☎ (813)-505-8244

An experienced digital product designer and full-stack developer, focused on creating products that better the lives of those who use them.

Experience

UPS / Driver Helper - Seasonal

North Carolina / Nov - Dec 2023

Worked as a UPS driver helper delivering packages to customers' homes alongside the UPS driver during the busy peak season. Ensured accuracy, timeliness, and exceptional customer service.

Island Property / Web Designer and Developer - Freelance

Remote / July 2021 - Present

Designed and developed a modern, minimalistic website for Island Property, a real estate and vacation rental agency in Maine. Used Wix's EditorX and database management tools to design and develop a user-centered interface.

CQC / CNC File Designer and Machine Operator - Full Time

Raleigh, NC / April 2022 - Jun 2023

In this role I was in charge of designing files using special CAM CAD stitching software and I also managed the operation of the CNC machines. I also managed their 3 e-commerce sites, scheduled daily shipping pickups, created process manuals, and trained new employees.

UX Y'all Conference / Designer - Volunteer

Raleigh, NC / 2022 and 2023

I am proud to have been a part of an exceptional team of volunteer designers dedicated to creating both the 2022 and 2023 UX Y'all conference experience. My role involved designing web pages, crafting eye-catching marketing graphics, and creating visually appealing printed materials, including event signage and various on-site assets.

Raleigh Golf Carts / Developer and Marketing - Intern

Raleigh, NC / December 2020 - April 2021

Developed a responsive, user-focused website while using graphic design skills to create high quality advertisements used in various marketing campaigns across their social media profiles.
