POLICIES & REMINDERS FOR ALL 2026 JEEP JAMBOREES

EVENT WAIVER

A fully completed and signed **Release of Liability Waiver** is required for all occupants of your Jeep and must be brought with you to on-site registration. A parent or the minor's legal guardian must sign and date a waiver for passengers under 18 years old. Your properly completed **Release of Liability Waiver**, is required before you may receive your event credentials.

NEW ON-SITE REGISTRATIONS & CHANGES ARE NOT ACCEPTED

All new registrations of vehicles as well as adding, deleting, or changing passengers must be completed (14) fourteen days prior to the Jamboree date. Please refer to the refund and transfer policy on the last page of this itinerary.

MAXIMUM TIRE SIZE

Participant Jeep tire size is not to exceed 40". If you exceed the tire limitations you will be turned away at registration, will not be allowed to attend, and will not receive a refund.

VEHICLE MODIFICATIONS

- Seat belts are required in all vehicles for all occupants.
- Maximum suspension lift allowed is 6".
- Your Jeep must be street legal, registered and insured.
- Buggy-style Jeeps are not allowed.

If you have questions regarding the acceptability of your vehicle, please contact your Adventure Consultant. If you do not meet the above conditions, you will be turned away at registration, will not be allowed to attend, and will not receive a refund. Admission of highly modified Jeeps without prior approval is subject to the discretion of the Jeep Jamboree Event Staff.

GMRS-COMPATIBLE RADIOS ARE REQUIRED

A working GMRS-compatible radio is mandatory for all Jeep Jamboree events. Please see the last page of this itinerary or visit <https://link.jeepjam.com/radios> for more information.

DRONE POLICY

Many of the land owners, federal and local agencies, etc. prohibit the use of drones. Most drones require you to have a Part 107 license if you are flying over people or publish videos. Many times our stops are for bathroom breaks which are inappropriate times for drone flights. If you may legally fly your drone, permission is still required from the guides on your trail and you must not cause any delays or disruptions as determined by the guides or staff. You are responsible for any damage, fines, penalties, and/or legal action incurred in the operation of your drone.

KNOW BEFORE YOU GO

The Jeep Jamboree USA Off-Road Driving Tips booklet is the ultimate guide to safe, common sense off-road driving. View the guide at <https://link.jeepjam.com/drivingtips>

FOLLOW THE FLOW

When you arrive at a Jeep Jamboree, you must complete these steps in this order:

Vehicle Evaluation → Registration → Trail Sign-Up

You will not be permitted to sign-up for trails until you have completed Vehicle Evaluation and Registration.

PHOTO ID REQUIRED AT REGISTRATION

The driver of record is required to show a photo ID when presenting your waiver and picking up your registration packet. The names on the ID and registration must match or you will be turned away without a refund.

NAME BADGE

Each person must wear their name badge throughout the entire Jamboree. A name badge is required for meals and must be presented whenever requested by a guide or staff member.

TRAIL STICKERS

Trail stickers provided at trail sign-ups must be displayed on your windshield prior to departing for any off-road trail ride.

TRAIL CONDITIONS

Trail conditions can vary widely between trails and even on the same trail on different days. Factors such as weather, other Jeepers, and the line you choose all have an effect on the trail and how your Jeep will traverse it. Rainfall, even from days prior, may increase trail ratings 1 or 2 points. When in doubt, ask a Jeep Jamboree Trail Guide for guidance. Please note that Federal, Tribal and Private landowners may limit the amount of brush we are able to trim back on a trail.

WEATHER CONDITIONS

Weather conditions can be dynamic at a Jeep Jamboree. We recommend you look at a 10-day forecast of weather conditions. Be sure to check the weather for all areas listed in the itinerary as different locations may have very different temperatures.

SAFETY EQUIPMENT

A fire extinguisher and first aid kit are highly recommended.

REQUIREMENTS FOR WINCH OWNERS

Winch owners are required to have an appropriately rated tree saver and soft shackle in your Jeep.

A MESSAGE FROM YOUR MOAB COORDINATOR...

Moab offers a unique opportunity to Jeepers and we welcome you to the Jamboree! We are privileged that you have decided to join us. Moab is a diverse off-road mecca and lives up to the hype. Our team of experienced and knowledgeable guides provide a one-of-a-kind experience in a diverse terrain of slickrock, sand, and rock ledges.

Stunning scenic vistas are available on every trail and the landscape varies with your viewpoint. There are a wide variety of trail options every year for the inexperienced as well as the more experienced off-road driver which includes some Badge of Honor trails.

For this fragile land we ask that you are well informed about and practice the principles of TREAD LIGHTLY. We not only enjoy our public lands but respect them and want to help maintain access for all to use and appreciate this stunning and special outdoor opportunity.

TRAIL DESCRIPTIONS (1 OF 3)

Please keep in mind that trail options can change at the last minute. The trails listed are possible choices but are not guaranteed.

- *Trail difficulty ratings constantly change as the conflicting forces of trail erosion and trail repair modify the obstacles.*
- *Trails listed here are only a sample of trails being offered during the event.*
- *You will choose one trail per day.*

7 Mile Rim • Rated 4

Trail surfaces are rutted, rocky and sandy with steps ranging from 12-30" with considerable slickrock surfaces. Erosion, washes, gulches and rock steps not exceeding 24". 33" tires are required. Scraping, bumping and use of rock rails likely. 35" tires are recommended. Many beautiful overlooks and interesting rock formations including Corral Canyon, Monitor and Merrimac Buttes, Determination Towers, Uranium Arch, and Courthouse Rock. The drive itself is interesting as the terrain changes from slick rock to sagebrush to wash bottom. Most of the trail is moderate with just a few difficult spots. Some stock vehicles with very high ground clearance and good articulation can manage this trail. A tough section down to Uranium Arch can be avoided by simply viewing the arch from above. One spot near Merrimac Butte tilts sideways to an extreme degree.

Tiptoe Through Hell's Revenge • Rated 4

Trail surfaces are rutted, rocky and sandy with steps ranging from 12-24" with considerable slickrock surfaces. Erosion, washes, gulches and rock steps not exceeding 24". 33" tires are required. Scraping, bumping and use of rock rails likely. 35" tires are recommended. The trail is as beautiful as it is confusing. It has a high vantage point with beautiful views of the La Sal Mountains and Negro Bill Canyon to the east and, from the overlook, the Colorado River. The area is also known for the Slickrock Bike Trail which draws avid bikers from all over the world. The biking trail, which is marked with painted white dashed lines crosses the 4-wheel trail several times. Be very careful at the crossing points. Always be courteous and friendly. There are numerous steep climbs and descents over sandstone domes and ledges. Excellent traction enables vehicles to surmount inclines of incredible steepness. Several tippy spots will test the leaning ability of most vehicles. *We do not offer the following obstacles on the Jeep Jamboree: The Escalator, Hell's Gate, The Staircase, and The Devil's Hot tub. These obstacles are bypassed for safety and insurance reasons.*

Fins and Things • Rated 5

Trail surfaces are rutted, rocky and sandy with steps ranging from 12-30" with considerable slickrock surfaces. Water not exceeding 12" with some mud possible. 33" tires, traction adding devices (locker, limited slip) are required. Expect scraping, bumping and use of rock rails. 35" tires are recommended. This is a thrilling drive of steep climbs and heart-pounding descents with the La Sal Mountains providing a beautiful backdrop. Part one, on the south side of Sand Flats Road, is very scenic with some steep climbs and winding, sandy and rocky trail through and around less dramatic fins. Part two, on the north side, starts gradually but ends with a roller coaster ride over fins you'll never forget. Dominated by undulating slick rock with intervals of sand, slickrock, and rocky sections.

Poison Spider • Rated 6

Trails are difficult with considerable erosion damage, loose rocks, dirt, and slickrock, steps not exceeding 36". 35" tires plus traction adding devices (lockers, limited slip) are required. Scraping, bumping and use of rock rails is likely. 37" tires are recommended. This is one of the most popular trails in Moab. Poison Spider Mesa is a fun-filled combination of challenging obstacles and incredible scenery. Much of the trail is on Navajo Sandstone slickrock. There are numerous rock ledges, sandy wash bottom, and a blow-sand hill. After the initial switchbacks that are becoming challenging for all skill levels the trail leads to a V notch called "the Wedgie" and onward to "The Waterfall" before reaching the mesa that delivers stunning views. The usual lunch stop is near a short hike to "Little Arch" that has a nice view of the Moab Rim trail.

TRAIL DESCRIPTIONS (2 OF 3)

Please keep in mind that trail options can change at the last minute. The trails listed are possible choices but are not guaranteed.

- *Trail difficulty ratings constantly change as the conflicting forces of trail erosion and trail repair modify the obstacles.*
- *Trails listed here are only a sample of trails being offered during the event.*
- *You will choose one trail per day.*

Flat Iron Mesa • Rated 6

Trails are difficult with considerable erosion damage, loose rocks, dirt, and slickrock, steps not exceeding 36". 35" tires plus traction adding devices (lockers, limited slip) are required. Scraping, bumping and use of rock rails is likely. 37" tires are recommended. Flat Iron Mesa is a lesser-known but great hard-core trail. Besides a variety of very difficult obstacles, the trail offers some outstanding scenery across Flat Iron Mesa and along the rim of 800-ft.-deep Hatch Wash. Two obstacles on this trail need special mention. Tilt-a-Whirl turns you sideways on a steep hill, forcing you into an uncomfortable lean. Easter Egg Hill squeezes you through a narrow opening between two jagged rocks while negotiating a steep, challenging, rocky descent. Both Tilt-a-Whirl and Easter Egg Hill can be bypassed. Many other challenging obstacles remain, including a tight corner hundreds of feet above Coyote Canyon, a tributary of Hatch Wash.

Steel Bender • Rated 6

Trails are difficult with considerable erosion damage, loose rocks, dirt, and slickrock, steps not exceeding 36". 35" tires plus traction adding devices (lockers, limited slip) are required. Scraping, bumping and use of rock rails is likely. 37" tires are recommended. This is a very scenic trail through the Mill Creek drainage area. There are many rock challenges and possible stream crossings (usually shallow.) Though there are many portions of the trail that are nearly flat dirt road, most of the trail consists of rock climbs and descents over stairs and ledges, most notable would be "The Fall." Don't let the trail name intimidate you, it's a good Moab trail that has challenging features but is possible for a slightly modified 4x4 vehicle.

Metal Masher • Rated 7

Trail consists of rock, sand, and considerable slickrock with many steps exceeding 48". Steep inclines and declines are prevalent. Enhanced offroad equipment is required including locking devices (front & rear), minimum 37" tires, maximum ground clearance, and tow hooks. Many high rock ledges with tight maneuvering required in several places. While some of the most difficult obstacles can be bypassed, the remaining ones are still difficult. In addition to tough challenges, the scenery along the northwest ridge is outstanding. Many high rock ledges with tight maneuvering are required in several places. The trail passes by Rock Chucker which is now a side obstacle designed for extreme Jeeps. Widow Maker is no longer included on this trail due to extensive trail damage leading to the obstacle.

Golden Spike • Rated 7

Trail consists of rock, sand, and considerable slickrock with many steps exceeding 48". Steep inclines and declines are prevalent. Enhanced off-road equipment is required including locking devices (front & rear), minimum 37" tires, maximum ground clearance, and tow hooks.

Trail leaves the Old Spanish Trail Arena at 7 a.m. An early leave time is essential for this trail that also encompasses Gold Bar Rim and Poison Spider on either end. Most of the route is near the rim above the Moab Valley and offers beautiful views in all directions. The easy parts are layered broken rock and dirt while some of the challenges are solid rock ledges that favor tall tires and locking differentials. Some obstacle bypasses, where they exist, are frequently just as difficult.

Cliff Hanger • Rated 8

Trail consists of rock, sand, and considerable slickrock with many steps up to or exceeding 60". Steep inclines and declines are prevalent. Enhanced offroad equipment is required including locking devices (front & rear) and maximum ground clearances. A winch is highly recommended. Minimum 37" tires required, 40" tires are recommended. Excellent driving skills are required. The thing you'll remember most about this trail is not the incredible scenery, but a 4-foot high ledge across a narrow shelf road perched high on sheer canyon walls. Although just one obstacle of many, this one will get your undivided attention. This is a popular biking trail so use appropriate caution and courtesy. Pull over and let bikers pass if they approach you from behind. On a trail like this, they will often make better time than you. The trail starts downhill, crosses Kane Creek, then climbs rapidly up a very rocky, steep grade. Obstacles are tall, challenging, and frequent. The second half of the trail smooths out but not before crossing a challenging narrow road on a shelf about 400 feet high. This trail is not suitable for stock vehicles.

Other trails offered at the jamboree may include:

- 3D-Pickle
- Lost World
- Moab Rim
- Copper Ridge
- Top of the World
- Rusty Nail
- Pritchett Canyon
- Rose Garden Hill
- Tommy Knocker
- Porcupine Rim
- 3D
- Dome Plateau
- Gold Bar Rim
- Buttes & Towers
- Secret Spire
- Chicken Corner
- Behind the Rocks (variations)
- Backwards Bill
- and more!

A complete list of trails will be posted on the Jeep Jamboree Moab Facebook page prior to the event as well as other trail and event pertinent information.

TRAIL RATING SYSTEM

Every Jamboree trail is rated from 1 (easiest) to 10 (the most difficult). These ratings are based on the overall trail, not just on one or two tough spots. Rain can increase ratings by one or two points. Please remember, all vehicles are subject to vehicle check prior to trail departure. Numerically higher rated Jamborees are more likely to result in vehicular damage.

- 1-2** Obstacles and terrain are relatively easy to navigate. In optimum weather conditions, some trails may not require continual use of four-wheel drive (4WD).
- 3-5** Moderately demanding. Challenge for novice drivers. Obstacles may include: mud holes, boulders, and streams. Requires 4WD with 4-LO.
- 6-7** Demanding. Challenge for most skill levels. Mud holes get deeper, boulders get larger, and climbs get steeper. Requires 4WD with 4-LO.
- 8-9** Very demanding. Likelihood of getting stuck is high. Mud holes may be deep and rock climbing is more arduous. Lifts and lockers are helpful. Requires 4WD with 4-LO.
- 10** Extremely demanding. Reserved for the toughest off-road trip in the U.S.A. – the Rubicon Trail.

Requires 4WD with 4-LO, front and rear lockers, skid plates, rock rails and an aftermarket rear differential cover.

Rubicon Trail Jeep Jamboree is limited to TJ, JK, JL and JT models only without prior approval. Jeep Renegade, Patriot, Compass, Liberty, Cherokee, Grand Cherokee, Commanders, and Wagoneers are not allowed.

During registration you will have the opportunity to discuss the trails, your driving experience, and Jeep capabilities with the trail guides. The guides will work with you to select appropriate trails. Rain may increase trail ratings 1 or 2 points, especially with street tires.

PLEASE TREAD LIGHTLY!

Travel responsibly on designated roads and trails or in permitted areas.

Respect the rights of others including private property owners and all recreational trail users, campers and others to allow them to enjoy their recreational activities undisturbed.

Educate yourself by obtaining travel maps and regulations from public agencies, planning for your trip, taking recreation skills classes, and knowing how to use and operate your equipment safely.

Avoid sensitive areas such as meadows, lakeshores, wetlands and streams, unless on designated routes. This protects wildlife habitat and sensitive soils from damage.

Do your part by leaving the area better than you found it, properly disposing of waste, minimizing the use of fire, avoiding the spread of invasive species, restoring degraded areas, and joining a local enthusiast organization.

A NOTE ON LAND USAGE

Many Jeep Jamboree USA events are held on private lands with the consent of landowners, or on public lands through special use permits. In some cases, Jamboree trail groups are granted access to trail areas which are closed to all other vehicular access during the year.

Please be aware that access to these trail areas is allowed only by guided Jeep Jamboree USA groups during the scheduled Jeep Jamboree trail rides. Individual Jamboree guests returning later to drive in these areas on their own do so in violation of Jeep Jamboree USA's land use agreements and endanger future Jamboree usage of these restricted trails as well as being removed from the Jamboree without a refund.

Thank you for your cooperation in assuring Jamboree access to some of America's most spectacular backcountry.

WHAT ARE THE REQUIREMENTS FOR MY JEEP?

- **Tow points are *MANDATORY!*** Tow points may include:
 - Tow hooks properly mounted to the frame with grade six or grade eight bolts according to official Mopar installation procedures.
 - Draw bars and receiver hitches
 - Aftermarket bumpers with manufacturer installed clevis or D-ring anchor.

If you do not have tow points, you may be turned away at registration without a refund.
- **A GMRS radio is *REQUIRED!*** There are many safety issues regarding upcoming obstacles transmitted over the radio by your trail guides. You will also learn interesting facts about the area - history, local plant and wildlife, as well as exciting stories.
- Your Jeep must be street legal including a license plate and proof of insurance.

- Participant Jeep tire size shall not exceed 40". If your tires exceed 40 inches, you will be turned away at registration, will not be allowed to attend the Jamboree, or receive a refund!
- Seat belts are required in all vehicles for all occupants.
- Snowplow frames are not allowed.
- We recommend removing running boards and steps (both factory and aftermarket) if you are planning to participate in higher rated trails.
- All open-topped vehicles, including older models (CJs, Scramblers and Willy's), are required to have roll bars.
- A tow strap with looped ends is recommended. **Straps with metal hooks are not allowed.**
- A full-size spare tire is mandatory!

FREQUENTLY ASKED QUESTIONS

ARE JEEP JAMBOREES SAFE?

Our trail guides are trained to put your safety first. If they ask you to refrain from any activity or to avoid specific trails or areas, you must follow their directions. Jeep Jamboree USA does not authorize or promote any night runs. You must wear your seat and shoulder belts. If a Trail Guide asks you to wear your seat belt and you do not comply, you will be removed from the Jeep Jamboree without a refund and banned from Jeep Jamborees.

WILL MY JEEP BE GOING THROUGH WATER?

Some Jamborees may have water crossings and mud holes. Many of these crossings and holes offer a bypass. It is very important to watch and listen to your trail guide. When driving in deep water, **go very slowly!** If your engine gets wet and stalls, **do not** try to start it as you may cause serious engine damage. For additional tips on water crossings and many other off-road situations, please refer to your copy of *Jeep Jamboree USA Off-Road Driving Tips*, available at <https://link.jeeppjam.com/drivingtips>

YOU MUST WEAR YOUR NAME BADGE

When you register on-site, you will be given one name badge per participant. Please wear your name badge while at the event as it is verification of your registration, your admission to the trails and meals, and helps everyone get to know each other.

GET CONNECTED WITH OUR FACEBOOK GROUPS

Join one or more of the Jeep Jamboree discussion groups on Facebook. Ask questions, share information and photos before, during and after your great adventure.

WHAT SHOULD I BRING?

- A basic tool kit, first aid kit, tire gauge, rain jacket, and clothing for all weather conditions are highly recommended.
- An ice chest full of your favorite non-alcoholic beverages. It is important to stay hydrated!
- A full tank of gas prior to General Attendance Meeting as you will not have time to fuel up after the meeting.
- Trail snacks and a chair/blanket for the lunch stop.
- Insect repellent, Sun Block, Medications, Hand Sanitizer, Flashlight, Camera, Binoculars
- Toilet paper and Zip-lock bags for tissue disposal

MAY I BRING MY PET?

Bringing pets is strongly discouraged. If your pet must attend, you must submit a pet waiver during registration.

WHAT IS THE POLICY ON ALCOHOL, DRUGS, ETC.?

No occupants of the vehicle will possess or consume alcohol, non-prescription drugs, or be under the influence of any substance while on the trails. Doing so means immediate expulsion without a refund and those involved will be banned from all future Jeep Jamborees.

COULD MY VEHICLE BE DAMAGED ON A JAMBOREE?

Every effort is made by Jeep Jamboree USA to make the trails as safe as possible. You are advised to closely follow instructions given by Jeep Jamboree Trail Guides. Jamborees with higher difficulty ratings are more likely to encounter rough and challenging terrain that may contribute to vehicular damage. Any damage is the owner's responsibility.

GMRS RADIO, CHANNEL, AND FREQUENCY INFO

IF YOU DON'T HAVE A GMRS RADIO YET

Your easiest and best option is to purchase one of the recommended Midland radios. These quality radios are easy to use and are available at <https://link.jeeppjam.com/radios> and at Jeep Jamborees.

RADIO DIFFERENCES AND FREQUENCIES

In late 2017, the FCC set standards for FRS/GMRS channel numbers and frequencies. Any FCC approved radio manufactured after October of 2017 will match the channels in the chart and work for your Jeep Jamboree.

FREQUENCIES AND POWER

FRS and GMRS use the same channels/frequencies. FRS runs at lower power while GMRS runs at higher power.

LICENSING

Operating a GMRS radio requires a valid license. Any radio using the shared FRS/GMRS frequencies that is able to transmit above 2 Watts of power is considered a GMRS radio and requires a license.

WHY GMRS OVER FRS OR CB?

With FRS handhelds you may hear others on the trail, but they may not hear you. GMRS has more power, meaning you can transmit farther. GMRS offers more reliability, usability, and quality over a CB radio.

| Frequency | FRS/GMRS Channel | FRS Power | FRS Bandwidth | GMRS Power | GMRS Bandwidth |
|---|------------------|-----------|---------------|------------|----------------|
| 462.5625 MHz | 1 | 2 W | 12.5 kHz | 5 W | 20 kHz |
| 462.5875 MHz | 2 | 2 W | 12.5 kHz | 5 W | 20 kHz |
| 462.6125 MHz | 3 | 2 W | 12.5 kHz | 5 W | 20 kHz |

WHY WE HAVE CANCELLATION FEES

We secure permits, book venues, order meals, and pay deposits to our partners based on your registration. These commitments are made weeks or months in advance to ensure the best possible experience. Cancellation fees help offset these non-recoverable costs.

DUE TO UNFORESEEN CIRCUMSTANCES ALL TRIPS, EVENTS, AND TRAILS ARE SUBJECT TO CHANGE OR CANCELLATION WITHOUT ADVANCE NOTICE.
