* For purposes of "gain share" distributions to local governments under 2007 Oregon state law, rather than verification of a statutory hiring requirement, of which there is none.

† For latest property tax year ending on prior June 30, taxes paid are on taxable portion, which begins at \$25, \$50 or \$100 million and rises 3% per year, and possibly other associated property. For local revenue, taxes saved are adjusted using average county factors for local levies, compression effects and early payment discounts, and then reduced by subtracting taxes paid (as likewise adjusted), statutory community service fee and locally negotiated payments.

‡ Newly created and retained jobs (FTE–2,080 hours/year) for previous calendar year, excluding (indirect) jobs for construction, vendors, suppliers, other company operations, or on-site contractors other than a general project operator.

State revenues based on average wage and tax rate by income level; does **not** include other sources of public revenue or income taxes related to construction, indirect jobs or employee spending, and only 40% from retained jobs.
