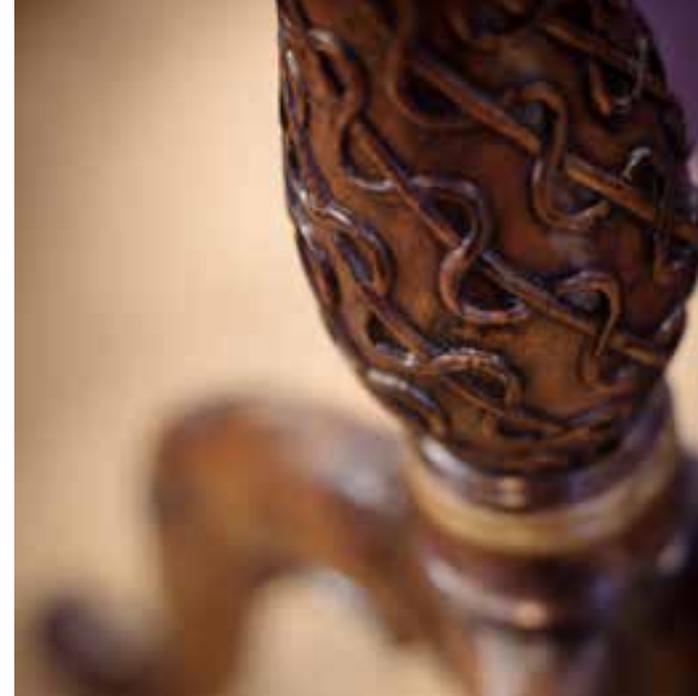

JC HOSPITALITY still offers true hand carving from start to finish.

With a dedicated team of highly skilled carvers, anything is possible.

Our dedication to maintaining original skills has prompted JC HOSPITALITY to also offer in-house training programmes for new carvers.

Marquetry is an intricate technique developed during the early 16th century in Europe and involves covering the structure of a product with pieces of veneer, cut by hand and inlaid, to provide decorative detail.

Inspired by history and tradition, we are keeping this amazing craft alive through our products and designs.

The artisans at JC HOSPITALITY master the skill of genuine hand-cut marquetry and are inspired by the almost limitless creativity in this art form. Almost all of our employees in the marquetry department are taught in-house.

Églomisé is the traditional technique of decorative glass painting, dating back to ancient Egypt. It is a very delicate, elaborate and imperfect craft, which gives each piece its own distinct character and individuality...

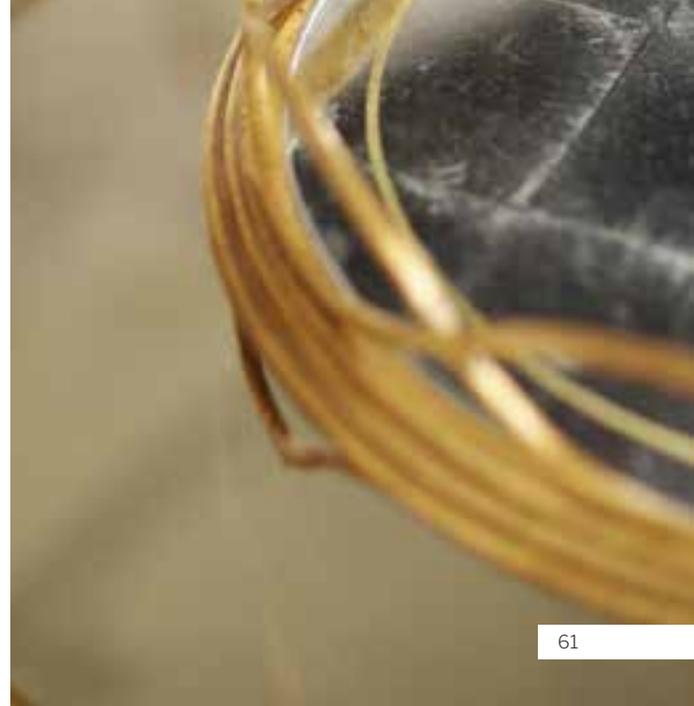

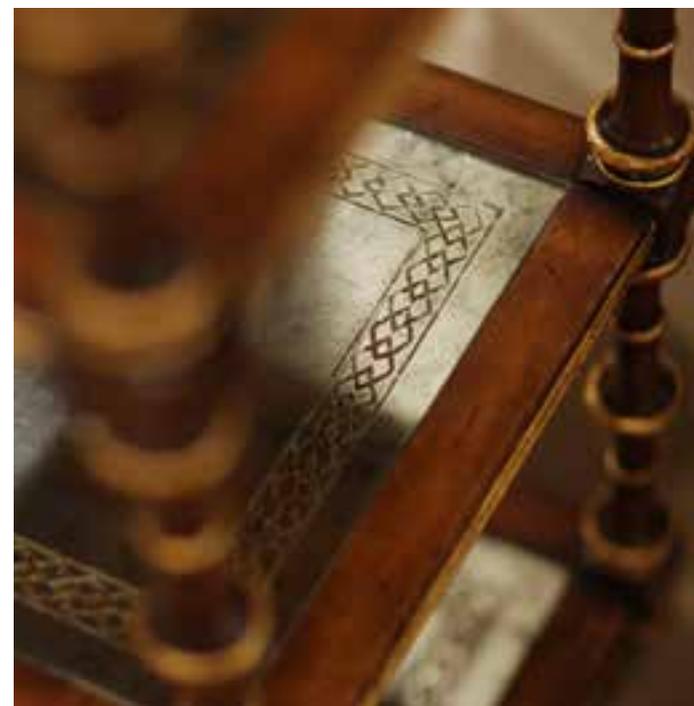

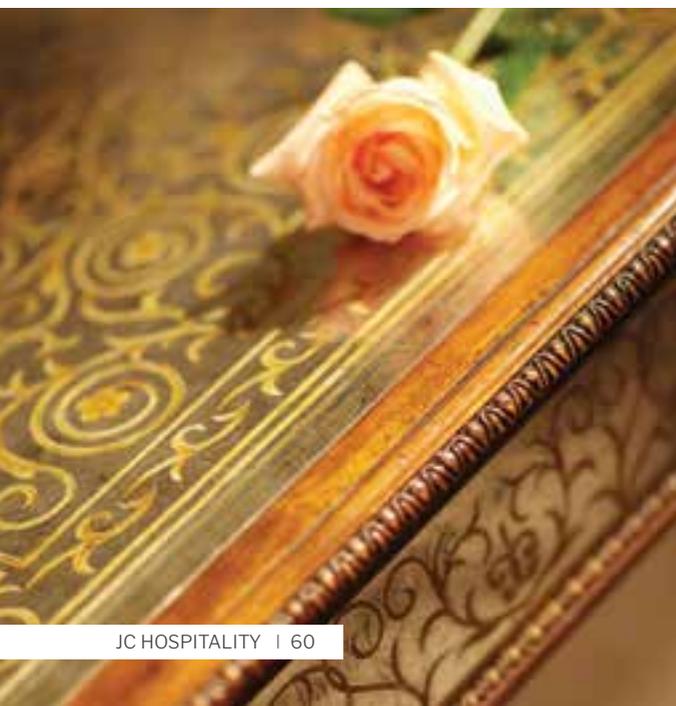

Shading, then painting with gold leaf on the reverse side of glass, we can achieve countless intricate designs, so finished with a back layer of silver leaf and some with none to give just an intricate design on clear glass...

This age old technique is kept alive by our love of craftsmanship.

All of our special finishers are trained in-house.

CRAFTSMANSHIP

HAND PAINTING & CHINOISERIE

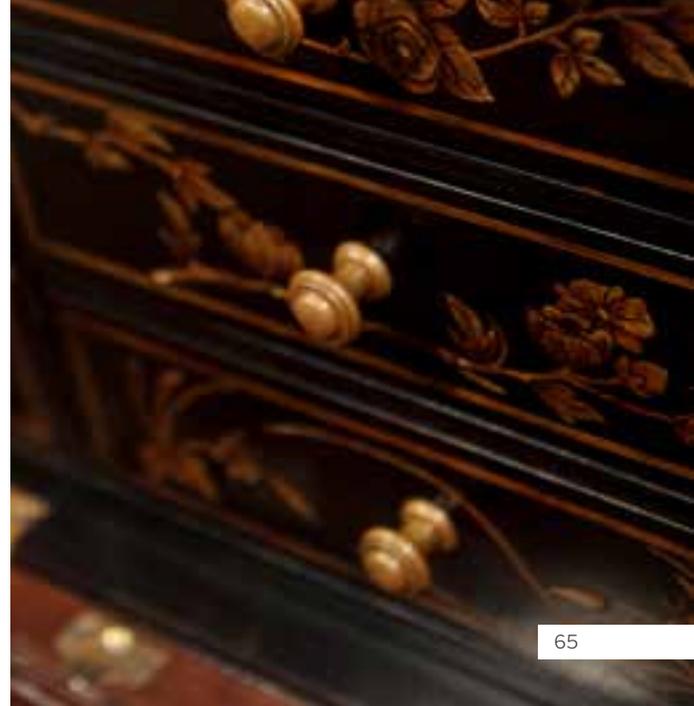

This has been a recurring theme in European artistic styles since the seventeenth century, reflecting the Chinese artistic influences of the times.

It is characterized by its asymmetrical format and whimsical contrasts of scale, reflecting attempts to imitate Chinese porcelain.

SCAN HERE TO VIEW VIDEO

EGGSHELL & LACQUER WARE

A process synonymous with the Indochina region, eggshell is a time-consuming but highly sought after process that no manufacturer of furniture has ever brought in-house.

Generally this process is found only in rural villages of Laos, Cambodia and Vietnam.

In the spirit of maintaining exquisite techniques, at JC HOSPITALITY we have brought this process to main stream manufacturing.

The newest of our finishing techniques, eggshell and high gloss lacquer finishes can be used across many substrates and design elements; furniture, paneling, doors, decorative accessories.

LEATHER FINISHING

We offer a range of leathers, both pre-dyed and hand finished to achieve an antique appearance. Tooling or Blind Tooling in gold or silver finishes the piece. Leather stitching is also available.

JC
HOSPITALITY
BY JONATHAN CHARLES

JC HOSPITALITY is one of the few large-scale global manufacturers able to provide traditional reproduction and custom furniture, lighting and accessories, using age-old techniques by hand. JC HOSPITALITY brand is a division of Jonathan Charles Fine Furniture, a company renowned for over 25 years for quality, authenticity and style.

Based in Vietnam, Jonathan Charles Fine Furniture was founded by Englishman and Cabinetmaker Jonathan Sowter, who sought to bring greater value to customers in the luxury furniture marketplace. For over two decades Jonathan Charles Fine Furniture has shipped hundreds of millions of dollars worth of hand-crafted residential furniture to over 50 countries.

JC HOSPITALITY builds upon the capabilities of Jonathan Charles Fine Furniture and works with the client to deliver unique contract projects

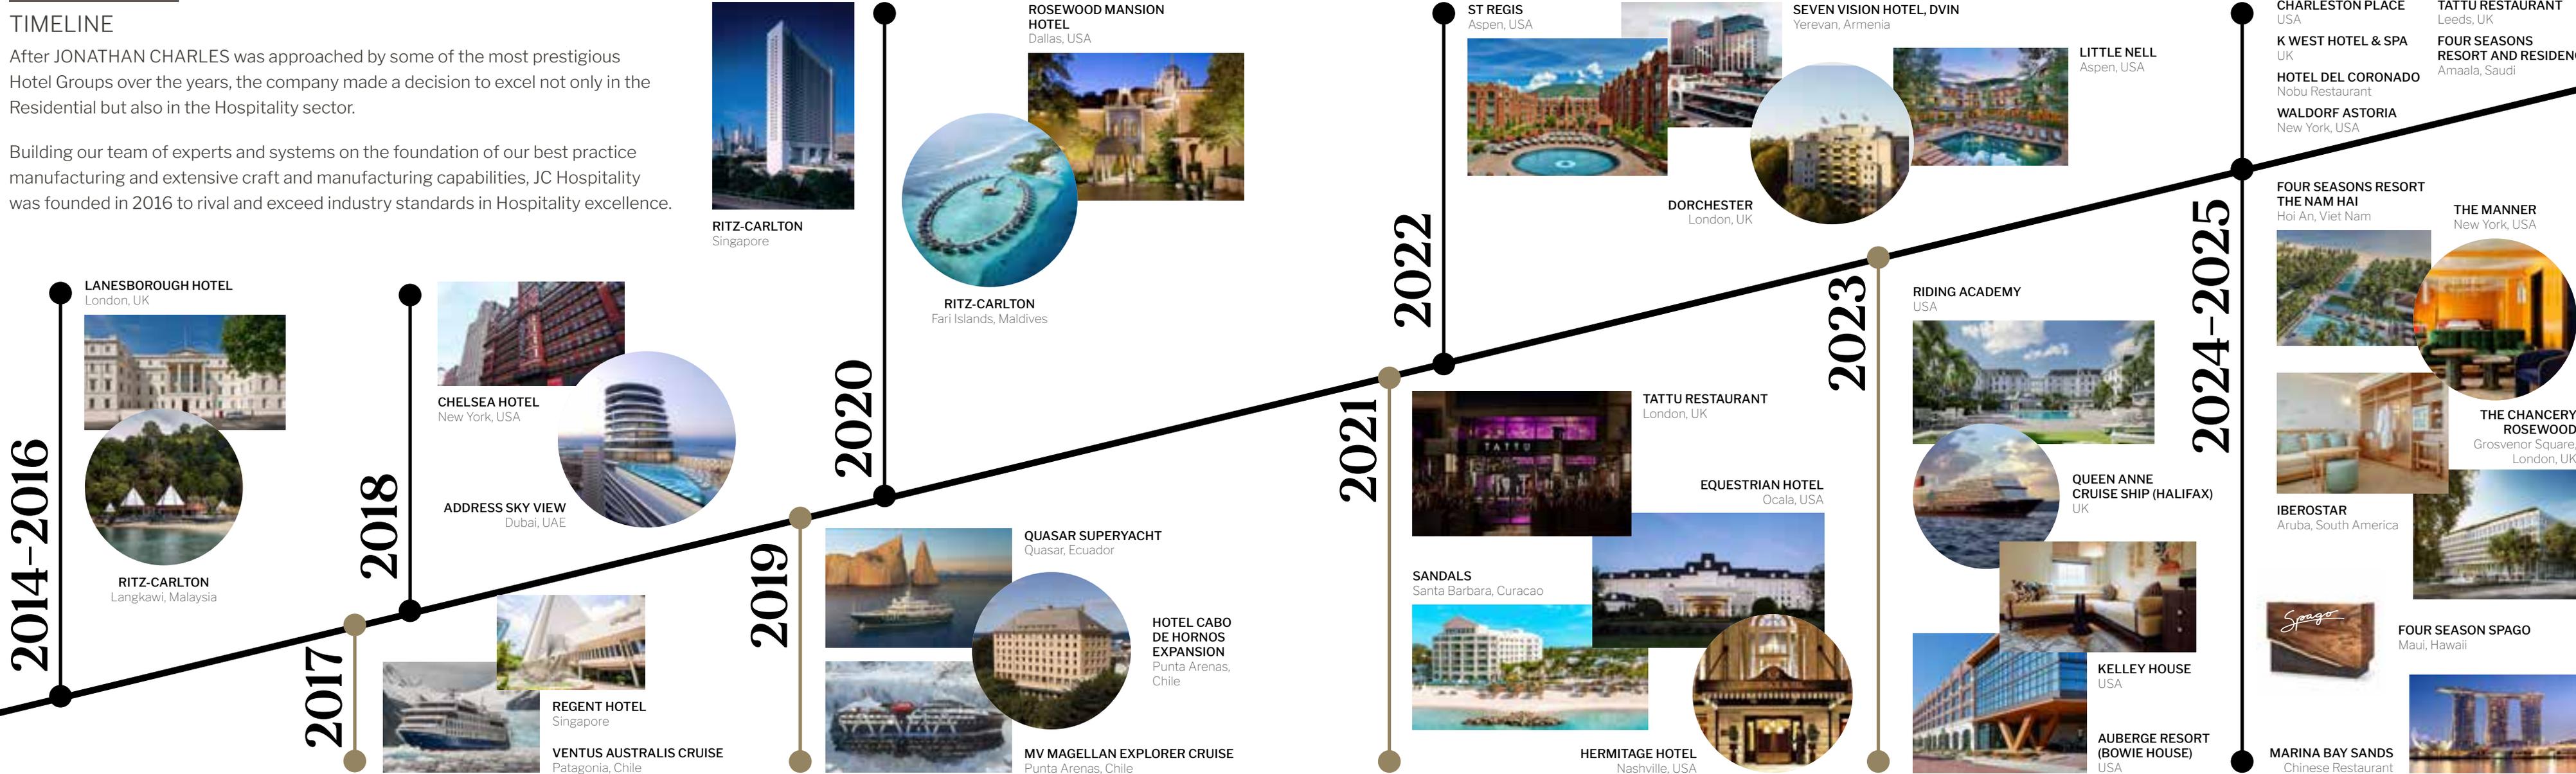

on time and in budget, with craftsmanship top of mind. The Jonathan Charles Fine Furniture product catalogue of thousands of unique and reproduction designs is a key asset to clients of JC HOSPITALITY. “Too often, the furniture in a hotel looks like it was made for a hotel, this should not be the case...it should look like it was made for a millionaire’s residence...” is the often-quoted mantra of Jonathan Sowter, founder and CEO of Jonathan Charles Fine Furniture.

JC HOSPITALITY’s furniture, lighting and accessories can be found at some of the world’s most high - end establishments, with major projects delivered at places as diverse as the Lanesborough, London to The Address Skyview in Dubai, and cruise ships and super yachts in South America.

TIMELINE

After JONATHAN CHARLES was approached by some of the most prestigious Hotel Groups over the years, the company made a decision to excel not only in the Residential but also in the Hospitality sector.

Building our team of experts and systems on the foundation of our best practice manufacturing and extensive craft and manufacturing capabilities, JC Hospitality was founded in 2016 to rival and exceed industry standards in Hospitality excellence.

SCOPE

CASEGOODS / UPHOLSTERY / OUTDOOR / LIGHTING & ARTWORK

JC Hospitality is committed to each detail in designing and manufacturing the highest quality products for the most exclusive hotel & contract projects. Having our own manufacturing facility allows us to provide bespoke designs for all of your needs, and control all aspects of the design, development, and production process.

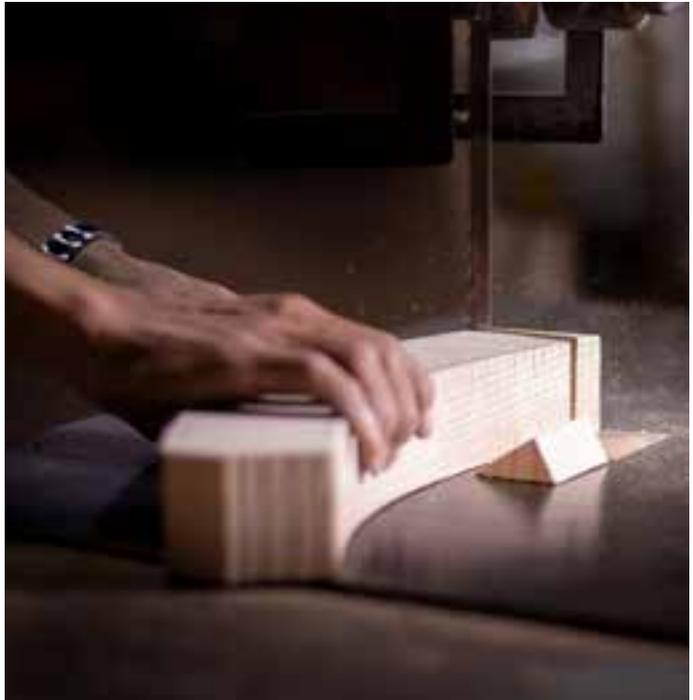

This enables us to ensure the best quality project within the desired budget. We dedicate ourselves to specializing in luxurious, high end designs, meeting project deadlines, and delivering to our clients - in all furnishing categories.

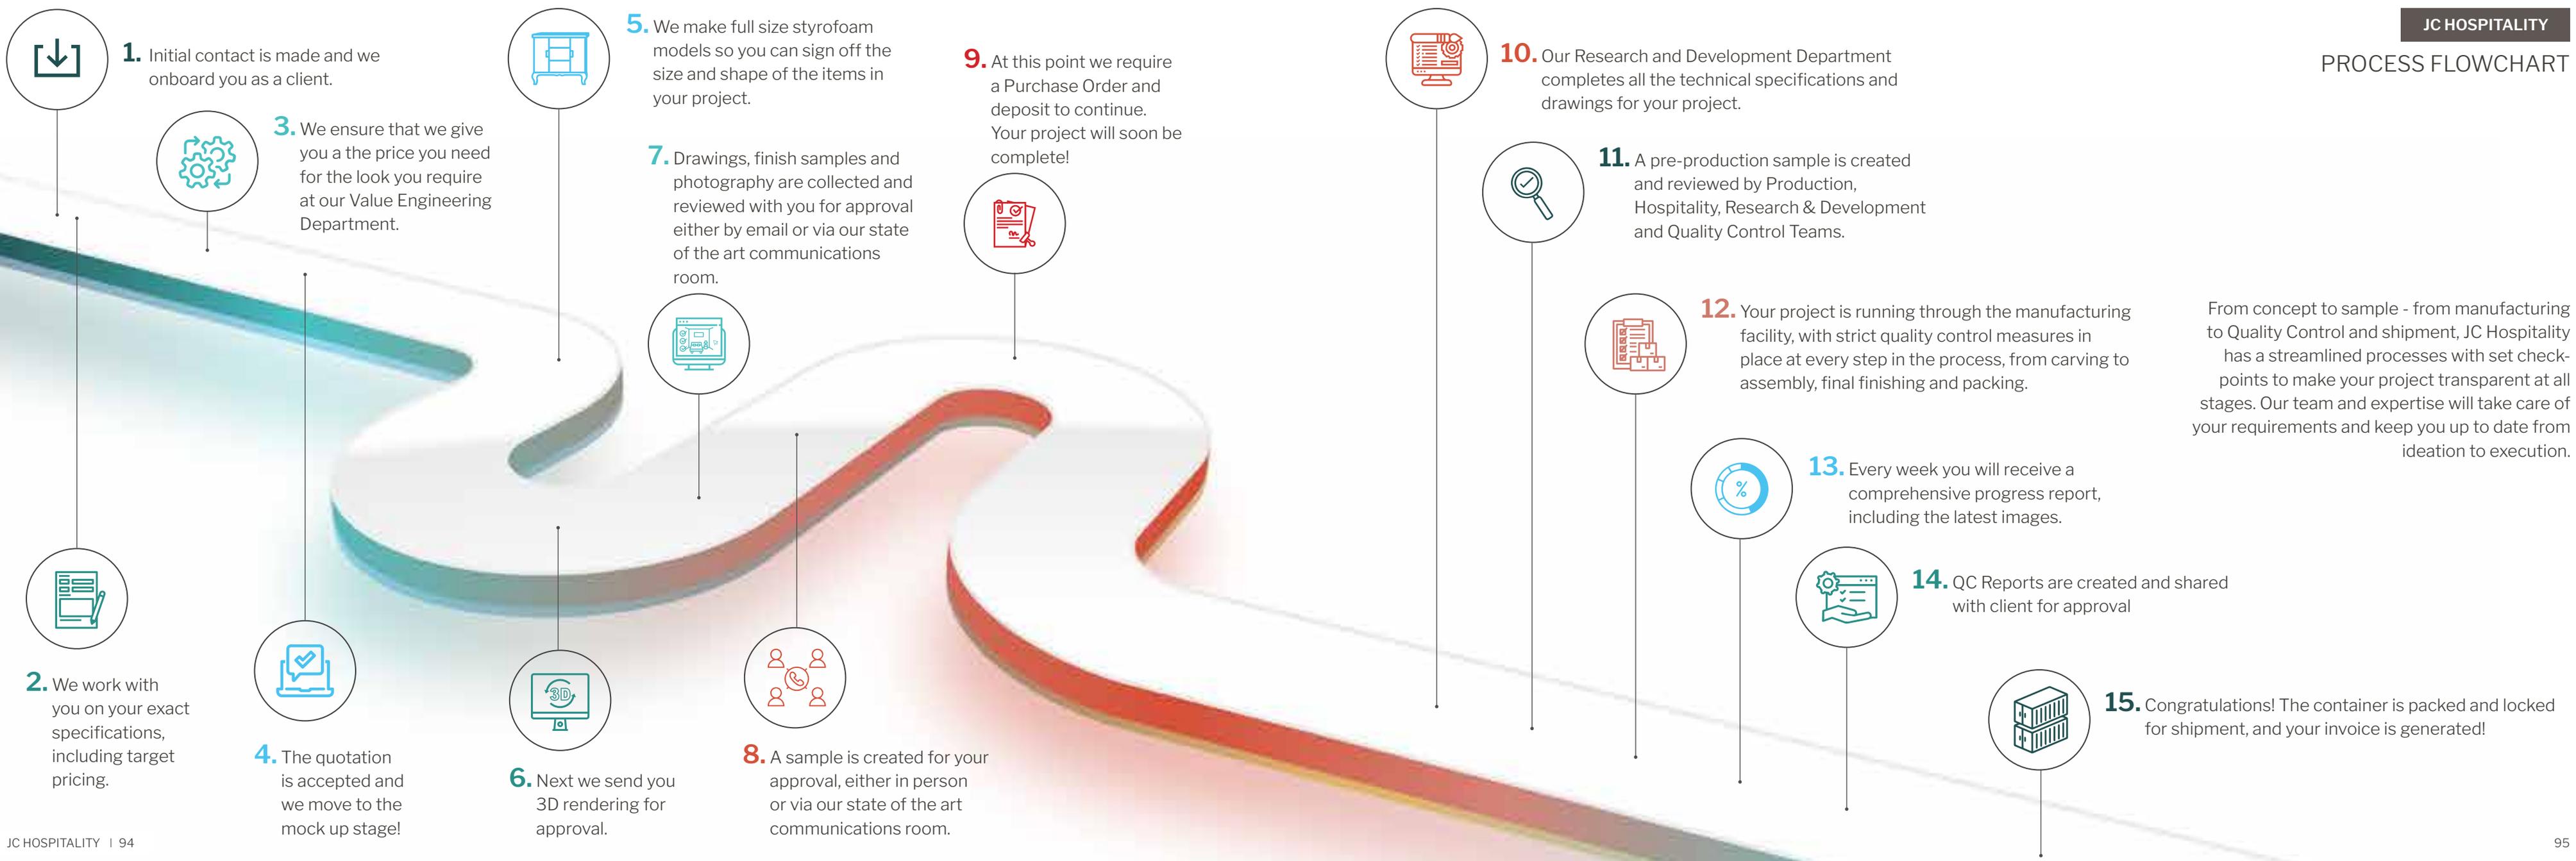

WHY VIETNAM

In the 1990s some pioneer furniture manufacturers moved to Vietnam, attracted by a young workforce with a strong background in craftsmanship. JONATHAN CHARLES Furniture was born out of those first foreign forays into the country and now the founder, Jonathan Sowter, has over thirty years of experience in the country he calls home.

Low global tariffs, ease of access to quality materials, a skilled labour force and strong welfare rights for workers mean that Vietnam remains the country of choice for many luxury furniture manufacturers. Jonathan Sowter has led those manufacturers from the front, investing in the factories and contractors, creating a working environment with global standards.

PROCESS FLOWCHART

From concept to sample - from manufacturing to Quality Control and shipment, JC Hospitality has a streamlined processes with set check-points to make your project transparent at all stages. Our team and expertise will take care of your requirements and keep you up to date from ideation to execution.

2020 - Ritz-Carlton in Maldives, Fari island, 5-star hotel

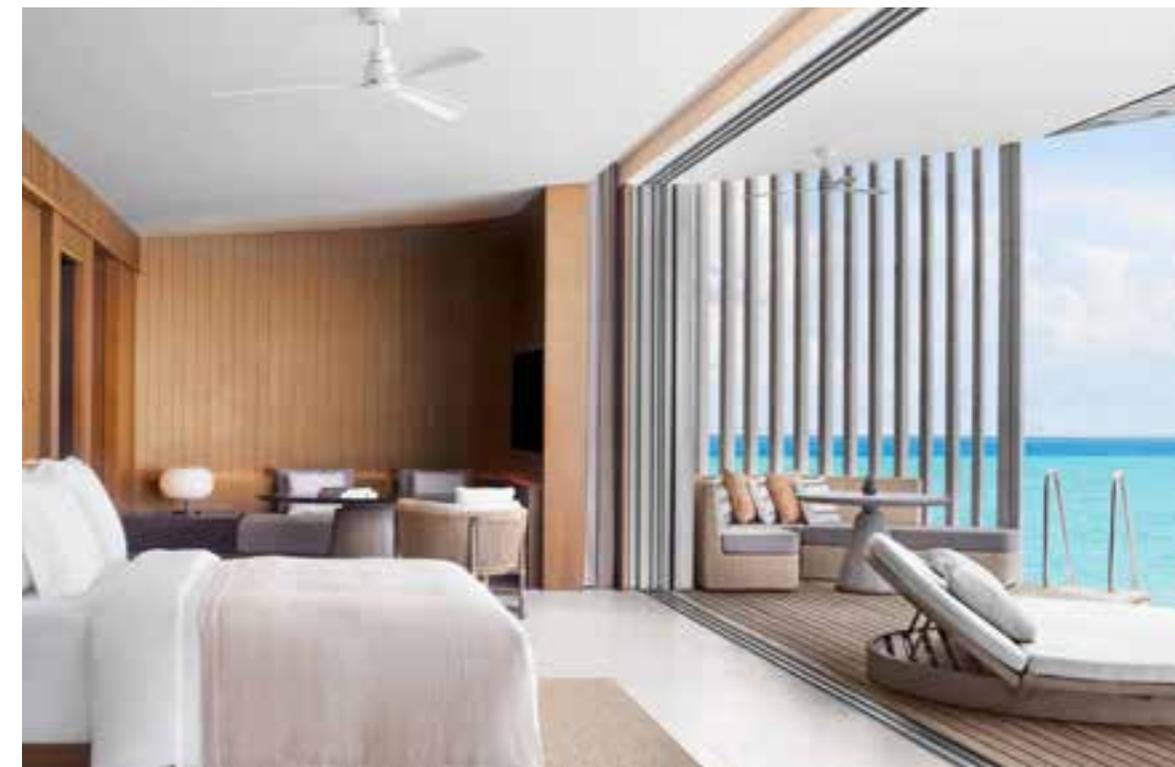

The project, located in the North Malé Atoll, features three hotels - managed by luxury hotel operators The Ritz-Carlton Hotel Co, and Patina Hotels & Resorts - a marina, and a village campus. The properties have been designed by architects Studio Mk27 (by Marcio Kogan), and Kerry Hill Architects.

Facilities on Fari Islands will include a beach club, charming boutiques and upscale F&B options, says Pontiac Land. The developer also plans to pursue creative collaborations with renowned names in art, music, culinary arts, photography, fashion and design, and roll out programs to foster a sense of community.

TATTU RESTAURANT

LONDON, UK

INTERIOR DESIGNER
Joyce Wang Studio

PROCUREMENT COMPANY
Benjamin West

OWNED BY
Tattu London

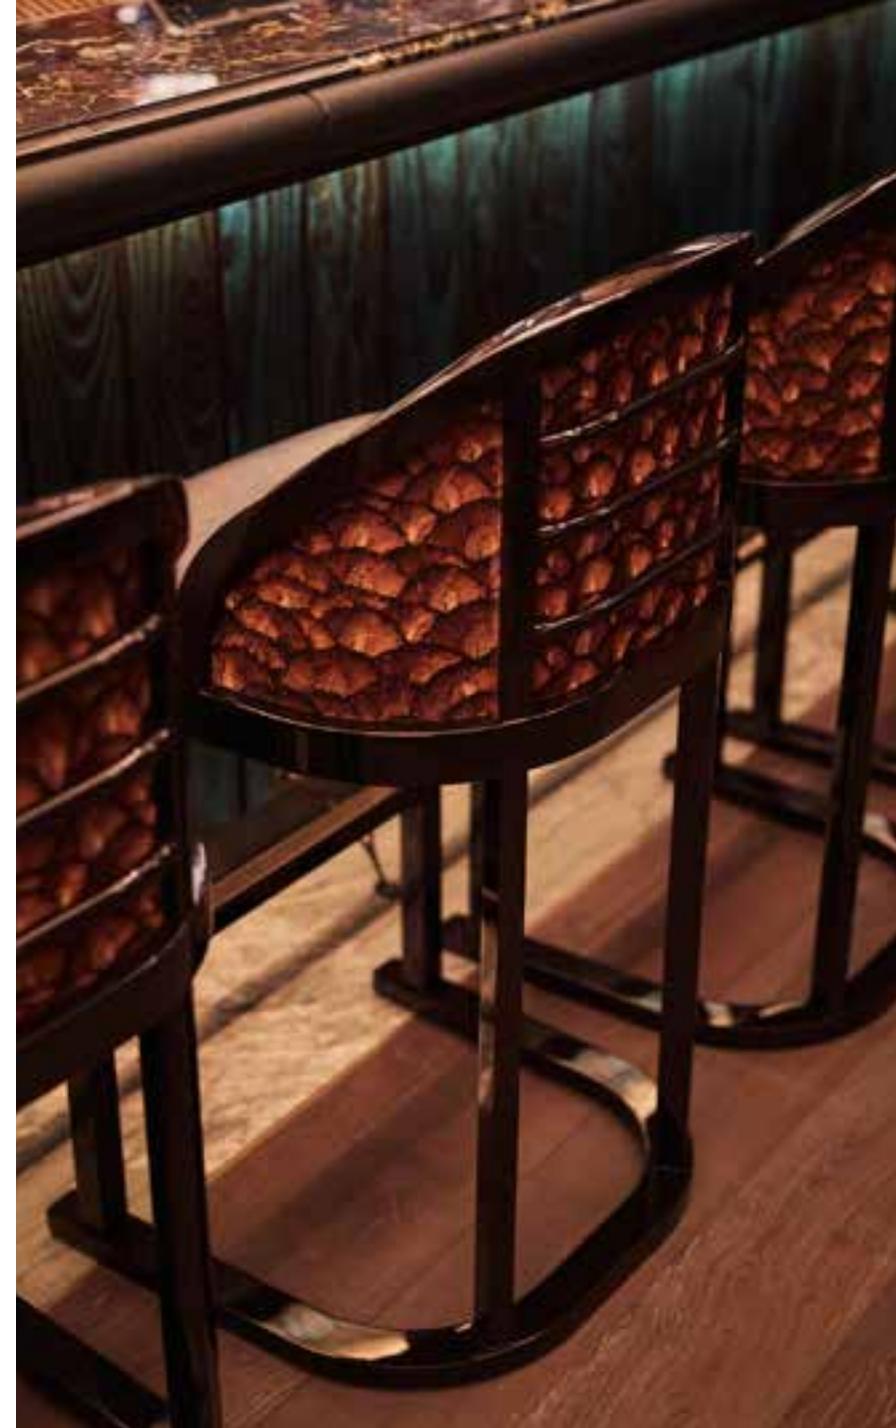

This stunning restaurants' concept was inspired by the Traditional Chinese Courtyard houses. The name Tattu is derived from the combination of "Tattoo" (the art form), and "Tatau" (an ancient eastern culture word meaning "make a mark"). This restaurant located in the heart of the UK's capital, London, certainly has "made it's mark".

LIGHTING

Welcome to our Lighting Collection, where the artistry of illumination takes center stage. Immerse yourself in the world of meticulous craftsmanship as we craft lamp bases in our foundry, sew intricate lamp shades, carve with precision, and adorn with exquisite gold gilding. Explore these radiant masterpieces and illuminate your space with unmatched elegance.

We pride ourselves on treating every piece as a stand alone work of craftsmanship, because it's all in the detail...

CRAFTSMANSHIP

At our factory, craftsmanship isn't just a skill; it's a legacy passed down through generations, and it's the very essence of the exquisite lamps we create.

Sand casting, lost wax shell casting and flask casting are all used depending on the intricate detailing, quantity, hardware or components required.

Our processes allow us to design hardware that is totally unique to each piece of furniture or collection. Solid brass and stainless steel casting is available.
