JEEP EXPERIENCE OFFROAD TOURS 2026

ENGLISH

ICELAND EXPEDITION

Your vehicle for this adventure:
The Jeep Wrangler Rubicon 4xe

DIVERSITY OF ICELAND.

THE DIFFERENT FACES OF AN ISLAND IN THE NORTHERN ATLANTIC

Iceland is not only an extraordinary natural experience - it also has great potential for natural phenomena: Volcanic eruptions, geothermal activity, earthquakes, and much more will shape our experience.

We adapt our routes every day.

Always with the aim of showing you Iceland as no one else has seen it before.

VERSATILE LANDSCAPES.

MOUNTAINS HIGH - RIVERS DEEP

FLEXIBLE & SPONTANEOUS.

SEIZING UNEXPECTED OPPORTUNITIES

Your vehicles will be waiting for you at the airport.

We will be using Jeep Wrangler Rubicon 4xe vehicles for our Iceland expedition.

After the official welcome at the Hilton Hotel and an exciting presentation about Iceland and the program, we will round off the evening with a delicious dinner at the hotel.

UNPREDICTABLE ADVENTURE

We will try to visit as many important sites as possible. The blue hour and golden hour in these regions unfold a magic all of their own that is probably unique in the world. And - if we are lucky - there is a chance of seeing the Northern Lights. Unfortunately, we can't guarantee this, but we have seen them many times in our past tours. We will return safely to our base camp in the evening.

ES

THE ADVENTURE BEGINS.

GEYSER, GULFOSS, GOLDEN CIRCLE

The next morning, we start early on our first special day.

This takes us to the Golden Circle with the famous rift between North America and Europe, the Strokkur geyser, and the golden Gulfoss waterfall.

Afterwards, we make our first contact with the highlands. Water training and the first highland trail are on the agenda.

BASECAMP LOÁ.

THE STARTING POINT OF OUR EXPEDITIONS

In the late afternoon, we check into our first base camp: the new Hotel Lóa welcomes us.

From here, we set off for the highlands every morning.
And we'll excite and inspire you anew every day.

ADVENTURES AHEAD.

EXPERIENCED GUIDES WILL LEAD YOU SAFELY.

A NEW STARTING POINT.

CHANGING PERSPECTIVES

After two days of adventure and accommodation at Hotel Lóa, we move to Landhótel. A location that is always good for viewing the Northern Lights. Even in summer.

YES. THIS IS AURORA BOREA

A vibrant aurora borealis display in shades of green and yellow over a snowy mountain range reflected in a calm body of water.

Note: There is a possibility that we may see auroras on the trip. However, as this is a natural, spontaneous phenomenon, it cannot be guaranteed as part of this experience.

ALIS.

ALL GOOD THINGS...

.. COME TO AN END

On the afternoon of the last day, we will bring you back safely to Reykjavík. This gives you the opportunity to explore Iceland's exciting capital city on your own on Friday.

Arrival and departure are individual.

2026

DONT' MISS IT.
